Appendix to Part 11

Indices For Topographic Quadrangle Maps of the Lower Colorado River Region Produced by the U.S. Geological Survey and the (México) Instituto Nacional de Estadística y Geografía, and For Geological Maps Produced by the Servicio Geológico Mexicano
Indices for Topographic Quadrangle Maps in the Lower Colorado River Region Produced by the U.S. Geological Survey

Since the 19th century the U.S. Geological Survey has produced topographic maps for the nation. The digital resources that are available today in the ongoing “US Topo” program (http://nationalmap.gov/ustopo/) provide user-selected layered interactive quadrangles for numerous uses and printing. As the Survey describes:

“Created in the familiar 7.5-minute quadrangle format like the legacy paper maps, US Topo maps support frequent updating, wide and fast public distribution, and basic, on-screen geographic analysis. US Topo maps are available for free Web download from the USGS Store. Each map is delivered in PDF format with geospatial extensions (GeoPDF®) and is made from key layers of geographic data—orthoimagery, transportation, geographic names, topographic contours, boundaries, hydrography, structures, and woodlands—found in The National Map. The National Map is a nationwide repository of integrated data from local, State, Federal, and other sources. Recent US Topo maps also include the Public Land Survey System and the United States National Grid.”

The state index sheets for the “legacy paper maps” have not been digitized, but they are still available on paper through the U.S. Geological Survey. To use the Survey’s online versions, go to The National Map website’s interactive page, http://viewer.nationalmap.gov/viewer/, then zoom in to the area of interest. In the left-hand frame click on “Map Indices”. Map names will not appear in quadrangles until the landscape is zoomed-in to a certain level. However, one may not view large fields of contiguous quadrangles with names as one can with the paper index sheets.

Following are digitized reproductions of Arizona and California paper state-index sheets for different scales of quadrangles that lie within the greater region of the lower Colorado River, including the Salton Sea area.

---

7.5’ (1:24,000-scale) topographic quadrangles in Arizona for the greater region of the lower Colorado River

(Enlarge the PDF to read names clearly. Shaded area depicts quadrangles in Utah, top, Nevada and California, left, and areas in Mexico, bottom. Refer to the frontispiece map to see the approximate area covered by THE GRAND CANON.)
7.5’ (1:24,000-scale) topographic quadrangles in southeastern California for the lower Colorado River and Salton Sea regions

(Enlarge the PDF to read names clearly. Shaded area depicts quadrangles in Arizona, right, and areas in Mexico, bottom. Refer to the frontispiece map to see the approximate area covered by THE GRAND CANON.)
30’ × 60’ (1:100,000-scale) topographic quadrangles in Arizona for the lower Colorado River region

(Shaded area depicts quadrangles in Nevada and California, left, and areas in Mexico, bottom.)
$1^\circ \times 2^\circ$ (1:250,000-scale) topographic quadrangles in Arizona for the lower Colorado River region

(Shaded area depicts quadrangles in Utah, top, Nevada and California, left, and areas in Mexico, bottom.)
30’ × 60’ (1:100,000-scale) topographic quadrangles in Nevada for the lower Colorado River region

(In both maps, shaded areas depict quadrangles in California, left or below, and Arizona, right.)

1° × 2° (1:250,000-scale) topographic quadrangles in Nevada for the lower Colorado River region
30′ × 60′ (1:100,000-scale) topographic quadrangles in California for the lower Colorado River region

(In both maps, shaded areas depict quadrangles in Arizona, right, and areas in Mexico, below.)

1° × 2° (1:250,000-scale) topographic quadrangles in California for the lower Colorado River region
Indices for Topographic Maps Produced by the Instituto Nacional de Estadística y Geografía, and Geological Maps Produced by the Servicio Geológico Mexicano, for the Lower Colorado River Region in Mexico

The quadrangle grid system for Mexico is described differently than that of the United States. While many quadrangle maps are named, they are located according to an alphanumerical grid system that is part of a larger system, as shown below in the grid of 1:250,000-scale maps.

1:250,000-scale topographic quadrangles in Mexico

For the area covered by THE GRAND CANON in Baja California and Sonora (refer to the frontispiece map to see the approximate area), the large-scale grid coordinates I11/I12 and H11/H12 relate. Within these large-scale coordinate quadrangles, the next-smaller sized map areas are demarcated by enumeration, usually 1–12, beginning at the northwest corner of the larger quadrangle (as shown here). In turn, next-smaller map areas within the 1–12 quadrangles are demarcated by alphabetical characters (see example on the next page).

Due to availability and delivery constraints in Mexico, topographic and geological maps may be obtained commercially in the U.S. from Omnimap; for details see http://www.omnimap.com/catalog/int/mexico/mex-topo.htm (valid as of 2014).
1:250,000-scale topographic quadrangles in Mexico in the region of the Río Colorado and upper Golfo de California

Note the larger-scale grid system with coordinates H/I and 11/12, within which individual quadrangles are designated alphanumerically.
1:1,000,000-scale topographic quadrangles in Mexico in the region of the Río Colorado and upper Golfo de California

(See *next page* for information on geological maps and examples that use quadrangle names.)
The geological maps produced by Servicio Geológico Mexicano (www.sgm.gob.mx) follow the same ordinal system described above.

The quadrangles shown below and on the following page indicate both the alphanumerical grid coordinates as well as names for the quadrangles that lie within the area covered by THE GRAND CANON in Baja California and Sonora. The examples shown here are from the Servicio Geológico Mexicano.

Baja California
Sonora

End of Appendix to Part 11 of Bibliography
Engineering projects, water management and irrigation issues, and related topics in the Colorado River corridor below Grand Canyon — from Lake Mead, Arizona–Nevada, and through the Arizona–Nevada–California corridor to the Colorado River delta in Baja California–Sonora, Mexico — and proposed and existing engineering projects in the Grand Canyon; including appurtenant structures at specific sites.

[See the frontispiece map that delineates the region labelled here as “Lower Colorado River”]

This part includes all references that deal with the dams and their appurtenant structures, and water-control procedures and facilities in the lower Colorado River, from Lake Mead to the delta. Material not pertaining to water-management issue per se but directly related to the management of structures, or the investigation of cultural resources pertaining to those structures, are also included. Further included are engineering items restricted to the lower Colorado River, such as bridging. Legal issues of Colorado River water, such as interstate concerns and international treaties, are included in this part. Some legal issues relating to the Law of the River and similar administrative considerations are also included. Here also may be found documents related to irrigation, flood-control measures, and human-controlled water supply in the lower Colorado River; among them are project-specific documents and articles about the accidental Colorado River breakout and the inundation of the Salton sink during the first decade of the 20th century. Further included in this part are items relating to administrative attention to water supply in the lower Colorado River, water apportionment to political
entities in the Southwest, and constructions relating to the execution of water control and distribution. General commentaries on water management in the region are also included. Selected items pertaining to the construction of Glen Canyon Dam may also be found in this part.

As a means to accommodate the literature on proposed dams and diversion structures in Glen Canyon, Grand Canyon and Marble Canyon, but which were never constructed, documents relating to them are included in this part, as also being projects in the Lower Basin of the Colorado River.

Certain selected items that relate to the area, conditions and operation of Glen Canyon Dam will be found in appropriate other categories, depending upon whether the subject is related to, for example, administration (Part 13), physical ecology (Part 18), biological ecology (Part 19), or general interest (Part 2).

For additional comments in the Introductory Notes click here.

See Part 11, Lower Colorado River—Natural History, Environment and Special Issues for items relating to sedimentation and salinity in the lower Colorado River, and for items pertaining to natural breakouts of the Colorado River into the Salton sink.

See Part 26, Audio-Visual Works for films and similar visual productions that pertain to engineering projects in the lower Colorado River region.

1910 12.3701 Grand Canyon power dream. In: *Current News and Notes* [section]. *Electrical World*, 56(15)(October 13):856. [Proposed dam, "700 ft. high that will store the water of the Colorado River in the Grand Canyon * * * [located] just across the California line in Arizona . . . and close to the Nevada border."]

1911 12.2381 Plan immense power project along the Colorado River. In: *Development News* [section]. *The Pacific Monthly*, (January):113f. [Location unspecified; "just across from the California line, and near the Nevada boundary", "across the Grand Canyon"].

1911 12.3662 [Colorado River dam.] In: *Reclamation Notes* [section]. *Irrigation Age*, 26(6)(April):881. ["Under authorization of act of Congress, passed March 1st, the Greeley-Arizona Irrigation Company, composed of Los Angeles, Arizona and Colorado capitalists, is preparing plans for the construction of a great dam on the Colorado river, for the purpose of irrigating the lands within the boundaries of the Colorado Indian Reservation. (entire item)]

1911 12.3653 Phoenix, Ariz. In: *General News* [section]. *Electrical World*, 58(24)(December 9):1455. ["The Board of Supervisors has granted the Tracy Engineering Company a franchise to erect and maintain a transmission system from the Colorado River to Kingman and vicinity. The company is planning to build a large hydroelectric power plant on the Colorado River." (entire item)]

1911 12.3654 Kingman, Ariz. In: *General News* [section]. *Electrical World*, 58(26)(December 23):1569. ["The Supervisors of Mohave County have granted the Aracy Engineering Company a franchise to operate on various places on the Colorado River in the vicinity
of Kingman, especially in the vicinity of the McCracken mines. A large hydroelectric plant will be built on the Colorado River and will supply electricity to the McCracken mines and other properties in this vicinity." (entire item)]

1912 12.4590 [Chuckawalla Dam.] *The Irrigation Age*, 27(4)(February):140. ["Construction of the Chuckawalla dam across the Colorado river at a point forty miles north of Needles, Ariz., will be commenced in about six months. The plans include an intake dam and settling reservoir about fifteen miles above Ehrenberg. Plans call for fifty miles of initial canals to distribute the water over 300,000 acres. A. H. Koebig, of Los Angeles, Calif., is the engineer in charge of the construction work, and he states that it will take about 5 years to complete the project. The company which will undertake the work is capitalized at $10,000,000." (entire item)]

1912 12.4591 [Colorado River siphon.] *In: Reclamation Notes [section]. The Irrigation Age*, 27(4)(February):144. ["The United States Reclamation Service has completed 39 per cent of the work of building a siphon under the Colorado River to carry water fourteen miles from the Laguna dam on the Arizona-California border to irrigate 55,000 acres of land in the Yuma valley." (entire item)]

1912 12.4592 [Reclamation near Cibola, Arizona.] *In: Reclamation Notes [section]. The Irrigation Age*, 27(4)(February):146. ["A. J. Clippy and A. B. Hamilton, both of Los Angeles, Cal., together with other capitalists, are planning the reclamation of an immense tract of land near the city of Cibola [sic], Yuma county, Arizona. The main canal of the system will be seventeen miles in length with one hundred miles of ditches. Water will be taken from the Colorado River for irrigation purposes. It is stated that it will take two years to complete the project." (entire item)]

1912 12.4594 [Colorado River siphon.] *In: Reclamation Notes [section]. The Irrigation Age*, 27(7)(May):264. ["The building of a 1,000-foot siphon, 100 feet under the Colorado river, from California to Yuma, has been accomplished. The opening of the siphon will open 100,000 acres of the Yuma irrigation project. Water will be turned into the canal late this month and a formal celebration will probably be held on June 17. The building of this siphon is one of the greatest and most dangerous pieces of engineering work ever undertaken by the Reclamation Service." (entire item)]

1912 12.2440 [Dam at Diamond Creek.] *In: General Mining News [section]. Mining and Scientific Press*, (May 18)(2704):707. [See under "Mohave County": "It is reported that a Los Angeles corporation will begin work on a dam across the Colorado river at the mouth of Diamond canyon for hydro-electric power development." (entire note)]

1912 12.3057 Kingman, Ariz. [news]. *In: Editorial Correspondence [section]. Engineering and Mining Journal*, 94(9)(August 31):418. ["M. W. Musgrove has recently returned from New York. His Eastern trip was for the purpose of interesting certain men in a project for damming the Colorado River near the place where it emerges from the Grand Cañon. He was authorized to procure the necessary engineer’s report and last week
accompanied Frank Culbertson to Grass Springs and Pierce's Ferry, to assist in making an examination. If the plan is carried out it will provide power for the mines of Mohave County at a lower cost of production than is present possible.” (entire item)]

1912 12.3134 Kingman, Ariz. [news]. In: Editorial Correspondence [section]. Engineering and Mining Journal, 94(12)(September 21):564. [Includes note of "M. W. Musgrove, who is promoting the project for a dam and power plant on the Colorado River, north of Kingman, has again gone to New York to confer with the men whom he has interested in his plans." Also notes a "recent trip from Pierce's Ferry to Needles" by "Mr. Culterson, the consulting engineer for the proposed company"].

1913 12.4778 Kingman, Ariz. In: Hydro-Electric Projects [section]. Water Power Chronicle (Detroit, Michigan), 1(1)(January):15. ["A hydro-electric development at the mouth of the Grand Canyon is reported to be planned by Mr. M. W. Mustgrove of that city, but not verified.” (entire item)]

1913 12.55 [Editorial on selling water by current meters.] Engineering News, 69(January 9):79. [Imperial Valley.]

1913 12.4587 Little life histories; outline sketch of the firing-line engineer who tamed the Colorado. *The West Coast* (Los Angeles), 14(3)(September/October):29, 44. [Regarding Clarence K. Clarke.]

1913 12.3758 Gilding the moon. *The Country Gentleman*, 78(48)(November 29):1736. [Editorial, discounting an "Elk City, Oklahoma, man who is spreading himself in the public prints with a plan to dam the Grand Cañon of Arizona and impound four thousand square miles of water with which to irrigate the Southwestern plains."]

1914 12.2595 [Water power development in Grand Canyon.] *In: Current Electrical News [section]. Electrical Review and Western Electrician*, 64(1)(January 3):50. [Under "Tucson, Ariz." notice, in part, "A hydroelectric power company, headed by Ralph Cameron, Col. Epes Randolph and Eugene S. Ives, has been tentatively organized here to construct a large power dam across the Colorado River at the Grand Canyon near Bright Angel Trail . . . ."]

1914 12.2684 [Colorado River Hydro-Electric Company.] *In: Current Electrical News [section]. Electrical Review and Western Electrician*, 64(22)(May 30):1111. ["Las Vegas, Nev.—Articles of incorporation have been filed here for the Colorado River Hydro-Electric Company, with a capital stock of $5,000,000, to develop power in the Colorado River, a plant to be located at Boulder Canyon, east of Fort Calville. The directors are William forman, Thomas Lindsey, W. R. Williams, Henry C. Schmidt and M. B. Schmidt, all of Tonopah." (entire item)]

1914 12.4543 [Note.] *In: The Mining News [section]. Engineering and Mining Journal*, 97(23)(June 6):1167. [Under Clark County, Nevada: "Preliminary survey of Boulder Cañon power site has been made. It is proposed to utilize water of Colorado River for power purposes before it enters Grand Cañon [sic]. River is now too high to make soundings; this will be done later this summer." (entire note)]

1914 12.4648 Break in Volcano Lake levee; Colorado River flood situation at Imperial Valley—a serious break was prevented and a levee of lesser importance failed. *Engineering Record*, 70(1)(July 4):10-11.
1914 12.4650 Imperial Valley water supply subjected to state regulation; California State Railroad Commission decides that development company is amenable as a public utility. *Current News* (Engineering Record), (August 8):75.

1914 12.3058 [Dam and hydroelectric plant on Colorado River.] *Mining and Engineering World*, 41(9)(August 29):380. [The Colorado River Hydro-Electric Co., a $5,000,000 corporation, is preparing to build a dam and hydro-electric power plant in the canon of the Colorado river. Letson Balliet of Tonopha, Nev., is the engineer in charge of the work.” (entire item)] [Filler.]

1915 12.2598 [Proposal to dam Grand Canyon.] In: Along the Trail [section]. *Santa Fe Magazine*, 9(4)(March):75-76. [“Damming the Grand Cañon of Arizona is the startling proposition of Capt. C. B. Kelton, one of the representatives in the state legislature from Cochise County. Captain Kelton proposed to utilize the labor of Arizona convicts in constructing a big dam at the lower end of the cañon, which he says would impound enough water to irrigate every foot of land in all that portion of the state.” (entire item)]

1915 12.3144 Both prizes to Cornell men. A.S.C.E. rewards H. T. Cory ’93 and J. S. Longwell ’10. *Cornell Alumni News*, 17(26)(March 25):302. [Notes, “Mr. Cory is a consulting engineer in San Francisco. His big job, which gave him a national reputation, was performed in 1906-7, when he had personal charge of the work of diverting the Colorado River from running into the Salton Sea in southern California.” (entire note of pertinence)] [American Society of Civil Engineers.]

1915 12.65 Colorado River can supply Imperial Valley’s needs. *Engineering Record*, 71(June 19):788.

1915 12.3273 [Filler or blind advertisement.] *Popular Mechanics Magazine*, 24(3)(September):130. [Small item pertaining to a “recent report” that “The flow of the Colorado River is sufficient to irrigate the entire Colorado delta . . . .”]

1915 12.2879 [“Preliminary operations” planned for power-production sites in Grand Canyon.] In: *Construction News* [section]. *Electrical World*, 66(11)(September 11):615-616. [“Phoenix, Ariz.—James B. Girand, city engineer, has announced that the Department of the Interior has granted permission to conduct preliminary operations in connection with the establishment of six dams, reservoir and power sites in the Grand Canyon of Arizona, by which it is proposed to develop over 400,000 hp. of hydroelectric energy. It is reported that, in addition to furnishing electrical energy for railroads and mines, the plan includes a scheme for the electrical fixation of atmospheric nitrogen for the manufacture of fertilizer.” (entire item)]

1915 12.2880 Big power project started. In: *The Week’s News* [section]. *Municipal Journal* (New York), 39(12)(September 16):439-440. [Surveys to begin for power-production dams in Grand Canyon. “While the power that is to be generated by the big system will be used for railroads and various kinds of industrial plants, one special purpose to which it is to be put is that of manufacturing calcium nitrate on a large scale.” (p. 440)]

1915 12.4707 [Grand Canyon dam surveys.] In: *News Notes* [section]. *Journal of Electricity, Power and Gas* (San Francisco), 35(14)(October 2):277. [“Phoenix, Ariz.—The United States Department of the Interior has granted permission to promoters to make preliminary surveys for the proposed six dams that are to be built in Grand Canyon, also for sites of reservoirs and hydroelectric plants to be constructed. J. B. Girand, city engineer of Phoenix, will have charge of surveys. The first dam will be located in Diamond Canyon, north of Peach Springs, [and] will develop 50,000 h.p. The six hydroelectric plants will have a capacity of 400,000 horsepower.” (entire note)]

1915 12.4789 Hydro-electric "uneconomics". Power (New York), 42(16)(October 19):554. [Comments on an article that had appeared in the Columbus (Ohio) Dispatch, regarding a plan to build six hydroelectric dams in the Grand Canyon.]

1916 12.2717 The surveys for the proposed Colorado River Dam. In: Notes and Queries [section]. Engineering News, 76(8)(August 24):371. [Correction to Item no. 12.2716; base line is 780 ft., not 200 ft.]

1916 12.77 Build dam across the Colorado River in seven days. Engineering Record, 74(August 12):215. [Also see: Must remove by November 1, p. 303.]

1916 12.3710 [Power production in Grand Canyon.] In: Construction [section]. Electrical World, 68(8)(August 19):398. [*Williams, Ariz.—The Grand Canyon reservoir and hydroelectric project, it is reported, as been taken over by E. P. Ripley, president of the Atchison, Topeka, & Santa Fe Railroad and his associates. The proposed project
involves the construction of a dam across one of the laterals of the Grand Canyon and the storage of water for operating a large hydroelectric plant, the irrigation of more than 200,000 acres of land. Electric transmission lines, it is understood, will be erected to mining districts, towns and industrial centers within a radius of 200 miles of the generating plant. Permanent surveys will be finished and construction work, it is understood, will be started before the middle of November.” (entire item)]

1916 12.3705 [Power production in Grand Canyon.] In: Current Electrical News [section]. Electrical Review and Western Electrician, 69(9)(August 26):394. [“Williams, Ariz.—It is understood that E. P. Ripley, president of the Atchison, Topeka & Santa Fe Railroad, and his associates have taken over the Grand Canyon reservoir and hydroelectric project. Plans for this enterprise involve the building of a dam across one of the laterals of the Grand Canyon and the storage of water for operating one of the largest hydroelectric plants in this country, including the irrigation of more than 200,000 acres of land. Electric power transmission lines are expected to be constructed to mining districts, towns and industrial centers within a radius of 200 miles of the generating plant. The dam will be the highest in the world and the capacity of the water storage reservoirs will be larger than that formed by the famous Assuan dam across the Nile in Africa. Some of the engineers are already on the ground and others will arrive in a few days. It is understood that permanent surveys will be finished and construction work started before the middle of November.” (entire item)]

L. Huber, with legend. *NOTE:* "The picture shows a striking power possibility at the Coconino Dam site on the Little Colorado River, south of the Grand Canyon, and north of Santa Fe, in Arizona."]

1919 12.4654 Arthur Theodore Mercier. In: Personal Mention [section]. *Railway Maintenance Engineer*, 15(1)(January):33. [Includes the note, “In 1904 he was employed by the Southern [sic] Pacific on the Los Angeles division as roadmaster’s clerk and transitman, being assigned to work in connection with reconstruction necessitated by the overflow of the Salton Sea.” (entire note)]

1919 12.117 Imperial Valley active on All-American Canal; delegation to come to Washington. *Engineering News-Record*, 82(June 26):1283.

1919 12.4775 Gen. Fremont was a road builder; he also had irrigation vision. *Western Highways Builder* (Los Angeles), 1(17)(October):23.

1920 12.3712 Reclamation project outlined by Lane. In: Happenings in the Industry [section]. *Journal of Electricity*, 44(7)(April 1):335-336. [Former Secretary of the Interior Franklin K. Lane presented an address to the Los Angeles Chamber of Commerce, on harnessing the Colorado River.]

1920 12.2369 To dam the Grand Canyon. *Public Works* 48(17)(May 8):400. [Ralph Cameron announcement. Grand Canyon; location not indicated.]

1921 12.2778 Gigantic Colorado River project. *Journal of Electricity*, 46(January 15):60-61. [“... above the Bowlder [sic] Canyon project, at Marble Canyon and Diamond Creek ...”]

1921 12.2906 Water-power applications, 13,469,181 hp.; Federal Power Commission reports 168 applications for preliminary permits on Jan. 29—twenty-five applications filed during

1921 12.4780 Power project a five-year undertaking. In: News of the Electric Railways [section]. Electric Railway Journal, 57(8)(February 19):376. [*Application for water-power development on the Colorado River in Mojave County, Ariz., which, producing 480,000 hp., will make possible the electrification of 500 miles of the Atchison, Topeka & Santa Fé Railway, and irrigation of approximately 500,000 acres of land, has been filed with the Federal Power Commission, by E. L. Beyard of Seligman, Ariz. This project is backed by Kansas City and Philadelphia financiers in a corporation capitalized at $6,000,000. In this project it is proposed to construct eight dams, the first of which will be located about 25 miles due north of Needles, Cal., and the last of which will be built inside Grand Canyon National Park.” (entire item)]

1921 12.3368 To develop electric power from Colorado River. Engineering World, 18(3)(March):186. [Marble Canyon and Diamond Creek.]

1921 12.3684 [Colorado River power project sites.] In: Consulting Engineers' News [section]. Steam (New York), 27(3)(March):81. [*"The National Engineering Service Corporation, having principal offices in Kansas City, Mo., and business offices in New York and Chicago, has been engaged to have full charge of all the engineering and construction of Water-Power Project No. 59, Arizona, Nevada and Hualapai Indian Reservation, consisting of seven power sites on the Colorado River. This is one of the notable water-power projects under consideration, and it is expected that work will be undertaken immediately.” (entire item)]

1921 12.2431 Two large dams proposed in the West. Public Works, 50(10)(March 5):208. [About dams in the Colorado River "about 100 miles below the Grand Canyon" (i.e., the Boulder Canyon project), and the Rio Grande.]

1921 12.135 Colorado River problems being studied actively. Engineering News-Record, 86(May 19):862.

1921 12.1525 U. S. to construct world's highest dam. In: Editor's Chat [section]. Universal Engineer (Universal Craftsmen Council of Engineers of the World), 33(5)(May):64. [Boulder Canyon.]

| 1921 | 12.2886  | Power development planned; resume of plans in Idaho, Wyoming, California, etc. *American Contractor*, (October 15):33. [Entire notes: "Project No. 238. construction of a dam 550 feet high at Boulder Canyon, Colorado, Colorado River, in Nevada and
Arizona, proposed by the City of Los Angeles, California. “Project No. 230. Construction of a dam and power house in the Colorado River at the mouth of Andrus Canyon, Mohave and Coconino Counties, Arizona, proposed by James B. Girand, Phoenix, Ariz.” “Project No. 231. Construction of dam and power house in the Colorado River above Pierces Ferry, Mohave County, Arizona, proposed by James B. Girand, Phoenix, Ariz.”]

1921 12.2881 Planning to harness the Colorado River; project of great importance to future mining industry in Southwest. In: The Mining News [section]. Engineering and Mining Journal, 112(18)(October 29):708. [Also see J. H. McClintock (1921) (Item no. 12.2882).]

1921 12.2902 More licenses and permits are issued by Federal Power Commission. In: News of the Industry [section]. Electrical World, 78(18)(October 29):888. [Includes: “Southern California Edison Company, Los Angeles; preliminary permit; dam and power house in Boulder Canyon, dam and power house in Pyramid Canyon, Colorado River, Mohave County, Ariz., and Clark County, Nev.; public utility; power capacity, 900,000 hp.; installed capacity, 1,200,000 hp. (This application is in conflict with the application of Edward L. Bayard of Seligman, Ariz., and with the application of the City of Los Angeles.)” (entire note)]

1921 12.2590 One million volts. The World's Work, 43(1)(November):15. [Laboratory demonstration of electrical transmission at one million volts thus “establishes the feasibility of the Colorado River project, where it is proposed to generate several million hydroelectric horsepower above the Grand Canyon” for western distribution. Presumably in reference to the so-called Lees Ferry dam.]

1921 12.2903 Why Colorado River should be developed; steady growth of load in Southwest will force early hydro-electric development—protection of Imperial Valley against floods and need of water for additional irrigation are other factors. Electrical World, 78(2)(November 12):963-967.

Proposal to develop Colorado River power for railroad electrification. *Electrical World*, 78(23)(December 3):1139. [Series of dams proposed for Colorado River between Pyramid Canyon and the projects proposed upstream in Boulder Canyon.]

Discuss Colorado River power development; controversies by adherents of public and private operations block results. *In: News of the Week* [section]. *Engineering News-Record*, 87(24)(December 15):1001-1002.

A half billion power project. *National Reclamation Magazine* (St. Louis), 1(2)(January):50.

What the Colorado River conference will do; Secretary Hoover, chief of engineers and head of Reclamation Service outline federal view of problem. *Engineering News-Record*, 88(February 9):255-256.

1922 12.4721 Colorado River Commission holds hearings at Phoenix; representative from seven states present various plans for the development of the Colorado River with reference to irrigation, hydraulic power and flood control. *Arizona Mining Journal,* 5(21)(April 1):8-9, 36.

1922 12.2890 [San Bernardino, California, Chapter notes.] In: Chapter Notes [section]. *Professional Engineer* (American Association of Engineers), 7(4)(April):20-21. ["The Chapter had a booth in the industrial department of the Twelfth National Orange Show held in San Bernardino. In the booth was shown a model of the proposed Boulder Canyon dam, and a model of a six-story business block made upon the same scale as the model of the dam, which gave the public a comprehensive idea of the magnitude of the project." (entire note of pertinence)]

1922 12.3317 Notes from the Pacific coast. In: Shots From the Firing Line [section]. *The Excavating Engineer,* 16(4)(April):114-115. [Includes notes on the Pescadero Cut; and another note on bid for excavation and embankment work on the Colorado River awarded to Palo Verde Mutual Water Co. of Blythe, California.]

Colorado River; its control and development; hydraulics of the river and the demand for power, flood control and irrigation subject of a federal report—recommends Boulder Canyon dam and All-American Canal in Imperial Valley. *Engineering News-Record*, 88(18)(May 4):741-744.

U. S. Reclamation Service recommendations on lower Colorado basin. *National Reclamation Magazine* (St. Louis), 1(6)(June):93, 98. ("Resume from Official Report to Congress.")

Fuertes Gold Medalists. *Cornell Civil Engineer*, 30(9)(June):148. [Under "Graduates" is listed: "Harry Thomas Cory. 1913. Irrigation and River Control in the Colorado River Delta." The graduate Fuertes gold medal is "awarded annually to that graduate of the School of Civil Engineering who may write a meritorious paper upon some engineering subject tending to advance the scientific or practical interest of the Profession of the Civil Engineer."]

Colorado River development and the mining industry; need for reliable power supply at reasonable cost—development of untapped resources—flood control—the problem of site selection. *Pacific Mining News*, 1(2)(June):33-34.

Supreme Court sets up prior use decision. *Engineering News-Record*, 88(June 22):1057.

[Dam site survey on upper Colorado River to Lees Ferry.] *In*: Personals [section]. *Journal of Electricity and Western Industry*, 49(6)(September 15):222. ["E. C. La Rue of the water resources branch of the U. S. Geological Survey, A. P. Davis, director of the United States Reclamation Service, R. E. Caldwell, state engineer of Utah, Dr. John A Widtsoe, consulting engineer and Clarence C. Stetson, secretary of the Colorado River Commission, recently completed a trip by boat through 120 miles of..."
the Colorado River between Halls Crossing and Lee’s Ferry. The party inspected the entire 120 miles of canyon with a view of determining upon the possible dam sites on that section of the Colorado.” (entire item)]

1922 12.3733 [Diamond Creek dam site.] *In: Industrial News* [section]. *Journal of Electricity and Western Industry*, 49(8)(October 15):296. "That the Diamond Creek site on the Colorado River will be used for developing hydroelectrical power is the opinion of Congressman Carl Hayden of Arizona. The proposed plan for development was worked out by James B. Girand.” (entire item)]

1922 12.3734 [Pescadero Dam and cut.] *Journal of Electricity and Western Industry*, 49(8)(October 15):300. "A recent tour of investigation by Roy L. Carberry, chief engineer and general manager of the Imperial Irrigation District, showed that the Pescadero Dam and cut have actually diverted the Colorado River overflow entirely away from the Imperial Valley. A channel is rapidly forming and lowering itself into the ground. the overflow at 5 miles below the dam is in a direction opposite to that of Volcano Lake, showing that the general course is away from and not toward the Imperial Valley. There is evidence, too, that the Volcano Lake country can drain off and become absolutely dry.” (entire item)]

1922 12.3847 Colorado River compact concluded; commissioners at Santa Fe meeting end their work which will be submitted for approval to the interested states and federal government. *Water Resources and Electric Utilities*, 2(6)(November):19-20.

1922 12.3666 Editorial comment. *National Reclamation Magazine* (St. Louis), 1(12)(December):216. [Includes note, “. . . now seven states have gotten together in the solution of that mutual problem growing out of utilizing the waters of the Colorado River.”]

of river lying within Grand Canyon National Park, which part is excluded from the proposed development.” (p. 23); No. 121, James B. Girand, New York, license, “Power development in the Colorado River, at Diamond Creek, Ariz.” (p. 23); No. 230, James B. Girand, Phoenix, preliminary permit, “Dam and power house in Colorado River at the mouth of Andrus Canyon, in Mohave and Coconino Cos., Ariz.” (p. 28); No. 231, James B. Girand, Phoenix, preliminary permit, “Dam and power house in Colorado River, just above Pierces Ferry, in Mohave Co., Ariz.” (p. 28); No. 238, "City of Los Angeles, preliminary permit, "Dam 550 feet high, at Boulder Canyon in Colorado River, Nev. and Ariz.” (p. 28); No. 258, Southern California Edison Co., Los Angeles, preliminary permit, "Dam and power house at Boulder Canyon, and second dam and power house in Pyramid Canyon, in Colorado River, in Mohave Co., Ariz., and Clark Co., Nev." (p. 29); No. 265, "Guy P. Mohler, Needles, Arizona, preliminary permit, "Series of dams in Colorado River, in Mohave Co., Ariz., and Clark Co., Nev., beginning at the lower end of Pyramid Canyon and extending to Boulder Canyon.” (p. 30).]

1923 12.3715 A rapid glance back before we move forward; our national parks policy triumphant against every one of the almost continuous assaults upon its integrity during the Sixty-seventh Congress. National Parks Association, Bulletin, (33)(March 8):[1]-[3]. [See p. [2], "Revelations of the Los Angeles Power Contract".]

State’s Colorado river commission announces plan for 18-foot flatbottomed boat to navigate the Colorado for inspection of damsites ‘and other matters.’ One duty of new flagship will be to collect samples of sand, rock and other material from proposed Bridge canyon damsite at upper end of Lake Mead.” (entire item)]

1940 12.3905 Boulder City. *In: Here and There on the Desert* [section]. *Desert Magazine*, 3(4)(February):39. ["By July 1 an exhibit building will be completed by the U. S. bureau of reclamation for convenience of visitors to Boulder dam. It will contain rest rooms and a hall to house a model of the dam, showing also such features on the lower Colorado river as Parker dam, the Metropolitan aqueduct, Imperial dam and the All-American canal.” (entire item)]

1940 12.3907 St. George. *In: Here and There on the Desert* [section]. *Desert Magazine*, 3(5)(March):29. ["Congress will be asked soon to supply money to start construction work on the Colorado river-Great Basin project, it is announced here. If carried through this project will be larger than the Boulder dam project and will bring under cultivation an area estimated at 600,000 acres of desert land. Application has been filed for rights to 1,500,000 acre feet of Colorado river water, reservoir sites have been diamond-drilled, canals and reservoirs have been surveyed." (entire item)]

1940 12.3908 Blythe. *In: Here and There on the Desert* [section]. *Desert Magazine*, 3(9)(July):36. ["For flood control work on the Colorado river between Boulder dam and Yuma, the house of representatives has voted $100,000. Appropriations for the Parker dam project were raised to $3,500,000 by the Senate and the house concurred. This money will be used to build and equip a hydroelectric power plant at Parker.” (entire item)]

1940 12.3909 Holtville. *In: Here and There on the Desert* [section]. *Desert Magazine*, 4(1)(November):27. [First water through All-American Canal to Imperial Valley.]

