Society for the Diffusion of Useful Knowledge

- 1852 25.1073 **North America Sheet XV Utah, New Mexico, Texas, California, &c. and the northern states of Mexico.** ("Published under the Superintendence of the Society for Diffusion of Useful Knowledge". "J. & C. Walker Sculp^t")
- Labels include "Gulf of California Discovered in 1534, and called the Sea of Cortes". "R. Colorado" is shown conjecturally between the gulf and the confluence of "Green R." and "R. Grand". Tributaries to the Colorado are, from north to south, "R. Nabajoa" (San Juan River) from the east, "Sevier R." (imaginary, reaching the Colorado from the north, including a dotted-line reach in its mid-course labeled "Probable Course"), "R. Yaquesila" (Little Colorado River, from the east), "Rio Virgin" (from the northwest), "R. S. Maria" (Bill Williams River, from the northeast), and "R. Gila" (from the east). At the confluence of the Colorado and Yaquesila is a point location labeled "Pto. Bucarelli" (Puerto de Bucareli).
- NOTE:* For 1853 ed. see Cox (ITEM NO. 25.1074).

Williams, W. [Williams, Wellington]

WHEAT III:769

- 1852 25.1075 **Map of California, Oregon, New Mexico, Utah &c.**
- INSET ON:** *A new map of the United States. Upon which are delineated its vast works of internal communication, routes across the continents &c. Showing also Canada and the Island of Cuba.* Philadelphia: Lippincott, Grambo and Co.
- "Rio Colorado" shown between head of "Gulf of California" and confluence of "Green River" and "Grand River". Little Colorado River is labeled "Red River". Las Vegas Wash (not labeled) is shown as a tributary to "Rio Virgin".

1853**Case, Tiffany and Company**

- 1853 25.2142 **Map of the United States. Hart^d Published by Case Tiffany & Company 1853.** [Hartford, Connecticut: Case, Tiffany and Co.]
- Within the region of interest here, the map is identical to the 1851 ed.: "Rio Colorado" is drawn roughly between "Gulf of California" and the confluence of "Rio Nabajoa" (San Juan River), which is on the boundary of "Utah Territory" and "Territory of New Mexico". The San Juan is the eastern river of that confluence, into which a stream (not labeled) flows from the north. The western river of the confluence (not labeled) loops northwestward to southwestward and ends at unlabeled highlands in "Utah Territory". "Rio Gila" is shown flowing into the northeastern portion of the gulf, south of the Colorado's entry into the gulf.

Cox, George

WHEAT III:777

- 1853 25.1074 **North America Sheet XV Utah, New Mexico, Texas, California, &c. and the northern states of Mexico.** ("Published under the Superintendence of the Society for Diffusion of Useful Knowledge". "London, George Cox, Jan^y. 1st 1853". "J. & C. Walker Sculp^t")
- Labels include "Gulf of California Discovered in 1534, and called the Sea of Cortes". "R. Colorado" is shown conjecturally between the gulf and the confluence of "Green R." and "R. Grand". Tributaries to the Colorado are, from north to south, "R. Nabajoa" (San Juan River) from the east, "Sevier R." (imaginary, reaching the Colorado from the north, including a dotted-line reach in its mid-course labeled "Probable Course"), "R. Yaquesila" (Little Colorado River, from the east), "Rio Virgin" (from the northwest), "R. S. Maria" (Bill Williams River, from the northeast), and "R. Gila" (from the east). At the confluence of the Colorado and Yaquesila is a point location labeled "P^{to} Bucarelli" (Puerto de Bucareli).

NOTE: For 1852 ed. see Society for the Diffusion of Useful Knowledge (ITEM NO. 25.1073). Only political boundaries vary.

Chapin, William

- 1853 25.1222 **The Western States and Territories.**
INSET ON: *Steel Plates. Chapin's Ornamental Map of the United States with the New Western Possessions.* ("New York, Published by Horace, Thayer & Co. 1853.")
 ► "Lower Cali[ornia]" and "Mexico" are separated by "G. of [California]" (*the names are occluded by an oval ornamental portrait of Millard Fillmore*). "Rio Colorado" is drawn on a nearly north-south course between the head of the gulf and south of the New Mexico-Utah boundary, beyond which it traces a nearly straight northeast-southwest course from headwaters, of which only "Grand R." is labeled. "St. Johns R." (San Juan River) is shown as a relatively minor tributary from the northeast, with its Colorado confluence just north of the territorial boundary. The Little Colorado River is absent(!), although two place names (as missions?) are indicated in the general region, "Jaquestrele" [*sic*] and "Bucaretti" (Puerto de Bucareli). A river (not labeled) reaches the Colorado from the northeast arcing to the southeast, which is the Virgin River. "Mohavo R." [*sic*] is shown as a tributary to the lower Colorado from the northwest. "R. Gila" is shown as a tributary from the east, reaching the Colorado north of the gulf.

De Cordova, J. [De Cordova, Jacob]

- 1853 25.695 **J. De Cordova's map of the State of Texas compiled from the records of the General Land Office of the State by Robert Creuzbaur, Houston. 1853.** ("Engraved by J. M. Atwood, New York.")
 ► An oval **INSET** map portrays the southwestern portion of North America, with the U.S.-Mexico boundary on the Gila River. The "Rio Colorado" is shown generally from the confluence of "Green River" and "Grand River" to "Gulf of California", with tributaries "St. Johns' River" (San Juan River), "Red River" (Little Colorado River), and "R. Virgin".

Disturnell, J. [Disturnell, John]

- 1853 25.688 **New map of California, Oregon, Washington, Utah, and New-Mexico. Compiled from the latest authorities and surveys and engraved by G. Schroeter.** New-York: J. Disturnell.
 ► State and county boundaries are displayed (no counties in the territory of "New Mexico"). The confluence of the "Green River" and "Grand River" embrace a mountainous area labeled "Sierra della Landerna" (about which see also the map by J. H. Colton and Co. (1855, ITEM NO. 25.646) and remarks there), downstream from which is the "Rio Colorado" that enters the head of the Gulf of California. The Grand Canyon region is rather compressed, the Colorado flowing but a short distance between the "Rio Colorado Chiquito" (the confluence of which is distinctively far to the west) and "Rio Virgen", the confluence of which is noticeably farther to the south.
NOTE: "Sierra della Landerna" is a misspelling of Sierra de la Lanterna, regarding which see the [note](#) in the Introduction herein.

Eastman, S.

- 1853 25.1708 **Map of the South western part of New Mexico Compiled from the latest Explorations and drawn by Capt. S. Eastman, U.S.A. 1853.** ("Published by Lippincott, Grambo & Co. Philad^a") ("Illman & Sons")
In: Schoolcraft, Henry R., *Information respecting the history, condition and prospects of the Indian tribes of the United States: collected and prepared under the direction of the Bureau of Indian Affairs, per Act of Congress of March 3d, 1847, by Henry R. Schoolcraft, LL. D. Illustrated by S. Eastman, Capt. U. S. A. Published by*

authority of Congress. Part III. Philadelphia: Lippincott, Grambo and Co. (Ethnological Researches, Respecting the Red Man of America.)

► "Colorado River" is shown between the "Gila R." confluence and the general Grand Canyon region (not labeled), where arrive "Grand R." (the confluence is off the top of the map, but which reflects those portrayals of parallel Green and Grand Rivers both arriving in the Grand Canyon region from the northeast). "Rio de San Juan" arrives from the east-southeast, and, not far downstream from there, "Little Colorado R." arrives from the southeast. "Rio Virgin" is shown as a short tributary to the Colorado, paralleling the Colorado after the Colorado turns to the south before joining it. "Bill Williams Fork" is shown arriving from the east-northeast.

- 1853 25.1709 **Map showing the locations of the Indian tribes within the United States. Compiled and Drawn by Capt^d S. Eastman U.S.A. 1852.** ("Lippincott, Grambo & C^o Phil^a") ("Engr^d by W. Williams Phil^a")

In: Schoolcraft, Henry R., *Information respecting the history, condition and prospects of the Indian tribes of the United States: collected and prepared under the direction of the Bureau of Indian Affairs, per Act of Congress of March 3d, 1847, by Henry R. Schoolcraft, LL. D. Illustrated by S. Eastman, Capt. U. S. A. Published by authority of Congress. Part III.* Philadelphia: Lippincott, Grambo and Co., between pp. 96/97.

► Regarding the base map: "Colorado River" is shown following a course from the confluence of "Green R." and "Grand R." in Utah, following a continuous arc from there south eventually to west-northwest, where it receives a tributary (not labeled) from the northwest that has headwaters in central Utah. Midway along the lower Colorado a tributary (not labeled) arrives from the west-northwest, and "Gila R." from the east. The Colorado approaches the head of the Gulf of California (not labeled) on a southerly course, before arriving from due west at a western prong of the head of the gulf.

Heintzelman, S. P. [Heintzelman, Samuel P.]

WHEAT III:721, V:721 [manuscript map]

- 1853 25.1129 [Report to Major E. D. Townsend, dated Headquarters, Fort Yuma, California, July 15, 1853.]

In: Pierce, Franklin, Indian affairs on the Pacific. Message from the President of the United States, transmitting Report in regard to Indian affairs on the Pacific. February 16, 1857.—Ordered to be printed. *U.S. 34th Congress, 3rd Session, House of Representatives Executive Document 76*, pp. 34-58.

Includes general remarks concerning operations from Fort Yuma and climatological data, but principally concerning Indigenous peoples of the region.

Regarding a **MANUSCRIPT MAP**, Heintzelman (p. 52) notes: "In January, 1851, I descended the Colorado in a small boat to meet the schooner Invincible sent around to try the mouth of the river with a small supply of provisions. From the notes I took, the sketch of the mouth of the river by Lieutenant Derby [see Derby, 1852, **ITEM NO.** 25.803], topographical engineers, and the notes taken by me on our expedition against the Indians in September, 1852, the accompanying sketch of the river for near 250 miles has been made. It is merely a rude reconnoissance, but sufficiently accurate to give an idea of its course for that distance. No railroad can follow its banks." The map is not published in the Congressional report.

Wheat (1959, Volume III, pp. 213, 308; Volume V, p. 373) briefly comments on this manuscript map by Heintzelman, which is in the Emory papers at Yale University. Wheat had originally not found the map for examination and credited (p. 308) Dale Morgan for a brief description of the map (p. 213). In Vol. V (1963, p. 373) Wheat notes he had at last seen the map and catalogs it (in square brackets) as "[Map of the Colorado River from the mouth of the Gila to the Gulf of California, signed S. P. Heintzelman Capt. 2 Infy & Bvt. Major Jan. 1851. Manuscript; 10½ by 16⁹/₁₆ inches.]".

• As a manuscript this would not be cited in this Cartobibliography, but it is important to the history of the Grand Canyon and the Southwest.

Johnson, Edwin F.

WHEAT III:790 [with illustration facing p. 193]

- 1853 25.735 **Map of the proposed northern route for a railroad to the Pacific, by Edwin F. Johnson, C.E. 1853.** ("Lith. of E. C. Kellogg & Co., Hartford, Conn.")
Map includes other proposed railway routes, and the routes of explorers.
▶ "Colorado R." is shown between "Gulf of California" and the confluence of "Green R." and "Grand R."

Mitchell, Samuel Augustus [Sr.]

- 1853 25.690 **A new map of the state of California, the territories of Oregon, Washington, Utah and New Mexico.** Philadelphia: Thomas, Cowperthwaite and Co.
▶ State and county boundaries are displayed. "Rio Colorado" in "New Mexico" flows southward, arcing westward and northwestward to the confluence of "Virgen R." before turning southward to "Gulf of California". The U.S.-Mexico boundary is shown at the Gila River.

Nakajima, Suido [中島水道]

- 1853 25.1288 **圖方國萬球地** [chikyū bankoku hōzu] [Square map of all the countries of the globe]. [No imprint] [Japan], hand-colored woodblock print. [Date Kaei 6.] [In Japanese.]
Title in Japanese orthography from map caption; transliteration and English translation as generally given.
▶ The Gulf of California receives at its head two rivers (labeled); one from the north, the other from the east and north. (The river from the north seems to carry the label, "ルト《《《".)

Radefeld, Hauptmann C.

- 1853 25.1148 **Geognostische Karte der Nord-Amerikanischen Freistaaten 1853. Nach den besten Quellen entworfen. u gezeich. v. Hauptm. C. Radefeld.** Hildburghausen: Stich, Druck und Verlag des Bibliographischen Instituts. [In German and English.]
▶ This is a geological map, but the geology is shown only for portions of the eastern and midwestern United States. The base map is in English, and the names of states and territories are keyed by Roman numerals to a separate table. The map depicts "Rio Colorado" along a more or less straight course between "G. of California" and headwaters (the Green River is not labeled); tributaries are "Grand R.", "Rio Nabajoa" (San Juan River), "Rio Jaquesila" (Little Colorado River), "R. Virgen", "R. S. Maria" (Bill Williams River), and "Rio Gila".

Sitgreaves, L. [Sitgreaves, Lorenzo]

WHEAT III:763 [with illustration facing p. 10]

- 1853 25.916 **Reconnaissance of the Zuñi, Little Colorado and Colorado Rivers. Made in 1851 under the direction of Col. J. J. Abert, Chief of Corps Topographical Engineers by Bvt. Capt. L. Sitgreaves, T. E. Assisted by Lieut. J. G. Parke, T.E. and M! M. H. Kern Drawn by R. H. Kern 1852 Gila River from a reconnaissance by Maj. Emory Topographical Eng^{rs} Colorado River below Camp Yuma from a reconnaissance by Lt Derby Topographical Eng^{rs} Ackerman Lith. 279 Broadway N.Y. Scale: of 10 miles to one inch.**
In: Report of an expedition down the Zuñi and Colorado Rivers. Washington: Robert Armstrong, Public Printer, *U.S. 32nd Congress, 2nd Session, Senate Executive Document 59, Serial 668*, 198 pp. + plates, map.
▶ The lower Colorado is depicted between Ogden's Landing and the coincident confluence of both the "Rio Virgen" and "Yampay Creek"; the Colorado comes from off the the north side of the map to this confluence. *Two states:* in *state 1* the short

north/south reach of the Colorado between the Virgin/Yampay confluence and the top of the map is labeled "Big Cañon"; in *state 2* that reach is labeled "Great Cañon". It is not determined here which state appeared first.

States are not noted by other cartobibliographers. See in Earle Spamer, "Big Canyon, Great Canyon, Grand Canyon: The mysterious evolution of a name", *The Ol' Pioneer* (Grand Canyon Historical Society), Volume 33, no. 1 (Winter 2022), pp. 8-18.

Theuret, D.

- 1853 25.1838 **Sketch showing the route of the New Orleans[,] Opelousas & Great Western Rail Road : J. G. Gibbes chief eng^r.** [New Orleans, Louisiana]: Lithographie agent D. Theuret, 1 sheet, scale 1 inch = 48 miles. ("F. A. Okelomski draftsman"; "Edward Heren, grav. 1853".) [Lithographer's imprint is in French.]
- ▶ The railroad route is sketched in only generally on a map that depicts rivers and the names of Indian tribes. The route crosses the "Rio Colorado" at "S. Pedro" [position of Yuma].

Trask, J. B. [Trask, John B.]

WHEAT III:796

- 1853 25.1305 **Map of the State of California Published by Britton & Rey Lithographers Cor. of Commercial & Montgomery Sts. San Francisco. Drawn & compiled from the most recent Surveys by J. B. Trask.**
- ▶ "Colorado R." is shown without elaboration at the southeastern corner of the map, turning sharply to the west before again turning sharply south to pass off of the map. Just after that last turn is, confusingly, a short river (not labeled) that is a tributary to it from the northwest. Just after the Colorado River comes onto the map, at the great bend from westward to southward course, the "Mohave River" is shown as a tributary from the west (after having divided into two streams before reaching the Colorado); the Mohave is shown with headwater north of "M^l Bernardino", flowing northward before following a long arc to the east, where paralleling it is shown the "Old Spanish trail from Los Angeles to Santa Fe". "Las Vegas R." is shown as a substantial tributary to the Mohave from the northwest, with its confluence not far upstream from the Mohave's confluence with the Colorado. There is no hint of the Virgin River.

1854

Bartlett, John Russell

WHEAT III:798 [with illustration facing p. 240]

- 1854 25.759 **General Map Showing the Countries Explored & Surveyed by the United States and Mexican Boundary Commission in the Years 1850, 51, 52 & 53. Under the direction of John R. Bartlett, U.S. Commissioner.** *In: Personal narrative of explorations and incidents in Texas, New Mexico, California, Sonora, and Chihuahua, connected with the United States and Mexican Boundary Commission, during the years 1850, '51, '52, and '53.* New York and London: D. Appleton and Co., 2 volumes, 506 pp., 624 pp., map. [Map printed by J. H. Colton and Co., New York.]
- ▶ "Rio Colorado" is depicted between "Gulf of California" and confluence of "Green River" and "Grand River". However, the Green and Grand run parallel to each other to the Grand Canyon region below "Little Colorado", where they also straddle a mountainous area; and as such, the Little Colorado River is depicted as a tributary to the Grand River. "Mohave R." is shown as a tributary to the Colorado from the west.
- 1854 25.760 *Personal narrative of explorations and incidents in Texas, New Mexico, California, Sonora, and Chihuahua, connected with the United States and Mexican Boundary Commission, during the years 1850, '51, '52, and '53.* London: George Routledge and

Co., and New York: D. Appleton and Co., 2 volumes, 506 pp., 624 pp., **MAP**. [See Bartlett (1854, **ITEM NO.** 25.759).]

- 1854 25.761 *Personal narrative of explorations and incidents in Texas, New Mexico, California, Sonora, and Chihuahua, connected with the United States and Mexican Boundary Commission, during the years 1850, '51, '52, and '53.* New York: D. Appleton and Co., and London [not indicated], 2 volumes in 1, 506, 624 pp., **MAP**. [See Bartlett (1854, **ITEM NO.** 25.759).]

Colton, J. H. [Colton, Joseph Hutchins]

- 1854 25.649 **Colton's map of the United States of America, the British provinces, Mexico and the West Indies. (Showing the country from the Atlantic to the Pacific Ocean.)** New York: J. H. Colton, 1 sheet.
 ► New Mexico (territory) southern boundary with Mexico shown at the Gila River. "Rio Colorado of the Gulf of California" is drawn in conjecturally in the Grand Canyon region and notes "P^{to}. Bucarelli" (*sic*, Puerto de Bucareli) at the confluence of that river with "R. Yaquisilla" (Little Colorado River). The Green River in Utah is labeled "Rio Colorado", although farther upstream "Green R." and "Yampa River" are confusingly labeled on the same stream.

Corbetta, F.

- 1854 25.2045 **Stati Uniti dell' America Settentrionale. Milano Stabilimento di G. Civelli.** ("P. Bezzera sc.") [**In Italian.**]
In: La geografia a colpo d'occhio : ossia primarie nozioni : geografia-storia e statistica : esposta in 16 tavole. Milano: presso F. Corbetta litografo editore e presso i principali Libraj d'Italia.
 Title-page dated 1853; text page end note dated Ottobre 1854.
 ► "Rio Colorado" is delineated between "Gol^o di California" and the confluence of "Green R" and "Gr Riviera" (Grand River). Its course below that confluence is south-southwestward into the territory of "Nuovo Messico" where it receives on the Utah-New Mexico boundary "S. Giovanni" (San Juan River) from the east, a tributary (not labeled) from the east (Little Colorado River), then arcs from the south to west to the confluence of "Rio Virgen" which comes from the north-northwest, then turns due south to the gulf, receiving enroute "Mohave R." from the west-northwest, "R. S. Maria" (Bill Williams River) from the northeast and "Rio Gila" from the east.
- 1854 25.2320 **America Settentrionale Stabilimento Civelli Gius^{pe} Milano.** ("Paolo Bezzera incise to Scritta".) [**In Italian.**]
In: La geografia a colpo d'occhio : ossia primarie nozioni : geografia-storia e statistica : esposta in 16 tavole. Milano: presso F. Corbetta litografo editore e presso i principali Libraj d'Italia.
 Title-page dated 1853; text page end note dated Ottobre 1854.
 ► "Colorado F." is delineated between "Golfo di California o M. Vermiglio" and unlabeled headwaters in a mountainous area labeled "Gr. Deserto Americano". It follows an irregular course, generally southwest, receiving various tributaries the only ones of which are labeled are "Jasquesila F." (Little Colorado River) from the east and "Gila F." from the east.

Fleming, C. [Flemming, Carl]

- 1854 25.1025 **Vereinigte Staaten von Nord-America.** ("Lith. Druck u. Verlag von C. Fleming in Glogau.") [**In German.**]
 ► "Rio Colorado" is depicted between "Golf von Californien" and the confluence of "Green" and "Grand". Tributaries are "S. John's Fl." (San Juan River), "Rother Fl."

(Little Colorado River), "Virgen", "Mohaves" from the west, "Maria" (Bill Williams River?), and "Rio Gila".

Gyosō, Aiko [靄湖漁叟]

- 1854 25.1111 海外異聞：一名，亞墨利加新話 [Kaigai ibun : ichimei, Amerika shinwa] [*A strange tale from overseas : a new account of America*]. (初太郎口述 [Hatsutarō, narrator].) [Japan]: Seifuen Juō, 5 volumes, [26], [20], [21], [18], [15] woodblock leaves. [In Japanese.]
- Date published as "嘉永甲寅" [Kaei kōin].
- This is the narrative of Hatsutarō, who in 1841 was with a crew of thirteen on a boat that left Hyogo but was stranded at sea by a storm until a Spanish vessel rescued them four months later, which abandoned them at Cabo San Lucas on the southern tip of Baja California. Hatsutarō and the ship's master eventually returned home in 1844 by way of Canton and Zhapu, China (others followed a year later). His account was taken down in manuscript and after ca. 1853 variants were published in at least two venues (this one, and compare Tsurumine, 1855, *ITEM NO.* 25.1112) based on Inoue Shun'yō's 1846 manuscript, *Ameriki shinwa*, which was compiled by Moekawa Bunzō and Sakai Junzō with data added from other sources known to them. The story itself has no bearing on any part of this Cartobibliography, but the illustrations in this volume include a double-page **MAP** of the North Pacific, which shows western North America only in outline, not even with any rivers represented.
- This 1854 publication was reprinted in an English translation, with plates in facsimile; see Bunzō and Junzō (1970, *ITEM NO.* 25.1113). The first modern reprinting of the full text and all illustrations was published by 荒川秀俊 (Araakawa Hidetoshi), *異国漂流記続集 Ikoku hyōryūki zokushū* (Tōkyō: 気象研究所 Kishō Kenkyūjo, pp. 149-209).

- This title is cited here for its map, but also because it should not be confused with Wheat's (1959, Volume III, pp. 164, 326) citation (*WHEAT III:786*) of a "5-Volume work, entitled *Meriken Shinshi* (New Account of America), 108 leaves", published in Edo in 1853; Wheat lists it under "Gyofu", with the map cited as "Complete map of 31 states of the Republican government". The 1853 work cited by Wheat has not been located by Spamer. However, an 1855 production under the same title has been found; see Tsurumine (1855, *ITEM NO.* 25.1112). It is likely that Wheat referred in fact to that work.

Hutawa, Julius

- 1854 25.718 **Map of the United States shewing the principal steamboat routes and projected railroads connecting with St. Louis. Compiled for the Missouri Republican Jan^y 1854. Jul^s Hutawa Lith^r Second St. 49 bet. Pine & Olive Sts. St. Louis Mo.**
- ▶ "Rio Colorado" is drawn generally between the head of the Gulf of California (not labeled) and the confluence of "Green R." and a river (not labeled; presumably the Grand). "Virgin R." is shown as a tributary; "Mohave R." as a tributary from the west at the upper end of the lower Colorado River region; and an unlabeled tributary comes from the east to the Colorado between the Mohave and "Gila R." South of the Colorado is labeled "Aubreys Route", with the notation, "Sandy Hills on each side".

J. H. Colton and Co.

- 1854 25.609 **Map of North America, from the Latest Authorities Showing the Proposed Railroad Routes from the Atlantic to the Pacific Oceans. J. H. Colton & C^o. New York, 1854. for J. Disturnell.** ("Entered according to Act of Congress, in the year 1849, by J. H. Colton, in the Clerks Office of the District Court of the Southern District of New York".)
- ▶ Current boundaries indicated for New Mexico (territory), north of Rio Gila. The railroad routes are casually sketched in. "Rio Colorado" is depicted only

generally, with "Rio Virgin" shown as a tributary from the north-northwest to the middle of the reach of the lower Colorado River.

- 1854 25.1267 **Map of the United States of America, the British provinces, Mexico, the West Indies and Central America, with part of New Granada and Venezuela.** New York: J. H. Colton and Co. (Map drawn by George W. Colton; engraved by John M. Atwood; border designed and engraved by W. S. Barnard.)
- ▶ New Mexico (territory) is drawn to reflect current boundary with Mexico and with the earlier northwestern angle into present-day Nevada. "Rio Colorado" is drawn in conjecturally in the Grand Canyon Region. "Green River" is drawn in from the headwaters to "Rio Colorado" approximately where Kanab Creek meets the Colorado, portrayed on the west side of a mountainous area labeled "S. de La Lanterna" (Kaibab Plateau). "Grand River" is drawn in from headwaters to the confluence of "Rio San Juan" and, farther on, the confluence of "Little Colorado", on the eastern side of the Kaibab. These relationships are not portrayed as such on earlier Colton maps. "Lanterna" may be a misspelling of linterna, Spanish for "lantern".
- NOTE:* Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

Johnson, D. G. [Johnson, D. Griffing] [see also D. G. and A. J. Johnson [firm]]

- 1854 25.1536 **Colton's Illustrated & Embellished Steel Plate Map of the World on Mercator's Projection, Compiled from the latest & most Authentic Sources. Exhibiting the recent Arctic and Antarctic Discoveries & Explorations. Compiled, Drawn & Engraved by D. G. Johnson, Published by J. H. Colton, N^o 86 Cedar St! New York, 1854.** ("Entered according to Act of Congress in the year 1848 by J. H. Colton in the Clerks Office of the District Court for the Southern District of New York.")
- ▶ "Rio Colorado" is depicted between the confluence of "Green R." and "Grand R." and the head of "Gulf of California" that separates "Old California" from "Sonora". It receives "R. St. John" (San Juan River) from the east, "Red R." (Little Colorado River) from the east-southeast, "R. Virgin" from the north, a river (not labeled) from the northwest (presumably the supposed course of the Mohave River), a river (not labeled) from the northeast (Bill Williams River), and "R. Gila" from the east-northeast.

Köhler, A. H.

- 1854 25.1987 **Nord-Amerika und West-Indien. Nach den neuesten Bestimmungun und Reischerichten entworfen und gezeichnet von A. H. Köhler Oberleut. im K. S. Ingen. Corps. Leipzig, 1854. J. C. Hinrichs'sche Buch_und Landkartenhandlung.** ("H. Leutemann sc.") Scale 1:20,000,000. [In German.]
- In:* Stein, C. G. D., *Neuer Atlas der Ganzen Erde für die gehildeten Stände und für Schulen. Siebenundzwanzigste Auflage.* Leipzig: Verlageigentum der J. C. Hinrichs'schen Buch- und Landkartenhandlung.
- This map is the same as that of Köhler (1847, [ITEM NO.](#) 25.1986).
- ▶ The river "Colorado" is depicted between "Meerbusen v. Californien od. das Purpur-Meer" and the confluence of "Zaguananas" (Green River) and "Nabajoa" (San Juan River), in which reach the Colorado flows almost directly to the southwest; en route it receives from the east "Joquesila" (Little Colorado River), from the east and northeast an unlabeled tributary (Bill Williams River), and "Gila" that arrives together with the Colorado at the head of the gulf. Paralleling the Colorado from the latitude of the "Nabajoa" confluence are two rivers that converge at a point where they then flow southward to reach the Colorado; the easterly of these two rivers begins and ends with a solid line, dotted though its middle reach, and the westerly one, which reaches the easterly stream along a dotted line, is suggested by a dotted line to begin at an unlabeled lake, downstream from which the line briefly is made solid where it receives a short, solid-lined tributary from the northeast.

Lange, Henry

- 1854 25.2017 **Nord America.** ("H. Lange's Atlas v. Nord Amerika." "Blatt I.") ("Braunschweig. Verlag v. George Westermann.") ("Lith. Anst. von L. Kraatz in Berlin.") [In German.]
In: Atlas von Nord-Amerika. Nach den neuesten Materialien, mit besonderer Rücksicht auf physikalische Verhältnisse und genauer Angabe der County-Eintheilung, der Eisenbahnen, Canäle, Postrassen und Dampschiffahrt, in 18 Blättern mit erläuterndem Texte herausgegeben von Henry Lange. Braunschweig: Verlag von George Westermann.
 ► The river "Colorado" is delineated reaching the head of "Golf von Californien", with its prominent upstream extension labeled "Verde" (Green River, although the manner in which the labels are written makes it seem as if this entire stream is, ambiguously, the "Colorado Verde"); enroute it receives three unlabeled tributaries, one from the east (San Juan River?), one from the east meeting the Colorado where would be the central Grand Canyon (Little Colorado River, probably), and one from the northwest and north (Virgin River, probably). "Gila" arrives independently at the head of the gulf from the east.
- 1854 25.2197 **Oregon, Californien, Utah, Neu Mexico, etc.** ("H. Lange's Atlas v. Nord Amerika." "Blatt XIII.") ("Braunschweig. Verlag v. George Westermann.") ("Lith. Anst. von L. Kraatz in Berlin.") [In German.]
In: Atlas von Nord-Amerika. Nach den neuesten Materialien, mit besonderer Rücksicht auf physikalische Verhältnisse und genauer Angabe der County-Eintheilung, der Eisenbahnen, Canäle, Postrassen und Dampschiffahrt, in 18 Blättern mit erläuterndem Texte herausgegeben von Henry Lange. Braunschweig: Verlag von George Westermann.
 ► "Rio Colorado" is delineated between the head of "Golf v. Californien" and the confluence of "Green R." and "Grand R." The courses of the lower Green and Grand both, as well as the Colorado between that confluence and the confluence of "Virgen", are delineated by dotted lines. Enroute the Colorado receives "S. Juan" (a solid-lined tributary from the east, along with "Rio de Chelly", a dotted-lined tributary from the southeast with a confluence with the San Juan very tightly against the San Juan's confluence with the Colorado), "Red R." (Little Colorado River, a meager, dotted-lined tributary from the east with its upper extent shown with a solid line). Interestingly, "Rio de Zuñi", actually a tributary to the Little Colorado, is delineated some distance to the south, as a tributary headwater of the Salt River. The upper reach of the Virgin River is labeled "Rio S. Clara". Midway along the south-trending Colorado between the Virgin and the gulf arrives a long, dotted-lined tributary from the northwest and west labeled "Mohave Riv (de las Animas)".

Magnus, Charles

- 1854 25.1323 **Map of the United States of America[,] The British Provinces, Mexico, the West Indies and Central America. Published by Charles Magnus. New York. 1854.**
 ► In the region of interest to this Cartobibliography, this map is identical to the 1850 ed.: "Rio Colorado" is depicted very generally between the head of "Gulf of California" and the confluence of "Green" and "Grand R." (likely mislabeled). South of that confluence, to a (spurious?) tributary coming from the east labeled "Red R.", the main stream is labeled both "Zaguunanas" [sic] and "Rio Colorado". South of there the San Juan River enters from the east, labeled both "Nabajoa" and "S! Juan R." South of there in turn is the tributary "Jaquesito" (Little Colorado River), and a short distance downstream from that point is a place marker labeled "P. Bucarete" (Puerto de Bucareli). The Colorado turns from the Little Colorado to the southwest until receiving "Virgin R." and turning again southward and follows an effectively straight course to the gulf, receiving on the way "R. S. Maria" (Bill Williams River), which comes from the northeast, and "Rio Gila".

Marcy, Randolph B.

WHEAT III:791 [with illustration facing p. 13]

- 1854 25.692 **Map of the country between the frontiers of Arkansas and New Mexico embracing the section explored in 1849.50.51. & 52, by Cap^t R. B. Marcy 5th U.S. Inf^y under orders from the War Department. Also a continuation of the emigrant road from Fort Smith and Fulton down the Valley of the Gila.**

Accompanying: Marcy, Randolph B. (assisted by George B. McClellan), Exploration of the Red River of Louisiana, in the year 1852 . . . with reports on the natural history of the country, and numerous illustrations. *U.S. 33rd Congress, 1st Session, House of Representatives, Executive Document* [no number], 286 pp., plates; and two maps in separate case.

► The text is extralimital to this Cartobibliography. At the western margin of the map is depicted (as copied from Sitgreaves' map [in Sitgreaves, 1853, ITEM NO. 2.5820 in Volume 1/Part B of THE GRAND CANON; see Sitgreaves (CARTOBIBLIOGRAPHY ITEM NO. [25.916](#)) for the map]) "Colorado River" from "Gulf of California" to the confluence of both "Rio Virgen" and "Yampai Creek", beyond which the river extends to the north, labeled "Unexplored". In addition, the entire region north of Sitgreaves' route of 1851 is labeled "Unexplored".

Mitchell, Samuel Augustus [Sr.]

WHEAT III:813 [with illustration as volume frontispiece]

- 1854 25.691 **A new map of the state of California, the territories of Oregon, Washington, Utah and New Mexico.** Philadelphia: Thomas, Cowperthwaite and Co.

► State and county boundaries are displayed. "Rio Colorado" in "New Mexico" flows southward, arcing westward and northwestward to the confluence of "Virgen R." before turning southward to "Gulf of California". The Gadsden border of the U.S.-Mexico boundary is shown.

Monk, Jacob

- 1854 25.1269 **New map of that portion of North America, exhibiting the United States and territories, the Canadas, New Brunswick, Nova Scotia, and Mexico, also, Central America, and the West India Islands. Compiled from the most recent surveys, and authentic sources.** Baltimore, Maryland: Jacob Monk.

► "Rio Colorado" is depicted along a generally curving course between the gulf and the confluence of "Rio Colorado Chiquito", which notably is placed in what is the westernmost Grand Canyon region. "R Virgen" comes from the north, turning southeastward to join the Colorado some distance to the southwest of the Little Colorado. "Green River" is depicted flowing generally from the northeast to join the Colorado in what is the central Grand Canyon region, and paralleling it is the Colorado, labeled farther to the north "Grand River". Between the two, before the confluence of the Green and the Colorado/Grand, is a mountainous area, "Sierra de la Lanterna". "Rio San Juan is a tributary to the Colorado/Grand; the confluence is due east of Sierra de la Lanterna.

NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

Steiger, W. T.

WHEAT III:815

- 1854 25.598 **Diagram of the United States of America, Mexico, the West India Islands and Isthmus of Darien. showing proposed routes of the Pacific rail road and its Branches in connection with the various systems of existing and unfinished rail roads from the Mississippi valley to the Atlantic and Gulf Coasts. By W. T. Steiger, General Land Office. 1854. ("Lith. by A. Hoen & C^o, Baltimore.").**

► The "Rio Colorado" is only generally sketched, without meanders, with a great arc through the area where the Grand Canyon is situated. Except for "R. Gila",

other tributaries are shown but not labeled. The proposed railway along the 35th parallel is sketched in only as a reasonably straight line through the northern part of "New Mexico" (territory) and is there labeled as "Main Track Ms. to Memphis Branch"; it passes close by the Colorado, including passing through the southernmost tip of what later would be the state of Nevada. The 32nd parallel route is drawn in almost as a straight line, labeled "Don Ana Southern Route".

U.S. Surveyor General's Office

- 1854 25.1972 **Map of Public Surveys in California to accompany Report of Surveyor Gen^l. 1854.** (P. S. Duval & C^{os} Steam Lith Press Phila^l.) ("Sen. Ex. No. 1. 2nd Sess. 33^d Cong.") ("Scale 16 Miles to an inch.") ("Surveyor General's Office San Francisco, California Sept. 28th 1854 approved [facsimile signature] John C. Hays U.S. Sur. Gen^l Cal^l.")
 ▶ West of "Fort Yuma" only township and range incompletely delimited.

Williams, W. [Williams, Wellington]

WHEAT III:818

- 1854 25.1715 **Map of California, Oregon, New Mexico, Utah &c. INSET ON: A new map of the United States. Upon which are delineated its vast works of internal communication, routes across the continents &c. Showing also Canada and the Island of Cuba.** Philadelphia: Lippincott, Grambo and Co.
 ▶ "Rio Colorado" shown between head of "Gulf of California" and confluence of "Green River" and "Grand River". Little Colorado River is labeled "Red River". Las Vegas Wash (not labeled) is shown as a tributary to "Rio Virgen".
 Wheat (Vol. III, p. 335) notes, "Inset, same as 1852 Williams [ITEM NO. 25.1075], with same copyright date, but with date in title altered to 1854. Washington is shown, but the Gila remains the southern boundary of the United States. The same 'Remarks' appear."

1855

Anonymous

- NO DATE 25.1713 [Banoku chikyu sankai.] [Woodcut kwaraban map of the world.] [Japan.] [Ca. 1855.] [In Japanese.]
 ▶ Small wood block map with the Americas in particular very peculiarly formed but recognizable. A huge Californian gulf appears with two "tentacle-like" rivers at its head, one from the northeast, the other from the north-northwest. The Japanese orthography has not been translated for this Cartobibliography.
 This map, with further historical notes, was seen online at <https://www.raremaps.com/gallery/detail/55551/map-of-the-world-bankoku-chikyu-sankai-anonymous-kwaraban>; accessed May 10, 2021). Title in Japanese orthography and translation not obtained.
- 1855 25.746 Curious blunders. *In*: The Library [SECTION]. *The Home Circle* (Nashville, Tennessee), 1 (February): 95.
 Credited to *Portland Transcript*.
 ▶ Includes: "America was first presented as a great peninsula of Asia, mixed up and joined with Japan, China, &c. Maps were shown in which China is in the closest neighborhood to Mexico, on which the Great Rio Colorado of California has its source in Siberia, and where the Tartars and their horses and camels are presented about the Rocky Mountains."

- WHEAT IV:820 [with illustration facing p. 25]
- 1855 25.965 **Map of New-Mexico and the territory, acquired by the Gadsden Treaty, also showing the proposed Southern or Texan rail road route.** *Geographical and Commercial Gazette* (J. Disturnell, New York), 1(2) (April):.
 Wheat (1960, Volume 4, p. 197) remarks, "This is probably by Gray or Ehrenberg, and the plate has been cut off of a plate of a larger map"
 ► "Rio Colorado" displayed in rather ragged fashion between "G of California" and the confluence of "Green River" and "Grand River", which straddle "Sierra della Landerna" [*sic*]. Seems also to display "Rio Colorado Chiquito" flowing westward to a confluence just below this confluence, northwest of "San-Francisco" (San Francisco Peaks). Southwest of there is the confluence of "Rio Virgen", which is shown coming from the north before turning southeastwardly to a confluence with the Colorado.
NOTE: "Sierra della Landerna" is a misspelling of Sierra de la Lanterna, regarding which see the [note](#) in the Introduction herein.
- Bromme, Traugott** WHEAT IV:828
- 1855 25.1021 **Die Staaten und Gebiete der West-Küste.** [In German.]
INSET ON: Post-Kanal- und Eisenbahnkarte der Vereinigten Staaten von Nord-Amerika.  ► Map subject is extralimital to this Cartobibliography, but base map depicts "Rio Colorado" between the confluence of "Green R." and "Grand R." and the head of the Gulf of California (not labeled). The Colorado receives "San Juan R." from the east, then arcs from south to west through what is the Grand Canyon region (otherwise blank), deviating en route once; receives "Rio Virgen" from the northwest and northeast, then turns south to the gulf, with one southwestward reach en route, receiving midway "Mojave R." from the west and northwest and "Rio Gila" from the

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

east. Neither the Little Colorado River nor Bill Williams River are shown. The head of the gulf is depicted as twisting due west, at the end of which the Colorado River arrives from the northeast, where a short tributary(?) is also shown arriving from the northeast.

Gray, Andrew B.

WHEAT III:821* [with illustration facing p. 229], IV:840 [with reference to III:821*]
 [NOTE: Wheat's illustration in Vol. III mislabels the cartobibliography cross-reference as
 "(820*) 1855 Gray, 1"; it should be "(821*) 1855 Gray, 2".]

1855 25.1086 **Map of that portion of the boundary between the United States and Mexico from the Pacific coast to the junction of the Gila and Colorado Rivers, surveyed under the direction of Hon. John B. Weller U. S. Commissioner, and the Rio Gila from near its intersection, with the southern boundary of New Mexico, surveyed under the direction of John R. Bartlett Esq. U.S. Commissioner, All in accordance with the decision of the Joint Commⁿ and conformably to the Treaty of Guad. Hidalgo, Showing also the Limits of the Territory acquired under the Treaty negotiated by the Hon. James Gadsden, U. S. Minister at the City of Mexico, 1854. From Explorations and Surveys made by, and under the direction of Andrew B. Gray as authorized to be added by the Resolution of the U. S. Senate, February 19th 1855. Vide accompanying Report, Senate Ex. Doc. No. 55. 33rd Congress 2nd Session. ("Ackerman Lith. 379 Broadway N. Y.")**

Accompanies: Explanatory report of A. B. Gray of his proceedings while a member of the "United States and Mexican Boundary Commission," appointed to run and mark the boundary line under the treaty of Guadalupe Hidalgo, 1853.

In: McClelland, R[obert]., Report of the Secretary of the Interior, in compliance with A resolution of the Senate, of January 22, communicating a report and map of A. B. Gray, relative to the Mexican boundary. *U.S. 33rd Congress, 2nd Session, Senate Executive Document 55*, 52 pp., maps.

Gray's report is dated "Washington, May, 1853."

► "Rio Colorado" is depicted between "Gulf of California" and "Bill Williams Fork". The head of the gulf includes hydrographic soundings, and a notation along the lower river, "Tide ceases".

J. H. Colton and Co.

1855 25.646 **Map of the United States of America, the British provinces, Mexico, the West Indies and Central America with part of New Granada and Venezuela.** New York: J. H. Colton and Co., 1 sheet. (Map drawn by George W. Colton; engraved by John M. Atwood; border designed and engraved by W. S. Barnard.)

► New Mexico (territory) is drawn to reflect current boundary with Mexico and with the earlier northwestern angle into present-day Nevada. "Rio Colorado" is drawn in conjecturally in the Grand Canyon Region. "Green River" is drawn in from the headwaters to "Rio Colorado" approximately where Kanab Creek meets the Colorado, portrayed on the west side of a mountainous area labeled "S. de La Lanterna" (Kaibab Plateau). "Grand River" is drawn in from headwaters to the confluence of "Rio San Juan" and, farther on, the confluence of "Little Colorado", on the eastern side of the Kaibab. These relationships are not portrayed as such on earlier Colton maps. "Lanterna" may be a misspelling of *linterna*, Spanish for "lantern".

NOTE: "Sierra de la Lanterna" appears in an 1854 gazetteer with geographic coordinates that place it at the location of the Kaibab Plateau; see Baldwin and Thomas (1854, *ITEM NO.* 2.17346 in Volume 1/Part B of *THE GRAND CANON*), p. 1076.

1855 25.737 **Territories of New Mexico and Utah.** New York: J. H. Colton and Co., 1 sheet [undefined atlas sheet, "Nº 51."].

WHEAT IV:832 [with illustration as frontispiece to volume]

► "Rio Colorado" is depicted between the head of the Gulf of California and the confluence of "Green River" and "Grand River". However, the Green and Grand run parallel to each other to the Grand Canyon region below "Rio de Lino Colorado

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

Chiquito", where they also straddle a mountainous area labeled "Sierra de la Lanterna"; and as such, the Little Colorado River is depicted as a tributary to the Grand River with its confluence southeast of the Sierra de Lanterna, though its lower reach is delineated by a dashed line only. In the middle canyon region, "Parke Cr." (apparently Cataract Creek) is drawn between the vicinity of "M[!] Sitgreaves" and the Colorado, delineated by a dashed line.

NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

WHEAT IV:833 [with illustration facing p. 39]

INSET ON: *Nebraska and Kansas.* New York: J. H. Colton and Co., 1 sheet.
 ▶ "Great Colorado River" is shown.

Kiepert, H. [Kiepert, Heinrich]

- 1855 25.682 **Die Vereinigten Staaten von Nord America nebst Canada. Neue berichtigte Ausgabe. [In German.]**
In: Geographisches Institut, *Allgemeiner Hand-Atlas der Erde und des Himmels nach den besten astronomischen Bestimmungen, neuesten Entdeckungen und kritischen Untersuchungen entworfen.* Weimar: Verlag des Geographischen Instituts. Scale 1:8,000,000. ("Beirbeitet und gezeichnet von H. Kiepert." "Situation und Schrift gestochen von C. J. Mädél, Terrain von W. Weiler.")
 ▶ "R. Colorado" extends from "R. Verde (Green R.)" to "Golf v. Californien (Mar Bermejo) d. i. Roches Meer" but is indicated conjecturally by dashed lines in the Grand Canyon region. "R. Verde" extends conjecturally to the Colorado in the canyon region. "Grand R." parallels the Green River and reaches a short "definitively" drawn stream that is a tributary to "R. Colorado Chico [*sic*]"; in turn, the Little Colorado is drawn conjecturally to the Colorado. At "Yuma" is also labeled, "Hattaiki (Casas Grandes)". A trail from Santa Fe to the West Coast by way of Yuma is labeled, "Gewöhnliche Strasse der Aus wanderer."
 For a revision, see Kiepert and Gräf (1865, [ITEM NO.](#) 25.683).
- 1855 25.726 **Mexico[,] Texas und Californien. [In German.]**
In: Geographisches Institut, *Allgemeiner Hand-Atlas der Erde und des Himmels nach den besten astronomischen Bestimmungen, neuesten Entdeckungen und kritischen Untersuchungen entworfen.* Weimar: Verlag des Geographischen Instituts. Scale 1:6,000,000. ("Beirbeitet und gezeichnet von H. Kiepert." "Situation und Schrift gestochen von K. Mädél, Terrain von C. Jungmann.")
 ▶ "Rio Colorado del Occidente" extends from "Golf von California Mar Bermeja d.i. Rothes Meer oder See des Cortez" to a conjectural confluence with "R. Virgen". A dotted line continues the Colorado through the Grand Canyon region to a conjectural

confluence of the "Green R." and "Grand R." En route are noted "R. Jaquesila (Red R.)" and "R. Navajoas (S. Juan)".

Richards, F. D. [Richards, Franklin D.]

WHEAT IV:858 [with two-page illustration between pp. 40/41]

- 1855 25.969 **Utah, and the overland routes to it, from the Missouri River: published with "Route from Liverpool to G.S.L. Valley" by F. D. Richards: Liverpool. 1855.** Liverpool, 1 sheet.
Accompanies: Linforth, James (ed.), *Route from Liverpool to Great Salt Lake Valley : illustrated with steel engravings and wood cuts from sketches made by Frederick Piercy . . .* Liverpool: Franklin D. Richards; and London: Latter-day Saints' Book Depot, 120 pp., plates, map. [F. D. Richards was a Latter-day Saints apostle.]
 ► The base map depicts "R. Colorado" between "G. of California" and "R. Virgen". "R. Green" and "R. Grand" are shown running in parallel into the Grand Canyon region, reaching the Colorado independently, and the Little Colorado River (not labeled) as a tributary to the Grand upstream from the confluence of the Green. The principal focus of the map is Utah, outlined in red, with its counties denoted, and which is shown with its western boundary embracing what today is Nevada with the exception of the lower angle that is on this map a part of "New Mexico".

[Steptoe, Edward J., AND Ingalls, Rufus]

WHEAT IV:868 [with illustration facing p. 28; credited to Steptoe]

- 1855 25.966 **Map Showing the different routes travelled over by the Detachments of the overland Command in the Spring of 1855 from Salt Lake City, Utah to the Bay of San Francisco.** ("Ackerman Lith. 319 Broadway N.Y.").
Accompanying: [Appendix] A 2.
From: Report of the Secretary of War.
In: Message from the President of the United States to the two houses of Congress, at the commencement of the First Session of the Thirty-fourth Congress. *U.S. 34th Congress, 1st Session, Senate Executive Document 1*, pp. 156-168.
 Also published as *House Executive Document 1*.
 ► On the map, "Rio Colorada" [*sic*] is shown between a stylized head of the Gulf of California (not labeled) to the confluence of "Rio Virgen", east of which the Colorado is shown (in the western Grand Canyon area at the eastern edge of the map) vaguely following a *northwestward* route toward that confluence. "Lt. Mowry's Route" is shown between "G.S. Lake City" to "Los Angeles", passing through "Las Vegas". Also shown are desert routes between San Diego and Fort Yuma.
NOTE: Appendices A 1 and A 2 [see *ITEM NOS.* 2.29136, 2.29137 in the *THE GRAND CANON* Volume 1] are often confusingly cited under variations of a single, contrived title that makes this item difficult to locate. For example, Wheat's (Volume IV, pp. 210-211) citation of this map, crediting Steptoe as its creator, indicates, "Published in 'Report of Captain Rufus Ingalls of the march of Colonel Steptoe from Fort Leavenworth to California' . . .", citing pp. 152-168 of the Senate and House Executive Documents. For reference:
 Appendix A 1 is a report to Major General Thomas S. Jesup, dated "Washington City, D. C., November 22, 1855", concerning "the march of Colonel Steptoe's command into the Great Basin of Utah", between Fort Leavenworth, Kansas Territory, and "Great Salt Lake City". Includes brief remarks on the navigability of the Colorado River to "its great bend . . . only 25 miles from Los Vegas [*sic*]" (p. 156).
 Appendix A 2 is a report to Major General Thomas S. Jesup, dated "Benicia, California, August 25, 1855", concerning Ingalls' "duties connected with the overland command of Brevet Lieutenant Colonel E. J. Steptoe", between Fort Leavenworth, Kansas Territory and "Great Salt Lake City". Notes, "Enclosed herewith is a map of the whole region of country lying west of the Wahsatch range of mountains to the Pacific coast, between the 31st and 43d parallels of latitude. This map has been prepared with great care from the best maps and

reports that have been published, and from notes and drawings taken by myself and other officers of Colonel Steptoe's command." (p. 156).

Tsurumine, Shigenobu [*also known under Gyofu, Kaisei (pseudonym)*]

WHEAT III:786

1855 25.1112 [Meriken shinshi.] [Japan]: Shunjitsurō, 5 volumes, woodcut leaves. [In Japanese.]
Catalog data from University of British Columbia Library. Japanese orthography not available for this Cartobibliography.

This is the narrative of Hatsutarō, who in 1841 was with a crew of thirteen on a boat that left Hyogo but was stranded at sea by a storm until a Spanish vessel rescued them four months later, which abandoned them at Cabo San Lucas on the southern tip of Baja California. Hatsutarō and the ship's master eventually returned home in 1844 by way of Canton and Zhapu, China (others followed a year later). His account was taken down in manuscript and after ca. 1853 variants were published in at least two venues (this one, and compare Gyosō, 1854, ITEM NO. 25.1111) based on Inoue Shun'yō's 1846 manuscript, *Ameriki shinwa*, which was compiled by Moekawa Bunzō and Sakai Junzō with data added from other sources known to them. The story itself has no bearing on any part of this Cartobibliography, but the illustrations in this volume include maps of pertinence. (Note that the maps in the 1854 and 1855 works are different.)

- [This title is cited here for its maps. Wheat (1959, Volume III, pp. 164, 326; WHEAT III:786 cites a "5-Volume work, entitled *Meriken Shinshi* (New Account of America), 108 leaves", published in Edo in 1853. He listed it under "Gyofu", with the map cited as "Complete map of 31 states of the Republican government". The imprint cited by Wheat has not been located by Spamer; however, it is likely this 1855 work that was referred to. The 1855 production cited here, under the same title, is in its catalog record attributed to Shigenobu Tsurumine (Volume 1 is accessible at <https://open.library.ubc.ca/collections/tokugawa/items/1.0216590>, through which link the other volumes may also be accessed [accessed 31 March 2020]).

- ▶ Volume 1 of the work in this citation includes a **MAP** of North America (labeled in Japanese orthography and Roman, "KAALT."), which crudely shows the boundaries of American states and, at the head of the Gulf of California, two sketchy rivers that are the Colorado and Gila. Volume 2 includes the **MAP** that Wheat described, which embraces the United States, southern Canada, and northern Mexico (labeled in Japanese orthography and Roman, "NOORDAMERIKA."), which more clearly defines the American states, is profusely labeled (in Japanese), and, at the head of the Gulf of California, two rivers are shown that converge at its head, the more prominent one being the Colorado that extends roughly into headwater areas with sketchy tributaries.

- It is beyond the purposes of this Cartobibliography (and its compiler) to sort out the bibliographical distinctions between these volumes, inasmuch as only the maps are of pertinence here, which clearly are the additions of the Japanese scholars.

U.S. Surveyor General's Office

WHEAT IV:854

1855 25.1705 **B Sketch of Public Surveys in New Mexico to accompany Report of Surveyor General 1855.** ("Surveyor Generals Office, Santa Fe September 30th 1855 W^m Pelham Surveyor General of New Mexico".) ("Sen.Ex.Doc.No.1, 34th Cong: 1st Sess.")

- ▶ Sketch map. "Rio Colorado" is depicted to the New Mexico [Territory]-Sonora boundary. "Green River" and "Grand River" follow essentially parallel courses from the northeast before reaching a confluence in what later is the so-called Nevada angle of northwestern Arizona; along a short south-southwesterly course the Grand receives "Rio San Juan" from the east-northeast. In what is the Grand Canyon region the Colorado follows a southwesterly course along which the Green is met. Not far downstream from that confluence, but still in the far western part of the area, "Rio Colorado Chiquito" arrives from the east-southeast. "Rio Virgen" arrives from the north and northwest not far upstream from "Mohave Villages", which are at the

confluence of "Mohave River" from the west-northwest and "William's Fork" (Bill Williams River) from the northeast. "Rio Gila" meets the lower Colorado from the northeast. Between the Virgin and Williams is a peculiarly sigmoid course of the Colorado, downstream of which the river seems to be too southwesterly in its course.

- 1855 25.1973 **Map of Public Surveys in California to accompany Report of Surveyor Gen^l 1855.** (Lith by A. Hoen & Co Balto".) ("Sen. Ex Doc. N^o1. 34th Cong. 1st Sess.") ("Scale 18 Miles to an inch.") ("Surveyor General's Office San Francisco, California Sept. 30th 1855 approved [facsimile signature] John C. Hays U.S. Sur. Gen^l Cal.")
- ▶ The entire region west of the Colorado River delineated by township and range only; a few scattered areas of topography are added (compare to 1854 map).

Verlag von Leo Woerl [firm]

- NO DATE 25.123 **Vereinigte Staaten von Nordamerika (Westen).** Würzburg: Verlag von Leo Woerl, scale 1:9,770,500, 1 colored sheet. [In German.]
- Accompanying:* Salvator, Erzherzog Ludwig, [1885], *Los Angeles in Südcalfornien : eine Blume aus dem goldnen Lande*, Würzburg and Wien, Verlag von Leo Woerl, 240 pp.

Warren, G. K. [Warren, Gouverneur K.]

- WHEAT IV:870 [with illustration facing p. 24]
- 1855 25.738 **Map of routes for a Pacific railroad compiled to accompany the report of the Hon. Jefferson Davis, Sec. of War in office of P.R.R. Surveys 1855.** [No imprint], 1 sheet, scale 1:6,000,000. ("Lith. of Bien & Sterner 90 Fulton St. N.Y.")
- "Note—This map is a hurried compilation of all the authentic surveys and is designated to exhibit the relations of the different routes to each other. An elaborate map on a scale of 1:3000000 is being compiled and is an advanced state. G.K. Warren L^t Top. Engrs." (See Warren, 1857, ITEM NO. 25.1321, for the larger-scale map.)
- ▶ "Rio Colorado" is generally sketched between the Gulf of California and the confluence of "Green River" and "Grand River".

Whipple, A. W. [Whipple, Amiel Weeks]

- WHEAT IV:873
- 1855 25.1083 **Map. No. 2. Reconnaissance and survey of a railway route from Mississippi River near 35th parallel North Lat to Pacific Ocean made under the direction of the Sec^{ry} of War by Lieut. A. W. Whipple T. Eng. assisted by Lieut J. C. Ives Top Eng. and A. H. Campbell Civ. Eng. 1853-4.** ("Drawn by M. von Hippel".) Scale 1:900,000.
- Accompanies:* Report of the Secretary of War on the Several Pacific Railroad Explorations, U.S. 33rd Congress, 1st Session, House Executive Document 129, Serial 737-739; map accompanies Part III (Serial 739).
- ▶ Topography is drawn in only along the route of travel. "Great Colorado" is depicted between south of the confluence of "Rio Gila" and the northern border of "New Mexico" near the top of the map. In the Grand Canyon region, the river is delimited by a double line labeled "Approximate position of Great Colorado".

Williams, W. [Williams, Wellington]

- 1855 25.1366 **Map of California, Oregon, New Mexico, Utah &c.**
- INSET ON:** *Williams' Commercial Map of the United States and Canada with Railroads, Routes, and Distances.* ("Entered, according to Act of Congress, in the year 1855, by W. Williams, in the Clerks Office of the District Court for the Eastern District of Pennsylvania.")
- ▶ "Rio Colorado" is depicted generally between the head of the "Gulf of California" and the confluence of "Green River" and "Grand River". En route to the gulf it receives "St. John's River" (San Juan River) from the east; "Red River" (Little

Colorado River) from the east; a short tributary (not labeled) in the western Grand Canyon area from the southeast and south; "Rio Virgen" from the northwest; "Mohave River" from the northwest and west; "Santa Maria R." (Bill Williams River) from the northeast; and "Rio Gila" from the east. The "Main Track" is marked across the projected 35th parallel railway route; the "Gila Route" is marked across the projected 32nd parallel railway route.

Williamson, R. S. [Williamson, Robert Stockton]

- 1855 25.1537 **General Map of a Survey in California in connection with examinations for Railroad Routes to the Pacific Ocean made by order of the War Department by Lieut. R. S. Williamson, U.S. Top! Eng^{rs} assisted by Lieut. J. G. Parke, U.S. Top! Eng^{rs} and M^r Isaac Williams Smith, C.E. drawn by Charles Preuss.** ("Lith. of Sarony & C^o N. Y.") ("Note. Proof revised in Office of P.R.R. Surveys Feb. 10th 1855. All copies printed prior to this date contain errors. G. K. Warren Lt. Topl. Eng^{rs} ".) Scale 1:600,000.
- ▶ In the area of "The Colorado Desert" includes the line of a "Practicable Railway Route" from "Fort Yuma" to the northwest. The course of the "Colorado River" is depicted with reasonable accurateness from a point north of Fort Yuma to its mouth.

1856

Bartholomew, John [Bartholomew, John, Jr.]

WHEAT IV:905

- 1856 25.1106 **Western States, including California, Oregon, Utah, Washington, New Mexico, Nebraska, Kansas, Indian Territory &c.** ("Published by A. & C. Black, Edinburgh". "Printed in Colours by Schenck & Macfarlane, Edinburgh." "Drawn & Engraved by J. Bartholomew, Edinburgh".)
- In: Black's atlas of North America. A series of twenty maps constructed and engraved by John Bartholomew, with introductory letter-press and a complete index. Edinburgh: Adam and Charles Black, map 18.*
- ▶ "Rio Colorado" is depicted from south of the international boundary below "Camp Yumas" and the confluence of "Green River Fork of R. Colorado" and "Grand River, Fork of Rio Colorado". The Green and Grand are depicted to flow parallel to each other into the Grand Canyon area, where between them in southernmost Utah is the label "Sierra de la Laterna" [*sic*]. "Rio San Juan" and "Little Colorado R." are shown as tributaries to the Grand in the eastern Grand Canyon area. A tributary (not labeled; Cataract Creek) reaches the Colorado in the mid-canyon area, although the middle part of its course from near "Mt. Sigreaves" and "Mt. Kendricks" is shown by a dotted line. "Ojo del Archillen" and "Mohave R." are shown as tributaries to the Colorado from the west, not far south of the confluence of "Virgin R." (which in turn displays a tributary from the northwest (Muddy River?) labeled as "Ojo del Gaeton".
- NOTE:* Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

Blake, W. P. [Blake, William Phipps]

- 1856 11.17680 **U.S. Coast Survey A. D. Bache Supdt. Map of the Country Between San Diego and the Colorado River[,] California To accompany a report on the Physical Geography and Geology of the Coast By W. P. Blake Esq. Scale 1/1,608,228 1855.**
- From:* Appendix No. 65. Observations on the physical geography and geology of the coast of California, from Bodega bay [*sic*] to San Diego. (Prepared for Prof. A. D. Bache, Superintendent of the United States Coast Survey, by William P. Blake.)
- In:* Bache, A. D. [Alexander Dallas], Report of the Superintendent of the Coast Survey, showing the progress of the survey during the year 1855. Washington, D.C.:

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

A. O. P. Nicholson, Printer, pp. 376-398, maps. (Volume: *U.S. 34th Congress, 1st Session, Senate Executive Document 22 AND House of Representatives Executive Document 6* (Cornelius Wendell, Printer, Washington).)

Includes Colorado Desert and lower Colorado River region; see pp. 382, 396, Map 60. "This Map is copied by permission of the Hon. Jefferson Davis Sec. of War, from the unpublished geological map in the office of the Pacific Rail Road Explorations, prepared to accompany the report on the geology of the expedition under the command of Lieut. R. S. Williamson U. S. Top. Engrs." [Includes lowermost Colorado River region between Fort Yuma and the Gulf of California. Compare map with Blake (1856, ITEM NO. 11.10514).

- 1856 11.10514 **U.S.P.R.R. Explorations & Surveys War Department Geological Map of the Country Between San Diego and the Colorado River[,] California Prepared in Office of P.R.R. Exp & Surveys. By W. P. Blake Scale 1:608228. 1855.**
From: Geological report.
In: Williamson, R. S., *Reports of explorations and surveys, to ascertain the most practicable and economical route for a railroad from the Mississippi River to the Pacific Ocean made under the direction of the Secretary of War, in 1853-5, according to the Acts of Congress of March 3, 1853, May 31, 1854, and August 5, 1854. Volume V. Report of explorations in California for railroad routes, to connect with the routes near the 35th and 32d parallels of north latitude.* Washington, D.C.: A. O. P. Nicholson, Printer, pp. 1-358, plates. (Volume: *U.S. 32nd Congress, 2nd Session, House Executive Document 91.*)
 Geological Report dated 1853, separately paginated part in volume. This part of the volume also includes in its pagination part of the botanical reports of the survey. Map includes lowermost Colorado River region between Fort Yuma and the Gulf of California. Compare map with Blake (1856, ITEM NO. 11.17680).

Cartée, Cornelius S.

- 1856 25.2063 **Map of North America Designed to Illustrate Cartée's Physical & Political Geography.** ("Engraved by G. W. Boynton.") ("Entered according to Act of Congress in the year 1856 by Hickling, Swan & Brown in the Clerks Office of the District Court of Massachusetts.")
In: Cartée, Cornelius S., *A school atlas of physical geography, illustrating, in a series of maps compiled from the celebrated atlases of A. Keith Johnston, and of Milner and Petermann, the elementary facts of geology, hydrology, meteorology, and natural history; and designed to accompany Cartée's "Elements of Physical Geography."* Boston: Hickling, Swan, and Brown, Plate II.
 ► The river "Colorado" is delineated between the head of "Gulf of California" and headwaters in "S. Verde" (Sierra Verde). After a course initially to the southwest it turns to the south-southwest to the confluence of "Nabajoa" (San Juan River) from the east, then arcs nearly to the west, then south-southwest to the confluence of "Virgen" from the northwest, continuing to the postulated confluence (delineated by a dotted line) of an unlabeled tributary from the west) and eventually to the confluence of "Gila" from the east before continuing to the gulf.

De Cordova, J. [De Cordova, Jacob]

- 1856 25.696 **J. De Cordova's map of the State of Texas compiled from the records of the General Land Office of the State by Robert Creuzbaur, revised and corrected by Charles W. Pressler.** New York: J. H. Colton and Co.
 ► A quadrangular **INSET** map portrays the southwestern portion of North America with the border of the Gadsden boundary. "Green R." and "Grand R." are shown parallel to each other with their confluence embracing a small mountainous area. "Rio Colorado" extends to "Gulf of California". Tributaries to the "Grand" are "Rio San Juan" and "Rio de Lino", the latter of which is also labeled "Colorado"

Chiquito". Projected routes of the proposed 35th and 32nd parallel Pacific railroads are also shown.

Desilver, Charles

WHEAT IV:889

1856 25.1240 **A New Map of the United States of America by J. H. Young. Philadelphia Published by Charles Desilver 253 Market S^t** ("Engraved by J. L. Hazzard and E. Yeager".) ("Entered according [sic] to Act of Congress, in the year 1856, by Charles Desilver, in the Clerks Office of the District Court of the Eastern District of Pennsylvania.") Scale 1:8,750,000.

In: Mitchell's new traveller's guide through the United States and Canadas, containing the principal cities and towns alphabetically arranged, together with rail road, steamboat, stage, and canal routes, with tables of places, and distances from place to place. Illustrated by an accurate map of the United States, showing the lines of finished rail roads, and their more important connections. Philadelphia: Charles Desilver.

► "Colorado R." is depicted between the head of the Gulf of California (just off the map) and the eastern part of where the Grand Canyon is situated. There, in the eastern canyon area, is depicted the confluence of "Green R. Fork of the G^t Colorado" and "Grand R. Fork of the G^t Colorado", with "Sierra de la Lanterna" in between them. "Little Colorado R." is shown as a tributary to the "Grand", shortly above the confluence with the "Green". Other tributaries are "R. San Juan" (a tributary to the "Grand"); "Yampai C." shortly above the confluence of "Virgen R."; two minor tributaries (not labeled) from the east and one from the west; "Mohave R." from the west; "Williams' Fork" (Bill Williams River); and "R. Gila". The "Territory of New Mexico" embraces modern day New Mexico (with an extension to the north), Arizona, and southernmost Nevada. Proposed routes of the Pacific Railroad are depicted; the 35th parallel route by way of the "Williams' Fork" (Bill Williams River) to the Colorado.

Compare also the depiction in Desilver's *New Map of the State of California* (1856, ITEM NO. 25.1241).

NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

WHEAT IV:890

1856 25.1241 **A New Map of the State of California, the Territories of Oregon, Washington, Utah & New Mexico.** ("Published by Charles Desilver N^o 253 Market Street, Philadelphia.") ("Entered according to Act of Congress, in the year 1856 by Charles Desilver in the Clerks office of the District Court of the Eastern District of Pennsylvania".) [Map 37 in Mitchell's atlas.]

► The region of interest to this Cartobibliography is completely different from that as depicted in *Mitchell's New Traveller's Guide* (Desilver, 1856, ITEM NO. 25.1240). "Rio Colorado" is depicted between the head of "Gulf of California" and the confluence of "Green R." and "Grand R." north of the San Juan River. It is shown on a north-south course in its lower reach, and follows an arc from north around to northwest in what is the Grand Canyon region. Tributaries are "R. San Juan"; "R. de Chelly" (which normally is depicted on contemporary maps as a tributary to the San Juan); "Red R." (Little Colorado River); a minor tributary (not labeled) from the south in what is the western Grand Canyon region; "Virgen R."; a tributary (not labeled) from the northeast that is the Bill Williams River; and "Rio Gila". The "Southern Route Pacific R.R." is shown in southern "New Mexico" territory, crossing the Colorado north of "F^t Yumas".

Gaston and Johnson [firm]

1856 25.1522 **A New Map of Our Country, Present and Prospective Compiled from Government Surveys and other Reliable Sources. Published by Gaston & Johnson, 115 & 117, Nassau Street, New York, 1856. [Variant.]**

► "Rio Colorado" is depicted between the "Gulf of California" and the confluence of "Green River" and "Grand River", with a great arc through the region where the Grand Canyon is situated. At the confluence of "Rio Jaquesito" (Little Colorado River) is the label, "Bucaretti" (Puerto de Bucareli).

1856 25.999 **A New Map of Our Country, Present and Prospective Compiled from Government Surveys and other Reliable Sources. Published by Gaston & Johnson, 115 & 117 Nassau St. New York 1856.** ("Engr^d by L. Lipman N.Y.", "Dumcke & Keil, N^o 12 Frankfort S^t N.Y.") [*Variant.*]

► "Rio Colorado" is depicted between the Gulf of California [not labeled] and the confluence of "Green River" and "Grand River". At the confluence of "Rio Jaquesito" (Little Colorado River) is the label, "Bucaretti" (Puerto de Bucareli).

Gray, Andrew B.

WHEAT IV:893 [with illustration facing p. 48]

1856 25.970 **Preliminary Map to Accompany Report of A. B. Gray of the Route of the Texas Western Railroad Now Changed to Southern Pacific Railroad Compiled from Explorations by A. B. Gray and Others. 1856.** ("Middleton, Wallace & Co. Lithog^{rs}, Cincinnati Ohio".)
In: Survey of a route for the Southern Pacific R. R., on the 32nd parallel, by A. B. Gray, for the Texas Western R. R. Company. Cincinnati, Ohio: Wrightson and Co.'s ("Railroad Record",) Print., 110 pp., 36 plates, 3 maps.

J. H. Colton and Co.

1856 25.647 **Map of the United States of America, the British provinces, Mexico, the West Indies and Central America with part of New Granada and Venezuela.** New York: J. H. Colton and Co., 1 sheet. (Map drawn by George W. Colton; engraved by John M. Atwood; border designed and engraved by W. S. Barnard.)

Within the region pertinent to this Cartobibliography, this map is the same as the 1855 ed. (see Colton, 1855, **ITEM NO.** 25.646).

Johnston, Alexander Keith [Johnston, Keith]

1856 25.2062 **The River Systems of America, Extended from the Designs of Professor Berghaus; with the addition of detailed maps of some of the principal hydrographical phenomena of the New World by A. K. Johnston, F.R.G.S. Corrected to 1855.**

In: The physical atlas of natural phenomena. A new and enlarged edition. Edinburgh and London: William Blackwood and Sons. [1856.] ("Hydrology N^o 6.") ("Physical Atlas", "Plate 17".) ("Engraved by W. & A. K. Johnston.") ("William Blackwood & Sons, Edinburgh & London.")

► "Colorado" is shown between the head of "Gulf of California" and the confluence of "Green" and "Grande" [*sic*]. The Green and Grand Rivers, except for the upper Green, run closely parallel on southwesterly courses; the Grand turns west to meet the Green, receiving enroute "S. Johns" (San Juan River) from the east. From the confluence, the Colorado arcs from southwest to west to the confluence of "Virgen" from the northwest and north before turning nearly due south until turning south-southeast at the "Gila" confluence from the east), continuing to the gulf. Between the Virgin and Gila, the Colorado receives "Mahave" [*sic*] from the west-northwest and an unlabeled tributary (Bill Williams River) from the northeast. Of special note on this map is the delineation of drainage basins for all principal streams, including the Colorado; the figure 170,000 is presumably the approximated square miles for this basin.

Kiepert, H. [Kiepert, Heinrich]

- 1856 25.2315 **Erdkarte in Mercators Projection bearbeitet von H. Kiepert, gestochen von C. L. Ohmann Berlin, Verlag von D. Reimer, 1856.** 8 sheets. [In German.]
- ▶ "Green R." is delineated on a southeasterly course then southwesterly after the confluence of "Bear R." in "Utah". "R. Grande" (the Grand River, not the Rio Grande of the Gulf of California) parallels the Green from the "Blue R." confluence in Utah, receiving in northernmost "New Mexico" (today's Arizona) "R. Narajoas" (San Juan River) from the east, then turns southwestward a short distance to the "R. de Lino" confluence (Little Colorado River, from the southeast) then turns westward to reach the supposed Green which there is labeled (together with the remaining course of the Colorado River) "R. Colorado (R. Verde)". From the confluence of the Colorado/Verde and Grande the main stream continues westward to the Virgin River confluence (not labeled), turning southward to the gulf, receiving an undetermined (unlabeled) tributary from the east, the Bill Williams River (not labeled) from the north and east, and "R. Gila" from the east-northeast, finally arriving at the end of "Californischer MB."

Levasseur, V. [Levasseur, Victor]

- 1856 25.2058 **Amérique Septentrionale.** ("Atlas Universel Illustré" "Nouveau Continent".) (Géographie et Statistique de V. Levasseur. Ingenieur Géographe.) (Gravé par Laguillermie, rue St. Jacques. N^o 82.) (Imp.^{ie} de Lemercier, Paris.) (Illustré par Raimond Bonheur Peintre".) ("A Paris, chez A. Combette, Editeur, rue de la Parcheminerie, 15.") [In French.]
- In:* Levasseur, V., *Atlas national illustré des 86 départements et des possessions de la France : divisé par arrondissements, cantons et communes avec le tracé de toutes les routes, chemins der fer et canaux.* Paris: A. Combette Editeur.
- ▶ A two-page, highly ornamented atlas sheet with the map centered. "Colorado R." is delineated on a gently arcing course from south to southwest, arriving at the head of "G. de Californie", receiving en route two tributaries (not labeled) from the east. "Gila R." arrives independently at the head of the gulf from the east. Parallel to the Colorado and to its west is an unlabeled river that turns south to arrive independently at the head of the gulf.

Marzolla, Benedetto⁸⁴

- 1856 25.1996 **Carta Generale dell' America Settentrionale.** ("Napoli_1842. Real Litografia Militare. Benedetto Marzolla esegui col pennello sulla pietra.") (The notation "(du Balbi)" also appears at far bottom-right.) [In Italian.]
- Assembled in an atlas without title-page; see footnote for Marzolla.
- ▶ "F. Colorado" is delineated between "G. di California o Mar di Cortes" and headwaters, following an effectively continuous arc from south to southwest, receiving enroute the tributaries "F. Nabajoa" (San Juan River) and "F. Jaqusila" (*sic*, Little Colorado River) from the east; "F. Gila" arrives independently at the head of the gulf

⁸⁴ The David Rumsey collection notes regarding the Marzolla production, "This is a very attractive and scarce atlas by a cartographer from Naples. Not in Phillips or British Museum. Marzolla prints extensive notes with his maps, listing his cartographic sources and giving political and statistical information on the areas covered. No title page (probably issued that way) and with a manuscript list of contents. [. . .] The maps are dated from 1840 to 1856. [. . .] The covers are brown paper covered boards with a leather spine embossed with 'Marzolla. Atlante geografico. G.B.' in gilt." (https://www.davidrumsey.com/luna/servlet/view/search?q=pub_list_no%3d%224714.000%22&qvq=sort:pub_list_no_initialsort%2Cpub_date%2Cpub_list_no%2Cseries_no;lc:RUMSEY~8~1&mi=0; accessed 16 February 2023).

from the east. Paralleling the Colorado from the latitude of the "Jaquasila" is "F. Martires", intermittently a solid and dashed line, but north of the head of the gulf the dashed line divides, one branch continuing to the south to the gulf and the other branch continuing southwest to the Pacific Ocean where it joins a solid-line at "Pala".

- 1856 25.1997 **Stati-Uniti dell' America Settentrionale coi Territorii Recentemente Annessi.** ("La presente Carta è stata costrutta su quella, pubblicata in 4 fogli in Nuova-York nel 1852 da J. H. Colton [. . .] Essa fa parte dell' Atlante Geografico che si pubblica da B. Marzolla Napoli 1854.") [In Italian.]

Assembled in an atlas without title-page; see footnote for Marzolla.

► "F. Colorado del Golfo di California" is delineated between "Golfo di California" and headwaters but above the confluence of "F. Grande" the Green River is also labeled "F. Colorado", although farther upstream is the label "F. Verde". From the "Grande" confluence it follows a southwesterly and south-southwesterly course to the gulf; "F. Gila" arrives independently at the head of the gulf from the east. Enroute the Colorado receives the tributaries "F. Nabajoa" (San Juan River) and "F. Yaquisilla" (Little Colorado River) from the east, an unlabeled tributary from the north (undetermined) and "F. Virgine" [*sic*] from the northwest but with a confluence much too far south, just above the confluence of an unlabeled tributary from the east-northeast (Bill Williams River).

- 1856 25.1998 **Nuova California (Stati Uniti dell'America Settentrionale.** ("La presente Carta è stata eseguita su quella, pubblicata nel 1850 dal Sign: Spolito Ferry membro della Società Geografica di Parigi. [. . .] Atlante Geografico di B. Marzolla Napoli, 1851.") [In Italian.]

Assembled in an atlas without title-page; see footnote for Marzolla.

► "Rio Colorado" is imaginatively delineated between "Mare Vermiglio o Golfo di California" and headwaters, following a southward course to the confluence of "Rio de los Navajoas" (San Juan River), then southwesterly through the greater Grand Canyon region before turning south-southwestward toward the head of the gulf, where "Rio Gila" arrives from the east-northeast. No tributaries are denoted between "Navajoas" and Gila confluences. In the reach where is the Grand Canyon the Colorado is annotated along its course, "In generale poco profondo e soggetto a grandi traboccamenti." (*transl.* "generally shallow and subject to large overflows", which remark is of course more pertinent to the lower Colorado River).

Mitchell, Samuel Augustus [Sr.]

WHEAT IV:972 [with illustration facing p. 49]

- 1856 25.972 **Mitchell's new national map, exhibiting the United States with the North American British provinces, Sandwich Islands, Mexico and Central America, together with Cuba and other West India Islands.** Philadelphia: S. Augustus Mitchell.

► "Rio Colorado" is shown very generally between "Gulf of California" and the confluence of "Green River" and "Grand River", which is shown at the southern end of "Sierra de la Lanterna". The Colorado through what is the Grand Canyon region is shown generally on a southwestward path. "Rio San Juan" is a tributary to "Grand River", and "Rio Colorado Chiquito" is a tributary to the Colorado south of the confluence of the Green and Grand. "Rio Virgen" is a tributary to the Colorado in its lower reach.

NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

Reynolds, William C.

- 1856 25.1756 **Reynolds's Political Map of the United States, designed to exhibit the comparative area of the free and slave states, and the territory open to slavery or freedom by the repeal of the Missouri Compromise. With a comparison of the principal statistics of the free and slaves states, from the census of 1850.** New York: Published by Wm. C. Reynolds, No. 195

Broadway, and J. C. Jones, No. 1 Spruce Street. Chicago: Rufus Blanchard, No. 52 La Salle Street. ("Entered according to Act of Congress, in the year 1856, by W. C. Reynolds, in the Clerk's Office of the District Court of the United States for the Southern District of New York.")

► The base map displays rudimentary courses for rivers in the Southwest. "Rio Colorado" is depicted between the confluence of "Green R." and "Grand R." and the Gulf of California (not labeled). Just downstream from that confluence is the confluence of "St. Johns R." (San Juan River). The Colorado arcs from there on a course turning from southwest to due south, where it receives from the east "Red R." (Little Colorado River), abruptly turning there to a west-southwest course to the confluence of "Virgen R.", where it turns to the south-southwest and follows a straight course to the gulf, receiving en route two tributaries (both unlabeled), one from the northwest and west, the other from the northeast (the latter presumably is the Bill Williams River). At the head of a long north-northeast trending embayment at the head of the gulf is the confluence of "R. Gila".

Rogers, H. D. [Rogers, Henry Darwin]

1856 11.14815 **Geological map of the United States and British North America, constructed from the most recent documents and unpublished materials, for Keith Johnston's Physical Atlas, by Professor H. D. Rogers, Boston U. S. 1855.**

In: Johnston, Alexander Keith, *the physical atlas of natural phenomena. A new and enlarged edition.* Edinburgh and London: William Blackwood and Sons, Plate 8.

Colored, with stratigraphic key. Scale 1:10,000,000.

► "The Colorado Desert" is depicted ranging from the lower Colorado River region northeastward to the area of the confluence of "Rio Colorado" and "R. San Juan". Portrayal of geology is rudimentary in this area. "Rio Colorado" is depicted between the head of "Gulf of California" and the confluence of "Green R." and "Grand R."; its route through the Grand Canyon area follows a simple arc, southerly to westerly, from the confluences of "R. San Juan" and "Rio Virgen".

Stieler, Adolf

1856 25.1701 **Vereins_Staaten von Nord_Amerika und Mexico.** ("Gez. v. Herm. Berghaus.") ("Gotha: Justus Perthes.") ("Gest. v. A. Hanemann, Terrain v. W. Weiler.") ("Stieler's Schul_Atlas N^o 29.") [In German.]

► "Nieder od. Alt. California" is separated from "Sonora" by "Rothes Meer, Golf v. California". The river, "Colorado", arrives at the head of the gulf mostly on a southerly course from the confluence of the Virgin River (not labeled). "Green" and "Grand" follow parallel southwesterly courses in "Utah-Gebiet" before turning south in "Neu-Mexico" where they independently meet the Colorado. "S. Juan" is a tributary to "Grand", and not much farther downstream is the confluence of "Lino" (Little Colorado River). On the lower Colorado tributaries are the Bill Williams River (not labeled) from the north and east, and "Gila" from the east. In the Grand Canyon region (no labels) the Colorado passes through three north-south-trending mountain ranges. The "S. Juan" appears to be shown as encanyoned.

Stucchi, Achille

1856 25.2002 **America Settentrionale e Meridionale nuovamente corretta ed accresciuta 1856 F. Bordiga inc. Milanopresso Achille Stucchi Piazza di S. Gio. in Era N^o 412.** [In Italian.]

► A single river (Gila River, not labeled) that passes by "di una Città Indiana Casa grande", follows a westward course from a single, linear mountain chain before turning to the south-southwest to reach the head of "Marc [sic] Vermiglio". The region to its north is blank.

U.S. Surveyor General's Office

- 1856 25.1974 **Map of Public Surveys in California to accompany Report of Surveyor Genl. 1856.** ("Sen. Ex. Doc. N^o 5. 34th Congress 3rd Session") ("Scale 18 Miles to an inch.") ("Surveyor General's Office San Francisco, California Sep.30th 1856 approved [*facsimile signature*] John C. Hays U.S. Sur. Genl. Cal.")
- ▶ The entire region west of the Colorado River delineated by township and range, some of which are indicated to have been subdivided into sections. More areas of topography are added (compare to 1855 map).

1857

Anonymous

WHEAT IV:928

- 1857 25.1702 **Skeleton Map of the Overland Mail Route to California.**
- ▶ This is a lithographed, bare sketch map of the United States with rivers shown but not labeled, with the routes indicated in color; both begin in St. Louis and end in San Francisco. The lithographed text is in handwritten script. Through the Southwest, the "Route adopted by the Department traced in Green", called the "St. Louis Route" in the text and is seemingly the favored route by the wording, follows the general route of the 35th parallel travelways, while the "Route proposed by John Butterfield and others (who were the lowest bidders) in Red.", called the "Border Route" in the text, which follows the 32nd parallel travelways through "Ft. Yuma". Note that on this map the Butterfield (red) line is the 35th parallel route, whereas historically the Butterfield Stage ran the 32nd parallel route.
- ▶ The Colorado River seems to be traced from the confluence of the Grand and Green Rivers, following a south-southwesterly course, receiving the San Juan River from the east, then arcing from southwest to west through the Grand Canyon region where midway it receives from the southeast the Little Colorado River midway, then a course due south to the head of the Gulf of Mexico, receiving the Gila River from the east-northeast at "Ft. Yuma".

Baur, C. F. [Baur, Carl Friedrich]

- 1857 25.2078 **Der Vereinigten Staaten und Mexico** (Bl. XIV). ("Entw. u. Zeichn. v. C. Baur, Jng. [*sic*] Topograph".) ("Bassermann'sche Verlagshandlung in Mannheim.") ("B! Walther lith.") [*In German.*]
- In: Atlas für Handel u. Industrie [sic]. Für Kaufleute, Fabrikanten u. Gewerbetreibende, Handlungs-u. Gewerbe-Schulen, polytechnische Lehr-Anstalten etc., entworfen, gezeichnet und mit erläuternden Notizen versehen von C. F. Baur Ingenieur Topograph. Mannheim: Verlagsbuchhandlung von Friedrich Bassermann. [Volume title prints "JNDUSTRIE" thus.*
- ▶ "Rio Colorado" is depicted between "MB v. Californien" (contrived ligature thus) and unlabeled headwaters; its course arcs from an upstream confluence south to southwest, receiving two tributaries (presumably the San Juan River from the east and northeast (thus) just north of the boundary of "Utah" and "New Mexico") and presumably the Little Colorado River, which, coming from the east, turns briefly northward to the Colorado, about where today would be recognized the central Grand Canyon). After the confluence of a stream from the northwest and northeast (the Virgin River), the Colorado's course is southward to the gulf, receiving enroute an unlabeled tributary from the northwest (undetermined), an unlabeled tributary from the northeast (Bill Williams River), and "Rio Gilo" (*sic*, Gila River) from the east.

Blodget, Lorin

- 1857 25.1300 *Climatology of the United States, and of the temperate latitudes of the North American continent. Embracing a full comparison of these with the climatology of the temperate latitudes of Europe and Asia. And especially in regard to agriculture, sanitary investigations, and engineering. With isothermal and rain charts for each season, the extreme months, and the year. Including a summary of the statistics of meteorological observations in the United States, condensed from recent scientific and official publications.* Philadelphia: J. B. Lippincott and Co., and London: Trübner and Co., xvi, [17]-536 pp., Plates [I]-[XII] [fold-outs], XIII [facing p. 496].

Spine title: *Blodget's Climatology of the United States.*

See the citation for Blodget (ITEM NO. 2.17251 in Volume 1/Part B of THE GRAND CANON) for more complete bibliographical notes.

- **Remarks concerning the MAPS:** The fold-out maps present climatological data overprinted on base maps: *base map 1*) a world map of the northern hemisphere from 20° to nearly 80° N latitude, on which only very generalized portrayals of mountain ranges are shown; and *base map 2*) a map of North America between 25° and 50° North latitude. The sources of the base maps are not indicated in this book. The world map includes the lithographer's information, "Lit. of F. Bourquin & C^o N^o 50 South Third St. Philad^a."; and for the North America map, "Fred. Bourquin & C^o 50 S. 3^d St. Phila."

- ▶ The North America map displays generalized topography for mountainous areas, and rivers. "Great Colorado River" is shown between the head of the Gulf of California (not labeled) and the confluence of "Green River" and "Grand River". From that confluence, the Colorado flows along an arc trending southwest to west where it reaches the confluence of a very foreshortened Virgin River (not labeled), before turning southward to the gulf, receiving "Gila River" at "F^t Yuma". Other rivers that are shown contributing to the Colorado (none of them labeled) are the San Juan River and Little Colorado River, which nearly converge in the area that is the eastern Grand Canyon region; and the Bill Williams River.

See also the citation for Blodget in Part 18 of THE GRAND CANON (ITEM NO. 18.1288, in Volume 1/Part B of THE GRAND CANON), which includes an itemization of the fold-out maps of meteorological data.

NOTE: This publication contains what thus far is the earliest known record of the name "Grand Canyon" as applied to Arizona's canyon; specifically using the term, "the Grand Cañon" (p. 92) and "[t]he *Grand Cañon of the Colorado*" (p. 97 *note*, italics thus). However, it is uncertain that Blodget originated the name, thus the origin of the term "Grand Canyon" for this geographic feature remains unknown. [See Earle Spamer, "Once again, 'Who named the Grand Canyon?'"—and other obscure Grand Canyon 'firsts'", *The Ol' Pioneer* (Grand Canyon Historical Society), 24(2) (Spring): 4-16; and see ITEM NO. 2.18476 in Volume 1/Part B of THE GRAND CANON for an extensive list of errata (editorially created) and emenda, all published there for the first time.] *

Chandless, William

WHEAT IV:910 [with illustration facing p. 62]

- 1857 25.985 **Map Shewing the Author's Route.** ("Standidge & C^o Lith., Old Jewry, London".) *In: A visit to Salt Lake; being a journey across the plains and a residence in the Mormon settlements at Utah.* London: Smith, Elder, and Co., 346 pp. + 16 pp. advertisements. [This is a frontispiece map.]

- ▶ "Colorado R." is shown following a generally direct path between Mexico and headwaters in "Rocky Mountains", with only three tributaries: "Mohave", "Las Vegas", and Virgin River (not labeled).

* Refer also to Earle E. Spamer, *Naming the Grand Canyon* (Raven's Perch Media, 2024, <https://ravensperch.org/wp-content/uploads/2024/12/Naming-GC.pdf>). [Note added in press.]

D. G. and A. J. Johnson [firm]

WHEAT IV:925

- 1857 25.1027 **A new map of the Union with the adjacent islands & countries, from authentic sources. Published by D. G. & A. J. Johnson. Trinity Buildings, 111 Broadway. New-York, 1857.**
- ▶ "Colorado or Red River" is depicted between the Gulf of California and the confluence of "Green R." and "Grand River". A different naming scheme is portrayed in the reach downstream from the confluence, but the entire Grand Canyon region on this map is replaced by an ornamental illustration of a steam locomotive with passenger cars and at sea in the distance a side-wheeled steamship. East of there are shown the confluences of "S^t Johns R. (San Juan River) and "Red River" (Little Colorado River). The "Proposed Central Rail Road to the Pacific" is shown generally on the 35th parallel route; a wagon route is shown along the 32nd parallel.

Desilver, Charles

- 1857 25.2111 **A New Map of the United States of America by J. H. Young. Philadelphia Published by Charles Desilver 251 Market S^t. 1857.** ("Engraved by J. L. Hazzard and E. Yeager".)
- ("Entered according to Act of Congress in the year 1856 by Charles Desilver in the Clerks office of the District Court of the Eastern District of Pennsylvania.")
- In:* *A new universal atlas containing maps of the various empires, kingdoms, states and republics of the world. With a special map of each of the United States, plans of cities &c. Comprehended in eighty one sheets and forming a series of one hundred and forty five maps, plans and sections.* Philadelphia: Charles Desilver, pp. 5/6.
- ▶ "Colorado R." is depicted between south of the U.S.-Mexico boundary and the confluence of "Green R. Fork of the G^t Colorado and Grand R. Fork of the G^t Colorado". Between the two forks is "Sierra de la Lanterna". "Little Colorado R. arrives from the southeast with a confluence on the Grand River fork. The Colorado follows a generalized arc from west to southwest before receiving "Yampai C." from the east and, shortly downstream from there, "Virgen R." from the north and northwest below the boundary of "Territory of New Mexico" and "California" (the former angle that is today southernmost Nevada). Only the southern wagon road is shown, passing through "F^t Yuma". The "Mohave R" is shown reaching the lower Colorado River from the northwest.
- NOTE:* Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

Emory, W. H. [Emory, William H.]

WHEAT IV:916

- 1857 25.813 **Map of the United States and their Territories between the Mississippi and the Pacific Ocean and part of Mexico compiled from surveys made under the order of W. H. Emory. Major 1st Cavalry, U.S. Commissioner. And from the maps of the Pacific Rail Road, General Land Office, and the Coast Survey. Projected and drawn under the supervision of L^t N. Michler. Top^g Eng^{rs} by Thomas Jekyll, C.E. 1857-8.** ("Selmar Siebert's Engraving and Printing Establishment. Washington D.C.", "Engraved by Selmar Siebert.", "Lettering by F. Courtenay".) [Map scale 1:6,000,000.]
- In:* Report on the United States and Mexican boundary survey, made under the direction of the Secretary of the Interior. *U.S. 34th Congress, 1st Session, House Executive Document 135*, 2 parts in 1 volume, 258, 174 pp., plates, maps.
- ▶ "Rio Colorado" near the head of "Gulf of California" includes notations, "Point Invincible (Head of Ship Navigation)" and "Permanent Bend Head of Tide-water". The greater Grand Canyon region is blank (to the north is marked "Unexplored Territory") with the river and tributaries denoted by dotted lines; this includes the lower Virgin River (not labeled) and the lower "Rio Colorado Chiquito".

WHEAT III:822* [with two-page illustration between pp. 242/243
(Wheat cites publisher only as "Washington, Cornelius Wendell, Printer";
Wendell was the printer to the U.S. Senate)]

- 1857 25.814 **Map of the United States and their Territories between the Mississippi and the Pacific Ocean and part of Mexico compiled from surveys made under the order of W. H. Emory. Major 1st Cavalry, U.S. Commissioner. And from the maps of the Pacific Rail Road, General Land Office, and the Coast Survey. Projected and drawn under the supervision of L^t N. Michler. Top^l Eng^{rs} by Thomas Jekyll, C.E. 1857-8.** ("Selmar Siebert's Engraving and Printing Establishment. Washington D.C.", "Engraved by Selmar Siebert.", "Lettering by F. Courtenay".) [Map scale 1:6,000,000.]

In: Report on the United States and Mexican boundary survey, made under the direction of the Secretary of the Interior. Volume I. *U.S. 34th Congress, 1st Session, Senate Executive Document 108*, 2 parts in 1 volume, 258, 174 pp., plates, maps.

► "Rio Colorado" at the head of "Gulf of California" includes notations, "Point Invincible (Head of Ship Navigation)" and "Permanent Bend Head of Tide-water". The greater Grand Canyon region is blank (to the north is marked "Unexplored Territory") with the river and tributaries denoted by dotted lines; this includes the lower Virgin River (not labeled) and the lower "Rio Colorado Chiquito".

Goddard, George H.

WHEAT IV:921 [with illustration facing p. 60]

- 1857 25.976 **Britton & Rey's map of the State of California : compiled from the U.S. Land and Coast Surveys, the several military, scientific, and rail road explorations, the state and county boundary surveys made under the order of the Surveyor General of California, and from private surveys. By George H. Goddard, C.E. Completed with additions and corrections up to the day of publication from the U.S. Land-Office, and other reliable sources.** ("Engraved by H. Steinegger", "Lith^y. of Britton & Rey, Montgomery St. cor. Commercial, S. F.")

► The southeastern corner of the map displays "Great Colorado River" between its confluence with "New River Slough" in "Lower California" and the great bend, at which point the river is labeled "Colorado R.", at the confluence of "Virgin River". The Salton Sea is labeled "Dry Bed of Lake", near which are "Mud Volcanos" [*sic*]. (Of note is that this map depicts the path of the lower Colorado River just prior to the Ives Expedition's mapping by F. W. von Egloffstein.)

Gray, Andrew B.

WHEAT IV:930 [with illustration between pp. 52/53]

- 1857 25.974 **Map of proposed Arizona Territory from explorations of A. B. Gray and others, to accompany memoir by Lt. Mowry, U.S. Army, Delegate elect.** ("Middleton, Wallace & C^o Litho^s. Cin.")

Accompanies: Mowry, Sylvester, *Memoir of the proposed Territory of Arizona*. Washington: Henry Polkinhorn.

► Southern and northern boundaries at the Gadsden line and 34° N latitude; eastern boundary off the map; "New Mexico" to the north. Includes projected railway routes to the West Coast. "Colorado City" noted. "Rio Colorado" depicted in its lower reach, to the Gulf of California. In the limitrophe reach are the labels, "Cane Willow and Cottonwood" and "Tide ceases Heintzleman's [*sic*] Pt."

Hall, James

WHEAT III:827*, IV:922

- 1857 25.1141 **Map illustrating the general geological features of the country West of the Mississippi River. Compiled from the surveys of W. H. Emory and from the Pacific Railroad Surveys and other sources.**

In: Emory, William H., assisted by J. P. Lesley, Report on the United States and Mexican boundary survey, made under the direction of the Secretary of the Interior. *U.S. 34th Congress, 1st Session, House Executive Document 135 AND Senate Executive Document 108*.

See the full citations for Emory (1857) as **ITEM NOS.** 2.2542 and 2.18594 in **THE GRAND CANON Volume 1.**

► Hand-colored map. Not a separately published map as such, but cited here for its portrayal of the Grand Canyon region prior to even the first geological exploration in 1858. The base map depicts "Rio Colorado" from the head of "Gulf of California" northward approximately to the confluence of the Virgin River (not labeled), at which point the line depicting the river becomes dashed, as also is the lower reach of the Virgin. In the Grand Canyon region (largely blank), the Colorado is depicted on a generalized east-west course, connecting directly to, and only to, "Colorado Chiquito", with but two tributaries from the south (not labeled), the easterly one of which is Cataract Creek. Geologically, only rocks of igneous centers are depicted in the region, although some generalized, broadly applied shading appears in the area to designate "Devonian" rocks. On the western side of the Colorado River, between "Ft. Yuma" and the head of the gulf, are depicted "Desert Quaternary" deposits.

J. H. Colton and Co.

- 1857 25.648 **Map of the United States of America, the British provinces, Mexico, the West Indies and Central America with part of New Granada and Venezuela.** New York: J. H. Colton and Co., 1 sheet. (Map drawn by George W. Colton; engraved by John M. Atwood; border designed and engraved by W. S. Barnard.)
 Within the region pertinent to this Cartobibliography, this map is the same as the 1856 ed. (see Colton, 1855, **ITEM NO.** 25.646).

Mowry, Sylvester

- 1857 25.891 **Map of proposed Arizona Territory from explorations of A. B. Gray and others, to accompany memoir by Lt. Mowry, U.S. Army, Delegate elect.** ("Middleton, Wallace & C^o Litho^s Cin.")
WHEAT IV:930 [with illustration between pp. 52/53]
In: Memoir of the proposed Territory of Arizona. Washington: Henry Polkinhorn, 30 pp., map.
 ► Southern and northern boundaries at the Gadsden line and 34° N latitude; eastern boundary off the map; "New Mexico" to the north. Includes projected railway routes to the West Coast. "Colorado City" noted. "Rio Colorado" depicted in its lower reach, to the Gulf of California. In the limitrophe reach are the labels, "Cane Willow and Cottonwood" and "Tide ceases Heintzleman's [*sic*] P^t."

Rogers, Henry Darwin, AND Johnston, A. Keith

- 1857 25.728 *Atlas of the United States of North America, Canada, New Brunswick, Nova Scotia, Newfoundland, Mexico, Central America, Cuba, and Jamaica. On a uniform scale. From the most recent state documents, marine surveys, and unpublished materials. With plans of the principal cities and sea-ports, and a introductory essay on the physical geography, products, and resources of North America.* London: John Murray, and Edinburgh: W. and A. K. Johnston, 20 pp., 23 maps, scale 1:3,450,000, 54½ miles = 1 inch.
WHEAT IV:933 ["State of California"; with illustration facing p. 63];
IV:934 ["Territory of Utah"; with illustration facing p. 64]
 ► See particularly map 18, "**Territory of New Mexico**", which is very detailed and depicts counties, the northwestern portion still containing that part which is southern Nevada today. "Rio Colorado" is shown to the "Gulf of California", but east of "Rio Virgin" in the Grand Canyon region it is labeled "Approximate Position of Great Colorado". "Sierra de Lanterna" is depicted in southern Utah, west of the Colorado's confluence with "Rio San Juan". "Rio de Lino or Colorado Chiquito" is depicted with its confluence south of the Sierra de Lanterna. In the middle canyon region, "Parke Cr." (apparently Cataract Creek) is drawn between the vicinity of "Bill William's M^t" and the Colorado.

► Also take note of map 2, "General Map of the United States"; map 13, "Territory of Utah", which also includes the "Approximate Position of Great Colorado" in northern "New Mexico" (Arizona); map 14, "State of California"; map 19, "Mexico, North-Western States" (on which is the notation, "At Point Invincible High Water at full change of Moon is 3^h 20^m Rise & Fall of Tide 12 f^t").

NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

U.S. Army, Office of the Quarter Master General

WHEAT IV:929 [with illustration between pp. 52/53]

- 1857 25.975 **Military map of the United States prepared in the Office of the Quarter Master General U.S.A. November 1857.** ("Lith. by H. Lawrence 88 John St. N.Y.")
Accompanying: U.S. 35th Congress, 1st Session, Senate Executive Document 11 and House Executive Document 2.
 ► The Colorado River (not labeled) is drawn geneally between the Gulf of California (not labeled) and the confluence of "Green River" and "Grand River". The Little Colorado River (not labeled) is a tributary from the southeast. Along the river only "F^t Yuma" is labeled.

U.S. Surveyor General's Office

- 1857 25.1706 **Sketch of Public Surveys in New Mexico to accompany Report of Surveyor General 1857.** ("Surveyor Generals Office Santa Fe, New Mexico September 30th 1857. W^m Pelham [*facsimile signature*] Surveyor General.") ("C.B. Graham, Lith^y Washington D.C.") ("Sen. Ex. Doc. N^o 11 & Ho. Ex. N^o 2 1st Sess 35st [*sic*] Cong".)
 ► Bare sketch map. Only the "Rio Colorada" [*sic*], "Rio San Juan", "Rio Colorado Chiquito", and "Rio Gila" are labeled; otherwise, the portrayal of courses is the same as in the 1855 report (ITEM NO. 25.1505) with the exception that the Virgin, Mohave, and Bill Williams Rivers are not shown.
- 1857 25.1975 **Map of Public Surveys in California to accompany Report of Surveyor Gen^l. 1857.** ("Wagner & M^c Guigan Lith. Phil^a") ("Sen. Ex. Doc. N^o11.&Ho.Ex.Doc.N^o 2. 1st Sess. 35th Cong.") ("Scale 18 Miles to an inch.") ("Surveyor General's Office San Francisco, California Sep.30th 1856 approved [*facsimile signature*] John C. Hays U.S. Sur. Gen^l Cal.")
 ► The entire region west of the Colorado River delineated by township and range, nearly all of which are indicated to have been subdivided into sections. More areas of topography are added (compare to 1856 map).
NOTE: The 1858-1864 maps are substantially unchanged in the lower Colorado River region.]

Vuillemin, A.

- 1857 25.2090 **Nouvelle Carte Illustrée l'Amérique du Nord indiquant les grandes divisions physiques, la distribution géographique des végétaux et des minéraux. les ports de commerce, villes industrielles en fortifiées des différents Etats. Dressée par A. Vuillemin, Géographe Gravée par Langevin. Paris Chez Fatout, Editeur, Boulevard Poissonnière 17. 1857.** ("Gravé sur acier: La Topographie par Gérin. Le Trait au burin par F. Lefèvre.") ("Les illustrations dessinées par A. Testard et gravées par Guesnu.") ("Imp. par Mangeon, 67. rue S^t Jacques. Paris".) [*In French.*]
In: Atlas de géographie commercial et industriel. Paris: Chez Fatout.
 ► "Rio Colorado del Occidente" is delineated between the head of "Golfe de Californie [(]Mer Vermeille)" and headwaters; enroute its tributaries are "R. Grande" from the northeast (the label for the Colorado continues up the branch that would be the Green River at this point), three unlabeled tributaries are shown (San Juan River from the east, Little Colorado River from the east, and Virgin River from the north), plus "Rio Gila" from the east. The Colorado's course is southwest to the Little

Colorado confluence, then arcs to the west to the Virgin confluence before turning south to the gulf.

Warren, G. K. [Warren, Gouverneur K.]

WHEAT IV:936 [with illustration facing p. 84]

- 1857 25.1321 **Map of the territory of the United States from the Mississippi to the Pacific Ocean Ordered by the Hon. Jeff'n Davis, Secretary of War To accompany the Reports of the explorations for a Railroad Route Made in accordance with the 10th and 11th sections of the Army Appropriation Act of March 3rd. 1853. Compiled from authorized explorations and other reliable data by Lieut. G. K. Warren. Topl. Engrs. In the Office of Pacific R. R. Surveys. War Dep. under the direction of Bvt. Maj. W. H. Emory, Topl. Engrs. in 1854 and of Capt. A. A. Humphreys, Topl. Engrs. 1854-5-6-7. [No imprint], 1 sheet, scale 1:3,000,000. ("Engr. by Selmar Siebert.")**

Includes a list of authorities, 1804-1856.

► Various routes of exploration are delineated. Grand Canyon region is portrayed only by suggestive, dotted-line courses of "Rio Colorado" and tributaries; and the region north of it is labeled "UNEXPLORED". "R. Gila" is tributary to the Colorado at "F^t. Yuma". South of there the Colorado is drawn on a very sinuous course, and there is a river tributary to it from the west, which is likely the Rio Hardy.

Weller, John B., AND Emory, William H.

- 1857 25.1540 **Map N^o 4 Boundary Between the United States & Mexico Agreed upon by the Joint Commission under the Treaties of Guadalupe Hidalgo, and December 30th 1853. Surveyed in 1849 and 1854-55. John B. Weller, U.S. Comm^r. in 1849 & Wm. H. Emory, Major, First Cav^y. U.S. Comm^r. in 1854 & 55. Published by authority of Honorable J. Thompson, Secretary of the Interior. ("Verified by N. Michler, Lt. Topl. Eng^s. U.S.A.")**

Additional title panel on sheet: **Surveys made under the direction of W^m. H. Emory. by Bvt. Capt. Hardcastle and Lt. A. W. Whipple, Top. Eng^s. U.S.A. in 1849 & 50. and Lt. N. Michler, Top. Eng^s. U.S.A. in 1854 & 55.** ("Note Lt. Michler aided by Mr. A.C.V. Schott Asst. Surveyor worked conjointly with Don Franicso Jimenez, First Engineer of the Mexican Commission, assisted by Captains Aleman and Diaz Engineers. Projected and drawn under the direction of Lt. Michler, by John D. Hoffmann and John de la Camp. 1856 & 57".) Scale 1:600,000. [Sheet 4 of 4.]

► "Rio Colorado" is shown in detail from 34° N latitude to its mouth in "Gulf of California".

1858

Beale, Edward F.

WHEAT IV:939 [with illustration between pp. 94/95]

- 1858 25.774 **Preliminary map of the western portion of the reconnaissance and survey for a Pacific rail road route near the 35th par. made by Capt. A. W. Whipple, T.E. in 1854-4. With additions showing the route of the proposed wagon road from Fort Defiance to the Colorado together with several lateral explorations, by E. F. Beale Supt. 1857-8. ("Lith. of J. Bien, 60 Fulton Street N.Y.") Map scale 1:900,000.**

In: Wagon road from Fort Defiance to the Colorado River. Letter from the Secretary of War, transmitting the report of the superintendent of the wagon road from Fort Defiance to the Colorado River. *U.S. 35th Congress, 1st Session, House of Representatives Executive Document 124, Serial 959, 87 pp., map.*

Wagner and Camp (1982, p. 555) also cite, "Beale's five-page preliminary report, without the map, is included in the 35th Congress, 1st Session, Senate Document 43, Serial 922"; this is cited with Storm 215 with the inclusion, Senate Executive Document 43. Storm (1968, p. 35) also cites 35th Congress, 1st Session, House Executive Document 124, Serial 959. Storm 215 indicates, "The first title is the

preliminary report of the reconnaissance and the second title is the final report, but the latter lacks the map. See Number 216 for a copy with map.”]

► “Great Colorado” is depicted from Mexico to the confluence of “Colorado Chiquito”. In the Grand Canyon region, the river is delineated roughly by two parallel lines with the label “Approximate Position of Great Colorado” (the double lines continue onto the trace of the Little Colorado, while the main Colorado (not labeled) is delineated northward by a roughly drawn single line beyond the New Mexico/Utah boundary.

Ehrenberg, Herman

- WHEAT III:803 [with illustration facing p. 166]
- 1858 25.706 **Map of the Gadsden Purchase[,] Sonora and portions of New Mexico, Chihuahua & California.** by Herman Ehrenberg, C.E. From his private notes, and those of Major Heinzelman[,] Capt^l Sitgreaves, Lieut^t Derby; Bartlett; Gray; Julius Froebel and others. Lith^y by Alex. Zakreski. at his Topolgr^t Office No 100, Merchant Street, Bolton Barron’s Building. 1854. [Lithographed in San Francisco?]
- “Colorado R.” is delineated between the head of “Gulf of California” and confluence of “Little Colorado”; it is wholly conjectural in the Grand Canyon region. “Captain Sitgreaves Route” is delineated. Projected routes for the 32nd parallel Pacific railroad are shown. At the mouth of the Colorado River is noted, “Bar 10 to 15 feet at low tide 2 Fathoms”.
- WHEAT IV:941 [with illustration facing p. 110]
- 1858 25.603 **Map of the Gadsden Purchase[,] Sonora and portions of New Mexico[,] Chihuahua & California** by Herman Ehrenberg C.E. From his private notes and those of Colonel Gray[,] Maj; Heinzelman, Lieut: Parks and others. The Yaqui, Mayo and Fuerte Valleys are by A. Fleury Millitary [sic] Eng: of Sonora. Middleton, Strobridge & Co., Lithographers, Cincinnati, O.
- “Colorado R.” is delineated between the head of “Gulf of California” and confluence of “William’s Fork” (Bill Williams River); the Grand Canyon region is not depicted. The entire region north of the Gila River is labeled “Barren waste and rugged Mountains”. Projected routes for the 32nd parallel Pacific railroad are shown. At the mouth of the Colorado River is noted, “Bar 12-15 feet at low tide”.

Ettling, T. [Ettling, Theodor]

- WHEAT IV:942
- 1858 25.1699 **The Dispatch Atlas California[,] Utah, L^t California and New Mexico.** (“Supplement to the Weekly Dispatch of Sunday January 31st 1858”) (“Weekly Dispatch Atlas 139. Fleet Street.”) (“Day & Son. Lith^rs to The Queen.”) (“Drawn & Engraved by T. Ettling, 3 Red Lion Square, Holborn.”)
- “R. Colorado” (in the Grand Canyon reach as “Colorado R.”) is delineated between the head of “Gulf of California” and the eastern part of what is the Grand Canyon, where both the “Green River” and “Grand River” arrive on parallel courses from the northeast. “R. Jaquesila (Red. R.)” is shown as a tributary to the Grand arriving from the east. The Colorado follows a very generalized west-southwestward course through the Grand Canyon region to the confluence of “R. S. Clare” (Virgin River), south of which the Colorado receives a “spider web” of a tributary from the northwest, the “Williams Fork” from the east, and the “River Gila” from the east-northeast. South of “F^t Yuma” the river bifurcates around “Alchedones I.”, rejoins, then bifurcates again before arriving at the head of the gulf.

García y Cubas, Antonio [García Cubas, Antonio]

- 1858 25.1293 **Carta I. Cuadro Geográfico y Estadístico de la Republica Mexicana [which features] Carta General de la República Mexicana Formada para el estudio de la configuracion y division**

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- interior de su territorio.** ("Imp. litog. de H. Iriarte y C^a calle de Sta Clara N^o 23.") ("J. M. Muñozgúren litografió.") [In Spanish.]
In: García y Cubas, Antonio, *Atlas geográfico, estadístico é histórico de la República Mexicana, formado por Antonio García y Cubas.* Mexico: José Mariano Fernandez de Lara.
 ► Both the Gila River and Gadsden boundaries between the U.S. and Mexico are delineated. "Rio Colorado" is shown approaching the head of "Golfo de California" on a slightly sinuous course from the northeast, receiving "Rio Gila" from the east at the international boundary. No places are labeled along these rivers. "I. de S. Ignacio" is shown at the mouth of the Colorado.
NOTE: There are substantial differences in the portrayal of the lowermost Colorado River at the northwest corners of the four maps cited from this atlas (maps 1, 2, 25, and [31]), *ITEM NOS.* 25.1293-25.1296.
- 1858 25.1294 **Carta II. Sonora.** ("Imp. litog. de Iriarte y C^a c^e de Sta Clara N^o 23.") ("Muñozgúren litog^o") [In Spanish.]
In: García y Cubas, Antonio, *Atlas geográfico, estadístico é histórico de la República Mexicana, formado por Antonio García y Cubas.* Mexico: José Mariano Fernandez de Lara.
 ► Both the Gila River and Gadsden boundaries between the U.S. and Mexico are delineated. "Rio Colorado" is shown approaching the head of "Golfo de California" from the north, with a decided bend prior to receiving "Rio Gila" from the east at the international boundary by "F. Yuma". A small island, "Farallon del Norte", is shown at the mouth of the Colorado.
NOTE: There are substantial differences in the portrayal of the lowermost Colorado River at the northwest corners of the four maps cited from this atlas (maps 1, 2, 25, and [31]), *ITEM NOS.* 25.1293-25.1296.
- 1858 25.1295 **Carta XXV. Baja California.** ("Imp. Litog. de H. Iriarte. C^e de S^{ta} Clara N^o 23.") ("Muñozgúren lito.") [In Spanish.]
In: García y Cubas, Antonio, *Atlas geográfico, estadístico é histórico de la República Mexicana, formado por Antonio García y Cubas.* Mexico: José Mariano Fernandez de Lara.
 ► The Colorado River (not labeled) is shown approaching the head of "Mar de Cortés" on a generalized course from the north-northeast, receiving a similarly generalized and short Gila River from the east-northeast at the international boundary. No places are labeled along these rivers. A large "I. de S. Ignacio" is shown at the mouth of the Colorado.
NOTE: There are substantial differences in the portrayal of the lowermost Colorado River at the northwest corners of the four maps cited from this atlas (maps 1, 2, 25, and [31]), *ITEM NOS.* 25.1293-25.1296.
- 1858 25.1296 **[Carta XXXI.] Carta General de la República Mexicana Formada en vista de los datos mas recientes y exactos que se han reunido con tal objeto, y coustan en la noticia presentada al Exmo. Sr. Ministro de Fomento, por Antonio García y Cubas.** (Printer's credit at lower left seems to have been obliterated.) ("Lit. de Salazar.") [In Spanish.]
In: García y Cubas, Antonio, *Atlas geográfico, estadístico é histórico de la República Mexicana, formado por Antonio García y Cubas.* Mexico: José Mariano Fernandez de Lara.
 ► Only the Gadsden boundary between the U.S. and Mexico is delineated. "R. Colorado" is shown approaching the head of "Mar de Cortés" on a slightly sinuous course from the northeast, with a decided bend prior to receiving "R. Gila" from the east at the international boundary by "F.^{te} Yuma". A road is shown approaching Fort Yuma from Sonora along a path from the southeast. A small island, "Farallon de S. Ignacio", is shown at the mouth of the Colorado.

NOTE: There are substantial differences in the portrayal of the lowermost Colorado River at the northwest corners of the four maps cited from this atlas (maps 1, 2, 25, and [31]), *ITEM NOS.* 25.1293-25.1296.

Johnston, Alexander Keith [Johnston, Keith]

- 1858 25.1372 **United States of North America (Western States) by Keith Johnston, F.R.S.E.** ("William Blackwood & Sons, Edinburgh & London.") ("W. & A. K. Johnston, Edinburgh.")
Caption: "Keith Johnston's General Atlas", "44". Scale 1:6,047,811, 95 miles to an inch.
▶ "Lower California" is separated from "Sonora" by "Gulf of California". The boundary of "New Mexico" includes the angle that later would be southernmost Nevada. "Rio Colorado" is depicted with a solid line between the head of the gulf and a point north of the confluence of "Rio Gila", a dotted line from there to a point south of the confluence of "Bill Williams Fork"/"Rio S. Maria" [labeled as both], a solid line from there to the boundary point at the angle (today's California-Nevada-Arizona triple point), and upstream from there as a dotted line to the confluence of "Green River" and "Grand River", which also are depicted in their lower courses by dotted lines. The lower courses of tributaries "Rio San Juan", "Rio Colorado Chiquito" (Little Colorado River), "Yampais Cr.", and "Santa Clara" (Virgin River) are all depicted by dotted lines, although their upper courses are drawn with solid lines. A tributary (not labeled) from the south in the Grand Canyon area (Cataract Creek) is likewise drawn with a dotted line in its lower reach. The Colorado's course through the Grand Canyon is only figurative, although the placement of principal tributary confluences convey information that is remarkably (luckily?) more accurate than that of Egloffstein's 1858 map (published with Ives, 1861).

Leach, J. B.

WHEAT IV:944

- NO DATE 25.226 **Map No. 2 of the El Paso and Fort Yuma wagon road.** *U.S. 35th Congress, 2nd Session, Senate Executive Document 36, House Executive Document 108*, 1 sheet. (Made under the direction of N. H. Hutton; assisted by G. C. Wharton, W. D. Cress, P. G. Hume.) [1858?]
This map shows route from Pima Villages northwest of Tucson to Fort Yuma; roads to San Diego sketched.

Marmocchi, F. C. [Marmocchi, Francesco Constantino]

- 1858 25.2290 **Nuovo Mondo Parte Settentrionale Mappa d'Insieme.** ("G. Bonatti incise, Torino.") [In Italian.]
In: Il globo : atlante di carte geografiche : compilate da F. C. armocchi per servire di corredo al suo corso di geografia commerciale. Genova: Paolo Rivara su Giacomo Editore.
▶ "Colorado F" is delineated between unlabeled headwaters and "Mar Vermiglio", following a southerly course and receiving two tributaries (not labeled) from the east then turning southwest toward the gulf, in which reach it receives a short, dotted-line tributary (not labeled) from the north-northeast, and a much longer tributary (not labeled) from the north that itself is delineated by solid lines at headwater and confluence areas. "Gila F" arrives from the east-northeast, below which confluence the Colorado bifurcates, rejoins, and proceeds to the gulf.
- 1858 25.2291 **Confederazione Messicana.** ("G. Bonatti incise, Torino.") [In Italian.]
In: Il globo : atlante di carte geografiche : compilate da F. C. armocchi per servire di corredo al suo corso di geografia commerciale. Genova: Paolo Rivara su Giacomo Editore.
▶ "F. Colorado" is delineated between unlabeled headwaters and "G. di California o Mar Vermiglio", following a southerly course and receiving two tributaries

(not labeled) from the east then turning southwest toward the gulf, in which reach it receives a long tributary (not labeled) from the northwest that has a headwater far to the northeast. "F. Gila" arrives independently at the head of the gulf from the east.

- 1858 25.2292 **Stati e Territorii Occidentali della Unione Americana.** ("G. Bonatti inc. Torino.") [In Italian.]
In: Il globo : atlante di carte geografiche : compilate da F. C. armocchi per servire di corredo al suo corso di geografia commerciale. Genova: Paolo Rivara su Giacomo Editore. [Map no. 31.]

► "R. Colorado" is delineated between unlabeled headwaters and "Mar Vermiglio", following a southerly course and receiving one (not labeled) from the east then arcing southwest toward the gulf, in which reach it receives a long tributary (not labeled) from the northwest that has a headwater far to the northeast, and a shorter tributary (not labeled) from the northwest. "R. Gila" arrives independently at the head of the gulf from the east.

Möllhausen, Balduin [Möllhausen, Heinrich Balduin]

WHEAT IV:955

- 1858 25.977 **Karte zu Balduin Möllhausen's Reise vom Mississippi nach der Küste der Südsee im Jahre 1853-1854. Entworfen und gezeichnet von Dr. Henry Lange.** ("F. A. Brockhaus' Geogr.-artist. Anstalt, Leipzig.", "Verlag von Hermann Mendelssohn.") [Map scale 1:6,015,000.] [In German.]

In: Tagebuch einer Reise vom Mississippi nach den Küsten der Südsee. Eingeführt von Alexander von Humboldt. Leipzig: Hermann Mendelssohn, 494 [496] pp., map.

► "Colorado" is depicted between "G. v. Californien (Mar Bermejo)" to the confluence of "R. de la Virgen"; in the Grand Canyon region is labeled "R. Colorado" and delineated for the most part with a dashed line. "Green R." and "R. Grande" run from the northeast to the Colorado; the Green's confluence is between the confluences of "Colorado Chiquito" (Little Colorado River, its lower reach delineated by a dashed line) and a stream (not labeled) that is Cataract Creek; in turn, "R. S. Juan" and the Little Colorado are tributaries to the Grand before its confluence with the Green. Möllhausen's route (with the Whipple expedition) is marked in red. Also of note is the labeling of "Gadsden-Gebiet".

WHEAT IV:956 [with illustration between pp. 106/107]

- 1858 25.978 **Map illustrating Baldwin Möllhausen's travels from the Mississippi to the coast of the Pacific, in the years 1853-1854.** ("London, Longman & Co.", "Engraved by Edw^d. Weller, Duke Str^t. Bloomsbury".)

In: Diary of a journey from the Mississippi to the coasts of the Pacific with a United States Government expedition. (Mrs. Percy Sinnett [Jane Sinnett], translator; introduction by Alexander von Humboldt.) London: Longman, Brown, Green, Longmans, and Roberts, 2 volumes (xxxii, 352; xi, 397 pp. + advertisements).

Translation of *Tagebuch einer Reise vom Mississippi nach den Küsten der Südsee* (Möllhausen, 1858, ITEM NO. 2.4618 in Volume 1/Part B of THE GRAND CANON). [Author's name on title-pages given as Baldwin Möllhausen.]

► The map is identical to the one published in the original German ed., with the substitution of only the title panel, producers' information, and prominent geographical labels in English (of those noted in the remarks on the German ed., specifically, "Gulf of California" and "Gadsden Territory").

Stratton, R. B. [Stratton, Royal B.]

WHEAT IV:935

- 1858 25.1282 [Map.]

In: Captivity of the Oatman girls: Being an interesting narrative of life among the Apache and Mohave Indians. Containing an interesting account of the massacre of the Oatman family, by the Apache Indians, in 1851; the narrow escape of Lorenzo D.

Oatman; the capture of Olive A. and Mary A. Oatman; the death, by starvation, of the latter; the five years' suffering and captivity of Olive A. Oatman; also, her singular recapture in 1856; as given by Lorenzo D. and Olive A. Oatman, the only surviving members of the family, to the author, R. B. Stratton. New-York: Printed for the author, 290 pp.

► The untitled **MAP** (p. 20) depicts the area pertaining to the subject of the book, which shows "New Mexico" and the lower portion of "Colorado R." between Mexico and the supposed confluence of "Mohave R." northwest of the confluence of "Williams Fork". The map did not appear in the first ed. of this title (Stratton, 1857, **ITEM NO.** 2.29291 in Volume 1/Part B of THE GRAND CANON) but it appears in numerous subsequent eds.

1859

Campbell, Albert H.

- 1859 25.793 Pacific wagon roads. Letter from the Secretary of the Interior, transmitting a report upon the several wagon roads constructed under the direction of the Interior Department. March 1, 1859. *U.S. 35th Congress, 2nd Session, House Document 108, Serial 1008*, 125 pp., 6 **MAPS**.

WHEAT IV:982

- 1859 25.794 **Dep^t of the Interior Pacific Wagon Roads Map N^o2 El Paso & Fort Yuma Wagon Road J. B. Leach Superintendent Made under the direction of N. H. Hutton, Chief Eng^r Assisted by G. C. Wharton Prin: Ass^t Eng^r W. D. Cress and P. G. Hume, Ass^{ts} 1857-8.** ("T. S. Wagner's Lith. Philad^a") ("Sen. Ex. Doc. N^o 36—Ho. Ex. Doc. N^o 108 2d. Sess. 35 Cong".)
From: Report upon the Pacific wagon roads, constructed under the direction of the Hon. Jacob Thompson, Secretary of the Interior, in 1857-'58-'59.
In: Report of the Secretary of the Interior, communicating Reports upon the Pacific wagon roads constructed under the direction of that department. *U.S. 35th Congress, 2nd Session, Senate Executive Document 36*, 125 pp., 6 maps.
See "El Paso and Fort Yuma road", pp. 9-11, map.
Note included on map: "The topography is only represented in detail, where known from actual surveys or sketches made in the field. * * * The Rio Grande, Colorado and a portion of the Gila River are taken from the maps of the Mexican Boundary Commission".
► "Rio Colorado" depicted between "Gulf of California" and "Proposed Boundary of Arizona" (*i.e.*, that former east-west boundary between Arizona and New Mexico Territories, at approximately 33°40' N).

Dixon and Kasson

WHEAT IV:973 [with illustration facing p. 149]

- 1859 25.980 **Dixon & Kasson's map of the overland and ocean-mail routes, between the Pacific and Atlantic states and ports, including the route through the British possessions. Corrected up to the latest date by the respective mail contractors, San Francisco, Feb. 1859. Published by Hutchings & Rosenfeld San-Francisco.** ("L. Nagel's Lith. San Francisco".)

Fiala, John T.

- 1859 25.621 **General Map of the United States & Their Territory between the Mississippi & the Pacific Ocean 1 Shewing the different Surveyed Routes from the Mississippi valley to the coast of the Pacific Ocean, 2 the new established & proposed Post Routes, 3 the recently discovered Gold, Silver and Copper Region in Kansas, Nebraska and Arizona. Compiled from the various P.R.R. Surveys & the best authorities which could be obtained by John T. Fiala C.E.**

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

("Lith. by A. McLean 15 Chesnut [*sic*] St.") ("Engraved on Stone by A. Janicke.") ("Entered in the Clerks Office of the U.S. District Court of Missouri, January 1859 by John T. Fiala, According to Act of Congress respecting Copy rights".)

► "Rio Colorado" is shown diagrammatically from the confluence of "Green R." and "Grand R." to the head of "Gulf of California" that separates "Lower California" from "Sonora". It receives the tributaries "R. San Juan" from the east-southeast, "Colorado Chiquito" (Little Colorado River) from the southeast, a tributary (not labeled; Cataract Creek, which heads at "Bill Williams Mt") from the southeast, "R. Virgin" from the north, "Mohave" from the west, "Bill Williams" from the east, and "Rio Gila" from the east-northeast. The proposed route of the "Albuquerque" railway is shown on the 35th parallel, and the region between it and the Colorado is labeled "Unexplored Territory".

Johnson, D. G. [Johnson, D. Griffing]

- 1859 25.576 **Johnson's new illustrated and embellished county map of the republics of North America with the adjacent islands and countries, compiled drawn and engraved from the latest land and coast surveys, British Admiralty and other reliable sources.** New-York and Washington, A. J. Johnson, 1 sheet [scale 1:3,041,280]. ("The part of this Map, between the Mississippi River and Pacific Ocean, was taken (with the consent of Capt. A. A. Humphreys) principally from the following authorities by Lieut. G. K. Warren, Topl Engrs . . . In the Office of Pacific Rail Road Surveys, War Department.")
- "Colorado River" is labeled in the Grand Canyon region; "Rio Colorado" along the lower Colorado region. Although the streams of the Grand Canyon region are stylized, Cataract Creek (not labeled) is noticeable, and "Colorado Chiquito River" enters the Colorado along a steadily northeast-to-southwest trending route. Various locales are labeled in the Colorado River delta area. A notice is printed in the otherwise blank area between the "River Gila" and "Bill Williams F." on the north and south, and between the "Rio Colorado" and "Rio San Francisco" on the west and east: "In the vicinity of this place a tract of country is found which is said by Trappers to be exceedingly fertile and abundantly timbered and well watered."

Johnson and Browning [firm]

WHEAT IV:978

- 1859 25.1244 **Map of the United States and Mexico. Published by Johnson & Browning, under the direction of Col. Carlos Butterfield. December 1859.** New York: Johnson and Browning.
- The boundary between "Arizona" and "New Mexico" is that one which runs east-west south of the 35th parallel, dividing the former Territory of New Mexico, with Arizona to the south of New Mexico. The Colorado River is depicted between the head of the "Gulf of California" and the confluence of "Green R." and "Grand River". In its lower course, the Colorado River is labeled "Colorado or Red River", in what is the Grand Canyon region it is labeled "Colorado or Red R.", and in what is the eastern Grand Canyon area and northward it is labeled "Rio Colorado". Tributaries are "St. Johns R." (San Juan River); "Red River" (Little Colorado River); a minor tributary (not labeled) from the south in what is the western Grand Canyon; "Rio Virgen", "Mohave River" (from the west in the lower Colorado region), "Sta. Maria R." (Bill Williams River); and two tributaries (not labeled), one from the west and one from the east. "River Gila" meets the Colorado at "Ft. Yuma". The 35th and 32nd parallel routes are both labeled "Proposed Pacific R. R."

Lloyd, J. T. [Lloyd, James T.]

- 1859 25.595 **Lloyd's American Railroad Map of the United States Showing the Three Proposed Roads And the Overland Mail Route to the Pacific 1859.** (Eng^d by Rae Smith Nassau St. N.Y.") ("Drawn & Engraved at Rae Smith's 71 Nassau St. N.Y. From Materials furnished to the 36th Congress March 1859 by G. K. Warren Lt. U.S. Top[.] Eng. for the passage of the Pacific Railroad Bill.")

► "Rio Colorado" is only roughly sketched, with a more carefully sketched "Pro. Pacific Rail Road Route" passing farther to its south in the Grand Canyon area. The label "Rio Colorado" also passes erroneously onto the tributary course of what is the Little Colorado River (which is otherwise not labeled), and upstream from that confluence the main river is labeled "Green River", the course of which is continuous to this point without significant tributaries other than what likely is the San Juan River (not labeled). "Sevier River" is shown on a southwesterly course from "Utah", passing through a gap in a linear mountain range to reach the Colorado at the point of confluence where the Virgin River meets it, which stream it actually is supposed to be. On either side of the Colorado/River river and the Little Colorado River is labeled, "Unexplored Territory". Then-current boundaries for New Mexico (territory) are drawn. Ornamental map border composed of portraits of 28 railroad presidents.

Marcy, Randolph B.

1859 25.882 WHEAT IV:984 [with illustration facing p. 188, mislabeled there "985"]
Sketch of the Different Roads Embraced in the Itineraries.

In: The prairie traveler. A hand-book for overland expeditions. With maps, illustrations, and itineraries of the principal routes between the Mississippi and the Pacific. New York: Harper and Brothers, 340 pp., map.

See under Itineraries (includes some illustrations): "Wagon-road from San Antonio, Texas, to El Paso, N. M., and Fort Yuma, Cal.", pp. 289-291; "From Fort Yuma to San Diego, California", pp. 292-293; "From El Paso, New Mexico, to Fort Yuma, California, via Santa Cruz", pp. 294-295; "Lieutenant E. F. Beale's route from Albuquerque to the Colorado River", pp. 307-308; "Captain Whipple's Route from Albuquerque, New Mexico, to San Pedro, California", pp. 308-315; "From Fort Yuma to Benicia, California. From Lieutenant R. S. Williamson's Report", pp. 315-317; "From Fort Thorne, New Mexico, to Fort Yuma, California", pp. 318-320; and **MAP**.

► On the map, the "Rio Colorado" enters the Grand Canyon region from the east (apparently the San Juan River and another) and the "Colorado Chiquito" meets the Colorado in mid-region from the southeast, resembling the general map positions as would be portrayed by Egloffstein in Ives (1861). The labels for the Green and Grand Rivers in Utah are transposed, and the two rivers converge to a point at the 38th parallel where they end, *not* reaching the Colorado.

McGowan, D., AND Hildt, George H.

1859 25.610 WHEAT IV:986 [with illustration facing p. 173]
Map of the United States West of the Mississippi showing the routes to Pike's Peak[,] overland mail route to California and Pacific rail road surveys. To which are added the new State & Territorial Boundaries, the principal Mail and Rail Road Routes, with all the arrangements and corrections made by Congress up to the date of its issue. Compiled and drawn from U.S. Land and Coast Surveys and other reliable sources, by D. McGowan C.E.Q.U.S. and Geo. H. Hildt C.E. [No imprint] ("Leopold Gast and Bro. lith. St. Louis, Mo.")

► The 35th parallel railroad route is labeled "Albuquerque [*sic*] Route"; the 32nd parallel route is labeled "New Orleans R." and is divided into Divisions. The lower Colorado River is labeled "Rio Colorado"; above "Virgin R." it is labeled "Colorado River" and is sketched in only generally above the Virgin River confluence and is labeled there "Colorado River" to the confluence of "Green R." and "Grand R." Tributaries in that area are "San Juan R.", "Chiquito R." (Little Colorado River), and a tributary (not labeled) that is Cataract Creek.

Petri, Girolamo

1859 25.2375 **Circoscrizione Ecclesiastica negli Stati Uniti. [In Italian.]**
In: L' orbe Cattolico ossia atlante : geografico storico ecclesiastico. Parte Terza. Roma: Tipografia della Reverenda Camera Apostolica. Tav. CXXVI.

► Base map is a sketch map only; the U.S.-Mexico boundary follows the Gila River (not labeled). Accompanied by a descriptive text on a separate page. "F. Colorado" is delineated on an effectively straight southwesterly course from the confluence of "F. Grande" to "Golfe de California". The course of the Green River (not labeled) may be implied to be a part of the Colorado. All tributaries are not labeled, though it appears that the Virgin River follows the model whereby it reaches the lower Colorado far too much to the south.

Phelps and Watson [firm]

- 1859 25.1360 **Map of the United States, Canada[,] Mexico, West Indies, and Central America, with Distances to Various Parts of the World.**
INSET ON: *Our Country*. ("New York: Phelps & Watson, 18 Beekman St." "Chicago: Rufus Blanchard, 52 La Salle St." "Cincinnati: H. M. Rulison, 141 Main St.") ("Entered, according to Act of Congress, in the year 1859, by Phelps & Watson, in the Clerk s [sic] Office of the District Court of the United States, for the Southern District of New York.") [**BROADSIDE**].
 ► "Lower California" is separated from "Sonora" by "Gulf of California". "Colorado R." is shown generally between the head of the gulf and the eastern part of where the Grand Canyon is situated. There, "Green River" and "Grand River" come to the eastern canyon area on parallel courses. "Red R." is shown as a tributary to the Grand from the east, and shortly downstream from there is a tributary (not labeled) from the southeast; it seems that "Red R." is actually the San Juan River but mislabeled using a name that is synonymous with the Little Colorado River, and that the label should have appeared with the unlabeled northwest-trending tributary. The Virgin River (not labeled) meets the Colorado at the great bend, and downstream from there the "Mohave River" is shown as a tributary from the northwest. "Gila R." meets the Colorado just upstream from the head of the gulf. The territories of New Mexico and Arizona are shown dividing the present states of those names, with New Mexico to the north of Arizona and including the angle that later would be southern Nevada. A "Mail Route" crosses the middle of "New Mexico Territory" from "Ft. Defiance" to Los Angeles. The "Proposed Pacific R.R. South Route" is shown with a "Mail Route" crossing southern Arizona to the Colorado-Gila confluence.

U.S. Army Corps of Engineers [Corps of Topographical Engineers]

- 1859 25.606 **Territory and Military Department of New Mexico : compiled in the Bureau of Topog^l. Eng^s. of the War Dep^t. chiefly for military purposes under the authority of Hon. J. B. Floyd Sec. of War.** [No imprint], 1 sheet.
 WHEAT IV:967 [with illustration facing p. 143]
 ► "Rio Colorado" through the Grand Canyon region is depicted only by an arcing dashed line; the entire region is labeled "unexplored". The lower Colorado River is mapped upstream to the Rio Virgen. The routes of "Capt. Sitgreaves" and "Beale's Wagon Road" are mapped with topography added.

U.S. War Department

- 1859 25.2097 Topographical maps, profiles, and sketches, to illustrate the various reports of surveys for railroad routes from the Mississippi River to the Pacific Ocean.
In: Reports of explorations and surveys, to ascertain the most practicable and economical route for a railroad from the Mississippi River to the Pacific Ocean. Volume XI [1855]. Washington: Beverley Tucker, Printer, pp. i-iv, 46+ plates and maps. (Volume: *U.S. 33rd Congress, 2nd Session, Senate Executive Document 78* [part 3].)
 See Plate 4, "Reduced Map of the Territory West of the Rocky Mountains By Capt. B. L. E. Bonneville U.S.A. 1837". It fills in a part of Bonneville's map that is occupied by a title cartouche; that original map (Wheat II:424 [with illustration facing p. 159]) is extralimital to this Cartobibliography.

Warren, G. K. [Warren, Gouverneur K.]

- 1859 25.633 **Map of the territory of the United States from the Mississippi River to the Pacific Ocean; Ordered by the Hon. Jeff'n. Davis, Secretary of War To accompany the Reports of the Explorations for a Railroad Route Made in accordance with the 10th and 11th sections of the Army Appropriation, Act of March 3rd. 1853. Compiled from authorized explorations and other reliable data by Lieut. G. K. Warren, Topl. Engrs. in the Office of Pacific R.R. Surveys, War Dep. under the direction of Bvt. Maj. W. H. Emory, Topl. Engrs. in 1854 and of Capt. A. A. Humphreys, Topl. Engrs. 1854-5-6-7-8. [No imprint], 1 sheet, scale 1:3,000,000. ("Drawn by E. Freyhold".) ("Engraved on Stone by J. Bien, 60 Fulton St. N.Y.")**
Includes a list of authorities, 1804-1858.
Accompanies: Warren, G. K., Memoir to accompany the Map of the Territory of the United States from the Mississippi River to the Pacific Ocean, giving a brief account of each of the exploring expeditions since A. D. 1800, with a detailed description of the method adopted in compiling the general map.
In: *Reports of explorations and surveys, to ascertain the most practicable and economical route for a railroad from the Mississippi River to the Pacific Ocean. Volume XI [1855].* Washington: Beverley Tucker, Printer, 120 pp. [separately paginated part within the volume]. (Volume: *U.S. 33rd Congress, 2nd Session, Senate Executive Document 78 [part 2].*)
▶ Various routes of exploration are delineated. Grand Canyon region is portrayed strongly encanyoned as known from the Ives Expedition (1858), although only "Rio Colorado" is labeled. "Rio Gila" is tributary to the Colorado at "Ft. Yuma". South of there the Colorado is drawn on a very sinuous course, but this map omits the western, unlabeled tributary that would be probably the Rio Hardy.
NOTE: The Library of Congress holds a copy of this map with manuscript emendations to outline updated political boundaries, including that of Arizona. The map is signed on recto, "Millard Fillmore Dec. 19. 1863." LOC catalog record also notes, "Annotated on verso: No. 250. Territories of the U.S. 1863. Millard Fillmore Jany. 18, 1864." See that map online at <https://www.loc.gov/item/gm71000831/>.

Whipple, A. W. [Whipple, Amiel Weeks]

- 1859 25.943 **Topographical maps, profiles, and sketches, to illustrate the various reports of surveys for railroad routes from the Mississippi River to the Pacific Ocean.**
In: *Reports of explorations and surveys, to ascertain the most practicable and economical route for a railroad from the Mississippi River to the Pacific Ocean. Volume XI [1855].* Washington: Beverley Tucker, Printer, pp. i-iv, 46+ plates and maps. (Volume: *U.S. 33rd Congress, 2nd Session, Senate Executive Document 78 [part 3].*)
Includes: **Route near the 35th parallel Map No. 2. From the Rio Grande to the Pacific Ocean from explorations and surveys made under the direction of the Hon. Jefferson Davis, Secretary of War by Lieut. A. W. Whipple, Topogl. Engrs and Lieut. J. C. Ives, Topogl. Engrs 1853-4. Scale 1:950,400.**
▶ "Great Colorado River" is delineated between "Ft. Yuma" and "Unexplored" territory north of the confluence of "Lino (Flax Riv.) or Colorado Rio Puerco of the West" (Little Colorado River). In the Grand Canyon region the "Colorado River" is marked by a dotted line with the label "Approximate Position of Colorado R."

1860**Andriveau-Goujon, Eugène**

- 1860 25.2226 **Carte générale des États-Unis et du Mexique comprenant l'Amérique Centrale et les Antilles E. Andriveau-Goujon, Éditeur. Paris, Rue du Bac, N° 21. 1860. ("Dressée par A. Vuillemin.")**
[In French.]

In: Atlas Universel. Paris: E. Andriveau-Goujon, Map no. 48.

► "R^o Colorado del Occidente" reaches the head of the "Golfe de Californie" where the label "Emb^{re} du Rio Colorado" appears. The river is drawn to the confluence of "R^o Virgin (S^{ra} Clara)", turning into the Grand Canyon region where it reaches the confluence of "R^o Verde (Green R.)" and "R^o Grande", which courses are parallel to each other and southwest. Tributary to the lower Grand is "R^o de Lino ou Colorado Chico", the lower reach of which is delineated by a dotted line. The San Juan River is not labeled but is a tributary to the Grande upstream from the Little Colorado. Separating the Colorado and Green Rivers from the Virgin is "S^{ra} de la Lanterna".

NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

Beale, Edward F.

1860 25.776 Wagon road—Fort Smith to Colorado River; letter of the Secretary of War, transmitting the report of Mr. Beale relating to the construction of a wagon road from Fort Smith to the Colorado River; March 9, 1860. *U.S. 36th Congress, House Document 42, Serial 1048*, 91 pp., **MAP**. [See Beale (1858, **ITEM NO.** 25.774).]

Bineteau, P.

WHEAT IV:1008 [credited to Domench]

1860 25.1245 **Map Drawn to illustrate the travels & from the Documents of the Abbe Domenech showing the actual situation of the Indian Tribes of North America and the road described by the author[.] P. Bineteau geographer del 1860.** ("Gravé chez Erhard 42 R. Bonaparte".) ("Imp Bineteau R. Antoine-Dubois 6.")

In: Domenech, Em. (Abbé) [Domenech, Emmanuel Henri Dieudonne], *Seven years' residence in the great deserts of North America*. London: Longman, Green, Longman, and Roberts.

► "Old California" and "Sonora" and separated by "G. of California". "R. Colorado" (label on lower Colorado River) and "Rio Colorado of the West" (label on upper Colorado) is depicted between the head of the gulf and headwaters above the confluence of "R. Grande" (Grand River). The Colorado River in the Grand Canyon region is depicted by a dashed line between a tributary (not labeled) that is Cataract Creek and the confluence of "Rio Virgin". "R. S^t John" (San Juan River) is shown as a tributary from the east, with its lower end depicted by a dashed line, and "Red Riv." (Little Colorado River) is shown as a tributary from the southeast, with its lower end depicted by a dashed line). "B. Williams" (Bill Williams River) is shown as a tributary from the east and northeast. The Gila River (not labeled) reaches the Colorado at "F^t Yuma".

Kohl, C. H.

1860 25.1688 **Karte über die für eine Eisenbahn vom Mississippi nach dem Stillen Weltmeere aufgesuchten Routes.** (Lith. Anst. v. Steinmetz & Bornemann in Meissen".) [**In German.**]

In: Ueber die Pacific-Eisenbahn und den Suez-Canal. Vortrag gehalten am 18. September 1859 in der II. Jahresversammlung des sächsischen Ingenieur-Vereins zu Chemnitz. *Der Civilingenieur* (Freiberg), New Series, 6: columns 203-234, plates 11-14 at end of volume.

The map is "Taf. 11_12" [*sic*].

► Portrays "Rio Colorado" between the confluences of "R. San Juan" and "Rio Virgin" on a course that arcs from south nearly to due west, with "Colorado Chiquito" a tributary on a straight course from the southeast. Also shown as tributaries in this reach (but not labeled) are Cataract Creek and probably Diamond Creek.

Lazaridou, Hr. [Λαζαριδου, Ηρ.]

- NO DATE 25.1510 **ΑΜΕΡΙΚΗ ΗΡ. ΑΑΖΑΡΙΔΟΥ** [sic] **ΕΝ ΑΘΗΝΑΙ** [for bibliographical purposes, the title with initial capitals only and correction of creator's name is: Αμερική Ηρ. Αζαριδου εν Αθηναισ] [Ameriki Hr. Lazaridou en Athēnais] [America Her Lazaridou in Athens]. [1860?] [In Greek.]
- "Παλ Καλιφόρνια" (i.e., Παλιά Καλιφόρνια [Paliá Kalifórnia] [Old California]) is separated from "Νεον Μεξικον" (i.e., Νέο Μεξικό [New Mexico]) by "Κόλπος Καλιφόρνιας" [Κόλπος Καλιφόρνιας] [Gulf of California]. "Κολοράδος η" (i.e., Κολοράδος Ποταμός [Kolorádos Potamós] [Colorado River]) and "Γίλας η" (i.e., Γίλας Ποταμός [Gílas Potamós] [Gila River]) have their confluence just to the northeast of the head of the gulf; the Colorado's course is from the northeast, the Gila's from the east, and from the confluence to the gulf is to the southwest. Notably, another river (not labeled) closely parallels the Colorado to the west, arcing to the southeast to join the Colorado below the Gila confluence.
- NOTE:* It is not clear whether Lazaridou is the cartographer or only the publisher. It appears that the initial letter in his name, "A" (alpha, as printed), should have been "Λ" (lambda).

Mitchell, Samuel Augustus [Sr.]

- 1860 25.973 **Mitchell's new national map, exhibiting the United States with the North American British provinces, Sandwich Islands, Mexico and Central America, together with Cuba and other West India Islands.** Philadelphia: S. Augustus Mitchell.
- The Colorado River basin is somewhat modified from the 1856 ed. (ITEM NO. 25.972). "Rio Colorado" is shown very generally between "Gulf of California" and the confluence of "Green River" and "Grand River", which is shown at the southern end of "Sierra de la Laterna [sic]". The Colorado through what is the Grand Canyon region is shown generally on a west-southwestward path. "Rio San Juan" and "Lit. Colorado R." both are tributaries to the Grand, close to each other, on the eastern side of the sierra. "Rio Virgen" is a tributary to the Colorado at the great bend.
- NOTE:* Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

Rulison, Duane

WHEAT IV:1015

- 1860 25.1246 **National Political Chart & Map of the United States.** Philadelphia: Duane Rulison; Cincinnati, Ohio: H. M. Rulison and Mack. R. Barnitz; St. Louis: C. Drew and Co.; Geneva, New York: J. Whitley, Jr. ("King & Baird, Printers, 607 Sansom Street, Philadelphia.") ("Entered according to the Act of Congress, in the year 1860, by Duane Rulison, In the Clerks Office of the District Court of the United States, in and for the Eastern District of Pennsylvania.") ("Electrotyped by S. A. George, 607 Sansom Street, Philadelphia.") [Sheet with extensive text and portraits.]
- Map portrays "Rio Colorado" in a most casual way, with tributaries "Grand R.", "St. Johns R.", "Red R." (Little Colorado River), "Virgen R.", a tributary (not labeled) from the west in the lower Colorado region, a tributary (not labeled) from the northeast (Bill Williams River), and "R. Gila". The confluence of the Gila and Colorado, as is also the Gulf of California, obscured by an informational table for popular votes for President in the 1848, 1852, and 1856 elections.

Stieler, Adolf

- 1860 25.1145 **Verein-Staaten von Nord-America, Mexico, Yucatan u. A.** Gotha: Justus Perthes. ("Entw. u. ges [entworfen und gezeichnet] von Fr. v. Stülpnagel u. Herm. Berghaus." "Gestochen v. C. Metzeroth.") ("Ausgabe in 65 BLN^o LVI. (Steiler's Hand Atlas No 46^b).") [In German.]

► The course of "Rio Colorado" is redrawn as compared to the 1848 ed., between the head of "G. v. Californien. Mar Bermejo. Rothes Meer." and the confluence of "Green Flusse" and "Grand F". In the Grand Canyon area the course is drawn on a more or less straight line on a west-southwesterly course between the confluence of the "Colorado Chiquito" and "Virgen".

U.S. Army Corps of Engineers [Corps of Topographical Engineers]

- 1860 25.1525 **Territory and Military Department of Utah compiled in the Bureau of Topograph^l Eng^{ts} of the War Depart^t chiefly for military purposes under the authority of Hon. J. B. Floyd Sec. of War. 1860.** Scale 1:1,500,000.
 With extensive list of "Authorities".
 ► Map includes the northwestern portion of "New Mexico", which includes the angle that today is the southern part of Nevada. "Rio Colorado" is depicted between a point south of the confluence of "Williams River" (Bill Williams River) and the confluence of "Green River" and "Grand River". The entire course between that confluence and "Fort Mohave" on the lower Colorado River is depicted by dotted lines, except for the immediate Green-Grand confluence area, which is displayed partly as encanyoned, and the lower courses of those rivers also depicted by dotted lines. Except for "Rio San Juan" and "Rio Virgen", with their lower courses depicted by dotted lines, no other tributaries are shown.

U.S. Surveyor General's Office

- 1860 25.1707 **Sketch of Public Surveys in New Mexico 1860. Compiled from Maps on File in this Office.** ("Surveyor Generals Office; Santa Fe New Mexico, September 1st 1860. A. P. Wilbar [*facsimile signature*] Surveyor General of N.M.") ("Lith. of J. Bien .180 Broadway N. Y.")
 ► Sketch map of rivers with selected topographical elements. "Rio Colorado" is depicted between the international boundary and the confluence of "Green River" and "Grand River". "Green River" and "Grand River" follow essentially parallel courses from the northeast before reaching a confluence in what later is the so-called Nevada angle of northwestern Arizona; along a short south-southwesterly course the Grand receives "Rio San Juan" from the east-northeast. In what is the Grand Canyon region the Colorado follows a southwesterly course along which the Green is met. Not far downstream from that confluence, but still in the far western part of the area, "Rio Colorado Chiquito" arrives from the east-southeast. The Virgin River (not labeled) arrives from the north not far upstream from "Mohave Villages", which are at the confluence of "Mohave River" from the west-northwest. The Bill Williams River (not labeled) arrives from the northeast. "Rio Gila" meets the lower Colorado from the east.

Witzleben, Arthur de

- 1860 25.614 **R. P. Kelley's map of the Territory of Arizona : compiled from his private notes taken while U.S. Deputy Surveyor and from the latest official reports in the Departments at Washington City.** St. Louis, Misosuri: Theodore Schrader, 1 sheet.
 A testimonial is printed on this map: "The most elaborate and correct map of Arizona yet compiled. Sylvester Mowry [*facsimile signature*] Delegate to Congress from Arizona."
 ► Within the scope of this Cartobibliography only the lower Colorado River region is depicted. Nothern boundary of map is at the latitude of the "San Francisco Mountains"; eastern boundary at longitude 105° W. The northern boundary of the Territory of Arizona as mapped here is at approximately 33° 40' N; to its north is New Mexico Territory. Northern Sonora, Mexico, is also mapped. The "Overland Mail Route from San Francisco to St. Louis" is marked, crossing the Rio Colorado at Arizona City

(Arizona) and Ft. Yuma (California). Arizona is divided into four proposed counties (west to east), Castle Dome, Ewell, Mesilla, and Dona Ana.

1861

Burton, Richard F.

WHEAT V:1021

- 1861 25.1349 **North America.** ("Engraved by E. Weller 34. Red Lion Square.") ("London, Longman & Co.")
In: The City of the Saints, and across the Rocky Mountains to California.
 London: Longman, Green, Longman, and Roberts, 707 [708] pp.
 Fold-out sheet facing p. 1 includes three maps, including the one cited here.
 ▶ "California" is separated from "Mexico" by "G. of California". The head of the gulf receives a generally sinuous river (Colorado River, not labeled) from the northeast; "R. Gila" is a tributary to it from the east, with its confluence north of the head of the gulf. Another map on this sheet, "Route from the Missouri River to the Pacific" (Burton's route is marked) shows the headwaters of "Green R." and "Grand R." to their confluence; the two rivers run largely in parallel to each other.
 This sheet is also printed in the 1862 ed. of Burton.
 For the map that appears in the 1875 Italian ed. of Burton, see Bonaparte (no date [1875], [ITEM NO. 25.1350](#)).]

Colton, J. H. [Colton, Joseph Hutchins]

- 1861 25.1513 **Colton's Map of the United States Showing the Proposed Railroad Routes to the Pacific Ocean.**
INSET ON: *Colton's map of the Southern States. Including Maryland, Delaware, Virginia, Kentucky[,], Tennessee, Missouri, North Carolina, South Carolina[,], Georgia, Alabama[,], Mississippi, Arkansas, Louisiana[,], Texas. Showing also Part of Adjoining States & Territories Locating the Forts & Military Stations of the U. States & Showing all the Rail Roads, R.R. Stations, & Other Internal Improvements Published by J. H. Colton 172, William Street, New York. 1861.* ("Printed by Lang & Laing 117 Fulton St. N.Y.")
 ▶ On the inset map, "Rio Colorado" reaches the head of the "Gulf of California" between "Lower California" and "Sonora". Toward the headwaters, the "Green R." and "Grand R." follow parallel courses to the southwest. "Rio S. Juan" follows a course from the east, to which "Grand R." is a tributary. It is not clear from the labeling whether it is the Grand or the San Juan that continues westward to meet the Green at the beginning of the Colorado. "R. Virgin" is a tributary to the Colorado from the north and northeast, and "Rio Gila" from the east.
- 1861 25.2339 **Colton's North America Published by J. H. Colton, 172 William St. New York.** ("Entered according to Act of Congress in the year 1855 by J. H. Colton & Co. in the Office of the District Court of the United States for the Southern District of New York.")
In: Colton's general atlas, containing one hundred and eighty steel plate maps and plans, on one hundred and eight imperial folio sheets, accompanied by one hundred and sixty-eight pages letter-press descriptions, geographical, statistical, and historical, by Richard S. Fisher, M. D. New York: J. H. Colton. ("Entered, according to Act of Congress, in the year One Thousand Eight Hundred and Fifty-six, by J. H. Colton and Co., in the Clerk's Office of the District Court of the United States for the Southern District of the State of New York. Entered, according to Act of Congress, in the year 1860, by J[.] H. Colton, in the Clerk's Office of the District Court of the United States for the Southern District of the State of New York.") This is map No. 2.
 ▶ "Rio Colorado" is delineated between "Gulf of California" and confluence of "Green R." and "Grand R." in northern "New Mexico" (this map displays New Mexico

Territory across the north of today's New Mexico and Arizona, and Arizona Territory across the southern part of these future states. The courses of the Green and Grand are in parallel through "Utah". "Rio S. Juan" is a tributary to the Grand in northern "New Mexico", from the east, with "Lit. Colorado R." a tributary to the Grand from the southeast. "R. Virgin" is a tributary to the Colorado from the north and northeast; two unlabeled tributaries arrive from the west-northwest (perhaps the supposed Mohave River tributary and the Bill Williams River), and "Rio Gila" from the east.

- 1861 25.2340 **Colton's The United States of America Published by J. H. Colton .Nº 172 William S! New York.** ("Entered according to Act of Congress, in the year 1855, by J. H. Colton, in the Clerks Office of the District Court of the United States for the Southern District of New York.")

In: Colton's general atlas, containing one hundred and eighty steel plate maps and plans, on one hundred and eight imperial folio sheets, accompanied by one hundred and sixty-eight pages letter-press descriptions, geographical, statistical, and historical, by Richard S. Fisher, M. D. New York: J. H. Colton. ("Entered, according to Act of Congress, in the year One Thousand Eight Hundred and Fifty-six, by J. H. Colton and Co., in the Clerk's Office of the District Court of the United States for the Southern District of the State of New York. Entered, according to Act of Congress, in the year 1860, by J[.] H. Colton, in the Clerk's Office of the District Court of the United States for the Southern District of the State of New York.") This is map No. 7/8.

► "Rio Colorado" is delineated between "Gulf of California" and confluence of "Green R." and "Grand R." in northern "New Mexico" (this map displays New Mexico Territory across the north of today's New Mexico and Arizona, and Arizona Territory across the southern part of these future states. The courses of the Green and Grand are in parallel through "Utah". "Rio San Juan" is a tributary to the Grand in northern "New Mexico", from the east, with "Rio de Lino" (Little Colorado River, also labeled "Colorado Chiquito") a tributary to the Grand from the southeast. Cataract Creek (not labeled) is shown as a tributary to the Colorado from the southeast, below the Green/Grand confluence, notably a decided departure from the usual Egloffstein depictions of this period where Cataract Cr. is a tributary to the Little Colorado. "Rio Virgen" is a tributary to the Colorado from the north and northeast; a meager unlabeled tributary arrives from the northwest (perhaps the supposed Mohave River tributary), "Bill Williams Cr." is a tributary from the east and north, and "Rio Gila" from the east-northeast.

- 1861 25.2341 **Colton's Territories of New Mexico and Utah Published by J. H. Colton, 172 William S! New York.**

In: Colton's general atlas, containing one hundred and eighty steel plate maps and plans, on one hundred and eight imperial folio sheets, accompanied by one hundred and sixty-eight pages letter-press descriptions, geographical, statistical, and historical, by Richard S. Fisher, M. D. New York: J. H. Colton. ("Entered, according to Act of Congress, in the year One Thousand Eight Hundred and Fifty-six, by J. H. Colton and Co., in the Clerk's Office of the District Court of the United States for the Southern District of the State of New York. Entered, according to Act of Congress, in the year 1860, by J[.] H. Colton, in the Clerk's Office of the District Court of the United States for the Southern District of the State of New York.") This is map No. 51.

► "New Mexico" territory spans the northern parts of today's states of New Mexico and Arizona, including the angle that today is southernmost Nevada, and "Arizona" territory spans the southern parts of today's New Mexico and Arizona.. "Rio Colorado" is delineated between head of the Gulf of California (off the map) and confluence of "Green River" and "Grand River" in northern "New Mexico". The courses of the Green and Grand are in parallel southwest through "Utah" territory, turning south at the Utah/New Mexico boundary. "Rio San Juan" is a tributary to the Grand in northern "New Mexico", from the east, whereafter the Grand's course turns west to

the Green; en route it receives "Rio de Lino" (Little Colorado River, also labeled "Colorado Chiquito R.") from the southeast, depicted on its lower course as a dashed line. Cataract Creek (not labeled though two headwater forks are "Parke Cr." and "Cedar Cr.") is shown as a dashed-line tributary to the Colorado from the southeast, below the Green/Grand confluence, notably a decided departure from the usual Egloffstein depictions of this period where Cataract Cr. is a tributary to the Little Colorado. "R. Virgen" is a tributary to the Colorado from the north and northeast; an unlabeled tributary arrives from the northwest (perhaps the supposed Mohave River tributary), "Bill Williams Cr." is a tributary from the east and north, and "Rio Gila" from the east-northeast.

Egloffstein, F. W. von [Egloffstein, Friedrich Wilhelm von]

WHEAT IV:947 [with illustration between pp. 98/99]

- 1861 25.493 **Map No. 1. Rio Colorado of the West, Explored by 1st Lieut. Joseph C. Ives, Top^l Eng^{rs} under the direction of the Office of Explorations and Surveys, A. A. Humphreys, Capt. Top^l Eng^{rs} in charge, by order of Hon. John B. Floyd, Secretary of War. 1858. drawn by Fr^{hr} F. W. v. Egloffstein. Topographer to the Expedition. Scale of 6 miles to one Inch or 1:380160.** ("Topography by Frh^r F. V. v. Egloffstein. Ruling by Samuel Sartain. Lettering by F. Courtenay.") [From mouth of Colorado River to head of navigation. Shaded relief.]
In: Ives, Joseph C., *Report upon the Colorado River of the West, explored in 1857 and 1858 by Lieutenant Joseph C. Ives, Corps of Topographical Engineers, under the direction of the Office of Explorations and Surveys, A. A. Humphreys, Captain Topographical Engineers, in charge. By order of the Secretary of War.* Washington, D.C.: U.S. Government Printing Office, 4 maps on 1 sheet. (Volume: *U.S. 30th Congress, 1st Session, House Document 90, Serial 1058.*)

See Ives (1861, [ITEM NO. 2.3584](#) in Volume 1/Part B of [THE GRAND CANON](#)) for bibliographical details of the volume. Ives (1861) also was released as *Senate Executive Document [no number]*, which differed only in that the Egloffstein maps were also used as base maps for two geological maps (geology by J. S. Newberry; see Newberry, 1861 [[ITEM NOS. 11.9465, 24.378](#)]) that accompanied only the Senate version).

NOTE on collation of maps. Although some sources may indicate that the maps are laid in loose, the copy of the Senate variant of Ives held in the American Philosophical Society, presented by J. S. Newberry, is in its original binding, wherein the two Egloffstein topographic maps are fold-outs following the second free leaf of the volume, preceding the plate titled "General Report; Profile" and the frontispiece.

WHEAT IV:948 [with illustration between pp. 98/99]

- 1861 25.494 **Map No. 2. Rio Colorado of the West, Explored by 1st Lieut. Joseph C. Ives, Top^l Eng^{rs} under the direction of the Office of Explorations and Surveys, A. A. Humphreys, Capt. Top^l Eng^{rs} in charge, by order of Hon. John B. Floyd, Secretary of War. 1858. drawn by Fr^{hr} F. W. v. Egloffstein. Topographer to the Expedition. Scale of 12 miles to one Inch or 1:760320.** ("Topography by Frh^r F. V. v. Egloffstein. Ruling by Samuel Sartain. Lettering by F. Courtenay.") [From head of navigation of Colorado River to Fort Defiance, including Grand Canyon. Shaded relief.]

In: Ives, Joseph C., *Report upon the Colorado River of the West, explored in 1857 and 1858 by Lieutenant Joseph C. Ives, Corps of Topographical Engineers, under the direction of the Office of Explorations and Surveys, A. A. Humphreys, Captain Topographical Engineers, in charge. By order of the Secretary of War.* Washington, D.C.: U.S. Government Printing Office, 1 sheet. (Volume: *U.S. 30th Congress, 1st Session, House Document 90, Serial 1058.*)

See Ives (1861, [ITEM NO. 2.3584](#) in Volume 1/Part B of [THE GRAND CANON](#)) for bibliographical details of the volume. Ives (1861) also was released as *Senate Executive Document [no number]*, which differed only in that the Egloffstein maps were also used as base maps for two geological maps (geology by J. S. Newberry; see Newberry, 1861 [[ITEM NOS. 11.9465, 24.378](#)]) that accompanied only the Senate version).

► This map is well known for its highly conjectural depiction of the greater Grand Canyon region. "Big Cañon of the Colorado" is labeled prominently. "Colorado Plateau" is labeled on the south side of the Colorado. Notably, "Cataract Creek" is a tributary to "Little Colorado or Flax River", which in turn reaches the "Colorado River" nearly at longitude 113° W. "Yampais Village" is also labeled here. At that confluence the Colorado is depicted arriving from the northeast, although its course is shown only a short distance before fading into unmapped territory. A short distance northeast of the confluence of "Diamond River" a prominent tributary (not labeled) arrives from the northwest. Between the Colorado and that unlabeled tributary the features of the plateau are labeled "North Side M^{ts}"

NOTE on collation of maps. Although some sources may indicate that the maps are laid in loose, the copy of the Senate variant of Ives held in the American Philosophical Society, presented by J. S. Newberry, is in its original binding, wherein the two Egloffstein topographic maps are fold-outs following the second free leaf of the volume, preceding the plate titled "General Report; Profile" and the frontispiece.

Ettling, T. [Ettling, Theodor]

WHEAT V:1025

1861 25.1243 **Map of the United States of North America, Upper & Lower Canada[,] New Brunswick, Nova Scotia & British-Columbia. Mexico[,] Cuba, Jamaica, S^t Domingo and the Bahama Islands By T. Ettling.** ("Supplement to the Illustrated London News, June 1, 1861.") ("Panconographie de Gillot, a Paris".)

► "Lower California" and "Sonora" are separated by "Gulf of California". "Colorado R." is depicted between the head of the gulf and the confluence of "Grand River" and "R. Jaquesila (Red R.)" (Little Colorado River) in what is the Grand Canyon region. "Green River" is depicted on a course parallel to and west of the "Grand", shown as a tributary to the Colorado west of the "Grand"/"Jaquesila" confluence. (It is not clear from the labeling whether the stretch of river between the confluences of the "Grand" and "Green" is a part of the "Grand" or of the Colorado.) "R. Navajoas (S. Juan)" is a tributary to the "Grand". "R. S. Clare" (Virgin River) is shown, into which "Muddy Cr." is a tributary as well as a tributary (not labeled) that comes from "Vegas" to the northwest (Las Vegas Wash). "R. Gila" is a tributary to the Colorado above the head of the gulf.

Farley, Minard H.

WHEAT V:1026 [with illustration, cropped, facing p. 35]

1861 25.982 **Farley's map of the newly discovered Trumontane silver mines in southern California and western New Mexico, comprising those of Coso, Washington, Tiachipa, Russ, Potoso[,] Esmeralda, Holbomb and Bear Valley Districts, together with the most practicable route thereto and a correct table of reference, embracing distances &c.** ("Compiled from the Official Maps in the U.S. Surveyor General's Office, from the Surveys of the late U.S. and California Boundary Commission, and from his own private explorations. J. H. Wildes, Draughtsman, U.S. Surv^r. Genl^s Office.", "Published by W. Holt, Ag^t American Institute, N^o 305 Montgom^y St. San F^{co}") (Lith. of Nagel, Fishbourne & Kuchel, S.F.)

► The eastern edge of the map depicts "Colorado River" between "F^t Yuma" and "F^t Mojave". The Colorado is drawn from a blind point just short of 36° N latitude and follows an indistinctly meandering course southward.

Goldthwait, J. H. [Goldthwait, Jonathan H.]

1861 25.1586 **Goldthwait's Map of the United States[,] British Provinces, Mexico, Central America, W. India Is. &c Exhibiting the Railroads with their distances, single and double tracks & width of gauge by J. H. Goldthwait. Published by D. Chester, 119 & 121 Nassau S^t New-York.** ("Entered according to Act of Congress, in the year 1861, by J. H. Goldthwait, in the Clerks Office of the District Court of the United States for the Southern District of New York.")

► The territories of "New Mexico" and "Arizona" are respectively north and south of each other, although the boundary between the two is not shown. In "New Mexico", "Colorado R." is shown as encanyoned, as also is the lower course of "Lit. Colorado" and tributaries to it. The geography is that from Egloffstein in Ives (1861), which portrays the Little Colorado reaching the Colorado River in what is the central part of Grand Canyon (not labeled), while the Colorado comes from the northeast directly to the central Grand Canyon. The course from the confluence of "Green River" and "Grand R." to the Little Colorado confluence is depicted mostly by a dashed line. The Little Colorado is labeled "Colorado Chiquito" in its headwater area. Railways, of course, are not depicted in this area.

H. H. Lloyd and Co.

1861 25.1565

United States.

INSET ON: *H. H. Lloyd & Co's Military charts. Sixteen Maps On One Sheet. H. H. Lloyd & Co's Military Campaign Charts Showing the Principal Strategic Places of Interest. Engraved Expressly to Meet a Public Want During the Present War. Compiled from Official Data, by Egbert L. Viele and Charles Haskins, Military and Civil Engineers, Published Under the Auspices of the American Geographical and Statistical Society [BROADSIDE].* ("Published by H. H. Lloyd & Co., 25 Howard Street, New York. Agents Wanted.") ("Entered, according to Act of Congress, in the year 1861, by H. H. Lloyd & Co." "In the Clerk's Office of the District Court for the Southern District of New York.")

► The inset map depicts "Rio Colorado" on an effectively straight southwesterly course between from the confluence of "Green R. R. [*sic*]" and "Grand R." and the head of "Gulf of California" that separates "Lower California" from "Mexico". En route to the gulf it receives the tributaries "Sevier R." from the northwest, "San Juan R." from the east, "R. Jaquesila" (Little Colorado River) from the east, and "R. S^t Maria" (Bill Williams River) from the northeast, "Rio Virgin" from the northwest (downstream from the Bill Williams). "Rio Gila" arrives independently at the head of the gulf from the northeast. The Colorado its entire course as noted follows the east side of "Wahsatch M^{ts}"

Hitchcock, Edward, AND Hitchcock, Charles H.

1861 11.17992

Geological Map of the United States Compiled by Prof. Edward Hitchcock L.L.D.[.] and C. H. Hitchcock, A.M., of Amherst College 1862 [*sic*]. **INSET ON:** U.S. National Observatory, Superintendent, *The Washington Map of the United States by the Superintendent U.S. National Observatory Washington D.C. 1861.* ("S. Taintor & C^o 36, Dey, St. New York. Publishers.") ("Holmes, Harrison & C^o London.") ("Entered according to Act of Congress in the year 1861 by Robert P. Smith in the Clerks Office of the District Court of the Eastern District of Pennsylvania.")

► On the geological map of the U.S. and northern Mexico, the entire lower Colorado River and Grand Canyon region is depicted simply as "Cretaceous or Chalk formation" with spot areas of "Igneous Rocks". The same inset map is also presented in the 1864 ed. of *The Washington Map*.

Ives, Joseph C.

1861 24.95

Report upon the Colorado River of the West, explored in 1857 and 1858 by Lieutenant Joseph C. Ives, Corps of Topographical Engineers, under the direction of the Office of Explorations and Surveys, A. A. Humphreys, Captain Topographical Engineers, in charge. By order of the Secretary of War. Washington, D.C.: U.S. Government Printing Office, 5 parts in 1 volume, each part separately paginated. (Volume: *30th Congress, 1st Session, House and Senate Executive Document 90*; also *Senate Document [no number]*.)

Appendix D, Remarks upon the construction of the maps, p. 33; **Map No. 1, Rio Colorado of the West**, drawn by Frhr. F. W. v. Egloffstein, scale 1 inch = 6 miles [1:380,160], shaded relief (from mouth of Colorado Rio to head of navigation; 4 maps on 1 sheet); **Map No. 2, Rio Colorado of the West**, drawn by Frhr. F. W. v. Egloffstein, scale 1 inch = 12 miles [1:760,320], shaded relief (from head of navigation to Fort Defiance, including Grand Canyon).]

- For fuller information regarding the volume see Ives (1861, ITEM NOS. 2.3584, 2.3585 in Volume 1/Part B of [THE GRAND CANON](#). For citations of the topographic maps see in this *Cartobibliography* Egloffstein (1861, ITEM NOS. [25.493](#), [25.494](#)). For citations of the geologic maps see Newberry (1861, ITEM NOS. [11.9465](#), [24.378](#)).

Johnson and Ward [firm]

WHEAT V:1027 [with illustration facing p. 11]

- 1861 25.981 **Johnson's California[,] Territories of New Mexico and Utah.** Johnson and Browning. Includes portions of neighboring territories and states of Oregon, Washington, Nebraska, and Kansas, and Mexico to the south. This ed. further delineates all of Arizona Territory (divided from and south of New Mexico Territory, a Confederate States declaration) and Nevada even though not part of the map title.
- ▶ "Rio Colorado" shown between the head of the Gulf of California and the confluence of "Green River" and "Grand River", with tributaries "River San Juan", "Colorado Chiquito River", and "Virgin River" (with "Rio Vegas" [Las Vegas Wash] as a tributary to the Virgin). Cataract Creek is display but not labeled.

Johnston, Alexander Keith [Johnston, Keith]

WHEAT V:1028

- 1861 25.1373 **United States of North America (Western States) by Keith Johnston, F.R.S.E.** ("William Blackwood & Sons, Edinburgh & London.") ("W. & A. K. Johnston, Edinburgh.") (Caption: "Keith Johnston's General Atlas", "44".) Scale 1:4,748,000, 75 miles to an inch.
- In the area of interest to this Cartobibliography the map is unchanged from the 1858 ed. (ITEM NO. 25.1372).
- ▶ "Lower California" is separated from "Sonora" by "Gulf of California". The boundary of "New Mexico" includes the angle that later would be southernmost Nevada. "Rio Colorado" is depicted with a solid line between the head of the gulf and a point north of the confluence of "Rio Gila", a dotted line from there to a point south of the confluence of "Bill Williams Fork"/"Rio S. Maria" [labeled as both], a solid line from there to the boundary point at the angle (today's California-Nevada-Arizona triple point), and upstream from there as a dotted line to the confluence of "Green River" and "Grand River", which also are depicted in their lower courses by dotted lines. The lower courses of tributaries "Rio San Juan", "Rio Colorado Chiquito" (Little Colorado River), "Yampais Cr.", and "Santa Clara" (Virgin River) are all depicted by dotted lines, although their upper courses are drawn with solid lines. A tributary (not labeled) from the south in the Grand Canyon area (Cataract Creek) is likewise drawn with a dotted line in its lower reach. The Colorado's course through the Grand Canyon is only figurative.

Lazaridou, Hr. [Λαζαριδου, Ηρ.]

- 1861 25.1511 **ΧΑΡΤΗΣ ΤΗΣ ΑΜΕΡΙΚΗΣ ΕΚ ΤΟΥ ΑΤΛΑΝΤΟΣ ΤΟΥ ΗΡ. ΛΑΖΑΡΙΔΟΥ** [sic] **ΕΝ ΑΘΗΝΑΙΣ** [for bibliographical purposes, the title with initial capitals only and correction of creator's name is: Χαρτης της Αμερικης εκ του Ατλαντος του Ηρ. Λαζαριδου εν Αθηναις] [Chartis tis Amerikis ek tou Atlantos tou Hr. Lazaridou en Athnais] [Map of America from the Atlantic of Her. Lazaridou in Athens]. ("Α. Α'ρύρης ἐτύπωσεν" [Á. A'ryris étyposen] [A. Aryis printer].) [In Greek.]
- ▶ In the area of interest to this Cartobibliography, this map provides the same information as that in Lazaridou (no date [1860?], ITEM NO. 25.1510): "Παλ

Καλιφόρνια" (i.e., Παλιά Καλιφόρνια" [Paliá Kalifórnia] [Old California]) is separated from "Νεον Μεξικόν" (i.e., Νέο Μεξικό [New Mexico]) by "Κόλ. Καλιφόρνιας" (i.e., Κόλπος Καλιφόρνιας [Kólpōs Kalifórnias] [Gulf of California]). "Κολοράδος π (i.e., Κολοράδος Ποταμός [Kolorádos Potamós] [Colorado River]) and "Γίλας π" (i.e., Γίλας Ποταμός [Gílas Potamós] [Gila River]) have their confluence just to the northeast of the head of the gulf; the Colorado's course is from the northeast, the Gila's from the east, and from the confluence to the gulf is to the southwest. Notably, another river (not labeled) closely parallels the Colorado to the west, arcing to the southeast to join the Colorado below the Gila confluence.

NOTE: It is not clear whether Lazaridou is the cartographer or only the publisher. It appears that the second "Λ" in his name (lambda, as printed) should have been "Α" (alpha).

Marcou, Jules

- 1861 24.863 **Carte géologique de la terre. Geological map of the world. By Jules Marcou; constructed by J. M. Ziegler.** Winterthur [Switzerland]: Joh. Wurster & Comp. 8 sheets. [In French and English.]
Also various later reproductions in reduced format on one sheet under other imprints.
Not seen for this Cartobibliography. See Marcou (1875, *ITEM NO.* 24.864) for 2nd ed.

Möllhausen, Balduin [Möllhausen, Heinrich Balduin]

- 1861 25.1101 **Karte der Völkerwanderung im Colorado-Bebiete nebst Angabe der Route der Colorado-Expedition zu Möllhausen's „Reisen in die Felsengebirge Nord-Amerikas.“** [In German.]
WHEAT V:1032 [map; citing "Leipzig 1860 (?), Vol. 2."]
In: Reisen in die Felsengebirge Nord-Amerikas bis zum Hoch-Plateau von Neu-Mexico, unternommen als Mitglied der im Auftrage der Regierung der Vereinigten Staaten ausgesandten Colorado-Expedition. Leipzig: Hermann Costenoble, 2 volumes, 455, 406 pp.
Regarding this title, apparently also an 1860 release, possibly without date? (*ITEM NO.* 2.4616 in Volume 1/Part B of THE GRAND CANON). Refer also to *ITEM NO.* 2.4623, and see Appendix I to THE GRAND CANON Volume 1.
This map is a woodcut in Volume 2 at p. 145.
► The course of "R. Colorado" is diagrammatic between "G. v. Californien Mar Bermejo" and the confluence of "Green R" and "R Grande"; these rivers both arrive generally from the northeast. "R. S. Juan" is shown as a tributary to "R Grande" from the east. Between that confluence and the confluence of the two major rivers, "Chiquito" (Little Colorado River) arrives at the "R Grande" from the southeast. A short distance downstream from the confluence of the two major rivers is a tributary (not labeled) from the southeast that must be Cataract Creek, heading at "Bill Williams M". The Colorado through the Grand Canyon (not labeled) follows a mostly straight course between the confluence of the Green-Grande and the confluence of "R. de la Virgin". Just downstream of the Virgin confluence is the confluence of a peculiarly delineated river from the southeast that heads in the area labeled as the area inhabited by "Jampays", which by the trace of the expedition's route traveled shows it was *crossed* en route to where they first reached the Colorado River in Grand Canyon (at Peach Springs and Diamond Creek Canyons); Diamond Creek is not delineated. Other tributaries noted in the area of interest here are an unlabeled tributary from the west with a confluence just downstream from "Beales Crostig"; "Bill Williams Fork" reaching the Colorado on an arc from southwest to northwest; and "Gila" at "Ft Yuma". Also of note is the use of the label "(Arizona)" south of the Gila River, adjacent to the label "Sonora".

Newberry, J. S. [Newberry, John Strong]

- 1861 11.9465 **Geological Map No. 1 : prepared by J. S. Newberry M.D. geologist of the expedition.**
Accompanying: Newberry, John S., Part III; geological report [Newberry, 1861, [ITEM NO. 21.2455](#) in Volume 1/Part B of [THE GRAND CANON](#)].
In: Ives, Joseph C., *Report upon the Colorado River of the West, explored in 1857 and 1858 by Lieutenant Joseph C. Ives, Corps of Topographical Engineers, under the direction of the Office of Explorations and Surveys, A. A. Humphreys, Captain Topographical Engineers, in charge. By order of the Secretary of War.* Washington, D.C.: U.S. Government Printing Office, 1 sheet, scale 1:380,160. [Part III is separately paginated in the volume.] (Volume: *U.S. 36th Congress, 1st Session, Senate Executive Document [no number], Serial 1058.*)
NOTE: The geologic map portrays geology by Newberry, overprinted in color on shaded-relief map by F. W. von Egloffstein, *Map No. 1, Rio Colorado of the West, Explored by 1st. Lieut. Joseph C. Ives, Top^l. Eng^{rs}. under the direction of the Office of Explorations and Surveys, A. A. Humphreys, Capt. Top^l. Eng^{rs}. in charge, by order of Hon. John B. Floyd, Secretary of War. 1858.* (Egloffstein, 1861, [ITEM NO. 25.493](#)) [from mouth of Colorado River to head of navigation]. The geologic map accompanies only the Senate Executive Document variant ([ITEM NO. 2.3585](#) in Volume 1/Part B of [THE GRAND CANON](#)) (*vide* [WAGNER-CAMP 375](#), p. 648).
NOTE on collation of maps. Although some sources may indicate that the maps are laid in loose, the copy of the Senate variant held in the American Philosophical Society, presented by J. S. Newberry, is in its original binding, wherein the two Egloffstein topographic maps are fold-outs following the second free leaf of the volume, preceding the plate titled "General Report; Profile" and the frontispiece. The two Newberry geologic maps are fold-outs following Part III.
- 1861 24.378 **Geological Map No. 2 : prepared by J. S. Newberry M.D. geologist of the expedition.**
Accompanying: Newberry, John S., Part III; geological report [Newberry, 1861, [ITEM NO. 21.2455](#) in Volume 1/Part B of [THE GRAND CANON](#)].

By order of the Secretary of War.* Washington, D.C.: U.S. Government Printing Office, 4 maps on 1 sheet, scale 1:760,320. [Part III is separately paginated in the volume.] (Volume: *U.S. 36th Congress, 1st Session, Senate Executive Document [no number], Serial 1058.*)
NOTE: The geologic map portrays geology by Newberry, overprinted in color on shaded-relief map by F. W. von Egloffstein, *Map No. 2, Rio Colorado of the West, Explored by 1st. Lieut. Joseph C. Ives, Top^l. Eng^{rs}. under the direction of the Office of Explorations and Surveys, A. A. Humphreys, Capt. Top^l. Eng^{rs}. in charge, by order of Hon. John B. Floyd, Secretary of War. 1858.* (Egloffstein, 1861, [ITEM NO. 25.494](#)) [from head of navigation of Colorado River to Fort Defiance, including Grand Canyon]. The geologic map accompanies only the Senate Executive Document variant (Ives, 1861, [ITEM NO. 2.3585](#) in Volume 1/Part B of [THE GRAND CANON](#)) (*vide* [WAGNER-CAMP 375](#), p. 648).
NOTE on collation of maps. Although some sources may indicate that the maps are laid in loose, the copy of the Senate variant held in the American Philosophical Society, presented by J. S. Newberry, is in its original binding, wherein the two Egloffstein topographic maps are fold-outs following the second free leaf of the volume, preceding the plate titled "General Report; Profile" and the frontispiece. The two Newberry geologic maps are fold-outs following Part III.

P. S. Duval and Son [firm]

- 1861 25.1028 **Military Map of the United States and Territories Showing the Location of the Military Posts, Arsenals[,] Navy Yards, & Ports of Entry Compiled from Pub-Doc-1861. Published by P. S. Duval & Son. N° 22 & 24 South 5th S! Philad³**
 ► Base map is an outline map of boundaries and rivers; most rivers are not labeled. "Ft. Yuma" and "Ft. Mohave" are shown on "Colorado River", which is labeled only on its lower reach. What is the eastern Grand Canyon region depicts two principal rivers coming in parallel from the northeast, the eastern one of which has a tributary that is the Little Colorado River. The configuration replicates that of other period maps that shows the Green River reaching the Colorado in the middle Grand Canyon area.