1940 12.1355 All-Americans in Imperial Valley. Construction methods and progress on the Coachella branch of the All-American Canal. Excavation for Parker Dam power plant. *Reclamation Era*, 30(12):.

1941 12.3912 Boulder City. *In: Here and There on the Desert* [section]. *Desert Magazine*, 4(3)(January):43. ["Work goes ahead steadily on an exhibit building at Boulder dam to house a model of the Colorado river basin. The structure will be approximately 120 feet long and about 35 feet wide. The river basin model will show the Colorado river from mouth to source, in detail all dams, power plants, the All-American canal, the metropolitan water district aqueduct and transmission lines. A recorded lecture,
synchronized with still pictures flashed on a screen will give the changes, development of the basin. On the top of the dam a sidewalk shelter for tourists is 60 percent completed.” (entire item)]

1941 12.3450 River in the desert. *Time*, (June 30):. [Colorado River Aqueduct.]

1941 12.3916 Boulder City. *In: Here and There on the Desert* [section]. *Desert Magazine, 4*(9)(July):34. [Lake Mead expected to top Hoover Dam spillways during June.]

1941 12.3918 Desert in miniature. *In: Here and There on the Desert* [section]. *Desert Magazine, 4*(11)(September):44. [“Boulder City—Visitors to Boulder dam will be able to see a replica of the entire Colorado river basin, showing the five dams now completed or in construction. This relief model is to be one of the features in the exhibit building nearly completed by the reclamation bureau. It is to be an operating model with water flowing in the miniature river as far as Imperial dam.” (entire item)]

1941 12.3920 Townsmen happy now. *In: Here and There on the Desert* [section]. *Desert Magazine, 5*(1)(November):31. [“An exploratory barge, brought down from Grand Coulee project, was launched on the Colorado September 22, and work on the dam is being pushed to the maximum.” (entire note) Davis Dam.]

1941 12.3921 Will dwarf Boulder Dam. *In: Here and There on the Desert* [section]. *Desert Magazine, 5*(1)(November):31. [Arizona State Senator Fred T. Colter plan for Colorado River dams in Glen Canyon and at Bridge Canyon; and “[e]ight smaller dams would be built at other strategic points along the river.”]

1941 12.3922 Bullshead Dam preferred. *In: Here and There on the Desert* [section]. *Desert Magazine, 5*(1)(November):31. [“Davis Dam” name does not have local favor.]

1942 12.3922 War stops canal work. *In: Here and There on the Desert* [section]. *Desert Magazine, 5*(4)(February):44. [“Indio—Wartime defense needs have indefinitely postponed completion of the Coachella branch of the All-American canal. Funds have already been earmarked for this purpose, but will probably be diverted to more essential and pressing defense needs.” (entire item)]

1942 12.3923 Less water, less trouble. *In: Here and There on the Desert* [section]. *Desert Magazine, 5*(6)(April):38. [Palo Verde irrigation district had been threatened by increased discharge from Hoover Dam.]

1942 12.3938 Canal work stopped. *In: Here and There on the Desert* [section]. *Desert Magazine*, 6(1)(November):37. [Coachella branch of the All-American Canal.]

1943 12.3946 Flood bill submitted. *In: Here and There on the Desert* [section]. *Desert Magazine*, 6(5)(March):30. ["Needles—Senator Ralph Swing has introduced a bill in the California senate authorizing expenditure of $500,000 to protect this city from damages being caused by continued rise in the bed of the Colorado river due to a huge deposit of silt forming in the Topock canyon about 16 miles downstream from the city." (entire item)]

1944 12.3952 Dam project surveyed. *In: Here and There on the Desert [section]. Desert Magazine*, 7(11)(September):29. ["Bridge Canyon dam and companion project to bring Colorado river water into central Arizona . . . ."]

1945 12.3954 Arizona projects to top billion. *In: Here and There on the Desert [section]. Desert Magazine*, 8(8)(June):29. [U.S. Bureau of Reclamation projects include "power installation at Boulder Dam", "Kanab Creek power project, power and silt control in Bridge canyon, projects at Parker dam, Marble canyon . . . ."]

1945 12.3956 Boulder Dam contract let. *In: Here and There on the Desert [section]. Desert Magazine*, 8(8)(June):31. ["Boulder City—Contract to supply 70,000 barrels modified Portland cement for making improvements on tunnels and river channel at Boulder dam has been awarded Monolith Portland Cement company of Los Angeles, Secretary of Interior Harold L. Ickes has announced. The improvements will help maintain peak production at the world’s largest hydroelectric plant." (entire item)]

1946 12.1358  [Cover illustration, Hoover Dam.] Caterpillar Dealer, 1(2):cover.  [Contents not seen.]

1947 12.3962  Davis Dam rumors denied. In: Here and There on the Desert [section]. Desert Magazine, 10(5)(March):32.  [Rumor that engineers have failed to find bedrock during excavation for Davis Dam.]

1947 12.3964  Will recut Colorado channels. In: Here and There on the Desert [section]. Desert Magazine, 10(6)(April):35.  [“Boulder City—Bids have been called for construction of a huge dredge to be used to provide new channel sections for Colorado river below Bulder Dam. Dredging is necessary due to change of gradient of the river’s bed, as a result of regulated silt-free flow of water after construction of the dam. Silt has raised river bed several feet between Needles and Topock, causing river to spread over a large area. Dredge, which will take about a year to complete, will cut a new channel in this section and later will be used in the Cibola valley farther south.” (entire item)]

1947 12.3966  David rock fault costly. In: Here and There on the Desert [section]. Desert Magazine, 10(9)(July):34.  [Extensive rock fault found at Davis Dam site will increase construction costs $6,500,000.]

1947 12.4703  U. S. Dept. of the Interior, Bureau of Reclamation. Hydraulic Research in the United States (U.S. National Bureau of Standards), 11:118-127.  [Includes current projects for All-American Canal System (p. 118), Davis Dam (p. 119), Boulder Dam (p. 121), and “Air injection into the flow in the Boulder Dam spillway tunnels” (p. 125).]

1947 12.3968  They change the river. In: Here and There on the Desert [section]. Desert Magazine, 10(11)(September):35.  [“Blythe—The course of the Colorado river eight miles below Palo Verde was changed when 700 pounds of powder were used to blast a two-mile-long pilot channel across an acute angle on the Cibola side of the river. The angle had caused a bar, made up of material eroded form the Cibola valley side, to form at the mouth of the outfall drain from Palo Verde valley. The bar eventually would have stopped the drainage completely and allowed the water to back up on tillable land, so bureau of reclamation engineers, working with officials of the Palo Verde irrigation district blasted to change the river course.” (entire item)]

1947 12.3969  Inland port for Yuma? In: Here and There on the Desert [section]. Desert Magazine, 10(12)(October):29.  [U.S. Representative Richard F. Harless of Arizona introduced legislation “asking that army engineers be authorized to investigate the possibility of dredging the Colorado river from the Gulf of California to the Imperial Dam in Arizona.”]

1947 12.3970  Canal water at Mecca. In: Here and There on the Desert [section]. Desert Magazine, 10(12)(October):31.  [“First water for agricultural use was released form the Coachella branch of the All-American canal near Mecca on August 12.”]

1947 12.3971  Dredge for the Colorado. In: Here and There on the Desert [section]. Desert Magazine, 10(12)(October):31.  [“Boulder City—A specially designed suction dredge, complete with fuel barge, pipe barge, work barge and power plant, to cost $871,000,
has been ordered by the bureau of reclamation. It will take a year to construct, and will be used to correct difficulties caused by silt deposits along the Colorado river below Hoover dam. It is designed to work in dense tules, willows and other vegetation, and also in sand, clay and gumbo. The dredge will be about 40 feet wide, 120 feet long and have a draft of not more than six feet.” (entire item)

1948 12.3973 [Note.] In: Here and There on the Desert [section]. Desert Magazine, 11(6)(April):31. [“Ernest W. McFarland, senator from Arizona, in a statement filed with the senate public lands committee, declared that enough Colorado river water is flowing each year into the Salton sea, from California irrigation projects, to supply the entire Central Arizona project.” (entire note)]

1949 12.3987 Too much water in lakes. In: Here and There on the Desert [section]. Desert Magazine, 12(6)(April):32. [“Leak Mead” (sic, Lake Mead) and Lake Havasu water levels to be lowered to accommodate increased Rocky Mountain runoff into Colorado River system.]

1949 12.4397 Del Webb proposed as river arbiter. The Webb Spinner (Del E. Webb Construction Co., Phoenix), 3(5)(April):1, 5. [Proposed to governors of Arizona and California as member of committee regarding a compromise Colorado River compact]

1949 12.3993 Water high in Lake Mead. *In: Here and There on the Desert* [section]. *Desert Magazine*, 12(12)(October):34. [Lake Mead at highest elevation since 1941, and powerhouse discharges balance the inflow. Item credited to *Caliente Herald.*]

1949 12.3994 Further control of river. *In: Here and There on the Desert* [section]. *Desert Magazine*, 13(1)(November):33. [Plan to dredge and straighten Colorado River from Morenos Dam to Gulf of California, and to increase the height of Yuma area levees by three or four feet. Item credited to *Yuma Daily Sun.*]

1949 12.3996 Colorado River flow boosted. *In: Here and There on the Desert* [section]. *Desert Magazine*, 13(2)(December):32. [Discharge from Hoover Dam increased to meet power demands. Item credited to *Palo Verde Valley Times.*]

1950 12.3997 Huge dredger sinks in river. *In: Here and There on the Desert* [section]. *Desert Magazine*, 13(3)(January):35. ["Needles—Divers have been brought here from San Diego in an effort to salvage the huge million dollar dredger which sank on November 5 while engaged in deepening the Colorado river channel above Lake Havasu. The reasons for its sinking have not been disclosed by Reclamation bureau engineers who were operating the equipment.—*Needles Star.*" (entire item)]

1950 12.2335 Hoover Dam—bubble trouble. *In: Little Stories From Around the Country* [section]. *Changing Times*, (July):34. [Cavitation in Hoover Dam spillways.]

1950 12.4000 To dedicate new Colorado dam. *In: Here and There on the Desert* [section]. *Desert Magazine*, 14(1)(November):33. [President Miguel Aleman of Mexico expected to dedicate Morelos Dam. Item credited to *Tucson Citizen.*]

1950 12.4001 New Colorado dam proposed. *In: Here and There on the Desert* [section]. *Desert Magazine*, 14(1)(November):34. ["Blythe—Plans for the building of a cellular sheet steel dam with concrete spillway in the Colorado River to insure a gravity flow of water for the Palo Verde Valley have been prepared by the Irrigation District directors. The dam would replace the present rock weir which under agreement with the Indian Service must be removed. The Arizona abutment of the weir is on the Colorado River Indian reservation. The Indian and Reclamation Services have proposed that Palo Verde Valley should solve its problem by installing pumps, but valley lands have always been served from the river by gravity flow, and its farmers are opposed to the pumping idea because of the cost. The Indian Service is afraid that dams might cause water to back up and overflow reservation lands on the Arizona side.—*Palo Verde Times.*" (entire item)]

Dougine, J. T.

1912 12.4596 [Patented floating Dougine water wheel.] In: Correspondence [section]. The Irrigation Age, 27(11)(September):400. [Includes comment: "Take the Colorado river as it runs along the north and west boundary line of the state of Arizona, and you have power enough in 125 miles of its north end to pump the river dry before it would reach Parker, enough to irrigate 1,000,000 acres and pump the water 200 feet high, and then have enough left to light, heat and cook for the farmer, and of far more importance, plow his land and reap his crops and take his product to market." (entire note)]

no date 12.4713 The story of the Hoover Dam. New York: Ingersoll-Rand Co., 5 volumes in 1 [hardbound]. [See Item no. 12.588 (1932) for complete bibliographical information for five volumes.]

1932 12.588 The story of the Hoover Dam. New York: Ingersoll-Rand Co., 5 separately-dated volumes. [Articles reprinted mostly from Compressed Air Magazine, 1931-1935, but one also from Western Construction News and Highway Builder. Volume One with title-page, apparently to serve as title-page for collated and bound volume. Various reprintings of each volume. ] [NOTE: Library of Congress catalogue includes an entry with date “1932-” and with note, “Reprinted from Compressed Air Magazine (1931- and Western Construction News and Highway Builder of Nov. 10, 1932.”] Printings of original five-volume series thus far seen by compiler: Volume One, April 1, 1932; 3rd printing, December 1932; [another] 3rd printing, February 1, 1934; 4th printing, February 1934; Volume Two, July, 1932; December 1932; Volume Three, no date; Volume Four [with series title change to The Story of the Boulder Dam], no date; Volume Five, no date. Printings may also be indicated by a hyphenated code found on the last page of the text; in some cases month and year are indicated (e.g., “7-32” for July 1932), but in other cases an abbreviated month and year may be indicated (e.g., “3-3” for March 1933). Codes thus far seen: Volume One, “4-32” (with “April 1, 1932” on first page), “2-4” (with “February 1, 1934” on first page, but copy seen has wrap with “Fourth Printing, Feb. 1934”); Volume Two, “7-32” (with “July, 1932” on first page), “3-3” (with discordant “Dec., 1932” on first page, but copy seen has wrap with “Third Printing, Jan. 1934”); Volume Three, “6-3”; Volume Four,
no code; Volume Five, "3-6".

Also an ed. of five volumes in one, hardbound (Item no. 12.4713.) Also five volumes reprinted in facsimile in one volume, no date (ca. 1988, by Nevada Publications, Las Vegas, but without most of the advertising pages; see Item no. 12.589). cited*GCNHA Monograph 2: page 36 cited*GCNHA Monograph 8: page 2-8

Langbein, Walter B.

Langmead, Donald

Larkin, Edgar L.

1906 12.4611 P.S. From: Anonymous, "Our Mountain Top Professor". In: *Nautilus News* [section]. *The Nautilus* (Holyoke, Massachusetts), (July):1. [Regarding Professor [Edgar L.] Larkin. "P.S.—A note just came from Professor Larkin which says: ‘Am in an exciting place, in a post office in Mexico. Just in front of the post office hundreds of men are building the levee higher. The mighty Colorado river is miles out of its course. Towns are in danger. Will write an account for Nautilus when I get home. The Salton Sea is rising at a fearful rate. It is seventy miles long and forty wide. All Southern California may have a change of climate—time only will tell. Have been in the great earthquake debris at Brawley, yesterday, near Mexico.’" (entire postscript). [The reference to the "great earthquake" is to the San Francisco earthquake; an article by Larkin in this issue, about the earthquake there, does not relate to the scope of this bibliography. An article on the Salton Sea in later issues of *The Nautilus* has not been located. Also note: a photographic portrait of Larkin appears on the cover of the July issue.]

1907 12.2920 Conquest of river and sea; thrilling account of the building of the great dam to check the Colorado River. *Popular Mechanics*, 9(3)(March):311-315. [Reprinted from *The Open Court*.]

1907 12.2632 A thousand men against a river; the engineering victory over the Colorado River and the Salton Sea. *The World’s Work*, 13(5)(March):8606-8610. [Includes “Editors’ Note”, p. 8610, pertaining to another break.]

subtitled, *Interim report on the status* . . . , paginated 1-95 (in italics); title-page (p. [I]) indicates House Document number and date July 1947. To this is appended the March 1946 publication subtitled, *A comprehensive report on the development of the water resources of the Colorado River basin for irrigation, power production, and other beneficial uses in Arizona, California, Colorado, Nevada, New Mexico, Utah, and Wyoming*, paginated 1-295 (in Roman) and to which is appended 11 maps. (The 1946 “Comprehensive Report” is also listed separately in this bibliography as Item no. 12.1123, under U.S. Department of the Interior, published by U.S. Government Printing Office. A scarce separate of the 1947 “Interim Report” is cited as item no. 12.3019.) The two-document “Interim Report” has usually been cited, including by Farquhar, with pagination of just 295 pages, taking information only from the foremost title-page and the final page of the volume, not realizing that there are two documents and two series of pagination within the volume (1-95, 1-295, as described here). The dual pagination for the volume is also duly noticed on p. III of the “Interim Report”.]

1949 12.1333 *Construction of Hoover (Boulder) Dam*. [Boulder City, Nevada]: Boulder Dam Service Bureau, 19th ed., 48 pp. [With a revised foreword (p. 2) indicating name change to Hoover Dam although Boulder Dam used throughout booklet.]
1949 12.1334 Construction of Hoover (Boulder) Dam. [Boulder City, Nevada]: Boulder Dam Service Bureau, 21st ed., 48 pp. [With a revised foreword (p. 2) indicating name change to Hoover Dam although Boulder Dam used throughout booklet.] FQ15:125

1950 12.1731 Colorado River Storage Project and participating projects, Upper Colorado River Basin. Project Planning Report no. 4-8a.81-1 (Salt Lake City).

1950 12.3080 Colorado River Storage Project and participating projects, Upper Colorado River Basin. Project Planning Report no. 4-8a.81-2 (Salt Lake City), separately paginated sections [310 pp. total].

HUMAN AFFAIRS IN THE GRAND CANYON REGION
Administrative and related subjects pertaining to Grand Canyon National Park and adjacent Federal lands (including Grand Canyon-Parashant National Monument, Vermilion Cliffs National Monument, and that part of Glen Canyon National Recreation Area between Glen Canyon Dam and Lees Ferry, Arizona), the Colorado River in these areas (including Lake Mead National Recreation Area), and specific documents relating to adjacent Native American, state, and private lands. Also included here are selected items of legal affairs and position statements by individuals and organizations that pertain to administrative affairs and concerns of government-held lands and facilities. This part also contains selected administrative items that relate to Lake Mead National Recreation Area, Nevada-Arizona, other lower Colorado River federal lands and federal- or state-controlled operations, and, more broadly, to issues pertaining to the State of Arizona and the United States of America; with occasional items of pertinence to the States of California, Nevada and Utah as they relate to the region covered here.

This part comprises items broadly relating to the administration of the Grand Canyon National Park, other regional federal lands and facilities, and earlier administratively sectioned lands. It lists more than documents pertaining to bureaucratic procedures and regulations. Included here are references that pertain to land- and water-use practices affecting the politically defined unit; management documents derived from environmental studies on public lands, or official commentary on studies and policies; public comments on, and responses to, proposed and implemented studies and management decisions; and general articles and published opinions that relate to legislative issues affecting the protection, operation, and public use of the lands of the political unit. Also included are some items that pertain to cession of sovereign territories and boundary issues that historically pertain to the Grand Canyon-lower Colorado River region. Selected items pertaining to the administration of Glen
Canyon Dam, and position statements by individuals or organizations, as inferentially affecting the region downstream from it, also are included here.

For similarly related items, see also:

**PART 2.** GENERAL; for matters pertaining to government expedition encounters of the U.S.-Mexico boundary at the Colorado River.

**PART 11.** LOWER COLORADO RIVER—SPECIAL ISSUES; for administrative items pertaining to environment and environmental remediation in the lower Colorado River region.

**PART 12.** LOWER COLORADO RIVER—WATER MANAGEMENT; for administrative items pertaining to water-use and apportionment concerns in the lower Colorado River region between Lake Mead and the delta and items relating more generally to the Colorado River basin, including international treaties and related issues.

**PART 14.** HUMAN AFFAIRS for sociological, recreational, and economic analyses of visitation profiles, visitor experiences, and social and economic concerns of authorized concessions in the national park, and for similar analyses of the impact of legislatively mandated operational changes to the economic and power supply mandates for Glen Canyon Dam

**PART 15.** HEALTH AND SAFETY for issues relating to human health and safety, including those that discuss and contribute to administrative decisions on management issues

**PART 18.** PHYSICAL ENVIRONMENT for ecological studies that discuss and contribute to administrative decisions on management issues

**PART 19.** BIOLOGY for ecological studies relating to management of living organisms and for management plans relating to organisms and organismal resources

**PART 20.** GCES for a consolidated listing of Glen Canyon Environmental Studies technical reports and related documents

**PART 21.** GEOLOGY AND PALEONTOLOGY for physical and geological studies of environment that discuss or contribute to administrative decisions on management issues

no date 13.2 Teachers guide to resource management issues. [No imprint, distributed by National Park Service, Grand Canyon], [18] pp. [Copy received from Grand Canyon, 1995.]

1866 13.3328 Nevada boundary extension. American Mining Gazette and Geological Magazine, 3(11)(November):522. [Regarding the Congressional act to enlarge the State of Nevada. "The ceded territory [by California] on the . . . south [would include] Pahranagat, Calvile, and El Dorado Canon, places that may become populous and important."]

1893 13.2817 [Proclamations by President Harrison noted.] The Nation, 56(March 2):153. [Creation of Grand Canyon Forest Reserve noted.]

1893 13.2818 [Proclamations by President Harrison noted.] Garden and Forest, 6(March 15):120. [Creation of Grand Canyon Forest Reserve noted.]

1893 13.2815 The preservation of the forests. The Manufacturer and Builder, 25(5)(May):100. [Notice of forest reserves declared by President Harrison, including "1,850,000 [acres] in Arizona, comprising the grand cañon of the Colorado River, the site of the most rugged and magnificent scenery probably in the world" (entire note of pertinence)]

Trip was futile. Representatives Morris and Johnson return without the “Strip”. *Deseret News*, (February 18):1 [issue pagination]. [Annexation of Arizona Strip by Utah.]

Senator Kearns may offer amendment to statehood bill for its cession. This in case of a vote on it—Arizona Legislature protests against its annexation. *Deseret News*, (November 21):1 [issue pagination]. [Thomas Kearns, Republican U.S. Senator from Utah, 1899-1904.]

Arizona Strip causes trouble. Amendment to statehood bill may keep New Mexico and Oklahoma out of the Union. For at least another year. It has mixed things up badly and dampened hope of the most sanguine. Republicans to hold caucus. Will probably result in adhering to April resolution, two states shall be formed of four territories. *Deseret News*, (February 10):1 [issue pagination]. [Regarding annexation of Arizona Strip.]

[Game preserve.] *Shooting and Fishing*, 38(23)(September 14):445. [“It is understood that the Utah and Arizona representatives in Congress have agreed to join in placing before the next session a bill making a game preserve on the region lying between the southern Utah line and the Grand Canon of Arizona, an area of about 2000 square miles. It is intended that the Government shall stock the ground with buffalo and rare animals and shall fence it in. Only a few years ago the district proposed to be stocked was full of deer and antelope, which have been almost entirely]
destroyed by Ute Indians from Colorado, who slaughtered the game wontonly and unnecessarily.” (entire item)]

1905 13.2901 Utah delegation sees President. They discussed with him the Strawberry reservoir reclamation project. Game them encouragement. That work on it would be resumed shortly—Also talked of national game preserve. Deseret News, (December 6):1 [issue pagination]. [Senators Reed Smoot and George Sutherland and Representative Joseph Howell called on President Theodore Roosevelt. Among discussions was proposal to establish a game preserve at Grand Canyon.]

1906 13.2906 Value of the Arizona Strip. Congressman Howell speaks of proposed national park and game preserve. To the Washington Post. Says if Strip’s geography had been known it would have been made part of Utah. Deseret News, (January 12):5 [issue pagination]. [Joseph Howell.]

1906 13.2907 Fredonia, Arizona [news]. Snow fast disappearing. People of “Strip” anxious for annexation to Utah. Deseret News, (January 19):9 [issue pagination]. [“The ‘Strip’ is anxiously watching Congress to see what disposition is made of the territories; and to see, more especially, whether the Colorado river will be allowed to assert itself as the boundary line between Utah and Arizona.” (entire note)]

1906 13.2908 Fredonia, Arizona [news]. Deseret News, (February 28):11 [issue pagination]. [“No statehood for Arizona yet! And no annexation! The people here cannot hold their breath much longer.” (entire note)]

1906 13.2910 Three measures of interest to Utah. Deseret News, (June 27):1 [issue pagination]. [“Senator Sutherland’s bill to create Grand Canyon forest and game preserve” and other bills to go to President Roosevelt for his signature. (No further details.)]

1907 13.2913 “Utah should annex the Strip”. Rep. H. J. Meeks from kane County offers a number of reasons. Both sections would gain. With this state’s schools in excellent shape

1908 13.2915 Kanab [news]. *Deseret News*, (March 3):3 [issue pagination]. ["word has come from Washington, D. C., that the president has set aside the Grand canyon of the Colorado as a national monument, together with as much of the forest reserves north and south as is necessary for the preservation of the beauty of the great gorge. The Grand canyon national monument is to take precedence over the forest reserves within which it is situated." (entire note)]

1908 13.3047 Modest yearnings. *Collier’s*, 41(5)(April 25):12. [The Grand Canyon of the Colorado, never separated from the public domain, was, on January 11, 1908, erected into a national monument by the President’s [Theodore Roosevelt] proclamation, to keep it from unrestrained use by a trolley company. But such a little thing discourages no healthy special-advantage corporation; wherefore Secretary of the Interior Garfield is being persistently urged to permit the trolley company to do as it likes.” (entire note of pertinence) James Rudolph Garfield, son of president James A. Garfield.]

1909 13.2916 Biennial action on Arizona Strip. As the years come and go the matter comes up only to do so again. The memorial to Congress. Same action as heretofore will produce same result, believes Senator Miller. *Deseret News*, (January 20):5 [issue pagination]. [Annexation of Arizona Strip.]

1910 13.2920 Provides for annexing Arizona Strip. Senator Smoot will offer amendment to statehood bill for making Strip part of this state. *Deseret News*, (February 16):1 [issue pagination].

1912 13.2933  Grand Cañon and Coconino National Forest. *The Pennsylvania Society, Year Book, 1912* (New York), p. 176. ["Bill introduced, April 20, in the House of Representatives by the Hon. E. A. Hayes of California, designating the name of Carnegie National Park for this land ‘in commemoration of the name of the founder of some of America’s greatest institutions and the benefactor of mankind by the promotion of everlasting peace among all nations of the earth without the use of arms.’" (entire item)]

1913 13.3380  President Wilson’s appointments. *Princeton Alumni Weekly*, 13(29)(April 23):564-565. [President Woodrow Wilson. See p. 564, under [Class of] ‘03: “Harold Greene has been promoted to the position of forest Supervisor in charge of the Tusayan National Forest. This forest includes the grand canyon of the Colorado River. His address is Williams, Ariz.” (entire note)]

1913 13.2945  [U.S. Department of Agriculture appropriations for highway improvements.] *In: Scientific Notes and News [section]. Science*, new series, 38(October 17):543-544. [See p. 544: “In northwestern Arizona, part of the fund will be used in connection with the LeFevre-Bright Angel road, important because it makes accessible to tourists the Grand Canyon of the Colorado.” (entire note)]

1913 13.2848  Yard decision reversed. *Mining and Scientific Press*, 107(23)(December 6):878-879. [See p. 879, brief notice of Bright Angel Trail mineral location claims used “for the appren purpose of charging toll to visitors.” (i.e., Ralph Cameron claims).]

1916 13.3199  Motor camp on canyon’s rim. *Motor Age*, 29(26)(June 29):46. ["Arizona will have a townsie and motorists’ camp on the rim of the Grand Canyon, if Attorney General Jones, State land Commissioner W. A. Moeur and State Engineer Lamar Cobb, who leave shortly for Washington, succeed in their mission.” Also notes a road to “be built to connect the townsie with the Old Trails highway at Flagstaff or Williams.” The State of Arizona will control the townsie and road.]

1921 13.3041 A national parks platform. *Saturday Evening Post*, 193(42)(April 16):20. [Editorial. Notes former Secretary of the Interior John Barton Payne having had “refused to issue a permit for an aërial cable line by which the casual tourist could be shot across the Grand Canyon in jig time.”]

1923 13.3197 A rapid glance back before we move forward; our national parks policy triumphant against every one of the almost continuous assaults upon its integrity during the Sixty-seventh Congress. *National Parks Association, Bulletin*, (33)(March 8):[1]-[3]. [See p. [2], “Senator Cameron Kills Appropriations”. Ralph H. Cameron.]

1938 13.3280 Flagstaff. In: Here and There on the Desert [section]. Desert Magazine, 1(8)(June):30. ["Coconino county supervisors recently passed a resolution asking that Grand Canyon be abandoned as a national park and the area turned back to the county for supervision and management. Reasons given were that 'the existence of said National Park within the boundaries of this county has resulted in depriving this county of a large source of taxable wealth, and has hindered the development of the mineral resources of this county.'" (entire item)]

1938 13.3281 St. George. In: Here and There on the Desert [section]. Desert Magazine, 2(1)(November):39. ["Residents of Littlefield, located in the northwestern corner of Arizona, proposed recently that the little tip of Mohave county in which their town islocated, be taken away from Arizona and annexed to Nevada. The have direct highway connections with nevada, but are cut off from the remainder of their own state by the Virgin river. The proposed change in state boundaries was presented at a meeting held in St. George, Utah, to consider the plans for the development of Virgin river irrigation projects." (entire item)]

1939 13.3283 Grand Canyon. In: Here and There on the Desert [section]. Desert Magazine, 2(12)(October):26. ["Return to the public domain of 148,159 acres now included in the Grand Canyon national monument was disapproved by Roosevelt when he vetoed an act he said was passed by Congress without sufficient consideration. the president said he appreciated stockmen's need for range facilities, but 'Before approving any measure eliminating lands from any national monument, I would want to receive a report from representatives of the national park service.'" (entire item)]

1940 13.3284 Needles. In: Here and There on the Desert [section]. Desert Magazine, 3(5)(March):29. ["San Bernardino county supervisors propose to claim for California a strip of rich bottom land east of the Colorado river in this vicinity. Revision of the California-Arizona boundary would be necessary. Question is: Is state line center of existing channel of meandering river, or three miles to east, where it was fixed when surveyed in 1883? Attorney general at Sacramento hs been asked to weigh this problem." (entire item)]

1946 13.3286 Wants Boulder Dam name change. In: Here and There on the Desert [section]. Desert Magazine, 9(9)(July):28. ["Boulder City—A bill to fix name of Hoover dam on the structure commonly known as Boulder dam was introduced into congress May 6 by Rep. Bennett (R), N. Y., who said the former president should be commemmorated for part he played in formulating plans to develop Colorado river." (entire item)]

1947 13.3288 The restoration. Time, (May 12):. [President Harry Truman renames again Boulder Dam to Hoover Dam.]

1947 13.3290 Ask road improvement. In: Here and There on the Desert [section]. Desert Magazine, 10(12)(October):29. [*Flagstaff—Unless the United States government improves the approach to Grand Canyon national park, Coconino [county] will ask for return of Bright Angel trail to the county, members of the board of supervisors have declared. The trail, most popular route into the canyon, was given to the federal government by Coconino county in 1928, with the government agreeing to build and maintain a suitable approach road. Members of the board declare that the road has fallen into disrepair and has become dangerous in places."

1947 13.3291 Extend Mead park area. In: Here and There on the Desert [section]. Desert Magazine, 10(12)(October):32. [U.S. Bureau of Reclamation withdrawn lands in vicinity of Davis Dam have been placed under the jurisdiction of the U.S. National Park Service as part of Lake Mead National Recreation Area.]

1948 13.3293 Park Service takes Hance ranch. In: Here and There on the Desert [section]. Desert Magazine, 11(12)(October):27. [*Grand Canyon—Historic Hance ranch, last privately owned land on the East Rim drive, has been purchased by the national park service from Mrs. Eva Buggelin [sic] Moss, long-time Grand Canyon resident. The 160 acre ranch was taken up by Captain John Hance in 1883. Hance operated the first tourist camp and first tourist guide service into the canyon. His log cabin, first to be built on the rim of Grand Canyon, still stands and the park service expects to preserve it.—Gallup Independent."

1952 13.3295 Victory for conservation. In: Here and There on the Desert [section]. Desert Magazine, 15(3)(March):27. [Seems to relate to Grand Canyon South Rim. "Grand Canyon—Kaibab National Forest officials were worried over increasing numbers of people who staked out mining claims along the entrance highway to Grand Canyon National Park. They couldn't prevent such filing of claims, although the 'mineral' was often only building stone or volcanic cinder and the real goal a service station or hot-dog stand. But now a new law, introduced in Congress by Congressman Patton [sic, Harold A. Patten] of Arizona, assures that only legitimate claims based on real mineral showings can be filed, thus protecting the highway from undesirable developments. The law, although recognizing proper actual mineral deposits, restricts development to mining operations and vests control of the surface developments in the Secretaries of Agriculture and Interior.—Sierra Club Bulletin."

1952 13.3297 [Privately owned trailers in Lake Mead National Recreation Area.] In: Here and There on the Desert [section]. Desert Magazine, 15(12)(December):29. [*Boulder City—Privately owned trailers now can be left for extended periods of time at two locations in the Lake Mead Recreation area under a program recently set up by the National Park Service. Sites are being prepared at Pierce Ferry, near the head of Lake Mad, and at Bonelli Landing, 30 miles east of Boulder City. Full information may be obtained by contacting the superintendent's office at Boulder City."

1953 13.3298 To improve canyon campsites. *In: Here and There on the Desert [section]. Desert Magazine*, 16(4)(April):27. [North Rim campground to be improved with "separate campsites, fireplaces and other needed facilities". Requested funds also ask for "construction of a new airport" and "glassing in of Yavapai Observation Station and various road improvement projects." Item credited to *Arizona Republic*.]