Stanford, Edward

- 1861 25.2112 **Stanford's New Large-Print Map of the United States of North America. Distinguishing the Cities & Towns according to Population &º and shewing the Boundary of the Seceded States.** ("London: Edward Stanford, 6, Charing Cross, May 13th 1861.")
 Case map with cover label, "Map of the United States London: Edward Stanford, 6, Charing Cross, S.W." ("Constructed & Engr.^d at Stanford's Geographical Establishm^t London.")
 ► The territories of "New Mexico" and "Arizona" are delineated with the former north of the latter, with New Mexico including the angle that today is southernmost Nevada. "Rio Colorado" is shown between "Gulf of California" and the confluence of "Green R." and "Grand R." From that confluence its course is southwest to south, crossing over the Utah-New Mexico boundary, then arcing to the west to the confluence of "R. Virgin" before turning southward to the gulf. At the confluence of "Rio de Lino or Little Colorado R.", which arrives from the southwest, the Colorado's course is briefly due west before turning southwestward and then west again to the Virgin. West of the confluence of "Rio S^o Juan" in southeastern Utah (not far south from the Green-Grand confluence) is the label "S. Lanterna" that more rightfully should be in "New Mexico". Only "William Fork" and "Rio Gila" are tributaries to the lower Colorado.

NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

Thayer, Horace

- 1861 25.1573 **Diagram of the United States, showing the Political Divisions and the Population The white and colored population being separately shown in the slave states.**
In: Seat of War published by Horace Thayer 34 Beckman St. N. York.
 ("Entered according to act of Congress in the Year 1861 by. H. [name eradicated, "Thayer" substituted by hand] in the Clerks Office of the District Court of the United States for the Southern District of New York.") [**BROADSIDE**]
 This is the lower map the sheet.
 ► "New Mexico" (Territory) is shown with its western angle and is north of "Arizona" (Territory). Rivers are delineated but not labeled. The Colorado River is shown on an effectively straight southwest course from the confluence of the Green and Grand Rivers, then on a straight southerly course to the head of the "Gulf of California".

U.S. National Observatory, Superintendent

- 1861 25.1358 **The Washington Map of the United States by the Superintendent U.S. National Observatory Washington D.C. 1861.** ("S. Taintor & C^o 36, Dey, St. New York. Publishers.")
 ("Holmes, Harrison & C^o London.") ("Entered according to Act of Congress in the year

1861 by Robert P. Smith in the Clerks Office of the District Court of the Eastern District of Pennsylvania.”) Scale 1:3,000,000.

A very informative sheet, with illustrations.

Includes four **INSET** maps:

[1] “**Geological Map of the United States Compiled by Prof. Edward Hitchcock L.L.D.[.] and C. H. Hitchcock, A.M., of Amherst College 1862.**”

[2] “**Map of the United States showing the Temperature And the Annual Fall of Rain by Lorin Blodget Author of ‘Am. Climatology[.]’ The Wind Rose J. H. Coffin, L.L.D. Professor in Lafayette Coll. Pa.**”

[3] “**Map Showing the Range of Zoological Distribution of the United States by Traill Green M.D. Professor in Lafayette College Pa.**”

[4] “**Map of the United States Showing the Distribution of Staples also The distribution of Plants and Trees by Traill Green professor in Lafayette College Pennsylvania.**”

► In the southwestern part of the map, “Lower California” is separated from “Sonora” by “Gulf of California”. “Rio Colorado” is shown entering the head of the gulf along a course of braided streams in Mexico, with the notation near the head of the gulf, “Head of Tidewater”. The course of the Colorado appears to borrow its presentation from the Egloffstein maps published by the Ives Expedition, with variation. In the Grand Canyon area (labeled only “Colorado Plateau”), the Colorado and unlabeled tributaries are depicted as encanyoned as well as is the entire lower reach of “Little Colorado R.” (in an area labeled “Painted Desert”). In the central part of the canyon area a northeast-southwest trending, encanyoned tributary is shown, which resembles Egloffstein’s portrayal of the arrival of the Colorado from Utah. However, on this map, east of there a long, generally drawn river, not displayed as encanyoned, is shown coming from the northeast from Utah, which does represent the actual course of the Colorado. In Utah, “Green R.” and “Grand R.” are shown but their lower courses are displayed by dashed lines, and from their confluence to the confluence of “R. San Juan” the Colorado is also dashed (and the lower course of the San Juan is dashed). Only the Colorado in the Grand Canyon area is shown as encanyoned. In the western part of the Grand Canyon short, encanyoned tributary (not labeled) reaches the Colorado from the northwest. “Rio Virgen” is shown coming from the northeast, with a short stretch from downstream of the “Muddy R.” confluence to the confluence of the (unlabeled) Las Vegas Wash depicted by a dashed line. In the lower Colorado River course, between the confluences of the Virgin and “Bill Williams Fork”, two streams (not labeled) enter from the east and west. The “Rio Gila” confluence is at “Ft. Yuma”.

U.S. Surveyor General’s Office

- 1861 25.1033 **Sketch of public surveys in New Mexico 1861.** (“Surveyor Generals Office, Santa Fe, New Mexico, July 12th 1861. A. P. Wilbar [*facsimile signature*] Surveyor General N. M.”)
 ► “Rio Colorado” is depicted between the head of “Gulf of California” and the confluence of “Green Riv.” and “Grand River”. The reach in the Grand Canyon region is conjectural, with the confluence of “Rio Colorado Chiquito” toward its eastern end. The Virgin River is labeled “Sta Clara Riv.”

1862

Andriveau-Goujon, Eugène

- 1862 25.1005 **Carte générale des États-Unis et du Mexique comprenant l’Amérique Centrale et les Antilles E. Andriveau-Goujon, Éditeur. Paris, Rue du Bac, N° 21. 1862.** (“Dressée par A. Vuillemin.”)
 [In French.]
In: Atlas Universel. Paris: E. Andriveau-Goujon, Map no. 48.

In the area of interest to this Cartobibliography the map is the same as in Andriveau-Goujon (1860).

► "R^o Colorado del Occidente" reaches the head of the "Golfe de Californie" where the label "Emb^{re} du Rio Colorado" appears. The river is drawn to the confluence of "R^o Virgen (S^{ra} Clara)", turning into the Grand Canyon region where it reaches the confluence of "R^o Verde (Green R.)" and "R^o Grande", which courses are parallel to each other and southwest. Tributary to the lower Grand is "R^o de Lino ou Colorado Chico", the lower reach of which is delineated by a dotted line. The San Juan River is not labeled but is a tributary to the Grande upstream from the Little Colorado. Separating the Colorado and Green Rivers from the Virgin is "S^{ra} de la Lanterna".

NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

Bacon and Co.

1862 25.1534 **Bacon's Military Map of the United States Shewing the Forts & fortifications. Published by Bacon & C^o 48 Paternoster Row. London. 1862.** ("Ent. Sta. Hall. Aug. 1862.")

Caption: 1^oBacon's Military Map of America. 1^o ["1^o" = 1 shilling?]

► "Rio Colorado" is depicted between the head of "Gulf of California" and the area where the eastern Grand Canyon is situated (not labeled). "Grand River" follows a course to the southwest then to the south to the confluence of "Rio de Lino" (Little Colorado River, labeled farther upstream "Colorado Chiquito"), en route receiving "Rio San Juan" from the east-northeast. "Green R." parallels the Grand to the west, with a confluence with the Colorado west of the confluence of the Little Colorado. West from there a tributary (not labeled; Cataract Creek?) meets the Colorado from the southeast. "Rio Virgen" meets the Colorado from the north-northeast. "Bill Williams Cr." meets the Colorado from the east. "Rio Gila" meets the Colorado from the east-northeast at "Colorado City" where also is marked by a flag, "F^o Yuma". North of the Bill Williams is marked with a flag, "F^o Mohave".

Brué, A. H. [Brué, Adrien-Hubert]

1862 25.2445 **Nouvelle Carte du Mexique, du Texas et d'une Partie des États Limitrophes; Dédiée à l'Académie Imp. des Sciences de l'Institut de France, par H. Brué, Géographe [. . .] Revue et augmentée par A. Vuillemin Paris A. Logerot, éditeur, Quai des Augustins 55. 1862. [In French.]**

► "Rio Colorado" is delineated between "Golfe de Californie (Mer Vermeille) ou de Cortes" and headwater in "Sierra Verde". It follows a course southward, receiving en route "R. Nabajoas" (San Juan River) from the east and "R. Jaquesila" (Little Colorado River) from the east, then turns westward through what is the Grand Canyon area (though passing north of "Oribe") to the confluence of "R. S. Clara" (Virgin River) from the northwest and northeast (its final reach to the Colorado delineated by a dashed line), then south-southwest to the confluence of "Rio Gila" from the east, below which the river bifurcates around "I. Thomas", rejoining at the head of the gulf.

Colton, J. H. [Colton, Joseph Hutchins]

1862 25.596 **Colton's rail-road and military map of the United States[,] Mexico, the West Indies &c.** New York: J. H. Colton, 1 sheet, scale ca. 1:6,500,000.

► Map labels the "Colorado or Red River" in the lower Colorado and Grand Canyon regions, and "Rio Colorado" in the upper reaches to below the confluence of the "Red River" (*sic*, Little Colorado River). The route of the "Proposed Pacific R. R." is sketched in only as a reasonably straight line through the northern portion of "Arizona" and "New Mexico", the boundaries of which are conflated and not clear from the lines drawn; and it passes farther to the north than the route as surveyed, including passing through the southernmost tip of what later would be the state of Nevada.

Ettling, T. [Ettling, Theodor]

- _____ 25.1242 **North America. By T. Ettling.**
In: Weekly Dispatch [newspaper]. London: Weekly Dispatch. [Issue not determined; 1856-1862.]
 Later published in *The Dispatch Atlas* (1863, ITEM NO. 25.2405).
 ▶ "R. Colorado" and "Colorado R." depicted between the head of "Gulf of California" and the confluence of "Grand R." and "Red R." (Little Colorado River) in what is the Grand Canyon region. "Green R." is depicted on a course parallel to and west of the "Grand", shown as a tributary to the Colorado west of the "Grand"/"Red" confluence. "R. Navajoas" (San Juan River) is a tributary to the "Grand". "R. St. Clare" (Virgin River) is shown, into which also a tributary (not labeled) comes from "Vegas" to the northwest (Las Vegas Wash). "R. Gila" is a tributary to the Colorado above the head of the gulf.

Hirose, Hakaki [広瀬はかき]

- 1862 25.1404 図 新路航海環 [read right to left] [Kankai kōro shinzu] [New map of sea routes]. [In Japanese.]
 World map. Title displayed as printed on map; Library of Congress provides "other title", 環海航路新圖, which, besides reading left to right, differs somewhat in orthography.
 Library of Congress gives publication data (with ellipsis and square brackets thus): "Kyōto : Katsumura Jiemon ... [and 2 others]; Edo : Suharaya Mohē ; Bunkyū 2 [1862]", with note, "Kotenseki sōgō mokuroku, 2013-09-11 (環海航路新図 (かんかいこうろしんず), 地図 1 枚; 著者: 広瀬包章; 出版事項: 須原屋茂兵衛 <江> 他 3, 文久 2)." (illustrated at <https://www.loc.gov/item/2013588000/>).
 ▶ On the map, "カリホルニア" [California] (similar to the modern orthography, カリフォルニア) is separated from the mainland by "東紅海" [East Red Sea] [*i.e.*, Gulf of California]. Rivers on the continents are not labeled, but the Colorado River is shown reaching the head of the gulf, with a wildly imaginative drainage basin reaching far into the continent. In addition, the map seems to portray the routes of railroads in the United States, including in the Southwest the (proposed) 32nd parallel route.

Johnson and Ward [firm]

- 1862 25.54 **Johnson's California[,] Territories of New Mexico and Utah.** Johnson and Ward. [Later eds.]
 ▶ Includes portions of neighboring territories and states of Oregon, Washington, Nebraska, and Kansas, and Mexico to the south. This ed. further delineates all of Arizona Territory (divided from and south of New Mexico Territory, a Confederate States declaration) and Nevada even though not part of the map title.

Monk, Jacob

- 1862 25.1995 **The Continental Map of North America Compiled from recent Government Surveys and other authentic sources. Designed & Published by Jacob Monk. Philadelphia. 1862.** ("Drawn Engraved & Printed by A. Hoen & Co. Baltimore.")
 With an extensive list of authorities.
 ▶ "Colorado River" (also labeled "Colorado Riv." on its lower course) is delineated between "Gulf of California" and the confluence of "Green R." and "Grand R." The course of the combined Green and Colorado is effectively on a straight, gently curving arc until passing the "Colorado Chiquito River", where it meets an unlabeled, forked tributary from the southeast (presumably Cataract Creek), when it turns due west to the confluence of "Virgen Riv.", then arcs to the south, along which reach it then receives "Bill Williams Fork", "Dry Cr." from the northwest not far upstream from

the confluence of "Gila River" where in turn "Colorado City" is positioned opposite "Ft Yuma".

Ransom, Leander

WHEAT V:1046

- 1862 25.1354 **New Map of the State of California Exhibiting the Rivers, Lakes, Bays and Islands, with the principal Towns, Roads, Railroads, and transit routes to the Silver Mining Districts of Nevada Territory. Also the established Meridian, Standard, Range and Township Lines; to which is added County Boundaries and United States Land Districts. Carefully compiled from United States and other Reliable Surveys by Leander Ransom. 1862. Published by W. Holt, 305 Montgomery St. San Francisco.** ("Entered according to act of Congress in the year 1861 by Louis Nagel, in the Clerks office of the District Court of the Northern District of the State of California.") (Lith. by L. Nagel, 529 Clay St. San Francisco.)
- At the southeast corner of the map, the "Colorado River" is drawn only generally and without significant labeling between the upper international boundary with Mexico (continued southward into Mexico by a short arrow) and the confluence of "Virgin River".

Schnell, Ed.

WHEAT V:1056 [?]

- 1862 25.1310 **A Map of the World in Japanese by Ed. Schnell Yokohama February 1862. 萬國航海圖 [Bankoku kōkaizu].** Colored woodblock print. [In Japanese.] [Includes box with title in English, thus; else entirely in Japanese.]
- This is the corrected and updated edition of the 1858 map by Kango Takeda (武田簡吾). It is not clear whether the information with WHEAT V:1056 ("Takeda 1862", "Yotsui kokai zu") is confused or in some way further elaborated upon, as he parenthetically notes this as (including square brackets) "(a map of the world with sea routes, originally by John Burridge [?] and others, published in England in 1845. Translated by Kango Takeda under the supervision of Gentan Sugita). Edo, Jutokudo, 1862." Note, too, that Wheat makes no mention of Schnell.
- There is also a variant of this map, with the Schnell title box in a different position and with different ornamentation in the form of a right side panel with flags of the world.
- The head of the Gulf of California receives the Colorado River (apparently labeled "三双一メロロ"), which courses figuratively through the Grand Canyon region. The engraved Japanese orthography is indistinct enough to ascertain here whether the two principal headwater forks (the Green and Grand Rivers) are labeled, or whether the more southerly/easterly one is meant to be the San Juan River, as there is only one other tributary shown in this area, with its confluence not far downstream from the confluence just mentioned. That third river is either the San Juan or the Little Colorado River. The Gila River is the only other tributary figured.

Smith, J. Calvin

- 1862 25.619 **The New Naval and Military Map of the United States Published by J. Calvin Smith. Author of Harper's Gazetteer, Colton's County Map of the U.S., Traveller's Guide &c 1862.** ("J. M. Atwood, Map Engraver 517 Minor St. Philadelphia Pa.") ("Entered according to Act of Congress in the Year 1862 by Robert P. Smith in the Clerks Office of the District Court of the U.S. for the Eastern District of Pennsylvania".)
- New Mexico (territory) is shown divided into counties; the Grand Canyon region lies principally within Rio Arriba and Santa Ana counties. The Colorado River is labeled "Colorado River" along the lower reach and "Rio Colorado" in the area around "Colorado Chiquito R." (Little Colorado River); its upper extent by that name is indefinite, in as much as the "Grand River" tributary is labeled but the Green River is not labeled. The Colorado through the area of the Grand Canyon is exceptionally diagrammatic, flowing south-southwestwardly from the Little Colorado confluence before receiving an unlabeled tributary from the southeast (which must be Cataract Creek)

before turning essentially due west until reaching the confluence of "Rio Virgen". At the head of the "Gulf of California" is noted "Point Invincible Head of Ship Navigation". The Beale Wagon Road (not labeled) is depicted, as is also in the south of the territory the "Overland Mail Route".

U.S. Surveyor General's Office

- 1862 25.998 **Sketch of public surveys in New Mexico to accompany the Annual Report of the Surveyor General for 1862.** ("John A. Clark [*facsimile signature*], Surveyor General of N.M.")
 ► "Rio Colorado of the West" is depicted between "Gulf of California" and conjectured confluence of "Rio San Juan". The river through the Grand Canyon region is labeled "Big Canon of the Colorado" between the confluences of "Virgin River" and "Little Colorado R". The lower course of the San Juan, between "Rio de Chelly" and the Colorado is depicted by a dotted line.

1863

Colton, J. H. [Colton, Joseph Hutchins]

WHEAT V:1064 [with illustration facing p. 99]

- 1863 25.1031 **Colton's map of California, Nevada, Utah, Colorado, Arizona, and New Mexico.** New York: J. H. Colton.
 Also shows parts of Oregon, Idaho, Nebraska, Kansas, Texas, and Mexico.

Dufour, A. H. [Dufour, Adolphe Hippolyte]

- 1863 25.1015 **Mexique[,] Antilles, États-Unis, dressés par A. H. Dufour[,] gravés par Ch. Dyonnet. Paris. Abel Pilon, Editeur, Rue de Fleurus, 33.** ("Imp. Geny-Gros, r. de la Montagne S^{te} Genevieve, 34, Paris.") ("Atlas Universel, Pl. 39.") ("Géographie moderne Pl. 30.")
 [In French.]
 ► "Rio Colorado Occidentale" is depicted definitively between the Gulf of California and north of "R. Gila". North of that point, the river is depicted only by a dashed line, including its confluent rivers, "Green (R. Verte)" and "R. Grande". "R. Navajoa" (San Juan River), "R. Jaquesila (R. Rouge)" (Little Colorado River), and "R. S^a Clara (R. Vierge)" (Virgin River) each is depicted definitively, with the exception of the lowermost reach of the Virgin.
NOTE: The same map has been seen with a publisher's attribution in the title panel, "Armand le Chevalier Rue Riobeheu, 61". Other variants or eds. can be identified.

Ettling, T. [Ettling, Theodor]

- 1863 25.2405 **North America. By T. Ettling.**
In: The Dispatch atlas. London: "Weekly Dispatch" Office.
 ► "R. Colorado" and "Colorado R." depicted between the head of "Gulf of California" and the confluence of "Grand R." and "Red R." (Little Colorado River) in what is the Grand Canyon region. "Green R." is depicted on a course parallel to and west of the "Grand", shown as a tributary to the Colorado west of the "Grand"/"Red" confluence. "R. Navajoas" (San Juan River) is a tributary to the "Grand". "R. S^t Clare" (Virgin River) is shown, into which also a tributary (not labeled) comes from "Vegas" to the northwest (Las Vegas Wash). "R. Gila" is a tributary to the Colorado above the head of the gulf.
- 1863 25.2406 **The Dispatch Atlas California[,] Utah, L^t California and New Mexico.** ("Weekly Dispatch Atlas 139. Fleet Street.") ("Day & Son. Lith^{rs} to The Queen.") ("Drawn & Engraved by T. Ettling, 3 Red Lion Square, Holborn.")
In: The Dispatch atlas. London: "Weekly Dispatch" Office.

Reprinting of Ettling (1858, [ITEM NO. 25.1699](#)).

► "R. Colorado" (in the Grand Canyon reach as "Colorado R.") is delineated between the head of "Gulf of California" and the eastern part of what is the Grand Canyon, where both the "Green River" and "Grand River" arrive on parallel courses from the northeast. "R. Jaquesila (Red. R.)" is shown as a tributary to the Grand arriving from the east. The Colorado follows a very generalized west-southwestward course through the Grand Canyon region to the confluence of "R. S. Clare" (Virgin River), south of which the Colorado receives a "spider web" of a tributary from the northwest, the "Williams Fork" from the east, and the "River Gila" from the east-northeast. South of "F. Yuma" the river bifurcates around "Alchedones I.", rejoins, then bifurcates again before arriving at the head of the gulf.

García y Cubas, Antonio [[García Cubas, Antonio](#)]

1863 25.717 **Carta general de la República Mexicana formada por Antonio García y Cubas. 1863.**
México: Iriarte y C^ª. [[In Spanish.](#)]

This colored map is noted by catalogers and sellers as the first large map of Mexico published in the recently independent country.

► A sinuous Río Colorado is not labeled but on close examination is well depicted between its lowermost stretch in the United States and "Mar de Cortés", including the addition of marshy landscapes along its reach in Mexico.

H. H. Bancroft and Co. [[Bancroft, Hubert Howe](#)]

[WHEAT V:1060](#) [[with illustration facing p. 66](#)]

1863 25.983 **Bancroft's map of the Colorado mines published by H. H. Bancroft and Co., San Francisco, Cal. 1863.**

In: Guide to the Colorado mines. San Francisco: H. H. Bancroft and Co., 16 pp., map. [Volume is principally a travel guide.] [Reprinted 1933; see Hubert Howe Bancroft *et al.* (1933, [ITEM NO. 2.29141](#) in Volume 1/Part B of [THE GRAND CANON](#)).]

► The river, "Colorado", is depicted between Mexico and the Grand Canyon region only. Grand Canyon is labeled "Big Canon of the Colorado". The main stem of the Colorado is shown as coming from the north approximately where Kanab Creek is situated, and "North Side Mts." are labeled between the Colorado-Little Colorado confluence, thus portraying the erroneous geography of Egloffstein.

H. H. Lloyd and Co.

1863 25.2426 **Lloyd's New County Map of the United States and Canadas showing Battle Fields, Railroads, &c. Compiled from the Latest Government Surveys & Other Reliable & Official Sources. Published by H. H. Lloyd & Co. 81 John St. New-York. 1863.** ("Drawn and Engraved by Schönberg & Co. New York.") ("Entered according to Act of Congress, in the Year 1863, by H. H. Lloyd & Co., in the Clerk's office of the District Court of the United States for the Southern District of New York.")

► "Arizona" is shown as including the angle that would later be the southernmost part of Nevada; counties are not delineated. The Colorado River (not labeled) is delineated between "Gulf of California" and the confluence of "Green River" and "Grand River"; the Green and Grand follow parallel southwest courses into Arizona, with the Grand receiving "Rio San Juan" from the east and southeast, an unlabeled gributary from the east-northeast, and "Rio de Lino" (Little Colorado River) from the southeast before turning west-northwest to meet the Green. The Colorado continues on a southwest course to the confluence of "Rio Virgen", turning south to the gulf, receivng en route "Mohave R." from the northwest and west, "Bill Williams Cr." from the east, and "Rio Gila" from the east *below* "Colorado Cy." Of note is the display of the farthest headwaters of the Little Colorado and Gila as virtually touching and flowing away from each other.

Hutawa, Julius

WHEAT III:562

1863 25.715

Map of Mexico & California Compiled from the latest authorities by Jul^s Hutawa Lith^l. Second St. 45 St. Louis, Mo. 2nd Edition 1863. St. Louis, Missouri: Jul^s Hutawa.

A reissue of the 1848 2nd ed. The date "1863." seems to have been stamped on the copy seen.

► "Rio Colorado" is drawn on a straight course between the head of the Gulf of California (not labeled) and "R. Jaquesila" (Little Colorado River). At the confluence of the Colorado and Jaquesila is the label "Puerto Bucarello" (Puerto de Bucareli). "Rio Virgen" is shown flowing from the northeast, then turning westward to "Vegas", where it ends.

NOTE: The 1863 version is mentioned with WHEAT III:562 (which is the 1848 2nd ed., see ITEM NO. 25.1836). A copy seen by Spamer from the Beinecke Library at Yale varies even from that description in that although it displays the "1863" overprint it lacks the "New Mexico" overprint mentioned by Wheat (which has been seen by Spamer from another copy at Baylor University as "NEW MEXICO" [*sic*]). Neither of those copies seen lacks the St. Louis address that is noted by Wheat as having been "imperfectly erased from the original plate". The political boundaries of the Beinecke map are significantly different as well, retaining the pre-New Mexico delineation. Thus, there are variants even of the 1863 release.

Johnston, Alexander Keith [Johnston, Keith]

1863 25.1374

United States of North America (Western States) by Keith Johnston, F.R.S.E. ("William Blackwood & Sons, Edinburgh & London.") ("Engraved and Printed by" [at lower left], "W. & A. K. Johnston, Edinburgh." [at lower right])

Caption: "Keith Johnston's General Atlas", "44".) Scale 1:6,047,811, 95 miles to an inch.

In the area of interest to this Cartobibliography the map is unchanged from the 1858 and 1861 eds. (ITEM NOS. 25.1372, 25.1373).

► "Lower California" is separated from "Sonora" by "Gulf of California". The boundary of "New Mexico" includes the angle that later would be southernmost Nevada. "Rio Colorado" is depicted with a solid line between the head of the gulf and a point north of the confluence of "Rio Gila", a dotted line from there to a point south of the confluence of "Bill Williams Fork"/"Rio S. Maria" [labeled as both], a solid line from there to the boundary point at the angle (today's California-Nevada-Arizona triple point), and upstream from there as a dotted line to the confluence of "Green River" and "Grand River", which also are depicted in their lower courses by dotted lines. The lower courses of tributaries "Rio San Juan", "Rio Colorado Chiquito" (Little Colorado River), "Yampais Cr.", and "Santa Clara" (Virgin River) are all depicted by dotted lines, although their upper courses are drawn with solid lines. A tributary (not labeled) from the south in the Grand Canyon area (Cataract Creek) is likewise drawn with a dotted line in its lower reach. The Colorado's course through the Grand Canyon is only figurative.

Knight, William H.

WHEAT V:1061 [with illustration facing p. 74]

1863 25.1029

Bancroft's map of the Pacific States. Compiled by W^m H. Knight. Published by H. H. Bancroft & Co. Booksellers and Stationers, San Francisco, Cal. 1863.

Marcy, Randolph B.

1863 25.883

*The prairie traveler, a hand-book for overland expeditions. With illustrations, and itineraries of the principal routes between the Mississippi and the Pacific, and a map. * * * Edited (with notes) by Richard F. Burton . . . London: Trübner and Co., 251 pp., map, 24 pp. advertisements.*

See under Itineraries (no illustrations in this ed.): "Wagon-road from San Antonio, Texas, to El Paso, N.M., and Fort Yuma, Cal.", pp. 217-219; "From Fort Yuma to San Diego, California", pp. 219-220; "From El Paso, New Mexico, to Fort Yuma, California, viâ Santa Cruz", pp. 220-221; "Lieutenant E. F. Beale's route from Albuquerque to the Colorado River", pp. 230-231; "Captain Whipple Route from Albuquerque, New Mexico, to San Pedro, California", pp. 231-234; "From Fort Yuma to Benicia, California", pp. 234-236; "From Fort Thorne, New Mexico, to Fort Yuma, California", pp. 237-239; and **MAP** (see Marcy, 1859, **ITEM NO.** 25.882).]

Mowry, Sylvester

WHEAT V:1076

1863 25.1070

Outline Map of Sonora & Arizona, including the "Sierra Madre," Compiled from Authentic Sources, and personal Observation, for the Geography & Resources of "Arizona & Sonora" by Sylvester Mowry, of Arizona, 1863. Fishbourne Lithog. 529 Clay St. San Francisco. J. B. Mills C. E. Delt.

In: The geography and resources of Arizona and Sonora: An address before the American Geographical and Statistical Society. . . New York, February 3, 1859. A new edition, with an appendix. San Francisco and New York: A. Roman and Co., 124 pp.

Ransom, Leander, AND Doolittle, A. J.

WHEAT V:1070

1863 25.1356

New Map of the State of California Exhibiting the Rivers, Lakes, Bays and Islands, with the principal Towns, Roads, Railroads, and Transit Routes to the Silver Mining Districts of Nevada Territory. Also the established Meridian, Standard, Range and Township Lines; to which is added County Boundaries and United States Land Districts. Carefully compiled from United States and other Reliable Surveys by Leander Ransom and A. J. Doolittle, 1863. Published by W. Holt, 305 Montgom^y St. San Francisco. ("Entered according to act of Congress in the year 1862 by Warren Holt, in the Clerks office of the District Court of the Northern District of the State of California.") (Lith. by L. Nagel, 529 Clay St.)

► At the southeast corner of the map, the "Colorado River" is drawn only generally and without significant labeling between the upper international boundary with Mexico (continued due southward into Mexico along a straight, slightly sinuous course to the edge of map) and the confluence of "Virgin River". In the right border of the map, a short line indicates "Bill Williams R."

Weller, Edward

1863 25.2407

The World on Mercators Projection by Edw^d Weller, F.R.G.S. The Dispatch Atlas.

In: The Dispatch atlas. London: "Weekly Dispatch" Office.

► A river is delineated on a straight southwesterly course from headwater to the Gulf of California (not labeled); it is labeled "Green R." on the headwater reach between headwater and an unlabeled tributary from the east (the San Juan River, probably), implying that the entire river is the Green River. Unlabeled tributaries (not labeled) arrive from the northwest, which are probably the Virgin River and the supposed Mohave River. "R. Gila" arrives independently at the head of the gulf from the east-northeast.

1864

Anderson, Allen

WHEAT V:1090 [with illustration facing p. 128]

1864 25.4

Map of the Military Department of New Mexico Drawn under the direction of Brig. Gen. James H. Carleton by Capt. Allen Anderson, 5th U.S. Infantry, Acting Engineer Officer. 1864. ("Accompanying report of Brig. Gen. J. H. Carleton, U.S. Army Series 1 Volume LXVII".)

► "Colorado R." is depicted from the head of the "Gulf of California" to the present Utah-Arizona boundary. The Grand Canyon region is apparently drawn from the Egloffstein map of 1858 (published in Ives, 1861), with the confluence of "Rio de Lino or Colorado" (*sic*, Little Colorado River) represented at the confluence of Cataract Creek (not labeled). The routes of various exploration parties are shown.

Bromme, Traugott

- 1864 25.2414 **Karte der Westlichen Staaten und Gebiete. [In German.]**
INSET on: **Neueste Eisenbahn-Kanal-u. Post-Karte für Reisende in den Vereinigten Staaten von Nord-Amerika[,] Canada, Texas sowie Californien und den westlichen Staaten u. Gebieten. Nach J. Calvin Smith, H. S. Tanner u. andern neuesten Quellen bearbeitet. Verlag der Buchner'schen Buchhandlung in Bamberg.** ("Stahlstich, Druck u. Jlluminat. d. Kunst-u. geogr. Anst. v. Serz & C^{ie} in Nürnberg.") ("Karte zu Tr. Bromes Handbuch f. Auswanderer".)
 ► "R. Colorado" is delineated between the head of the Gulf of California (not labeled, which is off the map to the south) and the confluence of "Green R." and "Grand R." From that confluence the Colorado follows a course to the south, then southwest, receiving "Jabajoa R." (San Juan River) from the east and "R. Yaquesilla" (Little Colorado River) from the southeast and east, where it turns west for a short distance then southwest, following an irregular and arcing course from southwest to west to the confluence of "R. Virgin" from the northwest and north, then turns south toward the gulf. "R. Gila" is a tributary from the east at "S. Pablo" and "S. Pedro", where the river bifurcates, then rejoins at the head of the gulf. Of note is the misplacement of "Casas Grandes (Aztekasche Ruinen)" on the east side of the Colorado north of the Gila confluence.

Colton, J. H. [Colton, Joseph Hutchins]

- 1864 25.28 **Colton's map of California, Nevada, Utah, Colorado, Arizona, and New Mexico.** New York: J. H. Colton.
 Also shows parts of Oregon, Idaho, Nebraska, Kansas, Texas, and Mexico.
- WHEAT V:1099
- 1864 25.1250 **Colton's Map of the States and Territories West of the Mississippi River to the Pacific Ocean Showing the Overland Routes, Project Rail Road Lines &c. Published by J. H. Colton, N^o 172 William St. New York. 1864.**
 ► The Colorado River is labeled "Rio Colorado" in its lower reach between the head of the Gulf of California (not labeled) and the confluence of "Virgin River"; upstream from there it is labeled "Colorado River" to the confluence of "Green River" and "Grand River". "Big Canon of the Colorado" is labeled between the Virgin and upstream of the confluence of "Colorado Chiquito River". "Cataract Cr." is a tributary to the Little Colorado. The main course of the Colorado comes into the Grand Canyon about where Kanab Creek is situated, although "Diamond Cr." is shown as a tributary to the Colorado a short distance downstream of the confluence of the Little Colorado. "River San Juan" is shown as a tributary not far south of the confluence of the Green and Grand, in southern Utah. "Head of Navigation" is labeled at the mouth of the Virgin River. "Rio Vegas" (Las Vegas Wash) is a tributary to "Black Cañon."
- 1864 25.2472 **Map of the Atchison, Topeka & Santa Fe Rail Road. Prepared by J.H. Colton, 172 William Street, New York. 1864.** ("Printed by H. P. Cooper 117 Fulton St N.Y.")
 ► The rail routes are mostly projected. The base map depicts the "Colorado River" from the confluence of "Green River" and "Grand River", following a southwesterly course nearly to the Arizona-Utah boundary, thence westerly before turning again southwest into Arizona, after which it turns southeast to reach the confluence of "Colorado Chiquito River" just upstream from the confluence of "Diamond Cr." The geography follows decidedly a variant of Egloffstein's geography.

The Little Colorado follows a course to the northwest before turning southwesterly to the "Cataract Cr." confluence and, eventually, the main Colorado. "Big Cañon of the Colorado" is labeled in the area between the Cataract Creek confluence and the confluence of "Virgin River".

Fleury, E. de

- 1864 25.1317 **Nuevo Mapa de los Estados de Sonora, Chihuahua, Sinaloa, Durango, y Territorio de la Baja California Formado por E. de Fleury Ex Oficial de Plana Mayor en el Ejercito Frances, Ex Coronel de Artilleria e' Ingeniero en Gefe del Est^{do} de Sonora (Mexico).** San Francisco: A. Gensoul. [In Spanish.]
 ▶ "Rio Colorado" is shown between the head of "Golfo de California o Mar de Cortes" and "La Paz" in the United States. Also denoted are "Fuerte Yuma" and "Colorado City".
- 1864 25.727 **Nuevo Mapa de los Estados de Sonora, Chihuahua, Sinaloa, Durango, y Territorio de la Baja California Formado por E. de Fleury Ex Oficial de Plana Mayor en el Ejercito Frances, Ex Coronel de Artilleria e' Ingeniero en Gefe del Est^{do} de Sonora (Mexico) **
New map : Sonora[,] Chihuahua[,] Sinaloa[,] Durango & Lower California By Colonel E de Fleury. Ex Engineer in Chief of the State of Sonora. San Francisco: A. Gensoul [Adrien Gensoul]; and Paris: Ch. Albessard. [Title panels in Spanish and English.]
 ▶ "Rio Colorado" is shown between the head of "Golfe de California o Mar de Cortes" and "La Paz" in the United States. Also denoted are "Fuerte Yuma" and "Colorado City".

H. H. Bancroft and Co. [Bancroft, Hubert Howe]

WHEAT V:1093

- 1864 25.1248 **Bancroft's, Map of California, Nevada, Utah and Arizona, Published By H. H. Bancroft, & Comp^y Booksellers & Stationers San Francisco Cal. 1864.** ("Entered according to Act of Congress A.D. 1863, by H. H. Bancroft and Company . . .")
 ▶ "Colorado River" is depicted between a point south of the international boundary and southeastern Washington County, Utah, where it passes off the map to the east. "Big Cañon of the Colorado" is labeled, with "Colorado Chiquito (Little Colorado) or Flax R." a tributary from the east. "Cataract Cr." is shown as a tributary to the Little Colorado, near "Yampai's Village"; an upper tributary to Cataract is "Lava Cr." A short distance downstream on the Colorado is the confluence of "Diamond R." "North Side Mts." are labeled between the Colorado-Little Colorado confluence, thus portraying the erroneous geography of Egloffstein. In western Grand Canyon "Yampais Cr." is a tributary from the south. "Rio Virgin" is shown, with "Muddy R." a tributary to it, and Las Vegas Wash (not labeled) is a tributary to the Colorado in "Black Cañon".

H. H. Lloyd and Co.

- 1864 25.1519 **Map showing Loyal States in Green, what the Rebels still hold in Red, and what the Union Soldiers have wrested from them in Yellow.**
INSET ON: Presidential Campaign, 1864 [BROADSIDE]. ("Published by H. H. Lloyd & Co., 21 John Street, New York. B. B. Russell, 515 Washington Street, Boston. R. R. Landon, 88 Lake Street, Chicago.")
 ▶ The base map depicts "Rio Colorado" on an effectively straight course from the confluence of "Green R." and "Grand R." to the head of "Gulf of California", receiving tributaries en route, "San Juan R." from the east, "R. Jaquesila" (Little Colorado River) from the east, "R. S^t Maria" (Bill Williams River) from the east-northeast; "Rio Virgen" from the northwest (note confluence is downstream from the Bill Williams), and "Rio Gila" from the northeast. The Colorado is depicted as running parallel to and on the east side of the "Wahsatch M^{ts}:" from near the Grand-Green

confluence all the way to the gulf(!), with the Virgin River cutting through a pass to reach it.

Johnson and Ward [firm]

- 1864 25.1870 [CITATION FOR ATLAS VOLUME THAT INCLUDES **ITEM NOS.** 25.1871-25.1876 (below)]
Johnson's new illustrated (steel plate) family atlas, with physical geography, and with descriptions geographical, statistical, and historical, including the latest federal census, a geographical index, and a chronological history of the civil war in America. By Richard Swainson Fisher, M.D., Maps compiled, drawn, and engraved under the supervision of J. H. Colton and A. J. Johnson. ☞ The new plates, copyrighted by A. J. Johnson, are made exclusively for Johnson's New Illustrated Family Atlas. Others are the same as used in "Colton's General Atlas." New York: Johnson and Ward, successors to Johnson and Browning (successors to J. H. Colton and Company,) No. 113 Fulton Street, 123 pp. ("Entered, according to Act of Congress, in the year One Thousand Eight Hundred and Sixty-four, by A. J. Johnson, in the Clerk's Office of the District Court of the United States for the Southern District of New York.")
 Cover title: *Johnson's New Illustrated Family Atlas of the World with Descriptions.* (with ornamental "United States Seal").
 Ornamental half-title: *American Atlas.*
NOTE: *Due to the number of maps cited from this volume, and the remarkably diverse, contrasting chorographical notes made of them, each map is cited separately herein.*
- 1864 25.1871 **Johnson's Western Hemisphere By Johnson and Ward.**
In: Johnson's new illustrated (steel plate) family atlas [see **ITEM NO** 25.1870 for full citation], p. 11.
 ▶ "G. of California" separates "Penin^a of California" from "Chihuahua". "Colorado R." follows a generalized, southwesterly course before turning southward to the "R. Gila' confluence. En route it receives one tributary (not labeled, Little Colorado River?) from the southeast, at the confluence of which the Colorado bypasses a mountainous region to its north.
- 1864 25.1872 **Johnson's Map of the World on Mercator's Projection by Johnson and Ward.**
In: Johnson's new illustrated (steel plate) family atlas [see **ITEM NO** 25.1870 for full citation], pp. 13-14.
 ▶ "Gulf of California" separates "L. California" from "Mexico". "Colorado R." follows a generalized, south-southwesterly course before turning southward to the "R. Gila' confluence. En route it receives a small tributary from the east (not labeled, probably either the San Juan River or the Little Colorado River), a tributary from the north (where the Colorado turns to the south, thus probably the Virgin River), and a tributary from the northwest (probably the supposed course of what is shown on some contemporary maps at the Mohave River). Along most of its course to the Virgin confluence, the Colorado flows on the west side of a single cordilleran spine.
- 1864 25.1873 **Johnson's North America by Johnson and Ward.**
In: Johnson's new illustrated (steel plate) family atlas [see **ITEM NO** 25.1870 for full citation], pp. 15-16.
 ▶ "G. of California" separates "Lower California" from "Sonora". "Rio Colorado" arrives at the head of the gulf from the north. "Green R." and "Grand R." are depicted flowing parallel to each other; the Green's confluence with the Colorado is downstream from a short river reach where is known to be the eastern Grand Canyon. The "Grand R." receives "Rio San Juan" from the east, downstream of which arrives "Rio de Lino" (Little Colorado River) from the southeast. The Colorado follows a generalized west-southwesterly course through the region where the Grand Canyon is known to be, then receives "R. Virgen" from the northeast and north. Downstream

- from the Virgin confluence the Colorado is shown passing through a mountain range, which it then follows on the eastern side for most of its course to the Gila confluence.
- 1864 25.1874 **Johnson's New Military Map of the United States Showing the Forts, Military Posts &c. with Enlarged Plans of Southern Harbors From Authentic Data Obtained at the War Department Washington, Johnson and Ward.**
In: Johnson's new illustrated (steel plate) family atlas [see **ITEM NO** 25.1870 for full citation], pp. 20-21. ("Entered, according to Act of Congress in the Year One Thousand Eight Hundred & Sixty One, by Johnson & Browning, in the Clerk's Office of the District Court, of the United States for the Southern District of New York.")
 ▶ "Rio Colorado" arrives at the head of the Gulf of California (not labeled) from the north, along which are labeled "F!Mohave" and "F!Yuma". "Green R." and "Grand R." are depicted flowing parallel to each other; the Green's confluence with the Colorado is downstream from a short river reach where is known to be the eastern Grand Canyon. The "Grand R." receives only "Rio de Lino" (Little Colorado River) from the southeast. The Colorado follows a generalized west-southwesterly course through the region where the Grand Canyon is known to be, then receives "Virgin R." from the northeast and north. In the Grand Canyon region the river is shown to flow bounded by mountainous areas.
- 1864 25.1875 **Johnson's California, with Territories of Utah, Nevada, Colorado, New Mexico, and Arizona, Published by Johnson and Ward.**
In: Johnson's new illustrated (steel plate) family atlas [see **ITEM NO** 25.1870 for full citation], pp. 66-67.
 ▶ "Colorado River" arrives at the head of "Gulf of California" from the north, at "Montague I." Numerous place names are inscribed along the lower Colorado, which is itself labeled passing through "Great Colorado Val." In this reach it receives "Pah-ute Cr." from the west, and "Bill Williams Fk." from the east. The course of the Colorado River is remarkable for its implied definitive course that directly reflects the cartography of F. W. von Egloffstein of the J. C. Ives expedition of 1858, and published in 1861. The river follows a southwesterly course in Utah to the confluence of "Rio San Juan", which arrives from the east. From that confluence the river turns westward, continuing in Utah to a point south of "Virgin City", where it then turns southwesterly into Arizona where it flows on the west side of "North Side Mts." At the southern end of those mountains the Colorado turns to the southeast where it receives from the northeast the "Colorado Chiquito or Flax R." (which itself arrives originally on a northeastward course, receiving "Ctyaract Cr." at "Yampais Village". Here also is labeled "Colorado Cañon". South of the supposed Colorado-Little Colorado confluence, at the confluence of "Diamond R.", the Colorado turns northwestward to the confluence of "Rio Virgin", where is labeled "Head of Navigation". Also shown on the map are the routes of "Spanish Trail from Los Angeles to Albiquia New Mexico" and "Cap! Sitgreaves 1851".
- 1864 25.1876 **Johnson's Mexico by Johnson and Ward.**
In: Johnson's new illustrated (steel plate) family atlas [see **ITEM NO** 25.1870 for full citation], p. 68.
 ▶ "Gulf of California" separates "California" from "Sonora". "Rio Colorado" arrives at the head of the gulf at "Montague I." from the north and from off the map, receiving en route "Williams Fork" from the east and northeast and "Rio Gila" from the east and east-northeast. "Camp Yuma" is labeled at the Gila confluence. The region south of the Gila and east of the Colorado is labeled "Desert (Uninhabited) Isolated Mountains, without grass, wood or water. Vegetation chapparal and cacti".
- Ravenstein, August**
- 1864 25.2437 **Nord-U. Mittel-Amerika.** ("Zeichnung u. Modell vono Aug. Ravenstein in Frankfurt ^a/_{M.}") ("Stich, Prägung, Druck u. Verlag von B. Dondorf in Frankfurt ^a/_{M.}") [**In German.**]

In: Ravenstein, August, *Plastischer Schul-Atlas für die Erste Stufe des Unterrichts in der Erdkunde. Enthaltend die Karten von Deutschland, Europa, Asien, Afrika, Nord- und Süd-Amerika und Australien, nebst einem Ideal-Bild der physisch-geographischen Verhältnisse. In Relief geprägt und nach der physisch-geographischen Beschaffenheit (in einer besonderen Beigabe auch nach der politischen Einteilung) der Länder in Farben gedruckt. Vierte ganz umgearbeitete Auflage.* Frankfurt am Main: Stich, Prägung, Druck und Verlag von B. Dondorf.

Cover title: *Plastischer Schul-Atlas von August Ravenstein. Verlag von B. Dondorf in Frankfurt a/M.* ("Berlin_Geographisch-Artistishe Anstalt Ernst Schotte".)

► Raised-relief map on card stock, printed in colors. "Colorado" is delineated in print between "B. v. Californien" and unlabeled headwater, with two unlabeled tributaries from the east. "Gila" arrives independently at the head of the gulf. Only the headwater areas of the Colorado, its two tributaries, and that of the Gila display any relief; the highland is labeled "Ges[illegible]. Cordilleren v. N^d. Amer." Politically defined geographical areas are labeled with Roman numerals with separate key on the map.

Rosa, R.

1864 25.2007 **The American Continent. Topographical and Railroad Map of the United States, British Possessions, West Indies, Mexico and Central America. Compiled from the best Authorities, by R. Rosa, late Col. 46th Regt. N. Y. S. Vol. Published by Ch. Lubrecht & Co., 12 Frankfort Street, New York. 1864. Agents for Great Britain: Bacon & Co., 48 Paternoster Row, London, England. For Germany, Switzerland and Italy: Fr. Volkmar, Leipsic. Lubrecht & Co., Stuttgart. Revised Edition.** ("Entered, according to Act of Congress, in the year 1864, by Ch. Lubrecht & Co., in the Clerk's Office of the District Court of the United States for the Southern District of New York.")

Arizona is shown as a territory, with its northwestern angle that later would be southern Nevada.

► "Colorado River" is delineated between the Gulf of California and the confluence of "Green R." and "Grand R." Enroute it receives "Rio San Juan" from the east before turning to run westwardly north of the Arizona-Utah boundary, eventually turning southwest and southeast to reach the confluence of "Colorado Chiquito or Flax" that itself reaches the Colorado from the northeast after having received "Cataract Cr." from the southeast; the depiction is a variation of that on the Egloffstein map of 1858 (in Ives, 1861). The "North Side Mt." divides the Colorado and Little Colorado at this point. The Grand Canyon is labeled "Greut [sic] Canon of the Colorado" (Great Canyon of the Colorado) along its western and central sections then along the lower end of the Little Colorado. At the great bend where the Colorado turns to the south is the confluence of "Virgin Riv." from the northeast, where also the label appears, "Long Rapids, Head of navigation". "Bill Williams Fk" is a tributary from the east, and "Gila Riv." arrives at "F! Yuma and "Colorado City" from the east-northeast. The lower Colorado River region is crowded with labeling.

Una Sociedad Literaria

1864 25.938 **Estados-Unidos por Ramon Alaburn. [In Spanish.]**
In: *Novísimo diccionario geográfico, histórico, pintoresco universal, ó de todas las partes del mundo. Tomo Segundo.* [Ceh-G.] Madrid: Librería Española; Barcelona: Librería del Plus Ultra; and Habana: Librería la Enciclopedia, 940 pp., maps.
 ► See p. 195: "Colorado ó Rio-Colorado", and "Colorado-de-Occidente (Rio)". The map incidentally still depicts Mexico's northern border on the Gila River (though not labeled).

U.S. National Observatory, Superintendent

- 1864 25.1359 **The Washington Map of the United States by the Superintendent U.S. National Observatory Washington D.C. 1864.** ("S. Taintor & C^o 36, Dey, St. New York. Publishers.") ("Holmes, Harrison & C^o London.") ("Entered according to Act of Congress in the year 1861 by Robert P. Smith in the Clerks Office of the District Court of the Eastern District of Pennsylvania.") ("Printed by Lang & Cooper, 117, Fulton St. N. Y.") Scale 1:3,000,000.
The Southwest is portrayed identically to the portrayal shown in the 1861 ed. (ITEM NO. 25.1358), and the four **INSET** maps are the same. See the 1861 ed. for full remarks.

U.S. Treasury Department

- 1864 25.1032 **Statistical map of the United States of America.** ("Bowen & C^o lith. Philada.")
WHEAT V:1110 [with illustration facing p. 108]
► An outline map, displaying existing and project railway routes. "Note" in title panel by U.S. Treasury Department, July 1864, includes, ". . . the Southern Pacific is an anticipation of events." The "South Pacific Railway" is delineated across Indian Territory, Texas panhandle, and northern New Mexico and Arizona, where in mid-state in turns southwestward to the head of the Gulf of California. "Colorado R" is depicted between the gulf and the confluence of the Green and Grand Rivers (not labeled); the Grand Canyon region is conjectural. The only tributaries to the Colorado shown are the Little Colorado River (not labeled) and "R Gila".

Wyld, James

- 1864 25.2028 **North America** ("London, James Wyld, Charing Cross.") ("Stockley sc.")
In: An atlas of the world, comprehending separate maps of its various countries. Constructed and drawn from the latest astronomical and geographical observations. By James Wyld, Geographer to Her Majesty, and H. ^{late} R.H. Prince Albert. London: Published by James Wyld, Successor to Mr. Faden. [Map 43.]
► "R. Colorado of the West" is delineated between the head of "Gulf of California" and headwaters in "Rocky Mountains"; following an effectively straight southwesterly course, receiving a tributary (not labeled) from the east (likely the San Juan River), "R Jaquesila" (Little Colorado River) from the east, and "R. Gila" from the east.
- 1864 25.2210 **Republic of Mexico. and Texas.** ("London, James Wyld, Charing Cross.") ("J. W. del.") ("Stockley sc.")
In: An atlas of the world, comprehending separate maps of its various countries. Constructed and drawn from the latest astronomical and geographical observations. By James Wyld, Geographer to Her Majesty, and H. ^{late} R.H. Prince Albert. London: Published by James Wyld, Successor to Mr. Faden. [Map 48.]
► "R. Colorado of the West" is delineated between the head of "Gulf of California" and headwaters in "Rocky Mountains"; following an effectively straight southwesterly course, receiving "R. Nabajoa" (San Juan River) from the east, "Jaquesila R." (Little Colorado River) from the east, "R. S. Maria" (Bill Williams River) from the east, and "R. Gila" from the east. At the Little Colorado confluence is the label "Puerto Bucarelli" (Puerto de Bucareli). West of the Colorado is a parallel river, which is labeled at its headwater "R. de las Piramides" (see [remarks](#) on the "river of the sulfurous pyramids" in the Notes for Section 2), then depicted by a dashed line until "R. de los Martires" is depicted by a solid line, after which it is again depicted with a dashed line.

1865

Colton, J. H.

- 1865 25.1703 **Colton's Map of California, Nevada, Utah, Colorado, Arizona & New Mexico. Published by J.H. Colton 172 William St. New York.** ("Entered according to Act of Congress, in the Year 1855 [*sic*], by J. H. Colton—in the Clerks Office of the District Court of the United States for the Southern District of New York.")

In: Colton's general atlas, containing one hundred and eighty steel plate maps and plans, on one hundred and eight imperial folio sheets, drawn by G. Woolworth Colton. Letter-press descriptions, geographical, statistical, and historical, by Richard Swainson Fisher. New York: J. H. Colton Co., and London: Bacon and Co.

► The Arizona boundary is depicted with the Nevada angle of "Rio Arriba" county at northwest corner. The Gila River international boundary is labeled, "Surveyed by Mexican B^{dy} Commission", and the Gadsden Purchase boundary is labeled, "Boundary Line between United States & Mexico according to the Gadsden Treaty June 20th 1854. this line was run by Major Emory". In its lower course the Colorado River is labeled "Rio Colorado" and in its upper course "Colorado River". The river is depicted between the head of the Gulf of California (not labeled) and the confluence of "Green River" and "Grand River"; its reach in Mexico is shown on a very sinuous southward course, receiving "New River" from the northwest about one third of the distance above the gulf, and in this reach are various places labeled, including "Algodomes" [*sic*], "Willow Woods", "Ogdens Landing", and "Sierra Nevada Anchorage". "F^t Yuma", "Colorado C.", and "Arizona City" all are labeled at the "River Gila" confluence. From the Grand-Green confluence through "Big Cañon of the Colorado" the Colorado is labeled "Colorado River". Downstream from the Grand-Green confluence, the Colorado's course is southwestward, receiving "River San Juan" from the east; before reaching the Utah-Arizona boundary it turns due west, eventually turning southwestward and crossing that boundary due north of the mapped "Cataract Cr." confluence (see further), then turns southeastward to a point north-northwest of the "Diamond Cr." confluence, thence turns south-southwest to Diamond Creek and west-northwestward to the confluence of "Virgin River" at "Head of Navigation" above the confluence of "Rio Vegas" (Las Vegas Wash) and the head of "Black Cañon". "Colorado Chiquito River" (Little Colorado River) follows a northwestward course before turning sharply to the southwest, receiving "Cataract Cr." at "Yampais Vill." where it turns briefly northwestward before receiving a tributary (not labeled) from the northeast (a Kanab Creek extension?). From that point it turns southwestward to its confluence with the Colorado, at the point aforementioned north-northeast of the Diamond Creek confluence. All in all, a remarkable confusion not even closely following the courses suggested by the Egloffstein maps.

G. W. and C. B. Colton and Co.

- 1865 25.1584 **Map showing the relation of Mobile & New Orleans to the Ports of Mexico[,] Central America and the West Indies".**

INSET ON: *Map Showing the New Orleans, Mobile & Chattanooga Railroad and its Connections. prepared by G. W. & C. B. Colton & C^o 172 William St. New York.* ("Entered according to Act of Congress in the year 1865 by G. W. & C. B. Colton & C^o in the Clerks Office of the District Court of the United States for the Eastern District of New York.") ("Maps of Every Description to accompany Reports, Prospectuses etc. Drawn and Engraved, Printed & Colored at G. W. & C. B. Colton & Co's Map Establishment 172 William St. New York.")

► The inset map portrays parts of North and South America. "R Colorado" is shown quite generally from the confluence of "Green R." and "Lit. Colorado R." to the head of "Gulf of California". "Grand R." and "R. S. Juan" have a common confluence

from which the stream flows west a short distance to enter the Little Colorado River a short distance above the Little Colorado's confluence with the Colorado. "R. Gila" is a tributary to the Colorado some distance before the latter reaches the gulf.

These base maps also seem to have been used for other railroads during this time period.

Gird, Richard

WHEAT IV:1122

1865 25.43

Official Map of the Territory of Arizona. With all the recent explorations Compiled by Richard Gird C. E. Commissioner. Approved by John N. Goodwin, Governor. In accordance with an act of the legislature, approved Oct. 23^d 1864. We hereby certify that this is the Official Map of the Territory of Arizona, and approve the same. John N. Goodwin [signature] Governor. R. C. McCormick [signature] Secretary. Prescott October 12th 1865. Published by A. Gensoul. Pacific Map Depot N^o 511 Montgomery St. San Francisco. ("Lith. Britton & Co. San Francisco.") Scale 1 inch = 15 miles.

Folded, in case. Case title: **Gird's Official Map of the Territory of Arizona. A. Gensoul, Publisher.**

► Arizona is figured with its original northwest angle that today is southern Nevada. "Colorado River" is delineated between the head of "Gulf of California" (that separates "Lower California" from "Sonora") and the Utah boundary. In the Grand Canyon region the geography represents that of the Egloffstein map in Ives' volume (1861) on the Colorado River exploration. The river and tributaries in this region are delineated by single contours that suggest canyon reaches. "Big Cañon of the Colorado River" is labeled in the western and central parts of the canyon, where "Flax River or Colorado Chiquito" (Little Colorado River) reaches the Colorado. "Cataract Cr." is a tributary to the Little Colorado; its upper reaches are separately labeled "Park Cr.", "Lava Cr.", and "Cedar Cr." Features in the northern part of the Lower Colorado River area are labeled according to the Egloffstein map but include "Callville" at "Present Head of Navigation", above "Fortification Rock", and farther upstream at the confluence of "Yampa Cr." from the south is labeled "Supposed Head of Navigation"; there also "Road to Salt Lake" is labeled arriving from the north. In the Colorado River delta region, "Hardys Colorado" is shown arriving with the Colorado at the head of the gulf, and "Cocopa Slough" connects the two streams. Below "Ogdens Landing" a separate stream departs from the Colorado and proceeds to "Victoria Bay" that is an inlet of the gulf at "Port Isabel". "Fort Yuma", "Colorado City", and "Arizona City" are all labeled near the confluence of "Gila River".

Goldthwait, J. H. [Goldthwait, Jonathan H.]

WHEAT V:1115

1865 25.1251

Map of the Territories & Pacific States to accompany "Across the Continent" by Samuel Bowles. ("Engraved by J. H. Goldthwait".) ("Printed by Cooper & Stone 100 Nassau S^t") ("Entered according to Act of Congress in the year 1865 by J. H. Goldthwait in the Clerks Office of the district Court of the U.S. for the Southeⁿ District of New York".)

In: Bowles, Samuel, *Across the continent: A summer's journey to the Rocky Mountains, the Mormons, and the Pacific States, with Speaker Colfax.* By Samuel Bowles, Editor of *The Springfield (Mass.) Republican*. Springfield, Massachusetts: Samuel Bowles and Co.; New York: Hurd and Houghton, 438 pp. + advertisements, map.

This book is extralimital to this Cartobibliography, except for the map.

► "Colorado R." is depicted between the head of the "Gulf of California" and north of the confluence of "Lit. Colorado". The upper portion of the Little Colorado is labeled "Colorado Chiquito". "Bill Wms. Fk." and "Rio Gila" are the only other tributaries shown. The Virgin River (not labeled) is suggested by a faint, short tributary drawn from the west at the great bend of the Colorado, north of "Explorers Rock". Between the confluence of the San Juan River (not labeled) and a point north

of the confluence of the Little Colorado, spanning the "Utah"-Arizona boundary, the river is depicted by a dashed line. A short distance north of the San Juan confluence, in southernmost Utah, is depicted the confluence of "Green River" and "Grand R." The Colorado, between the great bend and north of the Little Colorado confluence, as well as the lower course of the Little Colorado and tributaries to it (not labeled), is demarcated by hachures that indicated an encanyoned stretch.

NOTE: Wheat (1963, Volume V, p. 397) indicates for the printer of the map, "Printed by G. W. & C. B. Colton N. Y.", which differs from the information seen for this citation; it may be a variant.

Hartley, William B.

NO DATE 25.50

Hartley's map of Arizona from official documents. Office 32 Pine St. N.Y. [No imprint.] [1865?]

Library of Congress copy includes manuscript notations, "[1865]" (square brackets thus) and "Drawn & Eng J.C. Smith N.Y."

► "Colorado River" depicted to the "Gulf of California". The river in the Grand Canyon region is labeled "Canon of the Colorado R". "Rio Colorado" is depicted along a most unusual route between the confluence of the "Green River" and "Grand River", passing to the west of the "North Side Mts." and reaching the confluence of "Little Colorado R". enroute Cataract Creek (not labeled) at "Yampas Village".) Farther downstream, still on a southerly course before turning westward, is the confluence of Diamond Creek (not labeled) and the notation "Hualpais Village". The lower Colorado River region includes labels taken from the Ives Expedition; "Head of Navigation" is noted north of "Fortification Rock". Also, there are no labels on the river in Mexico except "Point Invincible Head of Navigation".

Holdredge, Sterling M.

1865 25.1107

WHEAT V:1123 [maps; with illustrations facing pp. 129, 136, 137
(Arizona map shown on page facing p. 129)]

[Map of Arizona.]

In: State, territorial and ocean guide book of the Pacific: Containing the time and distance tables, rates, fares and freight tariff, of all steamship, steamboat, railway, stage and express lines, on or connecting with the Pacific Coast and interior, including California, Oregon, Nevada, Washington, Idaho, Utah, New Mexico, Arizona, British Columbia, Vancouver's Island, Central and South America, and Mexico. Also, rates of postage to all parts of the world; time of arrival and departure of mails, etc. To which is added nine large and accurate maps, showing principal towns, routes of communication, etc. San Francisco: Sterling M. Holdredge, 160, xlviii pp., 9 maps.

Wrapper title: **State, territorial and ocean guide book of the Pacific.**

The lower-case Roman numeral pages are advertisements, interleaved through the volume.

► On the Arizona map, "Colorado River" is depicted between "Gulf of California" and the Utah-Arizona boundary. It is peculiarly drawn in the Grand Canyon region between the confluences of "Rio Virgin" and "Colorado Chiquito", where in addition to "Cataract Cr." shown as a tributary to the Little Colorado there is a peculiar, unlabeled tributary headed southwest from Utah before turning southeastward to a confluence with the Colorado between the Little Colorado and "Diamond Riv", which is reminiscent of other maps that show the Green River reaching the Colorado in this area; and if so, then that part of the Colorado above that confluence would be the Grand River, to which the Little Colorado is a tributary.

Kiepert, H., AND Gräf, C. [Kiepert, Heinrich, AND Gräf, Carl]

- 1865 25.683 **Die Vereinigten Staaten von Nord America nebst Canada. Neue berichtigte Ausgabe.** [In German.]
In: Graf, C., Graf, A., and Bruhns, C. (eds.), *Hand-Atlas der Erde und des Himmels. In siebenzig Blättern. Zweiundvierzigste Auflage.* Weimar: Verlag des Geographischen Instituts. Scale 1:8,000,000. ("Beirbeitet und gezeichnet von H. Kiepert. Revidirt von C. Gräf 1865". "Gestochen von C. Poppey jun.")
 ► In the region of interest to this Cartobibliography, this map is with the exception of changes in nomenclature effectively unchanged from the 1855 ed. (see Kiepert, [ITEM NO. 25.682](#)). The lower Colorado River is labeled "R. Colorado"; the river where it is conjecturally drawn in the Grand Canyon region is labeled "Colorado del Occidente". "R. Colorado" extends from "R. Verde (Green R.)" to "Golf v. Californien (Mar Bermejo) d. i. Roches Meer" but is indicated conjecturally by dashed lines in the Grand Canyon region. "R. Verde" extends conjecturally to the Colorado in the canyon region. "Grand R." parallels the Green River and reaches a short "definitively" drawn stream that is a tributary to "R. de Lino (Colorado Chico [*sic*])"; in turn, the Little Colorado is drawn conjecturally to the Colorado. At "Yuma" is also labeled, "Hattaiki (Casas Grandes)". A trail from Santa Fe to the West Coast by way of Yuma is labeled, "Gewöhnliche Strasse der Aus wanderer."

McCormick, Richard C.

- 1865 25.887 **General Outline Map of Arizona.** ("A. Brown & Co. 65 Liberty St. N.Y.")
In: *Arizona: Its resources and prospects. A letter to the editor of the New York Tribune, (Reprinted from that journal of June 26th, 1865.)* New York: D. Van Nostrand, 22 pp., map.
 ► Generalized depiction of "Colorado River" shown from "Gulf of Califor?" to north of confluence with "San Juan River", Utah. "Little Colorado River" confluence is in central Grand Canyon region (canyon not labeled).

Mitchell, Samuel Augustus [Sr.]

- 1865 25.1035 **XIX California, Oregon, Idaho, Utah, Nevada, Arizona and Washington.**
In: *Mitchell's new reference atlas for the use of colleges, libraries, families and counting houses, in a series of fifty-six copperplate maps, exhibiting the several countries, empires, kingdoms, and states in the modern and ancient world. Compiled from the latest authorities.* Philadelphia: E. H. Butler and Co. (Electrotyped by L. Johnson and Co., Philadelphia.)
 ► "Arizona T?" displays northwest angle that later became southern Nevada. "Colorado River" is displayed between "Gulf of California" and the confluence of "Green R." and "Grand R." The river course through the Grand Canyon region is drawn more or less directly between "Virgin R." and "R. de Lino" (Little Colorado River, which in its upper course is labeled "Little Colorado". Cataract Creek is labeled "Parke C." "Vegas Wash" is shown east of the confluence of the Virgin on the north side of the Colorado and opposite the confluence of a stream (not labeled) entering from the south. "Eldorado Canon" is labeled to the west of the confluence of the Virgin, along a tributary (not labeled) that otherwise should be Las Vegas Wash. The projected "Southern Pacific Railroad Route" is delineated in the 35th parallel course. Compare also S. A. Mitchell, Jr. (1868, [ITEM NO. 25.1036](#)).

Stanford, Edward

- 1865 25.2113 **The United States of North America.** ("London: Edward Stanford, 6, Charing Cross, Decr. 1st 1861.") ("Constructed & Engr.^d at Stanford's Geographical Establishm^t London.")

In: The family atlas containing eighty maps, constructed by eminent geographers, and engraved on steel, under the superintendence of the Society for the Diffusion of Useful Knowledge, including the Geological Map of England and Wales, by Sir I. Murchison, F.R.S., the star maps by Sir John Lubbock, Bart. and the plans of London and Paris, with the new discoveries and other improvements to the latest date. And an alphabetical index. London: Edward Stanford, p. 63.

► In the Southwest it is the same as that shown in Stanford (1861): The territories of "New Mexico" and "Arizona" are delineated with the former north of the latter, with New Mexico including the angle that today is southernmost Nevada. "Rio Colorado" is shown between "Gulf of California" and the confluence of "Green R." and "Grand R." From that confluence its course is southwest to south, crossing over the Utah-New Mexico boundary, then arcing to the west to the confluence of "R. Virgin" before turning southward to the gulf. At the confluence of "Rio de Lino or Little Colorado R.", which arrives from the southwest, the Colorado's course is briefly due west before turning southwestward and then west again to the Virgin. West of the confluence of "Rio S^o Juan" in southeastern Utah (not far south from the Green-Grand confluence) is the label "S. Lanterna" that more rightfully should be in "New Mexico". Only "William Fork" and "Rio Gila" are tributaries to the lower Colorado.

NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

1866

H. H. Lloyd and Co.

1866 25.1136 **New Map of the U.S. Territories and Pacific States Published by H. H. Lloyd and Co. 21 John St. New York. 1866.**

One of two complementary maps in folder with cover title, **H. H. Lloyd & Co's New County Map of the United States**. The other map in this folder is *New Map of the United States*, which is restricted to the eastern U.S. as far as the Great Plains.

► In the Southwest on the map of the territories and Pacific states, the Colorado River is labeled "Colorado River" in its lower reach, "Rio Colorado" in its upper reach; between the "Gulf of California" and the confluence of "Green River" and "Grand River". Its course is drawn somewhat fancifully, a wavering line along its general course between the head of the Gulf of California and the great bend where "Rio Virgen" and a stream (not labeled; Las Vegas Wash) strike the Colorado independently. In the Grand Canyon area, the course is mostly east-west between the Virgin and the confluence of a stream (not labeled; Cataract Creek). Upstream from that point the Colorado follows a similarly fanciful wavering line northeast to southwest between the confluence of "Green River" and "Grand River", receiving en route "Rio San Juan" and "Colorado Chiquito R." [*sic*], both from the southeast.

Holdredge, Sterling M.

WHEAT V:1123 [maps; Wheat mentions the 1866 ed. as well as the 1865 ed., in which the maps are the same]

1866 25.1108 *State, territorial and ocean guide book of the Pacific, containing the time and distance tables, rates, fares and freight tariff, of all steamship, steamboat, railway, stage and express lines, on or connecting with the Pacific Coast and interior, including California, Oregon, Nevada, Washington, Idaho, Utah, New Mexico, Arizona, British Columbia, Vancouver's and Sandwich Islands, Central and South America, Mexico. Also, rates of postage to all parts of the world; time of arrival and departure of mails, etc. To which are added nine large and reliable maps, showing principal towns, routes of communication, etc. San Francisco: Sterling M. Holdredge, XIII, 182, xlviii pp., 9 maps.*

Wrapper title: *State, territorial and ocean guide book of the Pacific.*

The lower-case Roman numeral pages are advertisements, interleaved through the volume.

Note p. V, notice of "A New **Map** of Arizona" (*i.e.*, Gird, 1865, **ITEM NO.** 25.43) that is "now in the hands of the lithographer", with the appended remark, "The map of Arizona accompanying the 'Guide Book' is compiled from Mr. Gird's map, and was pronounced by General Mason as correct in every particular"

Knight, William H.

WHEAT V:1132

1866 25.1247

Bancroft's map of the Rocky Mountain States, and the Pacific coast. Compiled by W^m H. Knight. Published by H. H. Bancroft & Co. Booksellers and Stationers, San Francisco, Cal. 1866.

► "Colorado R." is depicted between "Mexico" and the confluences of "Green R.", "Grande R." (Grand River), and "San Juan R." South of "Fort Yuma" and "Arizona City" the river continues some distance into Mexico before passing off the map, with no indication of the Gulf of California. The "Green" and "Grande" parallel each other, both coming to "Big Cañon of the Colorado"; it is unclear from the drawings whether "Grande" is implied to be a tributary to the San Juan or vice versa. "Little Colorado or Flax R." is shown as a tributary to the Colorado in the eastern Grand Canyon. "Virgin R." is shown as a tributary, into which "Muddy Cr." is in turn a tributary. "Bill Williams Fork" is shown. "Gila R." is a tributary to the Colorado at Arizona City.

Schönberg and Co.

WHEAT V:1147

1866 25.1252

Schönberg's Map of California, Oregon & Nevada with part of Idaho, Utah & Arizona. New York: Schönberg and Co.

► "Rio Colorado of the West" is depicted from the confluence of "New R." in Mexico (where it passes off the map) and southeastern Utah (where it passes off the map to the east). Hachured markings along the course of the river between the confluence of "Virgen Riv." and the confluence of "Little Colorado R." suggest an encanyoned stretch of the river. "Cataract Cr" is a tributary to the Little Colorado, with "Yampais Village" at the confluence. A short distance downstream from the Colorado-Little Colorado confluence is a short tributary (not labeled) from the southeast; and north of the confluence are two short tributaries (not labeled) from the northwest. North of the Utah-Arizona boundary the Colorado is on an east-west course, depicted by a dotted line, passing off the map to the east. "Muddy R." is shown as a tributary to the Virgin, and Las Vegas Wash (not labeled) is shown between "Las Vegas" and the Colorado River south of "Callville".

U.S. General Land Office

WHEAT V:1153

1866 25.112

Sketch of public surveys in New Mexico & Arizona to accompany the annual report of the Commissioner of the General Land Office for 1866 : The Major & Knapp Eng Mfg & Lith Co. 71 Broadway N.Y. ("Department of the Interior General Land Office October 2nd 1866 Jos. S. Wilson [*facsimile signature*] Commissioner".)

► "Rio Colorado of the West" is labeled. "Big Cañon of the Colorado" is labeled between the confluence of "Virgin River" and the Arizona/Utah boundary. The river is drawn as a simple arc through this region, at the eastern end of which is the confluence of "Little Colorado R." to which "Cataract Cr" is a tributary. Just north of the territorial boundary, the river then is drawn as a dashed line, connecting along an approximately 130-mile east-west route with the "Rio San Juan". There are no streams shown coming from the north. In the western section, "Yampa Cr" is shown draining into "Red Lake", which in turn flows northeastward to the Colorado. "Callville" is marked "Present Head of Navig". In the northwestern part of Arizona in the so-called "angle" that today is southern Nevada, are labeled "Pah-Ute Co" and "Mohavee Co." [*sic*]. Also drawn in is "Whipple's Route to California (Not Considered Practicable)". Also drawn in is "Trail of the Colorado Exploring Expedition Lt Ives".

W. and R. Chambers [firm]

- 1866 25.550 *Chambers's parlour atlas : with descriptive introduction and copious consulting index.* Edinburgh: W. and R. Chambers, 154 pp., Maps 1-36, Index 85 pp.
See **MAP** 30, "North America", and **MAP** 32, "United States of North America".

1867

Andriveau-Goujon, Eugène

- 1867 25.725 **États-Unis (Etats de l'Ouest.)** Paris: E. Andriveau-Goujon. [In French.]
This map appeared with the two notations at upper-right of sheet, "Atlas Usuel N^o 30." and "Atlas Universel N^o 44." Published in a number of editions beginning in the 1860s, in *Atlas usuel de géographie moderne* and in *Atlas universel de géographie ancienne et moderne*.
▶ "Rio Colorado del Occidente" reaches the head of the Gulf of California where the label "Emb^{re} du Rio Colorado" appears. The river is drawn to the confluence of "R^o Virgen (S^{ta} Clara)", turning into the Grand Canyon region where it reaches the confluence of "R. Colorado Chico" and is connected with dotted lines with "R. Verde (Green R.)", "R^o Grande", and "R. S. Juan". Separating the Colorado from the Virgin is "S^{ra} de la Lanterna".
NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

Boyd, E. D.

- 1867 25.1520 **Map of Part of the United States Exhibiting the Principal Mail Routes West of the Mississippi River Compiled from the latest Information by E. D. Boyd 1867.**
This is the U.S. Post Office Department's first postal map of the western United States.]
▶ In the area of interest to this Cartobibliography, "Rio Colorado" is depicted generally along its lower course, and in what is the Grand Canyon region the relationships of it to "Colorado Chiquito" (Little Colorado River) are like that of the maps that reflect the Egloffstein geography reported by Ives (1861). Two mail routes are shown in this area: a southern route that crosses the Colorado at "Hardyville", just north of "Ft. Mohave", and a northerly route that reaches that point having come from Utah via "Callville" and through "Eldorado Cañon".

De Cordova, J. [De Cordova, Jacob]

- 1867 25.697 **J. De Cordova's map of the State of Texas compiled from the records of the General Land Office of the State by Robert Creuzbaur, Austin, 1867[.] New edition, revised and corrected to date.** New York: J. H. Colton and Co.
▶ A quadrangular **INSET** map portrays the southwestern portion of North America with state and territorial boundaries shown. The Green River (not labeled), "Grand R." and "R. San Juan" have a nearly coincidental confluence, downstream of which is "Rio Colorado", which passes through "Big Canon" (labeled only at its western end). What had been in the 1856 ed. at least, the formerly labeled "Green R." is shorter and without label, but otherwise in the same respective position with the "Grand R." and "Rio de Lino". Nearer the Gulf of California, "Ft. Yuma", "Colorado City", and "Gila City" are shown together. The 35th and 32nd parallel Pacific railroad routes are shown, though not labeled.

Keeler, W. J.

WHEAT V:1170

- 1867 25.56 **National map of the territory of the United States from the Mississippi River to the Pacific Ocean. Made by the authority of the Hon. O. H. Browning, Secretary of the Interior, in the Office of the Indian Bureau, chiefly for government purposes under the direction of the Hon. N. G. Taylor, Commis^r of Indian Affairs & Hon. Chas. E. Mix Chief Clerk of the Indian Bureau: Compiled from authorized explorations of the Pacific rail road routes, public surveys, and other reliable data from the departments of the government at Washington, D.C. by W. J. Keeler, civil engineer. ("N. Du Bois, Draughtsman.") ("J. F. Gedney, Lithographer, Engraver & Plate Printer, Washington, D.C.")**

► "Colorado River" is shown between the confluence of "Green River" and "Grand River" and the "Gulf of California". Between the confluence of the "Rio San Juan" and what is the western Grand Canyon region, the Colorado's course is conjecturally southwest, receiving "Cataract Cr." from the east where the river turns south-southwestward toward Diamond Creek (not labeled). "Colorado Chiquito" is shown as a tributary to Cataract Creek from the east-southeast just above Cataract's confluence with the Colorado. Closer to Diamond Creek a tributary (not labeled) reaches the Colorado from the northwest.

WHEAT V:1171 [with illustration facing p. 205]

- 1867 25.1034 **Map of the Routes of the Union Pacific Railroads with their Eastern Connections. Compiled from authorized Explorations, Public Surveys, and other reliable data from the Departments of the Government. by W. J. Keeler, Civil Engineer. November, 1867. ("Lith by J. F. Gedney, Washington.")**

► The projected 35th parallel route of the "U.P.R.W.E.D." [Union Pacific Railway Eastern Division] is shown. "Colorado River" is depicted between "Pt. Invincible" at the head of the Gulf of California and the confluence of "Green River" and "Grand River". The river is drawn conjecturally in the Grand Canyon region. "Colorado Chiquito" (Little Colorado River) is shown as a tributary from the east, with its confluence more or less in the middle Grand Canyon; and "Cataract Cr." is shown as a tributary to the Little Colorado. Also on this map, hand colored, are gold, silver, copper, and quicksilver mining areas, which include prospects in the lower Colorado River area, and also several silver prospects on the northwestern and western side of the San Francisco Peaks (not labeled) and south of "Walapi Sprs." (Peach Springs), which notably are along the projected 35th parallel railway.

Knight, William H.

WHEAT V:1164

- 1867 25.1030 **Bancroft's map of the Pacific States. Compiled by W^m Henry Knight. Published by H. H. Bancroft & Co. Booksellers and Stationers, San Francisco, Cal. 1867.**

Wheat (1963, Volume V, p. 223) calls this the "mother map" of a series of Bancroft maps.

► "Colorado Riv." (label below Yuma), "Colorado River" (label upstream) depicted from the U.S.-Mexico border to the confluence of the "Grand River" and "Green River". Callville is noted as "Present Head of Navigation", downstream from the confluence of "virgin Riv." "Big Cañon of the Colorado River" is labeled. "Red Lake" ("dry except during raining Season") in "Wallapi Valley" (Hualapai Valley) is depicted with "Yampi Cr." as a source and with an outlet to the Colorado River in western Grand Canyon where it is labeled "Supposed Head of Navigation". A "Proposed Wagon Road to Salt Lake [City]" is shown reaching the Colorado from the north at this point. "Diamond R." is shown as well as a tributary (not labeled) from the north that has its confluence with the Colorado just upstream from Diamond Creek. "Colorado Chiquito or Flax River" (Little Colorado River) is depicted with its confluence in central Grand Canyon, and "Cateract [sic] Cr." is shown as a tributary to it. In the "Colorado Desert" the entire Salton Basin is shown as "Salt Lake Dry except during rainy season Supposed to be below the level of the Sea".

Marcou, Jules

- 1867 11.5369 **Distribution de l'or et de l'Argent aux États Unis par Jules Marcou.** ("Gravé par Erhard 12 r Duguay-Trouin", "Imp Jeanson, Paris", "Bulletin de la Société de Géographie", "Novembre 1867".) [In French.]
In: Distribution géographique de l'or et de l'argent aux États-Unis et dans les Canadas. *Société de Géographie, Bulletin* (Paris), Series 5, 14 (November): 523-534.
 Map appears on pp. 523-534, scale 1:15,200,000. It displays gold and silver regions in the lower Colorado River region.
 ► Base map displays "Rio Colorado" between "Golfe de Californie" and the confluence of "R. Verde" (Green River) and "R. de l'Ours" (Bear River) in Utah; between that confluence and the confluence of "R. de Lina" (Little Colorado River) the river is labeled "Rio Colorado ou R. Verde", and in that reach the river receives from the east a tributary (not labeled) that may be the Grand River and another (not labeled) from the east-southeast that is the San Juan River. Through the upper Colorado reach the river follows a south-southwesterly course before turning west-southwest at the Little Colorado and proceeding directly to the confluence of the Virgin River (not labeled) before turning southward to the "R. Gila" confluence, where it then arcs south-southwesterly to south-southeasterly to meet the gulf.

Mitchell, Samuel Augustus, Jr.

- 1867 25.256 **Arizona and New Mexico.** Philadelphia: Samuel Augustus Mitchell, 1 sheet, scale 1:3,802,000.
 ► "Rio Colorado" sketched in only generally in Grand Canyon region. Of note: Pah Ute County is marked, and at the confluence of the "Lit. Colorado R." and Rio Colorado is marked "Yampais Village".
- 1867 25.1361 **County map of Utah and Nevada.** *In:* *Mitchell's new general atlas : containing maps of the various countries of the world, plans of cities, etc., embraced in fifty-eight quarto maps, forming a series of ninety-two maps and plans, together with valuable statistical tables.* Philadelphia: S. Augustus Mitchell, Jr. [Map 54, "Drawn and Engraved by W. H. Gamble Philadelphia".]
 WHEAT V:205 [with illustration facing p. 263]
 ► Although principally extralimital to this Cartobibliography, this map is cited here for the remarkable portrayal of "Colorado River", which after receiving "Rio San Juan" its course turns to the west then curves southwestward, crossing the Utah-Arizona boundary, after which it arcs to a due-south course at longitude 36° West from Washington, far before approaching "Rio Virgin", then passes off the map. The course of the Virgin River is shown reasonably, crossing the northwesternmost corner of Arizona.

Ransom, Leander, AND Doolittle, A. J.

- 1867 25.1357 **A New Map of the States of California and Nevada Exhibiting the Rivers, Lakes, Bays and Islands, with the principal Towns, Roads, Railroads, and Transit Routes to the Silver Mining Districts of Nevada Territory. Also the established Meridian, Standard, Range and Township Lines; to which is added County Boundaries and United States Land Districts. Carefully compiled from United States and other Reliable Surveys by Leander Ransom and A. J. Doolittle, 1867 W. Holt, 305 Montgom? St. San Francisco.** ("Entered according to act of Congress in the year 1863 by Warren Holt, in the Clerks office of the District Court of the Northern District of the State of California.") ("Lith. by Geo. H. Baker, S.F.")
 ► At the southeast corner of the map, the "Colorado River" is drawn only generally with a few labels between the upper international boundary with Mexico (continued due southward into Mexico along a straight, slightly sinuous course to the edge of map) and the confluence of "Virgin River". In the right border of the map, a short line indicates "Bill Williams R.", and, farther north above the confluence of

"Muddy Riv." with "Virgin River", a marginal notation, "Cotton Farm", with symbols at adjacent "St Joseph" and "Thomas" (St. Thomas).

Richardson, Albert D.

WHEAT V:1172

- 1867 25.911 [Map.] (Map drawn on wood by Tudor Horton; engraved by Fay & Cox.)
In: Beyond the Mississippi: From the great river to the great ocean. Life and adventure on the prairies, mountains, and Pacific coast. With more than two hundred illustrations, from photographs and original sketches, of the prairies, deserts, mountains, rivers, mines, cities, Indians, trappers, pioneers, and great natural curiosities of the new states and territories. 1857-1867. Hartford, Connecticut: American Publishing Co.; and Philadelphia, Cincinnati, Chicago, St. Louis, New Orleans, Atlanta, and Richmond: National Publishing Co.; and New York: Bliss and Co., 572 pp.
 See pp. 472-474, "Big Canyon"; on fold-out **MAP** it is labeled "Great Canyon"; and see illustration credits, p. vii. [Also in 1869 ed.]

Schönberg and Co.

- 1867 25.1994 **North America.**
In: Schönberg's atlas of the United States and Canada with Mexico and the West Indies. New York: Schönberg and Co.; San Francisco: H. H. Bancroft and Co.; and Chicago: Goodspeed and Co.
 ► "R. Colorado" is depicted between "Gulf of California" and headwaters, following an essentially straight southwesterly course until shortly before reaching the gulf, when it turns to the south. "R. Gila" arrives independently at the head of the gulf from the east. The Colorado receives two tributaries (not labeled) from the east.
- 1867 25.2485 **Schönberg's Map of California, Oregon & Nevada with part of Idaho, Utah & Arizona.**
In: Schönberg's atlas of the United States and Canada with Mexico and the West Indies. New York: Schönberg and Co.; San Francisco: H. H. Bancroft and Co.; and Chicago: Goodspeed and Co.
 The same as Schönberg and Co. (1866, **ITEM NO.** 25.1252).

Steiger, E.

- 1867 25.1698 **Karte von Californien und Theilen der benachbarten Staaten und Territorien. E. Steiger, New York, 1867. Drawn, Engraved & Printed by G.W. & C.B. Colton & C^o New York. [In German.]**
 ► "Rio Colorado" is depicted from south of the international boundary to what is the Grand Wash Cliffs area, where the river is shown following a course a little north of due west before abruptly turning south at "Head of Navigation" and "Callville" before entering "Black Cañon". South of the international boundary is the label "Willow Woods". The Salton Sea is labeled "G^t Dry Lake". Numerous place names are labeled along the Colorado's course.

U.S. Army Corps of Engineers [Corps of Topographical Engineers]

- 1867 25.97 **Old Territory and Military Department of New Mexico compiled in the Bureau of Topog^l Eng^{ts} of the War Dep^t chiefly for military purposes under the authority of the Secretary of War 1859 Partially revised and corrected to 1867.** ("Engraved by W. H. Dougal".)
 With extensive list of "Authorities".
 ► The course of "Rio Colorado of the West" in the lower Colorado River region is depicted reasonably well, including that part of its course from "Colorado City" and "Arizona City" to the head of the "Gulf of California". Between "Callville" and the confluence of "Diamond R." (noted also by "Indian Trail"), in "Big Cañon of the Colorado Riv.", the course of the river is depicted with a dotted line. In this reach

there is a label "Sup^d H^d of Navigation" from which point there is marked to the north, "Proposed Wagon Rd. to Salt Lake". Upstream from Diamond Creek the river is depicted by a solid line to a point near the confluence of "Cataract Creek" (which is in error because farther upstream matters are quite confused, reflecting the mapping reported by Egloffstein in Ives (1861). "Flax River or Colorado Chiquito" (Little Colorado River) approaches the region from the southeast, with a portion of its course depicted by a dotted line until its lowermost course, where Cataract Creek is shown as a tributary to it. From this confluence of the Little Colorado with the main Colorado, the main Colorado is depicted entirely by a dotted line between there and the confluence of "Green River" and "Grand River", with those two rivers farther upstream also depicted by dotted lines. The immediate area of that confluence, however, is depicted with "certainty", portrayed as encanyoned. In the western Grand Canyon area there is another tributary, depicted by a solid line, coming from the northeast before turning southeast to the Colorado with its confluence not far upstream from Diamond Creek.

U.S. General Land Office

WHEAT V:1168

- 1867 25.1037 **Map of the United States and territories, showing the extent of public surveys and other details. Constructed from the plats and official sources of the General Land Office, under the direction of the Hon. Jos. S. Wilson, Commissioner, by Joseph Gorkinski, Draughtsman, 1867.** ("Department of the Interior[,], General Land Office[,], Oct. 15th 1867. Jo^s S. Wilson [*facsimile signature*] Commissioner".)
- ▶ "Colorado River" is depicted between the "Gulf of California" and various supposed confluences in Utah. "Head of Navigation" is depicted at "Colville" (Callville). Between the confluences of "Rio Virgin" and "Rio Colorado Chiquito River" [*sic*] (Little Colorado River) is labeled "Big Canon". "Cataract R." is a tributary to the Little Colorado (Wheat, Volume 5, p. 214, misquotes as "Cateract R.", perhaps confused with Knight, 1867, ITEM NO. 25.1030). Upstream from the Little Colorado confluence the Colorado traces an east-west course, coming from the north from Utah where it is depicted only by a dotted line. The region through which the Colorado is drawn conjecturally also has a notation, "Unexplored". The manner in which the known portions of the "Grand R." and "Green River" are depicted with solid lines, although by appearances it seems that the Green is a tributary to "Yampah or Bear R." In any case, the continuing reaches of these rivers, to their confluences with the Colorado, are, like the Colorado, shown as dotted lines. The "Proposed Route of U.P. R.R. E.D[.]" is shown on the 35th parallel route. This map also depicts by hand-colored symbols various areas of mining interest, identified by their productive materials. Numerous prospects are depicted throughout the lower Colorado River region; and of interest are gold prospects shown in the western Grand Canyon.
- NOTE:* It is this map that John Wesley Powell likely had available prior to his 1868 explorations in the Rocky Mountains (*fide* Richard Quartaroli).

Warren, G. K. [Warren, Gouverneur K.]

- 1867 25.1524 **Engineer Bureau, War Department. Map of the Territory of the United States from the Mississippi River to the Pacific Ocean: Originally prepared to accompany the Reports of the Explorations for a Pacific Railroad Route; Made in accordance with the 10th & 11th sections of the Army Appropriation, Act of March 3rd 1853. Compiled from authorized exploratyonis and other reliable data by Lieut. G. K. Warren, Top'l. Eng'rs. In the Office of Pacific R.R. Surveys, War Dept. under the direction of B'v't. Maj. W. H. Emory Top'l. Eng'rs. in 1854. Capt. A. A. Humphreys, Top'l. Eng'rs. in 1854-1858. And partly recompiled and redrawn under the direction of the Engineer Bureau in 1865-66-67.** ("Engraved on stone by Julius Bien, New York.") Scale 1:3,000,000.
- With extensive list of "Authorities".
- ▶ "Rio Colorado" is depicted from the "Gulf of California" to the confluence of "Green River" and "Grand River". In what is the Grand Canyon region (not labeled),

canyon topography is drawn in such a fashion that it indicates the data are from Egloffstein's geography in Ives (1861), with "Little Colorado" (labeled farther upstream "Colorado Chiquito") meeting the Colorado in mid-canyon where the Colorado is presumed to come in from the northeast. The main Colorado from there to the Grand-Green confluence (as well as the lower reaches of those rivers) is depicted by a dotted line, as is also an unlabeled tributary from the east (San Juan River).

Watson, Gaylord

WHEAT V:1174

1867 25.1104

The American Republic and Rail-Road Map of the United States[,] British Provinces[,] West-Indies[,] Mexico and Central America[.] Compiled from the latest Official Sources. New York: Gaylord Watson. ("Engraved by Fisk & Russell N. York".)

Cover title: **Watson's Rail-Road Map of the United States[,] Mexico etc.**

► "Colorado River" is depicted between the "Gulf of California" and the confluence of "Grand Riv." and a river labeled confusingly far northward "Green Riv." The Colorado is shown only diagrammatically in the Grand Canyon region, where at its western end is the label "Big Cañon of the Colorado". Also at the western end is the confluence of the Colorado and "Colorado Chiquito or Flax R." (Little Colorado River), where also is shown "Yampas Village" at the confluence of the Little Colorado and an unlabeled tributary that is Cataract Creek.