1954 13.3299 Lake Mead development. *In: Here and There on the Desert [section]. Desert Magazine*, 17(4)(April):32. [Proposal under consideration to relax regulations at Lake Mead National Recreation Area "to allow private development of residential areas along the lake shore." Item credited to *Las Vegas Review-Journal*.]

1955 13.3330 Boundary to be defined. *In: Here and There on the Desert [section]. Desert Magazine*, 18(3)(March):30. [Joint commission established to determine permanent boundary between California and Arizona recommends to state legislatures that the boundary should be affixed along the present course of the Colorado River. Item credited to *Desert Star*.]

1955 13.3303 Wallis, Good get posts as Lake Mead naturalists. *Desert Magazine*, 18(4)(April):37. [O. L. Wallis and John Good appointed naturalists at Lake Mead National Recreation Area. "The pair will teach desert lore through radio programs, guided tirps and talks at the Boulder Beach Campground . . . ."]

1956 13.3326 Lake Mead changes proposed. *In: Here and There on the Desert [section]. Desert Magazine*, 19(4)(April):33. [U.S. Senator Alan Bible introduces "Legislation to place full administration of the Lake Mead national recreation area under the National Park service, reduce its size and increase recreation development". Item credited to *Caliente Herald*.]

2014  13.3320  Information Collection Request sent to the Office of Management and budget (OMB) for approval; backcountry use permit. Federal Register, 79(38)(February 26):10834-10836. [Regarding Backcountry Use Permit system in the National Park Service. See p. 10835, regarding request for comments that was published in the Federal Register for April 2, 2013): "We received one comment. The comment was confined to issues at Grand Canyon National Park, specifically the aircraft overflight issue. The commenter suggested that NPS require backcountry permits be issued to individuals who participate in private scenic air tours over park lands. These excursions are short-term (1 hour or less) flights that originate outside the park. Although the flights often take place over park lands, the NPS does not have authority over airspace, which is under the authority of the Federal Aviation Administration. We did not make any changes to our information collection requirements." (entire note)]

SOCIOLOGY, RECREATION, EDUCATION, ECONOMICS AND RELATED ISSUES

Commentaries, themes and analyses relating to sociological, recreational, educational, and economic issues for Grand Canyon and vicinity

This part lists analytical studies and reports that relate to socio-economic concerns, including visitor appreciation and social "quality of wilderness" studies, and items pertaining to teaching and program instruction about the human and natural history of the Grand Canyon and Colorado River, including the Lake Mead area. Also included here are items relating to products or services for those with physical, hearing or educational impairments, and personal experiences relating to such disabilities.

For related items, see also:

PART 13, ADMINISTRATION for public-lands overview and management decision documents that relate to recreation and aesthetics
PART 18, PHYSICAL ENVIRONMENT for quantitative studies of environmental quality
PART 20, GCES for a consolidated listing of Glen Canyon Environmental Studies technical reports and related documents

HEALTH AND SAFETY

Issues relating to human health and safety and the well-being of the public and professional community in the Grand Canyon region or on the Colorado River through the Grand Canyon and in Lake Mead, and selected citations relating to the lower Colorado River

This part lists items relating to human health, safety, and public well-being in the national park and immediate vicinity and selected works pertaining to the lower Colorado River. It also includes documents on mishaps, rescues, accident investigations, missing persons, and cautionary reports by example.

For related items, see also:

**PART 3. NEW YORK TIMES** for pertinent accounts published in *The New York Times* (e.g., aircraft accidents)

**PART 11. LOWER COLORADO RIVER REGION—SPECIAL ISSUES** for selected material relating to health and safety issues in the lower Colorado River region

**PART 12. LOWER COLORADO RIVER—WATER MANAGEMENT** for items relating to dam safety and management

**PART 13. ADMINISTRATION** for aspects of safety issues that have resulted in discussion or management decisions relating to Federally administrated areas

**PART 14. HUMAN AFFAIRS** for aspects of community issues relating to human health

**PART 17. NATIVE AMERICANS** for aspects of health concerns, and of legal litigation relating to human-health research among tribal members, and for reports and studies pertaining to safety responses in the wake of flooding events on Havasu Creek

**PART 18. PHYSICAL ENVIRONMENT** for aspects of environmental monitoring of the physical environment

**PART 20. GCES** for a consolidated listing of Glen Canyon Environmental Studies technical reports and related documents

**PART 21. GEOLOGY** for hydrogeological studies that embrace Havasu Creek

Burrill, T. J.

1909 15.596 Market fruits and disease. In: Proceedings of the thirty-sixth Annual Convention of the Horticultural Society of Central Illinois held in Hoopeston, Ill., Wednesday and Thursday, Dec. 18 and 19, 1908. *Illinois State Horticultural Society, Transactions*, new series, 42 (for 1908):312-318. [See p. 313: "The potato plant itself contains a very active poison, though there is little or none of the substance in the tubers as they are brought to the table. When, however, these esculents are exposed to the sun, the poison develops rapidly and the acrid taste becomes pronounced. Major Powell relates that in his exploring trip down the canon of the Colorado river when the party had lost most of their food supplies, they boiled some green potato tops, a patch of which they found at a camping place, and ate them as greens. All were made desperately sick—a result that should not be surprising, at least to a botanist.” (entire note)]

Archaeological history and research in the Grand Canyon region, including historical and cultural archaeology of 16th- to 20th-century activities

This part includes items that relate to archaeological surveys and studies of human remains, artifacts, and cultures during the period from early human inhabitation of the Grand Canyon region to recent historical activities of the 16th to 20th centuries, including historical-structures reports.

See also:

**PART 11.** LOWER COLORADO RIVER REGION—SPECIAL ISSUES for selected material relating to the lower Colorado River region more generally. Archaeology of the Lake Mead region is included in this part.

**PART 17.** NATIVE AMERICANS for material relating to Native American tribes and their relationship with the Grand Canyon after European contact

**PART 20.** GCES for a consolidated listing of Glen Canyon Environmental Studies technical reports and related documents
**NOTE:** Some items dated during and after the later-20th century may be available to the public only in redacted versions, wherein culturally sensitive or specific geographical data are removed or **xxxxxxxxxxxxxx** physically blacked out. Unredacted versions will be in files accessible to qualified researchers and administrators. If no note regarding redacted parts appears with the document, or if there is no such note with its citation here, it does not necessarily mean that the document as seen or as available does not have data redacted. One may assume that modern publications in scholarly serials already have been written in such a fashion that sensitive or restricted data are left out.

Documents or citations that may have been seen by the compilers that pertain to wholly restricted documents not available publicly are not cited in this bibliography. While thus not properly compiling the body of work of individuals, firms or agencies within the scope of this bibliography, the general unavailability of a document leaves no merit for inclusion within a work such as this one, which identifies publicly available materials. As with documents that had been denoted as “classified”, “restricted” or “secret” for purposes of national security, but which later are reclassified for public release, only then are these and comparably secured documents included in this bibliography.

no date 16.493 [Photo, "Site of Ancient Khiva (sic), Grand Canyon National Park."] Eugenics Pamphlets (Eugenics Society of Northern California, Sacramento), (62):23. [1949, as determined from a date calculation on p. 1; author probably C. M. Goethe. Note of ruins in Grand Canyon, which may remain from Native American populations that died off. Notes idea of “extinction” with modern day examples of population.]

1891 16.740 Prehistoric architecture. Engineering News, 25(6)(February 7):122. [“In our own country we have yet much to learn of the real history of the cliff dwellers and architectural works in New Mexico and Colorado. In his late exploration of the Grand Canyon of the Colorado, Mr. [Robert Brewster] Stanton made new and most interesting discoveries of remains of this character that are not yet made public; but many articles found, including perfect mummies, have practically convinced Mr. Stanton that the original inhabitants and builders of these almost inaccessible homes belonged to a period much more remote than any yet fixed for them, and that the immediate predecessors of the ‘red man’ of a century or two ago had themselves, cuckoo-like, simply occupied the works of an earlier race.” (entire note)]

1897 16.3 The home of Arizona’s prehistoric people. Arizona Educator, 3(September):12. [From the Williams News.] GOODMAN 45

1900 16.864 [Notes on the contents of a copy of American Anthropologist, date not stated.] Science of Man and Journal of the Royal Anthropological Society of Australasia, new series, 3(11)(December 22):186. [See reference to “Ruins of Pueblo in Arizona”: “These were built of lava and limestone, and cave-like rooms dug in volcanic breccia with vertical and lateral entrances, the Havasupai, who lived in these at the time of the Spanish Conquest, and then retreated to cataract canyon.” (entire note, sic)]

1903 16.681 Cliff-dwellings in the Grand Canyon [sic]. In: Brief Glimpses of the Prehistoric World [section]. New Century Path, 7(7)(December 27):8. [“The mummy of a cliff-dweller has been found in the Grand Cañón [sic] of Arizona, during some excavations on the site of a buried village.” Item signed, “Student.”]

1913 16.945 Yale geologists' western work this summer. Yale Alumni Weekly (Yale University, New Haven, Connecticut), 22(35)(May 16):891. ["The work of [Herbert E. Gregory] this season will be, in general, confined to a district in the vicinity of San Francisco Mountain between the Grand Canon and the Little Colorado." The focus will be on an examination of archaeological ruins, with "recommendations made to the Government for the rpeservation of the most interesting as national monuments."]

1920 16.860 [Squaw Creek mesa burials.] The Indian's Friend, 32(5)(May):3. ["That the Squaw Creek mesa, fifteen miles east of Grand Canyon, was the burial ground of an ancient tribe of dwarfs, is the opinion of H. L. Loomis, prospector, who says he recently uncovered portions of nineteen skeletons there. All the bones were those of a diminutive race. ¶ In the old graves the prospector found a cupful of turquoise and small pieces of ancient pottery, some of which have been sent to the University of Arizona and the remainder to the Smithsonian Institution." (entire item) Credited to The Indian News.]

1921 16.748 Discovery of Mesa Verde. The Granite Cutters’ Journal (Quincy, Massachusetts), 44(11)(February):27. ["Such a valley, for example, is the Grand Canyon of the Colorado, but the Grand Canyon was not frequented by Cliff Dwellers.” (entire note) No further note of Grand Canyon.] [From Bradford, Mary C. C. (1918), without credit (Item no. 16.747).]

Native Americans of the Grand Canyon and issues concerning Native American culture and activities that relate to the canyon, the Colorado River, and the national park; and activities and concerns in the immediate region

This part includes all documents that pertain to the Havasupai and Hualapai tribes, traditional residents of the Grand Canyon, including social and other concerns of these tribes, and activities on behalf of these American Indians. Other Native American tribes are included in this part only with respect to their activities in the Grand Canyon or with respect to the canyon in their heritage. Items relating to tribal cultural claims to the Colorado River are also included.

For additional comments in the Introductory Notes click here.

See also:

PART 2. GENERAL PUBLICATIONS for publications of broader interest that relate at least in part to Native Americans and the Grand Canyon, including general accounts of travel into the American Indian lands

PART 11. LOWER COLORADO RIVER—[SPECIAL ISSUES] for occasional publications relating to Native Americans of the lower Colorado River region, including the Lake Mead region (such coverage, however, is not exhaustive)

PART 16. ARCHAEOLOGY for publications relating to Native Americans prior to European contact, or to archaeological documentation Native American heritage claims to the Grand Canyon

PART 20. GCES for a consolidated listing of Glen Canyon Environmental Studies technical reports and related documents

PART 26. AUDIO-VISUAL WORKS for films and videos that relate at least in part to Native Americans and the Grand Canyon
PART 27. AUDIO WORKS for analog records and digital products at least in part to Native Americans and the Grand Canyon

1938  17.1522  Flagstaff.  *In: Here and There on the Desert* [section].  *Desert Magazine, 1*(5)(March):20.  [530,000 acres on Hualapai Reservation designated a roadless area.]

1939  17.507  A few tribes at the pow-wow.  *In: The souvenir program; Southwest All-Indian Pow-Wow; 10th Annual Southwest All-Indian Pow-Wow, July 2, 3 and 4, 1939*.  Flagstaff, Arizona: Pow-Wow, Inc., pp. 17, 36-37.  [Cover title: *Souvenir program; Southwest All Indian Pow Wow, July 2, 3, 4, 1939, Flagstaff, Arizona.]*

1939  17.1525  Flagstaff.  *In: Here and There on the Desert* [section].  *Desert Magazine, 3*(1)(November):38.  ["Young people of the Havasupai, living at the end of 15 miles of pack trails in the bottom of a Grand Canyon tributary want Uncle Sam’s aid in home building on their reservation, smallest in the nation.  Tribal territory includes only 500 acres at the foot of red and cream colored cliffs towering 2500 feet above cultivated small farms.  Petitioners ask for cement to construct stone houses, for equipment to work their patches of land.” (entire item)]

1941  17.1527  White medicine good.  *In: Here and There on the Desert* [section].  *Desert Magazine, 5*(1)(November):31.  ["Grand Canyon—When a Supai Indian baby became ill with pneumonia, the aged grandfather insisted that the tribal medicine men could cure the ailment.  The mother wanted to call a white doctor.  A group of educated young Indians held a pow-wow to decide the issue, and agreed with the mother.  The child is responding to treatment.” (entire item)]

1947  17.1533  Havasupai evangelist.  *In: Here and There on the Desert* [section].  *Desert Magazine, 10*(7)(May):33.  ["Phoenix—Jim Crook, chief of Havasupai tribal council, was licensed as lay evangelist of Episcopal church at 54th annual convocation of Protestant Episcopal missionary district of Arizona.  Crook, first of the Grand Canyon tribe to embrace Christianity, served many years as interpreter for missionaries.  Havasupais now have 30 baptized members.” (entire note)]

1948  17.1570  Quonset by air.  *In: Here and There on the Desert* [section].  *Desert Magazine, 11*(8)(June):32.  [Quonset hut delivered in sections by helicopter to Supai, to be used as the St. Andrews Episcopal missionary chapel.]

<td>Isolated tribe to modernize. <em>In: Here and There on the Desert</em> [section]. <em>Desert Magazine</em>, 14(6)(April):25. [&quot;Grand Canyon—Two hundred Indians, living in Havasupai Canyon, are planning to adopt a paleface tourist lure. They are erecting a small group of cabins on their remote reservation to accommodate visitors. To reach them it is necessary to travel 60 miles over a poor road, then hike or ride horseback nine miles down a steep trail. Everything that goes in or comes out passes over this precarious trail. Tourist income last year was $5000. It is hoped the cabins will increase the income. Dudley Manakacha, who has been chief since his father’s death in 1942, died recently in Phoenix. A new chief will be elected.—<em>Gallup Independent &amp; Tucson Daily Times</em>.&quot; (entire item)]</td>

Out of place: Case studies of Native American interpretive projects and processes. [Denver]: prepared for WESTAF (Western States Artists Federation), [62] pp. [Includes "New Interpretations of National Parks: The Grand Canyon Project".]

SCIENCE IN THE
GRAND CANYON REGION
PHYSICAL ENVIRONMENT

Physical, chemical, biophysical, or biochemical aspects of land, water, and atmospheric environments of the Grand Canyon region; non-biologically focused and interdisciplinary research of the environment in the Grand Canyon region and the Colorado River corridor through the Grand Canyon; and climatological and hydroclimatological investigations relating to the Colorado River basin that include the lower basin.

This part includes ecological studies that are not organismically specific, and environmental studies that have been part of scientific investigations conducted for the purpose of environmental management of public lands in the Grand Canyon region, including studies of climatological influences on water supply. Added to this part are publications that discuss climatological and environmental issues for the entire Colorado River basin and the greater Southwest in general, insofar as they include the Grand Canyon region. Multidisciplinary studies of environmental concerns and human impacts together in the Colorado River corridor are included in this part, as are also general articles that pertain to environmental issues in the Grand Canyon region, and multidisciplinary items pertaining to controlled flood flows from Glen Canyon Dam and anthropogenically induced flooding in the lower Colorado River basin.

For additional comments in the Introductory Notes click here.

For items pertaining to astronomy see:

Part 2. General Publications

For items pertaining to natural history and physical environment in the lower Colorado River corridor beginning at Lake Mead/Hoover Dam, and continuing to the Colorado River delta, see:

Part 11. Lower Colorado River—Natural History
For related items, see also:

**PART 13. ADMINISTRATION** for items on policy input and management documents drafted as the result of environmental studies, and public comments on these documents

**PART 14. HUMAN AFFAIRS** for economic and sociological impacts of dam operations and river flows

**PART 15. HEALTH AND SAFETY** for human health issues of environment in Grand Canyon and on the Colorado River

**PART 20. GCES** for a consolidated listing of Glen Canyon Environmental Studies technical reports and related documents

**PART 21. GEOLOGY AND PALEONTOLOGY** for physical and geological environmental issues; also items relating to geomagnetism and studies of terrestrial gravity.

**PART 22. HYDROGEOLOGY** for environmental studies on the hydrogeological regime of the Colorado River

Studies of organismal biology, biological ecology, and modeling and research applications relating to biological communities in the Grand Canyon ecoregion, including the Colorado River corridor through the Grand Canyon; and general items relating to organismal resources in the region

This part includes documents on biological censuses and the biology and ecology of animal, plant, and protist organisms as occurring in the Grand Canyon region. This part also includes biological reports and studies that have been part of scientific investigations conducted for the purpose of environmental management of public lands in the Grand Canyon region. Also included here are general articles about organismal-related information, resources and activities; for example, fishing, hunting, and conservation.

For items pertaining to natural history in the lower Colorado River corridor in Lake Mead and downstream, see:

PART 11. LOWER COLORADO RIVER—NATURAL HISTORY

For related items, see also:

PART 13. ADMINISTRATION for items on policy input and management documents drafted as the result of environmental studies, and public comments on these documents

PART 14. HUMAN AFFAIRS for economic and sociological impacts of dam operations and river flows

PART 15. HEALTH AND SAFETY for human health issues of environment in Grand Canyon and on the Colorado River

PART 20. GCES for a consolidated listing of Glen Canyon Environmental Studies technical reports and related documents

PART 21. GEOLOGY AND PALEONTOLOGY for items pertaining to the paleontological record, including non-present Holocene records and studies of organisms

PART 22. HYDROGEOLOGY for studies of the physical characteristics of, and research relating to environmental impacts in, the hydrogeological regime of the Colorado River

</thead>
<tbody>
<tr>
<td>1905</td>
<td>19.4093</td>
<td>[Game preserve.] <em>Shooting and Fishing</em>, 38(23)(September 14):445. [&quot;It is understood that the Utah and Arizona representatives in Congress have agreed to join in placing before the next session a bill making a game preserve on the region lying between the southern Utah line and the Grand Canon of Arizona, an area of about 2000 square miles. It is intended that the Government shall stock the ground with buffalo and rare animals and shall fence it in. Only a few years ago the district proposed to be stocked was full of deer and antelope, which have been almost entirely destroyed by Ute Indians from Colorado, who slaughtered the game wontonly and unnecessarily.&quot; (entire item)]</td>
</tr>
<tr>
<td>1906</td>
<td>19.3531</td>
<td>Fredonia, Arizona [news]. <em>Deseret News</em>, (January 19):9 [issue pagination]. [&quot;Col. Jones has his buffalo and cattalo 40 miles southeast from here. The country is turning into a primitive west. While the last drove of animals were being driven from Lund, one large buffalo bull was lost on the prairie near Rockville. No particular danger from stampede is anticipated, but it make take a Buffalo Bill to 'round' him in. Tourists will soon be able to find a veritable 'Wild West Show' in the Buckskin mountains.&quot; (entire note) (Buffalo Jones.) (See also Item no. 19.3532 [Anonymous, 1906].)]</td>
</tr>
<tr>
<td>1906</td>
<td>19.3532</td>
<td>Fredonia, Arizona [news]. Only 20,000 sheep will enter reserve—Buffalo bull again at large [and other news]. <em>Deseret News</em>, (February 28):11 [issue pagination]. [&quot;Supervisor Pratt of the Northern Division of the Grand canyon reserve is in possession of information that corrects a statement made in the 'News' some time ago to the effect that 30,000 sheep would be allowed to graze on the reserve. Twenty thousand is the maximum that will be allowed and these are limited to what is designated as district No. 3, a portion of the country that is suitable principally for winter range. ¶The buffalo bull lost on the desert near hear has been found and coaxed into a corral. But the animal seems to ignore such contrivances, so he simply smashed the posts and gained his freedom. He may get tender hearted when spring opens and let the boys round him in again.&quot; (entire notes of pertinence)]</td>
</tr>
<tr>
<td>1906</td>
<td>19.3533</td>
<td>Fredonia, Arizona [news]. <em>Deseret News</em>, (July 10):9 [issue pagination]. [&quot;The Buffalo and Catalo and Persian sheep are located on Bright Angel point where they are within reach of the telescopes of tourists sitting at the big hotel on the side where the railroad comes to the brink.&quot; (entire note)]</td>
</tr>
<tr>
<td>1906</td>
<td>19.3534</td>
<td>Toquerville [news]. <em>Deseret News</em>, (September 4):3 [issue pagination]. [&quot;A herd of buffalo and cattalo (the latter is a hybrid of the buffalo and the galloway cow), has been brought to Camp Woolley. The company owning them is capitalized at $100,000. Buffalo Jones, former game warden at the Yellowstone National park, is an active member. Beside the buffalo, Persian sheep have been secured by the company. Deer in herds are to be seen in the pines and quaking asps. A movement is on foot to make the Buckskin mountains of this section a national game preserve.&quot; (entire note)]</td>
</tr>
<tr>
<td>1906</td>
<td>19.5</td>
<td>[Untitled note.] <em>Nautilus</em>, 20(7)(November):84. [&quot;The Senior Editor of The Nautilus, in company with Mr. Jas. H. Ferriss, is on a collecting trip in Arizona. He expects to be</td>

</table>
absent about six weeks." (entire note) This was Henry A. Pilsbry and James H. Ferriss' trip that included the Grand Canyon region (see Pilsbry and Ferriss (1911).]

[cited=GCNHA Monograph 8: page 4-31]

1907 19.3535 Mountain lion captured. Deseret News, (July 19):2 [issue pagination]. ["Buffalo Jones passed through Provo today with a mountain lion captured at Angel Creek in southern Utah [sic], about 15 miles from the point where the cable is being stretched across the Colorado. Two lions and cub were lassoed by the party, but the one Mr. Jones has and the cub are all that were finally secured. The other lion came so near getting away, while the capturing party were trying to secure him with chains, that it was found necessary to kill him or lose him, and he was killed. Mr. Jones will take the lions with him to use in the east as illustrations in a lecture on the Wild West." (entire item)] [See also note in July 26 issue (Item no. 19.3536 [Anonymous, 1907]).]

1907 19.3536 "Buffalo" Jones here. Man who knows all about animals comes to town on visit. Deseret News, (July 26):10 [issue pagination]. [Buffalo Jones brings with him two mountain lions caught (refer to Item no. 19.3535 [Anonymous, 1907]).]

1908 19.3537 Kanab [news]. Deseret News, (March 3):3 [issue pagination]. ["A great many of the cattlemen of Kane county are contemplating going on to the forest reserve on the Buckskin mountain, and some of them have already put in their applications on the strength of the prospects of the government’s building a fence across the north end of the reserve, so that the cattle can be kept on the mountains." (entire note)]

1909 19.6 [Untitled note.] Nautilus, 23(6)(November):84. [Entire note reads: "Messrs. Ferriss and Daniels are exploring the Kaibab and Kanab plateaus for shells and ferns. In this little-known country north of the Grand Canyon of the Colorado, they report beautiful scenery, a superb climate, and plenty of shells." (See Pilsbry and Ferriss (1911); also see Ferriss (1910) for a related article.)] [cited=GCNHA Monograph 8: page 4-31]

1914 19.3762 Deer in Grand Canyon game refuge. The Hawaiian Forester and Agriculturist, 12(2)(February):54. ["It is estimated that the government’s Grand Canyon game refuge, in Arizona, now contains about ten thousand deer." (entire item) Filler, without separate title, although the volume index, p. vii, gives the item title as cited here.]

1914 19.3507 [Kaibab Plateau timber sale.] In: Salt Lake and Utah [section]. The Timberman (Portland, Oregon), 15(7)(May):.
1914 19.3563 [Botanical field trip.] *In: News Items [section]. Torreya*, 14(6)(June):113. ["Mr. W. W. Eggleston left New York May 8 for a trip, during May and June, to the Manti, Fillmore and Fish Lake Forests, Utah and the Kaibab Forest, northern Arizona. This latter region, north of the Grand Canon, Arizona, is very little known botanically, having been visited by Mr. Ivar Tidestrom in 1909, but perhaps not previously, by botanists." (entire item)]

1915 19.3483 [Huge mountain lion.] *In: The Tree Top [section]. Recreation*, new series, 52(3)(March):168. ["Speaking of beasts of prey—an outdoor magazine, in the first paragraph of the leading article of a recent number, tells about a mountain lion which 'measured ten feet from nose to tail.’ Think of it! An ordinary whopping big cougar might measure that much tail and all, and they have long tails. That old Grand Cañon tom cougar must have stood six feet high and had a yowl like a foghorn.” (entire item)]

1915 19.4121 [Huge mountain lion.] *The American Thresherman and Farm Power* (Madison, Wisconsin), 17(12)(April):24. ["A mountain lion recently killed in the Grand Canyon game preserve, which adjoins the Tusayan national forest, measured ten feet from nose to tail. Mountain lions and other beasts of prey, such as wolves, coyotes, and wild cats, are killed by forest officers and game wardens because they are a menace to stock and to game animals.” (entire item)]

1915 19.4090 [Sheep in Grand Canyon Game Preserve.] *American Sheep-Breeder and Wool-Grower* (Chicago), 35(11)(November):512. ["Dr. Hornaday, the big New York Zoo man, will present on behalf of his institution a flock of Himalayan Mountain sheep to the State of Arizona, the sheep to be confined in a preserve in the Grand Canyon.”] [William Temple Hornaday.]

1916 19.4052 Potato crop brings goodly wealth to Michigan growers. Pere Marquette Service (Pere Marquette Railroad, Detroit), 2(7)(December):6-7. [See p. 7, "Origin of the Potato Bug": "The late C. C. James, of Canada, who was as highly regarded in scientific agriculture in Canada as Uncle James Wilson in the United States, held to a novel theory as to the origin of the potato bug. ¶"This pest, according to Prof. James, was none other than the Colorado beetle, which is indigenous to the Grand Canyon of the Colorado. It first reached the Detroit river in 1877, and his belief was that it had traced the footsteps of the Forty-Niners eastward. It is a known fact that potatoes can be reproduced from the peel providing that there is an eye in it. Now, Mr. James, held that the Forty-Niners in their march across the continent had left a trace of these, which the Colorado beetle followed. It took them from 1849 to 1877 to reach Michigan." (entire note) ...Surely a confused rendition.]

1917 19.3668 A wonderful specimen of a petrified bird’s nest. Popular Science Monthly, 90(1)(January):188. [Found "imbedded in a rock formation in a cliff of the grand Canyon, five hundred feet above the base"; surely a travertine-enrobed artifact.]

1918 19.3697 [Note on a legal case pertaining to wild horses in New Mexico and southern Colorado.] In: Along the Trail [section]. Santa Fe Magazine, 12(9)(August):70. [Includes note, “A tale, vouched for at El Tovar Hotel, is that there are 1,000 burros more or less running wild in the Grand Cañon of Arizona—descendants of their kind left there by Coronado’s band in 1542.” (entire note)]

1921 19.4567 Petrified bird’s nest. American Forestry, 27(March):172. [Found “in the Grand Canyon of the Colorado, in Arizona, 550 feet from the base of the canyon. It was imbedded in a rock formation in a sort of cliff.” Surely a travertine-enrobed artifact.]

1922 19.4084 Undeveloped timber section of Arizona; over one billion feet contained in the 300,000-acre area. The Timberman (Portland, Oregon), 23(5)(March):114, 117. [Kaibab Plateau.]

1922 19.3734 Barkbeetles menace to Grand Canyon forests. Lumber (Chicago), 70(October 20):44. [Grand Canyon National Park and Kaibab National Forest.]

The names of the hunters were drawn by lot from 371 applicants. Each hunter was permitted to retain one quarter of the meat, the head and the hide. The state reserved the right ot sell the remainder of the meat." (entire item)]

1940 19.4125 Flagstaff. In: Here and There on the Desert [section]. *Desert Magazine*, 3(3)(January):34. ["When George Andarakos, hotel employe at Grand Canyon, shot a coyote he was arrested, now faces trial in federal court at Prescott. Andarakos' target was semi-tame, had thrilled many tourists by practically eating out of their hands. In fact the coyote was so tame he sat often by the roadside waiting for motorists to stop and offer candy or cookies. Park service regulations prohibit killing any wildlife in a national park." (entire item)]

*Old Renegade—one ton buffalo outlaw—will destroy no more for he was shot a short time ago and at request of Arizona’s game and fish commission. For 17 years he held his own against all comers in Arizona’s buffalo herd that roams House Rock valley, but when he was challenged and beaten by a younger bull, Old Renegade departed to become a destructive nuisance.* (entire item) [House Rock Valley.] |
*Augmenting the Houserock valley bison herd, Arizona has introduced 12 more bulls and yearling calves, shipped from Wichita mountain game refuge near Lawton, Okla. Another bull, a three-year-old, was sent to Tovrea memorial zoo near Phoenix. State-owned here at Houserock valley has attracted many tourists.* (entire item) [House Rock Valley.] |
*Grand Canyon—Annual buffalo hunt in House Rock valley on North Rim has been set by state game department for February 12 and 13. Applications of 35 hunters and alternates were to be selected by Arizona game and fish commission, Phoenix, January 22. the herd is the only free-roaming one in existence, has furnished background for many historical motion pictures.* (entire item) |
*Grand Canyon—Hunters will crop 50 buffalo from the state owned herd in House Rock valley north of here February 3 and 4, in order to maintain the herd at 200, which is carrying capacity of the range. Herd produced 51 known calves the past season. The 50 hunters, drawn by lot, will be allowed to keep head, hide and one front quarter and may buy one other quarter at 25-35 cents per pound. No commercialization of the meat is permitted.* (entire item) |
| 1945 | 19.3809 | Casey hits a double. *Time*, (July 30):. 
*Robert J. (Bob) Casey, Chicago Daily News reporter. Notes in part that “Once, when he heard that a couple of scientists were to climb to a Grand Canyon plateau never before trod by man, he flew over it dropping old whiskey bottles and Ford parts for the amazed scientists to find.” (entire note) Refers to the American Museum of Natural History’s Shiva Temple expedition of 1937.* |
*Grand Canyon—Miniature horses exhibited as having come from Grand Canyon where they were dwarfed for lack of feed, have never been near Grand Canyon, according to statement of Superintendent H. C. Bryant in a recent interview. ‘The horse which have been exhibited as coming from Grand Canyon have their origin probably in Shetland stock secured from a ranch in Mexico,’ Bryant said. The superintendent suggested that newspapermen could render a service to the public by refusing to be a party to the miniature horse hoax.* (entire item) |
*Pauline Sinnett in state-sponsored hunt at House Rock Valley. Credited to Aztec Independent Review.* |
*Two special open seasons for Kaibab buck mule deer. Item credited to Tombstone Epitaph.* |
*[Offer to reduce House Rock Valley buffalo range involves less suitable lands. Item credited to Coconino Sun.* |
1950 19.4142 Wild turkeys are planted. In: Here and There on the Desert [section]. Desert Magazine, 13(5)(March):32. ["Kingman—Wild turkeys are being live-trapped by the Arizona game and fish commission in a number of areas where surpluses exist to restock Ft. Huachuca, the Santa Rita mountains and the North Kaibab National forest. Ft. Huachucha and the Santa Ritas once carried good populations of wild turkeys, but no evidence has been found to indicate that turkeys ever ranged the North Kaibab area. Surveys by rangers lead officials to believe that turkeys will do well there, however.—Mohave County Miner." (entire item)]

1950 19.4143 Buffalo range controversy. In: Here and There on the Desert [section]. Desert Magazine, 13(8)(June):31. ["Flagstaff—Seeking an end to a controversy that has continued since 1926, Thomas F. Kimball, state game commissioner, has suggested to Senator Ernest McFarland that a bill be introduced in congress giving the state title to 28,760 acres in Houserock Valley for a buffalo range. The controversy has existed since the Arizona Game and Fish Commission in 1926 bought a herd of about 80 buffalo which had been driven into Houserock Valley. At present cattle share the range. It is being over-grazed. In 1930 a tract of 44,000 acres was withdrawn by executive order of President Hoover, but wording of this order was not specific enough to avoid later controversy.—Coconino Sun." (entire item)] [House Rock Valley.]

1950 19.4144 Houserock buffalo being moved. In: Here and There on the Desert [section]. Desert Magazine, 13(10)(August):35. ["Phoenix—Arizona’s buffalo, now located in Houserock Valley, are to be moved to avoid starvation, the state game and fish commission has announced. Half of the 125 animals are to go to the buffalo refuge on Anderson mesa. to find a permanent home for the last remaining Arizona buffalo, the commission said it is waiving all rights to Houserock Valley in return for approximately 100,000 acres of range in the Kaibab National Forest.—Coconino Sun." (entire item)] [House Rock Valley.]

1952 19.4153 Game surveys completed. In: Here and There on the Desert [section]. Desert Magazine, 15(6)(June):31. ["Grand Canyon—‘Knowledge of deer populations and trends is essential to proper deer range management,’ explained J. J. Baldwin, district forest ranger for Kaibab National Forest when he released the figures obtained in the April range survey. ‘Through a study of condition and trend of the herd and a study of available forage, it is possible to estimate and recommend the number that should be removed annually in hunting.’ The survey will be evaluated by the Arizona Game Commission before hunt proposals are made.—Kane County Standard." (entire item)]

1952 19.4154 Cattle in Kaibab. In: Here and There on the Desert [section]. Desert Magazine, 15(7)(July):29. ["Grand Canyon—The United States Forest Service has decided to give cattle a permanent place on the Kaibab National Game Refuge, which was set aside by President Theodore Roosevelt in 1906 for the famous Kaibab deer herd. The action was taken because cattlemen agreed to reduce livestock use 38 percent through fall calf sales that would remove the annual increase. It is expected the admission of cattle to range lands will necessitate a larger deer hunt this fall.—Arizona Republic." (entire item)]

1952 19.4155 Biggest Kaibab hunt. In: Here and There on the Desert [section]. Desert Magazine, 15(11)(November):29. ["Grand Canyon—The entire Grand Canyon National Game Preserve will be open during parts of October and November for the biggest Kaibab North deer hunt in history. The first section hunt was scheduled October 10 through 19; the second will begin October 24 and continue through November 9. Seven thousand hunters were expected to participate.—Chandler Arizonan." (entire item)]

1958 19.3072 Early history of the North Kaibab. Arizona Game Protective Association, Outdoor News, (July):.
Bears on canyon rim. *Desert Magazine*, 22(12)(December):35.  [*For the first time in many years, wild black bears have been seen on the South Rim of Grand Canyon. Reports indicate that the bears are two or three years old and weigh from 150 to 200 pounds. Potentially dangerous to overly-curious tourists, the bears so far have done no worse than knock over a few garbage cans. Most of the bruins were spotted in Grandview, a heavily wooded area 10 miles east of Park headquarters.*]

Ben-David, M.

1957 19.4244 [Remarks.] From: Hunting. In: First Annual Meeting, Desert Bighorn Sheep Council, September 23, 24, and 25, 1957, Palm Room-Royal Nevada Hotel, Las Vegas, Nevada. Desert Bighorn Council, Transactions, 1:77. [Remarks specifically relate to a previous speaker’s relation that an Arizona man arrested for shooting a bighorn was acquitted because he had believed it was an ibex (that bighorns were unknown in the region). Bendt commented: “We have found the same thing at Grand Canyon where unlike Death Valley we have people coming from all parts of the world, and looking down into the canyon the first thing they want to know is what are these trails they see on this Tonto Plateau[.] We hate to tell them they are made by feral burros. We tell them, Yes, we have bighorn. We take caution in making any estimates, but they are amazed that there are any bighorns.” (entire item)]

1949 19.4140 Wild burro vs. mountain sheep. *In: Letters [section]. Desert Magazine*, 13(1)(November):30.  [Letter in response to Randall Henderson’s column in the October issue, which pertained to Death Valley. Goodwin’s letter notes: "The decision by the National Park Service to attempt to hold the number of burros to a point where they would not threaten the sheep is far from being a new angle. Grand Canyon had
to face it a number of years ago and carried on a very quiet campaign with the
permission of all Human Societies and Wildlife experts and while I do not have the
number of burros that were actually done away with, I know it ran into considerable
figures. Lake Mead is faced with the same problem at this time.” (entire note)

[Offprint from U.S. Department of Agriculture, Annual Report.  See p. 58: On the Grand Canyon National Game Preserve "all species of game animals and birds multiplied encouragingly." (entire note)]

[Offprint from U.S. Department of Agriculture, Annual Report.  See pp. 67-68: Notice of increases in animal populations on Grand Canyon Game Preserve.  "No attempt has been made to stock the Grand Canyon game refuge with introduced species, and the only game animals within the refuge are those indigenous to the locality, which have multiplied encouragingly." (p. 68) (entire note)]

1914 19.3502 *Report of the Forester for 1914.* Washington, D.C.: U.S. Government Printing Office. [Offprint from U.S. Department of Agriculture, Annual Report. See p. 10, note of contract sale of 1,000,000,000 [board] feet of western yellow pine on the Kaibab National Forest. See p. 23: "The deer within the Grand Canyon Game Refuge have increased, it is estimated, to 10,000 in number as the result of the active campaign against their natural enemies, the mountain lion and bobcat, together with the almost complete prevention of hunting. There has been a corresponding gain in other species indigenous to the region." (entire note)]

2010 19.4169 Walking Stick enjoyed slide show, part 2. In: Sticky Notes (News of the Walking Stick Chapter) [section]. C.C.S.S. News (Colorado Cactus and Succulent Society), 14(21 [sic, 12])(December):3-5. [Report on second half of "Canyon Country Slide Show" presented at the November meeting by Veeder and Spenny. Introduced by a brief editor's paragraph, the article comprises photos and legends only, apparently from several trips hiking in Grand Canyon. Includes photos of plants observed. (First half of presentation was largely about Upper Basin locales.)] [See 19.4168, under Don Barnett et al., for part 1.]

Zylo, Mary T.

The Glen Canyon Environmental Studies (GCES) program was created to perform as an interagency body under the direction of the U.S. Department of the Interior, Bureau of Reclamation. It responded to a Congressional mandate to develop an Environmental Impact Statement on the effects of hydropower production at Glen Canyon Dam on the Colorado River and its riparian community downstream through lower Glen Canyon and the Grand Canyon. The EIS also examined the potential impacts of management decisions on social and economic issues. The GCES went through two phases, and the EIS was completed in 1995. Also see 13. Administration for various management issues and decisions related to the GCES.

GCES was such an important part of the scientific and cultural study of the Grand Canyon, specifically in the previously little-studied Colorado River corridor, that the products of these studies are a bibliography in their own right. Many of the documents are interdisciplinary, thus also a justification for listing them separately, rather than in several places throughout this bibliography. Historians of science will also notice in this list that some of the subjects were reported in other scientific publications. A few of the reports were also released in their entirety as U.S. Geological Survey Open-File Reports or publications of the National Academy Press; these are itemized here. Most of the reports listed here, and voluminous supporting data, are archived at the Grand Canyon Monitoring and Research Center, Flagstaff, Arizona. Complete information for this list is still being compiled.
Enumerated entries following the sequence for this bibliography do not necessarily pertain to individual reports; some refer to study groups, various reports of which are archived.

For additional comments in the Introductory Notes click here.
Glen Canyon Environmental Studies Reports

Compiled by Richard D. Quartaroli
Glen Canyon Environmental Studies
U.S. Bureau of Reclamation
Flagstaff, Arizona

(Item numbers for Part 20 have been added in THE GRAND CANON. Citations as they appear in the online edition differ in format.)

**A. Arizona State University**

**Endangered Fish Study in the Little Colorado River**

**A** Ecology and conservation biology of humpback chub, Gila cypha, in the Little Colorado River, Arizona

Principal Investigators: Paul Marsh, Michael Douglas

A1(1) 20.40 Annual — 31 January 1993

A1(2) 20.41 Annual — 31 January 1994
B. Arizona Game and Fish Department

Native Fish Studies in the Mainstem Colorado River and in the Little Colorado River

**B1** Ecosystem Level Process and Lower Trophic Level

**B1(1)** 20.45 Effects of different flow regimes on primary production and organic matter and nutrient loading rates and budgets for the Glen Canyon Dam tailwater to Lee’s Ferry.

**B1(2)** 20.46 Effects of operations of Glen Canyon Dam on the Gammarus lacustris in the Glen Canyon Dam tailwater.

**B1(3)** 20.47 Effects of varying flow levels on the algal and invertebrate species of the Glen Canyon Dam tailwater.

**B1(4)** 20.48 Effects of varying flow levels on desiccation and nutritive quality of the exposed algae.

Principal Investigators: Dennis Kubly, Andy Ayers, Ted Angradi

20.48 Draft — 30 September 1993

20.49 Final — 31 December 1993

**B2** Interim Flow Monitoring

Effects of the interim flows on the water chemistry and aquatic food base for Lake Powell and in the Lee’s Ferry tailwater.

Principal Investigator: William Persons

20.50 Draft — 30 September 1994

20.51 Final — 31 December 1994

**B3** Trout Studies

**B3(1)** 20.52 Effects of the operations of Glen Canyon Dam on the loss of trout spawning in the reach between Glen Canyon Dam and Lee’s Ferry.

**B3(2)** 20.53 Effects of the operations of Glen Canyon Dam on the rate of stranding and mortality of naturally reproduced and stocked trout from Glen Canyon Dam to Lee’s Ferry.

**B3(3)** 20.54 Effects of fluctuating flows on the age and growth relationships of stocked trout between Glen Canyon Dam and Lee’s Ferry.

**B3(4)** 20.55 Effects of fluctuating flows on the behavioral response of trout in the Glen Canyon Dam tailwater.

Principal Investigators: William Persons, Dennis Kubly

20.55 Draft — 30 September 1993

20.56 Final — 31 December 1993
**B4 Native Fish Studies**

**B4(1) 20.57** Identify the temporal and spatial distribution patterns and movements of early life history stages of fishes in the Little Colorado River.

**B4(2) 20.58** Determine changes in environmental conditions in mainstream and tributary confluence areas for native fish rearing habitats under different flow regimes.

**B4(3) 20.59** Determine the algal and invertebrate standing crops and their relative contributions to the diets of young native fish.

**B4(4) 20.60** Determine the behavioral responses of larval to juvenile native fishes to changing environmental conditions in rearing habitats.

**B4(5) 20.61** Determine the age structure and growth rates of native fishes related to hydrologic and thermal conditions.

**B4(6) 20.62** Comparison of otolith edge chemistry of native fishes collected in tributary and mainstream habitats for use in growth and movement analysis.

Principal Investigators: Dennis Kubly, Rob Clarkson

**B4(7) 20.63** Determination of the effects of limnological changes on the distribution of native fishes in the Little Colorado River and other tributaries.

Principal Investigator: Rob Clarkson

**B4(8) 20.64** Determination of thermal tolerance of young-of-the-year humpback chub.

Principal Investigator: William Persons

Draft — 30 September 1994

Final — 30 November 1994

**B5 Propagation of Native Fish Study**

Principal Investigator: William Persons

Draft — 30 January 1993

Final — 30 November 1993

**C. Bio/West**

**Endangered Fish Studies in the Mainstem Colorado River**

**C 20.68** Characterization of the life history and ecology of the humpback chub, Gila cypha, in the Grand Canyon, Arizona.

Principal Investigators: Richard A. Valdez, W. J. Masslich, W. C. Leibfried

Annual — 31 March 1991

Annual — 31 March 1992

Annual — 31 March 1993

Draft — 31 March 1994

Final — 15 August 1994
D. U.S. Fish and Wildlife Service

Little Colorado River Endangered Fish Studies and Tributary Evaluation

D1 20.73 Habitat use by humpback chub, *Gila cypha*, in the Little Colorado River and other tributaries of the Colorado River, Arizona.

D2 20.74 Refinement of habitat model for the Little Colorado River.

D3 20.75 Quantification of *Gila cypha* habitat in selected tributaries in the Grand Canyon, Arizona.

D4 20.76 Determination of impacts of increased discharges to humpback chub habitat availability in the Little Colorado River.

Principal Investigators: Stuart C. Leon, Owen T. Gorman, O. E. (Gene) Maughn

20.77 Draft — 15 June 1994

20.78 Final — 30 September 1994

E. U.S. Geological Survey, Arizona District Office and National Research Program

E1 Eddy Deposition Study

Movement and deposition of sediments from the main channel to the eddies of the Colorado River in the Grand Canyon.

Principal Investigators: Jon Nelson, Ned Andrews

20.79 Draft — 31 March 1993 (anticipated)

20.80 Final —

E2 Velocity Field Simulations

Simulation of the velocity fields of the Colorado River in the Grand Canyon, Arizona (preliminary title)

Principal Investigators: James Smith, et al.

20.81 Draft — 30 June 1993

20.82 Final —

E3 Beach and Eddy Linkage

Linkage in the main channel and eddy dynamics of the flow of the Colorado River in the Grand Canyon, Arizona.

Principal Investigators: James Smith, et al.

20.83 Draft — 30 June 1993

20.84 Final —

E4 Sediment Transport Simulations

Sediment transport simulations, Colorado River, Grand Canyon, Arizona.

Principal Investigator: Jim Bennett [James P. Bennett]

20.85 Draft — 31 March 1993

20.86 Final —
E5  Water Quality Characteristics of Lake Powell

Water quality characteristics of the Lake Powell forebay and draft tubes of Glen Canyon Dam.

Principal Investigators: Robert Hart, K. M. Sherman

20.87 Draft — 31 March 1993
20.88 Final —

E6  Channel Margin Stratigraphy

Internal structure of bars in Grand Canyon and evaluation of proposed alternatives for Glen Canyon Dam.

Principal Investigators: Dave Rubin, et al.

20.89 Draft — 31 March 1993
20.90 Final —

E7  Sediment Transport Study

Flow and sediment transport in the Colorado River between Lake Powell and Lake Mead.

Principal Investigators: Jim Smith, Steve Wiele

20.91 Draft — 31 March 1993
20.92 Final —

E8  Beach Deformation Study

Hydrogeology of sand bars 43.1L and 172.3L and the implications on flow alternatives along the Colorado River in Grand Canyon.

Principal Investigators: Michael Carpenter, Carruth, Fink, Boling, Brian Cluer

20.93 Draft — 30 June 1993
20.94 Final —

E9  Debris Flow Study

Magnitude and frequency data for debris flows in Grand Canyon National Park and vicinity, Arizona.

Principal Investigators: Ted Melis, Robert Webb

20.95 Draft — 30 September 1993
20.96 Final —

E10 Synoptic Water Quality Report

Synoptic water-quality experiments on the Colorado River in the Grand Canyon, Arizona.

Principal Investigators: Robert Averett, H. E. Taylor
E11 Sand Thickness in Grand Canyon

Measurement of sand thickness in Grand Canyon and a conceptual model for characterizing changes in sand-bar volume through time and space.

Principal Investigators: Dave Rubin, et al.

E12 Stanton Photo Reevaluation

A century of environmental changes in Grand Canyon: Repeat photography of the 1889-90 Stanton Expedition on the Colorado River.

Principal Investigator: Robert Webb

E13 Paria River Flood and Sediment Relationships

Relation of sediment load and flood-plain formation to climatic variability, Paria River drainage basin, Utah and Arizona.

Principal Investigators: Julia Graf, Robert Webb, Richard Hereford

E14 Traveltime and Dispersion

Traveltime and longitudinal dispersion at steady and unsteady flows, Colorado River, Glen Canyon Dam to Lake Mead.

Principal Investigator: Julia Graf

F1 Geoarchaeology and Mapping

Surficial geology, geomorphology, and erosion of archaeologic sites along the Colorado River, eastern Grand Canyon, Grand Canyon National Park, Arizona.

Principal Investigators: Richard Hereford, Helen Fairley, Kate Thompson, Jan Balsom
F2 Historic Climate Condition

*Historic variation of warm-season rainfall, southern Colorado Plateau, southwestern U.S.A.: Climate change.*

Principal Investigators: Richard Herefore, Robert Webb

20.109 Draft — 31 December 1992
20.110 Final —

F3 Geologic Report

*Quaternary geology, geomorphology, and erosional processes in the eastern Grand Canyon.*

Principal Investigator: Ivo Lucchitta

20.111 Draft — 30 September 1993
20.112 Final — 20 December 1993

G. HBRS, Inc.

Recreation and Economics Reports

G1 Recreation Studies

20.113 *Evaluation of the recreation economic impact related to the operations of Glen Canyon Dam.*

Principal Investigators: Michael Welsh, Richard Bishop

G2 Non-Use Value Studies

*Evaluation of the non-use values of the Grand Canyon as related to the operations of Glen Canyon Dam.*

Principal Investigators: Michael Welsh, Richard Bishop

20.114 Draft — 30 September 1993
20.115 Final — 31 December 1993

G3 Power Modeling Studies

*Evaluation of the impact of changes in the operations of Glen Canyon Dam on power resources.*

Principal Investigators: Michael Roluti, Power Resource Committee

20.116 Draft — 30 June 1993
20.117 Final — 30 September 1993

**Little Colorado River Endangered Fish Study**

**O**  
*The development of a literature data base and geographic evaluation of the Little Colorado River basin.*

Principal Investigator: Michael Tremble

20.142  Draft — 30 September 1993
20.143  Final — 31 December 1993

P. National Park Service, Grand Canyon National Park

**P1**  
**Aquatic Productivity Studies**

*The effects of Glen Canyon Dam on the aquatic food base in the Colorado River corridor in Grand Canyon, Arizona.*

Principal Investigators: Dean Blinn, Joseph Shannon, Lawrence Stevens

20.144  Draft — 31 October 1992
20.145  Final — 31 December 1992

**P2**  
**Riparian Studies**

*Impacts of Glen Canyon Dam on riparian vegetation and soil stability in the Colorado River corridor, Grand Canyon National Park, Arizona.*

Principal Investigators: Lawrence Stevens, Tina Ayers

20.146  Draft — 31 January 1993
20.147  Final — 30 April 1993

**P3**  
**Sediment Studies**

20.148  *The influence of variable discharge regimes on Colorado River sand bars below Glen Canyon Dam.*

Principal Investigators: Stanley Beus, Charles Avery

20.149  *Mechanisms of erosion and a model to predict seepage driven erosion due to transient flow.*

Principal Investigator: Muni Budhu
P3(2) 20.150  *Beach face erosion in Grand Canyon National Park: A response to ground water seepage during fluctuating flow releases from Glen Canyon Dam.*
Principal Investigators: William Werrell, Rick Inglis, Larry Martin

P3(3) 20.151  *Daily responses of Colorado River sand bars to Glen Canyon Dam test flows, Grand Canyon, Arizona.*
Principal Investigators: Brian Cluer, Lee Dexter

P3(4) 20.152  *Analysis of sand bar response along the Colorado River in Glen and Grand Canyons to test flows from Glen Canyon Dam using aerial photography.*
Principal Investigator: Brian Cluer

P3(5) 20.153  *Historic changes in sediment deposits in Grand Canyon 1965-1990.*
Principal Investigators: Jack Schidt, J. Clark, E. Kyle, P. Grams

P3(6) 20.154  *Colorado River sand budget: Lee’s Ferry to Little Colorado River including Marble Canyon.*
Principal Investigators: Gary Smillie, William L. Jackson, D. Tucker

P3(7) 20.155  *The influence of variable discharge regimes on Colorado River sand bars below Glen Canyon Dam, Arizona.*
Principal Investigators: Stanley Beus, Charles Avery, Lawrence Stevens, Matt Kaplinski, Hilary Mayes, Brian Cluer

20.155  Draft — 31 October 1992
20.156  Final — 31 January 1993

P4  *Cultural Resource Studies*

An inventory of the cultural resources of the Grand Canyon, Arizona.
Principal Investigators: Helen C. Fairley, Peter W. Bungart, Christopher M. Coder, Jim Huffman, Terry L. Samples, Janet R. Balsom

20.157  Draft — 31 December 1992
20.158  Final — 31 March 1993

P5  *Bald Eagle Report*

Influences of Glen Canyon Dam fluctuating flows on spawning rainbow trout and wintering bald eagles, with observations on the effects of human-bald eagle interactions on the Colorado River in Grand Canyon National Park, Arizona.
Principal Investigators: Linn Montgomery, Charles van Riper III, Bryan Brown, William Leibfried

20.159  Draft — 31 December 1992
20.160  Final — 31 March 1993
P6  Nutrient Cycling

*Influence on geochemical processes on nutrient spiralling within the recirculation zones of the Colorado River in the Grand Canyon.*

Principal Investigators: Rod Parnell, Jeff Bennett

Draft — 30 April 1995

Final — 1 July 1995

P7  Historic Vegetation Changes

*Evaluation of the current and historical riparian vegetation trends in Grand Canyon using multitemporal remote sensing analyses at the Geographic Information System long-term monitoring study sites.*

Principal Investigator: Gwen Waring

Draft — 30 September 1994

Final — 31 December 1994

P8  Fluvial Marsh Study

*Effects of interim flows from Glen Canyon Dam on riparian vegetation along the dam regulated Colorado River in Grand Canyon, Arizona.*

Principal Investigators: Lawrence Stevens, Tina Ayers

Draft — 1 October 1994

Final — 1 January 1995

P9  Paleoflood Study

*A 4500-year record of large floods on the Colorado River in the Grand Canyon, Arizona.*

Draft — 31 January 1993

Final — 30 April 1993

P10  Recreation Study

*Effects of the operation of Glen Canyon Dam on campsite size in the Grand Canyon, Arizona.*

Principal Investigators: Lisa Kearsley, Kathy Warren

Draft — 30 April 1993

Final — 30 August 1993
P11 Evaluation of Daily Beach Changes

An evaluation of the effects of the interim flows from Glen Canyon Dam on the daily change of beach area in Grand Canyon, Arizona.

Principal Investigators: Brian Cluer, Lee Dexter

20.171 Draft — 30 June 1994
20.172 Final — 30 September 1994

P12 Evaluation of Aerial Photography of Sediment Deposits

An evaluation of the annual effects of the interim flows from Glen Canyon Dam on the sediment deposits in the Grand Canyon, Arizona.

Principal Investigator: Brian Cluer

20.173 Draft — 31 March 1994
20.174 Final — 28 June 1994

P13 Eddy Dynamics

Evaluation of the effects of interim flows on the deposition of sediment in eddies in the Grand Canyon, Arizona.

Principal Investigator: Brian Cluer

20.175 Draft — 31 January 1995
20.176 Final — 30 April 1995

P14 Waterfowl Study

An evaluation of the effects of the operations of Glen Canyon Dam on the waterfowl resources in the Grand Canyon, Arizona.

Principal Investigators: Lawrence Stevens, Natasha Kline

20.178 Final — 30 August 1995 (31 October 1993)

P15 Willow Flycatcher Survey

Southwestern Willow Flycatcher surveys along the Colorado River in Grand Canyon National Park and Glen Canyon National Recreation Area, 1992.

Principal Investigators: Mark Sogge, Timothy Tibbitts

20.179 Draft — 7 December 1992 (draft ?)
20.180 Final —

P16 Lower Trophic Level Study

Interim flow effects on lower aquatic trophic levels in the Colorado River in Grand Canyon, Arizona.

Principal Investigators: Lawrence Stevens, Dean Blinn

20.181 Draft — 1 October 1994
20.182 Final — 1 January 1995
P17 Avifaunal Monitoring

Avifaunal monitoring during the interim flows, including the southwestern willow flycatcher, the bald eagle, and obligate riparian avifauna.

Principal Investigator: Mark Sogge

20.183 Draft — 1 October 1994
20.184 Final — 1 January 1995

P18 Recreation Monitoring

Monitoring the effects of interim flows from Glen Canyon Dam on sand bar dynamics and campsite size in the Colorado River corridor, Grand Canyon National Park, Arizona.

Principal Investigators: Stanley Beus, Matt A. Kaplinski, Joseph E. Hazel, Linda A. Tedrow, Lisa H. Kearsley

20.185 Quarterly Reports
20.186 Annual Reports
20.187 Draft — 1 October 1994
20.188 Final — 1 January 1995

Q. National Park Service, Glen Canyon National Recreation Area

Q1 Water Quality Study

An evaluation of the effects of interim flow operations on the water quality of the Colorado River from Glen Canyon Dam to Lee’s Ferry, Arizona.

Principal Investigators: Clive Pinnock, C. Wood, D. Tinker

20.189 Draft — 30 June 1993
20.190 Final — 30 September 1993

Q2 Waterfowl Study

An evaluation of the effects of interim flow operations on the waterfowl in the Colorado River from Glen Canyon Dam to Lee’s Ferry, Arizona.

Principal Investigators: Clive Pinnock, C. Wood

20.191 Draft — 30 June 1993
20.192 Final — 30 September 1993

Q3 Cultural Resource Report

An evaluation of the effects of the operations of Glen Canyon Dam on the cultural resources from Glen Canyon Dam to Lee’s Ferry.

Principal Investigators: Christine Kincaid, Tim W. Burchett

20.193 Draft —
20.194 Final —
Q4  Paiute Ethnographic Report

An ethnographic evaluation of the use of the Grand Canyon, Arizona by the Paiute tribes of Arizona and Utah.

Principal Investigators: Richard W. Stouffle, David B. Halmo, Michael J. Evans, Diane E. Austin

20.195  1st preliminary draft — 24 June 1993
20.196  2nd preliminary draft — 15 July 1993
20.197  Draft —
20.198  Final —

Q5  Marsh Study

Effects of the interim flows from Glen Canyon Dam on the fluvial marshes of the lower Glen Canyon, Arizona.

Principal Investigators: Lawrence Stevens, Tina Ayers

20.199  Draft — 31 January 1993
20.200  Final — 30 April 1993

R.  Northern Arizona University

Trout Spawning Study

R  Impact of fluctuating water levels on early life history of rainbow trout.

Principal Investigators: W. Linn Montgomery, Kirsten Tinning

20.201  Draft — 28 February 1993 (3 August 1993)
20.202  Final — 31 May 1993

S.  Northern Arizona University

Humpback Chub Literature Review

S  Synthesis of information on humpback chub, Gila cypha, in the Colorado River basin.

Principal Investigators: Linn Montgomery, Charles Minckley

20.203  Draft — 31 July 1993
20.204  Final — 31 October 1993

T.  Glen Canyon Environmental Studies

T1  Light Attenuation Study

Photosynthetically available radiation (PAR) in the Colorado River, Glen and Grand Canyon, Arizona.

Principal Investigator: Michael Yard

20.205  Draft — 11 January 1993
20.206  Final — 31 August 1993
T2  Historical Review of Lake Powell Water Quality

*Evaluation of the historic high water quality trends in Lake Powell, Arizona and Utah: A review of the available data.*

Principal Investigator: William Vernieu

20.207  Draft — 28 June 1994
20.208  Final — 30 September 1994

T3  Native Fish Report

*Non-native fishes of the Grand Canyon, Arizona: A review with regards to their effects upon native fish.*

Principal Investigator: Allen Haden

20.209  Draft — 18 November 1992
20.210  Final — 31 January 1993

T4  Backwaters Evaluation

*The relationship between flow and backwater fish habitat of the Colorado River in Grand Canyon, Arizona.*

Principal Investigator: Judy Weiss

20.211  Draft — 13 August 1993
20.212  Final — 30 September 1993

U. University of Arizona

U  Beach Deformation Study

*Monitoring of sand bar instability during the interim flows: a seepage erosion approach.*

Principal Investigators: Muni Budhu, Roger Gobin

20.213  Draft — 30 September 1994
20.214  Final — 31 December 1994

V. Utah State University

V  Development of a monitoring program of sediment storage changes in alluvial banks and bars, Colorado River, Grand Canyon, Arizona.

Principal Investigator: Jack Schmidt

20.215  Draft — 30 September 1994
20.216  Final — 31 December 1994

W. Zuni Pueblo

W  Ethnohistory Study

*Ethnohistorical evaluation of the Zuni Pueblo’s use of the Grand Canyon, Arizona.*

Principal Investigators: Roger Anyon, Richard Hart

GEOLOGY AND PALEONTOLOGY

Geology and paleontology of the Grand Canyon region, including extralimital studies of the continuity of Grand Canyon strata, regional structure and tectonics, regional groundwater hydrology, and the geological evolution of the Colorado River

This part includes works about the geology and paleontology of the Grand Canyon (including hydrogeology of tributaries to the Colorado River, but excluding the hydrogeologic regime of the Colorado River), studies of Grand Canyon rock units and their stratigraphic continuity beyond the canyon-proper, studies of the structure and tectonics of southwestern North America where embracing the Grand Canyon region, investigations of the evolution of the Grand Canyon and the Colorado River (including studies extralimital to the scope this bibliography), modern groundwater studies of the region, and general reports on topographic and geologic mapping in the region. Some works relating to physical geography are also included here, as are also items that relate to the Grand Canyon (or Grand Canyon-like) computerized terrain models.

See the Appendix to Part 21 for graphical indices to U.S. Geological Survey topographic maps of the Grand Canyon region.

Palaeontologie, 1877:649-650. [Summary of contents and illustrations; Grand Canyon noted, in passing.]

1884 21.10 Topographical maps of Arizona. Science, 4:188. GOODMAN 631

1888 21.5261 [Notice of lecture by Charles D. Walcott at meeting of March 2, 1887.] Boston Society of Natural History. Proceedings, 23:342. ["The President [S. H. Scudder] then introduced Mr. C. D. Walcott of the U. S. Geological Survey, who gave an account of a 'Trip through the Grand Cañon of the Colorado.' Mr. Walcott illustrated his remarks by showing many lantern pictures, presenting to the Society a continuous view of the geology of the Grand Cañon, which he has done so much in elucidating." (entire note)]

1890 21.5479 A great lode. In: Mining Matters [section]. The Journal "Industry", 2(23)(June):167. ["There was last month a great deal of excitement around the Flagstaff district in Arizona, over an alleged discovery of a wonderful ledge in the Grand Cañon of the Colorado. The accounts written are exciting and extravagant; so much so that we expect the paper and ink consumed are a dead loss. The informant who wrote a letter to the Engineering and Mining Journal forgot even to mention what kind of mineral the wonderful ledge—far greater than the Comstock—contained. We are at loss to know how our contemporary finds a column to spare for such sensational recountsal." (entire item)]

1903 21.5942 [Topographical map.] Friends’ Intelligencer (Philadelphia), 60(3)(January 17):iii [inside back wrapper]. ["An accurate topographical map of the Grand Canon of the Colorado is being made for the government. It shows a width of the canon of from eight to ten miles, and an average depth of one mile." (entire item)]

1903 21.6228 [Grand Canyon asbestos.] In: Western Mining News of the Week. Pacific Coast Miner (San Francisco), 7(8)(February 21):145. ["Asbestos is now being mined in the Grand Canyon by the Hance Asbestos Company. About twenty men are employed. The mine is down in the canyon, and the asbestos has to be packed on mules’ backs to the rim. A mile of elevation has to be gained in about five miles of climbing." (entire item)]
[Azurite Copper Co.] In: Western Mining News of the Week. Pacific Coast Miner (San Francisco), 7(10)(March 7):178. "The Azurite [sic] Copper Company has a property 35 miles north of Williams, Arizona, on the line of the Williams and Grand Canyon Railroad. A smelter has been erected at Williams to work on what is known as the ‘George process.’ It is said that this process has passed beyond the experimental stage. On the mines there are said to be large outcrops of medium grade ore.” (entire item)]

[United Gold and Plantimun Co.] In: Western Mining News of the Week. Pacific Coast Miner (San Francisco), 7(12)(March 21):228. "The United Gold and Platinum Company have a big scheme on hand. They own the platinum claims in Cataract canyon, in Coconino county, Arizona, and propose to build a 50-ton smelter there. The water from Beaver falls will be utilized for power, and an electric railroad will connect the plant with the Santa Fe or Grand Canyon railroad.” (entire item)]

[United Gold and Platinum Mines Company.] In: Mining News [section]. Mining Reporter, 47(14)(April 2):317. "A big enterprise is projected for Cataract canon, a branch of the Grand canon, in northern Arizona. A year ago there was great excitement over alleged platinum discoveries which, however, did not pan out. But most of the ground then located was acquired by the United Gold and Platinum Mines Company, which proposes to erect a large smelter below Beaver falls and below the famous Bridal Veil falls. The ores of the district have been tested and it is believed will yield to the new process treatment proposed by this company, after the invention of Dr. Henig of Germany.” (entire note)]

Un nuovo rilevame to del cañon del Colorado. In: Notizie ed Appunti [section]. Società Geografica Italiana, Bollettino, series 4, 4(4-5)(April/May) [anno 38, volume 40]:421. [From Globus (14), 1903.]

How the Grand Canyon was formed. Deseret News, (August 22):24 [issue pagination]. [Short extract from Roger Pocock article in Pearson’s Magazine for July (refer to Item no. 2.12912 [Pocock, 1903]).]

1904 21.6464 Earlham College. *The Educator-Journal* (Educator-Journal Co., Indianapolis, Indiana), (June):468-469. [See p. 468: "Prof. Allen D. Hole has been granted a leave of absence for the winter and spring terms of next year. Prof. Hole will spend the summer in geological work in Wisconsin, Colorado and the Grand Canyon of the Colorado river, and during the winter and spring will be in residence at the University of Chicago." (entire note)] [Serial title thus.]

1904 21.5477 Hermet Gold and Copper M. and S. Company. In: *Mining News* [section], Arizona; Coconino County [subsection]. *Mining Reporter*, 50(6)(August 11):148. ["This company was recently incorporated in Utah for the purpose of operating properties in the Grand Canon mining district. The officers are as follows: J. W. Lee, president; A. R. Teeples, vice president; Edwin W. Lee, treasurer; F. J. Barber, secretary. The directorate includes H. C. Nelson, F. W. Lee, Hyrum Lee and Richard Daniels. All of the incorporators are residents of Tooele county, Utah." (entire item)]

1905 21.6469 The production of asbestos. *Mining World*, 22(20)(May 20):515. ["Small quantities of chrysotile asbestos have been mined at Dalton, Mass., and in the Grand canyon, Arizona. * * * On account of the quantity of the asbestos exposed and of its quality, the deposits in the Grand canyon, Arizona, are attractive. The mechanical difficulties to be overcome in transportation are great, but not insuperable." (entire note)]

1906 21.5685 Kanab [news]. *Deseret News*, (January 13):3 [issue pagination]. "Messrs. W. M. Whipple and A. Hodgert are in from their mining claims near Grand Canyon. They report about two and one-half feet of snow on the Buckskin mountains. Some good copper claims have been located by these gentlemen and improvements are being made on same." (entire item)

1906 21.5687 More evidence. *Deseret News*, (February 13):4 [issue pagination]. [A correspondent in Delta, Colorado, cites "a volume by Lieut. Williamson" concerning "a survey on the Pacific coast in the early fifties." Williamson claims evidence that "the Columbia river once ran south through California, and emptied into the Gulf of California" and that prior to the elevation of the Sierra Nevadas "tradeswinds from the Pacific swept its vapors far east . . . forming lakes and rivers. * * * Probably at the time of this great eruption [of the Sierras] the great canyon of the Colorado River was rent open and made such a wonderful change in the face of nature.:" The article concludes that such evidence corroborates the "brief historical record" of these events contained in the Book of Mormon.]