1868**Fleming, C. [Flemming, Carl]**

1868 25.1080

Vereinigte Staaten von Nord-America. ("Lith. u. Druck u. Verlag v. C. Flemming in Glogau.") [In German.]

► "Rio Colorado del Occidente" is depicted between "Meerb. von Californien" and the confluence of "Green R." and "Grand River". Tributaries are "R. del Novajo od R. S. Juan", "R. Colorado Chiquito od Flax R." (Little Colorado River), "R. de la Virgen", and "Gila". The Little Colorado is shown as a tributary to the far western portion of where the Grand Canyon is situated. The entire reaches of these rivers, including their tributaries, are depicted with hachures as encanyoned.

Freyhold, Edward

WHEAT V:1185

1868 25.347

Head Quarters Corps of Engineers. War Department. Territory of the United States from the Mississippi River to the Pacific Ocean: Originally prepared to accompany the Reports of the explorations for a Pacific Railroad Route; Made in accordance with the 10th and 11th sections of the Army Appropriation Act of March 3rd 1853; Compiled from authorized explorations and other reliable data by Lieut. G. K. Warren, Top'l. Eng'rs, In the Office of Pacific R.R. Surveys, War Dept. under the direction of Bvt. Maj. W. H. Emory, Topl. Eng'rs, in 1854. Capt. A. A. Humphreys, Top'l. Eng'rs. in 1854-1858. Recompiled and redrawn under the direction of the Chief of Corps of Engineers by Edward Freyhold 1865-66-67-68. ("Engraved & printed by Julius Bien, N.Y.") Scale 1:3,000,000.

► "Rio Colorado" is depicted from the "Gulf of California" to the confluence of "Green River" and "Bunkara River" (Grand River); in the upper course the Colorado is labeled "Rio Colorado Grande". From near "Wallapi Valley" (Hualapai Valley) to "Supposed junction of the Rio Colorado & Flax Riv.", the Colorado is depicted by a dashed line, to the north of which, to "Rio Virgin" is blank on this map. On the south side of the river in the Grand Canyon area are two tributaries that are shown heading toward the Colorado: "Lava Cr." and "Parke Cr."; on other maps these are shown as tributaries to one or the other, or a single tributary, that is Cataract Creek. The "Little

Colorado or Flax River" is depicted flowing northwestward to the Colorado. Various routes of exploration are also delineated.

NOTE: It is this map that John Wesley Powell likely had available prior to his 1869 Colorado River expedition (*vide* Richard Quartaroli).

H. H. Lloyd and Co.

1868 25.2330 **Atlas of the United States. Kansas and Southern Territories. Published for H. S. Stebbens by H. H. Lloyd & Co. New York.**

In: *Atlas of the State of Ohio : from surveys under the direction of H. F. Walling, to which is added an atlas of the United States.* New York: H. H. Lloyd and Co.

There probably are other such customized products for other areas.

► "Rio Colorado" is shown on a southwesterly course from Utah into northern Arizona, directly to the confluence of Diamond Creek (not labeled). In that reach the Little Colorado River (not labeled) arrives from the southeast at "Yampais Vil.", with Cataract Creek (not labeled) a tributary to the Little Colorado shortly before reaching the Colorado. The Little Colorado seems to have been labeled but obliterated by hachures depicting canyon topography, through which apparently can be read in part, "Flax R". From the Diamond Creek confluence the river follows a northwesterly course to the confluence of the "Rio Virgin".

Kansas Pacific Railway, et al.

WHEAT V:1186

1868 25.1110 **Map of the routes of the Union Pacific Railroads with their eastern connections.**

In: *The Union Pacific Railway Eastern Division, or (Kanas Pacific Railway.) Importance of its route to all sections of the country. Petition of sixty railroad presidents, memorials of boards of trade of St. Louis, Chicago, Cincinnati, Pittsburg, and Philadelphia; resolutions of state legislatures, conventions, etc.* Washington, D.C.: Joseph L. Pearson, Printer, 50 pp., map.

► Along the 35th parallel route is shown "U.P.R.W.E.D." A connecting route (not labeled) from New Mexico to California via the 32nd parallel route is also shown. The base map displays a generalized "Colorado River", with "Colorado Chiquito" a prominent tributary to it in the western part of the Grand Canyon region.

Keeler, W. J.

WHEAT V:1187

1868 25.1253 **National map of the territory of the United States from the Mississippi River to the Pacific Ocean. Made by the authority of the Hon. O. H. Browning, Secretary of the Interior, in the office of the Indian Bureau, chiefly for government purposes under the direction of the Hon. N. G. Taylor, Commis^r. of Indian Affairs & Hon. Chas. E. Mix Chief Clerk of the Indian Bureau: Compiled from authorized explorations of the Pacific rail road routes, public surveys, and other reliable data from the departments of the government at Washington, D.C. by W. J. Keeler, civil engineer. ("N. Du Bois, Draughtsman.")**

► The projected 35th parallel route of the "U.P.R.W.E.D." [Union Pacific Railway Eastern Division] is shown. "Colorado River" is depicted between "Pt. Invincible" at the head of the Gulf of California and the confluence of "Green River" and "Grand River". The river is drawn conjecturally in the Grand Canyon region. "Colorado Chiquito" (Little Colorado River) is shown as a tributary from the east, with its confluence more or less in the middle Grand Canyon; and "Cataract Cr." is shown as a tributary to the Little Colorado. Also on this map, hand colored, are gold, silver, copper, and quicksilver mining areas, which include prospects in the lower Colorado River area, and also several silver prospects on the northwestern and western side of the San Francisco Peaks (not labeled) and south of "Walapi Sprs." (Peach Springs), which notably are along the projected 35th parallel railway.

Lloyd, J. T. [Lloyd, James T.]

- 1868 25.2009 **Lloyd's Topographical Railway Map of North America, or the United States Continent in 1900 J.T. Lloyd, Publisher {New York 23 Cortland St. {London, 83 Fleet Street 1868.**
 ("Entered according to Act of Congress in the Year 1865 by J. T. Lloyd, in the Clerks Office of the District Court of the U. S. for the Southern District of New York.")
 ("Scale of Map 83¼ Miles to an inch or 1:5,274,720 of Nature.")
 Regarding the title, Phillips notes, "Giving 1900 as the possible date for the completion of certain railroads, etc." (Phillips, P. Lee, *A list of maps of America in the Library of Congress preceded by a list of works relating to cartography* [Washington: Government Printing Office], p. 610).
- Actually a physiographical map rather than a topographical one. "Rio Colorado" is depicted between the Gulf of California and the confluence of "Green Riv." and "Grand R." Enroute it receives "Rio San Juan" from the east and shortly later "Rio de Chelly" from the southeast before turning to run westwardly north of the Arizona-Utah boundary, eventually turning southwest and southeast to reach the confluence of "Colorado Chiquito or Flax" that itself reaches the Colorado from the northeast after having received "Cataract Cr." from the southeast; the depiction is a variation of that on the Egloffstein map of 1858 (in Ives, 1861). The Colorado then arcs due west, paralling the Utah-Arizona boundary. Just before reaching the Virgin River, the Colorado arcs to the south, then turns to the southwest, before turning to the southeast to reach the confluence of "Rio Colorado Chiquito" in the region now known as the central Grand Canyon (not labeled). The Little Colorado itself, after having flowed from the southeast, turns to the southwest, receiving several tributaries in the encanyoned region: one (not labeled) from the northeast, and "Cataract Creek" from the south-southeast with "Yampais Village" at the confluence, and directly opposite that confluence another unlabeled tributary from the northeast that turns to the southeast before reaching the Colorado. Just downstream from the supposed Little Colorado confluence is the confluence of another tributary (not labeled) from the southeast, where "Hualpais Vil" is placed at its confluence (in context this would be Diamond Creek). In the western Grand Canyon another tributary (not labeled) arrives from the south. "Head of Navigation" is at the Virgin River confluence.

Mitchell, Samuel Augustus, Jr.

WHEAT V:1188 [with illustration facing p. 226]

- 1868 25.1036 **XIX California, Oregon, Idaho, Utah, Nevada, Arizona and Washington.**
In: Mitchell's new general atlas : containing maps of the various countries of the world, plans of cities, etc., embraced in sixty-three quarto maps, forming a series of one hundred maps and plans, together with valuable statistical tables.
 Philadelphia: S. Augustus Mitchell, Jr.
- "Arizona T!" displays present boundaries. "Colorado River" is displayed between "Gulf of California" and the confluence of "Green R." and "Grand R." The river course through the Grand Canyon region is drawn conjecturally between "Virgin R." and "R. de Lino or Little Colorado", with a prominent north-to-south loop interrupting its westward course in mid canyon. Cataract Creek is labeled "Lava or Parke C." "Eldorado Canon" is labeled to the southwest of the confluence of the Virgin, along a tributary (not labeled) that otherwise should be Las Vegas Wash. The projected "Southern Pacific RailRoad Route" is delineated in the 35th parallel course. Compare also S. A. Mitchell [Sr.] (1865, ITEM NO. 25.1035).

Palmer, William J.⁸⁵

NO DATE 25.600 **Map of the Route of the Southern Continental R.R. with connections from Kansas City Mo.[,] Ft. Smith Ark. and Shreveport La. Giving a general View of the Recent Surveys of the Kansas Pacific Railway Co.[,] across the Continent Made in 1867 & 1868. under the direction of Gen. W^m. J. Palmer. On the Routes of the 32nd and 35th Parallels.** ("J. F. Gedney Lith, Washington. D.C.") [1868.] [**First state.**] [For the second state see Palmer (1869, ITEM NO. 25.900).]

The first state of this map appeared in *Report of surveys across the continent, in 1867-'68, on the thirty-fifth and thirty-second parallels, for a route extending the Kansas Pacific Railway to the Pacific Ocean at San Francisco and San Diego.* By Gen. Wm. J. Palmer. December 1st, 1868. (Palmer, 1869, ITEM NO. 2.4981 in Volume 1/Part B of THE GRAND CANON). Even though the volume has been indicated to have been first available in 1869, it is clear that the map had already been produced by 1868. This is the first map to display the "Grand Canyon" name, specifically as "Grand Cañon of the Colorado River" (so labeled between the confluences of "Rio San Juan" and "Rio Virgen").

This map has in the past been cited as the first appearance anywhere of the name "Grand Canyon". Although it is correctly cited as the first map to include the name, the canyon's modern name was introduced in print at least two times earlier, as early as 1857.⁸⁶)

This first state is identified by the lithographer's credit centered beneath the title panel in the lower-left corner of the sheet, and by the "Table of Distances on 35th Parallel by Shortest proposed line" and "Explanations" of symbols in the lower-right corner of the sheet. In the immediate Grand Canyon region, other features that distinguish the map from its second state are the label, "Moquis Pueblos" without symbols, the label "coal" appears south of Callville, and the label on the "Nevada Br." (the "r" is not superscript) reads downward with the route of that branch north of "St. Thomas" displayed as an arc that bows north-northwestward then northeastward. (The remainder of the map has not been examined for differences between the two states.)

⁸⁵ The Palmer maps cited herein, [1868] and 1869, important also for being the first to use the "Grand Canyon" name on a map, may be examined online (these were accessed 16 September 2020; reaccessed 13 August 2024).

An example of the **first state** can be seen online in the David Rumsey Map Collection at https://www.davidrumsey.com/luna/servlet/detail/RUMSEY~8~1~223972~5506299:Map-Of-The-Route-Of-The-Southern-Co?sort=Pub_List_No_InitialSort%2CPub_Date%2CPub_List_No%2CSeries_No&qvq=q:Map%20of%20the%20route%20of%20the%20Southern%20Continental%20R.R.;sort:Pub_List_No_InitialSort%2CPub_Date%2CPub_List_No%2CSeries_No;lc:RUMSEY~8~1&mi=0&trs=2.

An example of the **second state** is also in the David Rumsey collection at https://www.davidrumsey.com/luna/servlet/detail/RUMSEY~8~1~224091~5506328:Map-Of-The-Route-Of-The-Southern-Co?sort=Pub_List_No_InitialSort%2CPub_Date%2CPub_List_No%2CSeries_No&qvq=q:Map%20of%20the%20route%20of%20the%20Southern%20Continental%20R.R.;sort:Pub_List_No_InitialSort%2CPub_Date%2CPub_List_No%2CSeries_No;lc:RUMSEY~8~1&mi=1&trs=2

and **another example of the second state** is in the Library of Congress at <https://www.loc.gov/item/98688808/> (reaccessed 13 August 2024).

⁸⁶ Earle Spamer, "Once again, 'Who named the Grand Canyon?'—and other obscure Grand Canyon 'firsts'", *The Ol' Pioneer* (Grand Canyon Historical Society), Volume 24, No. 2 (Spring 2013), pp. 4-16 (ITEM NO. 2.18476, in Volume 1/Part B of THE GRAND CANON; the citation there adds significant errata and emenda); this was updated and refined by Earle Spamer, "An Ill Wind Blows: Did John Wesley Powell Claim Jump the Grand Canyon?", *Boatman's Quarterly Review*, Volume 31, No. 2 (Summer 2018), pp. 10-12 (ITEM NO. 2.27061). See also Spamer, "Big Canyon, Great Canyon, Grand Canyon: The mysterious evolution of a name", *The Ol' Pioneer* (Grand Canyon Historical Society), Volume 33, no. 1 (Winter 2022), pp. 8-18. See also Earle E. Spamer, *Naming the Grand Canyon* (Raven's Perch Media, 2024), 48 pp.

Wheat (1963, Volume V, p. 253) noted that the base map used by Palmer is that of Keeler (1868, *ITEM NO.* 25.1253).

Wheat (1963, Volume V, pp. 417-418), by citing the title with the Keeler credit, actually refers to the 2nd state even though he cites it as having been published in the Palmer (1869) volume, which included the map's first state. Wheat also noted that railroad data added to the map by Palmer indicate that the map "was completed for the lithographer about mid-January 1869" (p. 254), thus another indication that he refers to the 2nd state, although this does not explain the inclusion thereon of the date June 1869.

► The Colorado River is labeled "Rio Colorado" on its lower course, and as "Colorado River" between the confluence of "Rio Virgen" and the confluence of the "Green River" and "Grand River". The course of the Colorado in the western Grand Canyon region is reasonably like that as now known, but between there and the Green-Grand confluence it runs mostly southwesterly. "Rio San Juan" is a tributary from the east-southeast. The "Little Colorado River", however, shows its confluence near the western Grand Canyon, with "Cataract Cr." a tributary to it in turn from the southeast close to the Little Colorado's confluence with the main Colorado. Downstream from there in the western Grand Canyon is a river (not labeled) with an arc-shaped course from southwest around to southeast before striking the Colorado. On the lower Colorado, tributaries are "Bill Williams Fork" from the east, a short "Dry Cr." from the west, and Gila River with its confluence at "Arizona City". The 35th parallel railroad route, shown by a solid line, is labeled "Southern Pacific R.R." west of the Colorado, "Southern Continental R.R." through Arizona and New Mexico, and "Atlantic and Pacific R.R." east of there. Several proposed loop and spur routes, shown by dashed lines, extend from the 35th parallel route, including the "Proposed Morongo Route" that crosses the Colorado at "Aubrey City" at the mouth of the Bill Williams River, and the "Nevada Br." that leaves the main line at "Yampa Cr." and crosses the Colorado east of "Callville". The "Proposed Route of 32^d Parallel" (R.R.), crossing the Colorado at "Arizona City", is depicted by a dashed line.

► The Colorado River (labeled) is sketched, although it is apparent that the model is that of Egloffstein, with the Green and Grand Rivers (not labeled) on parallel courses, with the San Juan River (not labeled) a tributary to the Grand and the Little Colorado (not labeled) a tributary to the Grand shortly before the Grand reaches the Green confluence. The Virgin and Gila Rivers (not labeled) are also shown.

1869

Bell, William A. see Ravenstein, E. G.**Blanchard, Rufus**

WHEAT V:1197

1869 25.1105

Cabinet Map of the Western States and Territories on a rectangular project showing the location of gold[,] silver and other minerals[,] the rail roads and principal cities[,] the meridian lines[,] base lines and Congressional townships as far as public surveys have been extended[.] Compiled from government maps and published by Rufus Blanchard. Chicago: Rufus Blanchard. ("Engraved by Jerome T. Gouget, at R. Blanchard's Map Establishment. No. 146, Lake St. Chicago, Ill.")

► "Colorado River" is depicted between "Gulf of California" and the confluence of "Gunnison River" [*sic*] and a river labeled confusingly far northward "Green River". At the western end of the Grand Canyon region is the label "Big Canon". More toward the middle of that region is shown the confluence of "Rio Colorado Chiquito Riv." [*sic*] and "Cataract R.", although it is unclear by the labeling which of the two continues to its confluence with the Colorado. At "Colville" (Callville) is the label "Head of Navigation".

Bowles, Samuel

1869 25.2096

Map to Accompany "Our New West" by Samuel Bowles.

In: Bowles, Samuel, *Our new West. Records of travel between the Mississippi River and the Pacific Ocean. Over the plains—over the mountains—through the great interior basin—over the Sierra Nevada—to up and down the Pacific coast. With details of the wonderful natural scenery, agriculture, mines, business, social life, progress, and prospects . . . including a full description of the Pacific railroad : and of the life of the Mormons, Indians, and Chinese.* Hartford, Connecticut: Hartford Publishing Co.; New York: J. D. Dennison; Chicago: J. A. Stoddard; and Augusta, Georgia: E. Nebhut, p. [xxii] (facing p. 23, start of Chapter I).]

► A diagrammatic map of most of the western U.S., west of the Great Lakes and the Mississippi River, except the tier south of the latitude of Albuquerque and Los Angeles. "Colorado R." is sketched generally from the confluence of "Green R" and "Grand R", which from there follows a southwestward course, arcing to the west just north of the Utah-Arizona boundary, along which the label, "Great Canyon", appears (the label is positioned entirely within "Utah". Thereafter the course turns south-southwest to cross the boundary, then southwest to "Callville", which is mispositioned in "Arizona", approximately where would be the confluence of Diamond Creek (not shown). Thereafter the Colorado turns northwest to the Nevada boundary, then generally southward to pass off the map. Only two tributaries to the Colorado are delineated (neither labeled); one from the north in Utah; the other is probably the Virgin R., which comes from the north to reach the upper portion of the lower Colorado below the great bend. Also of note is "Prescott", positioned east-southeast of "Callville" in the center of the territory of Arizona. The 35th parallel railroad route is shown very generally, delineated as an "unfinished" railroad.

Freyhold, Edward

1869 25.1535

Office of the Chief of Engineers War Department Military Map of the United States compiled and drawn by E. Freyhold 1869. ("Engraved & printed by Julius Bien, N.Y.") ("Note. In the compilation of this map the Authorities designated on the map of the Western Territories as well as others of more recent date have been used.")

► Topography is represented by shaded relief. "Rio Colorado or Grand River" (the label is on the area that is the canyon regions of northern Arizona and southeastern Utah) runs to the head of the "Gulf of California" that separates "Lower

California" from "Sonora". East of the confluence of "R. Virgin" the course of the Colorado is depicted by dotted lines except for 1) a reach around the confluence of Diamond Creek (not labeled), 2) a reach around the confluence of "Flax River" (Little Colorado River), 3) around the confluence of Paria River (not labeled), and 4) a reach around the confluence of "Green River" and what actually is the Grand River (labeled farther upstream "Grande River"). The "Flax River" (part of its lower course marked by a dotted line) reflects the geography of Egloffstein in Ives (1861), meeting the Colorado from the east in the central part of where the Grand Canyon is situated, and which shortly before it meets the Colorado receives from the southeast "Park Cr." that is labeled on a fork of what is Cataract Creek (not labeled).

Merrill, William E.

1869 25.641 (COMPILED UNDER DIRECTION OF) **Map of Utah and Colorado prepared by order of Lieut. Gen! W. T. Sherman** ("Drawn by H. De Werthern.") ("R. P. Studley & Co. lith. St. Louis, M?") ("Bvt. Maj. Gen! A. A. Humphreys Chief of Engineers") ("Compiled under direction of Bvt. Col. Wm. E. Merrill, Maj. Engrs. St. Louis, 1869") [With extensive list of authorities in lower left with dates 1854-1869.]

► Map includes portions of adjacent territories, including northernmost Arizona and conjectural geography of the Grand Canyon westward to the confluence of the Virgin River and Callville, Nevada (Grand Canyon is labeled "Cañon of the Rio Colorado"). The course of "Rio Colorado" is southwesterly where it crosses the Utah-Arizona boundary at "Vado de Los Padres" (somewhat mispositioned right on the boundary), continuing thus for a while before turning west, running parallel to the boundary before eventually turning southwest and south-southwest to enter into the Egloffstein model of the river, though here the Parashant tributary is more properly displayed as a discrete tributary to the Colorado. "Colorado Chiquito" enters the map from the southeast before turning southwest to meet the main Colorado, receiving from the southeast just before that confluence "Catarac Riv." (*sic*, Cataract Creek). A dashed line entering a tributary to Cataract Creek and continuing toward the Colorado is labeled "L! J. C. Ives". All stream courses including tributaries in northern Arizona are depicted as encanyoned.

SPECIAL NOTE: The Church of Jesus Christ of Latter-day Saints, Church Library and Archives, holds an annotated copy of this map with the notation, "The dotted lines in Red Ink are corrections made by Maj. Powell of the Colorado Expedition." The dotted lines follow traces drawn in pencil that describe the Colorado, Paria, and Dirty Devil Rivers and display a revised path of the Colorado River between the "Supposed Junction" of the San Juan River, through the Grand Canyon. This map (call no. 917.8 D516m 1869) also contains other annotations in pencil. It may be accessed online at <https://catalog.churchofjesuschrist.org/assets?id=335ce82c-5694-4c95-a637-312ccdf4412c&crate=0&index=0> (last accessed 22 August 2024). (No further information is available regarding the timing or source of the annotations or the provenance of that copy of the map [*fide* LDS Library to Richard D. Quartaroli, September 2019]. There is insufficient evidence to corroborate even whether Powell annotated the map, or whether indeed the information came from him [*fide* Quartaroli, 22 August 2024].)

Refer also to Richard D. Quartaroli, "John Wesley Powell, Jacob Hamblin, and 'a Mormon map'", *Proceedings of the Colorado River Basin History Symposium, 2021, hosted by The Grand Canyon Historical Society* (Grand Canyon, Arizona: Grand Canyon Historical Society, 2022), pp. 42-49. While his paper focuses on the historical background behind the supposed—and still unidentified, possibly manuscript—"Mormon map" that Powell had had prior to his first river expedition of 1869, and delves into Powell's relationship with Mormon pioneer explorers particularly Jacob Hamblin, it includes a page-width reproduction (fig. 5, p. 46) of the map cited here accompanied by a cropped view (fig. 10, p. 47) of the area showing the red-dotted annotated lines. Also superimposed on the detail view are stream courses assembled digitally by Chris Brod of Spatial Science Solutions from 1) Frederick S. Dellenbaugh's

1873 original manuscript map (made under Powell's direction while on the Powell Survey based in Kanab, Utah, and sent on to Powell in Washington at the close of winter 1873, as revised for his 1902 book, *The Romance of the Colorado River* [G. P. Putnam's Sons, New York], p. 37) and 2) the courses of the river and tributaries from a modern map. While it shows that the red-dotted line follows a very different course from that of the "Map of Utah and Colorado" cited here, neither does it even closely adhere to the Dellenbaugh or modern courses. In fact, it is observed (*here*) that the red-dotted course resembles the "bactrian" course of the Colorado that was plotted by commercial cartographers as early as 1868 and copied in various forms for the next decade. (Regarding the "bactrian" course, with illustrated examples, see Part 8 (pp. 153-164) of Earle E. Spamer, *The Colorado River of the West : cartographic styles of the 16th to 19th centuries* [Raven's Perch Media, 2023, PDF online at <https://ravensperch.org/wp-content/uploads/2023/05/CRWest.pdf> or at <https://www.academia.edu/101672309/>, 194 pp., 25MB].)

It is difficult to suppose that Powell—or someone using information from him—had drawn the red-dotted line that departs so radically from the results of the Powell surveys of the Colorado River and the plateau country north of the Grand Canyon. Also of note is the annotated placement of Kanab, Utah, misspelled "Kinab", a spelling not of Powell's usage. [The "Kinab" spelling also does not appear among the variants noted by Steve Allen, *Utah's canyon country place names, Volume 1 (A-L)* (Canyon Country Press, Durango, Colorado, 2013).]

Palmer, William J. ⁸⁷

1869 25.900

WHEAT V:1206 [with illustration facing p. 243]

Map of the Route of the Southern Continental R.R. with connections from Kansas City Mo.[.] Ft. Smith Ark. and Shreveport La. Giving a general View of the Recent Surveys of the Kansas Pacific Railway Co[.], across the Continent Made in 1867 & 1868. under the direction of Gen. W^m J. Palmer. On the Routes of the 32nd and 35th Parallels. together with the compilations from Keelers Official Map showing the Central and Northern Routes to the Pacific, and the intermediate topography. ("J. F. Gedney Lith, Washington. D.C.")
[Second state.] [For the first state see Palmer (1869, *ITEM NO.* [25.600](#)).]

This second state is identified by the addition of the credit to Keeler's map in the title, and the lithographer's credit appears to the lower right of the title panel (both in the lower-left corner of the sheet); above the title block is "Distances by Kansas Pacific Railway to Denver & Cheyenne thence by the Pacific Railroad to San Francisco" and the adjacent key to the rail lines dated "June 1869"; and in the lower right of the sheet appears "Table of Distances on 35th Parallel Route by Shortest proposed line of Kansas Pacific R.W." In the immediate Grand Canyon region, other features that distinguish the map from its first state are the label "Moquis Villages"

⁸⁷ The Palmer maps cited herein, [1868] and 1869, important also for being the first to use the "Grand Canyon" name on a map, may be examined online (these were accessed 16 September 2020; reaccessed 13 August 2024).

An example of the **first state** can be seen online in the David Rumsey Map Collection at https://www.davidrumsey.com/luna/servlet/detail/RUMSEY~8~1~223972~5506299:Map-Of-The-Route-Of-The-Southern-Co?sort=Pub_List_No_InitialSort%2CPub_Date%2CPub_List_No%2CSeries_No&qvq=q:Map%20of%20the%20route%20of%20the%20Southern%20Continental%20R.R.;sort=Pub_List_No_InitialSort%2CPub_Date%2CPub_List_No%2CSeries_No;lc:RUMSEY~8~1&mi=0&trs=2.

An example of the **second state** is also in the David Rumsey collection at https://www.davidrumsey.com/luna/servlet/detail/RUMSEY~8~1~224091~5506328:Map-Of-The-Route-Of-The-Southern-Co?sort=Pub_List_No_InitialSort%2CPub_Date%2CPub_List_No%2CSeries_No&qvq=q:Map%20of%20the%20route%20of%20the%20Southern%20Continental%20R.R.;sort=Pub_List_No_InitialSort%2CPub_Date%2CPub_List_No%2CSeries_No;lc:RUMSEY~8~1&mi=1&trs=2

and **another example of the second state** is in the Library of Congress at <https://www.loc.gov/item/98688808/> (reaccessed 13 August 2024).

now with seven square symbols adjacent to the label, the addition of "Red Butte", the label "coal" below Callville is removed, and the label on the "Nevada B." (now with a superscript "r" with dot) reads upward with the route of that branch north of "St. Thomas" displayed as a gentle arc to the north and north-northeast. The remainder of the map has not been examined for differences between the two states.)

NOTE: Wheat (1963, Volume V, pp. 417-418), by citing the title with the Keeler credit, actually refers to the 2nd state even though he cites it as having been published in the Palmer (1869, *ITEM NO.* 2.4981 in Volume 1/Part B of *THE GRAND CANON*) volume, which included the map's first state. Wheat also noted that railroad data added to the map by Palmer indicate that the map "was completed for the lithographer about mid-January 1869" (p. 254), thus another indication that he refers to the 2nd state, although this does not explain the inclusion thereon of the date June 1869.]

"Grand Canon of the Colorado River" is labeled (see also note below) between the confluences of "Rio San Juan" and "Rio Virgen".

► In the following points, the second state is the same as the first state: The Colorado River is labeled "Rio Colorado" on its lower course, and as "Colorado River" between the confluence of "Rio Virgen" and the confluence of the "Green River" and "Grand River". The course of the Colorado in the western Grand Canyon region is reasonably like that as now known, but between there and the Green-Grand confluence it runs mostly southwesterly. (The two copies of the 2nd state that Spamer examined both seem to show that the plate is wearing out. The *virgulilla* in the "Grand Cañon" name is not displayed, and the tiny creek shown next to it is nearly eradicated. Other elements of the map generally are likewise worn.) "Rio San Juan" is a tributary from the east-southeast. The "Little Colorado River", however, shows its confluence near the western Grand Canyon, with "Cataract Cr." a tributary to it in turn from the southeast close to the Little Colorado's confluence with the main Colorado. Downstream from there in the western Grand Canyon is a river (not labeled) with an arc-shaped course from southwest around to southeast before striking the Colorado. On the lower Colorado, tributaries are "Bill Williams Fork" from the east, a short "Dry Cr." from the west, and Gila River with its confluence at "Arizona City". The 35th parallel railroad route, shown by a solid line, is labeled "Southern Pacific R.R." west of the Colorado, "Southern Continental R.R." through Arizona and New Mexico, and "Atlantic and Pacific R.R." east of there. Several proposed loop and spur routes, shown by dashed lines, extend from the 35th parallel route, including the "Proposed Morongo Route" that crosses the Colorado at "Aubrey City" at the mouth of the Bill Williams River, and the "Nevada Br." that leaves the main line at "Yampa Cr." and crosses the Colorado at "Callville". The "Proposed Route of 32^d Parallel" (R.R.), crossing the Colorado at "Arizona City", is depicted by a dashed line.

Ravenstein, E. G. [Ravenstein, Ernst Georg]

1869 25.2488 **Map of South-Western Portion of the United States, and of Sonora and Chihuahua. Illustrating Travels by Dr. W. A. Bell. Compiled by E. G. Ravenstein, F.R.G.S. &c.** Scale 1:6,000,000.

In: Bell, William A., *New tracks in North America. A journal of travel and adventure whilst engaged in a survey for a southern railroad to the Pacific Ocean during 1867-8.* London: Chapman and Hall, 2 volumes, lxi, 236 pp., 322 pp.

► "Colorado River" depicted between "Gulf of California" and confluence of "Grand R." and "Green R." General physiography by altitude is displayed. From the confluence of "R. San Juan" the Colorado follows a west-southwesterly course before turning southwestwardly into Arizona, where in "Big Cañon" it receives "Flax R. or Little Colorado" from the east and southwest. "Cataract R." is a tributary to the Little Colorado. The depiction of the Colorado in Grand Canyon follows that of Egloffstein.

- 1869 25.781 *New tracks in North America. A journal of travel and adventure whilst engaged in a survey for a southern railroad to the Pacific Ocean during 1867-8.* London: Chapman and Hall, and New York: Scribner, Welford and Co., 2 volumes, lxix, 236 pp., 322 pp., **MAP.**

Schmidt, Julius H. von; Keddie, Arthur W.; AND Gibbes, Charles Drayton

WHEAT V:1202

- 1869 25.1362 **Map of the States of California and Nevada. Carefully Compiled from the Latest Authentic Sources. California by Julius H. von Schmidt, Arth^{ur}. W. Keddie, and C. D. Gibbes, C.E.'s. Nevada by Chas. Drayton Gibbes C.E. Comprising Information obtained from the U.S. Coast and Land Surveys, State Geological Surveys, by Prof. J. D. Whitney, Railroad Surveys and the Results of Explorations Made by Brevet lieut. Col. R. S. Williamson, U.S.A.[,] Henry De Groot, C. D. Gibbes, and Others. Published by Warren Holt. No. 411 Kearny Street. San Francisco, Cal. 1869.** ("S. Benton Linton Formerly of the U.S. Coast Survey Draughtsman & Lithographer 148½ S. Fourth Street Philadelphia, Pa.")
- ▶ A very detailed map. "Colorado River" is shown between a point just south of the lower international boundary with Mexico and on the northern end passing off the map to the east precisely on the 36th parallel. Includes numerous place names and mining districts. Just to the east of the Arizona-Nevada common point "Yampa Creek" is shown as a tributary to the Colorado, having run into and from "Red Lake" in "Hualpai Val." The Colorado River at this point is marked "Supposed Head of Navigation".

Simpson, J. H. [Simpson, James H.]

WHEAT IV:1000 [with illustration facing p. 137]

- 1869 25.979 **Explorations of Capt. J. H. Simpson, Corps of Topl. Engrs. U.S.A. in 1859. Across the Great Basin of Utah.** ("T. Sinclair, lith. Philada.")
- In: The shortest route to California illustrated by a history of explorations of the Great Basin of Utah with its topographical and geological character and some account of the Indian tribes.* Philadelphia: J. B. Lippincott and Co., 58 pp., map. [Text is extralimital to this Cartobibliography.]
- ▶ "Great Colorado" is depicted generally in the Grand Canyon region; the Little Colorado River is absent.

U.S. Senate, Committee on Pacific Railroad

WHEAT V:1207

- 1869 25.1109 **The Great Railroad routes to the Pacific, and Their Connections. 1869.** ("American Photo-Lithographic Company, New York (Osborne's Process)". "Jos. Grolinski Draught?")
- In: The policy of extending government aid to additional railroads to the Pacific, by guaranteeing interest on their bonds. Report of the majority of the Senate Committee on Pacific Railroad, February 19, 1869.* Washington, D.C.: U.S. Government Printing Office, 31 pp., map.
- ▶ On the 35th parallel route, the part passing through Arizona is labeled "Southern Continental Rail Road".

Watson, Gaylord

- 1869 25.2043 **Watson's New Map of the Western States[,] Territories, Mexico, and Central America. Published by Gaylord Watson, 16 Beekman Street, New York.** ("Entered according to Act of Congress, in the year 1869, by Gaylord Watson, in the Clerk's Office of the District Court of the United States for the Southern District of New York.") ("Chicago: W. W. Wadsorth, 135 So. Water St.")
- ▶ "Colorado River" is delineated between "Gulf of California" and a series of disjointed headwater streams, but careful attention to the crowded labelings "Green R." and "Grand Riv." have an approximately positioned confluence in southeastern Utah. The Colorado's course below that confluence arcs from south to west and remains in Utah along the boundary with Arizona before turning southwest into

Arizona and around the "North Side Mts." where it then receives from the northwest "Colorado Chiquito or Flax R." (Little Colorado River). A tributary (not labeled) to the Little Colorado from the southwest is Cataract Creek, at the confluence of which is the "Yampas Village". On the north side of the supposed Colorado Chiquito here is an unlabeled tributary from the northeast that runs along the "North Side Mts." The Colorado then turns northwest to the confluence of "R. Virgin", where "Head of Navigation" is indicated, before turning south. Between the Virgin and Cataract Creek is the label "Big Cañon of the Colorado". A series of dashed lines in this area, with various place names, indicates (though not labeling) the route of the land expedition of J. C. Ives in 1858, thus indicating that these data are from Egloffstein's map in Ives' report of 1861. The 35th parallel railway route is very generally depicted, as also is the 32nd parallel road through "Arizona Cy." at "Ft. Yuma".

Wheeler, George M.; Lockwood, O. W.; AND Hamel, P. W.

WHEAT V:1218 [with illustration facing p. 299]

- 1869 25.736 **Map showing detailed topography of the country traversed by the reconnaissance expedition through southern & southeastern Nevada in charge of Lieut. Geo. M. Wheeler U.S. Engineers Assisted by Lieut. O. W. Lockwood Corps of Engineers U.S.A. 1869 P. W. Hamel Chief Topographer and Draughtsman.**

Caption: "Reconnaissance Maps Department of California".

Added to map: "Military Map N^o I". "Scale 1 inch. to 12 miles." "Photolith. by the N.Y. Lith^g Engr^g & Prt^g Co."

► Southeastern corner of map depicts the great bend of the "Colorado River" and westernmost Grand Canyon, where it is labeled "Big Canon of the Colorado". "Remarks" printed on map include: "At the south east corner to the east of the Virgin Range and to the south east of the mouth of the Virgin River, advantage has been taken of the map compiled from the results of Lieutenant Ives' explorations along the Colorado." (Refer to the map by F. W. von Egloffstein, 1861, [ITEM NO. 25.494](#), and notes therewith.)

1870

Andriveau-Goujon, Eugène

- 1870 25.2114 **Carte générale des États-Unis et du Mexique comprenant l'Amérique Centrale et les Antilles.** Paris: E. Andriveau-Goujon. Nouvelle Édition. ("N^o 24.") ("Atlas Usuel N^o 31." and "Atlas Universel N^o 45.") [In French.]

In the Southwest this map is unchanged from Andriveau-Goujon (1862).

► "Rio Colorado del Occidente" reaches the head of the Gulf of California where the label "Emb^{re} du Rio Colorado" appears. The river is drawn to the confluence of "R^o Virgen (S^{ta} Clara)", turning into the Grand Canyon region where it reaches the confluence of "R. Colorado Chico" and is connected with dotted lines with "R. Verde (Green R.)", "R^o Grande", and "R. S. Juan". Separating the Colorado from the Virgin is "S^{ra} de la Lanterna".

NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

Bartholomew, John [Bartholomew, John, Jr.]

- 1870 25.1693 **United States by J. Bartholomew, F.R.G.S.**
In: The student's atlas, consisting of thirty-two maps of modern geography, embracing all the latest discoveries and changes in boundaries, and six maps of ancient and historical geography. London, Glasgow, and Edinburgh: William Collins, Sons, and Company, map 28.

► "Rio Colorado" is depicted between "Gulf of California" and the confluence of "Green R." and "Grand R." Its course between that confluence and the confluence of "R. Virgen" is drawn generally, southwestward to the confluence of "Lit. Colorado", thence generally west-southwest to the Virgin. Tributaries in the lower Colorado River reach are an unlabeled, small tributary from the west; a larger, unlabeled tributary from the east (Bill Williams River), and "R. Gila" from the east-northeast. A river (not labeled) is depicted between the Salton Sea (not labeled) and the Colorado at the southerly international boundary.

G. W. and C. B. Colton and Co.

- 1870 25.1514 **Plan of the Western Portion of the United States.**
INSET ON: *Colton's Railroad Map (Intermediate Size) of the United States Reduced from "Colton's Railroad & Commercial Map of the United States". Published by G. W. and C. B. Colton & Co. 172 William St. New York.*
 Map on four sheets. This inset is on lower-right sheet.
 ► "Colorado R." is depicted reasonably accurately along its lower course. In the Grand Canyon region it is clear that it follows the depictions presented by Egloffstein in Ives (1861). The "Lit. Colorado" arrives from the east-southeast, into which several tributaries (not labeled) feed from the southeast; the entire stretch between the Virgin River (not shown!) and the Little Colorado River, including the Little Colorado and its tributaries, is depicted as encanyoned. Between that confluence and a point downstream from the confluence of "Green River" and "Grand R." the Colorado is depicted by a dotted line.
NOTE: The 1870 ed. of "Colton's Railroad & Commercial Map of the United States" has thus far not been seen for this Cartobibliography, but see the 1871 ed. (ITEM NO. 25.1516).
- 1870 25.1515 **Karte der Verschiedenen Pacific Eisenbahnen und deren Verbindung mit anderen Bahnen Für die "N.Y. Handels Zeitung" gezeichnet. von G. W. & C. B. Colton & Co. N^o 172 William St. New York. Juni 1870. [In German.]**
 Caption: **Beilage zur N.Y. Handels Zeitung.**
 This map was produced as a supplement to the *New-Yorker Handels-Zeitung*, by its date intended for a June issue of that then-weekly periodical. In weeks during June the map was advertised, but production delays, which were noted, interfered with the planned distribution date. It finally was available with the July 9 issue (Volume 19, No. 1112); a page 1 notice is headed, "Hierzu eine Beilage und als Extra-Beilage erhalten unsere Herren Abonnenten mit dieser Nummer eine Karte sämmtlicher Pacific-Eisenbahnen und deren Verbindungen." It also was offered for sale at \$1.50 per copy, with discounts for larger numbers.
 ► This reasonably detailed map shows a meandering course of "Rio Colorado" between "F^t. Yuma" and the head of the Gulf of California (not labeled, and only the northernmost part of which is depicted). The Salton Sea is labeled "G^t. Dry Lake". The course of the Colorado is shown reasonably accurately in its lower course, but between the confluence of "Virgin R." and "Colorado Chiquito R." it follows a conjecturally wild course, having proceeded to that point directly from the northeast. Of particular note on this map are the labels for Colorado River canyons as cited by John Wesley Powell, interesting that despite the conjectural course of the Colorado it was less than a year after Powell's expedition. These canyons are: "Mound Cañon" and "Monument Cañon" (together later Glen Canyon), Marble Cañon (the stretch between "Paria R." and "Bright Angel R."), and "Grand Cañon of the Colorado River". "Black Cañon" is also noted on the lower Colorado some distance southwest of the confluence of "Virgin R." at the confluence of "Rio Vegas" (Las Vegas Wash), where also is the label "Head of Navigation". In the Grand Canyon area, a tributary (not labeled) from the north-northwest meets the river in the western part of the canyon; and downstream from there is the confluence of "Yampa Cr.", which flows through "Red Lake" en route

to the Colorado. "Hualapais Spr." is marked at the head of one of the forks of Yampa Creek. "Yampais Vill." (Supai) is, peculiarly, marked well on the north side of the Colorado, southwest of the confluence of Bright Angel Creek.

Johnston, Alexander Keith [Johnston, Keith]

- 1870 25.1375 **United States of North America (Western States) by Keith Johnston, F.R.S.E.** ("William Blackwood & Sons. Edinburgh & London.") ("Engraved and Printed" [at lower left], "by W. & A. K. Johnston, Edinburgh." [at lower right]) (Caption: "41".) "Scales Geographical & Italian Miles 60–1 degree English Statute Miles 69.16–1 degree".
- Other than the updating of "Arizona" with its western boundary along the "Rio Colorado" and "Santa Clara" (Virgin River), the area of interest to this Cartobibliography the map is (incredibly) unchanged from the 1858-1863 eds. (ITEM NOS. 25.1372-25.1374).
- ▶ "Lower California" is separated from "Sonora" by "Gulf of California". The boundary of "New Mexico" includes the angle that later would be southernmost Nevada. "Rio Colorado" is depicted with a solid line between the head of the gulf and a point north of the confluence of "Rio Gila", a dashed line from there to a point south of the confluence of "Bill Williams Fork"/"Rio S. Maria" [labeled as both], a solid line from there to the boundary point at the angle (today's California-Nevada-Arizona triple point), and upstream from there as a dashed line to the confluence of "Green River" and "Grand River", which also are depicted in their lower courses by dashed lines. The lower courses of tributaries "Rio San Juan", "Rio Colorado Chiquito" (Little Colorado River), "Yampais Cr.", and "Santa Clara" (Virgin River) are all depicted by dashed lines, although their upper courses are drawn with solid lines. A tributary (not labeled) from the south in the Grand Canyon area (Cataract Creek) is likewise drawn with a dashed line in its lower reach. The Colorado's course through the Grand Canyon is only figurative. Confusingly, in this ed. the label for the Little Colorado River omits now "Chiquito", thereby inferring that this river is actually the course of "Rio Colorado".

King, Clarence

- 1870 25.1697 **Part of the U.S. Engineer Department's Map of the Western States and Territories, Showing Location of Mining Districts.** WHEAT V:1215
- In: Atlas accompanying Volume III on mining industry.* U.S. Geological Exploration of the Fortieth Parallel [King Survey], Plate 1. (Title-sheet includes contents, listing Plate 1 as "General Map, Showing Location of Mining Districts, U.S. Engineer Department.") [Title-sheet adds, "Engraved and printed by Julius Bien, New York".]
- ▶ Volume is extralimital to this Cartobibliography. Plate 1, however, is cited here because it displays the region along the "Rio Colorado Grande" to the Utah-Arizona boundary. A vast expanse between the Virgin River and the Colorado is blank. "Green River" below the confluence of "San Rafael River" turns to the southeast before abruptly ending, with the remaining distance to the Colorado delimiting the northeastern edge of the blank area. Labeled also is the confluence, "Supposed junction of the Rio Colorado & Rio San Juan", downstream of which, at the Utah-Arizona boundary, is marked "El Vado de los Padres". The mapped portions of this map are shown with shaded (hachured) physiography.

Overman, L. C., AND Pressler, Charles W.

- NO DATE 25.1038 **Outline Map showing a New Route from Texas to Fort Yuma, California, for Cattle Drovers and Trains En route to California. Prepared under direction from Brevet Major General J. J. Reynolds, Comm^{dg} Department of Texas. by Captain L. C. Overman. Corps of Engineers, U.S.A.[.] Compiled & drawn by Chas. W. Pressler. Scale 1:500,000. [1870.]** WHEAT V:1216 [with illustration facing p. 277]

► Western end of route is at "Ft. Yuma" and "Arizona City" on "Rio Colorado". The river is depicted between the head of "Gulf of California" and "La Paz".

Wheat (Volume 5, p. 420) notes, "A copy in the National Archives is endorsed, 'Rec^d in the Bureau June 16, '70.'" "

Ransom, Leander

- 1870 25.1355 **A New Map of the States of California and Nevada Exhibiting the Rivers, Lakes, Bays and Islands, with the principal Towns, Roads, Railroads and Transit Routes to the Silver Mining Districts of Nevada Territory. Also meridian, Standard, Range and Township Lines as established; to which is added the County Boundaries and United States Land Districts. Carefully compiled from United States and other Reliable Surveys by Leander Ransom. 1870 W. Holt, 411 Kearney St. S.F.** ("Entered according to act of Congress in the year 1863 by Warren Holt, in the Clerks office of the District Court of the Northern District of California.")

► At the southeast corner of the map, the "Colorado River" is drawn only generally with a few labels between the upper international boundary with Mexico (continued due southward into Mexico along a straight, slightly sinuous course to the edge of map) and the confluence of "Virgin River".

Ravenstein, August

- 1870 25.2438 **Amérique Septentrionale et Centrale.** ("Dessinée et modelé par Aug. Ravenstein à Francfort ^a/_M."") ("Gravé, imprimé et estampé par B. Dondorf à Francfort ^a/_M."") [In French.]
- Raised-relief map on card stock, printed in colors; a French translation of Ravenstein (1864, ITEM NO. 25.2437). "Rio-Colorado" is delineated in print between "Mer Vermeille" and unlabeled headwater, with two unlabeled tributaries from the east. "Gila" arrives independently at the head of the gulf. Only the headwater areas of the Colorado, its two tributaries, and that of the Gila display any relief; the highland is labeled but is illegible on the copy seen. Politically defined geographical areas are labeled with Arabic numerals with separate key on the map.

Ravenstein, E. G. [Ravenstein, Ernst Georg]

- 1870 25.1098 **Map of the South-Western Portion of the United States, and of Sonora and Chihuahua. to illustrate the Paper by Dr. W. A. Bell. Compiled by E. G. Ravenstein, F.R.G.S. &c.** ("Published for the Journal of the Royal Geographical Society by J. Murray, Albemarle Street, London 1870." "Chapman and Hall, London.") Scale 1:6,000,000.
- Accompanies:* Bell, William A. (1869), On the basin of Colorado and the Great Basin of North America. *Royal Geographical Society, Journal*, 39: 95-120. ("Read, March 8, 1868.") [1870.]
- "Colorado River" is depicted between "Gulf of California" and confluence of "Green R." and "Grand R." "Big Cañon" is labeled in the western Grand Canyon region, where also is shown the confluence of "Flax R. or Little Colorado". "Cataract R." is shown as a tributary to the Little Colorado near its confluence with the Colorado.

WHEAT V:1196

[cites Chapman and Hall 1870 printing but also notes published in Bell (1869).]

- 1870 25.1099 **Map of the South-Western Portion of the United States, and of Sonora and Chihuahua. Illustrating Travels by Dr. W. A. Bell. Compiled by E. G. Ravenstein, F.R.G.S. &c.** ("London: Chapman & Hall, 1870.") Scale 1:6,000,000.
- In:* Bell, William A., *New tracks in North America. A journal of travel and adventure whilst engaged in a survey for a southern railroad to the Pacific Ocean during 1867-8.* London: Chapman and Hall, and New York: Scribner, Welford and Co., lxi, 565 pp., **MAP**.

► "Colorado River" is depicted between "Gulf of California" and confluence of "Green R." and "Grand R." "Big Cañon" is labeled in the western Grand Canyon region, where also is shown the confluence of "Flax R. or Little Colorado". "Cataract R." is shown as a tributary to the Little Colorado near its confluence with the Colorado.

1871

A. L. Bancroft and Co.

WHEAT V:1219

1871 25.1249

Bancroft's, Map of California, Nevada, Utah and Arizona, Published By A. L. Bancroft, & Comp^y Booksellers & Stationers San Francisco Cal. 1871.

► "Colorado River" is shown between south of Yuma and north of the Utah/Arizona boundary before passing off the map to the east. "Big Cañon of the Colorado River" is labeled between the confluences of "Virgin River" and "Colorado Chiquito or Flax River", to which the latter "Cataract Cr" is a tributary; headwaters of Cataract Creek are "Park Cr.", "Lava Cr.", and "Cedar Cr." A river (not labeled) reaches the Colorado from the north in the mid-canyon area. Thus even after Powell's first expedition the portrayal is still that reminiscent of the Egloffstein map in Ives.

Bartholomew, John

1871 25.2359

United States. By J. Bartholomew, F.R.G.S. ("Engraved and Printed in Colours by J. Bartholomew, Edin^r.") ("A. Fullarton & C^o London & Edinburgh.")

In: A descriptive hand atlas of the world. Edinburgh, London, and Dublin: A. Fullarton and Co. [The cover indicates "Pt. C" and the imprint gives the publisher's locations as "London, & Edinburgh."] [Map 22.]

► "Rio Colorado" is delineated between the head of "Gulf of California" and the confluence of "Green R." and "Grand R."; the lower courses of the Green, Grand, and tributaries in "Utah" are delineated by dashed lines, the Colorado's course becoming a solid line at the Utah-Arizona boundary. It follows a south-southwesterly course to the confluence of "Colorado Chiquito" from the southeast, then turns west-southwesterly to the confluence of "R. Virgen", thence southward to the gulf. Cataract Creek (not labeled) seems to be shown with its confluence midway through what is the Grand Canyon. On the lower course of the Colorado, unlabeled tributaries arrive from the west, east, and (this being the Bill Williams River) east; with "Rio Gila" a tributary from the east. On the west side of the Colorado from southernmost Utah into northern Arizona is "S^a de la Lanterna".

NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

Bibliographischen Instituts⁸⁸

1871 25.1689

Nord-Amerika. ("Bibliographisches Institut in Hisburghausen") [In German.]

In: Meyers Hand-Lexikon des allgemeinen Wissens in einem Band. Erste Hälfte. Hildburghausen: Verlag des Bibliographischen Instituts. [Map follows p. 740.]

► The river, "Colorado", is depicted between "G. v. Californien" and the confluence of Green and Grand Rivers (not labeled), which meet improbably in south-central Utah from the northeast and east, respectively. The Colorado's course between there and the confluence of the Virgin River (not shown) follows a course due southwest until turning northwestward at about where would be Diamond Creek (not shown). The Little Colorado River (not labeled) is shown reaching the Colorado from

⁸⁸ A profusion of hand- and large-atlases were produced under Meyer's name (Hermann Julius Meyer) by the Bibliographischen Instituts in Germany during the 19th and early 20th centuries; so many, under various titles, that it is not practical to cite them in this bibliography, although individual volumes have been cited.

the southeast just before the Colorado's turn to the northwest. At the confluence of "Gila" is a place name, "Arizona", probably meant to be Arizona City since the territory of "Arizona" is also labeled.

G. W. and C. B. Colton and Co.

- 1871 25.1516 **General Map of the United States showing the Railroad routes across the Continent.**
INSET ON: *Colton's Railroad & Commercial Map of the United States & Canada.* ("Compiled[,] Engraved and Published by G. W. & C. B. Colton & Co. N^o 172 William St. New York. 1871.") [Map on six sheets; the inset is on the lower-right sheet]
 ► "Colorado R." is depicted reasonably accurately along its lower course. In the Grand Canyon region it is clear that it follows the depictions presented by Egloffstein in Ives (1861). The "Lit. Colorado" arrives from the east-southeast, into which several tributaries (not labeled) feed from the southeast; the entire stretch between the Virgin River (not shown) and the Little Colorado River, including the Little Colorado and its tributaries, is depicted as encanyoned. Between that confluence and a point downstream from the confluence of "Green River" and "Grand R." the Colorado is depicted by a dotted line.
- 1871 25.1717 **Map Showing the Telegraph Lines in Operation, Under Contract and Contemplated, to Complete the Circuit of the Globe.** ("Maps of Every Description Prepared and Largest Assortment of Atlases & Maps etc. in the Country at Colton's Geographical Estab^t G.W.&C.B. Colton& C^o New York.") ([base map] "Entered according to Act of Congress in the year 1855 by J. H. Colton & Co. in the Clerks office of the District Court for the Southern District of New York.")
 ► The base map depicts "R. Colorado" following a curved course from headwater south-southwest to west-southwest, where at a tributary (Virgin River, not labeled) it turns south nearly to the head of "G. of California" before turning southeast to meet the gulf. En route it also receives from the east a tributary (not labeled, either the San Juan River or Little Colorado River), and "R. Gila from the northeast and east.
- 1871 25.2412 **Colton's Map of the United States of America, the British Provinces, Mexico and the West Indies. Showing the Country from the Atlantic to the Pacific Ocean. Published by G. W. and C. B. Colton & Co. 172 William St. New York. 1871. Scale 1:5,274,720.**
 The David Rumsey map collection notes: "Unlisted Colton map, which looks like an English map with Colton's imprint. Colton has applied his standard title for his large U.S. map to a map that we have never seen and is not in any references. It must be an English map for which he acquired publishing rights. [. . .] Another possibility is that it is an Edward Freyhold map—it has similarities to the Railway survey maps, except that its scale is smaller."
 ► "Rio Colorado" is delineated between "Gulf of California" and the confluence of "Green River" and "Grand River". From that confluence its course is to the southwest, receiving "Rio San Juan" from the southeast, crossing the Utah-Arizona boundary where it turns to the west for a distance then again to the southwest, receiving "Little Colorado" from the east-southeast, then passing through the area where would be the confluence of Diamond Creek and proceeding northwest to the confluence of "Santa Clara R." (Virgin River) from the north and northeast, thence south to the gulf. Cataract Creek (not labeled) is shown as a tributary to the Little Colorado from the south-southeast. The routes of the "Atlantic & Pacific R.R." and "Southern Pacific R.R." are delineated.

Grundemann, Reinhold

- 1871 25.1679 **America No 1.** [In German.]
In: Die Missionen in Amerika in elf Karten mit erläuterndem texte. Gotha: Justus Perthes, 11 maps with unpaginated texts. (*Allgemeiner Missions-Atlas nach Originalquellen. Vierte Abtheilung: Amerika.*)
 Map accompanied by [4] pp. explanatory text that includes reservations in the U.S. keyed by number.

H. Dayton and Co.

- 1871 25.1883 **Railroad map of the United States to accompany the "Commercial Travellers Guide Book" Published by H. Dayton & Co. 677 Broadway New York 1871.** ("Entered according to Act of Congress, in the Year 1869 by G.W.&C.B.Colton & C^o in the Clerks office of the District Court of the United States for the Eastern District of New York".) ("Maps of Every Description Prepared and the Largest Assortment of Atlases & Maps etc. in the Country at Colton's Geographical [sic] Estab^l: G.W.&C.B.Colton&C^o New York."
Accompanying: Brockett, L. P., *The commercial traveller's guide book : being a complete manual for the use of commercial travellers and sellers of goods by sample, giving the history of commecial travelling, the laws of states and cities affecting the business* New York: H. Dayton and Co., 378 pp.
 ► The "Colorado R." is depicted reaching "P^t: Invincible" at the head of the "Gulf of California". The stretch between the western Grand Canyon (not labeled) and the confluence of "Lit. Colorado" (also labeled "Colorado Chiquito" toward its headwaters) is shown as encanyoned, although the route followed by the Little Colorado is directly from the southeast, receiving two tributaries (not labeled but shown as encanyoned) from the south-southeast just before its confluence with the Colorado; one of these is Cataract Creek, heading near "Red Butte", thus the depiction resembles that of the Egloffstein maps from the Ives expedition. Upstream from the Little Colorado confluence, the Colorado is depicted by a dashed line between there and the confluence of the San Juan River. Other than "Rio Gila", the only tributary to the Colorado in its lower course is "Bill Wms. Fk." No tributaries are shown on the north side of the river. The 35th and 32nd parallel routes are shown generally, as is also the "Spanish Trail".

Kiepert, H. [Kiepert, Heinrich]

- 1871 25.2327 **Westliches-Nordamerika.** ("H. Kiepert's Neuer Handatlas N^o 38") ("Berlin bei Dietrich Reimer".) ("Gestochen v. C. L. Ohmann.") ("Berichtigt 1867".) ("Druck v. F. Barth.") Scale 1:8,000,000. [In German.]
In: Neuer Hand Atlas über alle theile der Erde entworfen und bearbeitet Dr. Heinrich Kiepert. Zweite vollständig berichtigte und vermehrte Auflage. Berlin: Verlag von Ditrich Reimer.
 ► The Colorado River is labeled on its lower course "Rio Colorado del Occidente" and on its upper course "R. Colorado od. Verde (Green R.)"; delineated thus between "Mar Bermejo (Roths M.) od. Californischer MB" and headwater. "R. Grande" (Grand River) parallels the upper Colorado, with a confluence in the central Grand Canyon area following the modified Egloffstein model that shows the Colorado/Verde coming south-southwesterly into Arizona, arcing to the southeast along the apparent Parashant Canyon course to meet the "Grande". "R. de Lino (Colorado Chico)" (Little Colorado River) arrives from the southeast to join the "Grande" just before the latter reaches the Colorado/Verde, and Cataract Creek (not labeled) is a tributary to the Little Colorado.
- 1871 25.2328 **Nord-America.** ("H. Kiepert's Neuer Handatlas N^o 36") ("Berlin, bei Dietrich Reimer".) ("Neue Bearbeitung.") ("Berichtigt 1867".) (W. L. v. Paris") (Stich von J. Sulzer. Druck von F. Barth.") Scale 1:20,000,000. [In German.]

In: Neuer Hand Atlas über alle theile der Erde entworfen und bearbeitet Dr. Heinrich Kiepert. Zweite vollständig berichtigte und vermehrte Auflage. Berlin: Verlag von Ditrich Reimer.

► "Rio Colorado del Occidente" (labeled "Green R." on its upper course) is delineated between the Gulf of California (not labeled) and headwater. "Grand R." parallels the Colorado/Green, with a confluence in the central Grand Canyon area following the modified Egloffstein model that shows the Colorado/Green coming south-southwesterly into Arizona, arcing to the southeast along the apparent Parashant Canyon course to meet the "Grande". In southern "Utah Terr." and northern "Arizona Terr." both rivers are delineated in those reaches by dashed lines. "R. Navajoas" (San Juan River) is a tributary to the Grand from the east. "R. de Lino (Flax River)" (Little Colorado River) arrives from the southeast to join the Grand just before the latter reaches the Colorado/Green, and Cataract Creek (not labeled) is a tributary to the Little Colorado.

Lloyd, J. T. [Lloyd, James T.]

1871 25.1884 **Lloyd's Topographical Map of America 1871 Projected by J.T. Lloyd E. Lloyd, Publisher {New York 30 Cortlandt St. {London, 83 Fleet Street.** ("Entered according to Act of Congress in the Year: 186[*illegible*] by J. T. Lloyd, in the Clerks Office of the District Court of the U. S. for the Southern District of New York.") ("Scale of Map 83 ¼ Miles to an inch or 1:5,274,720 of Nature.") 4 sheets.

► Actually a physiographical map rather than a topographical one. "Rio Colorado" is depicted on a reasonably accurate course between "Gulf of California" and "Head of Navigation" at the confluence of "Virgin R." The river system to the east of there is shown wildly. From the confluence of "Green Riv" and "Grand Riv" the Colorado arcs from south to southwest, where it receives, first, "Rio San Juan" from the southeast, then shortly later "Rio de Chelly" from the southeast. The Colorado then arcs due west, paralling the Utah-Arizona boundary. Just before reaching the Virgin River, the Colorado arcs to the south, then turns to the southwest, before turning to the southeast to reach the confluence of "Rio Colorado Chiquito" in the region now known as the central Grand Canyon (not labeled). The Little Colorado itself, after having flowed from the southeast, turns to the southwest, receiving several tributaries in the encanyoned region: one (not labeled) from the northeast, and "Cataract Creek" from the south-southeast with "Yampais Village" at the confluence, and directly opposite that confluence another unlabeled tributary from the northeast that turns to the southeast before reaching the Colorado. Just downstream from the supposed Little Colorado confluence is the confluence of another tributary (not labeled) from the southeast, where "Hualpais Vil" is placed at its confluence (in context this would be Diamond Creek). In the western Grand Canyon another tributary (not labeled) arrives from the south.

1872

A. Fullarton and Co.

NO DATE 25.1146 **United States North America. By G. H. Swanston Edin!"** ("A. Fullarton & C^o Edinburgh, London & Dublin." "Eng^d by G. H. Swanston Edinburgh.")

In: The royal illustrated atlas, of modern geography : with an introductory notice by D^r. N. Shaw, Secretary to the Royal Geographical Society &c. London and Edinburgh: A. Fullarton and Co. [1872.]

► "R. Colorado" is depicted between the head of "Gulf of California" and the confluence of "Green R." and "Grand R." It is drawn generally along an arc through the Grand Canyon region. Tributaries are "R. S. Juan", "Little Colorado R.", a tributary (not labeled) that is Cataract Creek, "Virgin R.", "Bill Williams F^k", and "R. Gila".

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

Certain point place names are given, including "S[!] Bartolome" at the confluence of the Little Colorado River, and "Bucarelli" on the south side of the Colorado between the Little Colorado and Cataract Creek, which is of course an old label for Puerto de Bucareli.

NO DATE 25.2167

North America Including the most recent discoveries in the Arctic Seas and West Coast, from Government charts and reports, United States survey &c.

In: The royal illustrated atlas, of modern geography : with an introductory notice by D^r. N. Shaw, Secretary to the Royal Geographical Society &c. London and Edinburgh: A. Fullarton and Co. [1872.]

► The course of "R. Colorado" differs markedly from that shown on the map of the United States, following a mostly straight course between the gulf and its headwaters where the Green is labeled "R. Colorado" and "Grand R." is a tributary to it. Other tributaries include "R. Nabajoa" (San Juan River), "R. Yaguesila" (Little Colorado River), "Pyramid R." (the Virgin River, confused with the so-called, misrepresented and mistranslated, river of the "sulfurous pyramids"), "R. S. Maria" (Bill Williams River), and "Rio Gila", the last of which meets the head of the gulf along with the Colorado. At the confluence of the Little Colorado is a place label, "Conception". Also of note is that the Colorado, between its headwater and the confluence of the Little Colorado, follows the east side of "Colorado Range".

See also [remarks](#) on the "river of the sulfurous pyramids" in the Notes for Section 2.

Haasis and Lubrecht [firm]

1872 25.1569

1872. The American Union Railroad Map of the United States[,] British Possessions, West Indies, Mexico, and Central America. Published by Haasis & Lubrecht, 107 Liberty Street, New York. ("Smith & McDougal, Electrotypers, 82 Beckman St., New York.")

► The 35th parallel rail line is not labeled other than an indication in northern Arizona, "Sitgraves Route" [*sic*]. The 32nd parallel line across southern Arizona is labeled "Proposed Southern Pacific R.R." and "Former Overland Route". "Colorado River" is depicted between the head of the "Gulf of California" and the confluence of "Green R." (labeled on a headwater branch) and "Grand R." Its lower course is reasonably well portrayed; however, its course between the Green-Grand confluence and the confluence of "Virgin Riv." is remarkable. From the Green-Grand it heads southwesterly on an arc that becomes a due west heading just north of the Utah-Arizona boundary; had it continued without turning west it would have crossed into Arizona at about where it does in fact. Southwest of Rockville, Utah, before it conflicts with the Virgin River, the Colorado turns to the southwest, crossing the Utah-Arizona boundary, then flows around the west side of "North Side Mt." to a southeast heading where in "Great Canon of the Colorado" it receives "Colorado Chiquito or Flax Riv." (Little Colorado River). The Colorado then arcs back to a northwest heading, receiving in the middle of that arc Diamond Creek (not labeled), and heads northwest to the great bend. Arcing to the south, it passes "Colville" and receives "Virgin Riv." from the northwest (which in turn had first come southwest from Utah). At Callville is the label, "Long Rapids, Head of Navigation". The course of the Little Colorado River is just as remarkable, passing northeastward to the 36th parallel before turning west-northwest toward the east side of "North Side Mt." (the mountain being 50 miles southeast of St. George, Utah), then turns southwest to strike the Colorado River. A few miles before the Little Colorado turns southwest it receives "Cataract Cr." from the southeast, at which point also is labeled "Yampais Village". Confusing matters more, paralleling Cataract Creek some 30-40 miles to the east are two smaller tributaries (not labeled), on one of which is labeled "Cascade", which is reminiscent of the presentation on other maps of Cataract Creek. Indeed, despite the misalignments of the rivers that are a reflection of Egloffstein's geography in Ives (1861), that entire system has been transposed miles to the west.

NOTE: Compare also Watson (1875, ITEM NO. 25.597), which attempts to make corrections in the Grand Canyon area.

Mitchell, Samuel Augustus, Jr.

1872 25.67 **County map of Arizona and New Mexico.** Philadelphia: Samuel Augustus Mitchell, scale 1:3,500,000.

Ravenstein, L.

1872 25.2023 **Nord-America.** ("L. Ravenstein. Corr.I.") ("Bibliographisches Institut in Hildburghausen.") Scale 1:25,000,000. [In German.]
In: Meyers Hand-Atlas der neuesten Erdbeschreibung in 100 Karten. Redigirt von L. Ravenstein. Neue Berichtigte Ausgabe. Hildburghausen: Verlag des Bibliographischen Instituts.
 ► "R. Colorado" is delineated between "G. v. Californien" and the confluence of "Green R." and "Grand R." The Green and Grand run parallel to each other from the northeast, with the Grand turning to the west-northwest just before crossing the Utah-Arizona boundary, where it also receives "S. Juan" from the east (which flows westward across the northeastern part of Arizona). The Colorado continues to follow the southwesterly course established by the Green until it receives "Colorado Chiquito" from the east-southeast in the area now known to be the Grand Canyon. The Virgin and Bill Williams Rivers (not labeled) are barely sketched in. "R. Gila" arrives at the Colorado from the east at "Arizona City".

1872 25.2205 **Verein-Staaten am Stillen Ocean.** ("Gez. v. E. G. Ravenstein in London Corr.I.") ("Stich, Druck u. Verlag des Bibliographischen Instituts zu Hildburghausen.") ("Stich v. A. Plath. Terrain v. G. Dietrich.") Scale 1:8,000,000. [In German.]
In: Meyers Hand-Atlas der neuesten Erdbeschreibung in 100 Karten. Redigirt von L. Ravenstein. Neue Berichtigte Ausgabe. Hildburghausen: Verlag des Bibliographischen Instituts.
 ► The river "Colorado" is delineated between "G. Cal." [with "ifornien" written very tightly in continuation in the map border] and the confluence of "Green R." and "Grand R." On this map, the Green arrives from the north, the Grand from the north-northeast, with the Colorado turning westwardly before reaching the Utah-Arizona boundary, with "S. Juan" arriving from the east. The Colorado turns southwestwardly to "Diamond" (at Diamond Creek but there a tributary arrives from the northwest), with "Colorado Chiquito" arriving from the southeast midway in this reach. The Colorado turns to the northwest to the confluence of "Birgin" before turning south. "Bill Will" (Bill Williams River) is a tributary from the east and north, and "R. Gila" arrives from the east-northeast at "Yuma" (*i.e.* Fort Yuma) and "Arizona City". The route of the "Atlantic-Pacific B." is depicted passing through Prescott, crossing the Colorado at "La Paz".

Stanford, Edward

1872 25.2390 **The United States of North America.** ("London: Edward Stanford, 6, Charing Cross, 1st March. 1872".) ("Constructed and Engr.^d at Stanford's Geographical Establishm^t London.")
In: The family atlas containing eighty maps, constructed by eminent geographers, and engraved on steel, under the superintendence of the Society for the Diffusion of Useful Knowledge, including the geological map of England and Wales, by Sir. I. Murchison, F.R.S., the star maps by Sir John Lubbock, Bart. and the plans of London and Paris, with the new discoveries and other improvements to the latest date. And an alphabetical index. London: Edward Stanford. [Map 63.]
 ► "Rio Colorado" is delineated between "Gulf of California" and confluence of "Green River" and "Grand River". From that confluence its course is southwest,

receiving "Rio S.ⁿ Juan" from the east-southeast, crosses the Utah-Arizona boundary while passing around "S. Lanterna" on its west, then proceeds west for a distance before turning southwest, where it receives "Rio de Lino or Little Colorado R." from the southeast (with an unlabeled tributary to the latter from the south-southeast that is Cataract Creek), then northwest to the confluence of "R. Virgin" from the northeast, then south to the gulf receiving "William Fork" (Bill Williams River) from the east and north, and "Rio Gila" from the east.

NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

1872 25.2391

The World on Mercator's Projection.

In: *The family atlas containing eighty maps, constructed by eminent geographers, and engraved on steel, under the superintendence of the Society for the Diffusion of Useful Knowledge, including the geological map of England and Wales, by Sir. I. Murchison, F.R.S., the star maps by Sir John Lubbock, Bart. and the plans of London and Paris, with the new discoveries and other improvements to the latest date. And an alphabetical index.* London.

► "Rio Colorado" is delineated on an effectively straight southwesterly course between "G. of California" and unlabeled headwaters, turning to the south just prior to reaching the gulf. It receives en route two tributaries (not labeled) from the east and one tributary (not labeled) from the northwest. This last tributary seems to pass through a lake in its upper course, and a place-name symbol is positioned on the west side of the Colorado just north of the second unlabeled tributary from the east, with the label "Pyramids". This is a misinterpretation of the in-turn misinterpreted "river of the sulphurous pyramids" (about which see [remarks](#) in the Notes for Section 2). "R. Gila" arrives independently at the head of the gulf from the east, turning southwest just before reaching the gulf.

Sydow, E. von

1872 25.2238

Nord_Amerika. [In German.]

In: *E. von Sydow's Schul-Atlas in zwei und vierzig karten. Vier und zwanzigste Auflage.* Gotha: Justus Perthes, map 33.

► "Colorado" is delineated between "Purpur Meer" and unlabeled headwater, following a south-southwesterly course that arcs to the west to meet the Virgin River (not labeled) from the northwest and northeast; en route it receives a single tributary (not labeled) from the northeast. Just before reaching the gulf it receives "Gila" from the east.

1872 25.2239

Vereinigte Staaten von Nord-Amerika und Mexico. [In German.]

In: *E. von Sydow's Schul-Atlas in zwei und vierzig karten. Vier und zwanzigste Auflage.* Gotha: Justus Perthes, map 34.

► "Colorado (des Westens)" is delineated between "NB. von Californien od. Purpur M." and the confluence of "Rio Verde" (Green River) and "R. Grande" (Grand River). From that confluence its course arcs from south to west-northwest, receiving en route the San Juan River (not labeled) from the east, Little Colorado River (not labeled) from the east, and Virgin River (not labeled) from the northwest and northeast, whereafter it turns southward to the gulf, receiving en route an unlabeled tributary from the northwest (presumably the supposed Mohave River of contemporary usage) and "Rio Gila" from the east.

Wheeler, George M.

1872 25.946

Preliminary topographical map embracing in skeleton a portion only of the notes from surveys made in accordance with Par. II Special Orders N^o 109 War Dep^t March 18th 1871 and letter of instructions of Brig. General A. A. Humphreys, Chief of Eng^{rs} dated march 23^d 1871. Conducted under the immediate direction of 1st Lieutenant Geo. M. Wheeler, Corps of

WHEAT V:1237 [with illustration facing p. 338]

Eng^{rs} assisted by 1st Lieutenant D. W. Lockwood, Corps of Eng^{rs} and 2nd Lieutenant D. A. Lyle, 2nd U.S. Artillery during the summer and fall of 1871. Louis Nell, Chief Topographer and Draughtsman. ("Explorations in Nevada and Arizona") (U.S. Engineer Department)

From: Preliminary report of explorations in Nevada and Arizona.

In: Belknap, William W., Letter from the Secretary of War, communicating, In compliance with a resolution of the Senate of March 7, 1872, a preliminary report of Lieutenant George M. Wheeler, Corps of Engineers, of the progress of the engineer exploration of the public domain in Nevada and Arizona. *U.S. 42nd Congress, 2nd Session, Senate Executive Document 65*, 96 pp. [Wheeler's "Introduction", pp. 2-57.]

► In the area of interest to this Cartobibliography, map sketches in the topography along the "Colorado River" between "Aubrey Valley"/"North Side M^t" and "C. Mohave". "Grand Cañon of the Colorado" is labeled between "Grand Wash" and northeast of the confluence of "Diamond Cr."; these reaches are displayed as encanyoned. Also shown are "Iceberg Cañon", "Boulder Cañon", and "Black Cañon", likewise encanyoned. East of Aubrey Valley the topography is only generalized; and the course of the "Little Colorado River", displayed in this region as a dashed line, ends in a blank area north of "San Francisco M^{ts}". The routes of exploration are delineated by dashed lines throughout. Cataract Creek is not displayed except for a generalized topographic valley that passes to the west of "Red Butte". The "Virgin River" is delineated between "S^t George" and the confluence with the Colorado River between Iceberg and Boulder canyons. "Callville" is prominently marked.

1873

Apgar, E. A., AND Apgar, A. C.

1873 25.2398 **Map of the Pacific States and Territories.** By E. A. & A. C. Apgar. ("Jewett & Chandler, Engravers, Buffalo.")

In: Apgar, E. A., and Apgar, A. C., *Apgars' geographical drawing book*. Philadelphia: Cowperthwait and Co. ("Entered, according to Act of Congress, in the year 1873, by F. [sic] A. & A. C. Apgar, in the office of the Librarian of Congress, at Washington".)

► Map with accompanying text beneath it, "Directions for Drawing." A very simplistic map delineating and labeling principal rivers, some mountains (diagrammatically shown only by wavy lines) and boundaries of U.S. states and territories. "Colorado R." is delineated between "Gulf of California" and the confluence of "Green R." and "Grand R.", with the only tributaries being "Little Colorado River" from the east and southeast and "Gila R." from the east. The Colorado below the Green-Grand confluence follows a southwesterly course all the way to where is the central Grand Canyon region, where it receives the Little Colorado, thus indicating it follows a model of the Egloffstein geography.

Asher and Adams [firm]

1873 25.1142 **Asher & Adams' geological map. United States and territories.**

In: *Asher & Adams' new commercial, topographical, and statistical atlas and gazetteer of the United States: with maps showing the Dominion of Canada, Europe and the World . . . Compiled, drawn, and engraved under the supervision of the publishers . . .* New York: Asher and Adams. [Map is on pp. 111/112, dated 1874.] Scale 1 inch = 110 miles.

► Hand-colored map. An early portrayal of the Grand Canyon and lower Colorado River regions following on the 1861 portrayals by Newberry. In the Grand Canyon region it depicts only "Volcanic Rocks" and "Paleozoic. Including Silurian, Devonian and Permian." In the lower Colorado River region it depicts only areas marked as "Eozoic. Including Laurentian, Labradorian and Huronian." The base map

depicts the Colorado River (not labeled) most irregularly throughout the region, with the Virgin, Little Colorado, and San Juan Rivers (not labeled) as tributaries. In western Grand Canyon, "Hualapais Vil." is noted as a place (*i.e.*, Peach Springs).

Bartholomew, John [Bartholomew, John, Jr.]

- NO DATE 25.2399 **(United States, N^oII (Western Division) The Pacific States, the Territories and a Portion of the North-Western States. By J. Bartholomew, F.R.G.S.** ("George Philip & Son, London & Liverpool.") [Ca. 1873.]
- ▶ "Rio Colorado" is delineated between "Gulf of California" and confluence of "Green R." and "Grand R." From that confluence the course is south-southwest to the confluence of "R. San Juan" (from the east-southeast), thence west for some distance north of the Utah-Arizona boundary, then southwest and arcing to south-southwest to the confluence of "Little Colorado or Flax R." from the east-southeast, continuing in that direction to the confluence of Diamond Creek (not labeled), thence west-northwest to the confluence of "Rio Virgen" from the north and northeast, thence southwest to "Calville" [*sic*], and southward to the gulf. Cataract Creek (not labeled) is shown as a tributary to the Little Colorado just above the confluence with the main Colorado. A tributary (not labeled) from the northwest is shown between the Little Colorado and Diamond Creek; and "R. Yampa is shown as a tributary passing through "Red L." before reaching the Colorado from the south-southwest. The overall geography and various labels indicate it follows the Egloffstein model. "Big Cañon" is labeled between Calville and the Yampa confluence, and the Colorado is shown with hachures as passing through various plateaus.
- 1873 25.758 **(Pacific States) California, Nevada, Oregon, Washington, Idaho, Utah, Arizona and part of Montana.**
- In: Zell's descriptive hand atlas of the world.* Philadelphia: T. Ellwood Zell, 55 maps, separately paginated texts and indices. (Ornamental title page: *A descriptive hand atlas of the world.*)
- ▶ The "Rio Colorado" between the confluence of "Lit. Colorado or Flax River" and approximately where the Diamond Creek is situated, is represented only by a conjecturally dashed line. The river upstream from the confluence is labeled "Rio Colorado grande". The region south of the confluence is labeled "Colorado Plateau"; the region immediately north of the river is blank. The lower Colorado River region is labeled "Great Colorado Val."

G. W. and C. B. Colton and Co.

- 1873 25.1561 **Maps showing the Connections of the Little Rock and Fort Smith Railroad and its Land Grant. Prepared by G. W. & C. B. Colton & Co. 172 William Street New York.** ("Entered according to Act of Congress in the year 1873 by G. W. & C. B. Colton & Co. in the Office of the Librarian of Congress, at Washington.")
- ▶ Half of the sheet comprises a map of the United States. The "35th Parallel Route" is haphazardly delineated across northern Arizona, south of "Colorado River" that shows an encanyoned stretch between "Callville" (the Virgin River is not delineated) and where the confluence of Diamond Creek is situated (not depicted). The Colorado's course through central and eastern parts of Grand Canyon (not labeled) is wildly conjectural, although surprisingly the course and confluence of "Colorado Chiquito" is approximately correct.
- 1873 25.1562 **Colton's New Mexico and Arizona Published by G. W. and C. B. Colton & Co. N^o 172 William St New York.** ("Entered according to Act of Congress in the year 1873 by G. W. & C. B. Colton & Co. in the Office of the Librarian of Congress, at Washington.") Scale 1:2,090,880.
- ▶ "Colorado R." in the western part of "Grand Canon of the Colorado" is depicted as encanyoned, as also is the tributary "Diamond R." Through the central

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

and eastern parts of the canyon the course of the river is wildly conjectural, though with "Kanab Cr." meeting it from the north midway. "Flax R. or Colorado Chiquito" reaches the Colorado in eastern Grand Canyon. Also shown on the map is the "Surveyed Line Atlantic & Pacific R.R."

- 1873 25.1583 **Maps showing the Atlantic & Pacific Railroad and leased lines. Engraved[,] Printed & Published by G. W. & C. B. Colton & Co. New York.** ("Entered according to Act of Congress in the year 1873 by G. W. & C. B. Colton & Co in the Office of the Librarian of Congress, at Washington.")

► The route of "Atlantic & Pacific R.R." is delineated across northern Arizona. "Colorado R." through what is the Grand Canyon (not labeled) is wildly conjectural, although the confluence of "Colorado Chiquito" is generally correct.

- 1873 25.1704 **Colton's California, Nevada, Utah, Colorado, Arizona & New Mexico. Published by G.W. and C.B. Colton & Co., N^o172 William St^t New York. 1873.**

In covers with embossed stamping, "Colton's Map of California, Nevada, Utah, Colorado, Arizona, and New Mexico. G.W. & C.B. Colton & C^o"

► "Rio Colorado" is depicted between head of Gulf of California (not labeled) and the confluence of "Green River" and the Grand River (see further); its reach in Mexico is shown on a very sinuous southward course, receiving "New River" from the northwest about one third of the distance above the gulf, and in this reach are various places labeled, including "Algodomes" [*sic*], "Willow Woods", "Ogdens Landing", and "Sierra Nevada Anchorage". "F^t Yuma" and "Arizona City" are labeled at the "River Gila" confluence. (Regarding the Grand River, it is labeled "Grand Riv." on its upper course but confusingly "Bunkara R." downstream from there before receiving "South Fork of Grand R.", then after receiving the combined "Rio San Miguel" and "Dolores R." it is not definitively labeled until it meets the Green at the head of "Cataract Canon".) Downstream from the Grand-Green confluence the Colorado passes through "Narrow Canon", "Mound Canon", and "Monument Canon", after which it receives "Paria R." from the north-northwest. It passes into "Marble Canon" where it receives "Colorado Chiquito" from the east-southeast, before passing on a wildly conjectural course through "Grand Canon of the Colorado", first receiving a tributary (not labeled) from the south that must be meant Cataract Creek (seriously misplaced) before turning northward and then, before turning southwestward, receives at that point "Bright Angel R." from the north (perhaps confused with Kanab Creek, which is not shown). In the western part of Grand Canyon the Colorado along a southwesterly course receives a tributary (not labeled) from the north before turning sharply north-northwestward, having received at that point "Yampa Cr." from the southwest (at the head of which, to the east, is "Hualpais Spr.") that is clearly confused with Diamond Creek (not present). At the western end of Grand Canyon the Colorado follows a westerly course, arcing eventually to its southerly course, receiving a tributary from the north and northeast (not labeled except for the presence of "Salt Mountain [*sic*]", but which is Virgin River); however, the reach between that confluence and "Callville" and "Head of Navigation" the river is labeled "Virgin R.!" Also shown are the routes of "Atlantic & Pacific" and a 32nd parallel wagon road.

Gibbes, Charles Drayton

WHEAT V:1240

- 1873 25.1352 **Map of the States of California and Nevada. Carefully Compiled from the Latest Authentic Sources. By Chas. Drayton Gibbes, C.E. Comprising Information obtained from the U.S. Coast and Land Surveys; State Geological Surveys, by Prof. J. D. Whitney; Railroad Surveys and the Results of Explorations Made by Brevet. Lieut. Col. R. S. Williamson, U.S.A., Henry De Groot, C. D. Gibbes, and Others. Published by Warren Holt. No. 607 Clay Street, San Francisco, Cal. 1873.** ("S. B. Linton Formerly of the U.S. Coast Survey Draughtsman & Lithographer 148½ S. Fourth Street Philadelphia, Pa.")

► A very detailed map. "Colorado River" is shown between a point just south of the lower international boundary with Mexico and on the northern end passing off

the map to the east precisely on the 36th parallel. Includes numerous places name and mining districts. Just to the east of the Arizona-Nevada common point "Yampa Creek" is shown as a tributary to the Colorado, having run into and from "Red Lake" in "Hualpai Val." The Colorado River at this point is marked "Supposed Head of Navigation".

Gray, O. W.

- 1873 25.2067 **Gray's Atlas Map of North America.**
In: Gray's atlas of the United States, with general maps of the world. Accompanied by descriptions geographical, historical, scientific, and statistical. Philadelphia: Stedman, Brown and Lyon, p. 83.
 ► "Rio Colorado" is delineated between "Gulf of California" and the confluence of "Green R." and "Grand R." The Green's lower course and the Grand run southwesterly in parallel, with the Grand turning west to meet the Green, receiving enroute "Rio S. Juan" from the east *and* "Lit. Colorado R." from the southeast. From the Green-Grand confluence the Colorado's course is west-southwest to the confluence of "R. Virgin" from the north and northeast, before turning south, along which reach two tributaries are noted (not labeled, one from the northwest, the other from the east and north [Bill Williams River], eventually reaching the "Rio Gila" confluence from the east.
- 1873 25.2185 **Gray's Atlas Map of the United States of America 1873.**
In: Gray's atlas of the United States, with general maps of the world. Accompanied by descriptions geographical, historical, scientific, and statistical. Philadelphia: Stedman, Brown and Lyon, p. 87.
 ► "Colorado R." is delineated between the Gulf of California (not labeled, and only the head appears at the bottom of the map) and the confluence of "Green River" and "Grand R." From the Green-Grand confluence the Colorado's course arcs from southwest to south, reaching the confluence of "Colorado Chiquito" from the southeast. Through the area that is the eastern and central Grand Canyon the Colorado's course is wildly serpentine—bactrian in fact—before proceeding northwest to "Callville" (the Virgin River does not appear on this map), then turns southward toward the gulf, receiving enroute "Bill Wms. Fk." from the east and north, and "Rio Gila" from the east-northeast. The western Grand Canyon is depicted as encanyoned.
- 1873 25.2186 **Gray's Atlas Map of New Mexico and Arizona.**
In: Gray's atlas of the United States, with general maps of the world. Accompanied by descriptions geographical, historical, scientific, and statistical. Philadelphia: Stedman, Brown and Lyon, p. 146.
 ► In Arizona, "Colorado Riv." is depicted from the Utah boundary to the lower international boundary with Mexico. It appears that the Paria River (not labeled) is displayed upstream from the confluence of "Little Colorado or Flax Riv." The Colorado's course through the Grand Canyon region is rather wildly serpentine, with tributaries (not labeled) from the north (Kanab Creek), southeast (Cataract Creek), northwest (undetermined, apparently a remnant of Egloffstein-style reaches of the Colorado River coming from the north in west-central Grand Canyon), and south (Diamond Creek, generalized). "Rio Virgin" is a tributary from the north and northeast. "Bill Williams Fork" is a tributary from the east and north. "Gila Riv." is a tributary from the east-northeast.

Johnston, Alexander Keith [Johnston, Keith]

- 1873 25.1376 **United States of North America (Western States) by Keith Johnston, F.R.S.E.** ("Engraved, Printed and Published by W. & A. K. Johnston, Edinburgh & London.")
 Caption: "Keith Johnston's General Atlas", "44".) Scale 1:6,047,811, 95 miles to an inch.

► At last, with this ed. the "Rio Colorado" (a bit crudely overdrawn) is depicted by a solid line, as are the lower courses now of the tributaries to it. Although "Rio Colorado" is now labeled along its entire course from the confluence of the "Green River" and "Grand River", its course through the Grand Canyon remains figurative. The western boundary of "Arizona" is now refigured to its modern placement.

Leicht, F. v., AND Craven, A.

WHEAT V:1238

1873 25.1364 **State Geological Survey of California J.D. Whitney, State Geologist. Map of California and Nevada. Scale: Eighteen Miles to One Inch (1: 1140,480. [sic]) 1873. Drawn by F. v. Leicht and A. Craven.** ("J. Bien Lith. N.Y.")

► A physiographic map only. In the southeast corner of the map, "Colorado River" is depicted from below the lower international boundary in Mexico (reflecting its very convoluted course) north to the Nevada-Arizona common point east of "Virgin River". "Black Cañon" is labeled.

Niox (M!) [Niox (Monsieur)] [Niox, Gustave Léon]

1873 25.1554 **Carte du Mexique Dressée au Dépôt de la Guerre, Par M! Niox, Capitaine d'Etat Major D'après les levés des Officiers du Corps Expéditionnaire et les renseignements recueillis par le Bureau Topographique. Paris 1873.** ("Gravée le trait et la lettre par Teyssier, le figuré du terrain et les eaux par H. Girard.") (Gravée en relief par Yves et Barret.") ("Paris.—Imprimerie v^e Éthiou-Pérou, rue Damiette, 2 et 4.") Scale 1:3,000,000. [In French.]

► "Rio Colorado" is shown between its mouth and the site of Yuma, Arizona, which is labeled "Colorado" (presumably for Colorado City). [Bahia Adair is labeled "Bahia de Pinacates", and the adjacent land of Sonora is labeled "Désert de Sable".

Petermann, A.

1873 25.571 **Die Vereinigten Staaten von Nord-Amerika in 6 Blättern im Maassstabe von 1:3.700.000. Von A. Petermann.** ("Bearbeitet v. H. Habenicht.") ("Gotha: Justus Perthes 1873.") ("III.III. Gest. v. Eberhardt, Kühn, Metzgeroth u. Weiler.") ("Steiler's Hand_Atlas, N^o 84.") [In German, with mixed labeling.]

See the southwestern sheet of this series.

► On this sheet, the Colorado River is labeled "Great Colorado" on its lower course, "Rio Colorado" on its upper course. It is delineated between "Golf von Californien" and the confluence of "Grand River" and (not labeled on this sheet) Green River. In the Grand Canyon it is a curious mixture of Egloffstein's map in Ives and more recent discoveries (i.e. the Powell expedition). The Paria River (not labeled) is shown, with "Little Colorado od Flax R." shown with its confluence with the Colorado in its correct place, as also is "Cataract Creek" with "Yampais Village" shown, but near that confluence is a tributary from the northeast, with a dotted-line upper course, that is reminiscent of Egloffstein's rendition of the Colorado. Between Cataract Creek and the confluence of "Rio Virgin" is the label "Big Cañon of the Colorado". Also there are numerous geographic locales labeled in English notations, apparently from Egloffstein. The route of the Ives land expedition near Grand Canyon is plotted, as also are the routes of other contemporary expeditions.

Compare also Peterman (1875, ITEM NO. 25.2088).

U.S. General Land Office

1873 25.1567 **Map of the united States and Territories, Showing the Extent of Public Surveys, Indian and Military Reservations, Land Grant R.R. Rail Roads, Canals, and other Details, Compiled from the Official Surveys of the General Land Office, and Other Authentic Sources, Under the Direction of the Hon. Willis Drummond, Commisisoner. 1873.**

► "Rio Colorado" is depicted only generally in the Grand Canyon region (not labeled). Limited topography is displayed along the Mogollon Rim to the Colorado. The routes of the Atlantic and Pacific, and Texas and Pacific, railroads are delineated.

Vernon, Edward

1873 25.944 (COMPILER, ED.) **American railroad manual for the United States and the Dominion, containing full particulars of the mileage, capital stock, bonded debt, equipment, earnings, expenses, and other statistics of railroads, as now built and in process of construction, together with a general railroad map of the United States and the Dominion and individual maps of each state and territory : also, an epitome or brief history of the charter under which each road was originally constructed, and the various transformations or re-organizations through which each company has passed from the date of its first incorporation down to the present time.** New York: American Railroad Manual Co.; Philadelphia: J. B. Lippincott and Co.; and London: Trübner and Co., 632 pp.

Williams, J. David

1873 25.2116 **Map of Colorado, Utah, New Mexico, and Arizona.** ("J. David Williams, New York, Boston & Chicago.") (Imprimerie de Ferd. Mayer et fils, New York et Paris.)
In: The peoples' pictorial atlas. Being a complete and popular account of all the countries of the world, in their geographical, statistical, topographical and commercial aspects. With 52 maps. Constructed by A. Keith Johnston, F.R.G.S.; Prof. H. D. Rogers, of Boston; Edward Weller, F.R.G.S., and other eminent geographers. Compiled and edited by Charles H. Jones, assisted by Theodore F. Hamilton. New York: J. David Williams, plate 17.

► "Rio Colorado" shown between head of Gulf of California and the confluence of "Green River" and "Grand River". From that confluence the Colorado's course is southwest to the confluence of "Rio San Juan", where it arcs southwest to northwest around "Sierra de Lanterna" in southern "Territory of Utah", then arcs to the southwest, crossing the Utah-Arizona boundary, receiving from the southeast "Rio de Lino or Colorado Chiquito (Little" [sic], continuing southwestward to beyond the confluence of Diamond Creek (not labeled) receiving also from the north a large tributary (not labeled), turning to the northwest to the confluence of "Rio Virgin" (from the northeast and north), receiving en route from the southwest "Yampa Cr.", which itself comes from the east and southeast, its course through "Red L." "Cataract Cr." is a tributary to the lower Little Colorado. "Big Canon of the Colorado" is labeled between the Diamond Creek confluence and east of the "Sierra de Lanterna", the course depicted as encanyoned. Turning to the south, the Colorado's course is noted through "Black Canon".

NOTE: Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

1874**A. T. Andreas** [firm]

1874 25.1010 **Topographical map of the United States. Published by A. T. Andreas, Lakeside Building. Chicago 1873.**

In: An illustrated atlas of the State of Minnesota. Chicago: A. T. Andreas.

► Topography is shown only as generalized positions of mountains. "Colorado Riv." is labeled on the lower reach of the river. The river in the Grand Canyon region, between "Rio Virgin" and "Colorado Chiquito R" is depicted by a wildly and conjecturally undulating line. Above the Little Colorado the river, between the confluences of "R San Juan" and "Green R" is labeled "Rio Colorado or Grand R", the

latter which seems continues into Colorado and there into which flows the "Bunkara or Blue r R" [sic].

Asher and Adams [firm]

NO DATE 25.1149

Asher & Adams' Arizona.

*In: Asher & Adams' new commercial topographical and statistical atlas and gazetteer of the United States: with maps showing the Dominion of Canada, Europe and the world. * * * Compiled, drawn and engraved under the supervision of the publishers, by their own engineers, topographers, and artists, from the most recent official reports, astronomical observations, surveys, records, and documents of the United States and Territories, the Dominion of Canada, the several States, railroad companies etc.* New York: Asher and Adams.

Map is on pp. 139/140), dated 1874: "Entered according to Act of Congress in the year 1874 by Asher & Adams in the Office of the Librarian of Congress at Washington"; the "4" in the date seems to have been re-engraved, awkwardly.

► "Colorado River" is depicted from south of "Ft. Yuma" and "Arizona City (Yuma P.O.)" to just north of the Arizona-Utah boundary. In the Grand Canyon region, the river follows a wildly sinuous course between "Little Colorado R." and "Rio Virgin", with "Grand Canon of the Colorado" labeled at its western end. "Lava Creek" (Cataract Creek) is shown as a tributary from the south. Also labeled are "Boulder Canon" and "Black Canon".

G. W. and C. B. Colton and Co.

1874 25.2422

New County Map of the United States of America. Drawn[,] Engraved & Printed by G. W. & C. B. Colton & Co. New York. 1874. ("Entered according to Act of Congress, in the year 1873, by G.W. & C. B. Colton & Co. in the office of the Librarian of Congress, at Washington.")

Case title: **Colton's Map of the United States.**

► The Colorado River is labeled "Rio Colorado" on its lower course, "Colorado R." on its upper course; delineated between the southerly U.S.-Mexico boundary and the confluence of "Green River" and "Grand River". From that confluence the Colorado follows a course to the southwest, with "Cataract Cañon", "Narrow Cañon", "Dirty Devil R." tributary from the northwest, "Mound Cañon", "Rio San Juan" tributary from the east-southeast, an unlabeled tributary from the northwest, "Monument Cañon", crosses the Utah-Arizona boundary, "Paria R." tributary from the northwest, "Marble Cañon", and "Colorado Chiquito River" tributary from the east-southeast. At the confluence of "Cataract Cr. from the south and southeast the river begins a wildly serpentine course thorough "Grand Canon of the Colorado River", but the apparent confluence is misengraved, in that the course of the Colorado follows it for a short distance before looping northeast around to southwest to where the remainder of the Cataract course is drawn, with the label "Yampais Vill." positioned some distance to the northwest of the Cataract confluence and on the north side of the Colorado. At the apex of the aforementioned loop, the Colorado receives "Bright Angel R." from the north (an error for Kanab Creek). In the western part of the Grand Canyon an unlabeled tributary arrives from the north (at about where would be the Parashant Canyon configuration on Egloffstein's map, and "Yampa Cr." from the southwest (after having passed through "Red Lake" and its source reach to the east of there). The Colorado then follows a course due north before turning abruptly west to reach the confluence of "Virgin R." from the north and northeast, with "Callville" mrked some distance downstream on a course arcing from southwest to south, receiving "Rio Vegas" (Las Vegas Wash) from the west-northwest and passing into "Black Cañon".

1874 25.2423

North America Showing the Territory of Alaska Ceded by Russia to the United States 1867. ("Entered according to Act of Congress, in the Year 1860 [sic] by J. H. Colton in the Clerks Office of the Dis [interrupted by a scale bar] t of New York.")

INSET on Colton, 1874, *New County Map of the United States of America*, **ITEM NO. 25.2422**).

► "R Colorado" is delineated between the confluence of "Green R." and "Grand R.", which two tributaries have southwest courses in parallel. The Grand receives "R. S. Juan" from the east before turning west to meet the Green, along which reach it also receives "Lit. Colorado R." from the southeast. The Colorado arcs to the south, receiving an unlabeled tributary (Bill Williams River) from the east and north and "R. Gila" from the east.

Garcia Cubas, Antonio

- 1874 25.2321 **Sonora.** ("Carta N^o 5.") *In:* Garcia Cubas, Antonio, *Atlas metodico para la enseñanza de la geografia de la Republica Mexicana . . .* Mexico: Sandoval y Vazquez, Impresores. **[In Spanish.]**
 ► The Colorado River delta area is only cursorily shown; the river is not labeled.
- 1874 25.2322 **Territorio de la Baja California.** ("Carta N^o 33.")
In: Garcia Cubas, Antonio, *Atlas metodico para la enseñanza de la geografia de la Republica Mexicana . . .* Mexico: Sandoval y Vazquez, Impresores. **[In Spanish.]**
 ► The Colorado River delta area generally depicts "R. Colorado" entering "Golfo de California", along which the area is indicated to be agricultural.

Guernsey, D. L.

- 1874 25.1570 **1874. The American Union Railroad Map of the United States[,] British Possessions, West Indies, Mexico, and Central America. Published by D. L. Guernsey, Concord, N.H.** ("Press of Wynkoop & Hallenbeck, 113 Fulton Street, N.Y.") ("Smith & McDougal, Electrotypers, 82 Beckman St., New York.")
 This map is identical to that of Haasis and Lubrecht (1872, **ITEM NO. 25.1569**).
 ► The 35th parallel rail line is not labeled other than an indication in northern Arizona, "Sitgraves Route" [*sic*]. The 32nd parallel line across southern Arizona is labeled "Proposed Southern Pacific R.R." and "Former Overland Route". "Colorado River" is depicted between the head of the "Gulf of California" and the confluence of "Green R." (labeled on a headwater branch) and "Grand R." Its lower course is reasonably well portrayed; however, its course between the Green-Grand confluence and the confluence of "Virgin Riv." is remarkable. From the Green-Grand it heads southwesterly on an arc that becomes a due west heading just north of the Utah-Arizona boundary; had it continued without turning west it would have crossed into Arizona at about where it does in fact. Southwest of Rockville, Utah, before it conflicts with the Virgin River, the Colorado turns to the southwest, crossing the Utah-Arizona boundary, then flows around the west side of "North Side Mt." to a southeast heading where in "Great Canon of the Colorado" it receives "Colorado Chiquito or Flax Riv." (Little Colorado River). The Colorado then arcs back to a northwest heading, receiving in the middle of that arc Diamond Creek (not labeled), and heads northwest to the great bend. Arcing to the south, it passes "Colville" and receives "Virgin Riv." from the northwest (which in turn had first come southwest from Utah). At Callville is the label, "Long Rapids, Head of Navigation". The course of the Little Colorado River is just as remarkable, passing northeastward to the 36th parallel before turning west-northwest toward the east side of "North Side Mt." (the mountain being 50 miles southeast of St. George, Utah), then turns southwest to strike the Colorado River. A few miles before the Little Colorado turns southwest it receives "Cataract Cr." from the southeast, at which point also is labeled "Yampais Village". Confusing matter more, paralleling Cataract Creek some 30-40 miles to the east are two smaller tributaries (not labeled), on one of which is labeled "Cascade", which is reminiscent of the presentation on other maps of Cataract Creek. Indeed, despite the misalignments of

the rivers that are a reflection of Egloffstein's geography in Ives (1861), that entire system has been transposed miles to the west.

NOTE: Compare also Watson (1875, *ITEM NO.* 25.597), which attempts to make corrections in the Grand Canyon area.

H. H. Lloyd and Co.

- 1874 25.2302 **North America By H. H. Lloyd & Co. N. Y.**
In: Lloyd's handy atlas, containing maps of the world, and its grand divisions, the United States, and the different states and territories of the union, etc., etc.
 Concord, New Hampshire: D. L. Guernsey.
 ► A peculiarly mixed up presentation. The Colorado River is delineated as expected between the head of the "Gulf of California" and the confluence of "Green" and "Grand", but its *entire* course, and including the lower courses of the Green and Grand, are depicted by dashed lines, and the label "Colorado" appears only on the Little Colorado River, thus giving the impression that the Green (or possibly the Grand) continues southward to the (Little Colorado's) confluence while showing the Colorado along that course instead. The San Juan River (not labeled) is likewise presented with a dashed line, on its proper course. The Virgin River (not labeled) is also shown more or less properly, and with a solid line, dashed only at its closest approach to the Colorado. The Bill Williams River (not labeled) is shown by a solid line. "Gila", with a solid line, is a tributary to the Colorado at "Arizona City", below which the river course is presented by a solid line to the head of the gulf.
- 1874 25.2303 **Railroad Map of the United States. Published by H. H. Lloyd & Co. New York.**
In: Lloyd's handy atlas, containing maps of the world, and its grand divisions, the United States, and the different states and territories of the union, etc., etc.
 Concord, New Hampshire: D. L. Guernsey.
 ► Only the 32nd parallel railroad route is shown in the area of interest here. "Rio Colorado" is delineated generally, between the "Gulf of California" and the confluence of "Green R." and "Grand R." From that confluence the Colorado follows a southwesterly course, receiving the San Juan River (not labeled) from the southeast, "Colorado Chiquito" from the southeast, and Cataract Creek (not labeled) from the southeast), beyond which the Colorado's course is west to the confluence of the Virgin River (not labeled), then southward to the gulf, receiving an unlabeled tributary from the west at "Ft. Mohave", the Bill Williams River (not labeled) from the east and north, and "R. Gila" from the east-northeast.
- 1874 25.2304 **County Map of Arizona and Southern California.**
In: Lloyd's handy atlas, containing maps of the world, and its grand divisions, the United States, and the different states and territories of the union, etc., etc.
 Concord, New Hampshire: D. L. Guernsey.
 ► "Rio Colorado" is presented in the Grand Canyon region as decidedly on the model of Egloffstein, with peculiarities. The Colorado seems to come from Utah on a southwesterly course, where at the confluence of the Little Colorado River (not labeled?) is "Yampais Vil."; the Cataract Creek tributary (not labeled) is in position with its confluence along the Little Colorado just before the main confluence of the two Colorados. The rivers are depicted as encanyoned, and the hachures along the Little Colorado seem to eradicate a label that apparently ends with "or Flax R." From the main confluence the Colorado continues southwestward, noticeably receiving Egloffstein's Parashant Canyon tributary (not labeled) from the northwest, and Diamond Creek (not labeled) from the southeast. The river then turns northwestwardly toward the Virgin River (not shown as it is off the map). No name is indicated for the Grand Canyon.

Hitchcock, Charles H., AND Blake, William P.

- 1874 24.855 (COMPILERS) **Geological Map of the United States Compiled by C. H. Hitchcock and W. P. Blake from sources mentioned in the text. 1874. Lith. by J. Bien N.Y.**
In: Walker, Francis A. (compiler), *Statistical atlas of the United States based on the results of the Ninth Census 1870 : with contributions from many eminent men of science and several departments of the government.* [Washington, D.C.]: U.S. Department of the Interior, Census Office, Plates 13/14, text pp. 6-9.
 In text see Blake, William P., "General View of the Geology of the Western Portion of the United States), pp. 7-8; combined references, p. 9.

Leicht, F. v., AND Craven, A.

WHEAT V:1243

- 1874 25.1365 **State Geological Survey of California J.D. Whitney, State Geologist. Map of California and Nevada. Scale: Eighteen Miles to One Inch (1: 1140,480. [sic]) Drawn by F. v. Leicht and A. Craven.** ("J. Bien Lith. N.Y.") ("2nd Edition Revised by Hoffmann and Craven and issued by authority of the Regents of the University of California given May 12th. 1874.") ["Hoffmann" is Charles F. Hoffman.]
 ► A physiographic map only. In the southeast corner of the map, "Colorado River" is depicted from below the lower international boundary in Mexico (reflecting its very convoluted course) north to the Nevada-Arizona common point east of "Virgin River". "Black Cañon" is labeled.

Steinwehr, A. von

- 1874 25.1748 (COMPILER) **Map of the River Systems of the United States compiled by A. von Steinwehr. To which are added certain statistics compiled from the returns of population and industry of the Ninth Census 1870 by Francis A. Walker.**
In: Walker, Francis A. (compiler), *Statistical atlas of the United States based on the results of the Ninth Census 1870 : with contributions from many eminent men of science and several departments of the government.* [Washington, D.C.]: U.S. Department of the Interior, Census Office, Plates I/II.
 ► The base map, with implied authority, differs from the two base map styles used elsewhere through this volume; see Walker (1874, ITEM NO. 25.1749). Regarding Steinwehr's map: "Colorado R." is depicted between the "Gulf of California" and the confluence of "Green R." and "Grand R." Below that confluence the Colorado follows a generally arcing course from southwest to west-northwest at the confluence of "Virgin R.", from whence it follows a generalized but otherwise accurate course southerly to the gulf. En route it receives "San Juan R." from the east-southeast, "Little Colorado or Flax R." from the southeast, "Virgin R." from the north-northeast and northeast, "Santa Maria R." (Bill Williams River) from the east, and "Gila R." from the east.

Taintor Brothers & Merrill [firm]

- 1874 25.2253 **New Map of North America. Published by Taintor Bros. & Merrill. New York.**
In: *The American household and commercial atlas of the world. Carefully prepared and drawn from the Coast Survey reports, and other official surveys and authorities of the United States and other governments.* New York: Taintor Brothers & Merrill.
 ► "Rio Colorado" is delineated between "Gulf of California" and the confluence of "Green R." and "Grand R." The Green and Grand Rivers follow parallel courses to the southwest in Utah, crossing into Arizona, when the Grand River turns west to meet the Green. The schematic follows only very generally that of Egloffstein; in this version the Little Colorado River (not labeled) meets the Grand, although Cataract Creek (not labeled), which by Egloffstein would be a tributary to the Little Colorado is here implied to be a tributary to the Grand, although conversely it could be said that

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

the Grand is a tributary to the Little Colorado. "R. Virgin" is a tributary to the Colorado before the latter's turn to the south. The Gila River is not labeled.

- 1874 25.2254 **New Map of the United States and Territories Published by Taintor Bros. & Merrill. New York.**
In: The American household and commercial atlas of the world. Carefully prepared and drawn from the Coast Survey reports, and other official surveys and authorities of the United States and other governments. New York: Taintor Brothers & Merrill.
- ▶ "Rio Colorado" is delineated between the Gulf of California (not labeled) and the confluence of "Green River" and "Grand River" The Green and Grand Rivers follow parallel courses to the southwest in Utah, crossing into Arizona, where they both turn to the south, with the Grand River eventually turning west to meet the Green. "Rio San Juan" and "Canon Bonito" both converge from the east as tributaries to the Grand, at the same point. The schematic follows only very generally that of Egloffstein; in this version "Rio de Lino" (labeled "Colorado Chiquito R." in its upper course) meets the Grand, although conversely it could be said that the Grand is a tributary to the Little Colorado. An unlabeled stream follows a west-northwesterly course to the Colorado, starting north of Prescott, Arizona, which could be a misplaced Cataract Creek or a misdrawn Diamond Creek. "Rio Virgen" is a tributary to the Colorado from the northeast, but the label is misplaced along the Colorado itself downstream from the confluence. "Bill Williams Cr." is a tributary from the north and east, and "Rio Gila" arrives from the east-northeast at "F. Yuma" and "Colorado City".
- 1874 25.2255 **Map of Texas, Indian Territory, Kansas, New Mexico and Arizona. Published by Taintor Bros. & Merrill. New York.**
In: The American household and commercial atlas of the world. Carefully prepared and drawn from the Coast Survey reports, and other official surveys and authorities of the United States and other governments. New York: Taintor Brothers & Merrill.
- ▶ "Rio Colorado" is delineated between "Gulf of California" and the confluence of "Green River" and "Grand River". From that confluence it follows a southwesterly course, receiving "Rio San Juan" from the southeast and "Colorado Chiquito R." from the southeast, before arcing to the west at which point it receives "Cataract Cr." from the southeast, then again southwest to where would be the Diamond Creek confluence (but which stream is not shown, that at that point is the place-name "Hualpais". From there the Colorado follows a meandering course west-northwestward, receiving "Rio Virgen" from the north and northeast before turning southward at "Callville".

U.S. House of Representatives

- 1874 25.2402 圖 精 球 地 [*read right-to-left*] [Chikyū seizu] [**Earth cartography**]. Osaka: Nakano Keizō. [**In Japanese.**]
- ▶ “コロラド” (Colorado) is delineated on an effectively straight south-southwesterly course from headwater to the Gulf of California (other labels in Japanese orthography not reproduced here). What probably are the San Juan, Little Colorado, and Virgin Rivers are shown as tributaries. The Gila River arrives independently at the head of the gulf.
- Data from the David Rumsey map collection,
https://www.davidrumsey.com/luna/servlet/detail/RUMSEY~8~1~340602~90108856:%25E5%259C%25B0%25E7%2590%2583%25E7%25B2%25BE%25E5%259C%2596---Chikyu%25CC%2584-seizu---Earth-Cartog?sort=sortid%2Cpub_list_no%2Cseries_no%2Cseries_no&qvq=q:sortid%3Dbatch017%20OR%20sortid%3Dbatch018%20;sort:sortid%2Cpub_list_no%2Cseries_no%2Cseries_no;lc:RUMSEY~8~1&mi=11737&trs=66055 (last accessed October 25, 2023).

Walker, Francis A.

- 1874 25.1749 (COMPILER) **Statistical atlas of the United States based on the results of the Ninth Census 1870 : with contributions from many eminent men of science and several departments of the government.** [Washington, D.C.]: U.S. Department of the Interior, Census Office.
- ▶ See Steinwehr (1874, **ITEM NO.** 25.1748) for citation of “Map of the River Systems of the United States”. Walker cited here for the volume’s use otherwise of two **BASE MAP STYLES**, which differ from the implied authority of Steinwehr:
- [**Style 1**] “Colorado River” depicted between Gulf of California (not labeled) and confluence of what presumably are the Grand and Green Rivers (not labeled). Between that confluence and the confluence of Virgin River (not labeled, which arrives from the north-northeast at “Callville”), the Colorado follows a gradually arcing course from southeast to nearly west, before receiving in the western Grand Canyon area (not labeled) what is the Little Colorado River (not labeled) from the east in a fashion reminiscent of the Egloffstein model; then between that confluence and the Virgin the river follows a generally accurate course. The lower Colorado River is drawn on a sinuous but generally accurate course to the gulf. The only other tributaries noted on the Colorado in the area of interest here are the San Juan (not labeled) and “Gila Riv.”
- [**Style 2**] “Rio Colorado or Grand River” is depicted between the “Gulf of California” and the confluence of “Green River”, with the Grand portion carrying the “Grand” label as so noted. From the Grand-Green confluence to the confluence of the Virgin River (not labeled, arriving from the north and northeast), the Colorado follows a mostly southwestward course, which is delineated in alternately solid and dotted lines. En route it receives “Rio San Juan” from the southeast, an unlabeled, short tributary from the north-northwest (the Paria River), and in the western part of the Grand Canyon region (not labeled) a tributary from the east (not labeled, Little Colorado River) that a short distance above its confluence with the Colorado receives a bifurcated tributary from the south-southeast (not labeled, Cataract Creek), which together resemble the Egloffstein model that has the Little Colorado as a tributary to the lower Cataract. Below that confluence the Colorado follows a generally accurate course to the gulf, receiving en route below the Virgin two short tributaries (not labeled) from the northwest, a larger tributary from the east (not labeled, Bill Williams River), a short tributary from the west (not labeled), and, just above the confluence of “Rio Gila” two short, parallel tributaries from the northwest. Downstream from the Gila there is a vague depiction of the Colorado dividing and reaching the head of the gulf on independence courses; on the western, more prominent, course is a tributary (not labeled) arriving from the northwest.

Wheeler, George M.

- 1874 — [Wheat (1963, Volume V, p. 428) reserves **WHEAT V:1250** as (including square brackets): "1874 Wheeler Survey", "[Topographical and Geological Atlas of the U.S. Geographical Explorations and Surveys West of the 100th Meridian. 1874-1884.] This entry is made *pro forma*, to stand for the entire body of maps prepared for the atlases of the Wheeler Survey. For titles of the atlases and a general discussion see the text." (for which see his pp. 341-342).]

Andreas Atlas Co.

- 1875 25.2064 **New Railroad map of the United States[,] the Dominion of Canada[,] Mexico and the West Indies.**
In: Illustrated historical atlas of the State of Iowa. Chicago: Andreas Atlas Co., pp. 16-17).
▶ "Rio Colorado" is delineated between head of "Gulf of California" and the confluence of "Green R." and "Grand River". From that confluence the Colorado's course is southwest into Arizona, where soon after crossing into that territory it turns due west along the Utah-Arizona boundary, before turning south-southwest to the confluence of "Little Colorado" from the east-southeast. Near that confluence on the Little Colorado is the confluence of an unlabeled tributary that is Cataract Creek. At the point recognizable as where is the confluence of Diamond Creek there arrives a tributary (not labeled, not Diamond Creek) that begins at forked heawaters nearby, flows west into a lake, then the outlet on the north side of the lake sends the stream eastward to the Colorado confluence; this appears to be what is labeled on other maps variously as "Yampais" creek. At the end of the Colorado's westward course is the confluence of "Santa Clara" (Virgin River), from where the Colorado heads southwest then south, receiving en route a tributary (not labeled) from that northwest that passes by the place name "Vegas", which must indicate Las Vegas Wash. Other tributaries are an unlabeled river from the east and north (Bill Williams River), a tributary from the northwest (not labeled), and "Rio Gila" from the east. Sketched in are the routes of the 35th parallel railroad (without label) and the 32nd parallel railroad ("Texas Pacific R. R.").
NOTE: The title cited here is one of a series of atlases that were customized (commissioned?) for specific counties or states of the United States, which were published during the 1870s and 1880s at least. There are variances to all.

Bonaparte, Erhard R.

- NO DATE 25.1350 **Carta dell'Utah e de' suoi dintorni.** (*"Dessiné par Visille—"[?]* [*imperfect*]. "Gravé chez Erhard R. Bonaparte".) [**Map in French, with title in Italian; volume in Italian.**] **WHEAT V:1021**
In: Burton, Riccardo [Burton, Richard F.], *I Mormoni e la città dei santi : viaggi dei capitano Riccardo Burton*. Milano: Fratelli Treves, Editori (1875), facing p. 1.
▶ The map is in French, clearly borrowed for this translated edition of Burton even though its title panel is in Italian. It is a different map from the three maps that appeared in the 1861 and 1862 English editions (see Burton, 1861, **ITEM NO.** 25.1349). This map depicts western North America north of the confluence of the "R^o Colorado

de Occidente" and "Rio Gila". In "Nouveau Mexique", "R^o Verde" (Green River) and "R^o Grande" are shown running in parallel from headwaters to the southwest, and "R^o [illegible] Juan" (San Juan River) is a tributary to the Grand from the east. The confluence of the Green and Grand is in the area where the Grand Canyon is situated. "Petit Colorado" (Little Colorado River) is shown as a tributary to the Grand, downstream from the San Juan, striking it from the southeast with its lower course delineated by a dotted line. In the central Grand Canyon area a sinuous, unlabeled stream (presumably Cataract Creek) strikes the Colorado from the southeast, with its lower course delineated by a dotted line. Where the Colorado turns from west to south is the confluence of a river (not labeled) coming from the north and northeast, which is the Virgin River. In the lower Colorado River course south of the Virgin a river (not labeled) strikes the Colorado from the northwest; presumably this is the supposed Mohave River. South of there a river (not labeled; Bill Williams River) reaches the Colorado from the east, with its headwaters off to the northeast. Both the Colorado and Gila Rivers pass off the map to the south before meeting.

NOTE: Wheat (1963, Volume V, p. 377) only mentions this map in the Italian ed. by title.

Cram, George F.

1875 25.2122

Cram's Rail Road & Township Map of Arizona. Published by Geo. F. Cram. Proprietor of the Western Map Depot, 66. Lake St. Chicago Ill^s 1875.

In: *New commercial atlas of the United States and territories: (Scale, 21 miles to the inch.) Showing all railroads, stations, cities, towns, villages, congressional townships, etc., etc. A complete shipper's guide. Drawn and engraved from the very latest government surveys.* New York and Chicago: The Cram Atlas Co., Western Office (Chicago).

► "Colorado River" is delineated between the U.S.-Mexico boundary and the Utah-Arizona boundary. Its unusual course arrives into Arizona from the northeast before turning due west, paralleling the Utah boundary, and on a landscape of peculiar geography receiving unlabeled tributaries from the southeast (possibly the San Juan), north (possibly the Paria River), and north-northeast from a Utah town, "Johnson" (possibly Kanab Creek), although all of these are shown to be east of Kanab, Utah. The Colorado's course then turns due southwest, receiving at the start a large tributary from the southeast (likely the Little Colorado River), to which a tributary to it in turn is likely Cataract Creek. At the turn to the northwest, where would be Diamond Creek, no tributary is shown. The label, "Big Cañon of the Colorado Riv." is written alongside this southwest course. The intervening physical geography is fairly imaginary, delimiting mountainous areas and plateaus through which the Colorado and its tributaries flow. This is likely an illusory version of the Egloffstein arrangement. At the confluence of "Rio Virgin" the river turns southward to the gulf. Proposed railway routes are delineated roughly; the 35th parallel route crossing the Colorado south of "The Needles" but continuing a ways farther to the south before turning west; another route crossing the river at "LaPaz"; and the 32nd parallel route crossing at "Colorado Cy" and "Arazona Cy." [*sic*] by "F. Yuma".

The Cram Atlas Co.

1875 25.2123

New Railroad Map of the United States & Territories Published by The Cram Atlas Co. ("Rand, McNally & Co., Printers and Engravers, 79 and 81 Madison St., Chicago.")

In: *New commercial atlas of the United States and territories: (Scale, 21 miles to the inch.) Showing all railroads, stations, cities, towns, villages, congressional townships, etc., etc. A complete shipper's guide. Drawn and engraved from the very latest government surveys.* New York and Chicago: The Cram Atlas Co., Western Office (Chicago).

► "Colorado River" is delineated between the head of the "Gulf of California" and the confluence of "Green River" and "Grand River". Its course from that

confluence is southwest, receiving "San Juan River" from the east, crossing into "Arizona" following a somewhat meandering course to the southwest and the west; where it turns again to the southwest it receives "Little Colorado or Flax river" from the southeast. Other than one other tributary from the north (not labeled, which may be the Paria River), no other tributaries are shown through the "Grand Cañon of the Colorado River" until the confluence of the Virgin River (not labeled even though its tributaries "Beaverdam Cr." and "Muddy Cr." are labeled). The general course is modified and simplified from Egloffstein's.

G. W. and C. B. Colton and Co.

- 1875 25.604 **Maps showing the southern Pacific Railroad and its connections.** New York; G. W. and C. B. Colton and Co., 2 maps on 1 sheet, scales 1:2,090,880 and 1:8,000,000.
 ► The Colorado River is depicted reasonably correctly in its lower reach and western portion of "Grand Cañon of the Colorado", but in the central and eastern portions of the Grand Canyon the course is far more conjectural. Black Canyon is also labeled.

Gräf, C.

- 1875 25.2234 **Mexico und die Republiken von Central-America..** ("Situation gest. v. Kratz." "Bergstich v. O. Frh. v. Eyb in München." "Schrift gest. von O. Haubold jun.") [In German.]
In: Kiepert, H., Weiland, C. F., Graef, C., Graef, H., Bruhns, C., and Delitsch, O. (eds.), *Grosser hand-Atlas des Himmels und der Erde.* Weimar: Geographisches Institut, 45th ed. Scale 1:6,000,000.
 ► "R. Colorado de California" arrives at the head of "Californischer Meerbusen", receiving "Rio Gila" from the east-northeast at "F: Yuma". The head of the gulf twists to the west at the mouth of the Colorado.

Howell, Edwin E.

- NO DATE 24.309 **The Grand Cañon of the Colorado of the West and the cliffs of southern Utah.** [No place]: U.S. Geological Survey, 3-dimensional map, topography with colored time-stratigraphic outcrop markings, vertical and horizontal scales 1 inch = 2 miles (1:126,720). [1875; with different states at later dates.]
 The original, commercially produced model, measuring 6 feet, 6 inches × 6 feet 7 inches [see Merrill, George P., 1889, Report on the Department of Lithology and Physical Geology, in *Annual Report of the Board of Regents of the Smithsonian Institution for the year ending June 30, 1886, Part II*, Government Printing Office (1889)], indicated an imprint of the Geographical and Geological Survey of the Rocky Mountain Region, which is the Powell Survey of general parlance. A model was first exhibited at the Centennial Exposition in Philadelphia, 1876, and commercially produced thereafter. A photograph of the model, which the Library of Congress attributes date as "191-", denotes "U.S. Geological Survey J. W. Powell, Director"; Powell was director during 1881-1894 (Geography and Map Division, call no. "G4332.G7 191-.G4 TIL"; digital view at <https://www.loc.gov/resource/q4332q.np000097/>). A model was also exhibited at the World's Industrial and Cotton Centennial Exposition, New Orleans, 1884-1885 [see U.S. Bureau of Education, 1886, *Special report by the Bureau of Education. Educational exhibits and conventions at the World's Industrial and Cotton Centennial Exposition, New Orleans, 1884-'85. Part I.* U.S. Government Printing Office]. See also McCalmont, Melanie Schleeter, *A wilderness of rocks : the impact of relief models on data science* (FriesenPress, Victoria, British Columbia, 2015).
 A photograph of the model, which the Library of Congress attributes date as "191-", denotes "U.S. Geological Survey J. W. Powell, Director"; Powell was director during 1881-1894 (Geography and Map Division, call no. "G4332.G7 191-.G4 TIL";

digital view at <https://www.loc.gov/resource/g4332g.np000097/>). (The LOC's 22 x 22 cm black-and-white [photograph](#) of this map is shown in the front matter herein.)

Johnston, Alexander Keith [Johnston, Keith]

- 1875 25.1377 **United States of North America (Western States) by Keith Johnston, F.R.S.E.** ("Engraved, Printed and Published by W. & A. K. Johnston, Edinburgh & London.")
Caption: "Keith Johnston's General Atlas", "46". Scale 1:6,047,811, 95 miles to an inch.
- With this ed. "Rio Colorado" is refigured to represent its recognizable course through the Grand Canyon (not labeled, although the area is labeled "Colorado Plateau"), and the Virgin River is properly labeled. Tributaries to the Colorado in the Grand Canyon below the confluence of "Rio Colorado Chiquito" are "Parke Cr." on the south side east of the confluence of "Kanab Cr." (on the north side), and "Cataract Cr." from the southeast more or less in its proper placement. Interestingly, Diamond Creek is not figured, although there is a place name, "Hualapais". The entire Arizona Strip area and some land to the east of the Colorado is labeled "Painted Desert". "El Vado de los Padres" is misplaced at a point south of the Utah-Arizona boundary.

Kiepert, H. [Kiepert, Heinrich]

- 1875 25.2231 **America.** ("Bearbeitet und gezeichnet von H. Keipert." "Gestochen v. C. Jungmann.") [In German.]
In: Kiepert, H., Weiland, C. F., Graef, C., Graef, H., Bruhns, C., and Delitsch, O. (eds.), *Grosser hand-Atlas des Himmels und der Erde*. Weimar: Geographisches Institut, 45th ed., map 59.
- "R. Colorado" is delineated between "Mar Bermejo (Rothes Meer)" and the confluence of "R. Verde (Green R.)" and "S. Juan"; on this map the Green River label is extended to the San Juan confluence, with "Grand R." a tributary to the Green. The course of the Colorado arcs from south to west, receiving the San Juan from the east (and into which the Little Colorado River [not labeled] is a tributary near the "Green"- "San Juan" confluence), and the Virgin River (not labeled) from the northeast; thence turns southward to the gulf receiving the Bill Williams River (not labeled) from the north and east and "R. Gila" from the east-northeast. Just before reaching the gulf the river bifurcates.
- 1875 25.2232 **Nord America mit Westindien.** ("Gezeichnet v. H. Keipert. Revidirt v. C. Ohmann." "Gestochen v. Wibel und C. Poppey jun.") [In German.]
In: Kiepert, H., Weiland, C. F., Graef, C., Graef, H., Bruhns, C., and Delitsch, O. (eds.), *Grosser hand-Atlas des Himmels und der Erde*. Weimar: Geographisches Institut, 45th ed., map 60.
- "R. Colorado" is delineated between "Californischer MB. (Mar Bermejo od Rothes Meer)" and the confluence of "R. Verde (Green R.)" and "R. Grande"/"Grand R.". The course of the Green and Grand rivers are parallel and southwesterly through Utah, portions of which are shown by dashed lines; in Arizona the Grand turns west-southwest while the Green turns south-southwest and shortly before reaching the "Grande" confluence turns southeast. Both courses are meant to follow the courses suggested by Egloffstein in 1861; with the confluence area in the far western part of Grand Canyon. "R. S. Juan" is a tributary to the Grande from the east in northernmost Arizona, its lower course depicted by a dashed line. "R. de Lino (Colorado Chico)" follows a northeasterly course to join the "Grande", with Cataract Creek (not labeled) joining just before the Little Colorado-Grande confluence; again repeating Egloffstein's model. The Virgin River (not labeled) arrives at the Colorado from the northeast, where the Colorado turns southward to the gulf, receiving the Bill Williams River (not labeled) from the northeast and "R. Gila" from the east-northeast.

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 1875 25.2233 **Die Vereinigten Staaten von Nord America nebst Canada.** ("Bearbeitet und gezeichnet v. H. Kiepert." "Gestochen v. C. Poppey jun.") [In German.]
In: Kiepert, H., Weiland, C. F., Graef, C., Graef, H., Bruhns, C., and Delitsch, O. (eds.), *Grosser hand-Atlas des Himmels und der Erde.* Weimar: Geographisches Institut, 45th ed.
 ▶ "R. Colorado" is delineated between "Golf v. Californien (Mar Bermejo) d. i. Rothes Meer" and the confluence of "R. Colorado od. R. Verde (Green R.)" and "R. Grande". The course of the Green and Grand rivers are parallel and southwesterly through Utah, portions of which are shown by dashed lines; in Arizona the Grand turns west-southwest while the Green turns south-southwest and shortly before reaching the "Grande" confluence turns southeast. Both courses are meant to follow the courses suggested by Egloffstein in 1861; with the confluence area in the far western part of Grand Canyon. "R. S. Juan" is a tributary to the Grande from the east in northernmost Arizona, its lower course depicted by a dashed line. "R. de Lino (Colorado Chico)" follows a northeasterly course to join the "Grande", with Cataract Creek (not labeled) joining just before the Little Colorado-Grande confluence; again repeating Egloffstein's model. The Virgin River (not labeled) arrives at the Colorado from the northeast, where the Colorado turns southward to the gulf, receiving the Bill Williams River (not labeled) from the northeast and "R. Gila" from the east-northeast.

Marcou, Jules

- 1875 24.864 **Carte géologique de la terre par Jules Marcou. Construite par J. M. Ziegler. Echelle: 1: 23,000,000. 2^e Edition. Zurich J. Wurster & C^o Editeurs London: Edward Stanford, 55 Claring Cross S.W. Paris: F. Savy, 24 Rue Hautefeuille. Milano, Napoli, Pisa. Ulrico Hoepli. / Geological map of the world by Jules Marcou Constructed by J. M. Ziegler. Scale: 1: 23,000,000. Second Edition. Zurich J. Wurster & C^o Publishers. London: Edward Stanford, 55 Claring Cross S.W. Paris: F. Savy, 24 Rue Hautefeuille. Milano, Napoli, Pisa: Ulrico Hoepli. 8 sheets [with accompanying text]. [In French and English.]**
 Also various later reproductions in reduced format on one sheet under other imprints.
 ▶ In the lower Colorado River region are broadly mapped (reading from the key) "Tertiary rocks" and "Cristalline rocks". In the greater Grand Canyon region are broadly mapped (reading from the key) "Secondary rocks. Jurassic", "New red sandstone rocks", "Carboniferous rocks", and "Volcanic rocks" (with a blank area in the plateau-bench areas immediately north of the Grand Canyon to indicate data not available).

Monteith, James

- NO DATE 25.1760 *Manual of geography, combined with history and astronomy; designed for intermediate classes in public and private schools.* New York, Chicago, and New Orleans, A. S. Barnes and Co., 124 pp. (National Geographical Series, Revised Edition.) [Ca. 1875?]
 Cover title: *Monteith's Manual of Geography.*
 ▶ See **MAP**, p. 24, which labels "Grand Canon"; and p. 34, engraving of Colorado River with boats, displaying Thomas Moran monogram, with legend, "Grand Canon of the Colorado River, Arizona, showing how the rock has been worn by the rushing of the stream, to depths varying from 3,000 to 6,000 feet below the level of the plains".
 ▶ The **MAP** on pp. 24-25, "United States[,] Canada and Mexico" displays "Colorado R." between the confluence of "Green R." and "Grand R.", and the head of "Gulf of California". En route it receives the San Juan River (not labeled) from the southeast, the Little Colorado River (not labeled) from the southeast, and "Gila River" from the east-northeast. "Grand Canon" is labeled. A mountain range separates the Salton basin (not labeled) from "Colorado Desert" on the north, which embraces all of that region along the southerly part of the California-Nevada boundary. The New

River (not labeled) is shown connecting the lower Colorado River in Mexico with the Salton lake bed.

NOTE: Copyright notice, p. 4: "Entered, according to Act of Congress, in the year 1868, by James Monteith, in the Clerk's Office of the District Court of the United States for the Southern District of New York." Although this would seem to indicate that the use of "Grand Canon" is an early one, the reasonably accurate map rendering of the course of the Colorado through the Grand Canyon, the positioning of the confluence of the Little Colorado River (not labeled), and the use of a Moran illustration of boats on the Colorado, belie that this revised ed. is somewhat later than 1868, reflecting the results of the Powell expeditions.

Newberry, F. T.

- 1875 25.1026 **Map of the Southern Pacific Rail Road and connections June 1875.** ("F. T. Newberry, Del.")
- ▶ Colorado River" is depicted between the Gulf of California (not labeled) and the confluence of "Green River" and "Grand R." "Grand Canon of the Colorado River" is labeled, but the "Little Colorado or Flax River" is depicted with its confluence in the middle section of the Grand Canyon. Railroads in operation are shown between Los Angeles and Fort Yuma, and between the main line on the west coast and The Needles. Connecting (stage) routes are shown to the east of Arizona City and The Needles.

O. W. Gray and Son [firm] [Ormando Willis Gray]

- 1875 25.1338 **Mexico.**
- In: The national atlas, containing elaborate topographical maps of the United States and the Dominion of Canada : with plans of cities and general maps of the world, also descriptions and tables, historical and statistical, with a reference list containing the names of the cities, towns, villages, and post-offices in the United States, with their location : accompanied by maps, plans, and descriptions of local interest.* Philadelphia: O. W. Gray and Son.
- ▶ "Lower California" is separated from "Sonora" and "Sinaloa" by "Gulf of California". "Colorado R." is shown between the head of the gulf and north of "Ehrenberg", with the "Rio Gila" confluence at "Ft. Yuma". The general area of the Colorado delta in Mexico is depicted with stippling (sandy area?), while the limitrophe area along the river channel is figured with symbols demarcating a marshy area.

Petermann, A.

- 1875 25.2088 **Die Vereinigten Staaten von Nord-Amerika in 6 Blättern im Maassstabe von 1:3.700.000. Von A. Petermann.** ("Bearbeitet v. H. Habenicht.") ("Gotha: Justus Perthes 1875.") ("III.III. Gest. v. Eberhardt, Kühn, Metzgeroth u. Weiler.") ("Steiler's Hand_Atlas, N^o 83.") **[In German, with mixed labeling.]**
- See the southwestern sheet of this series.
- ▶ This is essentially the same as Petermann (1873, ITEM NO. 25.571), though with the exception that between "Cataract Creek" and the confluence of "Rio Virgin" is the label "Grand Cañon of the Colorado"). On this sheet, the Colorado River is labeled "Great Colorado" on its lower course, "Rio Colorado" on its upper course. It is delineated between "Golf von Californien" and the confluence of "Grand River" and (not labeled on this sheet) Green River. In the Grand Canyon it is a curious mixture of Egloffstein's map in Ives and more recent discoveries (*i.e.* the Powell expedition). The Paria River (not labeled) is shown, with "Little Colorado od Flax R." shown with its confluence with the Colorado in its correct place, as also is "Cataract Creek" with "Yampais Village" shown, but near that confluence is a tributary from the northeast, with a dotted-line upper course, that is reminiscent of Egloffstein's rendition of the Colorado. Also there are numerous geographic locales labeled in English notations,

apparently from Egloffstein. The route of the Ives land expedition near Grand Canyon is plotted, as also are the routes of other contemporary expeditions.

Compare also Peterman (1875, [ITEM NO. 25.571](#)).

Powell, John Wesley

1875 25.903

[WHEAT V:1260](#) [with illustration facing p. 354]

Map of the Grand Cañon of the Colorado Showing Route Traveled by Major Powell.

In: An overland trip to the Grand Cañon. *Scribner's Monthly*, 10 (October): 659-678.

Map appears on p. 661.

► Roughly illustrates Powell's land-based mapping work in the Grand Canyon region. This also is the first overall accurate portrayal of the Colorado River in the region between Glen Canyon and the Grand Wash Cliffs. "Glen Cañon", "Marble Cañon", and "Grand Cañon"; each is labeled.

Sohr-Berghaus [Sohr, Karl, AND Berghaus, Heinrich]

1875 25.2046

Vereinigte Staaten von Nord-Amerika (4 sheets, see specifically **Südwestlicher Theil**). [*In German.*]

In: *Sohr-Berghaus Hand-Atlas über alle Theile der Erde. Ausgeführt unter Leitung von F. Handtke in dem kartographischen Institute der Verlagshandlung. 6^{te} vollständig neue und verbesserte Auflage. Ausgabe in 100 Blättern.* Glogau: Verlag von Carl Flemming.

► "Colorado River" is delineated between "Beerb. von Californien" and the confluence of "Green R." and "Grand Riv." Its course below that confluence arcs from southwest to west through southernmost Utah, receiving "Rio S. Juan" from the east-southeast, before turning southwest into Arizona (not labeled and curiously still labeled "Sonora" in its southern part despite current Arizona boundaries shown, embracing even the Gadsden Purchase boundary). In that area today known to be the western Grand Canyon, the Colorado receives "Flax Riv. od. Kl. Colorado" (Little Colorado River) from the east and southeast, with Cataract Creek (not labeled) a tributary to the Little Colorado near the Colorado confluence; all of which is a holdover from the interpretations of the Egloffstein map in Ives. The Colorado turns west-northwestward to the confluence of "Virgin R.) from the northeast before turning due south to the gulf.

Stanford, Edward

1875 25.2054

Stanford's Library Map of North America Constructed by A. Keith Johnston, F.R.S.E.

F.R.G.S. & London Edward Stanford 55 Charing Cross. ("London, Published July 1st 1863".) ("by Edward Stanford, 55 Charing Cross. Additions to 1875.") ("Engraved by W & A.K. Johnston, Ediniburgh".) Scale 1:5,274,720.

► "Rio Colorado" is delineated between "Gulf of California" and confluence of "Green River" and "Grand River". The rivers at the confluence area are depicted by dotted lines along a generalized course to the southwest. The label "Rio Colorado" is applied in error to the Little Colorado River, giving the appearance that the Colorado River originates to the southeast (as does the Little Colorado). From the Little Colorado confluence to the confluence of "Santa Clara R." (Virgin River, delineated by a dotted line in its lower reach) from the north and northeast, the Colorado is delineated with parallel dashed lines, arcing from southwest to west; along that reach is a tributary (not labeled, but which is Cataract Creek) from the southeast and, not far east from the Virgin confluence, a tributary from the south is labeled "Yampais Cr." After the Colorado turns to the south, a tributary (not labeled, delineated by a dotted line) comes from the northwest, another tributary (not labeled, delineated by solid lines) comes from the west, "Bill Williams Fk" is from the east (which in turn has tributaries "R. S. Maria" and "Big Sandy Cr.", and "Rio Gila" comes from the east-

northeast at "F! Yuma". The entire region from the Green-Grand confluence to the Virgin River is, aside from the streams, entirely blank.

Watson, Gaylord

- 1875 25.597 **Centennial American Republic and Rail Road Map of the United States and the Dominion of Canada. Compiled from the Latest Official Sources. Agents Wanted. 1875.** ("Entered according to Act of Congress, in the year 1875, by Gaylord Watson, In the Office of the Librarian of Congress, at Washington.")
- Map portrays "Colorado River" and "Big Cañon of the Colorado". The route of the proposed 35th parallel railway is sketched in only as a reasonably straight line through the northern portion of Arizona. A lightly dashed line connects an alternate route that passes by "Hualapais Spr." (Peach Springs); and interestingly, a similarly dashed line leads from "Peacock Spr." (to the west of "Hualapais Spr.") to the Colorado River.
- In the Grand Canyon region, this map is reminiscent of the wayward stream courses presented by Haasis and Lubrecht (1872, *ITEM NO.* 25.1569) and Guernsey (1874, *ITEM NO.* 25.1570), with modifications that do little to correct the misalignments. As on those maps, the course of the "Colorado River" from the confluence of "Green R." and "Grand R." heads southwesterly on an arc that becomes a short due west heading just north of the Utah-Arizona boundary. It turns southwest to cross the Utah-Arizona boundary and runs on the east side of the "North Side Mts." that are some 50 miles southeast of St. George, Utah, where it runs into "Big Cañon of the Colorado". Here it receives "Colorado Chiquito or Flax R." (Little Colorado River) at which confluence is the label "Yampas Village". A short distance upstream on the Little Colorado is a tributary (not labeled, but is Cataract Creek) from the southeast. The Colorado then arcs back to a northwest heading, receiving in the middle of that arc Diamond Creek (not labeled), and heads northwest to the great bend where it receives "Virgin R." from the north (which in turn had first come southwest from Utah). At "Callville" is the label "Head of Navigation".
- 1875 25.1039 **Watson's new county and railroad map of the Pacific States and Territories. Published by Gaylord Watson, 16 Beekman Street, N.Y. 1875.**
- In: Watson's new commercial county and railroad atlas of the United States and Dominion of Canada. Compiled from the latest official sources. Boston: Perry and Spaulding.*
- "Colorado River" depicted between "Gulf of California" and confluence of "Green R." and "Grand River". Between "Rio Virgin" and "Little Colorado or Flax R" the river runs through a well-defined but conjecturally drawn "Grand Canon of the Colorado Riv." Upstream from the Little Colorado the canyon is labeled "Colorado Riv. and Canon". "Paria R." and "Bright Angel R." are shown as tributaries. Upstream from the confluence of "Rio San Juan" the Colorado River canyon is labeled "Mound Canon" (Glen Canyon) between the San Juan and "Dirty Devil Cr." (Note that some of these names are those bestowed by the Powell expeditions.) "Callville" is noted as "Head of Navigation". "Red Lake" (playa in Hualapai Valley) is depicted with "Yampa R" as a source and with an outlet to the Colorado River in western Grand Canyon.

1876

A. L. Bancroft and Co.

- 1876 25.1131 **Bancroft's, Map of California, Nevada, Utah and Arizona Published by A. L. Bancroft, & Comp! Booksellers & Stationers San Francisco Cal. 1876.**
- "Colorado River" is shown between south of Yuma and north of the Utah/Arizona boundary before passing off the map to the east. "Big Cañon of the

Colorado River" is labeled between the Virgin River and the confluence of "Colorado Chiquito or Flax River", to which the latter "Cataract Cr" is a tributary. A river (not labeled) reaches the Colorado from the north in the mid-canyon area. Thus even after Powell's expeditions the portrayal is still that reminiscent of the Egloffstein map in Ives.

Andriveau-Goujon, Eugène

- 1876 25.2115 **Carte générale des États-Unis et du Mexique comprenant l'Amérique Centrale et les Antilles.** Paris: E. Andriveau-Goujon. Nouvelle Édition. ("N^o 24.") ("Atlas Usuel N^o 31." and "Atlas Universel N^o 45.") [In French.]
- In the Southwest this map is unchanged from Andriveau-Goujon (1862).
- "Rio Colorado del Occidente" reaches the head of the Gulf of California where the label "Emb^{re} du Rio Colorado" appears. The river is drawn to the confluence of "R^o Virgen (S^{ta} Clara)", turning into the Grand Canyon region where it reaches the confluence of "R. Colorado Chico" and is connected with dotted lines with "R. Verde (Green R.)", "R^o Grande", and "R. S. Juan". Separating the Colorado from the Virgin is "S^{ra} de la Lanterna".
- NOTE:* Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

G. W. and C. B. Colton and Co.

- 1876 25.1517 **Colton's Railroad Map of the United States and Canada, Published by G. W. and C. B. Colton & Co. 172 William St. New York. 1876.**
- The course of "Colorado R." is shown reasonably accurately in its lower course, but between the confluence of the Virgin River (not shown!) and "Colorado Chiquito" it follows a conjecturally wild course, having proceeded to that point directly from the northeast from the confluence of "Green River" and "Grand R." In the westernmost part of the Grand Canyon (not labeled), to Callville near the Virgin confluence, there is a vague representation of the river being encanyoned.
- 1876 25.1563 **Map of the Texas and Pacific Railway and Its Connections. Prepared by G. W. & C. B. Colton & C^o 172 William St New York.** ("Entered according to Act of Congress in the year 1876 by G. W. & C. B. Colton & Co. in the Office of the Librarian of Congress, at Washington.")
- The route across southern Arizona is shown passing through "Arizona City" on the "Rio Colorado". Also shown is the route of the "Atlantic & Pacific R.R. across northern Arizona, crossing at "Needles". The Colorado in what is the Grand Canyon region between the confluence of "Santa Clara R." (Virgin River) and the confluence of "Green River" and "Grand River" is conjectural. "Little Colorado" is shown reaching the Colorado close to the western part of the canyon, with Cataract Creek (not labeled) a tributary to the Little Colorado.
- 1876 25.1582 **Map of California To accompany printed argument of S. O. Houghton as to the rights of the Southern Pacific R.R. Co. of Cal. to Government lands under Acts of Congress Passed July 27, 1866 and March 3, 1871. made before the Committee on the Judiciary of the Senate and Ho. of Rep^s in May 1876.** ("Prepared by G. W. & C. B. Colton & C^o 172 William St New York".) ("Entered according to Act of Congress in the year 1876 by G. W. & C. B. Colton & Co. in the Office of the Librarian of Congress, at Washington.") Scale 1:2,090,880.
- The lower "Colorado River" is depicted from its mouth (at map edge) to "Grand Wash" and "Iceberg Cañon", where also is the label "Colorado R. Cross.", its course occasionally passing through the ornamental right border of the sheet, and passing off the map entirely at that point. "Virgin Canon", "Boulder Cañon", and "Black Canon" are also labeled (thus). The boundaries of mining districts are also

shown. In California, Township and Range sections are delineated. Various railway lines are colored.

Gilbert, G. K.; Marvine, A. R.; AND Howell, E. E.

- 1876 24.74 **Parts of northern and north western Arizona and southern Utah.** *In: Geological atlas projected to illustrate geographical explorations and surveys west of the 100th meridian of longitude, under the command of First Lieut. Geo. M. Wheeler.* New York, sheet 67, scale 1:506,880.
 ► Physiographic map. Prominently displays the eastern and central Grand Canyon, and Marble Canyon.

Henry T. Williams [firm]

- 1876 25.2518 **Williams' New Trans-Continental Map of the Pacific R.R. and Routes of Overland Travel to Colorado, Nebraska, The Black Hills, Utah, Idaho, Nevada, Montana, California and the Pacific Coast** Henry T. Williams, Publisher 46 Beekman St. N.Y. ("Entered according to Act of Congress in the year 1876 by H. T. Williams in the office of the Librarian of Congress at Washington.") ("Am. Photo-Litho.Co. N.Y. (Osborne's Process.)")
 ► In the Grand Canyon region the Colorado River is drawn fancifully, with Cataract Creek (not labeled) as a tributary to the Colorado between "Colorado Chiquito R." (Little Colorado River) and "Bright Angel R." (Bright Angel Creek). In the western part of the canyon, "Yampa Cr." is shown as a tributary to Red Lake, which in turn flows into the Colorado River in the "Grand Canon of the Colorado River". "Marble Canon" is shown between the Paria River extending to below the Little Colorado River.

King, Clarence

- 1876 25.1040 **Engineer Department U.S.A. Geological and topographical atlas accompanying the report of the geological exploration of the fortieth parallel made by authority of the Honorable Secretary of War under the direction of Brig. and Brvt. Major General A. A. Humphreys Chief of Engineers U.S.A. by Clarence King U.S. Geologist in Charge 1876.** [No place]: U.S. Army, Engineer Department. ("Julius Bien Lith.")
 WHEAT V:1270 [with illustration facing p. 327]
 The Fortieth Parallel Survey, or King Survey, is extralimital to this Cartobibliography; but see the chart "Cordilleras", scale 60 miles = 1 inch, which serves as an index sheet for the remaining charts in this volume.
 ► "Colorado River" is delineated between the "Gulf of California" and the confluence of "Green River" and "Grand River". In the Grand Canyon region, between "Rio Virgin" and "Little Colorado or Flax River", the Colorado is drawn roughly, with six tributaries (not labeled) on its south side, and the north side labeled only "North Side Mt".

Louis Prang [firm]

- 1876 25.78 **The Yellowstone Park, and the mountain regions of portions of Idaho, Nevada, Colorado, and Utah.** Boston: Louis Prang, 15 prints, text (by Ferdinand V. Hayden) 48 pp.
 See index map, which includes the northern Arizona region.
 NOTE: The map is reproduced in: Anderson, Nancy K. 1997. *Thomas Moran*. Washington, D.C.: National Gallery of Art, and New Haven, Connecticut: Yale University Press, p. 332.

Macomb, J. N. [Macomb, John N.]

- [for volume] WHEAT IV:983 [with illustration facing p. 142]
- 1876 25.568 (WITH Dimmock, C. H.) **Map of Explorations and Surveys in New Mexico and Utah made under the direction of the Secretary of War by Capt. J. N. Macomb Top^l. Eng^s. assisted by C. H. Dimmock, C. Eng^f. 1860.** (Lettering by John L. Hazzard. Ruling by Samuel Sartain.)
As a part of: Newberry, J. S., Geological Report.
In: Macomb, J. N., *Report of the exploring expedition from Santa Fé, New Mexico, to the junction of the Grand and Green Rivers of the Great Colorado of the West, in 1859, under the command of Capt. J. N. Macomb, Corps of Topographical Engineers (now Colonel of Engineers) : with Geological Report by Prof. J. S. Newberry, geologist of the expedition.* Washington: Government Printing Office, fold-out sheet following p. 148, scale 1:760,320.
 This map contains a separate imprint: "Geographical Institute, Baron F. W. von Egloffstein, No. 164 Broadway, N. York. 1864." The 1864 date is the date of engraving. Publication was delayed until 1876, in part due to the Civil War and post-war administrative and financial difficulties.
 ► The region explored is extralimital to this Cartobibliography, thus the volume text is not pertinent to this Cartobibliography, but the map does include the region of the easternmost Grand Canyon and Marble Canyon (neither labeled), which also depicts the "Supposed junction of the Rio Colorado & Flax River" (Little Colorado River) that is positioned in Utah and upstream from "El Vado de los Padres" (which itself is located just south of the Utah–Arizona boundary). (Note as well that in thus more precisely depicting the supposed alignment of the Colorado and Little Colorado Rivers that it improved on the engraver's own, earlier maps from the Ives expedition even though here it still is geographically misplaced.) A text box on the map, "Central Gold Region", notes "Big Cañon of the Colorado, a succession of deeply cut valleys, in places a mile in depth, in *Arizona Territory*" is one of the "well known features" of the region. The box also notes, "A delicate tint was ruled over the whole plate to give the effect of a plaster model of the country. Constructed and engraved by Baron F. W. Von Egloffstein Topographer to the Surveys under the 35th and 38th parallels. Frémont's, Beckwith's and Ives' Expeditions."

Rand McNally and Co.

- WHEAT V:1276
- 1876 25.613 [consolidated reference to "maps of western states and territories"]
Indexed map of Arizona showing the stage lines, counties, lakes and rivers. Chicago: Rand McNally and Co., 1 sheet, scale ca. 1:2,000,000. [Title from cover.]
 ► "Big Canon of the Colorado River" is labeled. Of note is the demarcation of the route labeled "Escalanta 1776" [*sic*], which appears only between a dead-end at what are the Grand Wash Cliffs, and crossing the Colorado River at what is Lees Ferry, and "Elvado de los Padres" [*sic*] is labeled at the Colorado River just south of the Arizona-Utah boundary.
- 1876 25.1518 **Rand McNally & Co's New Railroad and County Map of the United States and Canada Compiled from the Latest Government Surveys, and Drawn to an Accurate Scale.** ("Drawn, Engraved and Printed in Colors, (under Letters Patent), by Rand, McNally & Co., Chicago.") ("Copyright, 1876, by Rand, McNally & Co.") ("Engraved under the direction of C. H. Waite." [*facsimile signature*].)
 ► A very detailed map. The course of the "Rio Colorado" is shown quite meandering from "Yuma" and "Arizona City" to the head of the "Gulf of California". Along that course is noted on the eastern side, "Uninhabited Desert. Isolated Mountains without grass, wood or water, Vegetation chapparal and cacti". The course of the lower Colorado between Yuma and the confluence of "Virgin River" is detailed. The "Supposed Head of Navigation" is labeled at a point several miles upstream from the Virgin, where is depicted on the north side of the river, "Proposed Wagon Road to

Santa Fe". East of the confluence of "Diamond Riv" (which also notes "Indian Trail"), the course of the Colorado is labeled "Big Canon of the Colorado River". Interestingly, now several years since the explorations and mapping by John Wesley Powell, not only is "Grand Canyon" not mentioned, but the course of the river through the canyon is not shown accurately. Further, various names from Powell can be seen. At the confluence of "Cataract Creek" is labeled "Yampais Village" (*i.e.*, Supai). The "Flax River or Colorado Chiquito" (Little Colorado River) is shown with its course from the southeast and its confluence with the Colorado directly from the south, with the label, "Supposed Junction of the Rio Colorado and Flax River". "Colorado Plateau" is labeled to the west of there, and "Painted Desert" to the east. The course of the Colorado through Marble Canyon (not labeled) between "Pahreah R." and the Little Colorado is figurative. Just upstream from there are "El Vado de los Padres" in "Monument Canon", and "The Temple of Music". All in all, in the Grand Canyon region this is a peculiar mixture of pre-Powell conjecture and post-Powell certainty.

Schmidt, Julius H. von; Keddie, Arthur W.; AND Gibbes, Charles Drayton

- 1876 25.1363 **Map of the States of California and Nevada. Carefully Compiled from the Latest Authentic Sources. California by Julius H. von Schmidt, Arth^l. W. Keddie, and C. D. Gibbes, C.E.'s. Nevada by Chas. Drayton Gibbes C.E. Comprising Information obtained from the U.S. Coast and Land Surveys, State Geological Surveys, by Prof. J. D. Whitney, Railroad Surveys and the Results of Explorations Made by Brevet lieut. Col. R. S. Williamson, U.S.A.[,] Henry De Groot, C. D. Gibbes, and Others. Published by Warren Holt. No. 717 Montgomery Street. San Francisco, Cal. 1876.** ("S. B. Linton, Engr. & Lithogr. 148½ S. 4th Street. Philadelphia".) ("Engraved by S. B. Linton, 148 S. 4th St. Phila.")
- ▶ A very detailed map. "Colorado River" is shown between a point just south of the lower international boundary with Mexico and on the northern end passing off the map to the east at approximately 36°10' N. Includes numerous place names and mining districts. Just to the east of the Arizona-Nevada common point "Yampa Creek" is shown as a tributary, having run into and from "Red Lake" in "Hualpai Val.", but its confluence with the Colorado is just off the map. The Colorado River at this point is marked "Supposed Head of Navigation".

Stanford, Edward

- 1876 25.2416 **Stanford's Handy Map of the United States Distinguishing the Unsettled Territories; the Railways; The Cities & Towns according to Population; also the State Capitals & County Towns.** (London: Edward Stanford, 55 Charing Cross, S.W. March 1st 1876.") [Case title: **Stanford's Handy Map of the United States, with the Railways, and Distinguishing the States and Territories.** London: Edward Stanford, 6 & 7, Charing Cross.
- ▶ "Rio Colorado" is delineated between the head of "Gulf of California" and confluence of "Green R." and "Grand River". From that confluence its course arcs from southwest to south, receiving "Rio San Juan" from the east, then arcs nearly to the west, receiving in that reach "Rio de Lino or Colorado Chiquito" from the southeast, then arcs more southwesterly to the confluence of "Parke Cr." (Cataract Creek) from the southeast, then due west to the confluence of "Rio Virgin" from the north and northeast, then arcs to its southward course toward the gulf, receiving a small tributary (not labeled) from the west, "Bill Williams F^k" from the east and north and "Rio Gila from the east-northeast.

U.S. General Land Office

- 1876 25.1566 **Department of the Interior General Land Office S. S. Burdett, Commisisoner. Territory of Arizona. Compiled from the official Records of the General Land Office and other sources by C. Roeser, Principal Draughtsman G.L.O.** ("Photo lith & print. by Julius Bien 16 & 18 Park Place N.Y.")

► “Colorado River” in “Grand Canon” and “Marble Canon” is depicted as encanyoned, as are also its tributaries in that reach. Physical geography reflects present understanding. The routes of the “Atlantic and Pacific R.R.” and the “Texas and Pacific R.R.” are delineated, with their 40-mile land grant limits also shown.

U.S. Post Office Department

- 1876 25.1966 **Post Route Map of the States of California and Nevada.**
 Copy seen is marked, “The Service on this Diagram brought up to date of April 1, 1876.” [date handwritten]
 ► In the area of interest to this Cartobibliography, a southern route passing through “Yuma” (with adjacent “Fort Yuma (n.o.)”, which the key omits but apparently indicates “no office”). A route is delineated along the Colorado River (not labeled) north to “Hardyville”, where an east-west route intersects it and continues to “Mineral Park”, “Chloride”, “Cebat”, and “Beales Spr’s” before continuing eastward. A route also continues northward along the Colorado, as does a route northward from Mineral Park, to “St. Thomas” and points north.

Vuillemin, A.

- 1876 25.2042 **Planisphère indiquant les Découvertes Maritimes & Continentales[,] les Colonies Européennes[,] les grands courants de l’Océan et les principaux parcours de la navigation transatlantique. Dressé [sic] par A. Vuillemin Géographe—Membre de la Société de Géographie de Paris. Gravé par G. Lorsignol. Paris A. Logerot, Editeur, 55, Quai des Augustins. 1876.** (“Im de Mangeon 69 rue S^t Jacques”.) [In French.]
 This map appears in an atlas assemblage of maps of which this is the only one with a date.
 ► “R. Colorado” is depicted on an effectively straight southwesterly course between headwaters and “Golfe de Californie”. Two tributaries are depicted, both from the east; the northerly one could be the San Juan River or Little Colorado River, the southerly one is the Gila River.
- 1876 25.2243 **Nouvelle Carte Élémentaire de l’Amérique du Nord A l’Usage des Ecole. Dressée par A. Vuillemin, Géographe.** [In French.]
 ► “Rio Colorado” is delineated between “Golfe de Californie” and the confluence of “R. Verte” (Green River) and “R^o Grande” (Grand River). The Green and Grand Rivers follow parallel courses to the southwest through Utah into northern Arizona, where the Grand turns to the west to meet the Green. An unlabeled tributary from the east, in northernmost Arizona, meets the Grand. The only other tributary shown is “R. Gila, from the east.

Watson, Gaylord

- 1876 25.2092 **Watson’s new county and railroad map of the Pacific States and Territories. Published by Gaylord Watson, 16 Beekman Street, N.Y. 1876.**
 Case map.
 ► “The “Colorado River”, with its bactrian course through the Grand Canyon, is decidedly depicted as encanyoned, with the labels “Colorado Riv., and Canon” upstream from the confluence of “Little Colorado or Flax R.”, and “Grand Canon of the Colorado Riv.” from that confluence nearly to the confluence of “Rio Virgin”. Other tributaries in this area are “Paria R.”, “Lava Cr.” (labeled on a fork of the unlabeled Cataract Creek, seriously misplaced to the east), “Bright Angel R.” (approximately in position but more probably meant to be Kanab Creek, based on other maps of this type), an unlabeled tributary from the north in western Grand Canyon that is probably the Parashant Canyon interpretation from the Egloffstein map, and “Yampa R” coming from “Red Lake” but which could be interpreted as a misindicated Diamond Creek. Also of note on this map an imaginary tributary to the Little Colorado coming from the

east side of "San Francisco Mt.", and "Buckskin M^{ts}. ", which is usually reserved for the Kaibab Plateau, to the far western Grand Canyon near the "Virgin Range".

Wheeler, George M.

1876 25.2478 **Progress map of lines and areas of explorations and surveys conducted under the auspices of the War Department giving the area of the public domain lying west of the 100th meridian of longitude with an index illustration of a series of atlas maps prepared under the direction of 1st Lieutenant Geo. M. Wheeler, Corps of Engineers Scale 1:6,000,000.** ("Seasons of 1869, 1871, 1872 & 1873.") ("N. Peters, Photo-Lithographer, Washington, D. C.")

In: Topographical atlas projected to illustrate United States Geographical Surveys West of the 100th meridian of longitude prospected in accordance with acts of Congress under the authority of The Honorable The Secretary of War, and the direction of Brig. Genl. A. A. Humphreys, Chief of Engineers, U.S. Army. Embracing results of the different expeditions under the command of 1st Lieut. Geo. M. Wheeler, Corps of Engineers. Julius Bien, lith. ("Note. The Areas of Geological Exploration and Survey, traversed by Government parties under the Department of the Interior and Smithsonian Institution, belong to official records of the Government not immediately accessible to this office. [¶]This refers more especially to the operations of parties in charge of Professors F. V. Hayden and J. W. Powell. [¶]The area already covered by the State Geological Survey of California, under Professor J. D. Whitney, is not represented for want of available data.")

► Map displays shaded areas depicting the areas surveyed by the Wheeler Surveys as well as those of the King Survey on the 40th parallel. Also depicted are "Lines of expeditions, presenting Explorations and Surveys conducted by 'Officers of the Line', 'Corps of Topographical Engineers,' and 'Corps of Engineers,' U.S. Army". The locations of military posts are denoted. "Rio Colorado" is depicted from the confluence of "Green River" and "Grand River", with a southwesterly course to the confluence of "Colorado Chiquoto", thence through the Grand Canyon (not labeled) to the confluence of "Virgin Riv." The only tributary shown in this reach is the "Rio San Juan".

Williams, G. Washington

1876 25.2441 **Williams' Copper-Plate Map of the United States, Canada, Mexico, Central America, West Indies, &c. Published by John M. Atwood 402. Locust Street. Philadelphia.** ("Printed by F. Bourquin. 31 So. 6th Street Phila.") ("Copyright 1876 by G. Washington Williams.")

► "Colorado River" is delineated between "Gulf of California" and confluence of "Green R." and "Grand R."; it follows a reasonably accurate course, although topography is absent in southeastern Utah; the reaches through Arizona as well as the lower portions of tributaries are delineated as encanyoned. "Marble Canon" is labeled between the confluences of "Little Colorado or Flax R." (its lower reach labeled "Colorado Chiquito Canon") and "Kanab Cr."; "Colorado Canon" is labeled between the confluences of Kanab Creek and "Diamond C."; "Grand Canon" is labeled between the confluence of Diamond Creek and where would be the Grand Wash Cliffs (not delineated); downstream farther are "Iceberg Canon", "Virgin Canon", "Boulder Canon", "Black Canon", and (apparently the tributary) "El Dorado Canon". Cataract Creek is not labeled but its two headwater forks, "Lava Cr." and "Parke Cr." are labeled.

1877

Hallock, Charles

- 1877 25.841 **New map of the American Overland Route showing its connections, and land grants of 30,000,000 acres.**
In: The sportsman's gazetteer and general guide. The game animals, birds and fishes of North America: their habits and various methods of capture. Copious instructions in shooting, fishing, taxidermy, woodcraft, etc. Together with a directory to the principal game resorts of the country : illustrated with maps. New York: "Forest and Stream" Publishing Co., American News Company, agents, 688, 208 pp. in one volume, 2 maps.
 Map is in pocket, credited to Rand, McNally and Co., Chicago, colored.

Henry T. Williams [firm]

- 1877 25.618 **Williams' New Trans-Continental Map of the Pacific R.R. and Routes of Overland Travel to Colorado, Nebraska, the Black Hills, Utah, Idaho, Nevada, Montana, California and the Pacific Coast** Henry T. Williams, Publisher 46 Beekman St. N.Y. ("Am. Photo-Litho.Co. N.Y. ("Entered according to Act of Congress in the year 1877 by H. T. Williams in the office of the Librarian of Congress at Washington.") ("Am. Photo-Litho.Co. N.Y. (Osborne's Process.)") [Second ed. of this map, emending rail routes.]
 ► Chorographical note same as that for 1876 ed. (ITEM NO. 25.2518).

Mallery, J. C., AND Ward, J. W.

WHEAT V:1272

- 1877 25.64 **New map of the Territory of Arizona[,] southern California and parts of Nevada, Utah and Sonora[.] Compiled from the latest authentic data by Lieut. J. C. Mallery, A.M., U.S. Engineer Corps, and J. W. Ward, Civil & Topographical Engineer. 1876.1877. Office 105 Stockton St. San Francisco[.] Payot, Upham & Company, Publishers and Wholesale Stationers, 204 Sansome Street, (near Pine) San Francisco Scale one Inch to 16 Miles. 1:1,013,760. Britton, Rey & Co. Lith^{rs} S.F.**
 ► Numerous place labels appear on this map. "Colorado River" is depicted between "Gulf of California" and confluence of "Rio San Juan". "Grand Cañon of the Colorado" is labeled between "Grand Wash" and "Kanab Cañon"; "Marble Cañon" is labeled between "Kanab Cañon" and confluence of "Colorado Chiquito Cañon". West of Grand Canyon are labelled, sequentially, "Iceberg Cañon", "Virgin Cañon", "Boulder Cañon", "Black Cañon". The Salton Basin is labeled "Dry Lake" and a bifurcated "New River Slough" enters the basin. Routes of exploration, surveyed railroad routes, and the "Mil. Telegraph Line" between San Diego and "Fort Yuma" are depicted.

Pinart, Alph. [Pinart, Alphonse]

- 1877 25.899 **Californie Méridionale et Arizona pour suivre le voyage de A. Pinart 1875-1876.** ("Gravé par Erhard, 12 r. Duguay-Trouin.", "Imp. Fraillery 3 rue Fontanes") [In French.]
In: Voyage dans l'Arizona. Société de Géographie, Bulletin (Paris), Series 6, 13 (March): 225-240, map. [Map scale 1:5,000,000.]
 ► Pinart's route is indicated, crossing "Rio Colorado" at "Fort Yuma"/"Arizona City" and at "Hardyville". The Grand Canyon area is drawn generally, including the confluence of "Colorado Chiquito".

U.S. Army Corps of Engineers

- 1877 25.1572 **Map of the United States. Prepared by authority of the Honorable the Secretary of War, in the Office of the Chief of Engineers under the direction of Brig. General A. A. Humphreys,**

Chief of Engineers & Bvt. Maj. Gen'l. U.S. Army. 1877. ("Originally Compiled and drawn by E. Freyhold.") Scale 1:5,000,000.

► "Rio Colorado" and its tributaries in "Grand Cañon" are depicted somewhat accurately. On the lower Colorado River, "Ft. Yuma", "Camp at La Paz", "Camp Colorado", and "Camp Mojave" are depicted, with the first and last also designated by flags. In Mexico, the Colorado is depicted on a southerly course to a western arm of the head of "Gulf of California". South of "Ogden's Landing", a cut-off course feeds to a meager eastern arm of the gulf. No islands are depicted at the mouth of the river.

U.S. Geological and Geographical Survey of the Territories

NO DATE 24.200 **Map showing primary triangulation of 1877.** U.S. Geological and Geographical Survey of the Territories.

U.S. Navy, Hydrographic Office

1877 11.746 **Mouth of the Colorado River surveyed by the officers of the U.S.S. Narragansett, Comdr. Geo. Dewey comdg., March 1875.** U.S. Navy, Hydrographic Office Chart 800, scale 1:58,000.

1878

Berton, Francis

1878 25.787 *Un voyage sur le Colorado : par Francis Berton[,]* Membre Correspondant de la Société de Géographie de Genève. San Francisco: [no imprint], 64 pp., **MAP**. [In French.]

Cover title: *Un Voyage sur le Colorado. 1878.*

Berton (p. [1]) indicated that just 50 copies were printed: "Je me suis donc décidé à en faire publier une cinquantaine d'exemplaires ici"

The brief references that are made *in passing* to "Big Cañon" (*i.e.*, Grand Canyon; pp. 22, 33) and "gorge de marbre" (Marble Gorge, or Marble Canyon; p. 22) are from Richard J. Hinton's (1878, **ITEM NO.** 2.3421 in Volume 1/Part B of [THE GRAND CANON](#)) *The Hand-Book to Arizona*, as was first noted by Charles N. Rudkin in his English translation of Berton (Berton, 1953, **ITEM NO.** 2.1443, wherein only some lithographic plates and the fold-out **MAP** in Berton, 1878, were also reproduced). Berton (1878, p. [1]) did acknowledge Hinton for the use of lithographic stones that had been used for the *Hand-Book*. Rudkin further pointed out that many of the scenes that were reproduced by Berton have nothing to do with the region through which Berton had traveled (for example, Berton did not go to the Grand Canyon). The extralimital lithographs that are pertinent to the present bibliography are: "The Grand Cañon of the Colorado" (facing p. 24) and "Grand Cañon of the Colorado—Mouth of Kanab Wash, Looking East" (facing p. 44) (legends both in English, thus, as on the lithographic stones).

Cram, George F.

1878 25.2124 **Cram's Rail Road & Township Map of Arizona. Published by Geo. F. Cram. Proprietor of the Western Map Depot, 66. Lake St. Chicago Ill. 1878.**

In: Cram's standard American atlas of the United States. Compiled from the very latest sources, showing railroads, rivers, counties, towns, villages, post offices, population, &c., to date. A complete guide for business men. Scale, 19 miles to an inch. Chicago: George F. Cram, Western Map Depot.

The peculiar geography of this map remains unchanged from that of Cram (1875, **ITEM NO.** 25.2122).

► “Colorado River” is delineated between the U.S.-Mexico boundary and the Utah-Arizona boundary. Its unusual course arrives into Arizona from the northeast before turning due west, paralleling the Utah boundary, and on a landscape of peculiar geography receiving unlabeled tributaries from the southeast (possibly the San Juan), north (possibly the Paria River), and north-northeast from a Utah town, “Johnson” (possibly Kanab Creek), although all of these are shown to be east of Kanab, Utah. The Colorado’s course then turns due southwest, receiving at the start a large tributary from the southeast (likely the Little Colorado River), to which a tributary to it in turn is likely Cataract Creek. At the turn to the northwest, where would be Diamond Creek, no tributary is shown. The label, “Big Cañon of the Colorado Riv.” is written alongside this southwest course. The intervening physical geography is fairly imaginary, delimiting mountainous areas and plateaus through which the Colorado and its tributaries flow. This is likely an illusory version of the Egloffstein arrangement. At the confluence of “Rio Virgin” the river turns southward to the gulf. Proposed railway routes are delineated roughly; the 35th parallel route crossing the Colorado south of “The Needles” but continuing a ways farther to the south before turning west; another route crossing the river at “LaPaz”; and the 32nd parallel route crossing at “Colorado Cy” and “Arazona Cy.” [sic] by “F! Yuma”.

Froiseth, B. A. M.

- 1878 25.1103 **Second Edition Thoroughly Revised. Re Engraved and Brought Down To Date. Froiseth’s New Sectional & Mineral Map of Utah[.] Compiled from the latest U.S. Government Surveys and other authentic sources. Exhibiting the Sections. Fractional Sections. [sic] Counties. Cities. Towns. Settlements. Mining Districts . [sic] Railroads and other Internal Improvements.** Salt Lake City: B. A. M. Froiseth. (“A. L. Bancroft & Co. Lit^hs [sic]”).
- The very northernmost part of Arizona is shown at the bottom of the map (which is not so displayed in other eds.). In the area of interest to this Cartobibliography, “Colorado River” is shown at the boundary in “Monument Cañon” (Glen Canyon), approximately to the site of Lees Ferry. Also of note is a label for “The Temple of Music” (Music Temple) just south of the confluence of “San Juan River”.

Gibbes, Charles Drayton

- 1878 25.1353 **Map of the States of California and Nevada. Carefully Compiled from the Latest Authentic Sources. By Chas. Drayton Gibbes, C.E. Comprising Information obtained from the U.S. Coast and Land Surveys; State Geological Surveys, by Prof. J. D. Whitney; Railroad Surveys and the Results of Explorations Made by Brevet. Lieut. Col. R. S. Williamson, U.S.A., Henry De Groot, C. D. Gibbes, and Others. Published by Warren Holt. No. 717 Montgomery St., San Francisco, Cal. 1878.** (“S. B. Linton Formerly of the U.S. Coast Survey Draughtsman & Lithographer 148½ S. Fourth Street Philadelphia, Pa.”)
- A very detailed map. “Colorado River” is shown between a point just south of the lower international boundary with Mexico and on the northern end passing off the map to the east at approximately 36°10’ N. Includes numerous place names and mining districts. Just to the east of the Arizona-Nevada common point “Yampa Creek” is shown as a tributary, having run into and from “Red Lake” in “Hualpai Val.”, but its confluence with the Colorado is just off the map. The Colorado River at this point is marked “Supposed Head of Navigation”.

Harper and Brothers [firm]

- 1878 25.846 *Harper’s introductory geography : with maps and illustrations prepared expressly for this work by eminent American artists.* New York: Harper and Brothers, 112 pp.
- See pp. 71-72. See also **MAPS**, pp. 34, 69, each of which depicts the Colorado River in the Grand Canyon region differently.

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 1878 25.847 *Harper's school geography*. New York: Harper and Brothers, 128+ pp.
Grand Canyon and Colorado River, see pp. 61, 62; see also **MAP**, p. 58.

Hinton, Richard J.

- 1878 25.52 **Map of Arizona prepared specifically for R. J. Hinton's hand book of Arizona. Compiled from official maps of military Division of the Pacific, Surveyor General's Office, A. T. & from the notes of Col. W. G. Boyle, Col. J. D. Graham, H. Ehrenberg, Prof. Pumpelly and Lieut. Philip Reade, U.S.A.**

In: Hinton, Richard J., *The hand-book to Arizona : its resources, history, towns, mines, ruins and scenery. Amply illustrated. Accompanied with a new map of the territory*. San Francisco: Payot, Upham, and Co., and New York: American News Co. ("Lith. Britton, Rey & Co. S.F."). Scale 1 inch = 16 miles.

► "Black Cañon", "Boulder Cañon", and "Iceberg Cañon" are labeled on the "Colorado River". Downstream from Black Canyon is labeled "Colorado Cañon". The western portion of Grand Canyon is labeled "Mouth of the Grand Cañon". The confluence of "Colorado Chiquito Cañon" is properly shown at the Colorado's westward turn around the "Buckskin or Kaibab Plateau", but "Marble Cañon" is marked on that first westward stretch. "Mormon Trail" is marked through what is Lees Ferry (labeled "Ferry") and through "House Rock Valley". At Iceberg Canyon is labeled "Virgin Cañon Crossing". "Present Head of Steamboat Navigation" is marked at "Hardyville". The Colorado north of "Yuma City" is labeled "Canebreak Canon".

Kino, Eusebio Francisco

see also [note](#) with Kino (1701)

- 1878 25.2094 **Via terrestris in Californiam comperta et detecta Per R. Patrem Eusebium Fran. Chino è S.I. Gerutanum Adnotatis novis Missionibus ejusdem Socitis ab Anno 1698, ad annum 1701.**
Caption: "Tabula Californiæ, Anno 1702. Ex autopticà observatione delineata a R. P. Chino è S.I." [In Latin and German, with legend also in English.]

Bottom legend: "Jesuit Map of Arizona 1698." ("Lith. Britton, Rey & Co. S.F.")

In: Hinton, Richard J., *The hand-book to Arizona : its resources, history, towns, mines, ruins and scenery. Amply illustrated. Accompanied with a new map of the territory*. San Francisco: Payot, Upham, and Co., and New York: American News Co., facing p. 384.

Compare, and see also remarks with, Kino (1726, **ITEM NO.** 25.1049, in Section 1 of this Cartobibliography), from which this was copied in part, which in turn had copied the map published in Kino (1705, **ITEM NO.** 25.629), with the 1726 version offering labels in Latin and German. The cartouch title cited above differs in minor points from the 1726 map.

► "Coloratus fl. seu Nord. Strom" (Coloratus fluvius seu Nord-Strom, in mixed Latin and German) is delineated flowing directly from the northeast to enter the head of "Mare Californiæ", southwest of the confluence of "Azul oder Blaufluss", with "Hila fl." a tributary to it to the east. The gulf separates "Californiæ Pars" from "Novum Mexicum" and "Novæ Hispaniæ Pars". In addition, this map emends Kino's by extending it southward to include the mouth of the gulf. The marginal notation in print divides the upper four-fifths of the map as "Tabula Geographica R. P. Eusebÿ Franc. Kino Tridentini é Soc. IESU"; the one-fifth (which is extralimital to this Cartobibliography) as "Tabula Chartæ Patris Chino adiax."

- 1878 25.2095 **Via terrestris in Californiam comperta et detecta Per R. Patrem Eusebium Fran. Chino è S.I. Gerutanum Adnotatis novis Missionibus ejusdem Socitis ab Anno 1698, ad annum 1701.**
Caption: "Tabula Californiæ, Anno 1702. Ex autopticà observatione delineata a R. P. Chino è S.I." [In Latin and German, with legend also in English.]

Bottom legend: "Jesuit Map of Arizona 1698." ("Lith. Britton, Rey & Co. S.F.")

In: Berton, Francis, *Un voyage sur le Colorado : par Francis Berton[.] Membre Correspondant de la Société de Géographie de Genève*. San Francisco: [no imprint], frontispiece (following the title-page).

Volume cover title: *Un Voyage sur le Colorado*. 1878.

Berton (p. [1]) indicated that just 50 copies were printed: "Je me suis donc décidé à en faire publier une cinquantaine d'exemplaires ici" The lithographic stones used in this volume, including this map, were with permission reused from Richard J. Hinton, *The hand-book to Arizona : its resources, history, towns, mines, ruins and scenery* (see the citation immediately above, **ITEM NO.** 25.2094, with which see also the chorographical notes for this version of Kino's map).

Marcou, Jules

- 1878 25.1063 Appendix M. Notes upon the first discoveries of California and the origin of the name by Prof. Jules Marcou.
- From:* Wheeler, George M., Appendix NN. Annual report of Lieutenant George M. Wheeler, Corps of Engineers, for the fiscal year ending June 30, 1878. Geographical surveys of the territory of the United States west of the one hundredth meridian, in the states and territories of California, Colorado, Kansas, Nebraska, Nevada, Oregon, Texas, Arizona, Idaho, Montana, New Mexico, Utah, Washington, and Wyoming.

In: Annual Report of the Chief of Engineers to the Secretary of War for the year 1878. Part III. Appendixes of the Report of the Chief of Engineers. (Continued.) *U.S. 45th Congress, 3rd Session, House of Representatives Executive Document 1, Part 2, Volume II*, pp. 1648-1651, map.

Marcou's text was translated from French. The fold-out **MAP** between pp. 226/227 reproduces Eusebio Francisco Kino's 1701 manuscript map that was first published in 1705 (**ITEM NO.** 25.629).

- In:* Wheeler, George M., *Annual report upon the Geographical Surveys of the United States west of the 100th meridian, in the states and territories of California, Colorado, Kansas, Nebraska, Nevada, Oregon, Texas, Arizona, Idaho, Montana, New Mexico, Utah, Washington, and Wyoming . . . being Appendix NN of the Annual Report of the Chief of Engineers for 1878*. Washington, D.C.: U.S. Government Printing Office, pp. 226-229, map.

Marcou's text was translated from French. The fold-out **MAP** between pp. 226/227 reproduces Eusebio Francisco Kino's 1701 manuscript map that was first published in 1705 (**ITEM NO.** 25.629).

Powell, John Wesley

- 1878 25.1254 **Department of the Interior[.] U.S. Geographical and Geological Survey of the Rocky Mountain Region[.] J. W. Powell, in charge. Map of the United States exhibiting the grants of lands made by the general government to aid in the construction of railroads and wagon roads. 1878[.] For explanation see chapter on "Land Grants in aid of Internal Improvements"[.] (The base chart was engraved for the Statistical Atlas of the United States.)** ("Julius Bien, Lithographer.") ("To Accompany Report on the Lands of the Arid Region of the U.S.")

WHEAT V:1290

In: Powell, J. W., Report on the lands of the arid region of the United States, with a more detailed account of the lands of Utah. *U.S. 45th Congress, 2nd Session, House Executive Document 73*, 195 pp., 3 maps. (U.S. Geographical and Geological Survey of the Rocky Mountain Region.)

Volume pertains principally to Utah Territory but with occasional notes of surrounding areas, and with wide application to the Southwest generally. Volume also

in 2nd ed. with minor revisions, 1879; with same maps. Refer to Powell (1878, [ITEM NO. 18.2171](#), in Volume 1/Part B of [THE GRAND CANON](#); 1879, [ITEM NO. 18.2172](#)).

► The base map ironically portrays very outdated geographical data, years after Powell's explorations on the Colorado River and in mapping the adjacent part of the Colorado Plateau. The map depicts the Colorado River without a label in its lower course between between the head of "Gulf of Mexico" and confluence of Virgin River (not labeled). Between there and headwaters in the State of Colorado the river is labeled "Rio Colorado or Grand River". "Green River" is a tributary to the Colorado/Grand, as also is "Rio San Juan". Not only is the Grand Canyon not labeled, but the river course through the region is depicted on a more or less northeast-southwest course and shown alternately with solid and dotted lines (including the area of the Colorado-San Juan confluence). The Little Colorado River (not labeled) is shown as a tributary to the Colorado in the western Grand Canyon region, with Cataract Creek (also not labeled) a tributary to it. Cataract Creek and the lower part of the Little Colorado are shown with solid lines, although part of the lower part of the Little Colorado upstream from the confluence is depicted by a dotted line.

Rand, McNally and Co.

1878 25.1568

Rand McNally & Co.'s Arizona.

In: Rand, McNally & Co.'s Business Atlas containing large scale maps of each state and territory of the United States, the provinces of Canada, West India Islands, etc., etc. together with a Complete Reference Map of the World, printed in colors from plates secured by letters patent, producing the clearest typographical effect of any known engraved plates. Accompanied by a New and Original Compilation and Ready Reference Index, showing in detail the Entire Railroad System of North America, the express company doing business over each road, and accurately locating counties, parishes, islands, lakes, rivers, mountains, etc., etc., together with all Post Offices, Railroad Stations and Villages in the United States and Canada, with latest official census or estimated populaton of each. Chicago. Rand, McNally & Co., Printers, Engravers and Publishers. 1878-9. [Map on pp. 232-233.]