1906 21.6465 The use of asbestos as a material of construction. *Mining Reporter* (Denver), 53(14)(April 5):340. [Notes: "Nearly all of the asbestos mined in the United States is obtained near New Hartford, Connecticut, Sall Mountain, Georgia, Bedford county, Virginia, Dalton, Massachusetts, and in the Grand Canyon, Arizona. On account of the quantity of asbestos exposed and its quality the latter deposits are unusually attractive." (entire note)]

1906 21.6224 [Grand Canyon asbestos.] In: Metallics [section]. *Engineering and Mining Journal*, 82(7)(August 18):308. ["The most successful development of chrysotile, or serpentine, asbestos in this country is the one at the bottom of the Grand Cañon of the Colorado, operated by the Hance Asbestos Company. Practically all other asbestos mined in this country is of the amphibole variety, which is inferior, for many uses, to chrysotile. The Canadian output, on the other hand, is almost exclusively of the serpentinous variety." (entire item)]

1906 21.6002 Hance Asbestos Company. In: Mining News [section]. *Mining Reporter*, 54(13)(September 27):320. ["Coconino County. Hance Asbestos Company.—It is reported that this company will resume operation at its mines in the Grand cañon about October 1st. A force of about twenty men will be employed." (entire item)]

1906 21.5395 [Asbestos.] *In: Ze Světa [section]. Časopis Přírodovědců (Praze),* 16(6):187-188. [See p. 188, notice of asbestos from Grand Canyon used to weave fireproof fabrics. In Czech.]

1907 21.5328 [Ferro-tungstate of tellurium near Grand Canyon.] *In: The Cabinet [section]. Mining Reporter,* 55(14)(April 4):305. ["The discovery of a new tellurium mineral—ferro-tungstate of tellurium—is reported. It was found in the vicinity of the Grand Canyon of Arizona. The particular specimen analyzed carried high silver values and from 25 to 30% tellurium.” (entire item)]

1907 21.5602 [Anita Mine.] *In: Mining News [section]. Mining Reporter,* 55(25)(June 20):571. ["A shipment of four carlots of high grade copper ore, carrying gold and silver values, was recently made from the Anita mine, twenty miles south of the Grand Canyon. E. F. L’Engle is in charge of the operations.” (entire item) See also corresponding note in "Movements of Mining Men" section, p. 569: “E. Fleming L’Engle, New York City, is to have charge of the development work at the Anita mines, Williams, Ariz.” (entire note)]

1907 21.5688 Buckskin copper. Preparations to increase ore production facilities now underway. *Deseret News,* (July 4):6 [issue pagination]. ["The Buckskin Mountain Copper company has closed its operations for a short time, and pending which it is proposed to enlarge the capacity of the ore reduction plant to 150 tons a day. M. W. Ditto and H. W. Overpeck have gone to Chicago to place an order for the necessary machinery. John F. Brown is left in charge of the property.” (entire item)]

1907 21.5932 [Ralph Cameron.] *In: Movements of Mining Men [section]. Mining Reporter,* 66(4)(July 25):83. ["Ralph H. Cameron has been appointed manager of the Anita Copper Company, Williams, Arizona.” (entire item)]

1907 21.4377 Researches in the South-West United States. *In: The Monthly Record [section]. Geographical Journal,* 30(4)(October):441-442. [Field work by geologist D. W. Johnson; also passing mention (p. 442) of crossing the Colorado River at Lees Ferry.]

1907 21.5600 Phoenix, Arizona. *In: Mining Letters From Correspondents [section]. Mines and Mining Weekly,* 15(8)(November 22):12-14. [See p. 12: "The most serious feature of the depression is the closing down of the Humboldt smelter near Prescott. * * * The Humboldt smelter is controlled by Thomas Lawson of Boston and the stoppage was by his telegraphic order. * * * It has been operating on its own account a number of copper mines near the Grand Canon, which, of course, will be closed down.”

1907 21.5449 [Landslides affecting rapids in Colorado River, Grand Canyon.] *In: History In the Making [section]. The Epworth Herald* (Chicago and New York), 18(31)(December 28):803 [also p. 15 as enumerated for the issue]. ["Recent landslides and
earthquakes have wrought important changes in the Grand Canyon of the Colorado. At one point some dangerous rapids have been transformed into a broad and plaid channel by the fall of a mountain front into the great gorge. Such swift changes in the canyon's structure have doubtless occurred often enough in the past to account for much of the vast spaces which lie between its far separated rims." (entire item)

1908 21.5070 Motion in the earth's crust. In: The Open Court of Inquiry [section, by "The Editor" (otherwise not identified)]. The Flaming Sword (Estero, Florida), 22(1)(January)(700):30. ["The Great Canon of Arizona can hardly be accounted for on the basis of mere erosion." Premise is dramatic expansion and contractions of earth's crust. No further note of Grand Canyon.]

1908 21.5628 Worn boulder bridges gorge. In: Science and Invention [section]. Technical World Magazine, 10(5)(January):522. [Large chockstone in Grand Canyon slot canyon tributary to Shinumo Creek, off of North Bass Trail (location not indicated in this article).]

1908 21.5853 [Proceedings of the 640th regular meeting, November 14, 1907.] In: Proceedings of the Society of Arts [section]. Technology Quarterly (Massachusetts Institute of Technology), 21(1)(March):126. ["The chairman introduced Professor Douglas W. Johnson, of Harvard University, who spoke on the 'Physical History of the Grand Cañon District.' Professor Johnson had spent some time in the field, studying the physical history of this great district, and clearly illustrated its peculiar features both by diagrams on the blackboard and by numerous lantern slides. The speaker gave a most interesting talk, which was fully appreciated by all." (entire note)]

1908 21.5181 International library of technology; a series of textbooks for persons engaged in the engineering professions and trades or for those who desire information concerning them. Fully illustrated and containing numerous practical examples and their solutions. [sections] Blowpiping, Mineralogy, Geology, Prospecting. Scranton, Pennsylvania: International Textbook Co., separately paginated sections and subsections. [See section 37, "Geology (Part 1); Descriptive Geology and Petrology", pp. 57-58; and section 38, "Geology (Part 2); Structural Geology", p. 49.]

1909 21.6133 [Lecture.] In: The University Record [section]. University of Chicago Magazine, 1(6)(April):263. ["At the Chicago Academy of Sciences on the evening of March 5 Assistant professor Wallace W. Atwood, of the Department of Geology, gave an illustrated lecture entitled 'Studies in Geology: The Grand Canyon of the Colorado River.'" (entire item)

1909 21.5629 The asbestos industry. *Heating and Ventilating Magazine*, 6(October):34. [Asbestos noted in Grand Canyon, in passing.]

1909 21.6505 The production of asbestos. *Mining Science* (Denver), 60(October 28):390-391. [See p. 390: "The best asbestos yet found in the United States is in a national monument near the bottom of the Grand Cañon of Arizona. It is cross-fibre chrysotile. Locally the fibre is 4 in. long, and is associated with a belt of limestone affected by an intrusion of diabase. The serpentine including chrysotile is derived from pyroxene contained in the limestone and forming a narrow belt wherever influenced by the diabase." (entire note)]

1910 21.6662 [Class note.] *Yale Alumni Weekly* (Yale University, New Haven, Connecticut), 19(24)(March 4):597. ["'05—Levi F. Noble has been appointed to the U. S. Geological Survey, and assigned to the mapping of part of the Grand Canon of the Arizona [sic] near Flagstaff, Ariz.; he left for Flagstaff early in February, making a short visit in passing at Denver, Colo." (entire note)]

1910 21.5488 Age of the earth. *Century Path*, 13(38)(July 24):11. ["An American professor has recently declared the age of the earth to be 60,000,000 years. He claims to be able to tell this almost exactly by the aid of the cliffs in Arizona and Utah and the Grand Cañon of the Colorado. Let us add to the earth's age one 0—just one! [signed] Student of the Secret Doctrine". (entire item)]

1910 21.5289 [Earthquakes.] *In: Along the Trail [section]. Santa Fe Employes’ Magazine*, 4(11)(October):79. ["A dispatch from Flagstaff, Ariz., states that a territory fifty miles square and extending from Flagstaff to the Grand Cañon, has been visited by a series of earthquake shocks, as a result of which the Indians have left the country, refusing to return." (entire item)]

1911 21.6613 [Note.] *In: Scientific Notes and News [section]. Science, new series, 33(May 19):766-767. ["Mr. F. E. Matthes, of the U. S. Geological Survey, is delivering a course of twelve illustrated lectures with accompanying laboratory work before the students of the University of Michigan, the subject of the lectures being, ‘Topographic Mapping.’ On May 3, by invitation of the Michigan Chapter of Sigma Xi, Mr. Matthes told in a popular lecture ‘How the Map of the Grand Canyon was made.’ The maps of the Grand Canyon, Yosemite Valley and the new Glacier National Park have all been prepared by Mr. Matthes, who is now engaged upon the map of the new Mt. Ranier [sic] National Park." (entire note)]
1911 21.6614 Past events. In: Campus Calendar [section]. *Michigan Alumnus* (University of Michigan), 17(June):533-. ["Wednesday, 3 [May] * * * F. E. Matthew [sic], of the U. S. Geological Survey, addressed Sigma Xi on ‘How the Map of the Grand Canon was Made.’” (entire note)] [F. E. Matthes.]

1911 21.6504 [Note.] In: Miscellaneous [section]. *The Mining Investor* (Denver), 64(13)(November 13):280. ["According to reports attempts are being made to dredge the Grand Canon of the Colorado river to recover gold and platinum.” (entire note)]

1912 21.5927 Our asbestos industry. *The Granite Cutters’ Journal* (Quincy, Massachusetts) 36(2)(May):21. ["The finest asbestos yet found in the United States, comparing favorably with the best from any part of the world, is in Grand Canyon of the Colorado in Arizona; it is not, however, easily accessible.” (entire note)]

1912 21.4935 [Platinum in Grand Canyon.] In: Summary of Events [section]. *The Friend* (Philadelphia), 85(44)("Fifth-Day, Fifth Month 2, 1912" [Thursday, 2 May 1912]):352. ["Platinum deposits, said to be worth at a conservative estimate more than $30,000,000 have been located in a section of the Grand Canyon in Arizona.”]

1913 21.5689 Output of asbestos in 1912. *National Glass Budget*, 29(23)(October 11):11. ["The finest asbestos yet found in the United States, comparing favorably with the best from any part of the world, is in the Grand Canyon of the Colorado in Arizona; it is now, however, easily accessible.” (entire note)]

1914 21.5331 [Platinum in Grand Canyon.] In: Current Electrical News [section]. *Electrical Review and Western Electrician*, 64(7)(February 14):354. ["Grand Canyon, Ariz.—J. Bishop & Company, platinum manufacturers of Malverne [sic], Pa., who have taken 10 of the 40 platinum claims of Ralph H. Cameron in the Grand Canyon of the Colorado River near Bright Angel trail, will erect a generating plant on Indian Garden Creek to furnish power for a 100-ton reduction plant to be erected nearby.” (entire item)]

1914 21.5599 Late news from the world’s mining camps. Editorial and special correspondence. *Mining and Engineering World*, 41(5)(August 1):212-. [See p. 212 (capitalization thus): “Fredonia. Fredonia is to be the starting point for the expedition under the direction of the U. S. Geological Survey into that little-known section of Arizona north of the Grand cannon known as the “Arizona Strip.” The leaders of the expedition are Dr. C. C. Jacobs and Prof. A. C. McOmie of the State University. They will cross the Colorado river at Lees ferry. The will leave the section through Nevada.” [and] “Kingman. Ore is being hauled to the railroad from the old Ridenour mine in the Grand cannon. The lessees have opened up several hundred tons of excellent ore and have about 40 tons at the railroad.” (entire notes)]

1914 21.6599 [Ridenour mine.] In: The Mining Summary [section]. *Mining and Scientific Press*, 109(October 10):574. ["Near the Grand Cañon, and 90 miles northeast of Hackberry, is the copper mine of W. B. ridenour of that place, and which is producing over 50% ore from a narrow vein.” (entire note)]

Bross, William

1881 21.5724 Canyons. Their character and origin—Paper read before the American Association for the Advancement of Science, by the Hon. William Bross, of Chicago. *Chicago Daily Tribune*, (August 25):3. [Postulates a catastrophic origin of canyons. Published by title only in the AAAS *Proceedings*; see no. 21.5723. Includes a concluding paragraph pertaining to an AAAS meeting presentation by Clarence E. Dutton on the Grand Canyon (see 21.916); this paragraph reproduced in full here since this is the only published source for this paper: "Let me add a very few words in conclusion upon a paper on the geologic history of the Colorado River and the plateau of it, read at the St. Louis meeting by Col. E. C. Dutton [*sic*], of Washington. This canon, as described by Maj. Powell who has the honor of braving almost incredible dangers to explore it and to give the world their first knowledge of its wonders, is some 1,500 miles long; the perpendicular walls are a mile or a fraction of it apart, and are from 1,000 to 5,000 feet high. They are composed of nearly all the series in the geologic catalog, from the granit[e] all the way up to the highest igneous stratified rocks. Now this, by far the longest and in some respects the most wonderful cañon in the world, Col. Dutton described as having been worn down by the Colorado River. In view of the facts herein presented that conclusion seems supremely fanciful and absurd. Like all the others, it could only have been formed by some great convulsion of the earth's crust, and through it the drainage of nearly a thousand miles along the western slopes of the Rocky Mountains finds its way to the Gulf of California."

1882 21.5723 Canons as I have seen them, with some thoughts as to their origin [title only]. *From: Titles of other papers read in Section B. In: Proceedings of the American Association for the Advancement of Science, Thirtieth Meeting, held at Cincinnati, Ohio, August, 1891*. Salem, Massachusetts: The Permanent Secretary [of American Association for the Advancement of Science], p. 256. ("Printed in full in Chicago Tribune of Aug. 25, 1881." [see no. 21.5724])

1938 21.5736 A review of the geology of the Clovis finds reported by Howard and Cotter. *American Antiquity*, 4(2)(October):113-130. [See pp. 122-123, an uncredited statement: “. . . it is now thought that the Brazos [River] of Texas once drained the area above the Grand Canyon now drained by the Colorado. When the Colorado diverted this water from the Gulf of the Pacific at about a net mile lower elevation [sic], it was the waters from the full-functioning drainage system which gave it the sudden load of headwaters necessary to dig the Grand Canyon. An encroaching stream, feeling for its headwaters in driblets, could not be expected to do such a thorough job at digging on bottom.” (entire note)]

Horner, W. B.

1859 21.5511 The gold regions of Kansas and Nebraska. Being a complete history of the first year’s mining operations. Also, geographical, climatological, and statistical description of the great Northwest, showing an unoccupied territory of over one million square miles of rich country. Being a complete guide to the gold mines. By W. B. Horner. Chicago: W. B. Horner (Wm. H. Tobey and Co., Printers, Chicago), 67 pp., map, advertisements. [Cover title: Horner’s Kansas and Nebraska gold regions, and new rail road and route map, to the gold mines. Published by W. B. Horner . . . .] [See in Chapter 5, “Will Gold Be Found in the Mountains?”; p. 40, Colorado River and “Canon of the Colorado” noticed: “Moreover, the Colorado river, in escaping to the sea, pierces the Cordillera of the Andes diagonally, having rent its way by a chasm bored through the very bowels of the Cordillera, athwart from base to base. This chasm, four hundred miles in length, is known as the Canon of the Colorado. This canon presents the unique and novel fact to mankind, that a primary mountain chain whose summit is of the auriferous rocks, is thus gorged to its foundations, many thousand feet in depth! It is here upon the plateau, in the arcana of the mountain formation, and the activity of the stupendous forges of nature, that the precious metals may be sought to mass and position.” (entire note)]

Phillips, Richard L.

1971 21.6144 Storage-tube graphics terminals. University of Michigan, Computing Center Newsletter, 1(2)(January 21):[3]-[5]. [See p. [4]: "[One] project involves making computer-animated films from the face of a storage-tube terminal. Computer-animated films, which are simply a series of still photographs of graphical output bearing a temporal relation to one another, have been found to be useful in the classroom as a lecture aid. For example, how much easier it is to perceive the processes by which the Grand Canyon was formed by viewing a film simulating the erosion in compressed time, rather than just studying the sterile mathematics which describes the evolution." (entire note; no illustration)]

Scott, W. A.

1921 21.5875 Asbestos industry on Pacific coast. Engineering World, 18(3)(March):173-175. [See p. 174: "The earliest discoveries of asbestos in Arizona were in the Grand canyon of the Colorado river. It occurs there in a serpentine gangue within limestone. The deposits outcrop on both sides of the canyon, near Grand View, at a level of about 4000 ft. below the rim of the canyon, and 1000 ft. above the bed of the stream. However, the cost of operating in that locality has been excessive, and production is limited." (entire note) NOTE: The geographical description of the locale seems to confuse the Hance asbestos works and the Grandview copper mine.]

[Summary of presentation by Richard E. Dodge on "Physiography of the Region of the Colorado Cañon" (pp. 501-502 [title, p. 498]): "professor Dodge recounted his pleasure in visiting the region of the Grand Cañon, in company with a party during the past summer, and in finding the physiography so graphically illustrated in the drawings of Powell's reports to be a most faithful and non-diagrammatic portrayal of the features themselves. He then described the striking examples of gigantic geo-physical results seen in the Great Kaibab monocline."

Hydrogeology of the Colorado River and some tributary surface waters in the Grand Canyon — including hydraulic investigations of the river, sedimentary studies in the river corridor, surface-water resources of the Colorado River mainstem below Glen Canyon Dam

This part encompasses all physical studies of the water flow (hydrology) of the Colorado River, applied research on its carried and bottom sediment, and the effects of the river’s fluctuating flow on the distribution of sediment on the banks of the river. Includes hydrogeological investigations in Glen Canyon National Recreation Area below Glen Canyon Dam.

Also see:

**PART 11. LOWER COLORADO RIVER—NATURAL HISTORY** for items relating to geological and hydrogeological studies and investigations in Lake Mead and the lower Colorado River downstream from Hoover Dam

**PART 12. LOWER COLORADO RIVER—WATER MANAGEMENT** for items relating to water-management issues in the Colorado River basin as pertaining to anthropogenically induced floods

**PART 13. ADMINISTRATION** for items on policy input and management documents drafted as the result of environmental studies of the Colorado River

**PART 18. PHYSICAL ENVIRONMENT** for items relating to physical ecology as affected by the Colorado River through the Grand Canyon, and regional climatic studies with hydrological applications including those for the whole Colorado River basin

**PART 19. BIOLOGY** for items relating to biological ecology as affected by the Colorado River through the Grand Canyon
PART 20. GCES for a consolidated listing of Glen Canyon Environmental Studies technical reports and related documents

PART 21. GEOLOGY AND PALEONTOLOGY for items relating to groundwater hydrology and to hydrogeological investigations of tributaries to the Colorado River
**Anonymous**

- **Monitoring sand storage to conserve sandbars in Grand Canyon National Park.** U.S. Geological Survey, [unnamed fact sheet], 2 pp. [2013?]

[“Travelers who have been visiting the Grand Canyon of the Colorado report the river about five or six feet lower than usual, and state that it falls at the rate of two or three inches a day.” **NOTE**: Item is a rhetorical complaint of the Salt Lake City Council regarding scarce local water supplies.]

1907 22.856 Rivers and floods. *Monthly Weather Review*, 35(5)(May):208-209. [See p. 209, regarding water gages: "Service has also been inaugurated along the Colorado River, under the supervision of the local office of the Weather Bureau at Denver, Colo., and special river stations have been located . . . Grand Canyon and Topock, Ariz., on the Colorado River." (entire note)]

1907 22.808 [Landslides affecting rapids in Colorado River, Grand Canyon.] *In: History In the Making [section]*. *The Epworth Herald* (Chicago and New York), 18(31)(December 28):803 [also p. 15 as enumerated for the issue]. [“Recent landslides and earthquakes have wrought important changes in the Grand Canyon of the Colorado. At one point some dangerous rapids have been transformed into a broad and plaid channel by the fall of a mountain front into the great gorge. Such swift changes in the canyon’s structure have doubtless occurred often enough in the past to account for much of the vast spaces which lie between its far separated rims.” (entire item)]

1952 22.860 Colorado’s muddy, too. *In: Here and There on the Desert [section]*. *Desert Magazine*, 15(6)(June):33. [“Boulder City—The Missouri isn’t the only river that’s muddy during flood time, report officials at Hoover Dam. U. S. Geological survey instruments at Lee's Ferry recorded a total of 1,710,000 tons of sediment passing that point in the waters of the Colorado during the month of March. It is calculated it would require 31,091 railway coal cars to haul that much mud away.—Las Vegas Review-Journal.” (entire item)]

1957 22.869 Colorado flow nears record. *In: Here and There on the Desert [section]*. *Desert Magazine*, 20(11)(November):30. [Colorado River flow at Lees Ferry this year “will be one of the largest on record”; Lake Mead nearly filled to capacity. Item credited to Vernal Express.]

1992 22.16 *Glen Canyon Environmental Studies (GCES) and final report—photogrammetric analysis of the beaches in the Grand Canyon*. Memorandum to Regional Director, U.S.
Bureau of Reclamation, Salt Lake City, attn: Lee McQuivey), 33 pp. [From “Project Director”.]

Abbe, Cleveland, Jr.

1899 22.949 A general report on the physiography of Maryland. In: Maryland Weather Service. Volume One. Baltimore: The Johns Hopkins Press, pp. 38-216. [See p. 141: “The famous cataracts of the Nile are due to the fact that the river, cutting down along a course taken on the surface of Cenozoic deposits, has reached a completely buried, irregular surface of granitic rocks. . . . it deepened its channel until the granitic ledges became barriers to further downward cutting at those points. A very similar case is that of the rapids in the Grand Canyon of the Colorado. The Paleozoic and younger strata forming most of the canyon walls buried beneath them the Archaean gneisses and granites which the Colorado has now uncovered after cutting down through the softer mantle.” (entire note) (Of course, this does not explain the Colorado River rapids that occur in the reaches where Paleozoic strata constitute the exposed bedrock. —E.E.S.)]

GEOLOGICAL FIELD GUIDES

Geological field guides and road logs for the Grand Canyon and vicinity, and for the Colorado River corridor between Glen Canyon Dam, Arizona, and Mexico

This part includes all publications that are intended to serve as geological field guides to routes and specific localities in the Grand Canyon and vicinity. Included among them are all geological guides to the Colorado River through the Grand Canyon.

See also:

PART 11. LOWER COLORADO RIVER—NATURAL HISTORY for geological guides in the lower Colorado River region.

PART 21. GEOLOGY AND PALEONTOLOGY for “field guides” that are primarily textual chapter treatments of the geology of specific areas, as opposed to directional guides and descriptions for use in the field.

Appendix to Part 24

Indices For Topographic Quadrangle Maps of the Grand Canyon Region Produced by the U.S. Geological Survey

Since the 19th century the U.S. Geological Survey has produced topographic maps for the nation. The digital resources that are available today in the ongoing “US Topo” program (http://nationalmap.gov/ustopo/) provide user-selected layered interactive quadrangles for numerous uses and printing. As the Survey describes:

“Created in the familiar 7.5-minute quadrangle format like the legacy paper maps, US Topo maps support frequent updating, wide and fast public distribution, and basic, on-screen geographic analysis. US Topo maps are available for free Web download from the USGS Store. Each map is delivered in PDF format with geospatial extensions (GeoPDF®) and is made from key layers of geographic data—orthoimagery, transportation, geographic names, topographic contours, boundaries, hydrography, structures, and woodlands—found in The National Map. The National Map is a nationwide repository of integrated data from local, State, Federal, and other sources. Recent US Topo maps also include the Public Land Survey System and the United States National Grid.”

The state index sheets for the “legacy paper maps” have not been digitized, but they are still available on paper through the U.S. Geological Survey. To use the Survey’s online versions, go to The National Map website’s interactive page, http://viewer.nationalmap.gov/viewer/, then zoom in to the area of interest. In the left-hand frame click on “Map Indices”. Map names will not appear in quadrangles until the landscape is zoomed-in to a certain level. However, one may not view large fields of contiguous quadrangles with names as one can with the paper index sheets.

Following are digitized reproductions of Arizona paper state-index sheets for different scales of quadrangles that lie within the greater Grand Canyon region.

---

7.5′ (1:24,000-scale) topographic quadrangles in Arizona for the greater Grand Canyon region

(Enlarge the PDF to read names clearly. Shaded area depicts quadrangles in Utah, top, and Nevada, left. Refer to the frontispiece map to see the approximate area covered by THE GRAND CANON.)
30’ × 60’ (1:100,000-scale) topographic quadrangles in Arizona for the Grand Canyon region

(Shaded area at upper left depicts Nevada.)

1° × 2° (1:250,000-scale) topographic quadrangles in Arizona for the Grand Canyon region

(Shaded area depicts Utah, top, and Nevada, left.)

End of Appendix to Part 24 of Bibliography
GRAPHIC–AUDIO–DIGITAL MEDIA
Separately published general and specialized maps, charts, and atlas sheets that include the Grand Canyon or the lower Colorado River region — excluding geologic and special topographic maps

There are hundreds more maps that surely could be listed here, but only those that have come to the compiler’s attention are included. The catalogues of map dealers include many maps that cover the Southwest; unfortunately, their citations are incomplete and often the illustrations are too small to read pertinent author and publisher data from the map.

Also see entries listed in Official map publications; a historical sketch, and a bibliographical handbook of current maps and mapping services in the United States, Canada, Latin America, France, Great Britain, Germany, and certain other countries, by Walter Thiele, under the direction of A. F. Kuhlman (American Library Association, Chicago, 1938, 356 pp.); and Vegetation maps of North America, compiled by A. W. Küchler and Jack McCormick (International Bibliography of Vegetation Maps, A. W. Küchler, ed., Volume 1, Anton W. Van Bekhoven, Naarden, 453 pp.).

In addition, online map services will be useful in examining separately published and atlas sheets from numerous sources; including those in the Library of Congress and various regional and private collections. As these sources continually emend their online holdings, the user will be more at advantage by conducting new searches at any time.
For Colorado River guide maps, see in **PART 10. COLORADO RIVER GUIDES.**

For geologic maps see **PART 24. GEOLOGIC MAPS.** For geologic maps in the lower Colorado River region see **PART 11.**

See the **Appendix to Part 11** for guides to pertinent topographic quadrangles of the lower Colorado River region produced by the United States and Mexican governments.

See the **Appendix to Part 24** for guides to pertinent U.S. Geological Survey topographic quadrangles of the Grand Canyon region.

*Mobil cruising guide 4; Pacific coast from Puget Sound to San Diego and Colorado River.* New York: Mobil Oil Co., Touring Service, 1 sheet, 2 sides.

Mora, Jo

no date 25.68  
*Grand Canyon.* Monterey, California: Jo Mora Publications. [Cartoon physiographic map. A reduced-size reprint of Mora (1931), a copy of which was purchased new in 1995.] FQ9:442
1931  25.69  Grand Canyon.  Monterey, California: Jo Mora Publications.  [Cartoon physiographic map.]  FQ7:Misc.9  FQ9:441  FQ23:530

Morden, Robert, and Berry William

1688  25.253  To Captain John Wood this map of the world drawn according to Mercators projection humbly dedicated by Robt. Morden & Willm. Berry.  London: Sold at ye Atlas in Cornhill & at ye Globe in ye Strand.  [California depicted as an island.]  [Untitled; title used here is from the dedication.]

Münster, Sebastian

no date  25.247  Die neue Iselen so zu insern seiten durch die kunig von Hispania im grossen oceano gefunder sindt.  [Basle: Henricus Petri.]  [Published 1548? Map originally in 1540.]

1542  25.307  Novae insulae, XVII nova tabula.  In: Münster, Sebastian, Geographia universalis, vetus et nova complectens Claudii Ptolemaei Alexandrini enarrationis libros VIII.  Basileae: apud Henricum Petrum, [2nd ed.], [20], [34], 195 pp., 48 plates.  [First state of the map, depicting the Americas; the first map to so portray the entirety of the continents in their approximate forms. (The first edition of Geographia Universalis was published in 1540.)]  [In Latin.]  [NOTE: This 2nd ed. includes a map that portrays the western coast of North America, but which lacks what today we would identify as California and the Gulf of California.  The citation is pertinent to this bibliography in that the map shows an understanding of this region contemporaneous with the first Spanish explorations of the gulf and the Colorado River in 1539-1540, though obviously not yet reporting these findings. See also comments at the beginning of A Note About the Earliest Works in the introductory material of this bibliography.]  [Novae insulae, XVII nova tabula.]

National Geographic Maps

2008  25.338  Baja North; Baja California Sur, Mexico; protected area boundaries; detailed road network and mileage chart; city inset maps; travel information; popular diving, fishing, sailing and surfing locations.  Evergreen, Colorado: National Geographic Maps, 1 sheet, 2 sides, scale approx. 1:450,000.  (AdventureMap™.)  (3103.)

2009  25.311  Grand Canyon; Bright Angel Canyon, North and South Rims; National Park, Arizona, USA; outdoor recreation map; revised regularly, waterproof, tear-resistant.  Evergreen, Colorado: National Geographic Maps, 1 sheet, 2 sides.  (Trails Illustrated Map™, no. 261.)  (“Expanded coverage, 1:35,000 scale, Grand Canyon Village, Bright Angel and North and South Rim Trails, backcountry regulations and permit information.”)  (“GPS compatible.  Full UTM grid.”)  [Scale ca. 1:35,000, contour interval 50 feet.]

2009  25.312  Grand Canyon east; Grand Canyon National Park, Arizona, USA; outdoor recreation map; revised regularly, waterproof, tear-resistant.  Evergreen, Colorado: National Geographic Maps, 1 sheet, 2 sides.  (Trails Illustrated Map™, no. 262.)  (“Marble Canyon and Horsehoe [sic] Mesa, Kaibab Plateau, Vermillion [sic] Cliffs National Monument, backcountry regulations and permit information.”)  (“GPS compatible.  Full UTM grid.”)  [Scale ca. 1:90,000, contour interval 100 feet.]
2009 25.313  *Grand Canyon west; Grand Canyon National Park, Arizona, USA; outdoor recreation map:* revised regularly, waterproof, tear-resistant. Evergreen, Colorado: National Geographic Maps, 1 sheet, 2 sides. (Trails Illustrated Map™, no. 263.) (“Grand Wash Cliffs and Thunder River, Toroweap Cliffs, Grand Canyon-Parashant National Monument, backcountry regulations and permit information.”) (“GPS compatible. Full UTM grid.”) [Scale ca. 1:90,000, contour interval 100 feet.]

**National Geographic Society**

2007 25.306  *Peninsula of Baja California.* Washington, D.C.: National Geographic, 1 sheet, 2 sides, scale 1:400,000. (With imprints, Fondo Mexicano para la Conservación de la Naturaleza A.C.; Lindblad Expeditions; National Geographic; Geotourism Mapguide.) [Includes Colorado River delta region.]

**National Geographic Society, Cartographic Division**

**National Old Trails Road Association**

1923 25.147  *National Old Trails Road. Grand Canyon Route. Open 365 days of the year thru the heart of America to the all-year playgrounds of America. The backbone of a system of national highways.* National Old Trails Road Association, large folded map.

Audio works (reading and musical) — audio tapes, analog recordings, and audio-only digital disks (CDs, DVDs, etc.)—relating to the Grand Canyon or the lower Colorado River region, and orchestral and other musical scores

This part lists audio recordings (reading and musical) and printed musical scores. Resources available only online are not included. Also included here are pertinent annotated guides to audio recordings.

“Record” is an analog sound recording, or “phonodisc”; 78 rpm (revolutions per minute) format is on 10-inch plastic disks, 45 rpm format is on 7-inch plastic disks, and 33-1/3 rpm format is on 12-inch plastic disks. For tape speeds, ips = inches per second. Except for certain items especially identified to the artist or to the composer of musical works, names of producing agencies are used in the author field. Playing times are given in minutes:seconds.

See also:

**PART 27. AUDIO-VISUAL** for audio-visual materials incorporating Grofé’s “Grand Canyon Suite” in its entirety or in selected excerpts.

**PART 29. COMPUTER MEDIA** for products designed for use specifically on computers.
ANONYMOUS

MISCELLANEOUS IMAGERY

Miscellaneous art works and photographs that are not accompanied by textual material, appearing by themselves with or without legend

This section includes only single, extraneous items; for example, a reproduction of a single painting, or folios containing prints only, without accompanying text other than the legend. Photographs within articles or books that are credited to specific people or sources are not listed separately in this bibliography.

See PART 2. GENERAL PUBLICATIONS for more complete and critical material on art and photography of the Grand Canyon-Colorado River region.
Anonymous

[cited=GCNHA Monograph 8: page 12-6]  FQ20:4

no date 28.2 [Composite satellite image of Arizona.] In: Bright horizon; the future of science and technology in Arizona. Tempe, Arizona: Office of the Vice Provost for Research, Arizona State University [principal], pp. [12-inside back cover].

no date 28.964 Grand Canyon National Park; blank book journal. [No imprint], [100] pp. [Cover art portrays an imaginative scene of two deer and cacti on a slope overlooking the Colorado River from the Nankoweap granaries.] [Copy acquired new, 2013.]