► Very detailed map. "Rio Colorado of the West" is depicted from between the head of the "Gulf of California" and southern Utah. Downstream from "Yuma" and "Arizona City" the river's channel are depicted along with wetlands symbols, to the east of which is labeled "Uninhabited Desert Isolated Mountains without wood or water, Vegetation chapparal and cacti". The course of the Colorado in "Big Canon of the Colorado River" is depicted generally, though clearly with some accuracy. However, the "Flax River or Colorado Chiquito" (Little Colorado River) is shown with its course from the southeast and its confluence with the Colorado directly from the south, with the label, "Supposed Junction of the Rio Colorado and Flax River". "Colorado Plateau" is labeled to the west of there, and "Painted Desert" to the east. The course of the Colorado through Marble Canyon (not labeled) between "Pahreah R." and the Little Colorado is figurative. Just upstream from there are "El Vado de los Padres" in "Monument Canon", and "The Temple of Music". At the confluence of Cataract Creek is noted "Yampais Village". All in all, in the Grand Canyon region this is a peculiar mixture of pre-Powell conjecture and post-Powell certainty, more surprising at this late date.

Wheeler, George M.; Hamel, P. W.; AND Nell, L.

1878 25.1041

Map showing routes of the river and land parties engaged in exploring the Grand Cañon of the Colorado. Under the command of 1st. Lieut. Geo. M. Wheeler, Corps of Engineers, U.S. Army. 1871. P. W. Hamel and L. Nell, Topographers. ("Issued Feb. 4th 1878.", "The Graphic Co. Photo-Lith. 30 & 41 Park Place, N.Y.", "Weyss, Thompson & Lang Del.", "By order of the Honorable the Secretary of War, under the direction of Brig. Gen. A. A. Humphreys, Chief of Engineers, U.S. Army.")

[WHEAT V:1237](#) [with illustration facing p. 339]

In: Wheeler, George M., *Report upon United States Geographical Surveys West of the One Hundredth Meridian, in charge of Capt. Geo. M. Wheeler . . . Volume 1.—Geographical report.* Washington, D.C.: U.S. Government Printing Office [1889, [ITEM NO. 2.6856](#) in Volume 1/Part B of [THE GRAND CANON](#)], map between pp. 170/171.

► Map embraces 35°–36°15' N, 113°10–114°50' W; on the Colorado River between "C. Mohave" (Camp Mohave) and north of the confluence of "Diamond Cr." (the upriver expedition concluded at Diamond Creek).

The published reports of the Wheeler Survey were greatly delayed in printing, although the maps were released at various times earlier.

1879

Daniels, W. H. [Daniels, William Haven]

1879 25.1126 **Map VI. United States. 1879.**

In: *The illustrated history of methodism in Great Britain and America, from the days of the Wesleys to the present time.* Sold only by subscription. Methodist Book Concern: Phillips and Hunt, New York; Hitchcock and Walden, Cincinnati (Ohio), Cicago, and St. Louis; J. P. Magee, Boston; H. H. Otis, Buffalo (New York); Joseph Horner, Pittsburgh (Pennsylvania); J. B. Hill, San Francisco; William Briggs, Toronto, Ontario; Humphrey Pickard, Halifax, Nova Scotia. (Copyright Phillips and Hunt, New York.)

► This title is not pertinent to this Cartobibliography, but the map displays in the Southwest a very generalized "Rio Colorado" between the Gulf of California (not labeled) and headwater tributaries (not labeled, but which are the Green and Grand Rivers). Also shown diagrammatically are (not labeled) the San Juan, Little Colorado, and Gila Rivers. "Colorado Cy." is plotted at the confluence of the Gila River; "Mohave Cy." (*i.e.*, Fort Mohave) is plotted on the upper reach of the lower Colorado River. In the Grand Canyon region, the Colorado between the confluence of the Little Colorado and Nevada is depicted along an essentially straight line. This is likely only a stock map used in this production, lacking credits, which is cited here for its unusual portrayals and labels even at this late date.

The same map appears again in the 1880 ed., omitting "Map VI." in its title. [Also later eds. and imprints; not seen.]

Fontaine, William M.

1879 25.825 *Introductory lecture by Wm. M. Fontaine, M. A., Professor of Geology and Natural History, University of Virginia: with a short account of the Lewis Brooks' Museum of Natural History.* Charlottesville, Virginia: Chronicle Steam Book and Job Printing House, 48 pp.

See p. 11, note of the geology collection possessing "a splendid relief map (6 feet square) of the Grand Canon of the Colorado river, and the cliffs of southern Utah, prepared from data obtained in the survey of the Rocky Mountain region under Major Powell." (ENTIRE NOTE)

NOTE: This pertains to the commercially produced relief map by Howell (no date, [ITEM NO. 24.309](#); 1931, [ITEM NO. 24.783](#)) (about which see also McCalmont, 2015, [ITEM NO. 21.7612](#) in Volume 1/Part B of [THE GRAND CANON](#)).

Freyhold, Edward

1879 25.1102 **Map of the Territory of the United States, West of the Mississippi River. Prepared by authority of of [sic] the Hon. the Secretary of War in the Office of the Chief of Engineers under the direction of Brig. General A. A. Humphreys Chief of Engineers and Brevet Maj. Gen. U.S. Army. By Edward Freyhold 1879 Scale 1/2000000.** 6 sheets, each in covers.

[WHEAT V:1295](#)

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

(“Note. This map has been compiled chiefly for Military purposes from the best available data obtained by the several departments of the government. Critical exactness has, in some instances, been disregarded in order to adapt the most recent information to portions compiled before its reception. [¶] Telegraph Lines, having been established along all-most all Rail Roads, are shown only where the latter terminate.”)

► The lowermost reach of “Colorado River”, between the “Gulf of California” and “F: Yuma”, and a short reach farther north between “Eureka” and “Rodes Rch.”, are shown on Sheet 4. The remainder of the area of interest to this Cartobibliography is shown on Sheet 5. The title panel is shown on Sheet 6. “Grand Cañon of the Colorado” is labeled between “Grand Wash” and “Kanab Wash”; “Marble Cañon” is labeled between “Kanab Wash” and confluence of “Colorado Chiquito Cañon”/“Rio Colorado Chiquito”. West of Grand Canyon “Iceberg Cañon” and “Black Cañon” are labeled. The Salton Basin is labeled “Dry Bed of Lake” and “New River” is shown reaching it. Routes of exploration, surveyed railroad routes, and the military telegraph line between San Diego and Fort Yuma is depicted graphically.

Heubach, Emil

1879 25.620 **New rail road map of the United States and the Dominion of Canada, showing the Chicago, Rock Island and Pacific R. R.[.] the great overland route and short line to the West and South-West.** Chicago: [Chicago, Rock Island and Pacific Railroad], 1 sheet, scale ca. 1:5,000,000.

► Map depicts other rail lines, including the Union Pacific, Central Pacific, and Southern Pacific. In the Grand Canyon region the map depicts the Colorado River in the “Great Cañon”, and the “Flax River” (Little Colorado River).

Riecker, Paul

1879 25.1941 **Map of Arizona Territory Prepared by Authority of Bvt. Major General O.B. Willcox Commanding Department Under the Direction of 1st Lieut. Fred. A. Smith, Adjutant 12th Infy. Engineer Officer D.A. 1879. Scale: Eighteen Miles to One Inch.** (“Compiled and Drawn by Paul Riecker.”) (“Authorities U.S. Land Survey’s [sic], Lieut. Ives, Lieut. Wheeler, Lieut. Mallery; Corps of Eng^{rs} Lieut. F. A. Smith 12th Infy; Major Compton, Lt West, Lt Touey; 6th Cav. S.P.R.R. Survey, Hinton’s Map, Office Records. Emil Eckhoff; and Paul Riecker.”)

► “Colorado River” is delineated in great detail, including its encanyoned reaches that label “Marble Cañon” (between the confluence of “Little Colorado R” and “Kanab Wash”, on the north side of which is labeled “White Bluffs”), “Grand Cañon” (labeled on either side of the “Diamond Cr” confluence), “Iceberg Cañon”, “Virgin Cañon”, “Boulder Cañon”, and “Black Cañon”. At the confluence of “Grand Wash” is labeled “Colorado R. Cros”, and “Stone’s Ferry” is labeled at the confluence of “Virgin River”. The Little Colorado River gorge is labeled simply “cañon”. The route of the “Southern Pacific R. R.” is delineated, but although various roads and trails are shown on this map, including “Beals Road 1857”, the “Moqui Trail”, the “Mormon Wagon Road” to “Lee’s Ferry”, and the “Trail to S^t George” along Grand Wash, the 35th parallel railway route does not appear.

U.S. Army, Chief of Engineers (Office of)

1879 25.612 **Territories of New Mexico and Arizona.** [Washington, D.C.]: U.S. Army, Office of the Chief of Engineers, 1 sheet, scale 1:500,000.

► “Grand Canon of the Colorado” is depicted; “Marble Canon” includes the reach between the “Colorado Chiquito Cañon” (Little Colorado River) and “Kanab Wash” (Kanab Creek). Of additional note is the label “Cascades” at the “Suppai Ind. Settlement”.

WHEAT V:1293

- 1879 25.1255 **Map of California and Nevada, with parts of Utah & Arizona. Prepared in the Office of the Chief of Engineers U.S.A. 1879.** Scale 1:500,000. [1885 or after?]
 ▶ This is a physiographic map. "Colorado River" is depicted between south of "Yuma" and eastern "Grand Canon of the Colorado". East of "Kanab Wash" is labeled "Marble Canon". The confluence of the Little Colorado River and the Colorado River northward of that point are off the map. "Buckskin or Kaibab Plateau" is on the edge of the map. Place names are profusely represented on this map, which clearly includes the information from the Powell surveys.

NOTE: Although Wheat cites this map with the date of 1879, the David Rumsey map collection notes (<http://www.davidrumsey.com/maps5766.html>): "A larger version of a portion of the Freyhold/Warren U.S. [map] of 1879. Wheat mentions this map in the same paragraph as the Freyhold/Warren map but he does not notice that they are from the same map!" David Rumsey adds about the map in that collection, "Issued on thin paper for field use. Paper is watermarked 'Crane Co. 1885.'"

U.S. General Land Office

- 1879 25.1942 **Department of the Interior General Land Office J. A. Williamson, Commissioner. Territory of Arizona. Scale 18 Miles to 1 inch. 1879. Compiled from the official Records of the General Land Office and other sources by C. Roeser, Principal Draughtsman G.L.O.** ("Photolith & print. by Julius Bien 16 & 18 Park Place NY.")
 ▶ "Colorado River" in "Grand Canon" and "Marble Canon" is depicted as encanyoned, as are also its tributaries in that reach. The routes of the Atlantic and Pacific, and Southern Pacific, railroads are delineated, with their 40-mile land grant limits also shown. Within the Grand Canyon, "Powell's Plateau" and "Nan-Go Near Val." (Nankoweap Valley) are labeled. "Red Butte" is depicted due south from Powell Plateau, between "Cataract Creek" and the supposed "Parke Cr." "Lee's Fy" is denoted for the first time on GLO maps.

1880**Dutton, Clarence Edward**

- NO DATE 24.789 **[Map of Kaibab Plateau and surrounding country.]** [New York]: Globe Stationery and Printing Co., 1 sheet. [1880s?]
 Notice by John Ward, Manager, Globe Stationery and Printing Co.; square brackets are part of the quotation: "This Map is copied from Powell's Geological Survey [Tertiary History of the Grand Cañon District, by Clarence E. Dutton, U. S. A.] The Geological contours being followed exactly, only Topographical Map lines are inserted instead of the Geological lines, to show more clearly the elevations, depressions, natural boundaries and sub-divisions."
 General boundaries of quadrangle: White Cliffs, Utah, on the north; Lees Ferry on the east; Kanab Cañon on the west; the Colorado River on the south.
- 1880 25.1042 **Map of Portions of Utah and Arizona Showing the Arrangement of Faults and Flexures in the Kaibabs [sic] and High Plateaus.**
In: Report on the geology of the high plateaus of Utah : with atlas. U.S. Geographical and Geological Survey of the Rocky Mountain Region, 307 pp.
 ▶ "Colorado River" is depicted between a point north of the confluence of "San Juan R." and "Grand Wash".

WHEAT V:1297 [maps; one map in illustration facing p. 355]

Eckhoff, Emil A., AND Riecker, Paul

- 1880 25.40 **Official map of the Territory of Arizona : Compiled from Surveys, Reconnaissances and other Sources by E. A. Eckhoff and P. Riecker, Civil Engineers. 1880.** New York: The Graphic Co., 1 sheet, scale ca. 1 in. = 14 miles.
- Labels include "Buckskin or Kaiba [*sic*] Plateau"; "Marble Cañon" label (along with the label "White Bluffs") appears alongside the Colorado River in the area of the Upper Granite Gorge; "Grand Cañon of the Colorado" label appears in western Grand Canyon west of "Cataract Creek".
- NOTE:* This map seems to have also been produced etched on copper; apparently produced by Theta-Com, California, late 1970s, available to government employees. This note has not been further researched.

Frémont, John Charles

- 1880 25.827 **California, Oregon, Idaho, Utah, Nevada, Arizona and Washington.**
- From:* Arizona.
- In:* *The Great West: Its attractions and resources. Containing a popular description of the marvelous scenery, physical geography, fossils, and glaciers of this wonderful region : and the recent explorations in the Yellowstone Park, "the wonderland of America," by Prof. F. V. Hayden, LL.D., formerly United States geologist. Also, valuable information to travellers and settlers concerning climate, health, mining, husbandry, education, the Indians, Mormonism, the Chinese : with the Homestead, Pre-emption, Land, and Mining Laws. By a corps of able contributors.* Bloomington, Illinois: Charles R. Brodix, pp. 296-301. [Map follows p. 352.]

G. W. and C. B. Colton and Co.

- 1880 25.2342 **Colton's North America Published by G. W. and C. B. Colton & Co., N° 172 William St New York.** ("Entered according to Act of Congress in the year 1855 by J. H. Colton & Co. in the Clerks Office of the District Court of the United States for the Southern District of New York.")
- In:* *Colton's general atlas of the world, containing two hundred and twelve maps and plans, on one hundred and forty-two imperial folio sheets, drawn by G. Woolworth Colton. Accompanied by geographical, statistical, and historial letter-press descriptions.* New York: G. W. and C. B. Colton and Co. ("Entered according to Act of Congress, in the Year 1876, by G. W. & C. B. Colton & Co., in the Office of the Librarian of Congress, at Washington.") This is map No. 15.
- "Colorado R." is delineated between "Gulf of California" and the confluence of "Green R." and "Grand R." From that confluence the Colorado follows a southwesterly course into Arizona, receiving en route an unlabeled tributary from the northwest, "San Juan R." from the east, and "Lit. Colorado R." from the southeast, then turns more or less westward to the confluence of the Virgin River (not labeled) from the northeast, then south to the gulf, receiving en route an unlabeled tributary from the northeast, the Bill Williams River (not labeled) from the east, and "Gila R." from the east-northeast.
- 1880 25.2343 **Colton's United States of America. Published by G. W. and C. B. Colton & Co., N° 172 William St New York.** ("Entered according to Act of Congress in the year 1876 by G. W. & C. B. Colton & Co in the Office of the Librarian of Congress, at Washington.")
- In:* *Colton's general atlas of the world, containing two hundred and twelve maps and plans, on one hundred and forty-two imperial folio sheets, drawn by G. Woolworth Colton. Accompanied by geographical, statistical, and historial letter-press descriptions.* New York: G. W. and C. B. Colton and Co. ("Entered according to Act of Congress, in the Year 1876, by G. W. & C. B. Colton & Co., in the Office of the Librarian of Congress, at Washington.") This is map No. 24/25.

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

► "Colorado R." is delineated between "Gulf of California" and the confluence of "Green River" and "Grand R." From that confluence the Colorado follows a southwesterly course toward Arizona, receiving en route the San Juan River (not labeled) then arcs due south to the confluence of "Colorado Chiquito" from the southeast. From there the Colorado follows a wildly undulating course westward to "Callville", with the Virgin River wholly omitted from the map. The only tributaries south of thee are "Bill Wms. Fk." from the east and "Rio Gila" from the east-northeast. The route of the "Atlantic & Pacific R.R." is delineated, as also is the "Southern Pacific".

- 1880 25.2344 **Colton's New Mexico and Arizona Published by G. W. and C. B. Colton & Co. N^o 172 William St. New York.** ("Entered according to Act of Congress in the year 1873 [date seems to be reengraved] by G. W. & C. B. Colton & Co in the Office of the Librarian of Congress, at Washington.") Scale 1:2,090,880.

In: Colton's general atlas of the world, containing two hundred and twelve maps and plans, on one hundred and forty-two imperial folio sheets, drawn by G. Woolworth Colton. Accompanied by geographical, statistical, and historial letter-press descriptions. New York: G. W. and C. B. Colton & Co. ("Entered according to Act of Congress, in the Year 1876, by G. W. & C. B. Colton & Co., in the Office of the Librarian of Congress, at Washington.") This is map No. 88/89.

► The course of the "Colorado River" follows its modern mapped route through "Grand Cañon of the Colorado", so labeled between the confluences of "Kanab Cañon" and "Grand Wash", though "Marble Cañon" is labeled both on its proper reach as well as between the confluences of "Colorado Chiquito Cañ." and "Kanab Cañon" West of Grand Canyon the canyons are labeled in squence, "Iceberg Cañon", "Virgin Cañon", "Boulder Cañon", and "Black Canon" [*sic*]. Of note is the dual label at the mouth of "Paria Cañon", "Colorado Dell Lees Ferry".

Harper and Brothers [firm]

- 1880 25.848 *Harper's introductory geography : with maps and illustrations prepared expressly for this work by eminent American artists.* New York: Harper and Brothers, 112 pp.
See pp. 71-72. See also **MAPS**, pp. 34, 69, each of which depicts the Colorado River in the Grand Canyon region differently.

Hayden, Ferdinand V.

- 1880 25.850 **California, Oregon, Idaho, Utah, Nevada, Arizona and Washington.**
From: The Great West.
In: The Great West: Its attractions and resources. Containing a popular description of the marvelous scenery, physical geography, fossils, and glaciers of this wonderful region : and the recent explorations in the Yellowstone Park, "the wonderland of America," by Prof. F. V. Hayden, LL.D., formerly United States geololgist. Also, valuable information to travellers and settlers concerning climate, health, mining, husbandry, education, the Indians, Mormonism, the Chinese : with the Homestead, Pre-emption, Land, and Mining Laws. By a corps of able contributors. Bloomington, Illinois: Charles R. Brodix, pp. 17-87. [Map follows p. 352.]

Matthews, Northrup and Co.

- NO DATE 25.1662 **Map of the Wisconsin Central Line And Connections. Matthews, Northrup & Co., Art-Printing Works, Buffalo, N. Y. [1880s.]**
INSET ON *Wisconsin Central Line and Connections The Direct Route Between Chicago, Milwaukee and All points East and South and St. Paul, Minneapolis, Ashland, Superior, Duluth and all points North and Northwest. Also the Following Points [lengthy lists on right and left margins]. The Direct Route Mark & Consign Freight [BROADSIDE].*

► Base map displays western United States between Lake Michigan and the Pacific Ocean. "Atlantic & Pacific" and "Southern Pacific" railroads are delineated generally across the Southwest. "Colorado River" is depicted generally, though along a reasonably accurate course, between the head of the "Gulf of California" and the confluence of "Green R." and "Grand R." "Grand Canon" is labeled between "Lees Ferry" and the confluence of "Muddy Cr" (the Virgin River, not labeled, is depicted as if it is a tributary to the Muddy). The Little Colorado River (not labeled) is depicted reaching the Colorado directly from the southeast. Other than "R. S. Juan", no other tributaries to the Colorado are depicted in the Grand Canyon area.

U.S. Geological and Geographical Survey of the Territories

NO DATE 24.201 **General geologic map of the area explored from 1869 to 1880.** Scale 1 inch = 41.03 miles. 35° to 48° N, 90° to 114° W. U.S. Geological and Geographical Survey of the Territories.

U.S. Geological Survey

NO DATE 25.1571 **[Map of the United States.]** [U.S. Geological Survey.] [1880?]
No title or imprint. Map displays rivers, states, and few place names.
The Library of Congress's copy (<https://www.loc.gov/item/2019360437/>), which it catalogs as "[1880]", has a working stamp on it from "U. S. Geological Survey Office Div. of the Great Basin", with the date 1880. If this is a then-current date, it is remarkable that such an out of date map would be in use. However, the river systems as delineated are identical to the Freyhold (1869, ITEM NO. 25.1535) War Department Engineers map of the United States. This map may be a proof copy for a product then under redevelopment.

► "Rio Colorado or Grand River" is depicted on a southwesterly between the confluence of "Green River" and the confluence of the Virgin River (not labeled). East of the Virgin confluence, the course of the Colorado is depicted by dotted lines except for 1) a reach around the confluence of Diamond Creek (not labeled), 2) a reach around the confluence of a misplaced Little Colorado River (not labeled), 3) around the confluence of Paria River (not labeled), and 4) a reach around the confluence of "Green River" and what actually is the Grand River. The Little Colorado River (part of its lower course marked by a dotted line) reflects the geography of Egloffstein in Ives (1861), meeting the Colorado from the east in the central part of where the Grand Canyon is situated, and which shortly before it meets the Colorado receives Cataract Creek (not labeled) from the southeast.

Verlag von Otto Spamer [firm]

1880 25.1687 **Nord-Amerika.** [In German.]
In: Hand-Atlas der neueren Erdbeschreibung für Haus und Schule. Beigabe zu Otto Spamer's Illustriertem Konversations-Lexikon. Leipzig und Berling: Verlag von Otto Spamer, 34 plates + unpaginated texts. Map XXVII. [Date on volume title-page: "1875-1880".]

► Physiographic map.

1880 25.2209 **Vereinigte Staaten v. Nord-Amerika, Mexiko, Central-Amerika und West-Indien.** [In German.]
In: Hand-Atlas der neueren Erdbeschreibung für Haus und Schule. Beigabe zu Otto Spamer's Illustriertem Konversations-Lexikon. Leipzig und Berling: Verlag von Otto Spamer, 34 plates + unpaginated texts. Map XXIX.
Date on volume title-page: "1875-1880".

► Political map. Depicts geographical features more clearly than the physiographic map (above). "Rio Colorado" is shown between "Meerb. v. Californien"

and the confluence of "R. Verde. Green R." and "R Grande". Tributaries are "S. Juan", "Rio de Lino" (Little Colorado River), Virgin River (seemingly labeled "Wahsatsch"), Bill Williams River (not labeled), and "R. Gila". The Colorado is shown only diagrammatically, passing more or less on a straight course through the Grand Canyon area (not labeled). The only place name in this region is "Colorado City" at the Colorado-Gila confluence.

W. Swann Sonnenschein and Allen [firm]

- 1880 25.2439 **North America.** ("W. Swan Sonnenschin & Allen's Plastic School Atlas.")
In: Sonnenschein & Allen's royal relief atlas of all parts of the world. Consisting of 31 maps, with physical, political, and statistical descriptions facing each map.
 London: W. Swan Sonnenschein and Allen, map No. 28.
 Cover title: *The New Relief Atlas.*
- ▶ Raised-relief map. "R. Colorado" is delineated between "G. of California" and unlabeled headwaters. From an unlabeled confluence the Colorado follows a course to the southwest, arcing through the Grand Canyon region (not labeled) to the Nevada boundary (states and territories are not labeled), thence southward to the gulf. The only tributary shown is "Rio Gila". The raised relief through the Grand Canyon vaguely shows as a passage between plateaus.

Wyld, James

- NO DATE 25.2220 **Map of North America Exhibiting the recent Discoveries, Geographical and Nautical; Drawn chiefly from the Authorities of Hudson Bay Company's Officers, the Government Arctic Expedition, and the Surveys of the United Staes & Dominion Governments, also desribing the Boundary Lines between the Territories of Great Britain[,] the United States, and the Mexican and Central States. London Published by Jas^s Wyld, Geographer to the Queen, 11& 12 Charing Cross London, S.W. Geographer to Her Majesty. [Ca. 1880.]**
- ▶ This post-John Wesley Powell map plots "Lee's Ferry" and the route of the "Atlantic & Pacific" railroad, which assist dating it to *ca.* 1880. It also marks "Mineral P^k" (Mineral Park) north of F^t Mohave, which also help date the map later than the early 1870s. "Colorado River" is delineated between "Gulf of California" and the confluence of "Green R." and "Grand R." From that confluence the river's course is southwest, receiving "R. S^ñ Juan" from the southeast and the Little Colorado River from the east-southeast. The Little Colorado is labeled differently on two branches: "R. Jaguesila" and "R. de Lino", the latter actually being the main course of the river and on which this map labels the course farther upstream as "Colorado Chiquito." In the area southwest of the Little Colorado River and east of Cataract Creek (that strikes the Colorado from the southeast, not labeled but shown with its supposed upstream tributaries "Parke Cr." and "Cedar Cr.") is the label "Puerto de Bucarelli" (Puerto de Bucareli) that implies that this broad part of the plateau is the *puerto*. At the Little Colorado confluence the main Colorado's course turns to the northwest for some distance before turning again southwest, along which it receives the unlabeled Cataract Creek. At the great turn where would be Diamond Creek (not shown on this map) the river again turns northwest to reach the confluence of "R. Virgin", before turning briefly southwest to "Colville", thence south to the gulf. Despite this late date, the course of the Colorado through the Grand Canyon region, tentatively records the course as first implied by Egloffstein, then with suggestions of correction that would have stemmed from the Powell expeditions.

1881

Andree, Richard

- 1881 25.2021 **Nordamerika. [In German.]**
In: Richard Andree's Allgemeiner Handatlas in sechsundachtzig Karten mit erlauerndem Text. Herausgegeben von der Geographischen Anstalt von Velhagen & Klasing in Leipzig. Bielefeld and Leipzig: Verlag von Velhagen und Klasing, pp. 82-83. Scale 1:20,000,000.
 ► "Colorado R." is delineated between the Gulf of California and the confluence of "Green R." and "Grand R."; its course approximately correct. Enroute it receives the tributaries "San Juan R." from the east-southeast, the Little Colorado River" (not labeled) from the southeast, Kanab Creek (not labeled) from the north, the Virgin River (not labeled) from the north, Bill Williams River (not labeled) from the east and northeast, and "Rio Gila" from the east.
- 1881 25.2169 **Vereinigte Staaten von Nordamerika. [In German.]**
In: Richard Andree's Allgemeiner Handatlas in sechsundachtzig Karten mit erlauerndem Text. Herausgegeben von der Geographischen Anstalt von Velhagen & Klasing in Leipzig. Bielefeld and Leipzig: Verlag von Velhagen und Klasing, pp. 86-87). Scale 1:10,000,000.
 ► "Colorado R.", its course approximately correct, is delineated between the Gulf of California and the confluence of the Green and Grand Rivers; enroute it receives the tributaries "S. Juan R." from the east, Paria River (not labeled) from the northwest, "Colorado Chiquito" (Little Colorado River) from the southeast, Kanab Creek (not labeled) from the north), Cataract Creek (not labeled) from the south-southeast, "Virgin R." from the north and northeast, an unlabeled short tributary from the west and northwest, "Bill Will. F." (Bill Williams River) from the east and north, an unlabeled short tributary from the northwest, and "Rio Gila" from the east. Virtually the entire reach of the river is depicted as encanyoned. The Grand Canyon is labeled "Gr. Colorado Cañon", while the label "Marble Can." is positioned between the Little Colorado River and Cataract Creek.
- 1881 25.2170 **Die Pacifischen Staaten der Union. [In German.]**
In: Richard Andree's Allgemeiner Handatlas in sechsundachtzig Karten mit erlauerndem Text. Herausgegeben von der Geographischen Anstalt von Velhagen & Klasing in Leipzig. Bielefeld and Leipzig: Verlag von Velhagen und Klasing, p. 88. Scale 1:5,000,000.
 ► "Rio Colorado", its course approximately correct, is delineated between "Golf v. California" a point east of "Kanab Wash". The central portion of the Grand Canyon is labeled "Grand Cañon of the Colorado", while the reach east of Kanab Creek is labeled "Marble Cañon". Other tributaries, in addition to several minor, unlabeled ones, include "Cataract Cr." from the south-southeast, "Grand Wash" from the northeast, "Virgin R." from the north and northeast, "Bill Williams Fork" from the east and north, and "Rio Gila" from the east.

H. H. Hardesty and Co.

- 1881 25.1402 **Map of Arizona.** ("Rand, McNally & Co., Engr's, Chicago.")
In: Historical hand-atlas : illustrated : containing large scale copper plate maps of each state and territory of the United States, the provinces of Canada, together with a complete reference map of the world[,] topographical and railroad map of the United States, thirteen comprehensive maps of Bible geography, covering all the countries of Bible history, with a classified pronounciative index for each map, printed in colors from plates secured by letters patent, producing the clearest typographical

effect of any known engraved plates, accompanied by a general survey of the world, history of the United States—history of each state and territory of the United States, nine farm maps, and history of Wells County, Indiana, illustrated, containing a condensed history of the county; biographical sketches; general statistics; miscellaneous matters, &c. Chicago and Toledo (Ohio): H. H. Hardesty and Co.

Map appears on pp. 164-165.

NOTE: The title cited here is one of a series of atlases that were customized (commissioned?) for specific counties of the United States, which were published during the early 1880s at least. There are variances to all.

► “Colorado River” is shown fairly accurately between southern Utah (north of the confluence of the San Juan River) to the lower international boundary south of “Yuma City”. Specific items of interest on this profusely labeled map: “Lee’s Ferry” is shown to the east of the Colorado River on the “Mormon Wagon Road”; “Buckskin or Kaiba [*sic*] Plateau Buckskin Mountains” is labeled; between the confluences of “Little Colorado River” and “Kanab Wash” is labeled both “Marble Canon” and “White Bluffs”, and south of there is labeled “Coconino Forest”; “Suppai [*sic*] Indian Settlement” is located on “Cataract Creek”, with the adjacent notation, “Cascades”; “Peach Springs” is marked along with a separate marker northeast of there, “Indian Settlement”; north of Peach Springs are the labels “Cedar Forest” and “Colorado Forest”; the course of the Colorado between the confluences of “Kanab Wash” and “Grand Wash” is labeled “Grand Canon of the Colorado”; canyons downstream from there are labeled “Iceberg Canon”, “Virgin Canon”, and “Black Canon”; along the lower Colorado only “Canebreak Canon” is labeled, upstream from “Yuma City”, while the stretch between there and Yuma is labeled “Explorers Pass”.

Petermann, A.

1881 25.2110

Die Vereinigten Staaten von Nord-Amerika in 6 Blättern im Maassstabe von 1:3.700.000.

Von A. Petermann. (“Bearbeitet v. H. Habenicht.”) (Various sheets have different headers and footers: Bl. 1, “Steiler’s Hand_Atlas, N^o 8”, “Bearbeitet v. H. Habenicht. Revidirt 1881.”, “[number eradicated] I II. Gest. v. Eberhardt, Kühn, Metzeroth u. Weiler. v. H. Habernicht, corrigirt 1881.” — Bl. 2, “II. I. Gest. v. Metzeroth, Eberhardt, Kühn u. Kramer. v. H. Habenicht.”, “Gotha: Justus Perthes 1880.” — Bl. 3, “Stieler’s Hand_Atlas N^o 85”, “IX_Gest. v. Eberhardt, Kühn u. Weiler.”) [In German, with mixed labeling.]

In: Adolf Steiler’s Hand Atlas über Alle Theile der Erde und über das Weltgebäude : 95 Karten. Gotha: Justus Perthes. (Title-sheet with notations, “Entw. v. H. Berghaus 1881.”, “Gest. v. H Eberhardt u. E. Kühn.”)

See the southwestern sheet of this series.

► The Colorado River is labeled on its lower course “Great Colorado River”, as “Rio Colorado” on its upper course. It is delineated between “Gulf von Californien” and the confluence of “Grand River” and “Green River”. The course through the Grand Canyon is reasonably that as is mapped today, but with the label “Marble Cañon” in the reach between “Rio Colorado Chiquito” (which arrives from the southeast) and “Kanab Cañon”; between Kanab and “Grand Wash” it is labeled “Big Cañon of the Colorado”. “Cataract Cr.” arrives independently from the south-southeast but, east of Cataract Creek, “Parke Cr.”, arriving from the southeast and skirting to the west of “Red Butte”, turns to the northeast to reach the Colorado approximately in the area of today’s Royal Arch Creek. The Kaibab Plateau is labeled “Buckskin Plateau”; on its east side are labeled “House Rock V.”, “House Rock Sp.” and “Soap S”. “El Vado de los Padres” is positioned on the Arizona side of the Arizona-Utah boundary. In western Grand Canyon, Diamond Creek is shown but not labeled, near the place name “Hualpais” (Peach Springs). The Grand Wash Cliffs south of the Colorado are labeled “Colorado Plateau”. Of the canyons downstream, only “Virgin C.” and “Black Cañon” are labeled.

1882

A. L. Bancroft and Co.

WHEAT V:1301

- 1882 25.1256 **Bancroft's New Map of California and Nevada compiled from the latest and most reliable official sources and special surveys. 1882. Published by A. L. Bancroft & Co. San Francisco. Copyright 1882 by A. L. Bancroft & Co.**
- ▶ Almost no features are depicted on the Arizona side of the Colorado River. The river in Mexico is shown in detail. East of the confluence of "Virgin River" is the label "Supposed Head of Navigation". The river passes off the map to the east at the confluence of a tributary from "Virgin Range" on the north, labeled only "Wash" (probably Grand Wash).

Dutton, Clarence Edward

- 1882 24.61 **[Five geological maps on 12 sheets.]**
- In:* The Tertiary history of the Grand Cañon district; with atlas. *U.S. Geological Survey, Monograph 2*, 264 pp. [quarto]; **Atlas**, 23 sheets [double folio].
- Itemization of geological maps by Atlas sheet number:
- II: Geological Map of the Western Part of the Plateau Province** [scale nearly 1:1,000,000; colored] ["The topography of the colored portion is compiled by J. H. Renshawe, from data and surveys by the U.S. Geographical and Geological Survey of the Rocky Mountain Region, J. W. Powell in charge, and by the United States Geological Survey, Clarence King, Director. The topography of the uncolored portion is compiled largely from surveys under the direction of Capt. George M. Wheeler, U.S. Engineers. Geology by C. E. Dutton" (*from* Sheet I, "List of Atlas Sheets")].
- III: Sketch Map of the Western Part of the Plateau Province Showing Faults of the Grand Cañon District and High Plateaus** [scale *ca.* 1:1,000,000] ["The topography is the same as that of the preceding sheet." (*from* Sheet I)].
- VII-VIII** (halves of one map): **Map of the Uinkaret Plateau North Half** [scale 1:63,360; colored] [topography by J. H. Renshawe, geology by C. E. Dutton]; **Map of the Uinkaret Plateau South Half** [scale 1:63,360; colored] [topography by J. H. Renshawe, geology by C. E. Dutton].
- XII-XIV** (quadrants of one map): **Geologic Map of the Southern Part of the Kaibab Plateau (Part I. North-Western Sheet.)** [scale 1:63,360; colored] [topography by Sumner H. Bodfish, geology by C. E. Dutton]; **Geologic Map of the Southern Part of the Kaibab Plateau (Part II. North-Eastern Sheet.)** [scale 1:63,360; colored] [topography by Sumner H. Bodfish; geology by C. E. Dutton]; **Geologic Map of the Southern Part of the Kaibab Plateau (Part III. South-Western Sheet.)** [scale 1:63,360; colored] [topography by Sumner H. Bodfish, geology by C. E. Dutton]; **Geologic Map of the Southern Part of the Kaibab Plateau (Part IV. South-Eastern Sheet.)** [scale 1:63,360; colored] [topography by Sumner H. Bodfish, geology by C. E. Dutton].
- XX-XXIV** (quadrants of one map; XX/XXI abut East-West; XXI/XXIV abut North-South): **Geologic Map Showing the South-Western Portion of the Mesozoic Terraces and the Vicinity of the Hurricane Fault** [scale 1:250,000; colored] [geology by C. E. Dutton]; **Geologic Map of the Mesozoic Terraces of the Grand Cañon District and the Southern Portion of the High Plateaus** [scale 1:250,000; colored] [geology by C. E. Dutton]; **Geologic Map Showing the Kanab, Kaibab, Paria and Marble Cañon Platforms** [scale 1:250,000; colored] [geology by C. E. Dutton]; **Geologic Map of the Colorado Plateau and San Francisco Mountains** [scale 1:250,000; colored] [geology by C. E. Dutton].

Furne, Jouvét et Cie. [firm]

- 1882 25.1992 **Amérique Septentrionale.** ("Atlas S^t Cyr.") ("Furne, Jouvét et C^{ie} éditeurs ___ Imp. Lemercier et C^{ie} Paris.") [In French.]
In: Atlas universel de géographie moderne : physique, politique, historique, industriel, commercial et militaire : adopté par le Ministère de la Guerre pour l'École de Saint-Cyr. Paris: Furne, Jouvét et Cie, Éditeurs (Jouvét et Cie, successeurs).
 ► "Colorado Occid!" is depicted between "Golfe de Californie" and the confluence of "Colorado Vert" (Green River!) and "Grand Colorado" (Grand River!), following a south-southwesterly course until reaching the Grand Canyon area, where it arcs to the west-northwest before turning south at the confluence of the Virgin River (not labeled).
- 1882 25.2182 **Carte Militaire des Etats-Unis (Partie Occidentale.)** ("Furne, Jouvét et C^{ie} éditeurs ___ Imp. Lemercier et C^{ie} Paris.") (Corrigé par J. Geisendorfer 12, r. de l'Abbaye: Paris".) [In French.]
In: Atlas universel de géographie moderne : physique, politique, historique, industriel, commercial et militaire : adopté par le Ministère de la Guerre pour l'École de Saint-Cyr. Paris: Furne, Jouvét et Cie, Éditeurs (Jouvét et Cie, successeurs).
 ► "Rio Colorado" is delineated between "Golfe de Californie" and the confluence of "Green R." and "Bunkara R."(!); its passage from these upstream sources to the confluence of "Virgen R." is depicted as encanyoned; its course through the Grand Canyon (not labeled) is approximately correct; enroute it recieves the tributaries "S^o Juan R.", "Petit Colorado (Flax.)", and "Kanab Carson" (*sic!*). In its lower reach the Colorado receives "William R.", which is labeled on an upstream fork "R. S^a Maria", and "Rio Gila".

G. W. and C. B. Colton and Co.

- 1882 25.605 **Map Showing the California and Nevada Railroad and its Extensions and Connections.** ("Drawn, Engraved & Printed by G. W. and C. B. Colton and Co. 182 William S^t New York.") Scale 1:2,090,880.
 ► Colorado River canyons in the region covered by this Cartobibliography are labeled: "Marble Cañon" between "Lees Ferry" and "Kanab Cañon", "Grand Cañon of the Colorado" between "Kanab Cañon" and "Grand Wash" (where appears the label, "Colorado R. Cross."); "Virgin Cañon", "Boulder Cañon" and "Black Cañon" (where the Colorado goes off the map to the south). Also of note is that Lees Ferry is labeled both as "Lees Ferry" and "Colorado Dell". The Paria River is labeled simply "Cañon", although "Paria Plateau" is labeled, with "Vermillion [*sic*] Cliffs". Also labeled are "Kaibab or Buckskin Plateau" and "Houserock Vall.", and to the west, "SHI WITZ PLATEAU" (typographically thus). "Colorado Chiquito Cañ." reaches the Colorado directly from the southeast. Northeast of Lees Ferry but south of the Arizona-Utah boundary a short tributary reaches the Colorado from the east-southeast, "Navajo Cr.", while the San Juan River (not labeled) is depicted reaching the Colorado from the east in Utah. Numerous other labels appear.

Hitchcock, Charles H.

- 1882 11.17676 **Gray's geological map of the United States.** *By Prof. Charles H. Hitchcock, Ph. D.* ("Copyright 1882 by O. W. Gray & Son.")
In: National Atlas. Philadelphia: O. W. Gray and Son, pp. 204-205.

Rand McNally and Co.

- 1882 25.2427 **Rand McNally & Co.'s New Railroad and County Map of the United States and Dominion of Canada 1882.** Rand McNally & Co., Printers and Engravers, Chicago.
- The Colorado, Little Colorado, and Gila Rivers are delimited by broad river-flow-like artwork rather than a single line. Through the Grand Canyon (not labeled) it follows a reasonably accurate course. Of note are the place-names for "Lee's Ferry", "Suppai Indian Settlement", "Kanal [sic] Wash" (Kanab Creek), "Witches Pool", and "Buckskin or Kaiba [sic] Plateau". Numerous springs, tanks, and mining sites are also labeled. The courses of the "Atlantic & Pacific R.R." and "Southern Pacific R.R." are delineated.

Stanford, Edward

- 1882 25.2372 **United States (Western).** ("London: Edward Stanford, 55 Charing Cross.") ("Stanford's Geog. Establishment.")
- In: Stanford's London atlas of universal geography : quarto edition : forty-four coloured maps and alphabetical index.* London: Edward Stanford. [Map 38.]
- "R. Colorado" is delineated on its proper course. "Grand Cañon" is labeled in the western part of the canyon, while "Marble Cañon" is labeled between the confluences of "Little Colorado or Flax R." and Kanab Creek (not labeled). The Kaibab Plateau is labeled "Buckskin Plateau". "Black Cañ." is labeled downstream from the confluence of "R. Virgin". Farther upstream, the only canyons with label are "Cataract Cañ." and "Stillwater Cañ." in Utah. The route of the Atlantic & Pacific Railroad (not labeled) is delineated.

Weekly Call

- 1882 25.1965 **The Weekly Call Map of California and Nevada Copyrighted 1882 Address, San Francisco Call Company, 525 Montgomery Street, San Francisco, Cal.** ("Lith. M. Schmidt & Co. 411 Clay St. San Francisco.")
- With shaded relief topography. "F. Yuma" and "Arizona City" labeled at confluence of "Colorado River" and Gila River (not labeled). Salton sink is labeled "Dry Bed of Lake". "New River" depicted coming from and returning to Mexico. Route of Southern Pacific Railroad marked.

1883**Atlantic and Pacific Railroad Co.**

- 1883 25.611 **Map showing the location of the road and the land grant of the Atlantic and Pacific R. R. in Arizona.** [and] **Map showing the location of the road and the land grant of the Atlantic and Pacific R. R. in New Mexico.** [No imprint], multiple sheets to be placed in juxtaposition, scale 1:380,160.
- Displays all land-survey township, range, and sections, and non-granted inholdings.

Brodie, Paul

- 1883 25.1560 **Map of the Indian Reservations within the limits of the United States. Compiled under the direction of Hon. Hiram Price, Commissioner, by Paul Brodie, draughtsman. 1882.** [No imprint.]

► Within the region of interest to this Cartobibliography the reservations are "Suppai", "Hualpai", "Colorado River", and "Yuma"; with population figures given for each.

Diercke, C., AND Gaebler, E.

- 1883 25.2348 **Vereinigte Staaten und Mexiko.** Scale 1:15,000,000. [In German.]
In: Diercke, C., and Gaebler, E. (publishers, eds.), *Schul-Atlas über alle Teile der Erde. Zum geographischen Unterricht in Höheren Lehranstalten. Zweiter Abdruck.* Braunschweig: Druck und Verlag von George Westermann, p. 20.
 ► "Colorado" is delineated fairly correctly between "Golf v. Kalifornien" and the confluence of "Green R." and "Grand R."; the canyon reaches are depicted as encanyoned. The only tributaries in the area of interest are the "S. Juan", Little Colorado River (not labeled), Virgin River (not labeled, coming due south only in Nevada, with its middle reach depicted by a dotted line), and "Gila".

G. W. and C. B. Colton and Co.

- 1883 25.608 **Map Showing the New Transcontinental Route of the Atlantic & Pacific Railroad and its Connections.** ("Prepared by G. W. & C. B. Colton & C^o 182 William St^t New York".) ("Entered according to Act of Congress in the year 1883 by G. W. & C. B. Colton & Co. in the Office of the Librarian of Congress, at Washington.") Scale 1:3,800,000.
 Caption: **Extra-Beilage zur New-Yorker Handels-Zeitung.**
 ► The trace of the railroad is broadly marked "Atlantic & Pacific Western Division" in Arizona and western New Mexico, although the trackway itself is labeled "Atlantic & Pacific" here and "Southern Pacific" in California. The trace also lays out the railroad's land grant boundaries between the eastern boundary of Indian Territory and the Colorado River." Also shown is the 32nd parallel route, labeled "Southern Pac." "Big Cañon of the Colorado" is labeled thus, even at this late date. The "Virgin Range" is depicted adjacent to the "Rio Virgin" by the Arizona-Nevada boundary, and immediately parallel to it on the east is depicted "Buckskin Mts." The region of the central and eastern Grand Canyon is blank except for the Colorado River, unlabeled tributaries, and the label "Marble Cañon" (properly positioned). At the confluence of "Green R." and "Grand R." is the label, adjacent to the Green, "Canon of the Green Riv." Between this confluence and the confluence of "R. San Juan" the Colorado is labeled "Rio Colorado or Grand R." (The lower Colorado River is labeled "Colorado R.") The only other labeled tributaries in the Grand Canyon area are "Paria R." and "Colorado Chiquito R." "Painted Desert" is labeled on the north side of the Little Colorado. The unlabeled tributaries differ compared to the 1883 Colton map of the Atchison, Topeka and Santa Fe (ITEM NO. 25.1658).
- 1883 25.1658 **Map Showing the Atchison, Topeka and Santa Fe Railroad System. with its Connections.** ("Prepared by G. W. & C. B. Colton & C^o 172 William St^t New York".) ("Entered according to Act of Congress in the year 1883 by G. W. & C. B. Colton & Co. in the Office of the Librarian of Congress, at Washington.") ("Rufus Adams & C^o Stationers & Printers 4 & 6 Pine St^t New York.") Scale 1:3,800,000.
 ► The trace of the 35th parallel railroad is marked "Southern Pacific" [*sic*] in California and "Atlantic & Pacific" in Arizona and western New Mexico. Also shown is the 32nd parallel route, labeled "Southern Pacific". "Big Cañon of the Colorado" is labeled thus, even at this late date. The "Virgin Range" is depicted adjacent to the "Rio Virgin" by the Arizona-Nevada boundary, and immediately parallel to it on the east is depicted "Buckskin Mts." The region of the central and eastern Grand Canyon is blank except for the Colorado River and unlabeled tributaries. At the confluence of "Green R." and "Grand R." is the label, adjacent to the Green, "Canon of the Green". Between this confluence and the confluence of "R. San Juan" the Colorado is labeled "Rio Colorado or Grand R." (The lower Colorado River is labeled "Colorado R.") The only other labeled tributaries in the Grand Canyon area are "Paria R." and "Colorado

Chiquito R." "Painted Desert" is labeled on the north side of the Little Colorado. The unlabeled tributaries differ compared to the 1883 Colton map of the Atlantic & Pacific Railroad (ITEM NO. 25.608), as also notably the label for Marble Canyon is absent from the AT&SF map. The AT&SF map also includes railway lines in northern Mexico and displays part of the Gulf of California, with the label "Desert of Avena" to the east of the mouth of the Colorado River.

Hayden, Ferdinand V., AND Selwyn, A. R. C.

- 1883 25.851 (EDITED AND ENLARGED BY) *North America*. London: Edward Stanford, 652 pp. (Stanford's Compendium of Geography and Travel, based on Hellwald's "Die Erde und ihre Völker.")
See pp. 61-80, 402, and **MAPS**.

Letts, Son and Co. Limited

- 1883 25.2500 **Letts's Popular Atlas. Statistical Map of North America.** *In: Letts's popular atlas, being a series of maps delineating the whole surface of the globe, with many special and original features; and a copious index of 23,000 names. Complete Edition.* London: Letts, Son and Co. Limited, map 113.
▶ "R. Colorado" is delineated between "Gulf of California" and the confluence of "Green R." and "Grand R." From that confluence the river flows southwestward, en route receiving "R. San Juan" from the east, turning south-southwestward to the confluence of "R. Colorado Chiquito" (which for considerations of space on the map is labeled partly to the west of that confluence), turning westward through the Grand Canyon (not labeled) to the confluence of the Virgin River (not labeled), turning south along which it receives the Bill Williams River (not labeled) and "Rio Gila". The reach between the Green and Grand Rivers, including the lower reaches of those two rivers, is depicted as heavily encanyoned, although the south sides of the Little Colorado and Colorado River in Grand Canyon oddly omit the hachures that delineate the encanyoned reaches.
- 1883 25.2501 **Letts's Popular Atlas. United States of North America and Part of Canada.** *In: Letts's popular atlas, being a series of maps delineating the whole surface of the globe, with many special and original features; and a copious index of 23,000 names. Complete Edition.* London: Letts, Son and Co. Limited, map 119.
▶ "Colorado R." is delineated between "Gulf of California" and the confluence of "Green R." and "Grand R." Its course is fairly correct, although it seems that Cataract Creek (not labeled) is too far east, with its confluence with the Colorado a short distance southwest of the confluence of "Little Colorado or Flax R." "Grand Cañon" is labeled between Kanab Creek (not labeled) and the confluence of "Virgin R." The river reaches along the Colorado are shown as heavily encanyoned, although oddly the east side of the Colorado and north side of the "R. San Juan" omit the hachures.
- 1883 25.2502 **Letts's Popular Atlas. United States, West, & Mexico, North.** *In: Letts's popular atlas, being a series of maps delineating the whole surface of the globe, with many special and original features; and a copious index of 23,000 names. Complete Edition.* London: Letts, Son and Co. Limited, map 136.
▶ "Rio Colorado" is delineated between "Gulf of California" and the confluence of "Green R." and "Grand R." From that confluence, the Colorado is only generally shown, following a southwestward course nearly to the Arizona-Utah boundary, receiving en route "Rio San Juan" from the east; turning westward for a distance before turning again southwestward to cross the boundary, whereafter it receives "Rio de Lino" (Little Colorado River) from the southeast. From that confluence it continues southwestward before arcing to the west-northwest, receiving en route Kanab Creek (not labeled) from the north, Cataract Creek (not labeled) from the southeast, and an unlabeled tributary from the southwest, which tributary passes through a prominent

"Red L." West of the "Rio Virgin" confluence the river turns to the south, at which point it receives an unlabeled tributary (Las Vegas Wash) from the west-northwest. The Colorado and the lower reaches of its tributaries are depicted as encanyoned; Grand Canyon is not labeled. In the lower Colorado, "F. Yuma", "Colorado", and "Yuma C." are all shown at the confluence of "R. Gila", where also the route of the Southern Pacific Railroad is delineated. This detail map of the western U.S., as compared to the more general map of the U.S. (ITEM NO. 25.2501) is peculiarly out of date in the region of interest here.

Rand, McNally and Co.

- 1883 25.1557 **Map Exhibiting the Several Pacific Railroads Prepared for the Report on the Internal Commerce of the United States by the Chief of the Bureau of Statistics. Rand, McNally & Co. 1883.**
 ▶ A very detailed map. The course of the "Rio Colorado" is shown slightly meandering from "Yuma" to the head of the "Gulf of California". Along that course is noted on the eastern side, "Uninhabited Desert". The "Supposed Head of Navigation" is labeled at a point east from the confluence of "Virgin R." Interestingly, still now years since the explorations and mapping by John Wesley Powell, not only is "Grand Canyon" not mentioned, but the course of the river through the canyon is not wholly shown accurately. At the confluence of "Cataract Creek" is labeled "Yampas Village" (*i.e.*, Supai). The "Flax River", also labeled "Colorado Chiquito" (Little Colorado River) is shown with its course from the southeast and its confluence with the Colorado directly from the south, with the label, "Supposed Junction of the Rio Colorado and Flax River". The course of the Colorado through Marble Canyon (not labeled) between "Pahreah R." and the Little Colorado is figurative and is bounded its whole length on the east by "White Mesa". Just upstream from there is "The Temple of Music". All in all, in the Grand Canyon region this is a peculiar mixture of pre-Powell conjecture and post-Powell certainty, particularly so long after the publications by Powell and others.
- 1883 25.1558 **Rand, McNally & Co.'s Map of the United States.**
INSET ON: *Rand, McNally & Co.'s New Enlarged Scale Railroad and County Map of California Showing Every Railroad Station and Post Office in the State. Published by Rand, McNally & Co., Chicago. ("Copyright 1883, by Rand, McNally & Co., Map Publishers, Chicago, Ill.")*
 ▶ "Colorado River" is shown on a diagrammatic course from the confluence of "Green River" and "Grand River" to the head of the "Gulf of California". In the Grand Canyon area (not labeled), the "Flax River" (Little Colorado River) reaches the Colorado directly from the southeast. There is a place marker, such as those denoting habitations, farther up the Little Colorado that is labeled "Colorado Chiquito". There is also a wavering line in the central part of Grand Canyon, from the north, that is likely Kanab Creek; and there is a tributary (not labeled) in western Grand Canyon that comes to the Colorado first from the northwest then turning to the southeast. A peculiar mixture of Pre-Powell conjecture and post-Powell certainty.
- 1883 25.1664 **New Map of the Union Pacific Railway the Short, Quick and Safe Line To all Points West. Rand, McNally & Co., Map Publishers and Engravers, Chicago. [and] The Central Short Line To All Points in Kansas, Nebraska, Colorado, Wyoming, Idaho, Utah, Montana, Nevada, California, Oregon, Washington, and the Trans-Pacific Ports. Saves Time, Money, Distance and Changes of Cars[.] Copyright, 1883, by Rand, McNally & Co., Chicago.**
BROADSIDE with illustrations and texts in margins.
 Caption on sheet: **Union Pacific Railway and Connections.]**
 ▶ Base map depicts "Colorado R." between head of "Gulf of California" and the confluence of "Green River" and "Grand River". These rivers all are depicted as broad waterways, with only headwater areas shown with solid lines. In the Grand Canyon region, tributaries are "San Juan River", "Pahreah R.", "Little Colorado River", "Kanab Wash", "Cataract Cr.", "Grand Wash", and "Virgin River". The Grand Canyon is not

labeled, although northeast of the Little Colorado confluence is the label "Painted Desert". "Suppai Indian Settlement" (Havasupai) is noted on Cataract Creek, but the only indication of the Hualapai is the label "Indian Settlement" about where Peach Springs would be. Numerous place names recognized from Powell and others are indicated in the Grand Canyon area. "Buckskin or Kaiba [*sic*] Plateau" is labeled. "Atlantic & Pacific R. R." and "Southern Pacific R. R." are delineated generally across Arizona, although the Atlantic & Pacific stops at the Colorado River south of "Ft. Mohave".

U.S. General Land Office

- 1883 25.1943 **Department of the Interior General Land Office N. C. McFarland Commissioner. Territory of Arizona. Scale 15 Miles to 1 inch. 1883. Compiled from the official Records of the General Land Office and other sources under supervision of G. P. Strum, Principal Draughtsman G.L.O.** ("Photo lith & print. by Julius Bien 139 Duane St. N.Y.")
- ▶ Map completely redrafted. "Colorado River" in "Grand Cañon", "Marble Cañon", and in canyons downstream from Grand Canyon, is depicted as encanyoned, as are also its tributaries in that reach. "Grand Cañon" is labeled in western Grand Canyon; "Marble Cañon" is labeled between "Col. Chiquito Cañon" (Little Colorado River) and "Kanab Cañon". Delineated for the first time are "Hualpai Indian Res. Ex. Order Jan. 4th 1883" (Hualapai Indian Reservation) and "Yava Suppai Ind. Res. Ex. Order Nov. 23rd 1880 modified Mar. 31st 1882" (Havasupai Indian Reservation). "Suppai & Moqui Trail" is delineated. The routes of the Atlantic and Pacific, and Southern Pacific, railroads are delineated, with their 40- and 50-mile land grant limits also shown.

1884

Anonymous

- 1884 25.748 Die pacifischen Eisenbahnen Nordamerikas. *Archiv für Post und Telegraphie* (Beiheft zum Amtsblatt des Reichs-Postamts) (Berlin), 12(10) (May): 299-306. [In German.]
- See **MAP** (p. 301), and a portion of the section, "Die südlichen transcontinentalen Hauptwege" (p. 302 and following).
 - Item with credit to Robert von Schlagintweit; probably *Die Santa Fe- und Südpacifischebahn in Nordamerika*. Köln: Verlag von Eduard Heinrich Mayer (1884), 400 pp.

Bartholomew, John [Bartholomew, John, Jr.]

- 1884 25.2120 **General Map of the United States. By J. Bartholomew, F.R.G.S.** ("Engraved & Printed in colours by J. Bartholomew, Edin^r.") ("Published by A. & C. Black, Edinburgh.")
- In: Black's general atlas of the world : new and revised edition : embracing the latest discoveries, new boundaries, and other changes : accompanied by introductory letterpress and index.* Edinburgh: Adam and Charles Black, Map 40/41.
- Compare this map against **ITEM NO.** 25.2121 from the same volume.
 - ▶ "Rio Colorado" is shown between the "Gulf of California" and the confluence of "Green R." and "Grand R." While its course is reasonably accurate, the label "Marble Canon" appears between the confluence of "R. Colorado Chiquito Lit. Colorado R." (from the southeast). The label "Big Canon" appears between the confluences of Diamond Creek (not labeled) and "Virgen R." The label "Painted Desert" is written across the area north of the Colorado and east of it. Two unlabeled tributaries reach the Colorado from the southeast; one of them, Cataract Creek, the other, east of it, uncertain, heading at "Humphrey's Peak".

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 1884 25.2121 **California, Nevada, Oregon, Washington, Idaho, Utah, Arizona[,] Montana, Dakota, Wyoming, Nebraska, Colorado, Kansas &c.** ("J. Bartholomew, Edinburgh.") ("Published by A. & C. Black.") [These labels seemed to have been eradicated and reengraved.]
In: Black's general atlas of the world : new and revised edition : embracing the latest discoveries, new boundaries, and other changes : accompanied by introductory letterpress and index. Edinburgh: Adam and Charles Black, Map 44^M.
 Compare this map against **ITEM NO.** 25.2120 from the same volume.
 ▶ "Rio Colorado", as labeled on its lower reach, and "Rio Colorado grande", as labeled on its upper reach, is shown between the "Gulf of California" and the confluence of "Green R." and "Grand R." While its course is reasonably accurate, the label "Marble Canon" appears between the confluence of "Colorado Chiquito or Flax River" (from the southeast and labeled "Lit. Colorado R.^{ly}" on a headwater branch) and the confluence of "Kanab Cañon" (from the north). The label "Big Cañon of the Colorado" appears between the confluences of "Cataract Cr." (from the southeast) and "Virgin R." (from the northeast and north-northeast). The label "Painted Desert" is written along the lower course of the Little Colorado. Parallel to and to the east of Cataract Creek is "Parke Cr.", the course of which turns to the northeast approximately where today is Royal Arch Creek. "Buckskin Plateau" is the label for the Kaibab Plateau. To the west, "Yampa Cr." is shown running to "Red L." but no longer is continued to the Colorado.

García y Cubas, Antonio [García Cubas, Antonio]

- 1884 25.1297 **Sonora.** ("Atlas Mexicano por Antonio García Cubas. Carta I.") ("Queda asegurada la propiedad de esta obra conforme á las leyes en la República Mexicana y en los Estados Unidos. Copyright, 1884, by S. Voisin.") Scale 1:2,000,000. **[In Spanish.]**
 This series of maps produced as individual sheets.
 ▶ "Rio Colorado" is depicted between the head of "Golfo de California" and "Fuerte Yuma" at the confluence of "Rio Gila". A road is shown approaching Fort Yuma from Sonora along a path from the southeast. "I. Gore" and "I. Montegue" are shown at the mouth of the Colorado, and just upstream from there are shown a series of undefined channels and two small islands.

Gray, Frank A.

- 1884 25.46 **Arizona and New Mexico.** [No imprint] Frank A. Gray, scale 1:3,168,000.

Ober, Frederick A.

- 1884 25.896 *Mexican resources: A guide to and through Mexico.* Boston: Estes and Lauriat, 57, 37 pp. + maps, advertisements. [See "A Guide to Mexico", a separately paginated second part of the volume. See there the railroad **MAP** facing p. 5.]

Poole Bros.

- 1884 25.1556 **Map of the Atchison Topeka & Santa Fé Railroad System. Showing its direct Connecting Lines in the United States and Mexico.** ("Rand, McNally & Co., Engravers, Chicago.")
INSET ON RECTO: *The Santa Fé route Atchison, Topeka & Santa Fé R.R. 3 lines between the Missouri River and the Pacific coast to the city of Mexico via the A.T.&S. and Mexican Central R.R.* [title from verso, *fide* Library of Congress]. ("Poole Bros., Map Eng., Chicago.")
 ▶ The "Atlantic & Pacific R.R." route is drawn generally across northern Arizona. "Grand Canon of the Colorado" is labeled clearly through the length of Grand Canyon, between "Virgin R." and "R. Colorado Chiquito", although the label "Marble Canon" appears in smaller type between the Little Colorado and "Cataract Cr." Kanab Creek is not shown. In the western Grand Canyon is a tributary (not labeled) coming from the northwest before turning southeast to meet the Colorado.

Sohr-Berghaus [Sohr, Karl, AND Berghaus, Heinrich]

- 1884 25.2047 **Vereinigte Staaten von Nord-Amerika** (4 sheets, see specifically **Vereinigte Staaten, südwest. Blatt**. ["Entw. u. gez. v. F. Handtke."]). **[In German.]**
In: Sohr-Berghaus Hand-Atlas über alle Theile der Erde. Neu bearbeitet von F. Handtke. 7. Auflage. Ausgabe in 100 Blättern. Glogau: Verlag von Carl Flemming.
 ► "Rio Colorado del Occidente" is labeled on its lower course, "Rio Colorado" on its upper course; delineated between "Meerb. v. Californien" and the confluence of "Green R." and "Grand R." Below that confluence the Colorado's course arcs southwest to south, receiving enroute "San Juan" from the east and southeast, crosses the Utah-Arizona boundary (territories not labeled), then turns due southwest, receiving enroute "Colorado Chiquito" (Little Colorado River) from the southeast and an unlabeled tributary from the southeast (Cataract Creek) that heads near "Bill Williams B." A mountain range, "Kendricks Bge" with "S. Francisco B." at its southern end, separates the Little Colorado from Cataract Creek. In an astonishing misplacement of the antiquated term of Puerto de Bucareli, the label "Bucarety" appears as a *place name* at the Cataract confluence (supplanting the so-called Yampais Village [and variants] that appeared on some maps to identify today's Supai). Additionally, at the confluence of the Little Colorado, where Puerto de Bucareli should have been labeled (if at all) is the place-name "S Bartolome". From there, the Colorado turns due westward to the confluence of the Virgin River (not labeled), arriving from the north, then arcs south to southeast to the confluence of "Bill Williams Fk.", then turns south-southwestward to the gulf, receiving the river "Gila" at "Colorado City" and "F! Yuma". In another peculiar misplacement, another stream, this one a tributary in the upper Gila basin, is also labeled "Williams Fk."

Southern Pacific Company

- 1884 25.2503 **Correct map of the Railway & Steamship Lines Operated by the Southern Pacific Company.** San Francisco: Southern Pacific Co.
 ► "Colorado Riv." is delineated between the "Gulf of California" and the confluence of Green and Grand Rivers (neither labeled!). The Colorado follows a course that is generally correct, although more stylized in the western portion that is labeled "Grand Canon" between Kanab Creek (not labeled) and the Virgin River (not labeled). The only other tributaries it receives in this area are "San Juan Riv." from the east, "Little Colorado" from the southeast, and Cataract Creek (not labeled) from the southeast. The generalized route of the Southern Pacific Railroad is boldly delineated, crossing the Colorado at "Yuma", with all of its station houses labeled. The Atchison, Topeka and Santa Fe Railway is faintly delineated (labeled elsewhere on the map "Atch. Top. & San. Fe"). Interestingly, between "Peach Spr" and the Colorado River a roadway is delineated. On the Kaibab Plateau (not labeled) two "+" symbols are labeled "Mines"; no other mines are noted on the map. "Lee's Ferry" is pinpointed. Between there and south of "Callville" in Nevada the Colorado is depicted as encanyoned.

1885**Dutton, Clarence E.**

- 1885 24.856 **[Five geological maps on 12 sheets.]**
In: Tertiary history of the Grand Cañon district : with atlas. 48th U.S. Congress, 2nd Session, House of Representatives Miscellaneous Document 35, 264 pp. [text, quarto]; Atlas, 24 sheets [folded, laid loose in three-quarter leather folder with cloth ties affixed to boards on three open edges, and spine labels affixed; quarto].

House series title-page accompanies text volume: *The Miscellaneous Documents of the House of Representatives for the Second Session of the Forty-eighth Congress, 1884-'85. In seventeen volumes. Volume 11.—No. 35. Washington: Government Printing Office. 1885.*

SPINE TITLE FOR TEXT VOLUME: [top] "HOUSE MISCELLANEOUS DOCUMENTS 2^D SESS., 48TH CONG. 1884-'85 VOL. 11"; [bottom] "DUTTON [rule] TERTIARY HISTORY OF THE GRAND CANON DISTRICT [rule] WITH ATLAS".

SPINE TITLE FOR ATLAS: [top] "HOUSE MISCELLANEOUS DOCUMENTS 2^D SESS., 48TH CONG. 1884-'85 VOL. 11"; [bottom] "ATLAS".)

- A re-release of Dutton (1882, **ITEM NO. 24.61**, which see for an itemization of the geological maps). This re-release was a part of the collated series of House Miscellaneous Documents for 1884-1885, not mentioned by Farquhar or originally in [THE GRAND CANON](#) Volume 1. Text and Atlas title-pages are the same as for Dutton (1882), retaining date, but text volume adds the House Miscellaneous Documents series title-page (1885) cited above; atlas does not include a separate House Miscellaneous Documents title-page although it is identifiable from its spine labels. Atlas Sheets differ from 1882 publication in that the double-folio sheets are vertically and horizontally folded to accommodate quarto format (vertical fold in center as in original double-folio state, then folded horizontally to achieve quarto size). Quarto format also corroborated in *Checklist of Public Documents, Second Edition* (U.S. Government Printing Office, Superintendent of Documents, 1895, **ITEM NO. 2.27756** in Volume 1/Part B of [THE GRAND CANON](#)), p. 76. *Folded* Atlas Sheets each are also stamped with a numeral on the exterior (sheet verso) corner, enumerated 0 to 23, to facilitate identification of Atlas Sheets without having to unfold them: "0" is the title-page, "1" is the "List of Atlas Sheets" (equivalent to Atlas Sheet I), followed by 2-23 (Atlas Sheets II-XXIII, comprising tinted and chromo-lithographic maps and scenic views). Atlas title-page: "Department of the Interior United States Geological Survey J.W.Powell Director Atlas to Accompany the Monograph on the Tertiary History of the Grand Cañon District by Capt. Clarence E. Dutton U.S.A. [vignette] Washington 1882 Julius Bien and Co. Lith. New York".)

Points relating to physical arrangement are provided with the assistance of Daniel F. Cassidy and Richard D. Quartaroli.

NOTE: Sets of loose Atlas sheets, not folded and not stamped with external numbers on verso, are known.

Voisin.") Scale 1:4,400,000. [In Spanish.]</p> <p>This series of maps produced as individual sheets.</p> |

► “R. Colorado” is depicted between the head of “Golfo de Cortés” and a point north of “Yuma”. The route of the Southern Pacific Railroad (not labeled except for section names) is shown.

Garollo, G.

- NO DATE 25.1691 (DIRETORE) **Stati Uniti d' America meta' [sic] Occidentale.** (“Stab. Lit. Galileo Milano”; “Casa Edit. D. Francesco Vallardi Proprieta Letteraria”; “G. Garollo dir.”) [In Italian.]
From: Porena, Filippo, L'America del nord; o America Anglo-Sassone.
In: Marinelli, G., ed altri scienziati Italiani, *La terra : trattato popolare di geografia universale.* Milano, Napoli, Roma, Torino, Palermo, Pisa, Bologna, Catania, Firenze, Genova, Padova, Cagliari, Sassari, Bari, and Pavia: Casa Editrice Dottor Francesco Vallardi, between pp. 176/177. [Ca. 1885.]
- “Colorado R.” is shown between “Golfo di California” and the confluence of “Gannison [sic] R.” and “Dolores R.” in eastern Utah; downstream of that confluence is the confluence of “Green R.” Its course through “Gr. Canon of the Colorado” shows the currently mapped course, although downstream from the confluence of the Little Colorado River (not labeled) is marked as “Marble C.” Cataract Creek is also shown (not labeled). The route of the “Atlantic Pacific R.R.” is shown; the 32nd parallel route is shown but not labeled.

Herbert, Charles E.

- 1885 25.719 **1885 mapa oficial del Estado de Sonora[,] Republica de Mexico[,] levantado y ejecutado de medidas, reconocimientos propios y de otras fuentes fidedignas. Por el Ingenero Civil C. E. Herbert.** [No imprint]. [In Spanish.]
 Map includes copyright registration notice by Herbert in Washington, D.C. The title panel includes facsimile autograph notation, “Aprobado Luis E Torres. Gobernador de Sonora Hermosillo Octubre de 1884.”
 ► “Rio Colorado” is shown between the U.S.-Mexico boundary and “Golfo de California”. Also labeled are “Delta del Rio Colorado”, “Montague” (Isla de Montague), and “Puerto Isabel”, and from there a road, “camino para Yuma”.
 Note that this is a variant of the map cited here as Herbert (1885, ITEM NO. 25.720), which has title panels in Spanish and English. This map has only the Spanish title panel; in place of the English title panel is an informational box with caption, “Algunos Datos Oficiales sobre el Estado de Sonora.” It is not determined here which state may have been published first.
- 1885 25.720 **1885 mapa oficial del Estado de Sonora[,] Republica de Mexico[,] levantado y ejecutado de medidas, reconocimientos propios y de otras fuentes fidedignas. Por el Ingenero Civil C. E. Herbert. \ Official map of the State of Sonora[,] Republic of Mexico[,] compiled from surveys, reconnoissances and other sources.—1885—by Chas. E. Herbert C.E.** [No imprint]. [Title panels in Spanish and English.]
 Map includes copyright registration notice by Herbert in Washington, D.C.] [In case with title, “Official Map of the State of Sonora, Mexico.” The Spanish-language title panel includes facsimile autograph notation, “Aprobado Luis E Torres. Gobernador de Sonora Hermosillo Octubre de 1884.”
 ► “Rio Colorado” is shown between the U.S.-Mexico boundary and “Golfo de California”. Also labeled are “Delta del Rio Colorado”, “Montague” (Isla de Montague), and “Puerto Isabel”, and from there a road, “camino para Yuma”.
 See also the variant cited here as Herbert (1885, ITEM NO. 25.719). It is not determined here which state may have been published first.

Mager, Henri

- NO DATE 25.2430 **Amerique du Nord.** *In: Atlas complet de géographie en relief dressé sous la direction de Henri Mager.* Paris: E. Bertaux, Éditeur-Géographe, map No. 26. Scale 1:40,700,000. [In French.]
 Volume cover title: *Petit atlas de géographie en relief.* [Ca. 1885.]
 ► The pages of this atlas are embossed to roughly indicate physiographic relief. "Rio Colorado" is delineated between "G. de Californie" and unlabeled headwaters that seem to depict the Green and Grand Rivers, although the Grand meets the Green too far south, nearly at the Utah-Arizona boundary. From that confluence the Colorado arcs from south to west, then turns southward at the great bend toward the gulf. No tributaries are depicted except for the Gila River (not labeled).

Porena, F. [Porena, Filippo]

- NO DATE 24.854 (DIRETORE) **Carta Geologica dell' America Settentrionale** ("Stab. Lit. Galileo Milano"; "Casa Edit. Dottor F. Vallardi Proprieta' [sic] Letteraria"; "F. Porena dir.") [In Italian.]
From: Porena, Filippo, L'America del nord; o America Anglo-Sassone.
In: Marinelli, G., ed altri scienziati Italiani, *La terra : trattato popolare di geografia universale.* Milano, Napoli, Roma, Torino, Palermo, Pisa, Bologna, Catania, Firenze, Genova, Padova, Cagliari, Sassari, Bari, and Pavia: Casa Editrice Dottor Francesco Vallardi, between pp. 28/29. [Ca. 1885.]
 ► Physiography: "F. Colorado dell Occid." is shown between "Golfo di California" and the confluence of "Green R." and an unlabeled tributary from the Rockies. The Little Colorado River and Virgin River (neither labeled) are sketched very generally. Downstream of the confluence of "Rio Gila" the Colorado bifurcates twice before reaching the gulf.
 ► Geology: Colored areas generally depict only the major eras and "vulcaniche"; Grand Canyon region mapped as "paleozoiche", lower Colorado River region principally "quaternarie" with mountainous areas "paleozoiche".

U.S. Army Corps of Engineers [Corps of Topographical Engineers]

- 1885 25.98 **Map of the Territory and Department of Arizona : commanded by Brig. Gen. George Crook, compiled and drawn by and under the direction of First. Lieut. T. A. Bingham, Corps of Engineers, U.S.A.** Office of the Chief of Engineers. Scale 1:675,840.

Vallardi, Ant.

- 1885 25.2089 **America Settentrionale 1885 Stabto. dell' Editore Ant. Vallardi Via Sta. Margherita, 9. Milano G. B. Paravia e C. Torino-Roma-Milano-Firenze.** [In Italian.]
 ► "Rio Colorado" is delineated between "Golfo di California o Mare Vermiglio o Mare di Cortez" and the confluence of "Green R." and "Bear R." The whole is rather peculiar. From that confluence the Colorado's course arcs from south to southwest, then turns south to cross the boundary between "Utah" and "Nuovo Messico", having received no tributaries in this reach. Some distance into what today is Arizona, the Colorado turns westward, at which point is the confluence of a tributary from the east. This tributary, a short distance to the east, has the place name "Oribe" (i.e. one of the Hopi pueblos) at which point is the confluence of "R. S. Gió." (San Juan River) from the east-northeast and an unlabeled river from the southeast (surely the Little Colorado River). The reach of this tributary of the Colorado, between "Oribe" and that main stream, is not labeled separately. From that confluence the Colorado arcs from west to southwest, turning south and south-southeast on the very boundary point of the New Mexico territory angle that today is southern Nevada; the Virgin River is not indicated on this map. "Rio Gila" is a tributary to the Colorado from the east. The entire region northeast of the confluence at "Oribe" aforementioned is labeled "Grande

Deserto”, an additional peculiarity given that the one-time Grand Desert label was applied to the sparingly watered western plains.

1886

Drioux, AND Leroy, Ch. (Messieurs) [Drioux, Charles, AND Leroy, Charles Joseph]

- 1886 25.2008 **Carte Physique et Politique des Etats-Unis Canada et Partie du Mexique Par M.M. Drioux et Ch. Leroy. Echelle 1:12.210.000.** (“Dessiné par A. Vilpou_ Gravé par L. Sonnet.”) (“Librairie classique d’Eugène Belin, à Paris.”) **[In French.]**
In: Atlas universel et classique de géographie : ancienne, romaine du moyen age, moderne et contemporaine a l’usage des établissements d’instruction publique. Nouvelle Edition. Paris: Librairie Classique Eugène Belin, pp. 88-89).
 ▶ “R^o Colorado” is depicted between “Golfe de Californie (Mer Vermeille)” and the confluence of “Rio. Verte (Green R.)” and “G^{de} Rivière”; enroute it receives the tributaries “Rio San Juan” from the east, “Petit Colorado” (Little Colorado River) from the southeast (and labeled “Zuñi R.” on its headwater reach (it is depicted as a single stream), “Virgin R.” from the north and northeast, “William R.” (Bill Williams River) from the east and northeast, and “Rio Gila” from the east. The Colorado, through its *entire* reach, is depicted as encanyoned, and even more so in the Grand Canyon region (not labeled).

Dutton, Clarence Edward

- 1886 25.807 *The Kaibab Division of the Grand Cañon of the Colorado River, in Yavapai County, Arizona. (On the line of the Atlantic and Pacific Railroad.)* Chicago: Rand, McNally and Co., 23 pp., **MAP.**
 Selections edited from Dutton (1882, *U.S. Geological Survey, Monograph 2* [ITEM NO. 21.918 in Volume 1/Part B of THE GRAND CANON]). Although the text is printed within quotation marks, significant editing is noticed; mostly, deleted passages are not indicated by ellipses.

García y Cubas, Antonio [García Cubas, Antonio]

- 1886 25.1299 **Baja California.** (“Atlas Mexicano por Antonio García Cubas. Carta XXVIII.”) (“Publicado por Debray Suc^o Imprenta Litográfica, México. Queda asegurada la propiedad de esta obra conforme á las leyes en la República Mexicana y en los Estados Unidos. Copyright, 1886, by S. Voisin.”) Scale 1:3,000,000. **[In Spanish.]**
 This series of maps produced as individual sheets.
 ▶ “Rio Colorado” is depicted as a meandering channel between the head of “Golfo de California” and a point some distance north of “Fuerte Yuma” at the confluence of “Rio Gila”, with a decided bend just upstream from that confluence. “I. Montegue” is shown at the mouth of the Colorado.

Mitchell, Samuel Augustus, Jr.

- 1886 25.2118 **County and township map of Arizona and New Mexico.** (“Entered according to Act of Congress in the year 188[] by S. Augustus Mitchell in the Office of the Librarian of Congress at Washington.”)
In: Mitchell’s new general atlas, containing maps of the various countries of the world, plans of cities, etc., embraced in ninety-three quarto maps, forming a series of one hundred and forty-seven maps and plans, together with valuable statistical tables. Also, a list of post-offices of the United States and territories, and also census of 1880 for states, territories and counties, also of cities of over 10,000 inhabitants. Philadelphia: William M. Bradley and Brother [1886], p. 92. (“Entered according to

Act of Congress 1883 by S. Augustus Mitchell in the office of the Librarian of Congress at Washington.")

► "Colorado River" is shown on an accurate course, delineated as encanyoned between the Utah-Arizona boundary and "Eldorado Canon" on its lower course. "Grand Canon" is labeled on the reach west of "Hurricane Ledge" and "Aubrey Cliffs"; "Marble Canon" between "Lee's Fy." and "Little Colorado River". "Cataract Creek" is shown as a tributary to the Colorado from the southeast between the confluence of "Canab Canon" [*sic*] from the north and "Aubrey Cliffs". "Parker Cr." [*sic*] is retained as a tributary to the Colorado from the south-southwest, on the east side of "Red Butte", which is itself too far to the west.

Williams, W. [Williams, Wellington]

- 1886 25.2117 **Map of the United States and Territories. Together with Canada &c.** ("Constructed and Engraved by W. Williams Philadelphia.") (Copyright by S. Augustus Mitchell 1884.)
In: Mitchell's new general atlas, containing maps of the various countries of the world, plans of cities, etc., embraced in ninety-three quarto maps, forming a series of one hundred and forty-seven maps and plans, together with valuable statistical tables. Also, a list of post-offices of the United States and territories, and also census of 1880 for states, territories and counties, also of cities of over 10,000 inhabitants.
 Philadelphia: William M. Bradley and Brother [1886], pp. 12-13. ("Entered according to Act of Congress 1883 by S. Augustus Mitchell in the office of the Librarian of Congress at Washington.")
- "R. Colorado" is shown between the head of the Gulf of California and the confluence of "Green R." "Green R." and "Grand R. are parallel to each other, their courses to the southwest to the Utah-Arizona boundary, then turning to the south, straddling "Sierra de Lanterna". "R. An Juan" is a tributary to the "Grand R." from the east; shortly below that confluence is the confluence of "Little Colorado Riv.", from the southeast. Cataract Creek and Diamond Creek (neither is labeled) are tributaries to the Colorado between the Sierra and the confluence of "Virgen R." from the north. Both the 35th and 32nd parallel railway routes are delineated but not labeled.
- NOTE:* Regarding the Sierra de la Lanterna see the [note](#) in the Introduction herein.

1887

Cram, George F.

- 1887 25.1555 **Railroad and County Map of Arizona. Geo. F. Cram, Engraver and Publisher, Chicago.**
In: Cram's unrivaled family atlas of the world. Chicago: George F. Cram.
 Note that there are numerous eds. of this atlas. The map referred to here appeared on pp. 212-213 of the 1887 ed. Other eds. have not been examined.
- Map includes some Township and Range section information, boundaries of Indian reservations, and some bare physiographic information. The Havasupai reservation is labeled, remarkably, "Yava Pai Sapa Res." Most tributaries are depicted only diagrammatically with generally undulating lines, though principal rivers and tributaries are shown more accurately. "Colorado River" is shown as encanyoned in "Grand Canon" and "Marble Canon", although the "Grand Canon" label appears only in western Grand Canyon between the confluences of "Rio Virgin" and "Kanab Creek", while the "Marble Canon" label appears between the confluences of "Kanab Creek" and "Little Colorado" (the Little Colorado River is labeled only on a headwater fork). The Colorado is not depicted as encanyoned upstream from the confluence of the Little Colorado.

Dinsmore, A. F.

- 1887 25.616 **Territory of Arizona. Scale 12 Miles to 1 inch 1887** Compiled from the official Records of the General Land Office and other sources under supervision of Geo. U. Mayo, Civil Engineer—Chief of Draughting Division G.L.O. Photo lith. & print. by Julius Bien & Co. 139 Duane St. N.Y. ("Compiled and drawn by A. F. Dinsmore".)
 ▶ Topography is illustrated. Includes county boundaries, Indian and military reservations, land grants, and 40- and 50-mile limits for railroad land grants (35th parallel only).

G. W. and C. B. Colton and Co.

- 1887 25.1564 **Map Showing the Pacific Railways and Their Branches. Prepared for the United States Pacific Railway Commission.** ("Prepared by G. W. & C. B. Colton & C^o: 182 William St. New York.") ("William Mann & Son Stationers & Printers, 88 Maiden Lane, New York.") ("Entered according to Act of Congress in the year 1887 by G. W. & C. B. Colton & Co. in the office of the Librarian of Congress, at Washington.")
 ▶ The "Atlantic & Pacific" railroad route is shown across northern Arizona. "Colorado R." is delineated as encanyoned in "Big Canon of the Colorado" in the reach west of the confluence of Diamond Creek (not delineated). The Colorado's course through the canyon is approximately correct, although the reach between Kanab Creek (not labeled) and the confluence of "Colorado Chiquito" is labeled "Mable [*sic*] Canon".

Hubbard, Gardiner G.

- 1887 25.869 The transcontinental railroads. *Science*, 10 (September 16) (241): 133-137, **MAP** between pp. 136/137.
 Notes Grand Canyon access from Peach Springs, and also, "Flagg Staff, 60 miles from Point Sublime".

Kiepert, R. [Kiepert, Richard]

- 1887 25.1757 **Stati Uniti dell' America e Messico.** ("Ulrico Hoepli, Editore Librajo [*sic*] in Milano.") [**In Italian.**]
In: Atlante geografico di 25 carte del dott. R. Kiepert con notizie geografiche e statistiche compilate dal dott.; G. Garollo. Sesta edizione completamente rifatta. Milano, Napoli, and Pisa: Ulrico Hoepli, Editore-Libraio della Real Casa, 72 pp. (pp. 63-72 are advertisements), 25 maps + [4] pp. advertisements. (Manuali Hoepli.) [This is Map 23, scale 1:36,000,000.]
 ▶ "F. Colorado" is labeled on the lower Colorado River; upstream, "F. Green (R. Verde)" is labeled but the Grand and San Juan Rivers are not labeled; "F. Colorado Chiquito" and "F. Gila" are labeled but the Virgin and Bill Williams Rivers are not. The entire Green-Colorado is depicted as encanyoned from headwater nearly to the Gila confluence. The mouth of the Colorado is depicted without any indication of islands there at the head of "Golfo di California".

Stanford, Edward

- 1887 25.2392 **North America.** ("London: Edward Stanford, 55, Charing Cross, S.W.") ("Stanford's Geographical Establishment").
In: Stanford's London atlas of universal geography exhibiting the physical and political divisions of the various countries of the world : folio edition : ninety maps, with a geographical index. London: Edward Stanford. [Map 67.]
 ▶ "Colorado River" is delineated on its proper course. "Grand Cañon" is labeled in the western part of the canyon. The label "Painted Desert" is written over the region of Arizona both north and east of the Colorado.

- 1887 25.2393 **The United States of North America.** ("London: Edward Stanford, 55, Charing Cross, S.W.")
In: Stanford's London atlas of universal geography exhibiting the physical and political divisions of the various countries of the world : folio edition : ninety maps, with a geographical index. London: Edward Stanford. [Map 73.]
 ▶ "Colorado River" is delineated on its proper course. "Grand Cañon" is labeled in the western part of the canyon, while "Marble Cañon" is labeled between the confluences of "Colorado Chiquito" and Kanab Creek (not labeled). The Kaibab Plateau is labeled "Buckskin Plateau". "Black Cañon" is labeled downstream from the confluence of "Virgin R." The route of the Atlantic & Pacific Railroad (not labeled) is delineated.

U.S. General Land Office

- 1887 25.1944 **Department of the Interior General Land Office Hon. W^m A. J. Sparks, Commissioner. Territory of Arizona. Scale 12 Miles to 1 inch. 1887. Compiled from the official Records of the General Land Office and other sources under supervision of Geo. U. Mayo, Civil Engineer- Chief of Draughting Division G.L.O.** ("Photo lith & print. by Julius Bien 139 Duane St. N.Y.") ("Compiled and drawn by A. F. Dinsmore.")
 ▶ "Colorado River" in "Grand Cañon", "Marble Cañon", and in canyons downstream from Grand Canyon, is depicted as encanyoned, as are also its tributaries in that reach. "Grand Cañon of the Colorado" is labeled in western and central Grand Canyon; "Marble Cañon" is labeled in its conventional reach upstream from "Little Colorado Riv." Route from Flagstaff to "Canon Spr." (*i.e.* Hance Ranch) is delineated. "Red Butte" is still positioned just east of "Cataract Cr." The routes of the Atlantic and Pacific, and Southern Pacific, railroads are delineated, with their 40- and 50-mile land grant limits also shown but instead of generalized curved lines they are now displayed as staggered straight-line segments.

Yaggy, L. W. [Yaggy, Levi Walter]

- 1887 24.870 **Relief Map of the United States Constructed under the Supervision of Henry Gannett Chief Geographer U.S. Vertical Exaggeration 15 inches to 1 inch horizontal Copyrighted 1887.**
In: [container label] Yaggy's geographical study : physical political geological and astronomical : Geography Published by Western Publishing House. Chicago. Copyrighted 1887.
 Three-dimensional relief map, without labeling. Grand Canyon is only roughly portrayed but with bounding plateaus.

1888

Nordhoff, Charles

- 1888 25.1759 **Peninsular California, showing the limits of the International Company.**
In: Peninsular California : some account of the climate, soil, productions, and present condition chiefly of the northern half of Lower California. New York: Harper and Brothers, 130 pp.
 Fold-out map facing p. 11.
 ▶ "Colorado R." is depicted between Yuma, Arizona, and the head of the "Gulf of California"; the New River (not labeled) is also shown. In the region immediately west of the Colorado and New Rivers in Mexico, labels appear for "gold", "tin", "alum & sulphur mines", and "saltpetre".

Rand McNally and Co.

- NO DATE 25.593 **A correct map of the United States of America, showing the Atchison, Topeka and Santa Fe R.R. and connections.** Chicago: Rand McNally and Co., Engravers, 1 sheet, scale ca. 1:8,000,000. [1888; date of "JAN 22 1888" seen stamped on Library of Congress Copyright Office deposit copy.]
- ▶ Grand Canyon is labeled as "Big canon of the Colorado Riv." The railroad line is shown passing closest to the canyon at "Hualapais Spr." (Peach Springs). "Lee's Ferry" is also denoted. The Little Colorado River is labeled "Flax Riv. or Colorado" [*sic*], shown reaching its confluence with the Colorado directly from the southeast.
- Compare also Rand McNally and Co., 1888, **ITEM NO.** 25.594.
- 1888 25.594 **The Santa Fé Route and connections : 1888.** Chicago: Rand McNally and Co., Engravers, 1 sheet.
- ▶ "Grand Canon Colorado" [*sic*] and "Marble Canon" are labeled. The railway line is shown passing closest to the canyon at "Peach Springs". Map also includes elevational profiles of four different railway lines, including "Elevations between Kansas City and San Francisco". "Grand Canon" and "Marble Canon" are marked. "Little Colorado R." is also marked.
- Compare the map by Rand McNally and Co. (no date [1888], **ITEM NO.** 25.593).

Sohr-Berghaus [Sohr, Karl, AND Berghaus, Heinrich]

- 1888 25.2048 **Vereinigte Staaten von Nord-Amerika.** ("Druck u. Verlag v. C. Flemming in Glogau.") Scale 1:12,000,000. [In German.]
- In: Sohr-Berghaus Hand-Atlas über alle Theile der Erde. Neu bearbeitet von F. Handtke. Achte vermehrte und verbesserte Auflage. Ausgabe in 100 Blättern.* Glogau: Verlag von Carl Flemming.
- ▶ The river "Colorado" is delineated between "Meerb. von Californien" and the confluence of "Green R." and "Grand River". Its course is fairly accurate throughout, receiving "Rio San Juan" from the east in Utah, "Little Colorado" from the southeast, and "Virgin R." from the northeast. In its lower course the Colorado still is shown receiving two unlabeled streams at the same point below "Ft Mohave", on either side of the river. The Bill Williams River (not labeled) is delineated, as is the river "Gila". Throughout its length, the Colorado and its various tributaries are depicted as encanyoned.

Southern Pacific Company

- 1888 25.2504 **Correct map of the Railway & Steamship Lines Operated by the Southern Pacific Company.** San Francisco: Southern Pacific Co. [Seen as a folded pamphlet with cover title, *Southern Pacific Company*, No. 47, November 1888.] ("Crocker & Co's Print. San Francisco".) ("11-5-88. 30.30.")
- ▶ The map is the same as that noted for 1884. "Colorado Riv." is delineated between the "Gulf of California" and the confluence of Green and Grand Rivers (neither labeled!). The Colorado follows a course that is generally correct, although more stylized in the western portion that is labeled "Grand Canon" between Kanab Creek (not labeled) and the Virgin River (not labeled). The only other tributaries it receives in this area are "San Juan Riv." from the east, "Little Colorado" from the southeast, and Cataract Creek (not labeled) from the southeast. The generalized route of the Southern Pacific Railroad is boldly delineated, crossing the Colorado at "Yuma", with all of its station houses labeled. The Atchison, Topeka and Santa Fe Railway is faintly delineated (labeled elsewhere on the map "Atch. Top. & San. Fe"). Interestingly, between "Peach Spr" and the Colorado River a roadway is delineated. On the Kaibab Plateau (not labeled) two "+" symbols are labeled "Mines"; no other

mines are noted on the map. "Lee's Ferry" is pinpointed. Between there and south of "Callville" in Nevada the Colorado is depicted as encanyoned.

1889

Anonymous

- 1889 25.749 *Die Erde in Karten und Bildern.* Wien, Pest, and Leipzig: A. Hartleben's Verlag, 494 pp., 63 maps; *Handatlas* (folio). ("Unter Mitwirkung hervorragender Fachmänner herausgegeben von der Verlagshandlung.") (Foreword by Amand Frieherr von Schweiger-Lerchenfeld.) [In German.]
 See in part 5, "Amerika", remarks on "Das 'Cañonland' des Colorado" (pp. 301-302); illustration of Grand Canyon (p. 303); and **MAP** 49.

Matthews, Northrup and Co.

- 1889 25.1663 **Map of the Nashville, Chattanooga and St. Louis Ry. And connections.** ("Copyright, 1889, by W. L. Danley, Gen'l Pass'r Ag't N., C. & St. L. R'y, Nashville, Tenn.") (Matthews, Northrup & Co., Art-Printing Works, Buffalo, N. Y.)
 ▶ "Colorado River" is depicted as a broad waterway between the head of "Gulf of California" and the confluence of "Green R." and "Grand R.", upstream from which the rivers are shown by solid lines. "Grand Canon" is labeled between the confluences of "Virgin R." and "Kanab R." "Marble Canon" is labeled between the confluences of "Kanab R." and "Little Colorado R." Through this entire reach the river is depicted as encanyoned. The reach between the Little Colorado and "Lees Ferry" is not labeled, nor displayed as encanyoned. North of the southwest-to-northend bend of the Colorado that receives Diamond Creek from the south (not marked on this map), the area is labeled "Lost Basin". The "Atlantic & Pacific" and "Southern Pacific" railroads are delineated generally across the Southwest.

Pennsylvania Railroad

- 1889 25.1660 **Map of the Pennsylvania Railroad and its Connections.** [No imprint.]
 ▶ Blue-line print depicting scattered place names and railroad routes, with bare indications of topography. The 35th parallel "Atlantic & Pacific R.R." and 32nd parallel "Southern Pacific R.R." are depicted generally across Arizona and California. "Colorado River" is depicted generally, though along an accurate course. Between "Lee's Ferry" and downstream from "The Needles" at "Aubrey", the river is displayed as being encanyoned. "Grand Canon" is labeled between "Lit. Colorado Riv." and Virgin River (not labeled).
 Library of Congress catalog record lists "Patterson, S. C." as contributor to this map and indicates it is a Copyright Office copy from 1889.

U.S. Post Office Department

- 1889 25.1924 **Post Route Map of the States of California and Nevada with Adjacent Parts of Oregon, Idaho, Utah, Arizona and the Republic of Mexico. Showing post offices with the intermediate distances and mail routes in operaton on the 1st of June 1889. Published by order of Post Master General John Wanamaker under the direction of C. Roeser Jr. Topographer P.O. Dep^t**
 Copy seen is marked, "The Service on this Diagram brought up to Date of Aug. 1st 1889." [date handwritten]
 ▶ In the area of interest to this Cartobibliography, "Atlantic and Pacific R. R." and "Southern Pacific R. R." are delineated. A mail route departs northward from Kingman, Arizona, to "Mineral Park" (Arizona) and (in Nevada) "Eldorado Canyon", "Rioville", and "Saint Thomas", where two routes continue up the "Virgin River" and

"Muddy River", respectively. Another mail route is depicted between "Needles" (California) and "Mohave City" (Arizona). Yuma, on the Southern Pacific rail line, has labeled nearby, "Fort Yuma (n.o.)", which the key omits but apparently indicates "no office".

1890

Beasley, T. D. [Beasley, Thomas Dykes]

- 1890 25.1553 **Official Map of San Diego County[,] California Compiled from latest official maps of U.S. surveys, Railroad and Irrigation surveys, County Records, and other reliable sources, and Drawn by T. D. Beasley Under supervision of Jas. D. Schuyler C.E. 1889.** ("Copyright 1890, by T. D. Beasley.")

► This map is based upon the older county boundaries. "Colorado River" is shown, after having passed through "Yuma City", continuing some distance southwestward before passing off the map. No geographical details are shown south of the international border. The map comprises chiefly the arrangement of Township and Range sections.

Cardona, S. Adalberto de

- 1890 25.1834 **Map of the Mexican Central Railway and Connections.** ("Eng'd by American Bank Note Co., New York.") [Maps are in English; volume is in Spanish.]

In: De México á Nueva York : guia para el viajero en que se describen las principales ciudades de México y los Estados Unidos del Norte. San Francisco: Imprenta de H. S. Crocker y Cia., pp. [2]-[3] of a [4]-p. insert between pp. 8/9.

► "Gulf of California" separates "Lower California" from "Mexico". "Colorado R." is depicted between the head of the gulf and "Green R.", where a confluence of a short river (not labeled) reaching there from the south may depict a poorly drafted Grand River. Only the states of California, Arizona, and New Mexico have their boundaries drawn; the remainder of the U.S. simply labeled "United States". Tributaries to the Colorado (none labeled) are the San Juan River (above "Lee's Ferry"), the Little Colorado River, and Gila River. Short, poorly depicted tributaries are obviously Kanab Creek, Grand Wash, Virgin and Muddy Rivers, and Las Vegas Wash.

- 1890 25.2175 **The Santa Fé Route and Connections. 1889.** ("Rand, McNally & Co., Engr's. Chicago.") [Maps are in English; the remainder of volume is in Spanish.]

In: De México á Nueva York : guia para el viajero en que se describen las principales ciudades de México y los Estados Unidos del Norte. San Francisco: Imprenta de H. S. Crocker y Cia., pp. [2]-[3] of a [4]-p. insert between pp. 72/73.

► "Gulf of California" separates "Lower California" from "Mexico". "Colorado River" is depicted between the head of the gulf and the confluence of "Green River" and (not labeled) Grand River. The reach of the Colorado through "Grand Canon" and "Marble Canon" is depicted as encanyoned. Tributaries to the Colorado include "San Juan R.", Little Colorado River (not labeled), and Gila River (not labeled). The Virgin River (not labeled) is curiously depicted, implying that what on other contemporary maps is the Sevier River in western Utah, flowing directly to the Colorado past "Overton", Nevada. The route of the "Atlantic & Pacific R. R." across northern Arizona is depicted.

- 1890 25.2176 **[Untitled map depicting the Southern Pacific railroad and connections.]** ("Poole Bro's. Chicago.") [Maps are in English; the remainder of volume is in Spanish.]

In: De México á Nueva York : guia para el viajero en que se describen las principales ciudades de México y los Estados Unidos del Norte. San Francisco: Imprenta de H. S. Crocker y Cia., pp. [2]-[3] of a [4]-p. insert between pp. 256/257.

► "Gulf of California" separates "Lower California" from "Mexico". "Colorado R." is depicted between the head of the gulf and the confluence of the Green and Grand Rivers (neither labeled). The only tributary to the Colorado that is shown is the San Juan River (not labeled).

Goff, Eugenia A. Wheeler

- 1890 25.2355 **Goff's Historical Maps of the United States. No. 1. Discoveries and Explorations.** Chicago: A. H. Andrews and Co.
- Map of all of North and Central America with routes of exploration delineated, including: "G. of California—Discovered by Cortez, 1536", "Alarcon 1541" (*sic*, which follows the eastern side of the gulf, thence up the Colorado as far as today's boundary with Nevada), "Coronado 1540-2" (which route inexplicably splits in northern Sonora, one branch following routes to the Great Plains, the other branch passing up the lower Colorado River, thence eastward to "Moqui Towns", the latter route which likely conflates Francisco Garcés's travels in 1776, but which note that the finely drawn line that the heavier, colored overprinted line continues eastward to Taos), and "Escalantes 1776" [*sic*], which route leaves Santa Fe but ends with an arrow pointing south in the westernmost Grand Canyon region.

Johnston, Alexander Keith [Johnston, Keith]

- 1890 25.1378 **United States of North America (Western States) by Keith Johnston, F.R.S.E.** ("Engraved, Printed and Published by W. & A. K. Johnston, Edinburgh & London.")
Caption: "Keith Johnston's General Atlas".) Scale 1:6,047,811, 95 miles to an inch.
- Within the area of interest to this Cartobibliography, this ed. of the map is (amazingly) effectively unchanged from the 1875 ed. (ITEM NO. 25.1377), with the exception that the 35th and 32nd parallel railroads are delineated, the inclusion of "Mineral Park" as a place name in northwestern Arizona, the label "Grand Cañon" appears on the "Rio Colorado" in the western part of the canyon, the label "Marble Cañon" on the Colorado between "Rio Colorado Chiquito" and "Kanab Cr." (and "Cataract Cañon" in Utah upstream from "Rio San Juan"); else all is the same including the retention of the peculiar "Parke Cr.", and the absence of Diamond Creek even though "Pariah" has been added downstream from the still-misplaced El Vado de los Padres—all in all, a most peculiar map for its "antedated" updates on a base map long out of date.

King, Harry

- 1890 24.871 **United States. Compiled under the direction of Henry Gannett, Chief Topographer by Harry King, Chief Draughtsman. 1890.** U.S. Geological Survey. ("Engraved by Julius Bien & C^o New York.") Scale 1:2,500,000. ("Contour lines are drawn at the following elevations above Sea level 100, 500, 1000, 1500 (except in the Colorado Basin and the Great Basin) 2000 and thence upward at each 1000 feet.")
- Various credits are given. Grand Canyon is not labeled but the boundaries of "Hualpai Ind Res." and "Suppai Ind. Res." are delineated, as is also the route of the Atlantic & Pacific Railroad (not labeled).

Matthews, Northrup and Co.

- 1890 25.1559 **1890 Matthews, Northrup & Co's Official Railroad Map of the United States, Dominion of Canada and Mexico Perfected to Date from Latest Authentic Sources.** Engraved and Printed by Matthews, Northrup & Co. Buffalo, & New York.

► Colorado River" is depicted as encanyoned through "Grand Cañon" between a point downstream from "Virgin River" and the Arizona-Utah boundary. Although the confluence of "Little Colorado R." is correctly shown, its northwesterly course is somewhat generalized.

1891

Henze, Adolf

- 1891 25.2074 **Henze's Erd-Globus im Verhältniss wie 1/12,000,000 zur natürlichen Grösse.** Neustadt-Leipzig: Adolf Henze. 24 gores for a 106-cm globe. See "Section 17" ("Gratis-Beilage zum „Illustrierten Anzeiger für Contor und Bureau.“") ("Ausgeführt in Henze's karto-typographischen Anstalt Neustadt-Leipzig.") [In German.]
- The river "Colorado" is shown between "Golf v. Kalifornien" and the confluence of "Green R." and "Grand R.", following an accurately known course; enroute it receives the tributaries "R. San Juan", Little Colorado River (not labeled), Virgin River (not labeled), and "Rio Gila", the confluence of the last at "Arizona City (Yuma)". The area of the Arizona Strip and to the east of the Colorado there is labeled "Painted Desert".

**Ireland, William, Jr.**

- 1891 11.5900 **Preliminary mineralogical and geological map of the State of California.** California State Mining Bureau, scale 1 inch = 12 miles. (Drawn by J. C. Kenkenius.)

W. and A. K. Johnston [firm]

- 1891 25.2424 **General Map of North America Constructed from the Best Authorities, and Embodying the Results of All Explorations to the Present Time. By W. & A. K. Johnston, Geographers to the Queen. Edinburgh and London. 1891.** ("Engraved & Printed by W. & A. K. Johnston, Edinburgh & London".) Scale 1:7,160,000.)
- "Rio Colorado" is delineated between the "Gulf of California" and confluence of "Green R." and "Grand R." Downstream from that confluence the Colorado follows a southwest course through "Cataract Cañon", receiving "Curtis Cr." from the northwest, an unlabeled tributary from the northwest, "Rio San Juan" from the east, arcs from southwest to south through "Marble Cañon", receiving "Little Colorado R." from the southeast, then turns westerly through "Grand Cañon" to the confluence of "Virgin R." before tuning southward to the gulf.

1892

Berghaus, Hermann

- 1892 25.786 **Höhen und Tiefen.** ("Berghaus' Physikal. Atlas N^o 1.") [In German.]
In: Atlas der Geologie (Berghaus' Physikalischer Atlas, Abtheilung I). 15 kolorierte Karten in Kupferstich mit 150 Darstellungen. Unter beratender Mitwirkung von Prof. Dr. K. v. Zittel; bearbeitet von Dr. Hermann Berghaus Gotha: Justus Perthes.
- Plate is a world map that labels "Colorado" and "Gila", with the Colorado entering the head of "Botes M." Adjacent to the river confluence is the label "Colorado Wüste".

Hovey, H. C. [Hovey, Horace Carter]

- 1892 25.1849 On the rim and in the depths of the Grand Canyon. *Scientific American*, 67(6) (August 6): 87-89.
 See **MAP**, p. 88, **Map of the Grand Cañon Region of the Colorado River, in Arizona.** ("American Bank Note Co. New York") ("42917".)
 ► Usually, maps within periodicals are not cited in this Cartobibliography, but this is cited for its interesting historical inclusions. The entire Grand Canyon region is displayed, with the route of the "Atlantic and Pacific Rail Road" running across the bottom of the map. Wagon routes and trails are marked: from Flagstaff, "Stage Route" follows around the eastern side of the "San Francisco Peaks" and reaches "Hance's" on the eastern end of the South Rim of Grand Canyon; and "Moqui Trail" departs from this route to cross "Little Colorado", at which point "Mormon Road" leaves for "Lee's Ferry" (with "Navajo Trail" also reaching the ferry, north of "Marble Cañon", although no trail is shown on the western side of the river. From "Williams" a road leaves northward to the canyon, dividing into "Rowe's Route" that reaches the canyon opposite "Bright Angel Cr.", and "Bass' Route" that parallels "Cataract Creek" and is shown going all the way to its confluence with the Colorado. At "Peach Springs" a road is shown heading north-northeastward to the Colorado; even though Diamond Creek is depicted arriving from the east and east-northeast it is not labeled.

John W. Iliff and Co.

- 1892 25.874 **Territory of Arizona.**
In: The American republic : discovery—settlement—wars—independence—constitution—dissension—secession—peace. 1492—400 years—1892. Official maps in colors of every state and territory in the union, showing all railroads, post offices, etc., etc. Also historical and geographical description of each state and territory, with Declaration of Independence, Constitution of the United States, general government of the United States, and grand panorama main buildings, World's Columbian Exposition. Also a complete indexed list of towns and counties in the United States with the population of each according to the 1890 official census. Chicago: John W. Iliff and Co., p. 73.

Migeon, J.

- 1892 25.2057 **États-Unis.** ("Gravé par Smith".) ("Dressé sous la direction de J. Migeon par Ch. Lacoste.") ("Migeon, éditeur; imp. n. r. du Moulin Vert. Paris.") ("Écrit par A Bixet".)
[In French.]
In: Martineau, A. (text), Nouvel atlas illustré géographie universelle comprenant la géographie, l'histoire, l'administration, la statistique, etc. scientifique, industriel et commercial dressé, dessiné et gravé par MM. Desbuissons, Lorsignol, Lacoste, Fillatreau, Lecocq, Smith, Bizet, Fontaine, Barbier, Soudain, etc. Paris: Direction et Administration. [Map no. 56.]
 ► "Colorado de l'Ouest" is depicted between "Golfe de Californie" and the confluence of "Green R." and "Grand River"; enroute it receives the tributaries "R. San Juan" from the east, "P^t Colorado" (*Petite Colorado*, Little Colorado River) from the southeast, an unlabeled tributary from the southeast (Cataract Creek), "Virgin R." from the northeast, an unlabeled tributary from the east and north (Bill Williams River), and "R. Gila" from the east at "Arizona City (Yuma)" and "F^t Yuma". The Colorado south through to "La Paz", and its tributaries, are depicted as encanyoned. The label "G^d Canon", appears on the western end of the Grand Canyon. The entire region north of and east of the Grand Canyon in northern Arizona is labeled "Painled [sic] Désert". The routes of the 35th and 32nd parallel railways are roughly delineated.

Rand, McNally and Co.

- 1892 25.1552 **Rand, McNally & Co.'s Map of the Untied States Showing, In Six Degrees, the Density of Population, 1890.**
In: Indexed atlas of the world. Chicago: Rand, McNally and Co.
 ► "Colorado River" is shown as encanyoned in "Grand Canon of the Colorado". What is Marble Canyon is labeled as "Middle Canon".

Southern Pacific Company

- 1892 25.2505 **Correct map of the Railway & Steamship Lines Operated by the Southern Pacific Company.** San Francisco: Southern Pacific Co. [Map with border promotional texts.]
 ► The map is the same as that noted for 1884. "Colorado Riv." is delineated between the "Gulf of California" and the confluence of Green and Grand Rivers (neither labeled!). The Colorado follows a course that is generally correct, although more stylized in the western portion that is labeled "Grand Canon" between Kanab Creek (not labeled) and the Virgin River (not labeled). The only other tributaries it receives in this area are "San Juan Riv." from the east, "Little Colorado" from the southeast, and Cataract Creek (not labeled) from the southeast. The generalized route of the Southern Pacific Railroad is boldly delineated, crossing the Colorado at "Yuma", with all of it station houses labeled. The Atchison, Topeka and Santa Fe Railway is faintly delineated (labeled elsewhere on the map "Atch. Top. & San. Fe"). Interestingly, between "Peach Spr" and the Colorado River a roadway is delineated. On the Kaibab Plateau (not labeled) two "+" symbols are labeled "Mines"; no other mines are noted on the map. "Lee's Ferry" is pinpointed. Between there and south of "Callville" in Nevada the Colorado is depicted as encanyoned.

Sweetser, M. F.

- 1892 25.931 *King's handbook of the United States. Planned and edited by Moses King.* Buffalo, New York: Moses King Corporation, 939 pp.
 See **MAPS**, pp. 8, 462.

U.S. General Land Office

- 1892 25.1945 **Department of the Interior General Land Office Hon. Thomas H. Carter, Commissioner. Territory of Arizona. 1892. Compiled from the official Records of the General Land Office and other sources under supervision of A. F. Dinsmore, Principal Draughtsman G.L.O.** ("Photo lith & print. by Julius Bien 139 Duane St. N.Y.") ("Compiled and drawn by A. F. Dinsmore." "Traced and lettered by M. Hendges.")
 ► Topography is displayed by generalized shaded relief. "Grand Cañon of the Colorado" is labeled in western and central Grand Canyon; "Marble Cañon" is labeled in its conventional reach upstream from "Little Colorado Riv." "Red Butte" is still positioned just east of "Cataract Cr." The routes of the Atlantic and Pacific, and Southern Pacific, railroads are delineated.

1893

Colorado River Irrigation Company

- 1893 25.340 **Map of the Colorado Desert, Sonora Mesa, and Delta of the Rio Colorado. 1893.** [No imprint], 1 sheet. ("Drawn by J. Hart, 680 Communipaw Ave. Jersey City N.J.") Copyright Colorado River Irrigation Company.)
 ► Boundaries are delineated for "Irrigable Land" in the Salton Sink area of California and Baja California, and for "Land of the Colorado River Irrigation Company"

in Sonora. "Rio Colorado" is shown with numerous channels, along with "Hardy's Colorado", throughout the delta, including the significant "L. de las Pasualitas". The Colorado is delineated as far north as "Eureka Cañon". "New River" and "East River" are delineated in Baja California and California. The "Colorado Canal" is delineated from "Potholes" on the Colorado in California into Baja California northeast of "Alamo Mocho", from whence it divides into the "East Branch" and "West Branch" of the Colorado Canal that continues back into California on either side of "Salton Sink". Topographic contours are shown only in the Salton Sink area. Mountainous regions are shown by generalized shaded relief. Township and Ranch quadrangles are also shown.

Ferguson, Orlando

- 1893 25.1585 **Map of the Square and Stationary Earth. By Prof. Orland Ferguson, Hot Springs, South Dakota. Four Hundred Passages in the Bible that Condemn the Globe Theory, or the Flying Earth, and None Sustain It. This Map is the Bible Map of the World. copyright by Orlando Ferguson, 1893.** ("Louis H. Everts & Co.—Litho. Phila.")

The projection is such that the entire earth is presented with a northern hemisphere sitting in a saucer that envelopes the southern hemisphere, the whole of which is positioned on a plane. Even at this scale the features noted are shown.

► This most unusual projection displays a single river (not labeled) reaching "Gulf of California" from headwaters between Salt Lake City and Denver. Its course passes generally through mountains before turning south to the gulf.

Nordenskiöld, Gustaf

- 1893 25.894 *The cliff dwellers of the Mesa Verde, southwestern Colorado : their pottery and implements.* (D. Lloyd Morgan, translator.) Stockholm and Chicago: P. A. Norstedt & Söner, 174+ pp., plates. ("Stockholm 1893; Royal Printing Office".)

Pagination: frontispiece (portrait), [i-vi], 1-174 with Plates I-XVI interleaved, Plates XVII-LI, i-iv [index]; Appendix, [ii], i-xi, Plates I-X; **MAP**.

The **MAP** (1 leaf), scale 1:3,700,000, includes central and eastern "Grand Cañon", although "Painted Desert" embraces the North Rim, crossing the Kaibab Plateau. Map also depicts roads and Indian reservations.

Volume is an English translation of Nordenskiöld (1893, **ITEM NO.** 2.23190 in Volume 1/Part B of **THE GRAND CANON**).

Pasha, Ali Seref [پاشا شرف علی] [Hafiz Ali Esref]

- 1893 25.2080 (ED.) **Amerika-yi şimali = North America. 1309 (1893). Tabie ve Nnashiri Hasan Ferid. (to accompany) Yeni cografya atlası - أطلسی جغرافیا نگی = New geographical atlas. Dersa'adet (Istanbul), 1307-1309 (1891-1893)** [orthography employs the Ottoman Arabic abjad, map title not reproduced here]. [In Turkish.]

In: Yeni cografya atlası - أطلسی جغرافیا نگی = New geographical atlas. Saheb va nashir Hasan Ferid. Matba'a-i 'Amire = عامره مطبعه, Dersa'adet (Istanbul), 1307-1309 (1891-1893).

All data from the David Rumsey Map Collection,

https://www.davidrumsey.com/luna/servlet/view/search;JSESSIONID=9f851637-b7c9-4c68-b05e-6650ede6dc74?q=pub_list_no%3d%2213621.000%22

► The Colorado River (labeled) is sketched very generally, though along a recognizably accurate course, with (in the region of interest to this Cartobibliography)

the tributaries San Juan River, Little Colorado River, Virgin River, and Gila River. The boundaries between Arizona, Nevada, and California, are a bit off.

Pennsylvania Railroad

- 1893 25.1661 **General Map of the Pennsylvania Railroad and its Connections.** ("Allen, Lane & Scott, Engravers.") [No imprint.]
 Date from Library of Congress catalog record.
 ▶ "Colorado R.," "Colorado River" is depicted between the head of "Gulf of California" and the confluence of "Green R." and "Grand R." "Grand Canon" is labeled between "Little Colorado" and "Rio Virgin". "Colorado Plateau" is labeled south of the canyon. An interesting, late-date depiction of a south-trending river paralleling the lower Colorado River to its west shows a course from headwaters at the Nevada-California boundary to a dry lake west of Parker, Arizona. It is reminiscent of the supposed "river of the sulfurous pyramids" displayed on earlier maps (see also [remarks](#) on the "river of the sulfurous pyramids" in the Notes for Section 2).

Rand, McNally and Co.

- 1893 25.909 *Rand, McNally and Co.'s new pocket atlas : containing colored county maps of all states and territories in the United States, and the provinces of the Dominion of Canada, together with descriptive, statistical, and historical matter pertaining to each, and indexed lists of their counties, giving area and population : also colored skeleton maps of the continents, showing all the countries of the world, accompanied by statistical matter regarding the countries and their principal cities.* Chicago and New York: Rand, McNally and Co., 173 pp.
 See "Arizona", pp. 134-135; also refer to **MAPS** of California, p. 137, and Nevada, p. 140.
- 1893 25.1659 **Rand, Mc.Nally & Co's Official Railroad Map of the United States with portions of the Dominion of Canada[,] the Republic of Mexico and the West Indies[.] Compiled from Government Surveys, and Official Tracings and Operating Time Tables of all Railroads.** ("Rand, McNally & Co., Engravers, Printers, and Publishers, Chicago and New York.") ("Approximate Scale: 36 Miles to 1 Inch.") ("Rand, McNally & Co.'s Railroad Map of the United States. Copyright, 1893, by Rand, McNally & Co.")
 ▶ Very detailed map on four large sheets, with physiography displayed by noticeably heavy hachuring, which interferes with some map labels. "Colorado River" is depicted between the head of the "Gulf of California" and the confluence of "Green River" and "Grand River". The river is depicted between the gulf and the confluence of the Bill Williams River (not labeled except for "Santa Maria R." on its upper course) is shown by a widely drawn waterway, upstream from which it is shown only as a solid line. "Grand Canon & Colorado River" and "Grand Canon" are labeled between the confluence of "Little Colorado Riv.r" [*sic*] and "Grand Wash"/"Grand Wash Cliff"/"Grand Wash Cliffs Cottonwood" [*sic*] (where also is labeled "Peirce Ferry"). "Marble Canon" is labeled between the Little Colorado and "Lees Ferry". The course of the Colorado through Grand and Marble Canyons (and "Black Canon" downstream) is very heavily hachured, rendering the river channel rather hard to discern. Other labeled tributaries in the Grand Canyon region are "Kanab Canon", "Cataract Cr.", and "Virgin River". "Kaibab Plateau" is labeled, with "De Monte Park" [*sic*]. Numerous other physiographic features are labeled in the region. The "Hualapai Indian Reservation" is delimited, but there is no indication of Diamond Creek on this map, though the rail section house "Peach Spr." is present. The 35th parallel "Atlantic & Pacific" and 32nd parallel "Southern Pacific" railroad routes are depicted.
- 1893 25.2244 **Rand McNally and Co's General Map of the United States With Portions of the Dominion of Canada and the Republic of Mexico. Compiled from the most reliable Sources and**

Engraved by Rand, McNally & Co., Map Engravers and Publishers, 162-172 Adams St., Chicago.

This map seen as reproduced in: *Historical atlas of the United States. By Rufus Blanchard* (with cover title) *Blanchard's historical atlas of the United States Map of Europe and the world, E. T. C.* [sic] with notes [various imprints and dates, 1890s]. This map sheet has appended at its bottom, "Diagram of United States History." (a chronological presentation in text). The other maps in Blanchard are not pertinent to this Cartobibliography.

► "Grand Canon" is delineated as encanyoned between "Lees Ferry" and the Arizona-Nevada boundary. The "Hualapai Indian Reservation" boundary is delineated, but no other federal reserves are marked on this map. The route of the "Atlantic & Pacific" is shown, with towns and section houses labeled. Of note is the high point labeled, "Shivas Temple", which appears at the south end of "Kaibab Plateau".

Yaggy, L. W. [Yaggy, Levi Walter]

- 1893 24.869 **Topography of the United States of America.**
In: Yaggy's geographical portfolio. Chicago: C. F. Rassweiler and Co. ("Patent applied for & copyrighted by L. W. Yaggy 1893.")
 Chromolithographed relief map of the U.S., without labeling. Grand Canyon is reasonably portrayed for the scale.

Zilliacus, Konni

- 1893 25.956 *Amerikas Förenta Stater.* New York: G. A. Grönlunds Boktryckeri, 973+ pp. *[In Swedish.]*
 See "Arizona", pp. 423-430, 915; **MAP**, p. 951.

1894

H. V. and H. W. Poor [firm]

- 1894 25.1761 **Railroad Map of the United States—Section 14. Utah, Colorado, Arizona and New Mexico.** ("Eng'd by American Bank Note Co. New York")
In: Manual of the railroads of the United States for 1894. Twenty seventh annual number. New York: H. V. and H. W. Poor; London: Effingham Wilson; New York: American Banknote Company.
 Cover title: **Poor's Manual—1894. American Bank Note Co. No. 86 Trinity Place, New York, Engravers and Printers.**
 Two maps depict variant styles as of this date.
 ► "Colorado R." is depicted rather generally between the head of the Gulf of California (not labeled) and the confluence of "Grand River" and "Green River" (although the labels are erroneously switched). Tributaries received en route are "San Juan Riv" from the northeast and east-southeast (what might be the Paria River [not labeled] is shown reaching the Colorado from the northwest just north of the San Juan confluence), an unlabeled small tributary from the east reaching the Colorado just south of the Utah-Arizona boundary, "Little Colorado Riv." from the east-southeast and southeast, Cataract Creek (not labeled) from the south and southeast, Kanab Creek (not labeled) from the north-northeast, an unlabeled tributary from the northeast, "Virgin River" from the northwest and northeast, Bill Williams River (not labeled) from the east and north, and "Gila River" from the east-northeast". The course of the Colorado through the "Grand Canon" resembles the imaginative course partly reminiscent of that shown by Egloffstein and Ives. The route of the "Atl. & Pac." railroad is depicted generally, as is also the "Sou. Pac." railroad.

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 1894 25.2191 **Atchison, Topeka and Santa Fé Railroad System.**
In: Manual of the railroads of the United States for 1894. Twenty seventh annual number. New York: H. V. and H. W. Poor; London: Effingham Wilson; New York: American Banknote Company.
 Cover title: **Poor's Manual—1894. American Bank Note Co. No. 86 Trinity Place, New York, Engravers and Printers.**
 Two maps depict variant styles as of this date.
 ► "Colorado R." is depicted between the head of "Gulf of California" and the confluence of Green and Grand Rivers (neither is labeled). The only tributaries received en route are the Little Colorado and Gila Rivers (neither is labeled). The Colorado's course through the Grand Canyon region is generalized but approximates the true course. The route of the "Atl. & Pac. R. R." is shown generally.

Hooper and Berner

- 1894 25.53 **Hooper and Berner's indexed township and county map of Arizona.** San Francisco: Britton and Rey, scale ca. 1:984,000.

Rand McNally and Co.

- 1894 25.2294 **[Map of Arizona.]**
In: Rand McNally & Co.'s business atlas and shippers' guide Chicago: Rand, McNally & Co., p. 300.
 ► "Grand Canon of the Colorado", with Marble Canon" upstream and "Black Canon" downstream, are delineated as encanyoned, as also are some tributaries. The route of the "Atlantic & Pacific R.R." is delineated.

1895

Anestis Kostantinidis Publisher [Ανεστη Κωνσταντινιδου Εκδοτησ] [firm]

- 1895 25.2085 **ΒΟΡΕΙΣ ΑΜΕΡΙΚΗ** [Βορεισ Αμερικη] [Voreis Ameriki] [North America] ("Ανεστησ Κωσταντινιδησ Εκδοτησ" [Anestis Konstantinides Publisher]. Scale 1:40,000,000. *[In Greek.]*
In: ΝΕΩΤΑΤΟΣ ΓΕΩΓΡΑΦΙΚΟΣ ΑΤΛΑΣ ΠΡΟΣ ΧΡΗΣΙΝ ΤΩΝ ΓΥΜΝΑΣΙΩΝ, ΕΛΛ. ΣΧΟΛΕΙΩΝ ΚΑΙ ΠΑΡΘΕΝΑΓΩΓΕΙΩΝ [Νεωτατος Γεωγραφικος Ατλασ Προς Χρησιν Των Γυμνασιων, Ελλ. Σχολειων και Παρθεναγωγειων] [Neotatos Geografikos Atlas Pros Chrisin Ton Gymnasion, Ell. Scholeion kai Parthenagogeion] [New Geographical Atlas for the Use of Gymnasiums, Greek Schools and Preschools]. Αθηναισ: Ανεστη Κωνσταντινιδου [Athens: Anesti Konstantinidou].
 ► "Π. Κολοράδος" (Ρ[otámi] Kolorado) (Colorado River) is delineated cursorily between "Κόλπ. της Καλιφόρνιας" (Κόλπ. tis Kalifórnias) (Gulf of California) and headwaters, receiving tributaries (not labeled) from the east-southeast (San Juan River) and southeast (Little Colorado River, with its confluence essentially on the Utah-Arizona boundary). "Ριο Ηίλας" (Rio Hila) (Gila River) is a tributary from the east (with the town of "Πρεσκότη" [Prescott] positioned along it[!]). (The boundaries of the states and territories are a bit off, with Utah-Colorado too far west such that the Four Corners does not occur.

Petermann, A.

- 1895 25.2361 **West-Indien, Central-Amerika bis zum Südlichen Canada (4 Blätter) im Maasstab v. 1:7.500.000 entworfen v. A. Petermann, gezeichnet v. H. Habenicht.** *[In German, with mixed labeling.]*

See Blätter 1. ("Steiler's Hand-Atlas, No. 79.") ("Bearbeitet v. H. Habenicht. Neu bearbeitet v. Dr. R. Lüddecke 1888 & 1889. Ausg. 1894.") ("Gotha: Justus Perthes.")

In: Adolf Steiler's Hand Atlas über alle Theile der Erde und über das Weltgebäude : 95 Karten. Gotha: Justus Perthes. [The newest map in this volume is dated 1895.

► Relief depicted throughout by hachures, with the "Colorado" encanyoned through "Grand Cañon of the Colorado", "Marble C.", and "Glen Cañon". The region north of the canyon and crossing over to the east of the Colorado is labeled "Painted Desert". The route of the Atlantic & Pacific Railroad (not labeled) is delimited.

1896

Gannett, Henry

1896 24.376 (COMPILER) **United States contour map.** [Washington, D.C.]: U.S. Geological Survey, 1 sheet. ("Edition of Dec. 1896. reprinted Sept. 1899.") [Scale 1 inch = approximately 115 miles. Contour interval 1000 feet, 500-foot supplementary contours.]

U.S. General Land Office

1896 25.1946 **Department of the Interior, General Land Office, Hon. Silas W. Lamoreux, Commissioner. Territory of Arizona. 1896. Compiled from the official Records of the General Land Office and other sources under supervision of Harry King, C. E., Chief of Draughting Division G.L.O.** ("Lettered by M. Hendges and R. M. Towson.") ("The Norris Petes Co. Photo-Litho., Washington, D. C.")

► Topography is displayed by shaded relief. "Grand Canon [*sic*] of the Colorado" is labeled in western and central Grand Canyon; "Marble Canyon" [*sic*] is labeled in its conventional reach upstream from "Little Colorado Riv". "Grand Canyon Forest Reserve Ex. Order Feb. 20, 1893" is delimited. "Red Butte" is still positioned just east of "Cataract Cr." The routes of the Atlantic and Pacific, and Southern Pacific, railroads are delineated.

U.S. Geological Survey

1896 24.377 **United States relief map.** [Washington, D.C.]: U.S. Geological Survey, 1 sheet. Base map is Henry Gannett (compiler), *United States contour map* (ITEM NO. 24.376). Scale 1 inch = approximately 115 miles. Contour interval 1000 feet with 500-foot supplementary contours.

1897

Smith, Benjamin E.

1897 25.262 **Arizona and New Mexico.**

In: Smith, Benjamin E. (preparer), The Century atlas of the world. New York: The Century Co. [This is Map 55.]

► "Grand Cañon of the Colorado" is depicted as encanyoned between the Little Colorado River confluence and Grand Wash Cliffs. Includes postal routes; "Talfree" [*sic*, Tolfree] at Grand Canyon.

1898

Gray, C. P. [Gray, Charles P.]

- 1898 25.1551 **Gray's New Trunk Railway Map of the United States[,] Dom. of Canada and portion of Mexico. Compiled from Latest Official Sources, showing carefully selected list of Cities & Towns in readable type for quick reference. Published by C. P. Gray 89 Fulton St. New York.** ("Robert A. Welcke Photo-Lith. 178 William St. N.Y.") ("Copyrighted 1898 by C. P. Gray N.Y.")

The Library of Congress Office of Register of Copyrights stamp on the LOC copy of this map is dated January 7, 1899.

► The "Atchison Topeka & Santa Fe" route is shown across northern Arizona. On "Colorado River", "Grand Canon" is figured as encanyoned. Of note is a dashed line that depicts a road connection between "Flagstaff" and "Hances" [*sic*]. The spot position of the John Hance ranch locale is shown at the area now known as Desert View, and in fact displays as in the canyon. This may be in part due to Santa Fe advertising, since also by Flagstaff are noted "Cave Dwellings" and "Cliff Dwellings"; no other such notes are shown.

Noriega, Eduardo

- 1898 25.895 *Geografía de la República Mexicana.* México: Librería de la V^{da} de Ch. Bouret, 543 pp. + advertisements. [In Spanish.]
Colorado River delta region, see pp. 132-133, and plate, "El Río Colorado" (p. 131). Includes **MAP** on p. 133.

1899

Atchison, Topeka and Santa Fe Railway System

- 1899 25.1550 **The Atchison, Topeka and Santa Fe Railway System. 1899.** ("Eng'd by American Bank Note Company, New York.")
► Main routes are highlighted in red; spurs in black. The "Santa Fe Pacific R. R." main route is shown crossing northern Arizona, passing closest to "Grand Canon of the Colorado" at "Peach Sprs." A spur line is shown between Kingman and Chloride. The Grand Canyon, and "Marble Canon", are depicted as encanyoned.

Cram, George F.

- 1899 25.2452 **Map of the United States of America Chicago, Ills.**
In: Cram's standard American railway system atlas of the world. Accompanied with a complete and simple index of the United States showing the true location of all railroads, towns, villages and post offices. New York and Chicago: Geo. F. Cram, pp. 508/509.

Volume cover title: *Cram's standard American railway system atlas 1899.*

A broad gap between "America" and "Chicago" in the map title seems to indicate that some text was deleted from an earlier edition.

► "Colorado River" is sketched generally; the reaches between the confluence of the Green and Grand Rivers to just below the confluence of "Virgin R." are depicted as encanyoned, as also are the lower reaches of "San Juan R." and "Little Colorado R." The label "Grand Canon" is written such that it spans the Grand Canyon and the canyons of southeastern Utah.

- 1899 25.2453 **Arizona.** *In: Cram's standard American railway system atlas of the world. Accompanied with a complete and simple index of the United States showing the true*

location of all railroads, towns, villages and post offices. New York and Chicago: Geo. F. Cram, pp. 364/365.

Volume cover title: *Cram's standard American railway system atlas 1899.*

► "Colorado River" is delineated with a broad width with a broad river-flow-like artwork rather than a single line. Between the confluences of the Little Colorado River (not labeled) and "Rio Virgin" the river is depicted as encanyoned. The label "Grand Canon" is shown only in western Grand Canyon, between Parashant Canyon (not labeled) and "Grand Wash". The label "Marble Canon" is written between the confluences of the Little Colorado and "Kanab Creek"; "Coconino Forest" is written along the canyon rim opposite. Boundaries are indicated for "Hualpai Indian Res." and "Yava Pai-Sapa Res." (Havasupai Indian Reservation). The routes of the "Santa Fe Pacific" and "Southern Pacific" railways are delineated.

Ellis, Edward S.

- 1899 25.809 *The national history of the United States : from the landing of the Norsemen to the present time. Volume V.* Cleveland, Ohio: Lamson and Carpenter, pp. 1537-1920.
Grand Canyon (as a barrier in communication between northernmost Arizona and the territorial capital), p. 1824. A new system of boundaries for states and territories is proposed, with **MAP**, pp. 1824-1827.

Fernández Leal, Manuel

- 1899 25.2354 **Carta General de la República Mexicana Formada en la Secretaría de Fomento, con mejoramiento de datos, por disposición del Secretario del Ramo Ingeniero Manuel Fernández Leal 1899.** ("Imp. Monrocq, 3, Rue Sugar_Paris.") 1 sheet. Scale 1:2,000,000. [In Spanish.]
► The Colorado River delta area simplistically depicts the estuary with two broadened rivers (not labeled) contributing to it (which are the Rio Colorado and Rio Hardy. Confusingly, it seems that the area between these two rivers displays highlands.

U.S. General Land Office

- 1899 25.1947 **Department of the Interior General Land Office Hon. Binger Hermann, Commissioner. Territory of Arizona. Compiled from the official Records of the General Land Office and other sources under the direction of Harry King, C. E., Chief of Draughting Division G.L.O. 1899.** ("The Friedenwald Co. Photo-Lith. Balto.") [1900?]
► Topography is displayed by generalized shaded relief. "Grand Canon [*sic*] of the Colorado" is labeled in western and central Grand Canyon; "Marble Canyon" [*sic*] is labeled in its conventional reach upstream from "Little Colorado Riv". Adjacent to Marble Canyon on the east is labeled, "Addition to the Navajo Ind. Res. Ex. order Jan. 8, 1900 [*sic*]. "Grand Canyon Forest Reserve Ex. Order Feb. 20, 1893" is delimited. "Red Butte" is still positioned just east of "Cataract Cr." The routes of the Atlantic and Pacific, and Southern Pacific, railroads are delineated.

1900

"The Times"

- 1900 25.1990 **The United States (General Map).**
In: "The Times" atlas (new edition). London: The Office of "The Times", pp. 99-100.
► "Gr. Colorado Cañon" and "Marble Cañon" are labeled. Cataract Creek and Kanab Creek (neither labeled) are shown.

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 1900 25.2192 **The United States, South-Western and Mexico, North.**
In: "The Times" atlas (new edition). London: The Office of "The Times", pp. 103-104.
 ► "Grand Cañon of the Colorado" and "Marble Cañon" are labeled. "Cataract Cr." and "Kanab Wash" are labeled, and while the Colorado's course through Grand Canyon is correctly shown, several streams on the south side east of Cataract Creek and west of "Little Colorado R." are depicted as tributaries of the Colorado heading near "S. Francisco M^{ts}", an inexplicable carryover from older maps.

1901

Cram, George F.

- 1901 25.2454 **Map of the United States of America.**
In: Cram's standard American railway system atlas of the world. Accompanied with a complete and simple index of the United States showing the true location of all railroads, towns, villages and post offices. Chicago and New York: Geo. F. Cram, pp. 518/519.
 ► This is the same map as which appears in the 1899 ed. (ITEM NO. 25.2453): Colorado River" is sketched generally; the reaches between the confluence of the Green and Grand Rivers to just below the confluence of "Virgin R." are depicted as encanyoned, as also are the lower reaches of "San Juan R." and "Little Colorado R." The label "Grand Canon" is written such that it spans the Grand Canyon and the canyons of southeastern Utah.
- 1901 25.2455 **Arizona.**
In: Cram's standard American railway system atlas of the world. Accompanied with a complete and simple index of the United States showing the true location of all railroads, towns, villages and post offices. Chicago and New York: Geo. F. Cram, pp. 370/371.
 ► "Colorado River" is delineated with a broad width with a broad river-flow-like artwork rather than a single line. Between the confluences of the Little Colorado River (not labeled) and "Rio Virgin" the river is depicted as encanyoned. The label "Grand Canon" is shown only in western Grand Canyon, between Parashant Canyon (not labeled) and "Grand Wash". The label "Marble Canon" is written between the confluences of the Little Colorado and "Kanab Creek"; "Coconino Forest" is written along the canyon rim opposite. Boundaries are indicated for "Hualpai Indian Res." and "Yava Pai-Sapa Res." (Havasupai Indian Reservation). In this edition, in the Virgin River area, "Pierces Ferry", "Greggs Ferry", and "Bonnellis Ferry" are denoted. The routes of the "Santa Fe Pacific" (now with the "San. Fe & Grand Canyon" branch line between Williams and the Grand Canyon rim, with two section houses en route ["Coconino" and "Tourist"], though the village of Grand Canyon is not depicted) and "Southern Pacific" railways are delineated. From Kingman, a branch line of the Santa Fe is shown to "White Hills".

National Publishing Company

- 1901 25.1581 **The United States of America Including All Its Newly Acquired Territory Published by The National Publishing Company.** *Boston, Mass.* ("Copyright, 1901, by the National Publishing Company, Boston, Mass.")
 ► Fairly detailed map. "Colorado R." is shown as encanyoned through "Marble Canyon", "Grand Canyon of the Colorado", "Virgin Canyon", "Boulder Canyon", and "Black Canyon". "Santa Fe Pacific" rail route is shown across northern Arizona, with spur "S. F. & G. C." between "Williams" and "Anita" and another spur from "Anita Jc"

to "Grand Canyon". "Grand Canyon Forest Res." is delineated. "Sou. Pac." rail route is shown across southern Arizona.

U.S. General Land Office

- 1901 25.1948 **Department of the Interior General Land Office Hon. Binger Hermann, Commissioner. Territory of Arizona. Compiled from the official Records of the General Land Office and other sources under the direction of Harry King, C. E., Chief of Draughting Division G.L.O. 1901.** ("The Friedenwald Co. Photo-Lith. Balto.")
- ▶ Topography is displayed by generalized shaded relief. "Grand Canon [*sic*] of the Colorado" is labeled in western and central Grand Canyon; "Marble Canyon" [*sic*] is labeled in its conventional reach upstream from "Little Colorado Riv". "Grand Canyon Forest Reserve Ex. Order Feb. 20, 1893" is delimited. The routes of the Atlantic and Pacific, and Southern Pacific, railroads are delineated; and "S.F. and Grand Canyon R. R." between Williams and Grand Canyon is added; but "Red Butte" is still positioned just east of "Cataract Cr." and to the west of the new rail line.

1902

Bailey, Gilbert Ellis, AND Aubury, Lewis E.

- 1902 11.9765 **Relief Map of California By N. F. Drake, Department of Geology, Leland Stanford Jr. University. Accompanying Bulletin 24, The Saline Deposits of California, issued by the State Mining Bureau, Ferry Building, San Francisco. Lewis E. Aubury, State Mineralogist.**
- In:* The saline deposits of California. *California State Mining Bureau, Bulletin 24*, 216 pp.

Bicknell, P. C. [Bicknell, Pierpont Constable]

- NO DATE 25.789 **Guide book of the Grand Canyon of Arizona : with the only correct maps in print : a volume of interesting facts and gossip by P. C. Bicknell.** [No imprint] (printed by Press of G. Rice and Sons, Los Angeles), 97 pp., **MAP. [1902.]**
- Cover title: *Guide Book of the Grand Canyon.*
- Copies with stamp added to title-page: "Fred Harvey, Publisher, Kansas City, Mo. Copyright by Geo. U. Young".
- Data from U.S. Copyright Office indicate Library of Congress No. 2—17241, and: "Copyright by Geo. U. Young and P. C. Bicknell, United States. Class A, XXc, no. 16043, Sept. 3, 1901 [*i.e.* copyright registration filed]; 1 copy rec'd May 31, 1902; 1 copy rec'd June 9, 1902 [*i.e.*, dates when requirement of the deposit of two copies of the publication were satisfied]" (U.S. Library of Congress, Copyright Office, *Catalogue of Title Entries of Books and Other Articles*, (577) (3rd Quarter 1902) (July 24): 389).

Haardtov, V. pl. [Haardt, Vinzenz von]

- 1902 25.2389 **Amerika (Politični pregled.)** ("Atlas za ljudske šole št. 12.") ("Ed. Hölzlov zemljep. zavod na Dunaju.") ("Založil Ed. Hölzel na Dunaju.") Scale 1:50,000,000. **[In Slovenian.]**
- In:* Haardtov, V. pl., *Zemljepisni Atlas : ljudske šole s slovenskim učnim jezikom priredil Prof. Fr. Orožen.* Dunaj: Ed. Hölzel.
- ▶ The river "Kolorado" is shown as a single stream from headwater that is the Green River (not labeled) to the head of "Kaliforniski zal." The only tributary shown is the Gila River (not labeled).

[Kino, Eusebio Francisco]

- 1902 25.1284 **Mapa de la California su Golfo y Provincias fronteras en el continente de Nueva España.**
[In Spanish.]
In: Hernández, Fortunato, *Las razas indigenas de Sonora y la guerra del Yaqui*. México: Talleres de la Casa Editorial "J. de Elizalde", between pp. [vi]/[viii].
 Without credit, map reproduces the Kino (1701/1705) map after Venegas (1759, **ITEM NO.** 25.1127). It reproduces the cartouche, "Al Rey N.S. la Provincia de la Compañia de JHS de Nueva españa lo S. D.y C 1757."

New England Railway Publishing Co.

- 1902 25.2119 **The ABC Pathfinder Trailway Guide Map. Western Section. Issued by the New England Railway Publishing Company 67 Federal St., Boston, Mass.**
 ► The "Santa Fe Route" is delimited, with every station and section house labeled. This map is of significance in that it includes the branch line to "Grand Canyon", completed in 1901, including its section houses Red Lake, Prado, Valle, Willaha, Anitas Jc., and Coconino. The "Sou. Pac." railroad is likewise delimited, through Yuma.

Price, William W.

- 1902 25.906 *Three hundred miles on the Colorado River : an account of a hunting, camping and exploring trip by the boys of Agassiz Hall.* Alta, California: Agassiz Hall, 36 pp., **MAP**. (Western Adventures, No. 1, March 1902.) (Carruth and Carruth, Printers, Chicago.)
 Needles to Yuma.
 Regarding authorship: Footnote to Vernon L. Kellogg's "Introduction", p. [1], is signed "W. W. P."; Kellogg notes "Mr. Price", p. 7. Authorship, William W. Price, on the authority of catalogue records.

1903**O'Hare, Daniel**

- 1903 25.1695 **Territory of Arizona. Compiled from the official Records of the General Land Office and other sources under the direction of Frank Bond Chief of Drafting Division G.L.O. 1903 Scale: 1 Inch = 22 Miles.** ("Compiled and Drawn by Daniel O'Hare." "Andrew B. Graham Photolith Washington, D.C.")
 ► Topography is illustrated. Includes county boundaries, and Indian and military reservations. In Grand Canyon region, boundaries of Grand Canyon Forest Reserve and Walapai Indian Reserve are shown.

U.S. General Land Office

- 1903 25.1949 **Department of the Interior General Land Office William A. Richards, Commissioner. Territory of Arizona. Compiled from the official Records of the General Land Office and other sources under the direction of Frank Bond Chief of Drafting Division G.L.O. 1903. Scale: 1 Inch-22 Miles.** ("Compiled and Drawn by Daniel O'Hare.") ("Andrew B. Graham, Photo-Litho Washington, D C.")
 ► Topography is displayed by generalized shaded relief. "Grand Canyon of the Colorado" is labeled in central and eastern Grand Canyon; "Marble Canyon" is labeled in its conventional reach upstream from "Little Colorado River". "Grand Canyon Forest Reserve" is delimited. The routes of the "Santa Fe Pacific Ry." and "Southern Pacific Ry." are delineated; as is also the "Santa Fe, Grand Canyon Ry." between Williams

and Grand Canyon, now with the short spur to Anita (not labeled). "Red Butte" is now positioned in its proper location.

Yuzhkova, S. N.

- 1903 25.955 (ED.) *Большая энциклопедия. Первый Том.* [*Bolshaya entsiklopediya. Pervyy Tom, A-Arbrosh.*] [Great encyclopedia. Volume 1.] St. Petersburg [Russia]: Tipografiya Tovarishchestva "Prosvishchenie", 800 pp. + advertisements. [In Russian.]
See "Америка" [Amerika], pp. 490-511; specifically, **MAP** between pp. 490/491, and note *in passing* of "Большой Каньон" [Bolshoi Kanyon (**Grand Canyon**)], p. 495.

1904

Dellenbaugh, Frederick S.

- 1904 25.801 (TEXT ED.) *The Grand Cañon of Arizona : through the stereoscope : the Underwood Patent Map System combined with eighteen original stereoscopic photographs.* New York, London, Ottawa (Kansas), Toronto, San Francisco, and Bombay: Underwood and Underwood, 64 pp. with 2 **MAPS** (map 2 is fold-out).

This separately bound text accompanies a boxed set of 18 stereoscopic views (see Underwood and Underwood in Part 26/Appendix 2 of **THE GRAND CANON**; **ITEM NOS.** 26.641, 26.980). Its fold-out **MAP** of Grand Canyon delimits with overprinting the direction and breadth of view for each stereoview. Dellenbaugh not credited in this 1st ed.

Box variants noted: boxes with gilt lettering or silver stamping. Text booklet either clothbound or with wraps.

NOTE: Thus far one dust jacket has been seen with a clothbound text, but which may have been custom-made, thus dust jackets for clothbound texts are not likely a publisher's production (*vide* Dan Cassidy, Five Quail Books.) [Later eds. printed without date (see Dellenbaugh, no date, **ITEM NO.** 2.26910 in Volume 1/Part B of **THE GRAND CANON**).

NOTE: In addition to the difference in places of publication, this ed. differs from the later undated [1906-1908] ed. in the following points: 1) in later ed. the title-page adds credit to Dellenbaugh; 2) chapter title, p. 11, lacks *virgullilla* over "N" ("HOW THE CANON CAME TO BE"); 3) p. 31, last two lines rewritten (in 1904 ed. as ". . . of the Indians will hospitably show you the way to a point where you can get a . . .", in later ed. as ". . . Indian will show you the way to the point marked 1 on Map 1, where you get a . . .")

France. Dépôt des Cartes et Plans de la Marine

- 1904 25.1923 **Côte Ouest d'Amérique. Partie Nord de la Basse Californie et du Golfe de Californie, d'après les derniers levés des Etats-Unis. Dépôt des Cartes et Plans de la Marine. 1879.** ("Edition de Juillet 1904".) ("Gravé par Millian." "Écrit par Vialard." "3720.") [In French.]

Principally a bathymetric map of the coastlines. A notice on the map, signed "A. Bouquet de la Grye, *Ing^r. Hyd^{ph}e^m*", reads in part: "Les Sondes sont exprimées en Mètres et reduites au niveau des basses mers moyennes; il est fait une exception pour les sondes de l'entrée du Colorado, qui sont réduites au niveau des plus basses mers." (*transl.* 'Soundings are expressed in meters and reduced to mean low tide level; an exception is made for soundings at the entrance to the Colorado, which are reduced to the level of the lowest tides.')

► Soundings include portions of the channels on either side of "I. Montague". "Rivière Colorado" with its intricate meanderings and some channels are depicted from the mouth to the confluence of "Rivière Gila".

NOTE: Map no. 3720 in 1879 seems to have begun its title, "Côtes du Mexique . . ."; not seen but notice of it seen in a contemporary publication.

Herbert, Charles E.

- 1904 25.722 **1884 1904 mapa oficial del Estado de Sonora[,] Republica de Mexico[,] levantado y ejecutado de medidas, reconocimientos propios y de otras fuentes fidedignas. Por el Ingenero Civil C. E. Herbert. **
New revised official map of the State of Sonora[,] Republic of Mexico[,] 1884-1904[,] compiled from surveys, reconnoissances and other sources by Chas. E. Herbert C.E.
 Nogales, Arizona Territory: Sonora News Company. (Moss Engraving Co., New York.)
[Title panels in Spanish and English.]
 A colored map effectively a facsimile reprinting of the map by Herbert (1885, ITEM NO. 25.720). The Colorado River delta area is unchanged from that map.

1905**Imperial Land Company**

- NO DATE 25.1100 **Map of the Colorado Delta showing the Imperial canal system constructed and owned by the California Development Company : Imperial Land Company Gen. Agents.** Los Angeles: Imperial Land Company. **[Ca. 1905.]**

Stieler, Adolf

- 1905 25.166 **Stieler's Hand-Atlas : 100 karten in kupferstich mit 162 nebenkar ten, hrsg. von Justus Perthes' geographischer anstalt in Gotha.** Gotha: J. Perthes, 237 pp., 100 double maps.
[In German.] [Numerous other editions.]

1906**Akisato, Yamane**

- 1906 25.1984 **[Bankoku chin chizu chiri tokeihyo.] New Atlas & Geography Table.** [Shobido]: Nakamura. **[In Japanese.]**
 Data for this citation were obtained from examining the catalog record and copy in the David Rumsey collection,
https://www.davidrumsey.com/luna/servlet/view/search?q=pub_list_no%3d%229820.000%22&qvq=lc:RUMSEY%7E8%7E1&mi=0 (accessed 17 February 2023). Title on cover given in English and Japanese; back cover gives publisher's information in Roman orthography ("Nakamura") and place (Shobido) in Japanese (Japanese orthography not available to this cartobibliography; transliterations are from the David Rumsey record). Date of publication given in this record as "Meiji 39 (1906)".
 ► The **map of North America** (labeled in Japanese) is generalized, principally displaying political units. In the area pertinent to this Cartobibliography, only the Colorado River is labeled and is sketched in very generally, with headwaters on the Grand River, omitting(!) the Green River; tributaries (likewise not labeled) are the San Juan, Little Colorado, Virgin, and Gila Rivers. In the Grand Canyon area the Colorado is shown passing between hachures that roughly delineate tablelands. The 35th- and 32nd-parallel railroads are delineated very generally.

Andree, Richard

- 1906 25.2022 **Nordamerika. [In German.]**
In: Andrees Allgemeiner Handatlas in 139 Haupt- und 161 Nebenkarten nebst vollständigem alphabetischem Namenverzeichnis. Fünfte, völlig neubearbeitete und vermehrte Auflage. Jubiläumsausgabe. Herausgegeben von A. Scobel. Bielefeld and Leipzig: Verlag von Velhagen und Klasing, pp. 181-182). Scale 1:10,000,000.
 ► The river "Colorado" is delineated between "Golf von Californien" and the confluence of "Green R." and "Grand R."; enroute it receives among the labeled tributaries "Fremont R." from the northwest, "Escalante R." from the northwest, "S. Juan R." from the east, "Paria R." from the northwest, "Lit. Colorado" from the southeast, "Virgin R." from the north and northeast, and "Rio Gila" from the east; principal unlabeled tributaries are Cataract Creek from the south-southeast and Bill Williams River from the east and north. The Grand Canyon is labeled "Gr. Colorado Cañon"; "Marble Can" is labeled between the Paria and Little Colorado Rivers.

Bacon, G. W.

- 1906 25.2425 **Bacon's New Chart of the World Mercator's Projection by G. W. Bacon F.R.G.S.**
 ("Copyright G. W. Bacon & Co., Ltd., Royal London Buildings, Deansgate, Manchester.") ("Price 21/-")
 ► The course of "Colorado" is display rudimentarily through encanyoned reaches of which the only one labeled is "Grd. Canon".

Dellenbaugh, Frederick S.

- NO DATE 25.800 (TEXT ED.) *The Grand Cañon of Arizona : through the stereoscope : the Underwood Patent Map System combined with eighteen original stereoscopic photographs : Explanatory Notes edited by F. S. Dellenbaugh[,] author of The Romance of the Colorado River, North Americans of Yesterday, etc.* New York and London: Underwood and Underwood, 64 pp. with 2 **MAPS** (map 2 is fold-out). ("527" noted on title-page; "Printed in the United States" on title-page verso.) [1906-1908.]
 This is a later ed.; 1st ed. 1904 (see Dellenbaugh, **ITEM NO.** 2.2316 in Volume 1/Part B of [THE GRAND CANON](#)).
 This separately bound text accompanies a boxed set of 18 stereoscopic views (see Underwood and Underwood in Part 26/Appendix 2 of [THE GRAND CANON](#); **ITEM NOS.** 26.641, 26.980). Its fold-out **MAP** of Grand Canyon delimits with overprinting the direction and breadth of view for each stereoview. Box variants noted: boxes with gilt lettering or silver stamping. Text booklet either clothbound or with wraps. Clothbound cover stamping: *Grand Canyon of Arizona : through the stereoscope : Underwood & Underwood.*
NOTE: Thus far one dust jacket has been seen with a clothbound text, but which may have been custom-made, thus dust jackets for clothbound texts are not likely a publisher's production (*fide* Dan Cassidy, Five Quail Books).
NOTE: In addition to the difference in places of publication, this ed. differs from the 1904 ed. in the following points: 1) title-page adds credit to Dellenbaugh; 2) chapter title, p. 11, adds *virgulilla* to "N" ("HOW THE CAÑON CAME TO BE"); 3) p. 31, last two lines rewritten (in 1904 ed. as ". . . of the Indians will hospitably show you the way to a point where you can get a . . .", in this later ed. as ". . . Indian will show you the way to the point marked 1 on Map 1, where you get a . . .")

James, George Wharton

- 1906 25.873 *The wonders of the Colorado Desert (southern California) : its rivers and its mountains, its canyons and its springs, its life and its history, pictured and described : including an account of a recent journey made down the overflow of the Colorado River to the mysterious Salton Sea.* (Sketches by Carl Eytel.) Boston: Little, Brown,

and Co., 2 volumes; Volume I pp. i-xliv, 1-270, 16 plates, fold-out **MAP** tipped in between pp. 2/3; Volume II pp. 271-547 + [2] pp. advertisements, 17 plates, table on different paper tipped in between pp. 502/503 with meteorological data for Indio and Salton, California. ("Published December, 1906". Copyright 1906, Edith E. Farnsworth.)

L. L. Poates Engraving Co. of New York

- 1906 25.1852 **Map of Arizona, engraved by the L. L. Poates Engraving Co. of New York especially for The American Bank Reporter. Copyright, 1906, by Steurer Publishing Co., New York Banking towns are in gothic type.**
- In: The American Bank Reporter. February-March, 1907.* New York: Steurer Publishing Co., between pp. 8/9. [The serial is produced semi-annually. Other issues have not been examined.]
- ▶ The base map is peculiar, in that the encanyoned "Colorado River" is shown along its correct course through the Grand Canyon region while tributaries reflect a much older source. "Marble Cañon" is labeled between "Lees Ferry" and downstream of the "Little Colorado River" confluence; "Grand Cañon" is labeled between the "Kanab R." confluence and "Virgin River" confluence. "Grand Wash" is peculiarly shown as a disjointed system of streams, not reaching the Colorado River. Diamond Creek (not labeled) is depicted reaching the Colorado from due east. Cataract Creek (not labeled) is shown prominently, but three additional streams (not labeled) are shown reaching the Colorado generally from the south. The Paria River is not shown, but there are two tributaries that reach the Colorado from the east in the Lees Ferry area. (The San Juan River, not labeled, is also depicted on the map.) "Red Butte" is shown *southwest* of "Grand Canyon" village. The "Atchison Topeka & Santa Fe" railroad is shown crossing Arizona, with the "Grand Canyon" spur between Williams and Grand Canyon passing to the east of Red Butte and twice crossing one of the unlabeled tributaries. Another rail spur is shown from a point west of Kingman to Mineral Park and Chloride. The "Southern Pacific" railroad is also delineated. Another rail line, "(Building) Arizona & California", is shown between Parker on the Colorado River and rail lines reaching Prescott from the north and south.

Matthes, François E.

- 1906 24.133 **Bright Angel, Ariz.** U.S. Geological Survey, 1 sheet.
[Illustrated herein in [Figure 44](#) (p. 594) and detail, [Figure 44a](#).]
1:48,000-scale topographic map of Bright Angel quadrangle, Arizona.
Text on verso by L. F. Noble: *The Grand Canyon of the Colorado River*.
Reprinted 1932, 1947.
Specially cited for the unusual addition of verso text. This quadrangle has seen steady use in introductory geology classes. See also in Section 4A of this Cartobibliography the guide to [1:48,000-scale quadrangles](#) that were a part of the 1903-1904 topographical survey of the eastern Grand Canyon region.
See also the 1962 ed., on which is indicated: "Topography by photogrammetric methods from aerial photographs taken 1954 and 1960. Field checked 1962." It retains the verso text.
See also the geological maps by [Maxson](#) (1961-1969), which uses the Matthes map as a base and also includes a verso text.

U.S. Geological Survey

- 1906 11.734 **Reconnaissance map of the Salton Sink, California : E. M. Douglas, Geographer, R. B. Marshall, in charge of section, W. Carvel Hall, topographer : Adjoining areas from maps of the U.S. Geological Survey and other official and private sources.** U.S. Geological Survey, 1 sheet. Scale 1:500,000, contour interval 50 feet. ("Elevations and topography in Mexico are approximate".) (N3130-W11430/2.2°×1.8°.)

Includes lower Colorado River area to head of Gulf of California. Also includes "abandoned" route of Southern Pacific Railroad that had been inundated by Salton Sea.

Reprinted 1908, 1921, 1928, 1942.

NOTE: Perhaps this is the so-called "Salton Sink Special", but which map with that title has thus far not been identified for this Cartobibliography.

1907

Clason Map Company

- 1907 25.2413 **Map of Nevada and Southern California 1907 The Clayson Map Company Publishers of Advertising and Reference Maps Denver, Colorado.** ("Copyrighted 1907 by Geo. S. Clason, Denver, Colorado.") ("The Denver Lith Co. Denver, Colo.") ("Price \$5⁰⁰".)
 ► Some topography, railways, and roads are sketched in on the otherwise blank portion of the adjacent Arizona. In the great bend of the Colorado River are labeled "Virgin Canyon", "Boulder Can.", and "Black Canon", where the Black Mountains are labeled "Colorado Range". Also denoted are roadways crossing the Colorado at "Scanlon Ferry", and "Rioville" at the mouth of the Virgin River. "Old Callville" is also denoted.

Colby, Frank Moore, AND Sandeman, George

- 1908 25.607 **Grand Canyon National Monument within Grand Canyon National Forest, Arizona. 1907.** U.S. Forest Service, 1 sheet. ("Diagram forming a part of proclamation dated January 11, 1908.")
 Displays township and range grid for the national forest and monument.

U.S. General Land Office

- 1908 25.1951 **Department of the Interior General Land Office Fred Dennett, Commissioner. Territory of Arizona. Compiled from the official Records of the General Land Office and other sources under the direction of I. P. Berthrong Chief of Drafting Division G.L.O. 1909.** ("Compiled and Drawn by Daniel O'Hare.") ("The Norris Peters Co., Photo-Litho., Washington, D. C.")
 ► Topography is displayed by generalized shaded relief. "Grand Canyon of the Colorado" is labeled in central and eastern Grand Canyon; "Marble Canyon" is labeled in its conventional reach upstream from "Little Colorado River". Now added to the map are "Grand Canyon National Monument", "Grand Canyon Nat'l. Game Preserve", "Kaibab National Forest", a unit of the "Coconino National Forest", and two units of "Dixie National Forest" (the western unit borders the Colorado River north of the confluence of Diamond Creek, encompassing "Mt Dellenbaugh", and the smaller eastern unit touches upon the Colorado River just west of the foot of "Toroweap Valley" and encompasses "Mt Trumbull", "Mt Logan", and "Mt Emma"). The routes of the "Santa Fe Pacific Ry." and "Southern Pacific Ry." are delineated; as is also the "Santa Fe, Grand Canyon Ry." between Williams and Grand Canyon, with the short spur to Anita (not labeled).

1909**Dellenbaugh, Frederick S.**

- 1909 25.802 *The romance of the Colorado River : the story of its discovery in 1540, with an account of the later explorations, and with special reference to the voyages of Powell through the line of the great canyons.* New York: G. P. Putnam's Sons (The Knickerbocker Press), 401 pp.
NOTE: Five Quail Books Catalogue 16 (2000), no. 58B, indicates for one copy: "This copy dated 1909 has a photo of the Powell Memorial by the Kolb Brothers. The Memorial was built in 1915 [*sic*, 1918]. Another distinct difference is the lack of a pictorial cover." Includes three fold-out **MAPS** that do not appear in earlier eds.

U.S. General Land Office

- 1909 25.1952 **Department of the Interior General Land Office Fred Dennett, Commissioner. Territory of Arizona. Compiled from the official Records of the General Land Office and other sources under the direction of I. P. Berthrong Chief of Drafting Division G.L.O. 1909.** ("Compiled and Drawn by Daniel O'Hare.") ("The Norris Peters Co., Photo-Litho., Washington, D. C.")
 ► Topography is displayed by generalized shaded relief. "Grand Canyon of the Colorado" is labeled in central and eastern Grand Canyon; "Marble Canyon" is labeled in its conventional reach upstream from "Little Colorado River". Delineated are the boundaries of "Grand Canyon National Monument", "Grand Canyon Nat'l. Game Preserve", "Kaibab National Forest", a unit of the "Coconino National Forest", and two units of "Dixie National Forest" (the western unit borders the Colorado River north of the confluence of Diamond Creek, encompassing "Mt Dellenbaugh", and the smaller

eastern unit touches upon the Colorado River just west of the foot of "Toroweap Valley" and encompasses "Mt Trumbull", "Mt Logan", and "Mt Emma"). The routes of the "Santa Fe Pacific Ry." and "Southern Pacific Ry." are delineated; as is also the "Santa Fe, Grand Canyon Ry." between Williams and Grand Canyon, with the short spur to Anita (not labeled).

1910

Anonymous

- 1910 25.750 Map of St. George line. *In*: Railroad News [SECTION]. *Deseret News*, (July 11): 6 [issue pagination].
M. T. Burgess presented map of surveys for rail line leaving the Salt Lake Route at Thermo going to St. George and Grand Canyon. A Kingman branch is also projected via St. Thomas. (*Map not shown in paper.*)

George Philip and Son [firm]

- 1910 25.2432 **(United States, N^oII (Western Division) The Pacific States, the Territories and a Portion of the North-Western States.** ("George Philip & Son, L^{td}") ("The London Geographical Institute.")
In: *Philips' general atlas of the world : a series of new and authentic maps. Engraved from original drawings compiled from the latest surveys and the works of eminent travellers and explorers.* [London]: George Philip & Son, Ltd.; London: The London Geographical Institute; Liverpool: Philip, Son & Nephew.
► This map is based on that of Bartholomew (*ca.* 1873, **ITEM NO.** 25.2399), including most of the title block but eliminating Bartholomew's name, with updates but with some astonishingly outdated features, most notably the label "Big Canon" at the westernmost part of Grand Canyon (which is otherwise not labeled). The course of "Rio Colorado" is essentially correct, although it passes by "Buckskin Plateau" on the east and "Swamp Pl." (Sanup Plateau, surely) on the west. "Painted Desert" is labeled across the entire Arizona Strip; and tributaries on the south side of the canyon display antique geography. On the lower Colorado the label for "Explorers R.^k", which originated with the Egloffstein map of 1861, is retained.

Molina, Olegario

- 1910 25.2306 **Carta General de la Republica Mexicana Formada en la Secretaria de Fomento por Disposicion del Secretario del Ramo. Lic. Olegario Molina. 1910. [In Spanish.]**
► The Rio Colorado delta area (no river is labeled in this area) depicts the Colorado's final reach to the head of "Golfo de California", although the head of the gulf is awkwardly portrayed as a northwest-trending estuary with two forks at its head (north of the island, "Montague") with a peculiarly drawn channel connecting the points of the two forks, between the Colorado and Rio Hardy. Some roads are depicted in Baja California, as also is that portion of the railway of the U.S. and Mexico that passes through Baja between "Yuma" and "Mexicala" [*sic*].

The Scarborough Company

- 1910 25.2397 **Scarborough's Map of the World North America and South America Shewing Countries and their Colonies Principal Transportation Lines etc. Published by The Scarborough Company, London, Eng. Principal Offices, London, 8, Arundel Street, Strand, W. C. Indianapolis, Boston, U. S. A.** ("Printed by The Scarborough Company, Boston, Mass., U.S.A.") ("Copyright, 1906, 1907, 1908 and 1910 by The Scarborough Company, Indianapolis, Ind.")

Western and eastern hemispheres on recto and verso.

► "Colorado R." is delineated somewhat stylistically, with the reaches from the confluence of "Green R." and "Grand R." through to the head of the Gulf of California seeming to be all delimited as encanyoned. "Grand Canyon" is the only canyon labeled.

U.S. General Land Office

- 1910 25.1953 **Department of the Interior General Land Office Fred Dennett, Commissioner. Territory of Arizona. Compiled from the official Records of the General Land Office and other sources under the direction of I. P. Berthrong Chief of Drafting Division G.L.O. 1910.** ("Compiled and Drawn by Daniel O'Hare.") ("Lettering by Wm. Bauman Jr.") ("Printed by the U.S. Geological Survey".) [Also "(Reprinted 1911)".]
- Topography is displayed by generalized shaded relief. The physiographic Grand Canyon is not labeled, but "Marble Canyon" is labeled in its reach upstream from "Little Colorado River". Delineated are the boundaries of "Grand Canyon National Monument", "Grand Canyon Nat'l. Game Preserve", "Kaibab National Forest", a unit of the "Tusayan National Forest", and two units of "Dixie National Forest" (the western unit borders the Colorado River north of the confluence of Diamond Creek, encompassing "Mt Dellenbaugh", and the smaller eastern unit touches upon the Colorado River just west of the foot of "Toroweap Valley" and encompasses "Mt Trumbull", "Mt Logan", and "Mt Emma"). The routes of the "Atchison Topeka and Santa Fe Ry." and "Southern Pacific Ry." are delineated; as is also the "Grand Canyon Railway" between Williams and Grand Canyon, with the short spur to the "Anita Mines".

U.S. Geological Survey

- 1910 25.492 **United States.** [Washington, D.C.]: U.S. Geological Survey, 6 sheets. ("First published in 1890", "Original compilation under the direction of Henry Gannett".) [Scale 1:2,500,000.]

1911

Bartholomew, J. G. [Bartholomew, John George]

- NO DATE 25.1576 **The National Geographic Magazine Map of Mexico Prepared by J. G. Bartholomew, Gilbert H. Grosvenor, Editor.** ("The Edinburgh Geographical Institute".) ("John Bartholomew & Co".)
- Library of Congress ascribes date "1911?". LOC copy of map bears stamp, "Library Dep't of State. May 22: 1912".
- "Rio Colorado depicted between "Castle Dome" in Arizona and head of "Gulf of California". Its course is depicted by a generally undulating line.

Rand McNally and Co.

- 1912 25.2346 **The United States.**
In: The library atlas of the world : a reference work in two volumes, containing over two hundred maps and a complete index. Volume I—United States. Chicago and New York: Rand McNally and Co., pp. XII-XIII.

► In "Arizona", "Colorado River" is shown on a somewhat diagrammatic course through "Grand Canon", with its course in Utah and across Arizona displayed as encanyoned. The boundaries of the "Tualapai [*sic*] I. R." near "Peach Springs", and "Colorado Ind. Res." near "Parker" are delimited. The Santa Fe and Southern Pacific railroads (not labeled) are roughly sketched.

- 1912 25.2347 **The Rand-McNally New Commercial Atlas Map of Arizona.**
In: The library atlas of the world : a reference work in two volumes, containing over two hundred maps and a complete index. Volume I—United States. Chicago and New York: Rand McNally and Co., pp. 300-301.

► In "Arizona", "Colorado River" is shown on its proper course through "Grand Canyon of the Colorado", with "Marble Canyon" upstream and, downstream, only "Iceberg Canyon" and "Black Canyon" are labeled. The entire reach of canyons is displayed as encanyoned. The boundaries of "Grand Canyon National Monument", "Hualpai Indian Reservation", "Colorado Indian Reservation", and "Yuma Indian Reservation" are delimited. The "Atch. Top. & San. Fe" and "Southern Pacific" railroads are generally sketched. Also shown (between pp. 298/299) is a **Relief Map of Arizona**, on which are labeled "Grand Canon of the Colorado" and "Marble Canon".

Royal Geographical Society

- 1912 25.1259 **United States and Mexico. Sketch Map of part of Sonora and Arizona to illustrate the paper by D^r Carl Lumholtz.** *Geographical Journal*, 40(5) (November): 588 [fold-out]. Scale 1:2,000,000. ("This map has been prepared from a compass sketch and information supplied by D^r Carl Lumholtz, adjusted to M^r I. N. Dracopoli's triangulation points (marked ▲), and supplemented by the United States Government Maps of Arizona".) ("Published by the Royal Geographical Society." "The Geographical Journal 1912.")
Routes of travel by Lumholtz are marked.

Accompanies: Dracopoli, I. N., "II." [text of presentation "Read at Section E, British Association, Dundee, September, 1912", on the "Sonora desert", pp. 511-518, which was appended without title to a presentation by Carl Lumholtz, "The Sonora Desert, Mexico", pp. 503-511].

► "Colorado River" is depicted between a point north of the confluence of "Gila River" and a head of the estuary at "Colonia Lerdo". There also is shown a river (not labeled) coming from the northwest to its own estuarine head adjacent to the Colorado; both at the head of "Gulf of California".

U.S. General Land Office

- 1912 25.268 **Department of the Interior General Land Office Fred Dennett, Commissioner. State of Arizona. Compiled from the official records of the General Land Office and other sources under the direction of I. P. Berthrong Chief of Drafting Division G.L.O. 1912 Scale 1 Inch – 12 Statute Miles.** (Compiled and Drawn by Daniel O'Hare", "Lettering by Wm. Bauman", "The Eckert Lithographic Co., Washington, D. C.")
This is the first GLO map of the new State of Arizona.
▶ In the greater Grand Canyon region, federal units are delineated: "Grand Canyon National Monument", "Grand Canyon Natl. Game Preserve", "Kaibab National Forest", "Tusayan National Forest". West of the national monument, "Dixie National Forest" is shown in two segments, a larger part occupying most of the southern Shivwits Plateau to the Colorado River, including Mt. Dellenbaugh, and a smaller part to the northeast between Pigeon Spring Valley and Toroweap Valley, including Mts. Trumbull, Logan, and Emma. The "Atchison Topeka & Santa Fe Ry" is delineated, as is also the spur, "Arizona & Utah Ry", between Kingman and Chloride. East of Grand Canyon, at the confluence of "Moencopie Wash" and Little Colorado River (near the site of today's Cameron) is marked, "(Proposed Bridge)". Interestingly, "Painted Desert" is labeled immediately to the east of the confluence of the Little Colorado and Colorado Rivers; the label straddles the Little Colorado. At Grand Canyon, the village of "Grand Canyon", "Grand View", and "Hance Ranch" are labeled. Indian reservations are also labeled.

1913**Locke, Harry**

- 1913 25.877 (COMPILER) **Arizona Good Roads Association illustrated road maps and tour book.** [Prescott, Arizona?]: Harry Locke [Prescott, Arizona: Arizona Good Roads Association] [printed by Frank E. Garbutt Co., Los Angeles), 200 pp.

Shelton, William Arthur

- 1913 25.657 **Atchison, Topeka and Santa Fe.**
In: Atlas of railway traffic maps. Chicago: LaSalle Extension University, 24 maps. ("This Atlas of Railway Traffic Maps is one of a series of texts on Interstate Commerce and Railway Traffic. The grouping of traffic territories for rate adjustments shown in this atlas is explained in the treatises devoted to freight classification and rates and forming a part of the course in Interstate Commerce and Railway Traffic." [title-page]) [This is Map 22.]

1914**Clason Map Company**

- 1914 25.284 **Clason's Guide Map of Arizona.**
In: Clason's guide to Arizona : with map. Denver: Clason Map Co. [Map with index, in booklet form, map folding out. Scale ca. 1 inch = 20 miles.] [Also later printings.]

Fitch, George

- 1914 25.823 *Sizing up Uncle Sam : vestpocket essays (not especially serious) on the United States.* New York: Frederick A. Stokes Co., 238 pp.
See "Arizona; the Youngest State", pp. 19-20; "The Grand Canyon", pp. 71-72.
See also end-papers **MAP**.

J. Dosseray [firm]

- 1914 25.2091 **Nouvelle Carte de l'Amérique Nord et Sud Publiée par l'Établissement géographique et de chromolithographie J. Dosseray Gadola, Succ^r 57, Rue de Rennes—Paris 1914 / Novo Mappa Geral das Duas Americas Edictado Pelo Estabelecimento geographico e de chromolithographia J. Dosseray Gadola, Succ^r 57, Rue de Rennes—Paris 1914.** [In French with title cartouche also in Portuguese.]
▶ "Rio Colorado" is delineated, and although this is effectively a modern map, it is cited here for its positioning of the place-name "Grand Canon" (*sic*, indicating Grand Canyon village) in an area too far west, in between Cataract Creek (which is sketched in) and where would be Diamond Creek. Major railways are delineated but not labeled.

Smith, Benjamin E.

- 1914 25.263 **Arizona and New Mexico.**
In: Smith, Benjamin E. (preparer), *The Century dictionary and cyclopedia : with a new atlas of the world : a work of general reference in all departments of knowledge. Volume XII.* New York: The Century Co., 430 pp.
▶ Includes postal routes; "Talfree" [*sic*, Tolfree] at Grand Canyon.

Sykes, Godfrey Glenton

- 1914 25.1879 **Map of the Desert of the Colorado.**
In: D. T. MacDougal *et al.*, *The Salton Sea: A study of the geography, the geology, the floristics, and the ecology of a desert basin, Carnegie Institution of Washington, Publication 193, Plate 2* [fold-out].
[Illustrated herein in the front matter](#) (Figure 5, p. xx).

Thurston, Albert G.

- 1914 25.1843 **Irrigation District and Road Map Imperial Valley Published by Western Map & Publishing Co. El Centro & Pasadena** [recto] **Imperial Valley Tract Map Published by Western Map & Publishing Co. El Centro and Pasadena** [verso]. ("Copyright 1914 by Albert G. Thurston.") ("Published and Copyrighted by Albert G. Thurston Pasadena, Cal.") ("Drawn by Geo. H. Rock")
Recto includes text, "Facts About Imperial Valley, Imperial County, Cal."

1915**Darton, Nelson Horatio, et al.**

- 1915 24.890 Guidebook of the western United States. Part C. The Santa Fe route, with a side trip to the Grand Canyon of the Colorado. *U.S. Geological Survey, Bulletin 613*, 194 pp.
Includes a **Geologic and Topographic Map of the Santa Fe Route from Kansas City, Missouri, to Los Angeles, California**, which is composed of numerous fold-out sheets, scale 1:500,000, including:

Sheet 19 (centered on Williams, Arizona, also displaying the Grand Canyon rail line as far as the Willaha station house)

Sheet 19A (displaying the topography of the eastern Grand Canyon and the Grand Canyon rail line to it), with a separate geological overlay

Sheet 20 (centered on Peach Springs, Arizona, and which includes the confluence of Diamond Creek and the Colorado River)

Sheet 21 (centered on the Colorado River at the Topock crossing).

National Highways Association

- 1915 25.1931 **National Highways map of the State of Arizona showing nineteen hundred miles of national highways proposed by the National Highways Association, Washington, D. C.** ("Published under Direction of General Coleman du Pont, Chairman Board of National Councillors; Charles Henry Davis, C.E., President; Frederic R. Hutton, M.E., ScD., General Secretary". "Copyrighted September, 1915, by the National Highways Association, Washington, D.C." "M. B. Brown Ptg. & Bdg. Co., N.Y." "John C. Mulford, Cartographer".) Scale 1:2,500,000.
- ▶ Loop side route to "Grand Canyon National Monument" noted from national highway (later Route 66), Flagstaff to Grandview and Grand Canyon, to Williams. The route to Grandview is the old route, prior to the creation of a route through Cameron. Side route noted between Kanab, Utah, and Grand Canyon North Rim.

National Highways Association, AND Sunshine Highways Association

- 1915 25.1936 **Map of the Sunshine Highway showing every city, town, village and hemlet throughout its entire length proposed by the Sunshine Highway Association and also advocated by the National Highways Association, Washington, D. C.** ("Issued under joint auspices of the National Highways Association, Sunshine Highway Association; A. L. Westgard, Vice-President and Director Transcontinental Highways". "Copyright, November 1915, by the National Highways Association, Washington, D.C." "John C. Mulford, Chief Cartographer; E. E. Jenkins, Cartographer".) ("NOTE This map shows Tentative locations for part of a system of 100,000 miles of National Highways. It is hoped that each State will suggest to the National Highways Association improvements in location within its borders.")
- ▶ Sunshine Highway, projected between Northport, Washington, to Nogales, Arizona. In Arizona the route follows what later would be Route 66 between Needles (California) and Ashfork before turning off southward to Prescott. A loop side route to "Grand Canyon National Monument" is displayed, Williams to Grand Canyon and Flagstaff to Grandview and Grand Canyon, to Williams. The route between Grand Canyon and Flagstaff is the old route, by way of Grandview, prior to the creation of a route through Cameron. Side route noted between Kanab, Utah, and Grand Canyon North Rim.

Railroad Commission of the State of California

- 1915 25.1976 **Official Railroad Map of California Issued by Railroad Commission of the State of California San Francisco.** ("15 Miles=One Inch. Compiled by the Railroad Commission of the State of California, Engineering Department. Richard Sachse, Chief Engineer. Engraved and Printed at The Matthews-Northrup Works, Buffalo, N. Y. Copyright, 1915, by John M. Eshleman, Commissioner, President.")

Rand McNally and Co.

- 1915 25.2495 **Map of Hermit Rim Road and Hermit Trail and Other Roads and Trails in Vicinity Grand Canyon of Arizona.** Chicago: Rand McNally and Co., 1 sheet. ("5874". "2-2-'15." "Adv.-906 6-17-15-25M".)
- ▶ Hermit Rim Road and trail overprinted in red. Other trails marked and labeled: Boucher Trail, Tonto Trail, Waldron Trail, Bright Angel Trail, and "Trail" west of the village and leading to "Rowe's Well". A number of unconventional names for features and points appear on this map: No Man's Land; Canyon Lion; Cataract Breaks; Vista Del Rio; Pinyon Cove; Artist's View; The Terraces; The Alligator; Sierra Vista; El Tovar Hill, El Tovar Point, and Tusayan Hill (all northwest of the village); Turtle Head; Devil's Corkscrew. In the village are labeled El Tovar Hotel and "Bright Angel Cottages and the Lookout". Also labeled are Cataract Canyon Road, Dripping Springs Road, and "Auto Road to Grandview". Routes are distinguished as Wagon Roads, Automobile Roads, Railroad, and Trails.

Thurston, Albert G.

- 1915 25.997 **New series. Thurston's travel and mileage map of the highways, cities, towns, railways : absolutely reliable : southern California to Phoenix, Arizona : the desert map, water holes, wells, springs, elevations of mountains and valleys and east to Washington, D. C. via southern all-year-round route.** Published by Albert G. Thurston, Pasadena. (Drawn by D. C. McLain.)
- Panel title from map: **Thurston's auto-highway, mountain and desert map showing towns, railways, and waterholes between Grand Canyon, Williams, Prescott, Barstow, Riverside, San Bernardino, San Diego, Yuma, and Phoenix : published by Western Map and Publishing Co., 250 East 4th St., Los Angeles, El Centro and Pasadena.**
- ▶ Upper-right corner of map includes a small **INSET** that displays the "Grand Cañon Route" between a point north of Red Lake to "El Tovar". Map also displays railroads with their section names.

1916**Crocker, L. V.**

- 1916 25.2418 **The Official Map of the United States Compiled from United States Government Surveys, Official State Surveys, and Original Sources.** Published by The National Survey Co. Chester[,] Vermont L. V. Crocker, Topographer.
- ▶ Map of railways, highways and towns. In the area of interest to this Cartobibliography are delineated the boundaries of "Grand Canyon Nat. Mon.", "Hualpa [*sic*] Indian Res.", and "Colorado Riv. Ind. Reserve". The Bill Williams River is labeled "Ben Williams Fk."

National Highways Association

- 1916 25.1932 **Map of the Indian Trail showing every city, town, village and hamlet throughout its entire length proposed by the Indian Trail Association and also advocated by the National Highways Association, Washington, D. C. April 1916.** ("A. L. Westgard, Vice-President and Director Transcontinental Highways". "Copyright, April 1916, by the National Highways Association, Washington, D. C. John C. Mulford, Chief Cartographer; M. Hooton, Cartographer". "A. Hoen & Co. Lith. Baltimore, Md.") ("Published under direction of the National Highways Association; General Coleman du Pont, Chairman Board of National Councillors; Charles Henry Davis, C. E., President; Frederic Remsen Hutton, M. E., Sc. D., General Secretary. Washington, D. C.") ("Issued under joint auspices of the National Highways Association, Indian Trail Association, North Carolina Good Roads Association, Alabama Good Roads Association, Texas Good Roads

Association, New Mexico Good Roads Association, Arizona Good Roads Association, Atlantic Highway Association, National Old Trails Road Association, Automobile Club of Southern California, Inyo Good Road Club".)

► Proposed designated route from Wilmington, North Carolina/Charleston, South Carolina, to Los Angeles, California. Displays a loop side route to "Grand Canyon National Monument" from national highway (later Route 66), Flagstaff to "Grand Canyon National Monument", which is the old route to Grandview, prior to the creation of a route through Cameron. Side route noted between Kanab, Utah, and Grand Canyon North Rim.

Smith, James Perrin

1916 11.5899 **Geological map of the State of California.** California State Mining Bureau, 1 sheet.

1917

Automobile Club of Southern California

1917 25.145 **Automobile road map from Brawley, El Centro to Yuma via Holtville and Planked Road.** Los Angeles: Automobile Club of Southern California.

1917 25.1971 **Automobile road map of California showing principal and secondary roads connecting with and adjacent to the state highway system compiled from maps by the United States government and from various county maps supplemented by the road records of the Automobile Club of Southern California.** ("Drawn by E. J. B." [thus]) ("Copyrighted 1915 Copyrighted 1917"). [No imprint.]

1918

American Automobile Association

1918 25.1577 **General Map of Transcontinental Routes with Principal Connections.** New York: American Automobile Association. ("Copyright 1912, 1913, 1914, 1916, 1918".)

► Routes are keyed to colored overprints in a variety of symbols. Crossing northern Arizona are shown "National Park-Park Hwy." with loop route between Flagstaff-Grandview-Grand Canyon-Anita-Williams, and the coincident "National Old Trails Road" (omitting the Grand Canyon loop); in California, Nevada, and Utah between Needles-Searchlight-Las Vegas-St. Thomas-Toquerville is shown the "Arrowhead Trail"; and across southern Arizona are shown the "Southern Natational Hwy." and "Old Spanish Trail". Also of note on this map is the symbol at "Grand Canyon of the Colorado" marking "Bass Camp", although with no connecting road delineated.

National Railway Publication Company

1918 25.1579 **General Railway Map Engraved Expressly for The Official Guide of the Railways and Steam Navigation Lines of the United States, Porto Rico, Canada, Mexico, and Cuba. Comprising Maps of the United States, Cuba, Porto Rico, the Philippines[,] etc. Published by the National Railway Publication Co.[,] 75 Church Street[,] New York.** ("Copyright, 1902-1903-1909-1915-1918, by the National Railway Publication Company, New York.")
Library of Congress Copyright Office's receipt copy is stamped with date "Jan 13 1919".