1899 28.805 [Illustrations of Grand Canyon, interspersed throughout the number within the text blocks of two articles.] Railroad Trainmen’s Journal, 16(9)(September):789, 792, 794, 795, 797. [The illustrations have no pertinence to the articles they accompany. See accompanying the article, "Equality of Opportunity" (pp. 786-792): "A Camp in the Canon, Colorado River" (p. 789), a forest camping scene at night; "The Cliff Dwellers" (p. 789), view of Grand Canyon; "Grand Canon of the Colorado River" (p. 792), reproduction of painting. See accompanying the article, "Mexican Railroad Yarn" (pp. 793-800): "Grand Canyon of the Colorado River" (p. 794), reproduction of painting [the same as on p. 792 but here is full-page size]); "Along the Canon of the Colorado" (p. 795), canyon view; "Along the Old Hance Trail—Colorado River Canon" (p. 797), trail view. All illustrations credited to Santa Fe Railway.]

1908 28.735 Grand Canyon of the Colorado River. *School and Home Education*, 28(1)(September):23. [Photo is part of two plates (pp. 23-24) that accompany the article by F. M. Fultz, "Some Interesting Things About the Earth" (pp. 25-28), but which contains no mention of Grand Canyon but discusses rock types mentioned in the photo caption.]

1910 28.1079 In the Grand Canyon, Arizona. *Improvement Era*, 13(12)(October):1078. [View upstream on Colorado River at foot of Bright Angel Trail.]

1915 28.724 Making moving pictures. *The National Magazine*, 42:409-417. [See p. 410, photo, "A Group of the newspaper and Magazine Writers; Showing Mr. Hy Mayer, editor of *Puck*, at the extreme right and Mr. Hugh Weir, the noted story writer on the left." Photo locale not indicated, but at Grand Canyon.]

For the first time an automobile has descended to the bottom of the Grand Canon of Colorado [sic] and returned under its own power. A Dodge Brothers car did it.] *In: Pictures Picked from the Camera’s Catch; Things That Appeal to the Eye and Require but Little Explanation* [section]. *Automobile Topics*, 42(9)(July 8):882.

In the Grand Canyon of Arizona. *Santa Fe Magazine*, 11(9)(August):cover. [Cover illustration only, with legend on cover; no accompanying article or comment in text.]

Douglas Fairbanks at play at the Grand Canyon. *Santa Fe Magazine*, 12(5)(April):cover. [Fairbanks, reclining, supported by shoulders and feet only over gap in canyon rim.]

[Grand Canyon photos.] *International Railway Journal*, 26(4)(July):2, 18. ["Grand Canyon; one of the hostleries on the edge of the giant chasm" (p. 2; this photo shows the Grand Canyon railway depot); "Another View In Grand Canyon; showing the twisted and awe-inspiring rim and sides of the immense chasm" (p. 18; Grand Canyon locale is doubtful).]

Looking from Hermit Run Road [sic], one of the many entrancing views of the Grand Canyon, a scenic, [sic] wonder of the world. An attraction on the Santa Fe Railroad. *International Railway Journal*, 26(7)(October):cover.

Outdoor sports. *Santa Fe Magazine*, 14(6)(May):48. ["A favorite occupation of employees at the Grand Cañon is leaping from crag to crag and across chasms a mile or so in depth. This photo shows James A. Stolbert, formerly of the Harvey service, engaged in a hair-raising jump, where the least mis-step would result in a fall of a few thousand feet." (entire item)]

[Cover photo.] *Santa Fe Magazine*, 15(2)(January):cover, 34. [Legend, p. 34: "Our Front Cover. The young lady whose photograph appears on our front cover is Miss Huldah Batchelder, an employee of Fred Harvey at El Tovar Hotel, Grand Cañon. Miss Batchelder, it will be observed, upholds—in fact increases considerably—the reputation for comeliness which 'Uncle Fred's employees long have enjoyed."

[Photograph of tree on rim of Grand Canyon.] *Santa Fe Magazine*, 17(7)(June):[15]. [Accompanies poem, "The Lonely Tree" by Wilfred W. Gibson, from Hill Tracks; poem not itself relevant to Grand Canyon.]

1924 28.1022 [Photograph]. *In: [Untitled photographs section.]* *Radio News*, 6(4)(October):476. ["The Navajo Indians at Grand Canyon National Park, Arizona, are very much interested in radio. Reception is very good at Grand Canyon, as the rim is 7,000 feet above sea level. This Squaw and her Papoose are enjoying a radio concert from a nearby station."]

1928 28.1023 In the Grand Canyon of the Colorado. *Radio Broadcast*, 13(2)(June):64 [frontispiece]. ["A portable radio receiver in use in the Grand Canyon in 1923. A special receiver was built for the expedition by the Bureau of Standards which was carried on a geological survey of the Canyon under the auspices of the United States Geological Survey. This illustration is from a photograph by Lewis R. Freeman, of the Explorers Club, New York, who was a member of the expedition. Mr. Freeman explains that at the time the expedition was undertaken there was some doubt as to whether radio reception would be possible in the Canyon. It was conclusively demonstrated that excellent reception was possible. The receiver performed as well at depths of 500 feet as at 5000, Mr. Freeman says. The antenna in the illustration also, it seems, served the party as a clothesline." (entire item) Birdseye Expedition.]

1935 28.1021 At Boulder Dam. *Broadcasting and Broadcast Advertising*, 8(11)(June 1):35. ["At Boulder Dam—Don. E. Gilman, NBC vice-president in charge of the western division, San Francisco, and O. B. Hanson, manager of NBC technical operation and engineering, New York, recently visited Bolder Dam to work out details for a special broadcast. Here is Gilman at the base of the dam." (entire item) View is at the downstream end.] [See also Item no. 2.20628 (Anonymous, 1938).]

1940 28.885 Mountain breezes whipped up appetites that were hard on the ‘chuck wagon’ when Rotarians of Boulder City and Las Vegas, Nev., enjoyed an intercity meeting at Boulder Dam. *The Rotarian*, 51(4)(April):50. [Dining and entertainment in parking area by the Arizona spillway, Hoover Dam.]

[cited»GCNHA Monograph 2: page 15]  [cited»GCNHA Monograph 8: page 1-9]

1957 28.1024 [Photograph of man’s hand holding two rings.] *In*: Datelines [section]. *Broadcasting, Telecasting*, (September 2):76.  [“These are two rings taken from a severed hand found near the site of wreckage of the TWA plane involved in the air disaster over Grand Canyon in June 1956. Bill Close, news editor, KOY Phoenix, holds the rings in front of the UP [United Press] release telling of the station’s interview of the man who found them.” (entire item)]

1960 28.1028 Bright Angel Creek, Grand Canyon, Arizona. *Desert Magazine*, 23(2)(February):13.  [Illustration accompanying "Poem of the Month" by Florence Emmons, "Transient Waterways" (which does not pertain to this bibliography).]

[Winter storm view of Grand Canyon.] Northern Arizona and Beyond (Winter/Spring Special Issue):cover.

For our special centennial cover, we chose this photo of an unidentified man standing on an outcrop of Kaibab limestone [sic] near Grandview Point. Although dated 13 years before the centennial in 1899, the photo captures the spirit of exploration explored in our cover story. Northern Arizona’s Mountain Living Magazine, (Special Centennial Edition):cover, 6. [Selected from Grand Canyon National Park collections with the assistance of Michael Quinn.]

2013 28.909  [Hoover Dam Bypass bridge.]  *In: Hospitality guide; Conference on College Composition and Communication, Las Vegas, Nevada, March 13-16, 2013.* [No imprint]:cover. [Photograph is artistically reformatted, portraying downstream view from Hoover Dam, with left and right sides of photo as mirror images.]

2014 28.1019  What the..!? Grand Canyon. Could this be the end for John Crankshaw?  *Spoke’n Word* (Rapid Wheelmen Bicycle Club, Grand Rapids, Michigan), (April):[unpaginated]. [Subject “hangs” over retaining wall at South Rim.] [Punctuation thus.]

2014 28.1094  [Retired Employees of Kern County excursion to Grand Canyon.]  *TREND* (Thinking Retired Employees Need Direction) (Retired Employees of Kern County, California), 2014(6)(November/December):4. [Two photographs; via Grand Canyon Railway. Group photos; people not identified.]

COMPUTER AND INTERACTIVE MEDIA

Computer media and selected digital interactive media for personal devices, which include the Grand Canyon or the lower Colorado River region

This section includes items that were released only in a computer-readable format, or in both hardcopy format accompanied by computer-readable versions or additional data in computerized format. Also included are announcements and similar items regarding media that are designed for digital personal-pad products such as iPhone, iPad, iPod Touch, or Android [some products in use as of 2014]. Further included here are articles that may explain how certain computerized media were created. Web-based media are excluded from this bibliography due to the likelihood of individual products being inaccessible in the future. Personal (hand-held) media such as Kindle editions of books are likewise excluded because of their narrowly restrictive limitations to proprietary products and inconsistent data on provenance and availability.

For additional comments in the Introductory Notes click here.

For audio-visual and audio-only disks, see Part 26, Audio-Visual Works and Part 27, Audio Works.

BOOK REVIEWS AND SIMILAR NOTICES

Critical reviews and notices of books, articles, films, and products about the Grand Canyon or lower Colorado River region

This part includes critical reviews at length in scholarly publications, as well as promotional reviews and notices in general-interest publications and cursory editorial or readers’ notices. Reviews are included in this bibliography only if they relate to publications about the Grand Canyon or lower Colorado River specifically, or must mention the canyon or the river in the review of an item whose subject is geographically broader or less obviously pertinent to this bibliography. Product reviews include those for computer software.

See PART 2, GENERAL PUBLICATIONS for reviews whose authors mention the Grand Canyon or lower Colorado River, but where the publications being reviewed have no pertinence to the coverage in this bibliography.

1902 30.870 New book on the Grand Canyon. *International Railway Journal* (Philadelphia), 9(4)(January):36. [Santa Fe Railway publication, not mentioned by title and not yet seen; “we presume it is now published”.

1902 30.693 [Notice of "Three Hundred Miles on the Colorado River".]. *In: Publisher's Notes* [section]. *Forestry and Irrigation*, 8(6)(June):263.

1902 30.1037 The Grand Canyon of Arizona. *In: Financial and Corporate* [section]. *Railway Age*, 34(26)(December 26):723. [Notice of a "book of 125 pages on the Grand Canyon of the Colorado River, issued by the passenger department of the Santa Fe". Notes the introductory article by C. A. Higgins, "The Titan of Chasms" (see Item no. 2.3377). The volume is the first printing of *Titan of Chasms* (Item no. 2.3388), but for which the pagination is only 32 pp.; the 125 pages mentioned is apparently an error. The article here is chiefly a memorial to the late Higgins.]

1903 30.875 "Indians of the Painted Desert Region (The)." By George Wharton James. *In: Books of the Week [section]. The Outlook, 75(13)(November 28):759.*

1905 30.851 Scribner’s Magazine. *In: The Reviews Reviewed [section]. Review of Reviews, 31(185)(May):524.* ["The strong point of Scribner’s for May is the admirable illustrations, especially those accompanying a very interesting article by Mr. Benjamin Brooks on the Grand Canyon. The eight pictures, beautifully reproduced from photographs—telephotographs, are remarkably fine. One of the best is given here by courtesy of the publishers.” (entire item; illustration reproduced) Refers to Item no. 2.1623 (Brooks, 1905).]

1906 30.733 "Adventures on the Great Rivers. By Richard Stead. (Seeley and Co. 5s.)" *In: Books [section]. The Spectator, Special Literary Supplement (London), (4,088)(November 3):659. ["One is surprised at not finding the passage of the Grand Cañon of the Colorado given a place. Not only is the Grand Cañon unique, but for a hundred who may voyage on a great river not one will make that wonderful journey through the crust of the earth.” (entire note)"]

1909 30.872 [Postcards.] In: Stationery and Fancy Goods [section]. The Bookseller, Newsdealer and Stationer (New York), 30(2)(January 15):64. ["Colored views of the Grand Cañon of the Colorado in Arizona in a series of picturesque postcards are being distributed by the Santa Fé Railroad among winter tourists now going through Denver to Pacific coast points. The cards are of excellent workmanship and besides scenes in the big gorge they depict life among the Pueblo Indians and desert landscape." (entire item)]

1911 30.632 List of additions to the library. *Bulletin* (Rosenberg Library, Galveston, Texas), 1(10)(November). [See p. 148, notices of, with brief annotations, of "Breaking the Wilderness" by Frederick S. Dellenbaugh, "A Canyon Voyage" by Dellenbaugh, "Romance of the Colorado River" by Dellenbaugh, "Grand Canyon of Arizona; how to see it" by George Wharton James, and "Wonders of the Colorado Desert" by James.]

1911 30.1056 [Notice of *The Young Lion Hunter* by Zane Grey.] *In: Wild Life at Home and Abroad [section]. The Christian Advocate* (New York), (December 7):9 [and concurrently paginated for volume, 1657]. ["Zane Grey, one of the best of the recent writers for boys, brings together in *The Young Lion Hunter* boy heroes, Indians and greasers and carries them through diversified experiences with each other and with mountain lions and wild horses in the Grand Cañon country of Colorado [sic]."]

1914 30.670 "America's Place in Mythology" by Alexander McAllan [sic] *In: Book Reviews [section]. American Antiquarian*, 36(1)(January):48-49. [Also see unsigned editorial in this issue, pp. 44-46; and see comments in this bibliography under M’Allan, Alexander (no date) [1913] (Item no. 2.4287). (M’Allan, Ancient Chinese account of the Grand Canyon.)]

1914 30.697 [Brief review of *Through the Grand Canyon from Wyoming to Mexico* by E. L. Kolb.] *In: Books of Travel [section]. The Congregationalist and Christian World*, 99(47)(November 19):.

1914 30.641 Through the Grand Canyon. *The Detroiter* (Detroit Board of Commerce), 6(8)(November 23):7. [Notice of *Through the Grand Canyon from Wyoming to Mexico* by E. L. Kolb.]

1914 30.678 Exploration of the West. In: "The New Books" [section]. The Independent, 80(December 7)(3444):380-381. [Includes review of "Through the Grand Canyon from Wyoming to Mexico" by E. L. Kolb, p. 380.]

1915 30.852 Book review. Forest and Stream, 84(3)(March):187. [Notice of Through the Grand Canyon from Wyoming to Mexico by Kolb Brothers, with passing note of Owen Wister's foreword.]

1917  30.1063 "Agriculture in the Imperial Valley"; California Experiment Station Circular No. 159. Journal of Agriculture (University of California), 4(6)(February):203. [Notice of publication (see Item no. 11.7573 [W. E. Packard, 1917]).]

1917  30.1044 "Vanguards of the Plains: A Romance of the Santa Fe Trail" by Margaret Hill McCarter. The Bookseller, Newsdealer and Stationer, 47(10)(November 15):714.

1918  30.911 [Notice of Outing Adventure Library ed. of First Through the Grand Canyon by J. W. Powell.] In: The New Books [section]. The Independent (New York), 93(March 2):376. [NOTE: This title is listed under the subsection, “About Other Countries”].

“Grand Canyon” (F). From: Travel and Scenic [subsection]. In: Film Catalogue [section]. The Educational Screen, 1(5)(May):152. [Film from Fox Film Corporation (Exchanges), New York. “A much-filmed subject, but seen in this reel from the air. It is said to be the only aerial picture ever made of this natural wonder.” (entire item)]

Bibliography of Colorado River has been completed. Journal of Electricity and Western Industry, 49(12)(December 15):462. [Notice of the bibliography by Bertha Walsworth (Item no. 1.174).]

Historical news and comments. Mississippi Valley Historical Review, 17(4)(March):682-690. [See p. 687, notice of “I Married a Ranger” by Mrs. "White Mountain” Smith.]

1945 30.958 "Fish traps" believed built by hunters, not fishermen. *In: Desert Books [section]. Desert Magazine*, 8(9)(July):2 [inside front cover]. [Notice of the article by Adan E. Treganza in *American Antiquity* for January 1945 (Item no. 11.2865); pertaining to the "fish traps" of the ancient lakeshore of Lake Coachella. See also letter by Harry H. Bergman, 8(9)(July):17 (Item no. 11.5558) and Treganza's reply, 9(1)(November):34 (Item no. 11.5559).]

1949 30.888 New world. *Time*, (December 5):. [Review of "Coronado, Knight of Pueblos and Plains" by Herbert E. Bolton.]

1952 30.968 Fine maps of lower Colorado available. *In: Books of the Southwest [section]. Desert Magazine*, 15(10)(October):43. [Notice of *Sunset Sportsman’s Atlas for the Colorado River and Lake Mead* (not noted specifically by title; see Item no. 10.12 [C. E. Erickson, 1952]).]

Brief guide to newspaper titles of the Grand Canyon and lower Colorado River regions

See the introductory section, "Newspapers", for information pertaining to the overall newspaper coverage of THE GRAND CANON.
**Introduction**

Newspapers are a valuable resource to the historian. Long-running papers of any town or city are important historical documents, but researchers who thrill in finding the obscure and unusual anecdote, small-town and out-of-print newspapers are a mine of information.

This list of newspapers is not exhaustive, nor is there any guarantee that all of them have had coverage of events or people of the immediate Grand Canyon or lower Colorado River regions. But within these regions it is likely that newspapers published there have had a higher frequency of Canyon- and River-related items than the newspapers of more distant places. This list provides a sampling of newspapers of northern Arizona, southern Nevada, and southern Utah. A special supplement to the Arizona list includes newspapers of that intersection of the far Southwest, Yuma.

**Arizona**
- Ash Fork
- Camp Verde
- Cottonwood
- Flagstaff
- Fort Whipple
- Grand Canyon
- Holbrook
- Kingman
- Mineral Park
- Page
- Peach Springs
- Prescott
- Williams
- Window Rock
- Winslow
- Yuma

**California**
- Imperial
- Salton City

**Nevada**
- Boulder City
- Goodsprings
- Henderson
- Lake Mead National Recreation Area
- Las Vegas
- North Las Vegas
- Pioche
- Searchlight

**Utah**
- Beaver
- Cedar
- Parowan
- St. George

In the citations, places of publication are included in parentheses unless the name of the town forms a part of the title.

The earliest newspaper of the Grand Canyon region appears to have been the semiweekly *Arizona Gazette* (Prescott), beginning in 1866, although the *Arizona Daily Miner* (Prescott) began at about the same time. Several other newspapers started up in the late 1860s, and a majority of papers began in
the 1870s-1890s; most, however, were short-lived. In Yuma, the earliest newspaper was apparently
the weekly *Arizona Free Press*, beginning in 1871.

Local libraries can assist the researcher in finding the repositories of these newspapers. Many of the
publications may be available on microfilm. Several comprehensive guides are available, in which the
repositories are listed:

**Austin, Edward**

no date 31.1 *Grand Canyon items from the Arizona Champion and Coconino Sun, 1886-1914.*
[cited=GCNHA Monograph 8: page 10-9]

**Ayer Press** [firm]

____ 31.2 *Ayer directory of publications.* Bala Cynwyd, Pennsylvania: Ayer Press. [Various
dates. Updated annually.] [cited=GCNHA Monograph 8: page 10-3]

**Gregory, Winifred**

**Luttrell, Estelle**

1950 31.137 *Newspapers and periodicals of Arizona, 1859-1911.* *University of Arizona, Bulletin,*
20(3), General Bulletin 15, 123 pp. FQ17:269 FQ29:89

**N. W. Ayer and Son** [firm]

**Pettingill and Co.** [firm]

1899 31.146 *National newspaper directory and gazetteer.* Containing: A complete classified
directory of the newspapers and periodicals published in the United States; showing
the name; frequency of issue and day of publication; class, year established; number
and size of pages; subscription price; publisher’s name and the circulation of each.
With colored railroad maps of each state and territory. Boston and New York:
pp. 25-26.]

**Rogers, Susan L. (Pinky)**

1975 31.5 *Subject index to the Arizona Champion, 1890* (supervised by John Irwin). Flagstaff,
Arizona: Northern Arizona University Library, Special Collections. [cited=GCNHA
Monograph 8: page 10-9]

1975 31.6 *Subject index to the Arizona Champion, 1890-1994* (supervised by John Irwin).
Flagstaff, Arizona: Northern Arizona University Library, Special Collections.
[cited=GCNHA Monograph 8: page 10-9]
Schwegmann, George A., Jr.

Shook, Sally

1975  31.8  Subject index to the Arizona Champion, 1883-1887 (supervised by John Irwin). Flagstaff, Arizona: Northern Arizona University Library, Special Collections. [cited=GCNHA Monograph 8: page 10-9]

Shook, Sally, and Rogers, Susan

1975  31.9  Subject index to the Arizona Champion, 1889 (supervised by John Irwin). Flagstaff, Arizona: Northern Arizona University Library, Special Collections. [cited=GCNHA Monograph 8: page 10-9]

1975  31.10  Name index to the Arizona Champion, 1889 (supervised by John Irwin). Flagstaff, Arizona: Northern Arizona University Library, Special Collections.

Stahler, Gerald

U.S. Library of Congress, Catalog Publication Division, Processing Department

In addition, the following citations are pertinent to this part of the bibliography.

These citations are examples for this subject:

Camarena, Abel

2005  31.147  Newspapers used for publication of legal notices in the Southwestern Region, which includes Arizona, New Mexico, and parts of Oklahoma and Texas. Federal Register, 70(75)(April 20):20521-20522. [U.S. Forest Service; includes Kaibab National Forest: "Notices for Availability for Comments, Decisions and Objections by Forest Supervisor and North Kaibab District and Tusayan District and Williams District Notices are published in:—"Arizona Daily Sun", Flagstaff, Arizona." (p. 20521)]

Zepeda, Gilbert

2010  31.148  Newspapers used for publication of legal notices in the Southwestern Region, which includes Arizona, New Mexico, and parts of Oklahoma and Texas. Federal Register, 75(72)(April 15):19609-19610. [U.S. Forest Service; includes Kaibab National Forest: "Notices for Availability for Comments, Decisions and Objections by Forest Supervisor,
North Kaibab District, Tusayan District, and Williams District Notices are published in:—“Arizona Daily Sun”, Flagstaff, Arizona.” (p. 19609)

Also see farther below for citations that relate to the informal newspapers prepared by companies of the Civilian Conservation Corps during the 1930s and 1940s.

1897-, weekly.
Newspapers prepared by Grand Canyon companies of the Civilian Conservation Corps during the 1930s and 1940s

The Center for Research Libraries (www.crl.edu) provides access to newspapers produced by companies of the Civilian Conservation Corps; usually they were mimeographed and the series were short-lived. Robert W. Audretsch’s history of the CCC at Grand Canyon 75 includes a synopsis of these productions as recorded by CRL, which is drawn upon and rearranged here for these citations. The dates given are ranges for individual copies noted by CRL’s sources. The list here is in alphabetical order. Audretsch notes, “more were likely published.”

75 Robert W. Audretsch, Shaping the Park and Saving the Boys; the Civilian Conservation Corps at Grand Canyon, 1933-1942 (Dog Ear Publishing, Indianapolis, 2011), p. 50.

MARGINALIA

Items not about the Grand Canyon *per se* but having a Grand Canyon venue, items unrelated to but utilizing the Grand Canyon in non-metaphorical senses, or items otherwise used with direct application to the Grand Canyon without occurring there

This part contains citations which are themselves not about the Grand Canyon but refer to the Grand Canyon as a venue—for example, meetings and conferences about subjects other than the Canyon held at Grand Canyon—or as a projected destination, without certainty that the parties involved do actually reach the Grand Canyon. While these citations do not specifically contain information about the Canyon, that they took place there, or intended to take place there, makes them peripherally a part of the history of the Canyon. Also included here are some similarly marginal references to nearby Grand Canyon locales, which are embraced within this bibliography.

Die Pfarürst.
BALDUIN MÖLLHAUSEN'S *Reisen in die Felsengebirge Nord-Amerikas bis zum Hoch-Plateau von Neu-Mexico* [Travel in the North American Rocky Mountains to the High Plateau of New Mexico] is partly his record of the exploring expedition under commanded by Lt. Joseph C. Ives, U.S. Army Corps of Topographical Engineers. The expedition was to ascertain the head of navigation of the Colorado River. Once that objective was accomplished, the expedition split into two groups; one returned down the Colorado River, the other, under Ives, traveled eastward overland to Fort Defiance, New Mexico Territory. Möllhausen accompanied this second party, the first exploring expedition to reach the Grand Canyon, in 1858. Ives' formal report was published as a Congressional document in Washington, D.C., in 1861. 

This Appendix was first prepared in the 1990s in the more traditional, descriptive style of bibliography. At that time I personally did not have access to the technology of digital reprography. I retain this older style of description here as a historical element of bibliography, to illustrate the earlier methodology; but see the facing page for a digital reproduction of one of the title-pages examined from the *Reisen*. Emendations appear here that were made after the original text was prepared.

significance of Möllhausen’s work to Grand Canyon–Colorado River history is that it predates the release of Ives’ formal report, by several months at least, thus it constitutes the first published comprehensive accounting of explorations on the Colorado River and in the Grand Canyon.

Möllhausen’s *Reisen* was published under two imprints in Leipzig, both consisting of two volumes. One imprint is that of Otto Purfürst (undated), the other is that of Hermann Costenoble (1861).  

A. Edelmann, Leipzig, was the printer for both imprints as well as the printer of the lithographs. One contemporary notice (from 1861) has been found, which cites an 1860 date:

[octavo] Leipzig 1860.  

Note here that the publisher is not indicated, and the price of 2 Thaler is considerably less than the projected price of 6½–6⅓ Thaler that was estimated in an advance advertisement by Costenoble (see below). Whether this was an economical issue from Purfürst (perhaps the undated edition attributed to 1860), or a misestimate, is uncertain (although perhaps the notice was based only on one volume, as was also another notice, for which likewise see below).

Advertisements were placed by Hermann Costenoble in other publications issued by that firm; for example, the following display ad, which obviously was a pre-publication notice prepared while the Möllhausen volumes were in press, appeared in an 1861 publication:

Im Verlage von Hermann Costenoble in Leipzig erschienen ferner:

---

In late 1860, a summary of one volume only of the *Reisen* was noticed in *Leipziger Repertorium der deutschen und ausländischen Literatur*, which specified:

1 Bd. Leipzig, Costenoble. 1861, XVI u. 455 S. Lex.-8. (n. 3 Thlr. 12 Ngr.)

This is the pagination for Volume 1. The price of 3 Thaler, 12 Neu-Groschen for one volume is in keeping with the prepublication estimate for both Costenoble volumes (cited above). The fact that this notice provides a separate, single-volume price may also indicate that Volume 1 was available before Volume 2.

In addition to the Leipzig editions, Wagner and Camp also cite, “Howes and Sabin list another German edition, Jena, 1861 . . . .” Howes does not specify different imprints for the Leipzig printings. The 1861 Jena imprint I have not been able to locate; however, I do accept it on the authority of Sabin.

This title has also been reprinted in German and in translation, but not in English (see the listings in Part 2 the present bibliography).

The Purfürst imprint has been attributed a date of 1860. If correct, it is notable because it will have preceded certainly by many months the official report of the Colorado River expedition by its commander, Lt. Ives, published later in 1861. It thus would also contain the first general and scientific descriptions of the Grand Canyon region, in that Möllhausen’s observations would precede those published both by Ives and Wagner.

---

81 “(2879) Reisen in die Felsengebirge Nord-Amerikas bis zum Hoch-Plateau von Neu-Mexico . . . .”, in Länder- und Völkerkunde [section], *Leipziger Repertorium der deutschen und ausländischen Literatur*, Vol. 71 (1860), pp. 19-23. It is possible that the summary was written from an advance copy of Volume 1 of the *Reisen*, which is 455 pp. A librarian’s cataloging notation in the Harvard University Library copy of this serial states that the foremost livraisons of Vol. 71 were received (?) 30 October 1860.

and by John Strong Newberry84 (as Part 3 of Ives’ volume). Möllhausen, however, does credit his information to Newberry, to whom he was a field assistant.

I have found also a notation of the availability of a Costenoble imprint for the two volumes in December 1860. An anonymously written synopsis of the Reisen cites:

Storm, who misread the German Fraktur font in listing one imprint as Otto “Burfurst”, indicates, “The probable date of publication is 1860.”86 Storm, and Wagner and Camp, both list undated Purfürst printings. Farquhar87 cites the 1861 Costenoble imprint only. Howes does not list different imprints, although it is clear from his two citations that he had both the undated Purfürst imprint (for which he listed the date as “[1860?]”) and the Costenoble imprint. The Library of Congress interprets the date “[1861]” for the Purfürst imprint; it does not catalogue the other imprint. The National Union Catalog, Pre-1956 Imprints88 lists both imprints, including the Library of Congress data for the Purfürst imprint. The citation of a dated 1861 Purfürst imprint in the print version of the present bibliography (2nd ed., 1990) was mistaken. The undated printing is the only documented Purfürst imprint; the only 1861 dated imprints are that of Costenoble (Leipzig) and, apparently, the Jena imprint cited by Howes and by Sabin. The Costenoble imprint noted anonymously in an 1860 synopsis has not been seen, thus it is unknown whether or not the title-page carried a date.

The conjectural 1860 date for the Purfürst imprint may have been based by earlier writers on the signed date of Möllhausen’s preface, May 1860 (see p. xii), there being sufficient time to publish the book before the end of 1860. However, at this time I have seen no evidence that indicates even which of the two imprints, Purfürst or Costenoble, was the first to be published; this despite the fact that p. [456] of Volume 1 is an advertising page for publications of Hermann Costenoble—the page is present in both the Costenoble and Purfürst printings. Specific accession dates of this title by

84 John Strong Newberry, “Geological Report” in J. C. Ives, “Report upon the Colorado River of the West, explored in 1857 and 1858 . . . .”, U.S. 36th Congress, 1st Session, Senate Executive Document [unnumbered], Serial 1058 (Government Printing Office, Washington, 1861), Part 3, 154 pp. [separately paginated part in volume], with four maps in volume pocket. [See Item no. 2.3585 (J. C. Ives) noting that a concurrent issue, identical except without the two geological maps, was distributed as House Executive Document 90 (see Item no. 2.3584) (J. C. Ives).]
88 Library of Congress; and American Library Association, Resources and Technical Services Division, Resources Committee, National Union Catalog Subcommittee (compilers), National Union Catalog; Pre-1956 Imprints (Mansell Information/ Publishing Ltd., [London], 1975), Volume 389.
libraries or individuals are presently not known. I note here that only the Costenoble imprint was noticed in the “Geographische Literatur” section of Petermanns Geographische Mitteilungen, a definitive contemporary compendium of world geographic information and literature; but that imprint may have been the only copy received.

Karl Klüpfel’s Literarischer Wegwiser für gebildete Laien for 1859–1860 includes a pre-publication advertisement (p. 94) for the Hermann Costenoble printing of Möllhausen’s Reisen; and in the 1861–1862 edition (p. 48) the two volumes are listed specifically with the imprint, “Leipzig 1860, Costenoble”; the price was “6 Thlr. 24 Ngr.”, which note is about 4 Neu-Groschen higher than the pre-publication estimate cited farther above.

I examined the two volumes of the Purfürst imprint that had belonged to historical bibliographer Wright Howes, which are in the Dechert Collection of the Rare Books Collection in the Van Pelt Library, University of Pennsylvania, Philadelphia. A writer, apparently Howes, has written inside the front cover of Volume 1 (square brackets are those of that writer):

Account of the 1857-8 Ives-Newberry Exped.—and has never been tr. into English Complete with map, facsimile + 12 plates in color ordinarily seen in dated edn. of 1861. Wagner-Camp 362—says this [undated] First Edn was probably pubd in 1860.

Wagner and Camp, however, do not suggest a date of publication for this printing. Also written inside this cover is “Ed. 1.” Also, Robert Dechert himself annotated, “Wright Howes’s cop. bought by RD (Chicago, 1952) $4000”.

I also examined the two volumes of the Costenoble 1861 imprint held in the library of Philadelphia’s Balch Institute for Ethnic Studies. A note pencilled inside one volume indicates that the set was purchased for $600.00 in 1972.

A third set of volumes I examined in the library of the American Museum of Natural History (New York City). Interestingly, Volume 1 is the Costenoble imprint, and Volume 2 is the Purfürst imprint. These volumes appear to have originally been a mixed set in another institution, in Hungary, because both of them include the same
stamping and ink marks. On both title-pages a large “605” had been penned, then covered by a piece of paper having on it an ornamental design with a lion and shield; surrounding the overlay is a stamped inked ring. Inside both front covers is noted in pencil, “8/19/1920 collated O.K.” (Other notes relating to the American Museum copies are interjected below.)

Comparing the text and illustrations of the two Leipzig imprints, there is no difference between them other than the few points noted in the following pages, with regard to the imprint and plate placements in the Purfürst printing that do not exactly correspond to the list of illustrations (Volume 2, p. [x]; see below). The paper used in the books, and the quality of printing of the lithographs, are the same in the two printings.

The bindings of the American Museum set are different. Volume 1 is in boards with somewhat coarsely woven cloth glued to the spine and outside corners; the front and back boards are laid over with green paper, which wraps just to the inside margins of the boards. Volume 2 has on the front board a trimmed quadrangle of buff-colored paper on which is printed the same text block as that which appears on the title-page but with an ornamental border added. On the copy seen, there is no indication that Volume 1 ever had the title overlay. This binding is not handsome.

The Costenoble imprint has been seen in boards with textured royal-blue cloth; a royal coat of arms is embossed in gold on the front covers; and the spine is black cloth, ribbed, with gold stamping. That the publication was dedicated by Möllhausen to the Prussian prince Friedrich Wilhelm Ludwig, and that there is greater care and expense of binding and plate collation in the Costenoble printing, is circumstantial evidence that this imprint would have been more suitable as presentation copies. That the Purfürst imprint is much more cheaply bound suggests that it is a more economical printing for wider distribution. Whether or not the miscollation of plates seen in the Wright Howes copies of the Purfürst imprint is consistent in all copies distributed has not been determined, although Wagner and Camp also note miscollated plates. The Dechert Collection copies also contain pencilled annotations on the plate-list page (vol. 2, p. [x]), apparently by Howes, which note miscollated plates. The mixed-imprint American Museum set seems to have been rebound, as noted. Each has dark-green marbled boards; the spines are textured brown cloth with gilt stamping in Fraktur. All three exposed edges of the text block are marbled. The inside front cover of Volume 1 includes an inked stamp illustrating a book and carries the text in Hungarian, “Pozsony DRODTLEFF RUDOLF Pressburg.”, thus indicating some of the provenential data for this volume.

Following is some comparative information for various points relating to the volumes examined for the two Leipzig imprints.
Verzeichnik der Illustrationen.

Erster Band.

1. Eingeborene im Thale des Colorado .............................................................. Titelbild.
2. Vegetation der Kiesebene und des Colorado-Thales .................................. S. 113
3. Schornsteinfelsen oder Chimney peak ....................................................... " 175
4. Felsformation in der Nähe der Mündung von Bill Williams fork .................. " 238
5. Die Nadelfelsen oder Needles (von Norden gesehen) .................................. " 274

11. Schluchten im Hoch-Plateau und Aussicht auf das Colorado-Cañon ........ " 100
12. Karte der Völkerwanderung im Colorado-Gebiete, nebst Angabe der Route der Colorado-Expedition ................................................................. " 145
13. Vegetation des Hoch-Plateaus ................................................................... " 223
14. Ruinen von Pecos ...................................................................................... " 294

See below for a comparison of examined volumes to this illustration list.
Notes Regarding the Plates in the Leipzig Printings

The following points indicate how the text on the plates differs from Möllhausen’s list of illustrations (“Verzeichnik der Illustrationen”; see previous page). Plates not mentioned here appear exactly as listed in the illustration list. Except where noted otherwise, the information here pertains to both Leipzig printings.

[Plate 1]
Plate includes the labels “Wallpays.”, “Mohaves.”, “Yuma.”, “Chimehwhuebes.”, and “Apache.”

University of Pennsylvania copy of Purfürst: [Plate 1] is in volume 2 facing p. [x].

[Plate 2]
Faces p. 112.

[Plate 3]

[Plate 6]
Legend on plate adds a period after “Colorado”.

[Plate 7]
This is not a separate plate but is one leaf between pages 430 and 431, printed on two sides, interrupting the pagination of the signature. The legend on the plate has no apostrophe in “Humboldts”.

[Plate 8]
Legend on plate reads, “Eingeborene des nördlichen Neu-Mexiko.” Plate includes the labels “Moquis.”, “Navahoes.”, “Zuñis.”, and “Wallpays.”

[Plate 9]
Legend on plate reads, “Der Diamant-Bach (Diamond creek).”

[Plate 10]
University of Pennsylvania copy of Purfürst, and Balch Institute copy of Costenoble: [Plate 10] faces p. 54.

[Plate 11]
Legend on plate deletes the hyphen, “Hoch Plateau”, thus.

[Plate 12]
Folds out, facing p. 144; the caption continues, “zu Möllhausen’s ‘Reisen in die Felsengebirge Nord-Amerikas’.”

[Plate 13]
Faces p. 222.

[Plate 14]

Appendix 2

Variants of E. L. Kolb’s

Through the Grand Canyon from Wyoming to Mexico (1914–2007)

Compiled by Richard D. Quartaroli
The Special Collections Librarian (Emeritus), Northern Arizona University
Flagstaff, Arizona

Ellsworth Leonardson Kolb (January 4, 1876–January 9, 1960) and his brother, Emery Clifford Kolb (February 15, 1881–December 11, 1976), rowed down the Green and Colorado Rivers from Green River, Wyoming, to Needles, California, in 1911–1912, documenting their trip on still and motion picture film. In 1913 Ellsworth continued the voyage to the delta. Ellsworth’s book about their trip, with “Photographs by the Author and his brother” (as indicated on title-page), was first issued in October, 1914, by the Macmillan Company (New York). Through 1971, Macmillan issued 27 variants, differing principally in the number and arrangement of plates, and a minor (but contextually significant) emendation to the foreword by Owen Wister. In 1989, the University of Arizona Press (Tucson) reprinted the first edition in facsimile, adding a “new preface” by Barry Goldwater. However, the new printing contained errors, including misciting and misspelling the author as “Emory L. Kolb”. The errors were corrected for later sales of the volume (see in the descriptive notes below). A 2007 reprinting was issued by the Grand Canyon Association. Print-on-demand products in various formats, offered by several sources beginning in the 2000s, are transient and potentially inconsistent for each printing by a given producer; they are omitted from this compilation of variants, but the main bibliography does list the imprints that have been located. Illustrations of Macmillan imprint variant styles are placed at the end of this Appendix. Some of the early printings (though precise details are as yet undetermined) were issued in boxes; see boxed book illustration.
This list has also been verified by the late David Hellyer (original proprietor of Five Quail Books, Spring Grove, Minnesota), Daniel Cassidy (Five Quail Books, Prescott, Arizona), Karen Underhill (Special Collections and Archives, Cline Library, Northern Arizona University, Flagstaff, Arizona), and Earle E. Spamer (American Philosophical Society, Philadelphia, Pennsylvania).

Table layout modified from Quartaroli’s unpublished list by Earle Spamer for *THE GRAND CANON*, and minor points added by Spamer. Current to 2014.

*Affixed cover illustration on Macmillan printings is the same size in all variants (ca. 11 × 16 cm) regardless of cover size.

— Information not available  NA Not applicable
Cover and Dust-Jacket Styles for Macmillan Imprints of Through the Grand Canyon from Wyoming to Mexico

[To scale]

**Orange ornamental border**
smaller format (Variants A–E)

Examples: Variant A

**Yellow ornamental border**
larger format (Variants F–O, Q–W)

Examples: Variant G

**No pictorial cover; front cover stamped, not gilt**
(Variant P)

Examples: Variant P

Variations in cloth colors and the colors of the ornamental border and the affixed illustration may vary due to original production specifications, aging of individual copies, and the general effects of previous owners’ care. However, only two ornamental border colors were used (as indicated in the table above), orange and yellow.

Cover and dust-jacket examples on these pages from the collection of Earle Spamer.
No pictorial cover; front cover not stamped
(Variants X–AA)

Example: Variant X
Examples of dust-jackets (spines and front panels only), showing some style variations and the kinds of condition that may be expected today. Variations in colors may be due to original production specifications, aging, and the general effects of previous owners’ care. Not all variants have been seen with dust-jackets, although the presumption is made that all Macmillan printings were distributed with dust-jackets. Thus far no detailed study of dust-jackets on variants has been undertaken.

- Dust-jacket example from **Variant C**
  Price printed on spine; no text on front flap.

- Dust-jacket example from **Variant J**
  Price at bottom of front flap has been clipped.
Some early printings of *Through the Grand Canyon from Wyoming to Mexico* were distributed in paperboard boxes. The volume fits snugly inside, with a separate lift-off lid. The illustration above depicts the top of the lid (*left*) positioned next to the volume seated inside the box bottom.

Example:  **Variant B with dustjacket, in box.**  Box top 7 7/16 × 9 3/16 × 7/8 inches.  Box bottom (partly damaged) 7 × 9½ × 1½ inches.  From the collection of Richard D. Quartaroli.  (Quartaroli photo.)
ELSON HORATIO DARTON (1865–1948) was a geologist with the U.S. Geological Survey. He was commissioned by the firm of Fred Harvey to prepare a booklet on the geology of the Grand Canyon, first published in September, 1917. Fifty printings (editions) have been documented through 1987, making this title the longest-running among continuously available Grand Canyon–Colorado River titles, 70 years.

Copyright and edition information is printed on the bottom of the last page in all variants except the 1st. In the 5th to 33rd eds. the edition number and “Revised and Enlarged Edition” also appear on the title-page, but thereafter only “Revised and Enlarged Edition” is printed there. The text content was occasionally edited, but the geology was never updated except for some minor changes. The format, place of publication, and most notably the cover were changed from time to time. This is a complete itemization of all copies seen. There are variations of illustration placement throughout the series. The illustration as the frontispiece appears in all variants, but “frontispiece” is itemized in the pagination description only when it appears as a separate item in the pagination. Reorganization of illustrations, particularly the maps, is noted, but pagination is unaffected unless indicated otherwise. Variants for which no data are listed (―) have not been seen. See Notes at end of table for details on imprints, volume sizes, and wrap styles. Wrap styles are illustrated at the end of this Appendix.

**Imprints**

1st–13th eds. Fred Harvey, Kansas City, Missouri
14th–50th eds. Fred Harvey, Grand Canyon, Arizona

**Volume Sizes** (see wrap styles for additional information)

- 1st–11th eds. 21 cm
- 12th–32nd eds. 20 cm
- 33rd–50th eds. 19 cm
Wrap Styles — See following page for illustrated guide to styles

**Spine title** (1st–32nd eds. only): “Story of the Grand Canyon”. Spine titles run reverse (bottom to top) from American convention.

**Style 1** (1st–3rd eds.): Plain paper; text only; ink colors blue and silver; text block side-stapled, wraps glued; wraps larger than text block

**Style 2** (4th–9th eds.): Plain paper; text only; ink colors gray and silver; text block side-stapled, wraps glued; wraps larger than text block

**Style 3** (10th ed.): Plain paper; pictorial, drawing of Hermit Camp; ink colors black and tan; text block side-stapled, wraps glued; wraps larger than text block; introduction of artwork on cover 4 (retained in all subsequent eds.)

**Style 4** (11th ed.): Plain paper; pictorial, drawing of Hermit Camp; ink colors black and dark tan; text block side-stapled, wraps glued; wraps larger than text block; introduction of artwork on cover 4 (retained in all subsequent eds.)

**Style 5** (12th–22nd eds.): Plain paper; pictorial, drawing of two mounted riders at Colorado River; ink colors black, blue, green, and orange (sky green); text block side-stapled, wraps glued

**Style 6** (23rd–31st eds.): Plain paper; pictorial, drawing of three mounted riders at Colorado River; ink colors black, red, mauve, and blue (sky blue); text block side-stapled, wraps glued

**Style 7** (32nd ed.): Plain paper; pictorial, drawing of three mounted riders at Colorado River; ink colors black, orange, purple, and blue (sky blue); saddle-wired, spine title retained despite saddle wiring

**Style 8** (33rd–50th eds.): Glossy stock wraps and text block; wraps with pictorial, wrap-around color photograph of South Rim view; saddle-wired, spine title omitted
Style Variants of Wraps for *Story of the Grand Canyon of Arizona*

**Examples:**

- **Style 1:** 1st ed.
- **Style 2:** 4th ed.
- **Style 3:** 10th ed.
- **Style 4:** 11th ed.
- **Style 5:** 12th ed.
- **Style 6:** 28th ed.
- **Style 7:** 32nd ed.
- **Style 8:** 48th ed.

Illustration examples on these pages from the collection of Earle Spamer.
Detail of binding in Style 7 (exterior view, fully opened), showing spine title printed on a saddle-wired binding edge, unique to the 32nd edition (gray arrows point to wiring.) Previous editions were perfect-bound, with spine titles printed in the gutter between covers 1 (lower part of view) and 4 (upper part of view). Subsequent editions, also saddle-wired, omit the spine title.

Detail of binding in Styles 1–4 (example from 9th ed., interior view, fully opened to rear) showing side-stapled text block. Flyleaves are stapled to the text block; wraps are glued to the flyleaves along strips parallel to the staple zone. (In the example shown here the rear flyleaf (gray) has pulled off from the staples but is still glued to the rear-cover wrap beneath it. Normally this view is not seen in copies where the flyleaves are intact.) Front and rear covers, with gutter between, are a single sheet, glued to the flyleaves along the staple zone (beneath the flyleaf in this view). Note also the fashion in which the wraps are larger in the vertical dimension (top-to-bottom) than the text block (more noticeable at the right in this view).

[on the verso of this view the flyleaf is glued to the rear cover in a strip parallel to the staple zone]
Appendix 4

Variants of E. D. McKee’s Ancient Landscapes of the Grand Canyon Region (1931–1985)

Compiled by Earle E. Spamer

Edwin Dinwiddie McKee (1906–1984) was the Park Naturalist at Grand Canyon National Park from 1929 to 1939. He later was Assistant Director for Research at the Museum of Northern Arizona, chairman of the Department of Geology at the University of Arizona, and Research Geologist in the U.S. Geological Survey. In 1931, he privately published a booklet on the geology of the Grand Canyon region, which to 1985 went through 30 printings. The text content remains largely the same, but the format, illustrations, printer, and most notably the cover, were changed from time to time. There are variations in title-page content, layout, and typography throughout the series. This is a complete itemization of all copies seen. Variants for which no data are listed have not been seen. See Notes at end of table for explanations of some columns. Styles of cover illustrations are depicted at the end of this Appendix.

END OF BIBLIOGRAPHY
THE BIGGEST MIRROR

THE TERM “GRAND CANYON”
AS USED IN GEOGRAPHICAL NOMENCLATURE,
ANALOGY, METAPHOR AND NEOLOGY

These compilations collate numerous usages of the term, “Grand Canyon”, as applied to other physical features on Earth and other worlds, and as used in analogy, metaphor and neology. This comprehensive gathering of the neological “other” Grand Canyons—physical, imaginary and literary—is like a musical canon that has a melody and repeated imitations of it. In also extracting concepts of the physical Grand Canyon for other purposes, each example in these compilations is a hypernym of the real Grand Canyon.

Part 1: Naming “Grand Canyons” Around the World, On Other Worlds, and In the Imagination
Part 2: “Grand Canyon” in Analogy, Metaphor and Neology
“This name has been repeatedly infringed for purposes of advertisement. The cañon of the Yellowstone has been called ‘The Grand Cañon.’ A more flagrant piracy is the naming of the gorge of the Arkansas River in Colorado ‘The Grand Cañon of Colorado,’ and many persons who have visited it have been persuaded that they have seen the great chasm. These river valleys are certainly very pleasing and picturesque, but there is no more comparison between them and the mighty chasm of the Colorado River than there is between the Alleghenies or Trosachs and the Himalayas.”

—Clarence Edward Dutton

“One, of course, is always called upon to compare this Grand Canyon of the Yellowstone with the Grand Canyon, that of the Colorado, in Arizona . . . . When Grand Canyon without the suffix is spoken of, government literature tells us that is meant. There are numerous Grand Canyons, but they all have a suffix.”

—Edward Ambler Armstrong

INTRODUCTION: ALL THE OTHER GRAND CANYONS

As a wonder of the world (seventh, eighth or other), the Grand Canyon of the Colorado River in Arizona is the source of nomenclature, copied and rephrased, for hundreds of other features on all seven of Earth’s continents, in the oceans, and on celestial bodies; even space itself. All of these names have appeared in print or in widely accessible digital form through the Internet. In some fashion, formally and (far more usually) in informal fashion, these places are called “The Grand Canyon”, the “Grand Canyon of” a certain place, and variously as “the other” or another Grand Canyon of some kind. There are “littler” Grand Canyons and a “baby” and “junior” one or two, and, occasionally, “grander” canyons. A “second Grand Canyon” will be found in three different places in the world, plus a “Second Grandest Canyon” by itself. More astonishing, there are five “real” Grand Canyons. Even Arizona’s honestly real Grand Canyon has a separate, promotionally declared “real” portion to it—which must imply there is a less-real portion! There are fifteen places called “the other Grand Canyon”—and an “America’s Other Grand Canyon” thrown in for good measure.

The Grand Canyon—Arizona’s main one, that is—receives a gracious, inferential tip of the literary hat in a reference to nearby Oak Creek Canyon as “the other canyon”. More disparagingly, Arizona’s big canyon is “that other Grand Canyon” (emphasis thus), so noted in a piece promoting Pine Creek Gorge, a place otherwise enviably and widely advertised as “Pennsylvania’s Grand Canyon” and the “Grand Canyon of Pennsylvania”. Nevertheless, THE Grand Canyon is the inspiration for a genre that now reaches into space. It serves, too, as the de facto trademark of The Grand Canyon State (Arizona’s official nickname)—and as such, the state’s promotional literature must further imply that the canyon is the “official” Grand Canyon.

The Grand Canyon of the Colorado River may be the literary fount of ersatz Grand Canyons, but it is not the first place to be named “Grand Canyon”, not even in Arizona. These nomenclatural creations comprise a unique

---

93 Seth Muller, “Call o’ the Other Canyon”, Northern Arizona’s Mountain Living Magazine, (May 2010), cover, pp. 6, 12-17.
perspective of the extenuating powers of impression that THE Grand Canyon has conveyed ever since the first “other” Grand Canyon was named (in 1870, the Grand Canyon of the Yellowstone96).

The compendium that follows herein contains the names of geographical, artificial, and imaginary features named in some fashion, “Grand Canyon”. Formal and informal, current and archaic, names are listed. By far most of these names are off-the-cuff descriptive terms; few are legalized by official administrative actions. These nomenclatural expressions are taken from published literature and other published sources (like postcards), but a substantial number of them are from Internet websites; all document broad literary and imaginative applications of the term. Whereas anyone may hereafter add to this list by simply including it in (for example) a published essay, letter to an editor, printed postcard, or website posting, the names listed here are those that appeared without any such encouragement, already in place for the finding, before this list was first distributed as part of THE GRAND CANON, with some later additions (though among the later additions most are from items that predate THE GRAND CANON). The list represents undirected, unreined creativity, without the temptation now to invent new “Grand Canyon” terms simply for the sake of adding to the list.

One will notice that some of the items listed are, in lower case, the “grand canyon” of some place. This reflects the usage as presented in the source seen. While one may argue that the description is thus generic, as in “a grand canyon”, it is clear that the nomenclatural correlation is present, and probably the use of “the grand canyon of ~” was meant not so much to compromise the actual Grand Canyon but to avoid the direct use of the name while conveying some same sense of comparative grandeur; and thus, the term is borrowed nevertheless.

96 The name of the ”Grand Canyon of the Yellowstone” is attributed to Henry D. Washburn during the expedition led by Washburn and Gustavus C. Doane to the Yellowstone region in 1870, when numerous Yellowstone features were given names by which they are famously known today. Pointedly, the Yellowstone’s famous canyon was just called ”the Grand Canyon”; the ”of the Yellowstone” suffix was attached later. Lee Whittlesley’s Yellowstone Place Names (Montana Historical Society, Helena, 1988), p. 119, attributes the Yellowstone’s Grand Canyon to Washburn but without any indication whether the Grand Canyon of Arizona influenced the Yellowstone name; nor apparently did the explorers make any such indication. An account of the expedition published by Washburn in the Helena Herald mentions ”the Grand Cañon”. That newspaper record was reprinted, without noting the date, in Rossiter W. Raymond’s “Mining Statistics West of the Rocky Mountains” (U.S. 42nd Congress, 1st Session, House Executive Document 10, 1871, p. 214). Doane’s own report first mentions ”the Grand Cañon” in his entry for August 29, 1870 (“The report of Lieutenant Gustavus C. Doane upon the so-called Yellowstone Expedition of 1870”, U.S. 41st Congress, 3rd Session, Senate Executive Document 51, 1871, p. 9). Nathaniel Pitt Langford’s diary of the Washburn–Doane expedition first notes ”the Grand cañon” in his entry for August 26, 1870 (Diary of the Washburn Expedition to the Yellowstone and Firehole Rivers in the year 1870, privately printed, 1905, p. 16). Thomas Moran’s monumental canvas, The Grand Cañon of the Yellowstone (1871–1872), studies for which he made during the Washburn–Doane expedition, may be the original source of the ”Yellowstone” suffix. Notably, Moran did not use the (Arizona) Grand Canyon’s name for his equally large canvas, ”The Chasm of the Colorado” (1873). The paintings were purchased by the U.S. Government, each for $10,000, which originally were displayed in the U.S. Capitol and later transferred to the Department of the Interior. They now hang in the National Gallery of Art, Washington.
With few exceptions (principally those listed in official geographical nomenclators, or in locally or official promotional literature of chambers of commerce), the listings that appear here have in no way implied themselves—or for that matter have they been inferred by me—to be “official”, “sanctioned”, widely accepted, or for that matter even known to most people. Most of these listings are only cultural and impressionistic labels. Not including Arizona’s Grand Canyon of the Colorado River, there are 71 places thus far found that are labelled, “Grand Canyon” without any possessive qualifier (like the “Grand Canyon of ~” or “~’s Grand Canyon”). There are more than 41 places that carry the name “Little Grand Canyon”, and that does not include more Little Grand Canyons that also have possessive qualifiers (“Little Grand Canyon of ~”), and so forth. Not to be belittled, there are two “Junior Grand Canyons”. The nomenclatural record-holder for geographically fixed Grand Canyons is the “Grand Canyon of the East”: 14 locales carry that nominal term, 11 in the United States, and one each in Canada, India, and the People’s Republic of China, albeit in the Asian examples “East” is to be read differently—and these do not include two U.S. locales that each are “Grand Canyon East” (one is in Kentucky, the second is the eastern portion of the Grand Canyon in Arizona). Virtually all of the names listed here convey the proprietary and literary whims of the authors who contrived the names.

One may argue that the focus on other nomenclatural Grand Canyons is more sensibly left only to those that have been formally named or those that have appeared in “proper” literature—published, in the conventional sense, discussionary at least, perhaps even peer-reviewed or having passed the muster of a professional editor, even officially sanctioned by registorial bodies. But as this list demonstrates, the Grand Canyon lies within a very broad embrace of the public imagination and infatuation, worldwide. It is these writers (whomever they are, however widely read or not) who have seen the Grand Canyon fashioned in some other place, or to whom, as in the separate list of metaphorical expressions herein, some aspect of physical space, cultural surrounding, or imaginative concept has conveyed the image or idea of the Grand Canyon. I take pause to note that, as the acme of canyons, these many other Grand Canyons were not compared to some other, non-Grand canyons. When the comparison is made, or when the outright labeling as plain “Grand Canyon” is made, it is always with reference to “the” Grand Canyon; everyone knows what is meant.

Some of the names in this list are nomenclatural synonyms; for example, in the nation of Oman separately listed nomenclatural grand canyons are An Nakhr Gorge, Wadi Nakhr, and Jebel Shams, all of which seem to be one geographical locale. Yet a Grand Canyon appellation has been ascribed to each of these geographic names. Likewise, some names may be listed here for a with the qualifier that a precise locale was not specified, but which actually may be one of the same features already in this list. But unique usages and attributions are accorded
their own lines of entry because of the variations of nomenclature; a more concise, edited list will have to resolve these issues.

Still many more items in this list are the creations of writers through error or as the result of geographical ignorance. Even THE Grand Canyon has been geographically misplaced—in Nevada, New Mexico, and, less surprisingly, Colorado. One of the Colorado misplacements was most memorable when the canyon was misidentified as being in that State on a U.S. postage stamp. The stamp had not yet been released, and ostensibly all were destroyed—and when the corrected version was released, identifying the canyon as in Arizona, alert observers pointed out that the photograph was printed reversed! Still, all Grand Canyon placements warrant a line in the list, which documents all uses as found in published sources, tangible and digital both. Each example conveys critical information, explicit or inferred, of personal or organizational perceptions.

Citations for the sources of these names are for the greater part not incorporated in the bibliography, THE GRAND CANON, because they do not actually discuss or mention the Grand Canyon of the Colorado River. I hold in my files at least one example of each item, which document these hundreds of nomenclatural uses. References to “Grand Canyon” in analogy or metaphor or in neological construct are listed separately herein, and all examples of these, too, are in my files.

A rudimentary version of the geographical names list that follows was first published in 1996 by “Early C. Corax” and “C. V. Abyssus”. Some sources were originally taken from the U.S. Geological Survey’s Geographic Names Information System and from gazetteers published by the Defense Mapping Agency. Since 1996, the list has been hugely expanded from other published sources, from ephemera, and most substantially from Internet websites. A somewhat extensive, revised list was published by me in 2006, which for visual effect and parody was printed in impractically small type.

---

97 Early C. Corax and C. V. Abyssus, “Doin’ the Canyon Shuffle”, Boatman’s Quarterly Review, Vol. 9, no. 3 (Summer 1996), pp. 6-7. Regarding these pseudonyms, see in THE GRAND CANON the section on pseudonyms.

98 Earle Spamer, “Other Grand Canyons: Incarnations Around the World and On Other Worlds”, Annals of Improbable Research, Vol. 12, no. 3 (March/April 2006), pp. 24-25. Also see in the same issue a related article by Spamer, “Is the Grand Canyon a Fake?”, pp. 18-22, which relates to nomenclature in the same fashion.

“The Blue Grand Canyon” was devised in 2011 in a marketing campaign by the Monterey County Vintners to distinguish themselves from other wine regions of California (Napa and Sonoma). The trademark name derives from diurnal atmospheric influences and ocean beauty that contribute to the climatological and aesthetic appeal of the Monterey wine region.

**People’s Republic of China**102

[locale not specified] ........................................China’s Grand Canyon

102 A few of the “Grand Canyons” in the People’s Republic of China are based on publications originally in English translation, whose writers specifically borrowed the name of “the Grand Canyon”. Many more instances may derive from literal translations of “great canyon” or similar terms from the Chinese rather than as a precise comparison to “the Grand Canyon”. However, all names found have been listed here rather than following a subjective analysis of original intent, which in any case is not possible considering that they are largely from informal sources.
Grand Canyon Tiger Leaping Gorge, between Dali and Lijiang

103 “The Blue Grand Canyon” was devised in 2011 in a marketing campaign by the Monterey County Vintners to distinguish themselves from other wine regions of California (Napa and Sonoma). The name derives from diurnal atmospheric influences and ocean beauty as influencing the climatological and aesthetic appeal of the Monterey wine region.

Part 2

“Grand Canyon” in Analogy, Metaphor and Neology

by Earle E. Spamer

© Earle E. Spamer 2015
INTRODUCTION

As with geographical reuses of the term “Grand Canyon”, the Grand Canyon’s overwhelming attraction to comparison is wealthily displayed in the creative traditions of analogy, metaphor and neology. Many of the expressions listed here are taken from published literature and from Internet websites, attended by liberal doses both of imaginative and poor writing skills; sometimes whimsy and wackiness make their ways into the list. Some even are a Grand Canyon of a stretch of the imagination! Copies of all examples are in my files.

In this compilation, the spelling “cañon” in the original sources is rewritten as “canyon”. Many, if not most, of the cited examples here are direct quotations, although quotation marks are avoided in these lists to avoid the distraction; the actual examples are on file. The lists are current through 2014.

Analogies are precisely formulated or other direct comparisons to the Grand Canyon, actual or attempted. Similes are included here.

Metaphors may be created to convey such various concepts and contemplations as physical greatness, temporal vastness, or ponderous characteristics of physical features, emotional states, or abstract philosophical and intellectual perspectives. The metaphors include euphemisms and the model or design names of commercial products or commercial venues. Many metaphors are tortuous attempts at simile, or the occasional offensive comment; but a few of the offensive ones are so sophomorically egregious that they are omitted from this collection, lacking even a liberal definition of literary merit. Also not included in the collection are references to “Grand Canyon” that borrow upon Arizona’s promotional name, “Grand Canyon State”, for example, Grand Canyon University, Grand Canyon Council, Grand Canyon Chapter, or as associated with the names of clubs and organizations. Also omitted are declarative nomenclature such as street names or facilities (for example, Grand Canyon Avenue or The Grand Canyon Room).

Neological constructs include contrived words or phrases that embrace or are rooted in “Grand Canyon”, but which are not analogies or metaphors. Also neological constructs are United States Trademarks that list products and services, registered with the United States Patent and Trademark Office, that utilizing the phrase “Grand Canyon” in their registered names.

GO TO: Analogies Metaphors Neological Constructs Trademarks

1 Arizona Office of Tourism, "Arizona—The Official Grand Canyon State", www.facebook.com/arizonatravel (accessed 19 October 2011); cited here for its designating Arizona as “the official Grand Canyon State”, with inference thus that the Grand Canyon of Arizona is the “official” Grand Canyon.
**ANALOGIES**

*defined*

*Descriptive phrases are quoted or paraphrased to accommodate alphabetization*

A diminutive Grand Canyon
A face like the Grand Canyon from the air
A giant Grand Canyon like thing
A gorge as highly colored as the Grand Canyon
[A] Grand Canyon in miniature [Crotan Breaks, Texas; Badlands of South Dakota]
A Grand Canyon in miniature [Walnut Canyon, Arizona]
A Grand Canyon of a smaller size
A Grand Canyon of death rather than a valley of death
A Grand Canyon of its own
A Grand Canyon of sorts
A Grand Canyon of them [quantity]
[A] Grand Canyon type mountain [skyline in a scenic panorama viewed from a water surface]
A Grand Canyon under the sea [Sable Gully, Sable Island, Nova Scotia; submarine]
A Grand Canyon with a cool river [Cirque de Navacelles, Languedoc, France]
A kind of invisible Grand Canyon on the ocean floor
A kind of underwater Grand Canyon [Hudson Canyon; submarine]
A lesser Grand Canyon [Grand Canyon of the Yellowstone]
[The] limestone Grand Canyon [original French: *du grand cañon calcaire!*
A little Grand Canyon [Oak Creek Canyon, Arizona]
A metaphorical Grand Canyon
A microscopic Grand Canyon
A miniature subterranean Grand Canyon
A really lame Grand Canyon wannabe
A shallow Grand Canyon
A shallow Grand Canyon of South Dakota [Badlands]
A small, three-dimensional model of the Grand Canyon—inverted
A sort of Grand Canyon of Colorado [sic]
A subterranean Grand Canyon
A truly Grand Canyon [Ithaca Chasma; on Tethys, a moon of Saturn]
A two-dimensional Grand Canyon [aircraft runway]
Akin to calling the Grand Canyon a hole
An accident of chaos like the Grand Canyon
An underwater Grand Canyon
Appearance of the bottom suggested [this as a] process for the production of small-scale models of the Grand Cañon of Colorado [sic], inaccurate in detail, but faithful to the spirit [acid open-hearth manipulation in steel making]
Arizona [is] the country of the Grand Canyon, the wonderland of the South [sic]
As great as the Grand Canyon [impression]
As hollow as the Grand Canyon
As if peering into the Grand Canyon for the first time [expression of awe]
As receptive as the Grand Canyon [personality]

[A gunnery] barrage is like the Grand Canyon—it can’t be described
Better than the Grand Canyon [a woman describing her vagina]
The Bible actually is like the Grand Canyon in some ways
[A man physically] big enough to be classed with such scenic wonders as the Grand Canyon
The brain’s version of the Grand Canyon [left sylvian fissure]

The cockpit of the Basic-Trainer looks like the Grand Canyon full of alarm clocks
The chasm indicated by the footlights, between the orchestra and the stage itself, is as deep and as wide as the Grand Canyon
Cleavage gaped like a Grand Canyon on the surface of some fleshy world
Colorado River was playing the Grand Canyon like a fiddler plays a fiddle
Conceptual Grand Canyon
Cybernetic Grand Canyon

Enough holes to make a copy of the Grand Canyon
The even Grander Canyon [view from the Hualapai Skywalk]
Extravehicular activity in space [space walk] like flying through the Grand Canyon as a bird

The feeling of being a little molecule at the bottom of a galactic Grand Canyon
Fissures appear to be the size of the Grand Canyon under the Scanning Electron Microscope  
[A] Floating Grand Canyon. It was like a sky version of the Grand Canyon forming right in front of us  
[break in fog, seen aerially]

Gap between family-planning policy and fulfillment that makes the Grand Canyon look like a Texas creek  
Gigantic columns towering aloft like the awful battlements of the grand canyon of Arizona  
[marble structures in Washington, D.C.]  
The gloomy grandeur of a great Pessimist is like the twilight of the Canyon of the Colorado

**Grand Canyon**  
[grass cultivar of the genus *Hosta*, Family Liliaceae]  
[A] Grand Canyon analogy  
Grand Canyon as Buckingham Palace, representing source of unique American art, character, and culture  
Grand Canyon  
[Finnish style of interior design]  
Grand Canyon (Death Canyon)  
[roller coaster (design only)]  
Grand Canyon East  
[Radio City Music Hall, New York City]  
Grand Canyon effect  
The Grand Canyon is like a cliff  
[A] grand canyon like a mini canyon  
Grand Canyon in character  
[A] Grand Canyon’d push  
Grand Canyon-like abyss  
Grand Canyon-like appearance  
Grand Canyon-like area  
Grand Canyon-like atmosphere  
Grand Canyon-like background  
[imagery]  
Grand Canyon-like beauty  
Grand Canyon-like canyon  
Grand Canyon-like chasm  
[ideological separation]  
Grand Canyon-like chasm  
[physical]  
Grand Canyon-like cirque  
Grand Canyon-like crater  
Grand Canyon-like creation  
Grand Canyon-like crevasse  
Grand Canyon-like distance  
Grand Canyon-like divide  
Grand Canyon-like drop off
Grand Canyon-like effect
Grand Canyon-like environment
Grand Canyon-like environment in outer space
Grand Canyon-like equivalent [a comparison of canyons]
Grand Canyon-like expanse
Grand Canyon-like experience
Grand Canyon-like feel
Grand Canyon-like floor
Grand Canyon-like formation
Grand Canyon-like gap [ideological separation]
Grand Canyon-like gap [physical]
Grand Canyon-like gash
Grand Canyon-like generational divide
Grand Canyon-like gorge
Grand Canyon-like gulf [ideological separation]
Grand Canyon-like gulf [physical]
Grand Canyon-like hole
Grand Canyon-like landscape
Grand Canyon-like leap [of time]
Grand Canyon-like leap [conceptual, separating two events]
Grand Canyon-like leap [ideological separation]
Grand Canyon-like length
Grand Canyon-like "Lost Valley"
Grand Canyon-like margin [time]
Grand Canyon-like memory picture
Grand Canyon-like mining operation
Grand Canyon-like opening
Grand Canyon-like park
Grand Canyon-like piece of terrain
Grand Canyon-like potential landscape
Grand Canyon-like river
[A] Grand Canyon-like rock
Grand Canyon-like rock formations
Grand Canyon-like sandstone mountain landscape
Grand Canyon-like scar
Grand Canyon-like scene
Grand Canyon-like section
Grand Canyon-like site
Grand Canyon-like skin break
Grand Canyon-like span
Grand Canyon-like spread
Grand Canyon-like surprise
Grand Canyon-like surrounding
Grand Canyon-like texture
Grand Canyon-like valley
Grand Canyon-like view
Grand Canyon-like vista
Grand Canyon-like void
Grand Canyon-like wall
Grand Canyon-like window of opportunity
Grand Canyon of Art [art project]
Grand Canyon red [a natural color]
Grand Canyon ring around one’s hair [as caused by a hat band]
Grand Canyon scale
Grand Canyon shape
The Grand Canyon, the stereotype of what a canyon’s supposed to look like
Grand Canyon-type landscape
Grand Canyon type pectus excavatum [medical terminology, extreme eccentric canal type]
Grand Canyon views [not at Grand Canyon]
Grand Canyon with a roof over it [Carlsbad Caverns]
[a] Grand Canyon with water [Lake Powell]
[The] Grand Canyon with water in it ["Lake Powell in California", "where six states corner" (sic!)]

Grand Canyonee
Grand Canyoney
Grand Canyonish
Grand-Canyonized
[a] Grand Canyonly insurmountable loss
Grand Canony
Grand Ravine [World War I, map feature that “gave grave concern . . . [to those] who coupled it in their minds with the Grand Cañon of Colorado” (sic)]

His home office resembled the Grand Canyon, with a single, narrow path through the four-foot piles of books to his desk

I will beat him like a rented mule at the Grand Canyon [fishing contest] [with an internal metaphor!]

Imagine the Grand Canyon in a rain forest

Inspired by the silhouette of the Grand Canyon [style of hold for use on wooden climbing walls]

Internal Grand Canyon

[A] kind of invisible Grand Canyon on the ocean floor [Monterey Canyon, coastal California]

Land broken up with regular Grand Canyon effects
The land of my childhood is a Grand Canyon
Landing a satellite on an asteroid “likened to landing a jumbo jet in a moving Grand Canyon”
Like a green Grand Canyon on a smaller scale [Pico Grande, Madeira]
Like a Grand Canyon of Arizona [Great Rift Valley, Africa]
Like a Grand-Canyon-y of some sort
Like a mini submarine Grand Canyon
Like a miniature Grand Canyon, the written Constitution [of the United States] exposes America’s colorful history
Like a pebble resting within the great expanse of the Grand Canyon
Like a shallow Grand Canyon
Like a small Grand Canyon [numerous examples of geographic comparison and analogy]
Like an inverse Grand Canyon [Ayers Rock, Australia]
Like being in the Grand Canyon—height-wise
Like dropping a pebble into the Grand Canyon
Like hiking in an uncharted part of the Grand Canyon [emotional separation]
Like looking down into the Grand Canyon from the El Tovar balcony
Like passing through the Grand Canyon of Colorado [sic]  [stock yard of a paving-brick plant]
Like swimming through a narrow Grand Canyon
Like the Grand Canyon filled with thick jungle
Like the Grand Canyon flooded [analogy for Sable Gully (or The Gully), submarine feature off Nova Scotia]
Like the Grand Canyon: it doesn’t matter if you love it or you hate it, it’s a huge landmark that you can’t pretend doesn’t exist
Like the Grand Canyon of San Diego [analogy for El Capitan Open Space Preserve]
[Like] the Grand Canyon under the earth [Skocianske Jame, cave in Slovenia]
Like the Grand Canyon underwater
Like the legendary “subterranean grand canyon” [putative UFO base]
Like walking around the Grand Canyon [construction excavation]
[making something small] Look like the Grand Canyon [technological enhancement; example is scanning electron microscope]
Look[s] like a crack in the pavement or the entrance to the Grand Canyon [perspective]

“‘mini grand canyon’ like holes”  [coal strip mines in Queensland, Australia]
[A] miniature Grand Canyon  [Verde Valley, Arizona]

nano-Grand-Canyon-like structure [single-electron shut-off transistor technology]
New Mexico’s version of the Grand Canyon [Rio Grande Gorge]
Not unlike admiring the Grand Canyon while gazing through a straw
Noumes, New Caledonia, like a bit of Paris with the Grand Canyon for a background

Open like the Grand Canyon

The PhD experience feels like the Grand Canyon [an analogy to hiking down and up the Grand Canyon]
[A] pocket-sized Grand Canyon [Colorado National Monument]
Progress in health education about as rapid as erosion of the Grand Canyon

Query of Grand Canyon-size

Radio bandwidth is a national resource not unlike the Grand Canyon
Seeing the future of family medicine in the U.S. and Canada is like seeing the Grand Canyon in a snowstorm
[A] slightly-more-shallow Grand Canyon [Lake Havasu]
Snow drifts like driving between the walls of the Grand Canyon
Some kind of Grand Canyon but filled with water
[A] sort of Grand Canyon of Colorado [sic]
Sound like the Grand Canyon [snare drum]
[His] spiritual landscape was like the grand canon of the Colorado, with its heights and depths of God’s verities

[A] veritable Grand Canyon cliff of modern hotels [shorefront in Atlantic City, New Jersey]

Wintry version of the Grand Canyon
METAPHORS, euphemisms, and similes

see also the section on United States Trademarks

Leading articles "a", "an", and "the" are retained only when they are needed for improved grammatical clarity, but are not alphabetized. Descriptive phrases are quoted or paraphrased

Abstraction grand canyon [humorous metaphor for the "abstraction gap" between application refining and its mapping; in digital-chip design and manufacturing]
[An] act of God, like the Grand Canyon
[An] actuarial Grand Canyon
The alternative Grand Canyon [Grand Canyon West, Hualapai Indian Reservation]
"Alps in Quality, Grand Canyon in Price"
America's emotional Grand Canyon
American "Grand Canyon" standard [noise reduction regulation for helicopters]
[An] arctic Grand Canyon [cold Sabzak Pass, Afghanistan]
Arizona’s Grand Canyon, nature’s three-dimensional museum
Arrogance enough to fill the Grand Canyon
As black and deep as the Grand Canyon [the "black chasm between war and peace"]
As deep as the Grand Canyon
As empty as the Grand Canyon
As one looks over the wooden parapets on Fourth Avenue down into the Grand Canyon of the Colorado at Union Square

[A] barrier raised between people as impassable as a canyon of the Colorado
Barry Goldwater as Grand Canyon
Bass [sound] that can fill up the Grand Canyon
[A] "Big Dig" [Grand Canyon analogy to the “Big Dig” highway construction project in Boston, Massachusetts]
Biological Grand Canyon of North America [Sky Islands region of Arizona]
[A] blank wall as thick as the Grand Canyon [refering to an individual’s personality]
Brooklyn's answer to the Grand Canyon [highway pothole]
Café Grand Canyon [Nazareth, Belgium]
(Grand Canyon as a/the) canyon of canyons
(Grand Canyon as a) canyon of canyons of canyons
Child actors’ heads can get bigger than the Grand Canyon
Choruses [sound] large enough to fill the Grand Canyon
Christian Grand Canyon [Creationist interpretation of Grand Canyon genesis]
[As] completely isolated from a place as though the Grand Canyon lay between
Conceptual Grand Canyon [capitalized; metaphorical gap between two concepts]
[A] concrete and glass Grand Canyon of buildings
Confidence [enough] to fill up the Grand Canyon
The connoisseur’s Grand Canyon [North Rim of the Grand Canyon of the Colorado River]
Corruption [enough] to fill up the Grand Canyon
[Grand Canyon as the] cosmic vagina of our planet
Crack in her voice the size of the Grand Canyon
[Has] created a canyon of the Colorado
Credibility gap as wide as the Grand Canyon
Crimp into the plans about as big as the Grand Canyon
Crossing the Grand Canyon in two leaps [academic policy]

Delusions of grandeur big enough to fill the Grand Canyon
Difference between expectation and fulfillment is as wide as the Grand Canyon
[A] Digest of the American Grand Canyon hanging between sea and sky [Piana, Corsica]
Digital divide becoming the Grand Canyon
Ditch bigger than the Grand Canyon called sin
Dwarf Grand Canyon

Eastern version of the Grand Canyon [Delaware Water Gap, New Jersey-Pennsylvania]
Editorial and ethical Grand Canyon
Electric Grand Canyon [microelectronics]
Emotional Grand Canyon
Enough chutzpah to fill the Grand Canyon
Equatorial Grand Canyon [economics]
[An] Experience comparable in sound to the wondrous sight of the Grand Canyon [Philadelphia Orchestra]
Fissures appear to be the size of the Grand Canyon under the Scanning Electron Microscope

[A] galactic Grand Canyon of difference
Gap between [ages] 40 and 50 is like the Grand Canyon.
[A] giant Grand Canyon
Gran Cañon Baja Bush Snapdragon [horticultural variety]
Grand Butter Pecanyon [ice cream theme flavor, Shamrock Farms dairy, Flagstaff, Arizona]

[A or the] Grand Canyon [metaphor for a large physical gap]
[A or the] Grand Canyon [metaphor for an impasse or obstacle between opposing viewpoints, or an ideological separation]
“Le Grand Canyon” [19th century men’s collar style; satirical]  [NOTE: “Le Grand Canon” is also a family name.]
Grand Canyon [amusement machine]
Grand Canyon [artificial masonry style]
Grand Canyon [beauty treatment style]
Grand Canyon [bicycle model]
Grand Canyon [boat model]
Grand Canyon [burger style]
Grand Canyon [ceramic tile model]
Grand Canyon [children’s recreational equipment model]
Grand Canyon [condominium model]
Grand Canyon [cultivar (green bean)]
Grand Canyon [fireworks product]
Grand Canyon [glass tile model]
Grand Canyon [home building model]
Grand Canyon [human chest wall deformity (pectus excavatum)]
Grand Canyon [ink color]
Grand Canyon [laminated flooring style]
Grand Canyon [leather finishing style]
Grand Canyon [linoleum flooring style]
Grand Canyon [mattress model]
Grand Canyon [metal-roofing color]
The Grand Canyon [menu item]
Grand Canyon [middle-class America]
Grand Canyon [motorcycle model]
Grand Canyon [paint color]
Grand Canyon [pedometer model]
Grand Canyon [playground equipment]
Grand Canyon [porcelain tile style]
Grand Canyon [race identity]
Grand Canyon [recliner–rocker model]
Grand Canyon [recreational vehicle model]
Grand Canyon [roofing shingle model]
Grand Canyon [rug style]
Grand Canyon [tent model]
Grand Canyon [typographical font family]
Grand Canyon [wall mantel model of electrical faux fireplace]
Grand Canyon: A gorge that separates science from ideology
Grand Canyon across eternity
Grand Canyon and aloneness
Grand Canyon and curriculum theory
Grand Canyon and literacy
[The] Grand Canyon approach to art-making and showing [depersonalization; spaces one would never live in]
Grand Canyon as a canyon of sin and death [spiritual divide]
Grand Canyon as a chasm between Congress and the White House
Grand Canyon as a metaphor for a career
Grand Canyon as a metaphor for deep divisions separating metropolitan communities
Grand Canyon as a metaphor for slow cutting of sorrow
Grand Canyon as a miniature history of the earth
Grand Canyon as an architectural style
Grand Canyon as an eternal spiritual divide
Grand Canyon as God’s Las Vegas [as graphical display]
Grand Canyon behavior [in mathematical functions]
Grand Canyon between available knowledge and implementation of that knowledge
Grand Canyon between personalities
Grand Canyon between secularists
[A] Grand Canyon break [size]
[A] Grand Canyon called "sin" and "death"
Grand Canyon Castle Rock [masonry product]
[The] Grand Canyon center field [Yankee Stadium]
Grand Canyon center of gravity deep
[A] Grand Canyon chasm [between generations]
Grand Canyon Cheesecake [“bigger than huge serving”]
[A] Grand Canyon cliff of modern hotels
Grand Canyon crackle finish [design element]
Grand Canyon depth
Grand Canyon Displays [monitor product series]
Grand Canyon effect [body sway, inversely related to the distance of visual targets]
Grand Canyon effect [occulation in global-positioning coverage]
Grand Canyon ego
Grand Canyon filled with water
Grand Canyon for bibliophiles [Long Room in Old Library, Trinity College, Dublin]
Grand Canyon for life [for living things]
Grand Canyon for potential profit
Grand Canyon for Southern Arizona
[A] Grand Canyon gash in the whole intellectual structure of the world [World War I]
Grand Canyon glass [in manufactured door]
Grand Canyon golf courses
Grand Canyon illustrating man's separation from God because of sin
[A] Grand Canyon in a cloudbank
[A] Grand Canyon in left-center field [baseball]
[A] Grand Canyon in verdant miniature [Black River Gorge, Mauritius]
Grand Canyon inside of a tree [termite-eaten tree]
Grand Canyon is the Disney World of national parks
Grand Canyon level [as in an “all-time high”]
Grand Canyon-level echoes
[A] Grand Canyon made of aluminum oxide [product of nanotechnology]
Grand Canyon metaphor
Grand Canyon mitten [clothing style]
Grand Canyon minus the tourism
Grand Canyon of “deep valley” beds
Grand Canyon of a ballpark [Forbes Field, Pittsburgh]
Grand Canyon of a blank spot
Grand Canyon of a bump
Grand Canyon of a chance

[A] Grand Canyon of dangerous chemicals
Grand Canyon of a detective story
[A] Grand Canyon of difference
Grand Canyon of a dip
Grand Canyon of a distance
Grand Canyon of a field
Grand Canyon of a gap
Grand Canyon of a home
[A] grand canyon of a living room
[A] grand canyon of a measure
Grand Canyon of a mistake
Grand Canyon of a mouth
Grand Canyon of a murky chasm [between having and wanting to do something]
Grand Canyon of a new manhood
Grand Canyon of a problem
Grand Canyon of a rut
[A] Grand Canyon of a score [music]
Grand Canyon of a smile
Grand Canyon of a space [specifically, parking space]
Grand Canyon of a split
Grand Canyon of a stretch [conceptual, as in imagination]
Grand Canyon of a trade gap
Grand Canyon of a tunnel
Grand Canyon of a voice
Grand Canyon of Acoustics [The Superspeaker [electronic product], Jewett Radio and Phonograph Co.]
Grand Canyon of adult education research
Grand Canyon of all actors [Jack Nicholson]
Grand Canyon of all cracks
Grand Canyon of all dive sites [AuAu Crater, Hawaii; submarine]
Grand Canyon of all divides [religion]  
Grand Canyon of all fissures [metaphorical weakness]  
Grand Canyon of all holes [predicament]  
Grand Canyon of all schisms  
Grand Canyon of all suppositions  
Grand Canyon of American capitalism [Pittsburgh area]  
Grand Canyon of American heritage [Potomac Heritage National Scenic Trail]  
Grand Canyon of American history and culture [Potomac River]  
Grand Canyon of American life [gap between wealth and workers]  
Grand Canyon of American music [singer Johnny Cash]  
Grand Canyon of American politics [gender gap]  
Grand Canyon of American Sounds [Long Island Sound]  
Grand Canyon of an abyss [difference between rhetoric and reality]  
Grand Canyon of an age gap  
Grand Canyon of an obvious response  
Grand Canyon of an open pit mine  
Grand Canyon of an outfield  
Grand Canyon of animal suffering  
Grand Canyon of apathy  
Grand Canyon of armor power [Fort Hood, Texas]  
Grand Canyon of artistic license  
Grand Canyon of bad journalism [Internet news]  
Grand Canyon of bad movies  
Grand Canyon of baseball [Yankee Stadium, New York]  
Grand Canyon of beauty  
Grand Canyon of black-white incomprehension and mistrust [race division]  
Grand Canyon of blazing lights and flickering reputations [Broadway, New York City]  
Grand Canyon of books [book warehouse]  
Grand Canyon of books [library wing]  
Grand Canyon of bookstores  
Grand Canyon of Botswana’s game preserves [Chobe National Park, as a scenic analogy]  
Grand Canyon of bubbles [metaphorical bubbles, as in real estate price rises; a double metaphor]  
Grand Canyon of bureaucratic ineptitude  
Grand Canyon of Calligraphy  
Grand Canyon of Canada [Banff, as an inspirational sight]
Grand Canyon of canyons
grand canyon of canyons [John Muir quotation; in reference to Grand Canyon of Arizona]
Grand Canyon of carbon sequestration [subterranean geological repository for waste carbon dioxide]
Grand Canyon of career-threatening barriers
Grand Canyon of carrot cakes
grand canyon of cash-deficiency and self-confidence void
Grand Canyon of cave diving [Chassahowitzka Wildlife Management Area, Florida]
Grand Canyon of center consoles [automobile feature]
Grand Canyon of change
Grand Canyon of chasms [ideological separation between cultural groups]
Grand Canyon of choices
Grand Canyon of cinema [Cannes, France]
Grand Canyon of cities [Venice]
[A] Grand Canyon of civilization [Hebrew language]
[A] Grand Canyon of cliffs and valleys
Grand Canyon of clear air
Grand Canyon of clock radios
Grand Canyon of clock radios
Grand Canyon of college [as a metaphorical "high point" of experience]
Grand Canyon of color [artwork of Edna Hibel]
Grand Canyon of commerce
Grand Canyon of computer shopping
Grand Canyon of concrete [housing construction project in Penang, Malaysia]
Grand Canyon of consulting skills
Grand Canyon of consumer sentiment
Grand Canyon of Convention
Grand Canyon of creativity and healing
Grand Canyon of crow's feet [skin]
[A] Grand Canyon of cuts [in context referred to a broad space of physical cuts on the body]
Grand Canyon of cyber space
Grand Canyon of death
Grand Canyon of deep pockets [IBM]
Grand Canyon of deep pockets [Microsoft Network Music]
Grand Canyon of depressions
Grand Canyon of depth
Grand Canyon of depth and distance
Grand Canyon of desire
Grand Canyon of devastation
Grand Canyon of differences
Grand Canyon of disbelief
Grand Canyon of disinterest
Grand Canyon of dissatisfaction
Grand Canyon of distance [between things, real or metaphorical]
Grand Canyon of distribution practices and policies
Grand Canyon of ditches
Grand Canyon of doubt
Grand Canyon of economic cost and commitment
Grand Canyon of economic predictions
Grand Canyon of economics
Grand Canyon of emptiness [e.g., morality, failure, spatial, unfulfillment, emotion]
Grand Canyon of empty guesses
Grand Canyon of empty seats
Grand Canyon of environmental differences
Grand Canyon of equity values
Grand Canyon of Eternity
Grand Canyon of evolution [Olduvai Gorge]
Grand Canyon of excuses
Grand Canyon of expertise
Grand Canyon of Fail [metaphorical canyon receiving State of Arizona’s expenditures on border fence with Mexico]
Grand Canyon of FASD [Fetal Alcohol Spectrum Disorders information gap]
Grand Canyon of Fear
Grand Canyon of fear and mistrust
Grand Canyon of files
Grand Canyon of fire [Hell]
Grand Canyon of fishing [Big Hook Wilderness Camps, Opasquia Provincial Park, Ontario]
Grand Canyon of flesh
Grand Canyon of Florida [Everglades; ecological considerations]
Grand Canyon of foliage
Grand Canyon of folly
Grand Canyon of France [Jean d’Arc, Joan of Arc]
Grand Canyon of gaps [between things, real or metaphorical]
Grand Canyon of generation gaps
Grand Canyon of genetics
Grand Canyon of gentle lunacy [in guessing how others feel about one’s self]
Grand Canyon of gigs
Grand Canyon of glucose based disabilities [diabetes]
Grand Canyon of God’s genuine real-time concern
Grand Canyon of God’s grace
Grand Canyon of Grand Canyonness [euphemism specifically for the Grand Canyon of Arizona]
Grand Canyon of greatness
Grand Canyon of grief and emptiness
Grand Canyon of gulfs [political bipartisanship]
Grand Canyon of health coverage
Grand Canyon of height and mass [a real estate development]
[A] Grand Canyon of his own [i.e., of mankind’s own creation; in reference to a strip mine]
Grand Canyon of history [2nd–3rd decades of 20th century]
Grand Canyon of history education
Grand Canyon of holes
Grand Canyon of horology [watch]
Grand Canyon of human action [Hong Kong]
Grand Canyon of human creation [i.e., of human construction]
Grand Canyon of human oblivion
grand canyon of humanity
Grand Canyon of humanity
Grand Canyon of hunts
Grand Canyon of Huron County [Ohio] [postulated fate of drainage ditch]
Grand Canyon of ice [Jakobshavn Glacier fjord, Ilulissat, Greenland]
Grand Canyon of ignorance
Grand Canyon of illogic
Grand Canyon of impossibility
Grand Canyon of industry [General Electric machine shop, Schenectady, New York]
Grand Canyon of ineffectiveness and lost opportunity
Grand Canyon of intelligence [schism between the Central Intelligence Agency and the President of the United States]
grand canyon of international icons [advertisements in Times Square]
Grand Canyon of invisibility [purposeful ignorance of something beyond “normalcy”]
Grand Canyon of irony
Grand Canyon of Isaiah [scripture]¹⁰⁵
Grand Canyon of judgement
Grand Canyon of knowledge
Grand Canyon of lack of services
Grand Canyon of lapses
Grand Canyon of leadership voids
Grand Canyon of life [submarine canyon]
Grand Canyon of light
Grand Canyon of literature
Grand Canyon of local [small-region advertising efficiency]
Grand Canyon of longing [love]
Grand Canyon of love
Grand Canyon of lunacy
Grand Canyon of marxism
Grand Canyon of messes
Grand Canyon of metaphysics, the cleavage between Appearance and Reality
Grand Canyon of misery
Grand Canyon of mistrust
Grand Canyon of morality
Grand Canyon of mutual disrespect and mistrust
Grand Canyon of my heart
Grand Canyon of nature places that aren't the Grand Canyon
Grand Canyon of need
Grand Canyon of needs
Grand Canyon of neglect
Grand Canyon of New Mexico [putative government "coverups" of Roswell, NM, UFO information]
Grand Canyon of New York [i.e., Grand Canyon that is New York City]
Grand Canyon of New York City restaurants [Angelica’s Kitchen]
Grand Canyon of ninety million potholes

¹⁰⁵ Ecclesiastical usages such as this have probably been mistakenly respelled from original phrases that pertained to canons, specifically "grand canons", of Biblical writing or teaching. In this context I have also seen, in some older literature, references to "the grand canyon of —" a book or passage in the Bible. When not thus used in the metaphorical sense of "a grand canyon" of separation between philosophical views, etc., the writer should have penned "the grand canon of —", perhaps also believing that all usages of "canon" should be pronounced and spelled "canyon".
grand canyon of oblivion
Grand Canyon of obvious, syrupy hypocrisy
Grand Canyon of Ohio [subtitled reference in song title, Gift Shop]
Grand Canyon of opportunity
Grand Canyon of opposition
Grand Canyon of oral literature
Grand Canyon of originality
Grand Canyon of our historical landscape [American Civil War]
Grand Canyon of our own graves
[A] Grand Canyon of our own making [metaphorical, not physical]
Grand Canyon of overgeneralization
Grand Canyon of overstatement
Grand Canyon of pain
Grand Canyon of Parkinson's disease
Grand Canyon of philosophy that separates two sides [of thought]
Grand Canyon of pitchers' parks [Petco Park, San Diego; baseball stadium]
Grand Canyon of political promises
Grand Canyon of poverty
Grand Canyon of quantum physics
Grand Canyon of recessions
Grand Canyon of red ink
[A] Grand Canyon of Resurrection realities
106
Grand Canyon of the Money Grubbers [Broadway, New York City]
Grand Canyon of the Show [architectural metaphor, exhibit space at Genoa boat show, 1972]
Grand Canyon of rice terraces
Grand Canyon of righteousness
[the] Grand Canyon of rivers [Snake River Canyon, Wyoming]
Grand Canyon of rock formations
Grand Canyon of sand [golf course sand trap]
Grand Canyon of saying nothing

106 Ecclesiastical usages such as this have probably been mistakenly respelled from original phrases that pertained to canons, specifically “grand canons”, of Biblical writing or teaching. In this context I have also seen, in some older literature, references to “the grand canyon of —” a book or passage in the Bible. When not thus used in the metaphorical sense of “a grand canyon” of separation between philosophical views, etc., the writer should have penned “the grand canon of —”, perhaps also believing that all usages of “canon” should be pronounced and spelled “canyon”.

Grand Canyon of science fiction mythology [sublime emptiness]
Grand Canyon of Scripture [various definitions]  
Grand Canyon of Scripture’s sufficiency [Psalm 119]
Grand Canyon of sea kayaking [northeastern Vancouver Island, British Columbia]

Invisible Grand Canyon of ultimate danger [electrical field]
"Istanbul’s grand Kanyon" [engineering/consultation venture in Turkey]

Laying down a few Grand Canyons [as obstacles]
Legal loopholes deeper and more tortuous than the Grand Canyon
Like a miniature Grand Canyon, the written [U.S.] Constitution exposes America’s colorful history to the eye of the ordinary observer
[An] little Grand Canyon of rock formations [Colorado National Monument; metaphorical]
[The] logical Grand Canyon between science and philosophical systems that purport to be based on science
Loopholes the size of Grand Canyon
Los Angeles as a metaphorical Grand Canyon of social and cultural gulfs
[The] lost chances in this fic[tional story] are enough to fill the Grand Canyon
Love endures as the river carves the Grand Canyon
Love is relationship’s Grand Canyon
[A] lunar “grand canyon”

The man has depths of reserve that could fill the Grand Canyon.
Meta-Grand-Canyon waves [i.e., comparing hydraulic river waves to those of Colorado River]
Metaphorical Grand Canyon
[A] metaphysical Grand Canyon
[A] methodological Grand Canyon [seeing things separate that are essentially not otherwise separable]
[A] mini Grand Canyon of rock [Devil’s Chair, Devil’s Punchbowl Park, near Pearblossom, California]
More curves than the Santa Fe Railroad making the Grand Canyon
My Grand Canyon [personal dilemma]
My stomach is the other Grand Canyon

[A] naval as deep as the Grand Canyon
[A] new “Grand Canyon” in New Mexico [conjectural; regarding an accidental nuclear bomb drop, 1958]

[The] object-relational Grand Canyon [in object-oriented programming]
Of a Grand Canyon grandeur
On opposite sides of a philosophical Grand Canyon
Opinion as wide as Grand Canyon
[The] other Grand Canyon: Arizona’s yawning budget chasm
Our Grand Canyon [Nantucket Sound]
Our Grand Canyon [New York Harbor]
Our Grand Canyon [ocean and beaches in northeastern U.S.]
Our Grand Canyon God

[A] pedigree that would reach from here to the Grand Canyon and back [an unusual metaphorical reference to Grand Canyon]
[A] philosophical Grand Canyon [gap between objective and subjective worlds]
Plot holes bigger than the Grand Canyon [writing]
Plot holes [enough] to fill the Grand Canyon
Prompts as wide-open as the Grand Canyon [self-motivation]

The quintessential Grand Canyon [South Rim of the Grand Canyon of the Colorado River]

[A] racial divide as big as the Grand Canyon
Range of material bigger than the Grand Canyon
[A] religious Grand Canyon
Reserves enough to fill a grand canyon [monetary]
[The] Rockies in Grand Canyon colors
Security holes bigger than the Grand Canyon
Shaw Grand Canyon—Thunder River [hardwood plank style]
Slightly better is about the size of the Grand Canyon [sarcasm]
Sludgy guitars playing riffs bigger than the Grand Canyon
[A] smile as wide as the Grand Canyon
[A] smile bigger than the Grand Canyon
Sonic Grand Canyon
[A] sort of mental Grand Canyon [avocational vs. intimate knowledge of something]
Sound huge enough to fill the Grand Canyon
Standing still as a granite cliff above the canyon of the Colorado [a person]
Steel “Grand Canyon” of LaSalle Street [Chicago]
Stream of income big enough to fill the Grand Canyon
[A] super-Grand Canyon

[That] terrible conductivity “Grand Canyon” located at pH 7
The [emotional] grand canyon created by the explosion and fall of the Twin Towers
Times Square as a Grand Canyon
Tom Thumb Grand Canyon
Trade deficit soars to "Grand Canyon" level

[An] unbridgeable Grand Canyon [landlords and tenants]

Vacuum of white guilt as wide as the Grand Canyon [race relations]

NEOLOGICAL CONSTRUCTS

<table>
<thead>
<tr>
<th>Phrase</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grand Cañyon</td>
<td>misspelling of either “canyon” or “cañon”</td>
</tr>
<tr>
<td>grand canyon phile</td>
<td>presumably an attempt to spell “Grand Canyonophile”, “Grandcanyonophile” or similar construct</td>
</tr>
<tr>
<td>Grand Canyoned</td>
<td>to have traveled in the Grand Canyon (in the context seen, specifically to have rafted the Colorado River through Grand Canyon)</td>
</tr>
<tr>
<td>Grand Canyoner</td>
<td>descriptor for a trip to or through the Grand Canyon (as in to do or to go on “a Grand Canyoner”)</td>
</tr>
<tr>
<td>Grand Canyonful</td>
<td>a fanciful, tremendously-sized but ambiguous unit of measure</td>
</tr>
<tr>
<td>Grand Canyoneer</td>
<td>one who hikes or climbs in the Grand Canyon; specifically in the backcountry</td>
</tr>
<tr>
<td>Grand Canyoning</td>
<td>descriptor for an extreme form of river running, without boats but using body protection (in the example seen occurred not in the Grand Canyon but the name was applied to the act)</td>
</tr>
<tr>
<td>Grand Canyoning</td>
<td>descriptor for visiting the Grand Canyon</td>
</tr>
<tr>
<td>Grand Canyonist</td>
<td>a pseudonymous author’s identifier; known from at least one individual who posted material to the web</td>
</tr>
<tr>
<td>Grand Canyonly</td>
<td>used as an adjective; used in this compound sense to express largeness of scale, whether physical or metaphorical</td>
</tr>
<tr>
<td>Grand Canyononhobe</td>
<td>one who fears or avoids visiting the Grand Canyon</td>
</tr>
<tr>
<td>grand canyons</td>
<td>noun, plural; in this compound sense a descriptor for numbers of large canyons, large gorges, etc. (for example, “these grand canyons”)</td>
</tr>
<tr>
<td>Grandcanyoniana</td>
<td>ephemera and intellectual accumulata relating to the Grand Canyon</td>
</tr>
</tbody>
</table>

Also take note of the following constructs that also are analogies or metaphors:

Grand Canyonee
Grand Canyoney
Grand Canyonish
Grand-Canyonized
Grand Canony
Grand Canyony
GrandCanyonesque
g randc anyonesque
g randish canyon
Grandy Canyon

About the Author

Earle Spamer’s original field of study was in geology at Rutgers University in the 1970s. Afterward, he went into publishing, writing about computer technology (before personal computers). In the early ’80s he began a long period of employ in natural history study collections, first at the New Jersey State Museum, then the Academy of Natural Sciences of Philadelphia. Starting in 1986 he was employed at the Academy for 18 years, before that having been for 12 years a student research assistant and volunteer there. While at the Academy he was a collection manager in several departments—invertebrate paleontology, paleobotany, mineralogy, general modern invertebrates (excluding mollusks, insects and arachnids), malacology (mollusks), diatoms, and botany, while also doing pro bono work in vertebrate paleontology, publishing papers and monographs in all of these fields. Concurrently he was managing editor of the Scientific Publications branch of the Academy for seven years, which publishes the the oldest uninterrupted series of natural history journals in America, begun in 1812. His last five years at the Academy was as its archivist. On leaving the Academy in 2005 he was appointed as a research associate.

Following two visits to the Grand Canyon in 1974 that included his first Grand Canyon hikes, Spamer began work on a bibliography of the canyon and the lower Colorado River country. In 1981, the Grand Canyon Natural History Association (now the Grand Canyon Association) published the first edition of the bibliography as a part of its new Monographs series of scholarly publications. A second edition appeared in 1990, with a supplement in 1993. In 2000, the bibliography was placed on the Association’s website as a searchable database. In 2012 Spamer privately published the first edition of The Grand Canon, a resurrection of the monographic form of the bibliography but now in digital format. The second edition, now containing 65,000 citations, was produced in 2015.

In 1989, the International Geological Congress convened in Washington, D.C., and offered an ambitious series of field trips across the United States, including two Colorado River trips through Grand Canyon. Spamer’s first river trip was with the IGC. In 1990, he began working as a geology interpreter on yearly summer trips for a Colorado River outfitter, continuing this until 2001. He also participated in two scientific study trips through the canyon, on one of which he prospected for living mollusks, the first such investigation ever to have been done along the Colorado River. In the process, the endangered Kanab ambersnail was discovered at Vasey’s Paradise in Marble Canyon. In 1994, he attended a Penrose Conference sponsored by the Geological Society of America, “From the Inside and the Outside: Interdisciplinary Perspectives on the History of Earth Science”, which for the first time brought geologists and historians together to discuss how each approach research in their overlapping fields. In 2000, Spamer attended a geology symposium at Grand Canyon on “The Colorado River: Origin and Evolution”, the proceedings for which he co-edited with Richard A. Young. In 2012 he received the annual Pioneer Award from the Grand Canyon Historical Association and is a life member of the Grand Canyon Association and the Grand Canyon River Guides.

Since 2005, Spamer has been an archivist at the American Philosophical Society in Philadelphia, an institution founded in 1743 by Benjamin Franklin as an American analogue of the Royal Society (London).