► "Southern Pacific" route is delineated generally across southern Arizona. "Santa Fe" route is delineated generally across northern Arizona, with "San. Fe Gr.

Can." spur, Williams-Cota-Willaha-Anita-Coconino-Grand Canyon. "Colorado River" through "Grand Canyon" is delineated as encanyoned.

1919

Automobile Club of Southern California

- 1919 25.1841 **Automobile road map of Imperial County, California.** Los Angeles: Automobile Club of Southern California, Touring Bureau, Route and Map Service. (362.)

Clason Map Company

- NO DATE 25.1580 **Clason's Guide Map of United States Published by the Clason Map Co., Denver, Colo.** ("Copyrighted by the Clason Map Co. Denver, Colo.")
Library of Congress Copyright Office's receipt copy stamped with date "Oct -7 1919".
▶ "National Old Trails Road" and "A. T. & S. F. Ry." are delineated across northern Arizona, with "G. C. Ry." spur between Williams and Grand Canyon at "Grand Canyon Nat. Park". Roadway shown from east of Flagstaff around eastern side of San Francisco Peaks to Grand Canyon, and between there and east of Williams. "Dixie Overland Highway" is shown crossing the Colorado at Yuma.

National Highways Association

- 1919 25.1933 **National Highways map of the State of Arizona showing twenty-four hundred miles of national highways proposed by the National Highways Association, Washington, D. C.** ("Published under direction of General Coleman du Pont, Chairman Board of National Councillors; Charles Henry Davis, C. E., President; Frederic R. Hutton, M. E., Sc. D., General Secretary". Copyright, 1919, by the National Highways Association, Washington, D. C." "John C. Mulford, Chief Cartographer; W. Duncan, H. Louis, Cartographers". "A. Hoen & Co. Baltimore".)
▶ Loop side route to "Grand Canyon National Monument" noted from national highway (later Route 66), Flagstaff to "Grandview (Sta.)" and Grand Canyon, to Williams. The route to Grandview is the old route, prior to the creation of a route through Cameron. Side route noted between Kanab, Utah, and Grand Canyon North Rim.
- 1919 25.1968 **National Highways map of the State of California showing fifty-five hundred miles of national highways proposed by the National Highways Association, Washington, D. C.** ("Published under direction of General Coleman du Pont, Chairman Board of National Councillors; Charles Heney Davis, C. E., President; Frederic R. Hutton, M. E., Sc. D., General Secretary".) ("John C. Mulford, Chief Cartographer H. W. Primm, M. Hooton, Cartographers Copyright, 1919, by the National Highways Association, Washington, D. C." "A. Hoen & Co. Baltimore.")

Nelson, E. W. [Nelson, Edward W.]

- 1919 25.1963 **Reconnaissance map of Lower California, Mexico compiled from U.S. Hydrographic office charts with additions from original maps published by Gustav Eisen, David Goldbaum and Godfrey Sykes, manuscript maps by E. W. Funcke, and observations by E. W. Nelson and E. A. Goldman under direction of E. W. Nelson, Chief, Bureau of Biological Survey, U.S. Department of Agriculture 1919 Scale 1:2,000 000.**
Accompanies: Edward W. Nelson and Alan Probert, 1921, "Lower California and its natural resources", *U.S. National Academy of Sciences, Memoirs*, 16(1) (1921).

► Map marks out "Route traversed by Biological Survey Expedition, 1905-1906", which in the area of interest to this Cartobibliography includes route from Yuma, Arizona, down "Rio Colorado" and "Former course of Colorado R.", and "Rio Hardy" to "Laguna de los Volcanes" and Mexicali, Baja California.

Rand McNally and Co.

- NO DATE 25.2490 **The Grand Canyon National Park Arizona.** [No place]: [Rand McNally and Co.], 1 sheet. (735P). [1919; date of "MAY 12 1919" seen stamped on what apparently is the Copyright Office deposit copy in Library of Congress; also stamped "©Cl.F 23985"; LOC Map Division stamp dated "JUN 5 1919". Map produced to depict the new national park.] [Map printed with black on cream-colored stock with diagrammatic physiography in brown. Trails are delimited ("Bass Trail" from "Bass Camp" is shown crossing canyon [not labeled on north side], ascending "Shinumo Cr." and "Muav Canyon" to "Kaibab Plateau" and looping to "Pt. Sublime"; "Bright Angel Trail" follows "Tonto Trail" before descending to "Cable Crossing" thence to the head of "Bright Angel Canyon"; "Grandview Trail"; "Hance Trail" in "Rod [*sic*] Canyon". In the village area are labeled "Hermits Rest" at the end of "Rim Road", "Powell Monument", "Bright Angel Cottages", "El Tovar Hotel", "Grand Canyon R. R. Station"; also marked is "Grandview Hotel". Routes are distinguished: "Wagon Road", "Automobile Road", "Main Trails", "Other Trails", and "Railroad". Inset map shows canyon with relationship to Flagstaff, Williams, and Ash Fork, with highway from Williams to the canyon.]

Westgard, A. L.

- 1919 25.615 **Arizona and New Mexico : local and through routes : showing topography, Indian reservations and pueblos, national parks and monuments. With digest of hunting and fishing regulations.** Washington, D.C., and New York: American Automobile Association, Touring Information Board, 1 sheet, two sides, scale ca. 1:1,362,240. ("Compiled and drawn by A. L. Westgard".)
- This is the first AAA map to depict Grand Canyon National Park. "Grand View", "El Tovar", and "Bass Camp" are depicted as accessible by road. The "Monumental Highway" (today's U.S. Routes 89 and 89A) is shown, which crosses the Colorado River at "Lee's Ferry".

1920**Anonymous**

- 1920 25.543 **The great basin of the Colorado.** *Journal of Electricity*, 45(8) (October 15): [352] [frontispiece for number].
- Oblique-view map of Colorado River basin with its own panel legend, "The Airplane[.] A Necessary Tool in the Future Development of the West", and with text and insets that are mostly illegible at this scale. Map copyright and credit is illegible.
- This number includes several text articles pertaining to aircraft use in the West, but none are specifically pertinent to the coverage of this Cartobibliography.
- 1920 25.1754 **New Series. Arizona.** ("Copyright, 1920.")
- In:* James, George Wharton, Burgoyne, Alan H., and Peake, Elmore Elliott, *The people's pictorial atlas of the world.* Cleveland, Ohio: R. C. Barnum Co., and Better Farming Association; Detroit, Michigan: F. B. Dickerson Co.; Toronto, Canada: Imperial Publishing Co., pp. 212-213.
- Despite the indication, "New Series", the cartography is reminiscent of older portrayals. On "Colorado River", "Marble Canon" is labeled between "Lees Ferry" and the confluence of "Kanab Canon Kanab Cr."; "Grand Canon of the Colorado" between

that confluence and "Grand Wash". Downstream from there only "Black Canon" and "Pyramid Canon" are labeled.

American Automobile Association, Touring Information Board

- 1920 25.1578 **United States West Main-Traveled Routes. Showing Principal Highways in the Central and Western States.** New York: American Automobile Association, Touring Information Board.
 Verso with map, "**General Map of United States West Main Automobile Routes**".
 ► Much cleaner typography as compared to American Automobile Association (1918, ITEM NO. 25.1577). Depicts principal routes only by lines drawn more boldly. The northern Arizona route includes a loop, Flagstaff-Grandview-Grand Canyon-Anita-Williams. It also shows a symbol at "Grand Canyon of the Colorado" marking "Bass Camp", although with no connecting road delineated.

Finley, John H.

- 1920 25.821 **Cañons of the Colorado.**
In: Finley, John H. (ed.-in-chief), *Nelson's perpetual loose-leaf encyclopaedia : an international work of reference.* New York, London, Edinburgh, Toronto, Melbourne, Paris, and Bombay: Thomas Nelson and Sons, 618+ pp. [MAP is on p. 247A.]

The George F. Cram Company

- 1920 25.2429 **Arizona.**
In: *Auto trails and commercial survey of the United States.* Chicago and New York: The George F. Cram Co., map 13. [See also map 14, the same map with "Main Traveled Highways" overprinted, including roads to Grand Canyon from Flagstaff, Williams, and Ashfork.
 ► Of note on this map is the delineation of boundaries of "Colorado River Irrigation Project" along the lower Colorado River from Yuma to the Grand Wash Cliffs. The river from the Utah boundary is depicted as encanyoned through "Marble Canyon", "Grand Canyon of the Colorado", and "Black Canyon". Despite this map being published a year after the Grand Canyon National Park was designated, only the boundaries of "Grand Canyon Forest Reserve" are delimited. The route of the "A. T. & S. F." is delimited, with the label also appearing on the Grand Canyon branch from Williams; stations and section houses are marked. The boundaries of the "Walapai Indian Res." are marked, and the "Havasupai Ind. Res." is labeled but without boundaries and within the forest reserve.

Herbert, Charles E.

- 1920 25.723 **1884 1920 mapa oficial del Estado de Sonora[,] Republica de Mexico[,] levantado y ejecutado de medidas, reconocimientos propios y de otras fuentes fidedignas. Por el Ingenero Civil C. E. Herbert. **
New revised official map of the State of Sonora[,] Republic of Mexico[,] 1884-1920[,] compiled from surveys, reconnoissances and other sources by Chas. E. Herbert C.E. Nogales, Arizona: Sonora News Company. [Title panels in Spanish and English.]
 A colored map effectively a facsimile reprinting of the map by Herbert (1885, ITEM NO. 25.720). The Colorado River delta area is unchanged from that map.

Housholder, E. Ross

- 1920 25.1848 **Road and Mine Map of Mohave County Arizona : Showing the highways and other public and private roads, together with the more important mining properties and ranches.**

Scale—1 inch equals 6 miles July 1920 Compiled by E. Ross Housholder Mining Engineer Kingman, Arizona.

Title cartouche on map is cited. Recto map with border text, with caption, **Mine and Road Map Mohave County, Arizona.**

Verso displays advertisements mostly for Kingman businesses; also showing boxed title, **Road and Mine Map of Mohave County, Arizona : Showing the more important mines, ranches, highways, railroads, towns, mountain ranges, valleys, canyons, ferries, springs, Indian and forest reservations, etc.**

U.S. Department of Agriculture, Bureau of Soils

- NO DATE 11.18797 (IN COOPERATION WITH University of California Agricultural Experiment Station) **Soil map. California; Brawley sheet. [1920s.]**
Scale not indicated. With soil profile keys and legends.

1921

Institut Kartographia Winterthur S.A.

- 1921 11.1991 **Amerique du Nord, Carte physique. [In French.]**
In: Atlas scolaire suisse pour l'enseignement secondaire : publié par la Conférence des Chefs des Départements contonaux de l'Instruction publique et subventionné par la Confédération. 2me édition. Exécuté par l'institut Kartographia Winterthur S. A. Lausanne and Genève: Librairie Payot et Cie, pp. 102-103. Scale 1:30,000,000.
▶ The Colorado River, traversing "Plateau du Colorado", is not labeled, but the label, "Cañon du Colorado", is printed between the confluence of the Little Colorado River (not labeled) and an undefined point in Utah.
- 1921 11.2193 **États-Unis et Mexique. [In French.]**
In: Atlas scolaire suisse pour l'enseignement secondaire : publié par la Conférence des Chefs des Départements contonaux de l'Instruction publique et subventionné par la Confédération. 2me édition. Exécuté par l'institut Kartographia Winterthur S. A. Lausanne and Genève: Librairie Payot et Cie, pp. 110-111. Scale 1:30,000,000.
▶ The Colorado River, traversing "Plateau du Colorado", is not labeled, but the label, "Cañon du Colorado", is printed between the confluence of the Little Colorado River (not labeled) and an undefined point in Utah.

México. Secretaría de Agricultura y Fomento, Dirección de Estudios Geográficos y Climatológicos

- 1921 25.2394 **Baja California. [In Spanish.]**
In: Atlas geografica de la República Mexicana : 1919-1921. [No place]: Secretaría de Agricultura y Fomento, Dirección de Estudios Geográficos y Climatológicos. [Map No. 3.] Scale 1:2,000,000 [sic].
In addition to "R. Colorado" the delta area displays various channels, including "R. Abejas" and "R. Paradones". "Alamo" is also delineated between Algodones and the Mexico-U.S. boundary. The "Intercalifornia" railway between Algodones and Mexicali, and its extension into the U.S., is delineated. A second edition of the map, 1922, is noted in the volume that has the same title and dates as cited here.

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 1921 25.2395 **Sonora. [In Spanish.]**
In: Atlas geografica de la República Mexicana : 1919-1921. [No place]:
 Secretaría de Agricultura y Fomento, Dirección de Estudios Geográficos y
 Climatológicos. [Map No. 26.] Scale 1:200,000 [*sic*].
 The "R. Colorado" delta area is delineated on a separate inset on this map, with
 only "Gran Desierto" occupying the east side of the river. A second edition of the
 map, 1922, is noted in the volume that has the same title and dates as cited here.

U.S. General Land Office

- 1921 25.1954 **Department of the Interior John Barton Payne, Secretary General Land Office Clay
 Tallman, Commissioner Territory of Arizona Compiled chiefly from the Official Records of
 the General Land Office with supplemental data from other map making agencies. under the
 direction of I. P. Berthrong Chief of Drafting Division, G.L.O. 1921 Scale: 1 Inch = 12 Statute
 Miles.** ("Compiled and drawn by Daniel O'Hare.") ("Traced and lettered by A. L.
 Higgins".) ("The Columbia Planograph Co., Washington, D. C.")
 ► The Colorado River and tributaries are depicted as encanyoned. "Grand
 Canyon of Arizona" is labeled in eastern Grand Canyon; "Marble Canyon" is labeled in
 the reach north of the confluence of "Little Colorado River". Delineated are the
 boundaries of "Grand Canyon National Park", "Grand Canyon National Game
 Preserve", "Kaibab National Forest", a unit of the "Tusayan National Forest", and
 "Dixie Nat'l Forest" (now reduced to a small area northwest of "Tornado Val."
 [Toroweap Valley], embracing "Mt. Trumbull" and "Mt. Logan"). In eastern Grand
 Canyon, labels are present for "Bass Camp" and "Havasupai Signal Hill", "Powell
 Mon.", "El Tovar Ho.", and "Nance Rch." (*sic*, Hance Ranch). The routes of the
 "Atchison Topeka and Santa Fe Ry." and "Southern Pacific Ry." are delineated; as is
 also the "Grand Canyon Ry. (A.T. & S. Fe Ry)" between Williams and Grand Canyon,
 with the short spur at "Anita" to "Copper M."

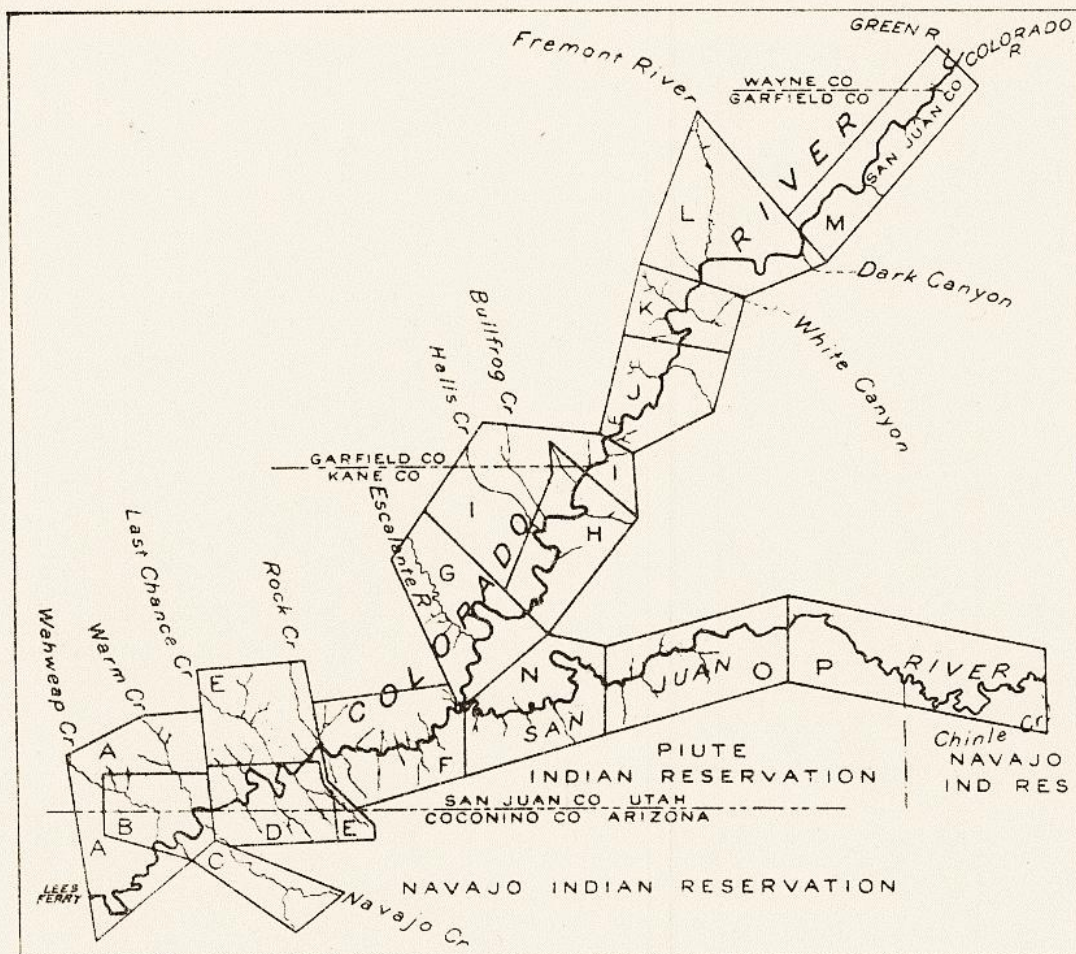

1922

Birdseye, Claude H., AND Gerdine, T. G.

1922 10.122 **Plan and profile of Colorado River from Lees Ferry, Ariz[.], to mouth of Green River, Utah; San Juan River to mouth of Chinle Creek, Utah; and certain tributaries.** (Topography by A. T. Fowler and V. E. Leech.) U.S. Geological Survey, 22 sheets consisting of 16 plans (maps, sheets A-P, scale 1:31,680; see key below) and 6 profiles (sheets Q-V).

Within the geographical bounds of this Cartobibliography, see plan from Lees Ferry to Mile -15 on sheets A and B (contour interval 20 feet, contour interval on river surface 5 feet); corresponding profile on sheet Q, vertical scale 1 inch = 20 feet). C. H. Birdseye, Chief Topographic Engineer; T. G. Gerdine, Division Topographic Engineer; topography by A. T. Fowler and V. E. Leech; surveyed 1921.

Full set displays Colorado River Miles 0 to -216, and San Juan River Miles 0-133. Mileage on Colorado River measured upstream from USGS concrete gage well opposite mouth of Paria River; usually by convention indicated as negative numbers. Regarding Mile 0 [see note at beginning of this section](#).

KEY MAP OF PLAN SHEETS

First National Bank of Boston

- 1922 25.822 *Markets of the world. United States and Canada series. A compilation of maps and statistical data. Prepared and published by The First National Bank of Boston, Boston, Mass., U.S.A. New York: General Drafting Co., Inc., [unpaginated].*
See **MAP** 35 (Arizona and New Mexico) and associated page of statistics.

Hanstein, Otfried von

- 1922 25.842 (ED.) *In den Tälern des Todes : die abenteuerliche Erforschung der Wunderwelt am Colorado durch J. W. Powell.* Dresden: Verlag Deutsche Buchwerkstätten, 176 pp., plates. (Jäger und Forscher.) ("Zeilenguß-Maschinensatz und Druck von Oscar Brandstetter, Leipzig" (p. [2], i.e. half-title page verso).) **[In German.]**
Young-reader title. A novelized, free translation of John Wesley Powell's report of explorations, credited to "The Colorado River of the West and its tributaries" (p. 8); i.e., Powell (1875, **ITEM NO.** 2.5132 in Volume 1/Part B of [THE GRAND CANON](#)).
MAP (p. [6]) depicts "Marschroute" from Green River, Wyoming, to Camp Yuma, California, and Arizona City, Arizona [*sic*].
See Hanstein (1922, **ITEM NO.** 6.1373 in Volume 1/Part B of [THE GRAND CANON](#)) for complete complete information on this publication.

Imperial Irrigation District (California)

- 1922 11.1436 **Colorado River delta : Mexico, 1922.** [Imperial, California]: Imperial Irrigation District, 1 sheet.

Railroad Commission of the State of California

- 1922 25.1977 **Official Railroad Map of California Issued by Railroad Commission of the State of California San Francisco.** ("Second Edition. Copyright, 1922, by Henry G. Mathewson, Secretary".) ("15 Miles=One Inch. Compiled by the Railroad Commission of the State of California, Engineering Department. Richard Sachse, Chief Engineer. Engraved and Printed at The Matthews-Northrup Works, Buffalo, N. Y.")

U.S. Bureau of Public Roads

- 1922 11.19107 **U. S. Department of Agriculture Bureau of Public Roads Irrigation Investigations Irrigation Map of the State of California : revised and redrawn 1920 in cooperation with California State Department of Engineering, College of Agriculture University of California, California State Water Commission : 1922.** ("Field platting of irrigated lands by Wells A. Hutchins, S. H. Beckett, H. A. Wadsworth, H. F. Blaney, and C. F. Dunshee.") ("Note. This map is not intended to show the Broken or Rolling Arable Areas in the Coast Range Mountains nor to indicate with exactness the boundaries of the different classes of Agricultural Land.") ("Printed by the U.S. Geological Survey".) [Includes an overlap into the Mexicali Valley of Baja California, Mexico, north of Bee River and west of the Colorado River.]

1923

Darton, N. H. [Darton, Nelson Horatio]

- 1923 24.861 **Topographic map of the State of Arizona.** Arizona Bureau of Mines, *in cooperation with* U.S. Geological Survey, scale 1:500,000. [Also revised 1933.]

Merriam, C. Hart [Merriam, Clinton Hart]

- 1923 25.889 Earliest crossing of the deserts of Utah and Nevada to southern California: Route of Jedediah S. Smith in 1826. *California Historical Society Quarterly*, 2(3) (October): 228-236, **MAP**.
Includes refinement of Smith's route on the tributaries of the Virgin and Colorado Rivers. Includes verbatim transcription of Smith's letter to General William Clark, July 12, 1827, in which he describes his journey.

National Old Trails Road Association

- 1923 25.147 **National Old Trails Road. Grand Canyon Route. Open 365 days of the year thru the heart of America to the all-year playgrounds of America. The backbone of a system of national highways.** National Old Trails Road Association, large folded map.

Noyes, C. B.

- 1923 25.76 **Dixie National Forest, Nevada, Utah, and Arizona : Mt. Diablo, Salt Lake, and Gila and Salt River meridians, 1923.** Washington, D.C.: U.S. Forest Service, 1 sheet, scale 1 inch = 4 miles. (Printed by U.S. Geological Survey.)
Includes Mount Trumbull Division, Mohave County, Arizona.

U.S. General Land Office

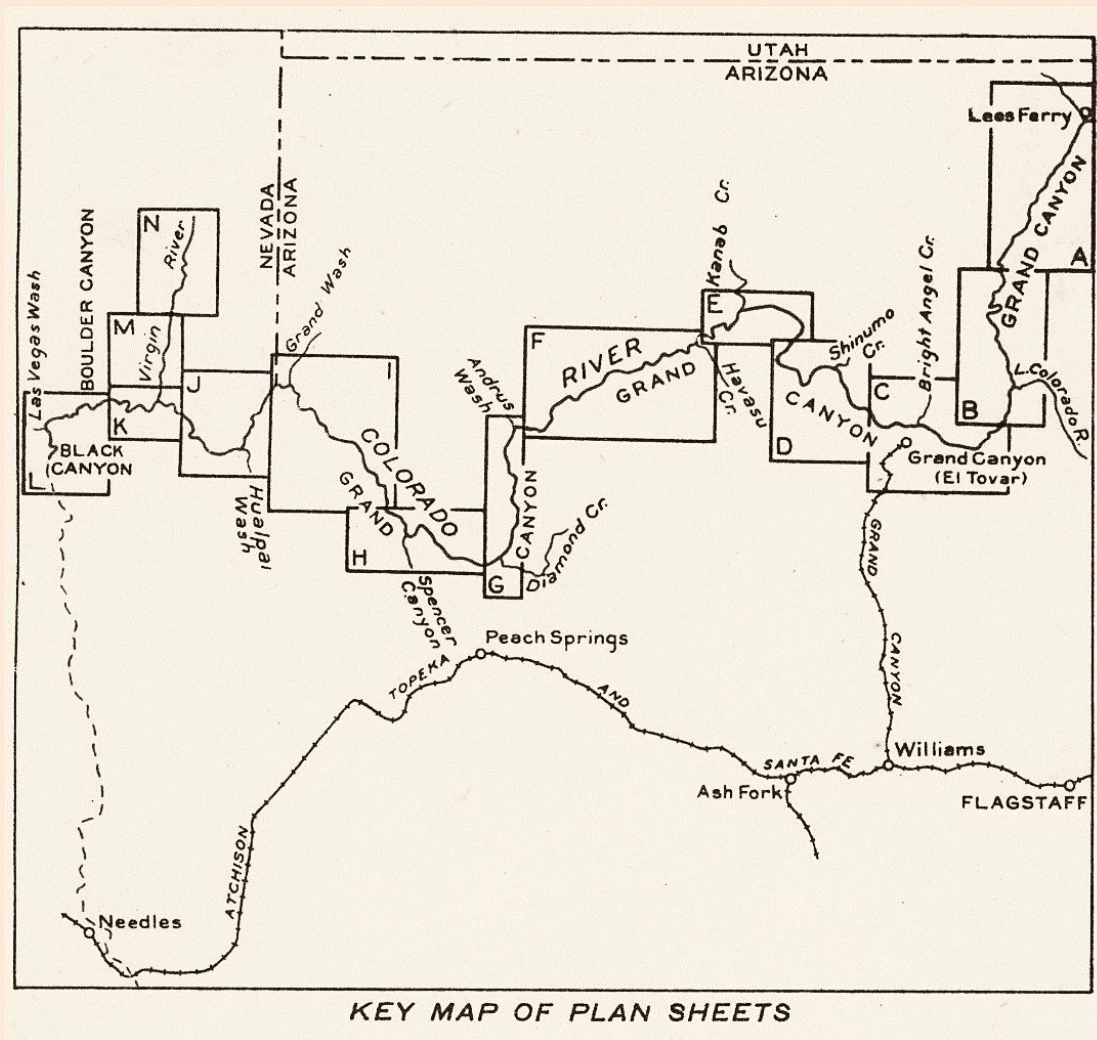

- 1923 25.1575 **Department of the Interior Hubert Work, Secretary General Land Office William Spry, Commisioner United States including territories and insular possessions showing the extent of public surveys[,] national parks and monuments, Indian, military, bird and game reservations, national forests, railroads, canals, and other details compiled under the direction of I. P. Berthrong, Chief of Drafting Division 1923.** ("Scale 37 Miles to 1 Inch".) ("Corrected to June 30 1923 by M. Hendges".) ("Engraved by R. F. Bartle & Co., Washington, D.C.") ("Printed by the U.S. Geological Survey".)
▶ Depicts Township and Range sections. Along "Colorado River" region in Arizona are shown "Grand Canyon Nat'l Game Preserve", "Kaibab Nat'l Forest", "Grand Canyon National Park", "Havasupai Ind. Res.", "Dixie Nat'l Forest", "Hualapai Indian Res.", "Fort Mohave Ind. School Res.", "Chemehuevis Valley Indian Reserve", "Colorado Riv. Ind. Reserve", "Yuma Ind. Res." In "Lower California", Volcano Lake is labeled "L. Lululu".

1924

Birdseye, Claude H.

- 1924 10.119 **Plan and profile of Colorado River from Lees Ferry, Ariz., to Black Canyon, Ariz.-Nev., and Virgin River, Nev.** (Topography by R. W. Burchard and C. H. Birdseye.) U.S. Geological Survey, 21 sheets consisting of 14 plans (maps, sheets A-N, scale 1:31,680, contour interval 50 feet, contour interval on river surface 5 feet; **see key on next page**) and 7 profiles (sheets O-U, scale 1:81:680, vertical scale 1 inch = 20 feet).
Full set displays Colorado River Miles 0-356, and Virgin River Miles 0-28. Virgin River, between Colorado River and Muddy Creek, plans on sheets K, M, N. "Mileage [on Colorado River] is measured [downstream] from U. S. G. S. concrete gage well opposite mouth of Paria River".
NOTES: For continuation of series from Black Canyon to the southern international boundary, see U.S. Geological Survey (1927, **ITEM NO.** 10.123). Regarding Mile 0 [see note at beginning of this section](#).

▼ KEY TO BIRDSEYE (1924, ITEM NO. 10.119) (see previous page)

Darton, Nelson Horatio, et al.

1924 24.58 **Geological map of the State of Arizona.** U.S. Geological Survey, for Arizona Bureau of Mines, scale 1:500,000.

National Highways Association

1924 25.1934 **United States touring map showing 150,000 [sic] miles of principal traveled highways including associated tours of the Automobile Club of America, New England, Atlantic Coast, Florida and Great Lakes, covering 20,000 miles of highways : National Park-To-Park Highway, 4,600 miles—drives in 11 parks, 1750 miles, total of 6,350 miles : 18 east-west transcontinental highways covering 40,000 miles, 13 north-south transcontinental highways covering 15,000 miles, 9 diagonal transcontinental highways covering 10,000 miles, other main traveled highways covering 70,000 miles : issued by The Automobile Club of America and National Highways Association. ("Copyright, 1924, by National Highways Association, Washington, D. C." "John C. Mulford, Chief Cartographer; C. C. Faunce, Cartographer". "A. Hoen & Co. Balto. Md.") ("Issued under joint auspices of the National Highways Association and The Automobile Club of America and for the**

following [42] highway organizations”) (“Published under direction of the National Highways Association, Washington, D. C. General Coleman du Pont, Trustee and Chairman Board of National Councillors; Charles Davis, C. E., Trustee and President”.) (“This map shows part of a system of 250,000 [*sic*] miles of national highways to be built and forever maintained by the United States government advocated by the National Highways Association, Washington, D. C.”)

► Loop side route to “Grand Canyon National Park” noted from national highway (later Route 66), Flagstaff to Grand Canyon by way of the site later named Cameron, to Williams. Side route noted between Fredonia, Arizona, and Grand Canyon North Rim.

Rand McNally and Co.

- 1924 25.2126 **Rand McNally Auto Trails Map District Number 17.**
In: Commercial atlas of America, fifty-fifth edition. Chicago: Rand McNally and Co., pp. 428/429.
 ► The boundary of Grand Canyon National Park is delimited. Highways approaching it are Rt. 64, from Flagstaff and from Williams; the Flagstaff route is directly to Grand View and not by way of Cameron. An unimproved road is also shown from Ashfork to Bass Camp. On the North Rim, Rt. 2 reaches the canyon at the head of “Bright Angel Trail” (Old Bright Angel Trail). The route of Rt. 66 (which is not yet enumerated) is followed by Rts. 20, 22, 32, and 64.

U.S. Army Air Corps

- 1924 25.531 **Chart No. 32; Phoenix, Ariz. to San Diego, Cal. U.S. Army Air Corps, United States Air Navigation Maps (Experimental), No. 32.** 3 maps, cloth-mounted in booklet.
 “Air Navigation Map No. 32 (Experimental); Phoenix, Arizona to San Diego, Calif.”, two color topographic maps, scale 1:500,000.
 “Night Flying Map”, white on black, scale 1:1,000,000.
 Route is by way of Yuma and Imperial Valley.
 Also later printings.

1925

Goldbaum, David

- 1925 25.1964 **Mapa del Distrito Norte de la Baja California Mexico Levantado por el Perito Agronomo, Empdronador y Perito Valuador de Predios Rusticos y Urbanos en esta Demarcacion, con Datos Tomados Personalmente Desde 1894 à 1918. Escala, 1/800,000 Corregido hasta Julio 31. de 1,925. [signature] D. Goldbaum. [No imprint.] [In Spanish.]**
 Very detailed manuscript map in blue-line reproduction.

Hedin, Sven

- 1925 25.854 **Karta över Grand Canyon i Arizona. [In Swedish.]**
In: Grand Canyon. Stockholm: Albert Bonniers Förlag, 295 [297] pp. Scale 1:500,000. (“Generalist. Litogr. Anstalt Stockholm 1925”.)
 This fold-out map is affixed to leaf corresponding to p. [299] in advance of the rear free flyleaf. Base map is composed from U.S. Geological Survey topographic maps, without credit; with overprinting in blue of the course of Colorado River and principal geographical features. Also includes a geological profile with legend in Swedish.

Mitchell, Samuel Augustus [Sr.]

- 1925 25.332 **A new map of Texas[,] Oregon and California with the regions adjoining. Compiled from the most recent authorities[.] Philadelphia[.] Published by S. Augustus Mitchell[,] N.E. corner of Market & Seventh Streets. 1846[.]**
 With text booklet, *Accompaniment to Mitchell's New Map of Texas, Oregon, and California, with the Regions Adjoining*. Philadelphia: S. Augustus Mitchell [sic], 34 pp.
 Facsimile reprinting by North Pacific Bank Note Co. Text booklet includes [2] pp. "History of Map" by Frank Gougar and introductory notes by W. P. Bonney.

Paine, Paul M.

- 1925 25.1508 **Map of Adventures Stories Trails Voyages Discoveries Explorations & Places To Read About For Boys and Girls.** ("R. R. Bowker Company, 62 West 45th Street, N.Y.") ("Copyright by Paul M. Paine, 1925.")
 ► An illustrated, fanciful, hand-drawn map of the world. In the area of interest to this Cartobibliography, a river (the Colorado, not labeled) is drawn imaginatively, feeding into the Gulf of California (not labeled). Over the Colorado delta and lower river is the label "Death Valley"!

Rand McNally and Co.

- 1925 25.2141 **Rand McNally Official 1925 Auto Trails Map Arizona New Mexico.** Chicago: Rand McNally and Co.
 ► The boundary of Grand Canyon National Park is delimited. Highways approaching it from shared Rts. 22, 32, 64 (later Rt. 66) are from "Maine or Parks P. O." and Williams (the latter highway is shared Rts. 45 and 64). A route from Flagstaff connects with the road between Cameron and Grand View. Red overprint pointing to Grand Canyon village labels "Angels Camp Hotel El Tovar Hotel"; an overprint pointing to Williams labels "Grand Canyon Hotel". West of the canyon "Peirce Ferry" is labeled with roadways approaching from St. George, Utah, and Hackberry, Arizona.

Yard, Robert Sterling

- 1925 25.954 Grand Canyon, Zion and Bryce.
In: Kane, John Francis (ed.), *Picturesque America : its parks and playgrounds An illustrated volume with special articles contributed for park and playground sections and numerous selections from the works of well known authors expressing the varied appeal of out-doors in America*. New York: Resorts and Playgrounds of America, pp. 108-117, 118-124, fold-out **MAP**.

1926**Berthold, V. M., AND Reynolds, F. S., Jr.**

- 1926 25.1961 **Main overland stage and mail routes 1849-1866 (West of the Mississippi River).**
 ("Compiled, drawn and published by Dr. V. M. Berthold, Laurelton, L.I., N.Y. and F. S. Reynolds, Jr. 13 Huxley Avenue, Queens Village, L.I., N.Y." Copyrighted 1926".)

Fite, Emerson D., AND Freeman, Archibald

- 1926 25.824 (COMPILERS, EDS.) *A book of old maps delineating American history from the earliest days down to the close of the Revolutionary War*. Cambridge, Massachusetts: Harvard University Press, 299 pp.

Freytag & Berndt [firm]

- 1926 24.867 **Übersicht von Nord_Amerika nach den geologischen Vermessungen von Canada, der Vereinigten Staaten und anderen Quellen.** (Caption: "Nord_Amerika.") ("Berghaus' Physikal. Atlas N^o 13.") ("Entw. v. Herm. Berghaus 1886, Ausg. 1887.") ("Nebenkarten gez. v. M. Risch.") [In German.]
- Geological map. The main map restricts labeling principally to large-scale geographical features and does not label rivers; in the area of interest here only "Colorado Plat." appears across the Grand Canyon area.
- An **INSET MAP**, "**Cañons des Colorado 1:5000 000**" provides some rather antiquated labeling: "Grand Cañon" appears in the western Grand Canyon, while "Marble Cañon" is in the area between the confluences of "Colorado Chiquito" and "Kanab Cañ." Most physiographic features and the course of "Rio Colorado" are correct but while "Cataract Cr." is correctly delineated, "Parke" Cr." parallels it just to the east, passing around the west side of "Red Butte" before turning northeastward to reach the Colorado.

G. Freytag und Berndt A. G. [firm]

- 1926 24.876 **Freytag & Berndt's Tektonische Schulwandkarte der Erde.** Wien: Druck und Verlag der Kartog. Anstalt G. Freytag & Berndt A. G. ("Bearbeitet von Prof. Dr. Max Fritz.") ("Laut Erlaß des Bundesministeriums für Unterricht vom 16.Juli 1926 Z. 6445/g-II, für Mittelschulen, Lehrer-u. Lehrerinnenbildungsansalten zulässig erklärt.") Scale 1:16,000,000. [In German.]
- An early tectonic map of the world, supporting the new theory of plate tectonics. Within the area of interest here are two symbols west of the San Francisco Peaks and south of the Colorado River, indicating "Epizentren solcher Erdbeben, welche eine Reichweite von mehr als 4000 km mikroseismisch, beziehungsweise mehr als 300 km makroseismisch aufweisen. (vorwiegend nach A. Sieberg)" (*transl.* 'Epicenters of some earthquakes, which have a range of more than 4000 km microseismically or more than 300 km macroseismically. (mainly based on A. Sieberg)'). These symbols lie within, and are the only ones within, the delimited area of "Colorado-Plateau". Also there is a single symbol immediately northwest of Yuma, indicating, with a question mark, "Vulkane mit Anbrüchen in historischer Zeit" (*transl.* 'volcanoes with eruptions in historical times').

Hedin, Sven

- 1926 25.855 **Sonderkarte des Gran Cañon in Arizona.** [In German.]
- In: Gran Cañon : Mein Besuch im amerikanischen Wunderland.* Leipzig: F. A. Brockhaus, 245 pp. Scale 1:500,000. ("Druck von F.A. Brockhaus, Leipzig". "Generalist. Litogr. Anstalt Stockholm 1925".)
- Volume is a translation of Hedin (1925). The fold-out map is laid in with cloth strap inside rear cover. Photolithographically reproduced from Hedin (1925), with map title and legend for geological profile in German. Text adds a location sketch map of the Southwest, p. 14, without legend, scale 1:20,000,000.

Hulbert, A. B.

- 1926 25.870 The crown collection of American maps. Series 4. The American transcontinental trails, (6 volumes). Volume 6, The Santa Fe-California trail. [Series, 1926 and following.]

National Highways Association

- 1926 25.2139 **United States touring map showing 150,000 [sic] miles of principal traveled highways including associated tours of the Automobile Club of America, New England, Atlantic Coast, Florida and Great Lakes, covering 20,000 miles of highways : National Park-To-Park Highway, 4,600 miles—drives in 11 parks, 1750 miles, total of 6,350 miles : 20 east-west transcontinental highways covering 40,000 miles, 28 north-south transcontinental highways covering 20,000 miles, 11 diagonal transcontinental highways covering 15,000 miles, other main traveled highways covering 65,000 miles : issued by The Automobile Club of America and National Highways Association.** ("John C. Mulford, Chief Cartographer; C. C. Faunce, Cartographer 1st Edition Copyright, 1924, by National Highways Association, Washington, D. C. 2nd Edition Copyright, 1925, by National Highways Association, Washington, D. C. 19th Edition Copyright, 1926, by National Highways Association, Washington, D. C." "Lithographed & Printed by A. Hoen & Co., Baltimore, U.S.A.") ("Issued under joint auspices of the NHA and the AC of A and for the following [60] highway organizations . . .") ("Revised 1926 for United States Highways numbered by figures US1 to US 630 Other highways unbered by figures 1 to 60".) ("75,000 miles United States Highways showing routes and numbers as selected by the Joint Board on Interstate Highways Thomas H. McDonald, Chairman E. W. James, Secretary Approved by the United States Department of Agriculture . . . and adopted by the Amreican Association of State Highway Officials November 19, 1925 Issued by The Automobile Club of America National Highways Association April, 1926".)
 ▶ Loop side route to "Grand Canyon National Park" noted from US 60 [later Rt. 66] via US 89, Flagstaff to the site later named Cameron, to Grand Canyon, to Maine, reconnecting there with US 60. Side route noted between Fredonia, Arizona, and Grand Canyon North Rim.

Railroad Commission of the State of California

- 1926 25.1978 **1926 Edition of the Official Railroad Map of California Issued by Railroad Commission of the State of California State Building San Francisco.** ("Third Edition". 15 Miles=One Inch. Compiled by the Railroad Commission of the State of California, Engineering Department. Lester S. Read, Chief Engineer. J. W. Clement Co., Buffalo, N. Y.")

Rishel, W. D. [Rishel, William D. "Bill"]

See in Part 9 of THE GRAND CANON Volume 1, under Utah State Automobile Association; *relates to the map guide series known as Rishel's Routes, which pertains chiefly to Utah but includes northern Arizona*

CITATION OF SAMPLE MAP:

- 1926 25.1280 **Utah State Auto Ass'n. Auto Highway Map. Compiled by W. D. Rishel. All the Transcontinental Routes and Connections to National Parks and Salt Lake, the Center of Scenic America.**
In: Official touring guide of the Utah State Auto Association Touring Bureau : Salt lake Tribune automobile tour book : containing twenty thousand miles of automobile highways in Utah, Idaho, Nevada, Wyoming, Arizona and Colorado, covering all auto roads in that section of the Intermountain West of which Salt Lake City is the natural center : strip maps or logs of the Lincoln Highway, Midland Trail, Pike's Peak Route, Zion Park Highway, Pershing Historical Highways and Evergreen Trail, passing through this section. The complete Salt Lake-Yellowstone Park and Salt Lake-Grand Canyon routes. Salt Lake City: Tribune Auto Tour Book, W. D. Rishel, Manager, 223 pp., maps.

► This fold-out map shows roadways in rudimentary fashion. Between Kanab, Utah, and Grand Canyon National Park is shown a simple roadway leading to the North Rim. The National Old Trail is shown passing south of the park, with two rudimentary roadways leading to the South Rim.

This map is cited as an example from the Rishel's Routes series, not all of which have been seen for this Cartobibliography. There are no significant changes to the Grand Canyon area, although the North Rim is promoted as a destination from the Utah touring center.

U.S. Geological Survey

- NO DATE 25.561 **Map of Grand Canyon National Park.** [No place]: U.S. Geological Survey, 1 sheet. ("Courtesy of the National Park Service". "Engraved and Printed by the U.S. Geological Survey".) [Library of Congress Map Division stamp shows date "DEC 18 1926".] Shaded-relief map, with relief shades in gray and rose, and green forestry overprinting; displaying roads, railroad, and place names. 8 × 14½ inches. Scale approximately 0.2 inch = 1 mile.

1927

Blackburn, O. V. [Blackburn, Oliver V.]

- 1927 25.1673 **Blackburn's Map of Southern California : Ten Counties : Mt. Diablo and San Bernardino Meridians : 1927.** Los Angeles: O. V. Blackburn. ("10 In One"—Kern, San Luis Obispo, Santa Barbara, Ventura, San Bernardino, Los Angeles, Orange, Riverside, San Diego, Imperial Counties in One Map".) Very detailed, including Township and Range with Sections. Includes lands of the Colorado River Land Co. in Baja California, Mexico, and adjacent area. Includes adjacent areas in Arizona and Nevada. Denotes "Proposed Boulder Canyon Dam Site" and "Black Canyon Dam Site".
- 1927 25.1674 **Nevada-Arizona[-]California Portion : Blackburn's Map of Southern California—Ten Counties—Showing Boulder Canyon—Colorado River Territory—Mt. Diablo and San Bernardino Meridians : 1927.** Los Angeles: O. V. Blackburn. ("10 In One"—Kern, San Luis Obispo, Santa Barbara, Ventura, San Bernardino, Los Angeles, Orange, Riverside, San Diego, Imperial Counties in One Map".) Folder title: **Blackburn's Map of Portion of Nevada-Arizona : Boulder Canyon Dam Site : Showing Townships and Sections, Roads, Railroads, Cities, Towns and Mines.** Colorado River shown between "Little Chemehuevis Valley" and east of the Arizona-Nevada boundary. Very detailed, including Township and Range with Sections. Includes numerous Colorado River sites. Denotes "Proposed Boulder Canyon Dam Site" and "Black Canyon Dam Site", the latter of which has a large notation with arrow, "Actual Dam Site".

Fischer, Alois

- 1927 25.2446 **Vereinigten Staaten v. Amerika und Mexico.** [In German.] *In:* Fisher, Alois (ed.), *Prof. Hickmann's geographisch-statistischer Universal-Atlas : 1927 : vollständig neubearbeitet von Alois Fischer.* Wien: G. Freytag & Berndt A. G. Scale 1:30,000,000. ► "R. Colorado" is delineated, with "Gr. Canon d. Colorado" labeled between the confluences of Green and Grand Rivers and the central part of Grand Canyon.

Hedin, Sven

- 1927 25.856 **Sonderkarte des Gran Cañon in Arizona.** [In German.]
In: Gran Cañon : Mein Besuch im amerikanischen Wunderland. Leipzig: F. A. Brockhaus, 2nd ed., 245 pp. Scale 1:500,000. ("Druck von F.A. Brockhaus, Leipzig". "Generalist. Litogr. Anstalt Stockholm 1925".)
 Translation of Hedin (1925). The fold-out map, unchanged from the 1st German ed. (1926) is laid in with cloth strap inside rear cover. Photolithographically reproduced from Hedin (1925), with map title and legend for geological profile in German. Text adds a location sketch map of the Southwest, p. 14, without legend, scale 1:20,000,000.

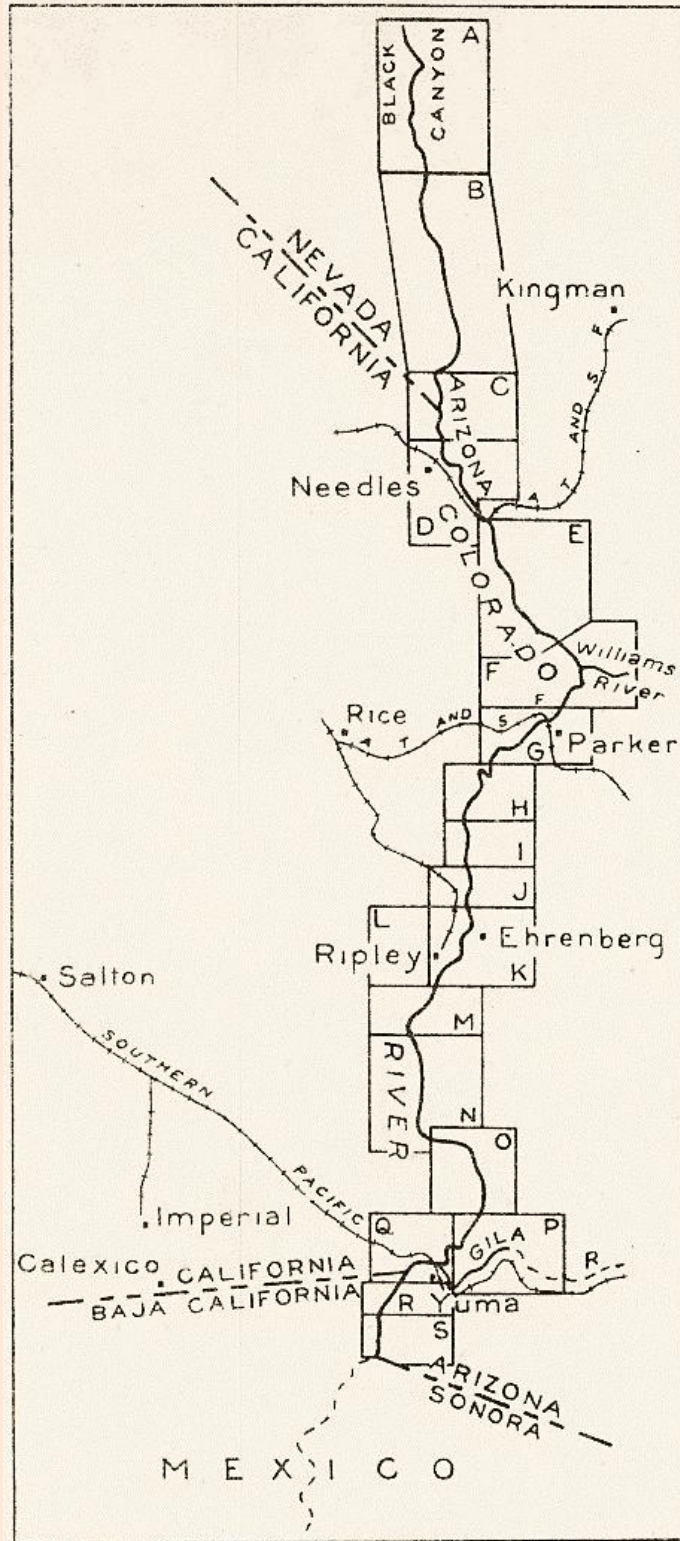

Hondius, Iodocus [Hondius, Jodocus]

- 1927 25.452 **Nova et exacta totius orbis terrarum descriptio geographica et hydrographica.** London: Royal Geographical Society. [In Latin.]
 Facsimile reproduction of the unique copy held by the Society (Hondius, 1608, **ITEM NO.** 25.451 [see in Section 1 herein]); with a memoir by Edward Heawood.

U.S. Geological Survey

- 1927 10.123 **Plan and profile of Colorado River from Black Canyon, Ariz.-Nev. to Arizona-Sonora boundary.** U.S. Geological Survey, 20 sheets consisting of 19 plans (maps, sheets A-S, scale 1:31,680, contour interval 10 feet) and 1 profile (sheet T, scale 1 inch = 2 miles, vertical scale 1 inch = 20 feet). [**Refer to key on next page.**]
 Colorado River Miles 356-708. Mileage on Colorado River measured downstream from USGS concrete gage well opposite mouth of Paria River. Sheet A (Miles 356-392) topography by R. W. Burchard, surveyed 1920. Sheets B-S topography by U.S. Geological Survey, surveyed 1902-1903. Topography along the Arizona-Baja Mexico limitrophe (on sheets Q-S) is shown only on the U.S. side.
 Sheets A-J include the note, "Water surface elevations indicated at mile posts are based on mean sea level and adjusted to a stage of 10,000 second-feet. Other elevations on this sheet should be increased by 7 feet to refer them to mean sea level." Sheet K note omits the last sentence. Sheets L-S omit the note.
 Sheet T includes profiles on tributaries Williams River (Miles 0-9) and Gila River (Miles 0-18). "The profile of Williams River is based on contour crossings plus 7 feet". For continuation of series upstream, between Black Canyon and Grand Canyon, see Birdseye (1924, **ITEM NO.** 10.119).
 Regarding Mile 0 [see note at beginning of this section.](#)

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

Key to
"Plan and profile of Colorado
River from Black Canyon, Ariz.-
Nev. to Arizona-Sonora
boundary" (USGS, 1927, ITEM NO.
10.123)

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 1927 24.386 (WITH U.S. National Park Service) **Topographic map of the Grand Canyon National Park, Arizona (east half)**. U.S. Geological Survey, 1 sheet, scale 1:48,000, contour interval 50 feet. ("Topography by Francois E. Matthes and Richard T. Evans. Surveyed in 1902-1923.") [Reprinted 1948.]
- 1927 24.387 (WITH U.S. National Park Service) **Topographic map of the Grand Canyon National Park, Arizona (west half)**. U.S. Geological Survey, 1 sheet, scale 1:48,000, contour interval 50 feet. ("Topography by Francois E. Matthes and Richard T. Evans. Surveyed in 1902-1923.") [Reprinted 1948.]
- 1927 24.817 (WITH U.S. National Park Service) **Topographic map of the Grand Canyon National Park, Arizona (east half)**. U.S. Geological Survey, 1 sheet, scale 1:48,000. ("Topography by Francois E. Matthes and Richard T. Evans. Surveyed in 1902-1923.")
Variant. Lacks contour lines; only drainages and geographic features are displayed. [Reprinted 1948.]
- 1927 24.818 (WITH U.S. National Park Service) **Topographic map of the Grand Canyon National Park, Arizona (west half)**. U.S. Geological Survey, 1 sheet, scale 1:48,000. ("Topography by Francois E. Matthes and Richard T. Evans. Surveyed in 1902-1923.")
Variant. Lacks contour lines; only drainages and geographic features are displayed. [Reprinted 1948.]
- 1927 24.830 **Plan and profile of Little Colorado River from mouth to Tolchaco damsite, Arizona**. U.S. Geological Survey, 3 sheets, scale 1:31,680. (Topography by J. L. Lewis. "Surveyed in 1926.")

1928

American Geographical Society of New York

- 1928 25.1959 **Baja California—Norte**. ("Compiled and drawn by the American Geographical Society of New York: photo lithographed and printed by A. Hoen and Company, Baltimore.") ("Copyright 1928 by the American Geographical Society of New York.") ("From surveys and other data listed in the pamphlet which accompanies this sheet.") [Labels in English and Spanish, with notes in English and Spanish.]
Caption includes: "South [*sic*] America 1:1,000,000" "Provisional Edition".
▶ "Colorado River" delineated from above Laguna Dam to southern international boundary, below which it is delineated by parallel dashed lines, "Cauce vejo del Río Colorado". "Río Hardy" is delineated as the active channel to the head of the gulf. Features near the international boundary include "Canal 1892-3", "Río Alamo", "Cauce Vejo del Río Alamo".

Automobile Club of Southern California

- NO DATE 25.2456 **Map showing automobile routes within the Navajo and Hopi Reservations and including the Grand Canyon and Southern Utah regions Prepared by the Route and Map Service Department of the Automobile Club of Southern California**. Los Angeles: Automobile Club of Southern California, 1 sheet, folded. [1928.]

Hanstein, Otfried von

- 1928 25.843 (ED.) *In den Tälern des Todes : die abenteuerliche Erforschung der Wunderwelt am Colorado durch J. W. Powell*. Leipzig: Verlag Deutsche Buchwerkstätten G.m.b.H.,

2nd ed., 176 pp., plates. (Durch Steppen und Urwald.) (Colophon, "Druck von Oscar Brandstetter in Leipzig" (p. [4], i.e. title-page verso).) [In German.]

Young-reader title. A novelized, free translation of John Wesley Powell's report of explorations, credited to "The Colorado River of the West and its tributaries" (p. 8); i.e., Powell (1875, ITEM NO. 2.5132 in Volume 1/Part B of THE GRAND CANON).

MAP is the same as in Hanstein (1922, ITEM NO. 25.842).

See Hanstein (1928, ITEM NO. 6.1374 in Volume 1/Part B of THE GRAND CANON) for complete complete information on this publication.

Hedin, Sven

- 1928 25.857 *Восьмое чудо света : Большой Каньон* [*Vos'moe chudo sveta : Bol'shoi Kan'on*]. [The eighth wonder of the world : Grand Canyon.] (С. П. Кублицкой-Пиоттух [S. P. Kublitskoï-Piottukh], translator.) Москва и Ленинград [Moscow and Leningrad]: Государственное Издательство [Gosudarstvennoye Izdatel'stvo] [State Publishing House], 161 pp. [In Russian.]

Author's name in Cyrillic characters is Свен Хедин. The publisher is most often cited in abbreviated format, "Гос. изд-во" [Gos. izd-vo].

Translation of Hedin's *Grand Canyon*, although it is not determined here whether the translation was made from the 1925 Swedish ed. or the 1926 German translation. Not seen, thus uncertain whether this ed. includes the MAP.

U.S. Bureau of Reclamation

- 1928 25.185 **Colorado River basin.** U.S. Bureau of Reclamation. ("Map no. 23000".)

1929

Baker, C. D.

- 1929 25.360 (COMPILER) **Map of the city of Las Vegas, Nevada.** [Los Angeles?]: [Neiswender Corp.?], 1 sheet. ("City of Las Vegas. Gateway to Boulder Dam.")

Blackburn, O. V. [Blackburn, Oliver V.]

- 1929 25.1675 **Blackburn's Map of Imperial County : California : 1929.** ("Compiled from Authentic Records and Published by O. V. Blackburn 6335 West Blvd. Los Angeles Calif. Phone Thornwall 9719 Copyrighted 1927 Corrected May 10, 1929".) ("No. One of Ten County Maps 9 Others and Boulder Dam Southern Cal. Ten Counties Map")

Very detailed, including Township and Range with Sections. Includes lands of the Colorado River Land Co. in Baja California, Mexico, and adjacent area. Includes adjacent areas in Arizona. This map is printed with "Blackburn's Map of Imperial Valley of California" on verso (see ITEM NO. 25.1676).

- 1929 25.1676 **Blackburn's Map of Imperial Valley of California : Roads[,] Tracts and Canals Compiled from Official Records and Private Surveys Drawn and Published by O. V. Blackburn (El Centro) 6335 West Blvd. Los Angeles Tel. TH-9719.** ("July 1919 Corrected May 10, 1929".)

Very detailed, including Township and Range with Sections. Includes adjacent areas in Baja California and Arizona. This map is printed with "Blackburn's Map of Imperial County California" on recto (see ITEM NO. 25.1675).

Favela, J. L.

- 1929 11.16978 **Plano de la región del delta Río Colorado y de los terrenos irrigables con aguas derivadas del mismo río en el Dto. Norte, B. Cfa., y Dto. de Altar, Son.** Agencia General de al Secretaría de Agricultura y Fomento, Zaragoza [Tijuana], B. C., scale 1:200,000. [In Spanish.]

H. M. Gousha Company

- NO DATE 25.2494 **Continental Oil Co. Official Road Map Utah.** Chicago: H. M. Gousha Co., 1 sheet. ("C-148 J.C.") [1929.]
- Includes northern Arizona to embrace the Grand Canyon National Park. Also delineates the northern unit of Kaibab National Forest and Pipe Spring National Monument. Kaibab Indian Reservation and Havasupai Indian Reservation are delineated; Hualpi [*sic*] Indian Reservation [Hualapai Indian Reservation] partly delineated. A road from Bloomington, Utah, is shown crossing the Colorado River at Peirce Ferry [Pearce Ferry]. U.S. Rt. 89 is shown crossing the Colorado River on "Grand Canyon Bridge". On the South Rim "Bass Camp" is denoted; on the North Rim, "Bright Angel Camp" is also labeled as "Kaibab Forest P. O." Verso with texts and illustrations.

Istituto Geografico de Agostini

- 1929 25.1692 **America Settentrionale e Centrale.** [In Italian.]
- In:* Visintin, L. (ed.), *Calendario-Atlante de Agostini : 1929 : Anno XXVI.* Novara, Roma, and Parigi: Istituto Geografico de Agostini, map 23. ("Istituto Geografico de Agostini di Cesare Rossi e dott. A. Marco Boroli Roma-Novara-Parigi". "Proprietà Artistico-Letteraria") Scale 1:60,000,000.
- Cited for the peculiar depiction of the river "Colorado" as a single stream between headwater in "Montagne Roccose" south of "Parc N^e Yellowstone" (state boundaries are not delineated) and "Golfo di California"; its only tributary is the Gila River (not labeled). In so showing the course of the river, it is the Green and Colorado Rivers. The routes of the 35th and 32nd parallel railroads are shown but not labeled.

McConnel, R.

- 1929 25.179 **Lower Colorado River, Imperial Valley and Boulder Canyon reservoir.** U.S. Bureau of Reclamation, scale ca. 1:443,520. ("Map no. 2530A".) [Also apparently other eds.]

Silishchensky, M. I. [Силичский, М. И] [Silishchensky, Mitrofan Ivanovich]

- 1929 25.2383 **Сев. Америка. Физическая.** [Sev. Amerika. Fizicheskaya.] [North America. Physical.]
- In:* Географический Атлас. Часть I. [Geograficheskiy Atlas. Chast I.] [Geographic Atlas. Part 1.] (N. N. Baranskogo and V. A. Kamenetskogo, eds.) Moskva: Sovetskaya Entsiklopediya. [In Russian.]
- The river "Колорадо" [Colorado] is delineated as one stream from headwater that is equivalent to the Green River, following a diagrammatical course to the Gulf of California. No tributaries are shown except for the Gila River (not labeled). The entire area south of the Grand Canyon (not labeled) to the Gila is labeled "Плато Колорадо" [Colorado Plateau].
- 1929 25.2384 **Северная Америка. Экономическо-Политическая Карта.** [Severnaya Amerika. Economicheskopoliticheskaya Karta.] [North America. Economic-Political Map.] [In Russian.]

In: Географический Атлас. Часть I. [Geograficheskiy Atlas. Chast I.] [Geographic Atlas. Part 1.] (N. N. Baranskogo and V. A. Kamenetskogo, eds.) Moskva: Sovetskaya Entsiklopediya.

► The Colorado River is diagrammatically delineated from headwater to the Gulf of California; it is labeled "Колорадо" [Colorado] on its lower course near the gulf but as "Рио Грин" [Rio Green] on the reach between what are the confluences of the Grand River and Little Colorado River (which are not labeled). The San Juan River is delineated but not labeled. No other tributaries are shown. The river labels are printed using the cursive style of Russian orthography, which differs somewhat from the printed style cited here.

Touring Club Italiano

- 1929 25.2211 **Stati Uniti (United States of America) California, Nevada, Utah, Arizona.** ("Grande Atlante Internazionale del T.C.I.") ("Propr. Artistico-Letteraria del T.C.I.") ("Ufficio Cartografico del T.C.I.") Scale 1:3,000,000. [In Italian.]
- In:* *Atlante internazionale del Touring Club Italiano : centosettanta tavole principali centotrenta carte parziali e di sviluppo : opera redatta ed eseguita nell'ufficio cartografico del T.C.I. sotto la direzione di L. V. Bertarelli, O. Marinelli, P. Corbellini.* Milano: Touring Club Italiano, pp. 140-141, with explanatory text on verso of preceding pages. ("Proprietà letteraria e artistica del T.C.I. Copyright by Touring Club Italiano April 1929".) ("Stampato nelle Officine G. Ricordi & C. Milano".)
- On the title page, which uses capital letters, "V" is stylistically substituted for "U" but proper typography is shown here.
- "Colorado River" is shown on a modestly physiographic base. The boundaries for the Grand Canyon National Park are delineated but the area is labeled "Grand Canyon Nat. Monument". In the area of interest here, Glen Canyon, Marble Canyon, Grand Canyon, Virgin Canyon, Boulder Canyon, and Black Canyon each are labeled. "Kaibab Nation. For.", "Tusayan Natl. For.", and "Dixie Natl. For." are also labeled, as are Indian reservations. Railways are delineated.

U.S. Bureau of Reclamation

- 1929 25.183 **Colorado River basin below Boulder Dam : 1929.** U.S. Bureau of Reclamation, map. ("Map no. 23566".)
Irrigated and irrigable lands.
- 1929 25.189 **Boulder Canyon reservoir site.** Washington, D.C.: U.S. Bureau of Reclamation. ("Map no. 23750".)
Includes "Topography of Black Canyon and vicinity", profiles, and area-capacity diagram.
- 1929 11.18197 **Lower Colorado River, Imperial Valley, and Boulder Canyon Reservoir.** U.S. Bureau of Reclamation, Map 23530. (Drawn by R. McConnel.)
Lower Colorado River, Imperial Valley, reservoir site topography, Boulder Dam site topography, reservoir area and capacity curves, river profile, profile of dam site; printed in colors. 21 × 37 inches.
- 1929 11.18198 **Lower Colorado River, Imperial Valley, and Boulder Canyon Reservoir.** U.S. Bureau of Reclamation, Map 23530-A. (Drawn by R. McConnel.)
Lower Colorado River, Imperial Valley, Boulder Canyon Reservoir; text overprint in red. 16 × 34 inches.

White, Ruth Taylor

- 1929 25.2442 **Los Angeles–Kansas City 1417 miles–12 hours First and Fastest All Daylight Passenger Airway.** ("Cartograph by Ruth Taylor White".)

In: Western Air Express : travel by air : speed-comfort-dependability. [No place]: Western Air Express, folded brochure.

► Pictorial map. "Grand Canyon" and "Kaibab Forest" are depicted with artistic vignettes; "Boulder Dam" noted by label with arrow that points beyond the area covered by text block.

1929 25.2443 **Los Angeles–Salt Lake City 600 miles–6 hours Over the Old Mormon Trail.** ("Cartograph by Ruth Taylor White".)

In: Western Air Express : travel by air : speed-comfort-dependability. [No place]: Western Air Express, folded brochure.

► Pictorial map. "Grand Canyon" with "Hopi House" and "Bright Angel Pt.", and "Kaibab Forest", are depicted with large artistic vignettes; "Boulder Dam Site" also depicted by an artistic vignette. "Pipe Springs National Monument" and "Navajo National Monument" are also portrayed with smaller vignettes but misplaced on the map in the northwestern corner of Arizona.

1930

Anonymous

NO DATE 25.2471 **Map and Historical Data on the Great Southwest's Lost Mines.** [No imprint.] 1 sheet (21 × 17 inches; printed in green on laid paper). [Mid-20th century.]

This map was seen as an offering in the "April 11th [2024] Rare Book Highlights" from Back of Beyond Books, Moab, Utah. The description reads: "A watermark indicates 'Wausau Laid' paper, but no other authorship." "An uncommon map, of unknown origin & date, covering Arizona and parts of California, Nevada, Utah and New Mexico, detailing the lost mines in each area. It's possible this map was based on the maps & writings of John T. Mitchell in 'Desert Magazine,' in the 1930s & later in the '50s. His books on lost mines of the Southwest were reprinted in 1970 by Rio Grande Press, which may coincide with the printing of this map. Alternatively, inferring from the quality of the laid paper used, it's also possible this map was a placemat published by a small restaurant chain, also during the 1960s or '70s." (The size, however, seems a bit large for the usual sort of illustrated placemats often in use in less-economical restaurants.) Within the area of pertinence to this Cartobibliography, "lost mines" are denoted only in the lower Colorado River region.

1930 25.751 Swinging stage used to make giant map. *Popular Science Monthly*, 117(2) (August): 43.

63-foot physiographic map of United States at Babson Institute, Wellesley, Massachusetts; photo depicts "E. Le Roy Nichols . . . finishing Grand Canyon block."

Eddy, Gerald A.

NO DATE 25.218 **Two wonders of the world : Grand Canyon—nature's masterpiece : Boulder Dam—man's greatest engineering achievement : connected by the largest artificial body of water in the world—Lake Mead. Where to go and what to do in the Boulder Dam-Grand Canyon area.** Boulder City, Nevada: Grand Canyon-Boulder Dam Tours, Inc. [1930s.] [MAP.]

Fenner, C. H.

1930 11.12309 **World's greatest flood control system, reclamation project, electrical development, artificial body of water : Boulder Dam area and Las Vegas, Nevada.** Los Angeles: F. V. Owen, 1 sheet. (Topography by C. H. Fenner. Decorations by L. J. Bergère. Government data from H. A. Shamberger.)

The George F. Cram Company

- 1930 25.2381 **Cram's Paved Road Map of the United States** An accurate survey of the main highways showing mileage and character of all important roads. Indianapolis, Indiana: The George F. Cram Company.
 Pamphlet, front title: **The Columbus Dispatch Information and Service Bureau Official Paved Road Map of the United States and Canada.** [Probably a customized publication to promote the *Columbus Dispatch*, thus there are likely to be other variants with the same map.]
 ► In Arizona the boundary of "Grand Canyon Nat. Park" is delineated. U.S. Rt. 66 is shown through the area with both paved and improved surfaces; U.S. Rt. 89 is an improved road in the area. Improved roads are shown to Grand Canyon from Maine and Williams, and on the north from "Jacobs Lake". From Hackberry, Rt. 12 (improved) is shown crossing the Colorado River at Pierce Ferry en route to St. Thomas, Nevada.

Henry, Everett

- 1930 25.2283 **Our United States.** New York: Washington Square Book Shop.
 Pictorial map of the United States. Includes a meager depiction of Grand Canyon.

Imperial Irrigation District (California)

- 1930 11.1437 **Colorado River delta : Mexico, 1930.** [Imperial, California]: Imperial Irrigation District, 1 sheet.

Rankin, J. T.

- NO DATE 25.2326 **The Popular Wireless Broadcasting Map of the World On Mercator's Projection.** [No imprint.] [Ca. 1930.]
 Plotted are locations of "ordinary broadcasting stations", "ordinary and short wave stations", "short wave stations", and "television stations". In the area of interest to this Cartobibliography, "ordinary broadcasting stations" are pinpointed for Flagstaff, Las Vegas, and El Centro.

Spilhaus, M. Whiting [Spilhaus, Margaret Whiting]

- 1930 25.2370 **North America. Published by George Philip & S^{on} L^{td} 32 Fleet Street—London. Designed by M. Whiting Spilhaus 1929–1930.** ("Printed in Great Britain by George Philip & Son, Limited, London") ("HCL".)
 Pictorial map with historical notes. The river "Colorado" is shown as is "Grand Canyon" but the only pictorial embellishments there are a few pine trees. Includes the historical note: "The army of Francisco Vasquez de Coronado reaches the bison plains of Missouri. Coronado set out from Spain on an expedition 1540-2 to seek the fabulous Seven Cities of Cibolo [*sic*]. He found the Zūni [*sic*] Pueblos but no wealth. One of his captains, Gárcia [*sic*] López de Cardenas, marching from Zuni, discovered the Grand Canyon. Hernando de Alarçon, sent to co-operate with Coronado, whom he missed, ascended the gulf [*sic*] of California to its head, and navigated the river Colerado [*sic*] for some distance form its mouth."

U.S. Bureau of Reclamation

- 1930 25.190 **Boulder Canyon reservoir site.** Washington, D.C.: U.S. Bureau of Reclamation. ("Map no. 23800".)
 Includes "Topography of Black Canyon and vicinity", profiles, and area-capacity diagram.

1931

Clason Map Company

- 1931 25.2140 **Clason's Road Map of Arizona and New Mexico Showing Paved roads, All Weather Roads and Other Thoroughfares U. S. Highways Shown in Red Published by the Clason Map Co., Chicago-Denver Copyrighted Clason Map.**
In: Clason's touring atlas of the United States and Canada. Denver: The Clason Map Company, p. 44. (Map No. R-235-A.)
 ► "Grand Canyon Natl. Park" is shown accessible from US 66 via roads from "Parks (Maine)" and Williams; also from Cameron via a roadway that connects to the Desert View drive east of "Grandview Pt". An unimproved road reaches the road from Williams from Ash Fork (but does not continue to "Bass Camp" as so shown on some other maps (Bass Camp is shown here as accessible by principal road from Grand Canyon village. The North Rim is accessible from US 89 at Jacobs Lake. Of interest is the depiction of "Lee's Ferry", accessible from both sides of the Colorado River off of US 89 (which itself passes over "Grand Canyon Bridge" (Navajo Bridge). On the lower Colorado River, "Pierce Ferry", "Greggs Ferry", and "Bonelli's Ferry" all are depicted, as also is "Hoover Dam Site (Boulder Dam)".

Eddy, Gerald A.

- 1931 25.1894 **Panoramic perspective of the area adjacent to Hoover Dam as it will appear when dam is completed : served exclusively by the Union Pacific System : "The Hoover Dam Route".** *In: Boulder Dam : Union Pacific : The Hoover Dam Route.* [No place]: Union Pacific Railroad, folded brochure.
MAP, artistic oblique view looking northward, appears on verso of unfolded brochure.

Hanstein, Otfrid von

- 1931 25.844 (ED.) *In den Tälern des Todes : die abenteuerliche Erforschung der Wunderwelt am Colorado durch J. W. Powell.* Leipzig: Verlag Deutsche Buchwerkstätten G.m.b.H., 3rd revised ed., 176 pp., plates. (Durch Steppen und Urwald.) (Colophon, "Druck von Oscar Brandstetter in Leipzig" (p. [4], i.e. title-page verso).) [*In German.*]
 Young-reader title. A novelized, free translation of John Wesley Powell's report of explorations, credited to "The Colorado River of the West and its tributaries" (p. 8); i.e., Powell (1875, **ITEM NO.** 2.5132 in Volume 1/Part B of [THE GRAND CANON](#)).
MAP (p. [6]) revised and simplified from the map in Hanstein (1922, 1928, **ITEM NOS.** 25.842, 25.843), depicting "Marschroute" from Green River City, Wyoming, to Fort Mohave, Arizona, and with lower Colorado River labeled "Rio Grande" although wholly labeled "Colorado" on the **INSET MAP** of state boundaries.
 See Hanstein (1931, **ITEM NO.** 6.1375 in Volume 1/Part B of [THE GRAND CANON](#)) for complete complete information on this publication.

Howell, Edwin E.

- 1931 24.783 **Grand Canyon of the Colorado and the cliffs of southern Utah.** [No place]: U.S. Geological Survey, 3-dimensional map, topography with colored time-stratigraphic outcrop markings, vertical and horizontal scales 1 inch = 2 miles (1:126,720). ("Modelled by E. E. Howell from maps of the United States Geological and Geographical Survey [*sic*] by J. W. Powell; revised by F. T. Thwaites and Fred Wilhelm in 1931 from geological maps of Arizona 1924 and Utah 1918".)
 For original see Howell (no date, **ITEM NO.** 24.309).

Mora, Jo

- NO DATE 25.68 **Grand Canyon.** Monterey, California: Jo Mora Publications.
Cartoon physiographic map. A reduced-size reprint of Mora (1931). **A copy of the reprint was purchased new in 1995.**
- 1931 25.69 **Grand Canyon.** Monterey, California: Jo Mora Publications.
Cartoon physiographic map. Colored and uncolored states.

National Highways Association

- 1931 25.1935 **Map of the National Park-To-Park Highway.** ("This map has been donated to the National Park Service by the National Highways Association in order to make it possible to place into the hands of motorists visiting national parks. August 1931". "Copyright 1927, by National Highways Association, Washington, D. C.")
Map caption title with bounding credits to Department of the Interior, National Park Service, to intimate that it is a government production.
▶ Loop side route to "Grand Canyon National Park" noted from national highway (later Route 66), Flagstaff to Grand Canyon by way of the site later named Cameron, to Williams. Side route noted between Fredonia, Arizona, and Grand Canyon North Rim. Highways denoted also via "Grand Canyon Bridge" (Navajo Bridge).

Union Pacific System

 Folded pamphlet produced by U.S. National Park Service, with verso map, which there contains an inset map, "Grand Canyon National Park and Vicinity". 16 × 18 inches, with pictorial vignettes. [Ca. 1935.]

Imperial County Board of Trade (California)

- NO DATE 25.2363 **[Map of the Imperial Valley.]**
In: Imperial County, California : America's winter garden : All American Canal gives Imperial Valley an assured water supply under control. El Centro, California: Imperial County Board of Trade, folded brochure. [1935.]

Las Vegas (Nevada) Chamber of Commerce

- NO DATE 25.1762 **Boulder Dam and Las Vegas, Nevada. Center of the scenic southwest.** Las Vegas, Nevada: Las Vegas, Nevada, Chamber of Commerce, 1 sheet (2 sides). [Ca. 1935.]
 Verso comprises artistic, earth-curvature view of the Southwest, centered on Las Vegas and Boulder Dam; no scale; with panel: "Visit all the Scenic Wonders of the Great southwest Las Vegas is the center of this charmed circle of unequalled mountain and desert splendor. Several days may be spent in making easy motor trips from Las Vegas, over splendid highways, to many different Points of Interest. Boulder Dam • Death Valley • Valley of Fire • Lost City [•] Mount Charleston • Zion National Park • Bryce Canyon [•] Cedar Breaks • Grand Canyon Las Vegas, Nevada Chamber of Commerce".

Metropolitan Water District of Southern California

- 1935 25.1684 **The Metropolitan Water District of Southern California Now Building the Colorado River Aqueduct A Map of the Aqueduct route from the Colorado River to the Coastal Plain of Southern California and the thirteen cities in the Metropolitan Water District Frank E. Weymouth, General Manager and Chief Engineer Headquarters: 306 West Third Street, Los Angeles, California.**
In: Water for thirteen cities in the Metropolitan Water District of Southern California. Los Angeles: Metropolitan Water District of Southern California, [24] pp.
 Fold-out map. Artistic, colored oblique perspective of the route of the aqueduct between the Colorado River and Los Angeles; perspective includes the Colorado River between Boulder Dam and south of Parker Dam.

Pacific Greyhound Lines

- NO DATE 25.2225 **Transcontinental Routes of Pacific Greyhound Lines Also Pickwick-Greyhound and Greyhound Lines.** [No place]: Greyhound Lines. [1935.] ("Over 35,000 miles of scenic highway routes World's Largest Transportation System".) ("Pacific Greyhound Lines Pickwick Stages System California Transit Co. "Yellowway" Oregon Stages Union Auto Transportation Co. Southern Pacific Motor Transport Co. California Parlor Car Tours And affiliated lines".)

Pictorial map of Greyhound and connector routes, stylized, with artistic vignettes. Includes Grand Canyon, with connecting lines depicted from Flagstaff and Williams, Arizona, and Cedar City, Utah. Artistic vignettes include Grand Canyon, and a stylized landscape scene depicting a canyon between mountains, bounded by saguaro cacti, with the Mormon temple in the far distance (no labels).

Public Works Administration

- NO DATE 25.2128 **P.W.A. in Action.** [No imprint], 1 sheet. ("Printed by U. S. Geological Survey".) ("C.H.W." apparently the artist.) [1935.]
 Pictorial map of selected P.W.A. projects, illustrated by artistic vignettes and brief legend. Includes: "Control—Big Boulder Dam holds the Colorado in check, transforms its might to horsepower." "Irrigation—All-American canal waters Imperial Valley's fields."

Taylor, Ruth

- 1935 25.1690 **[Maps.]**
In: Taylor, Frank J., and Taylor, Ruth, *Our U.S.A. : a gay geography*. (Text by Frank J. Taylor, maps by Ruth Taylor.) Boston: Little, Brown and Co., 113 pp.
 Full-page cartoon-illustrated maps for the 48 states and American possessions. See Arizona (map 13), California (map 17), and Nevada (map 65); see also Utah (map 101), which includes northern Arizona, there illustrating "Pipe Springs Natl. Mon."
NOTE: The book scarcely appears in the used-book market, as many dealers have broken the volumes in order to sell individual maps at a premium.]

U.S. Bureau of Reclamation

- 1935 11.13458 **All-American Canal system.** U.S. Bureau of Reclamation, Map 25190, scale 1:633,600; and Map 25190-A, scale 1:316,800.

U.S. Soil Conservation Service

- 1935 11.755 **[Topographic maps of Lake Mead area.]** 52 sheets, scales 1:12,000; index sheet 1:250,000.

1936

Lindgren, Jolly [Lindgren, Hjalmer]

- 1936 25.140 **A hysterical map showing Boulder Dam—the Grand Canyon—Zion Nat'l Park—Bryce Canyon[—]Cedar Breaks—Death Valley—Valley of Fire and the Los Angeles city limits.** Spokane, Washington: Lindgren Brothers, 1 sheet.
- 1936 25.351 **A hysterical map of Grand Canyon National Park : a mile deep and ever so wide : where Mother Nature started from scratch.** Spokane, Washington: Lindgren Brothers, 1 sheet.

Nevada Department of Highways

- 1936 25.1677 **State Highway Department's official road map of the State of Nevada, 1936.** Carson City, Nevada: Nevada Department of Highways, 1 sheet.
 ► The Kingman-Boulder Dam highway in Arizona is depicted as an "improved earth road". "Lake Mead" is labeled. "Boulder Dam Valley of Fire State Park" seems to be labeled thus.

Shell Oil Co.

- 1936 25.1969 **Shell 1936 Road Map California.**
Cartouche on map: "Shell Official Road Map California Copyright by The H. M. Goushá Company, Chicago, Ill."
Denotes "Boulder Dam" and, with shading, "Boulder Canyon Lake (Now Filling)".

U.S. Geological Survey

- 1936 24.862 **Grand Canyon National Monument, Ariz.** U.S. Geological Survey, 1 sheet, scale 1:48,000, contour interval 50 feet, 25-ft contours in flat areas. ("Advance sheet. Subject to correction.") ("H. H. Hodgeson, Division Engineer. Topography by C.H. Birdseye, R.W. Burchard, R.T. Evans, R.R. Monbeck, E.S. Rickard, V.S. Seward, E. J. Matson, W.L. Thomas, and R.C. Harding. Control by U. S. Geological Survey and U. S. Coast and Geodetic Survey. Surveyed in 1923, and 1934-1936." Key indicates areas of individual responsibilities. Birdseye refers to the Colorado River survey of 1923.) ("Polyconic projection. 1927 North American datum. To join Grand Canyon National Park, shift projection 430 feet north and 370 feet east.")
Irregular boundaries overlaid on quadrangle bounded by 36°10', 36°30' N, 112°40', 113°10' W.

1937**Cobb, Harriet F.**

- 1937 25.1938 **The Harriet F. Cobb relief map of the State of Arizona.** ("Compiled, published and sold by Arizona Mapping Service, 903 N. 1st. St. Phoenix-Arizona Phone 42474, Drawn by Harriet F. Cobb, Copyright 1937-P. T. Reeve,-Phoenix, Ariz.")

Sykes, Godfrey Glenton

- 1937 25.932 **Map of the Colorado Delta Region Approximate Status of 1933.**
In: The Colorado delta. *Carnegie Institution of Washington, Publication 460*, 193 pp., fold-out map. [*Variant 1* of this publication. See Sykes (1937, [ITEM NO. 2.25806](#) in Volume 1/Part B of [THE GRAND CANON](#)) for extensive notes regarding points pertaining to this volume.]
Map is a fold-out, Plate I, inside rear cover, scale 1:750,000. [Illustrated herein in the front matter](#) (Figure 6, p. xxi).
- 1937 25.933 **Map of the Colorado Delta Region Approximate Status of 1933.**
In: The Colorado delta. *American Geographical Society of New York, Publication 19*, 193 pp., fold-out map. [*Variant 2* of this publication. See Sykes (1937, [ITEM NO. 2.25806](#) in Volume 1/Part B of [THE GRAND CANON](#)) for extensive notes regarding points.]
Map is a fold-out, Plate I, inside rear cover, scale 1:750,000. [Illustrated herein in the front matter](#) (Figure 6, p. xxi).

U.S. Department of the Interior, Office of Indian Affairs

- 1937 25.1927 **Navajo country, Utah, Colorado, Arizona, and New Mexico. 1937.** U.S. Department of the Interior, Office of Indian Affairs. ("Compiled and drawn by E. H. Coulson." With note (exactly): "This map was compiled from the aerial mosaic maps, made by the Fairchiled Aerial Surveys in 1934, Where ever possible the roads were located from the photographs else where they were taken from a map furnished by the Navajo

Service. The names were supplied by the field service. Edward H. Coulson. Chief Engineering Draftsman. Forestry and Grazing Division.”)

Western and northern boundaries of the map follow the Colorado River and San Juan River.

U.S. National Park Service

- 1937 25.181 **Boulder Dam Recreational Area, Nevada-Arizona.** U.S. National Park Service. (“BOU-N.R.-7000”.)
- 1937 25.2132 **Southwestern National Monuments.** U.S. National Park Service, 1 sheet.
Map with pictorial vignettes around border. Map includes Grand Canyon National Park, with vignette there on the map, and Grand Canyon National Monument. Border vignettes include Pipe Spring National Monument.

1938

Jenkins, Olaf P.

- 1938 11.5898 **Geologic map of California : first edition.** California Division of Mines, 1 sheet, scale 1:500,000.

Manning, Reg [Manning, Reginald W.]

- 1938 25.2130 **Reg Manning’s cartoon map of Arizona.** [No imprint.]
Pictorial map. Includes Grand Canyon and Boulder Dam; note also “New Boulder Dam Scenic Highway” from Kingman.
- 1938 25.2277 *Reg Manning’s cartoon guide of the Boulder Dam country.* New York City: J. J. Augustin Publisher. (Augustin’s Cartoon Guides of America, 4.)
See map, **Reg Manning’s Cartoon Map of the Boulder Dam Country.**

U.S. Bureau of Reclamation

- 1938 25.186 **Colorado River basin.** U.S. Bureau of Reclamation. (“Map no. 26380”.)

1939

Aitchison, R. T.

- 1939 25.2 **Arizona.** Wilmington, Delaware: Mentholatum Co.
Pictorial map of Arizona with extensive texts both on the map and surrounding it on left and bottom. Text includes “Grand Canyon of the Colorado” and “Boulder Dam”. Routes of exploration are delineated, but the Ives expedition is shown following the entire South Rim of Grand Canyon. On the lower Colorado River is shown (without label) what must be the Ives expedition steamboat *Explorer* as viewed from above at an oblique angle; the positions of the men resemble the illustration of *Explorer* in Ives’ 1861 report.

Chase, Ernest Dudley

- 1939 25.2135 **World Wonders A Pictorial Map Designed and drawn by Ernest Dudley Chase Winchester, Mass. U.S.A.** ("Copyright 1939 Ernest Dudley Chase".)
 Pictorial map with artistic vignettes on map and around border. Includes labels for "Grand Can." and (somewhat misplaced too far south on the Colorado) "Boulder Dam". Border vignettes include: "The Grand Canyon of Colorado [*sic*], Deepest[,] widest, most marvelous sigght on earth. A mile deep, 10 wide, 283 miles long (in Arizona)". "Boulder Dam, in Ariz[.], largest ever built, 730 feet high, 1300 feet at the crest. Seven million tons of concrete!"

Cobb, Harriet F.

- 1939 25.1939 **The Harriet F. Cobb relief map of the State of Arizona.** ("Compiled, published and sold by Arizona Mapping Service, 903 N. 1st. St. Phoenix-Arizona Phone 42474, Drawn by Harriet F. Cobb, Copyright 1937-P. T. Reeve,-Phoenix, Ariz." "Revised to 1939".)

Greyhound Lines

- NO DATE 25.2133 **Greyhound's Good Natured Map of the Colorful Southwest.**
In: Greyhound across America via colorful Southwest. [No place]: Greyhound Lines, folded pamphlet. ("Litho. in U.S.A. Sunset Press, S. F.") [1939.]
 Pictorial map of Greyhound and connector routes, stylized, with artistic vignettes. Includes Grand Canyon and Boulder Dam.

H. M. Gousha Company

- 1939 25.2492 **Phillips Petroleum Company 1939 Official Road Map Utah Maximum Speed Law—50 Miles per Hour.** Chicago: H. M. Gousha Co., 1 sheet.
 ► Includes northern Arizona to embrace the Grand Canyon National Park, but a key cartouch obscures the western side of that area, revealing only a small portion of Grand Canyon National Monument and Boulder Dam National Recreation Area. Pipe Springs [*sic*] National Monument and Kaibab Indian Reservation are delimited, but the Havasupai and Hualapai are not noted. The northern unit of Kaibab National Forest is delineated, and a portion of the southern unit. Verso text with U.S. map.

Nevada Department of Highways

- 1939 25.643 **State Highway Department's official road map of the State of Nevada, 1939.** Carson City, Nevada: Nevada Department of Highways, 1 sheet.
 ► The Kingman-Boulder Dam highway in Arizona is depicted as paved only from north of Chloride to the dam. Boulder Dam Recreational Area and "Mead Lake" are depicted.

Paine, Paul M.

- 1939 25.2131 **Map of America's making A chart of places and events—For those who would sail with the Discoverers . . . seek freedom with the Colonists, follow the westward trails . . . subdue the wilderness and behold . . . the building of the republic.** ("R. R. Bowker Company, 62 West 45th Street, New York, N.Y.") ("Copyright by Paul M. Paine—1925–1926–1929–1939.") [Ellipses, thus, are part of the title.]
 ► An illustrated map with text boxes. "Grand Canyon" is denoted by hachures along a stylized "Colorado R.", with the notation, "Explored by John Powell 1869-72". This ed. adds, "Boulder Dam 1936" (no illustration).

Public Works Administration, Division of Information

- NO DATE 25.2129 **PWA Rebuilds the Nation.** [No imprint], 1 sheet. ("Cartographer–Earl Purdy".) [1939.]
Pictorial map of selected P.W.A. projects, illustrated by artistic vignettes on map and map border. Includes "Boulder Dam World's Highest". "All-American Canal Water from Colorado River to Imperial Valley".

Raisz, Erwin

- 1939 24.822 **Map of landforms of the United States : to accompany Atwood's Physiographic Provinces of North America.** [Cambridge, Massachusetts]: [Harvard University, Institute of Geographical Exploration], 1 sheet, scale *ca.* 1:4,500,000. (Printed by Ginn and Co.)
Sheet, 25 × 40 inches, produced separately to accompany Atwood (1940), *The physiographic provinces of North America* (Boston: Ginn and Co.).

Standard Oil Company of California

- 1939 25.2295 **Standard Oil Company of California Presents Mickey's and Donald's Race To Treasure Island Golden Gate International Exposition on San Francisco Bay.** ("Walt Disney Entire contents copyright 1939 by Walt Disney Productions All rights reserved Printed in the U.S.A.") ("form No. M-233".)
Pictorial map of the U.S. on game board format promoted by *Travel Tykes* weekly magazine, on which comic strip panels from the magazine were to be pasted onto the text squares that included clues in verse. Users followed the travels of Mickey Mouse and Donald Duck. Arizona's vignette depicts Donald Duck looking with excitement at the Grand Canyon.

Winters, Raymond

- 1939 25.2109 **Las Vegas, Nevada : still a frontier town.** [No imprint], 1 sheet.
Copyright 1939 Las Vegas Nevada Chamber of Commerce. Oblique-view cartoon map of Las Vegas-Boulder Dam-Lake Mead area, with parenthetical insets depicting other regional sights, including Grand Canyon. 22 × 40 cm. Text and photos on verso.

1940**Beard, M. M.**

- 1940 25.777 The fabulous West; Pick-Ups presents a broadcasting view of it. *Pick-Ups* (Western Electric Company, New York), (August): 6-7, 25.
Radio broadcast stations. **MAP** (p. 6) indicates stations in Yuma and Imperial Valley areas.

Chase, Ernest Dudley

- 1940 25.1747 **The United States as viewed by California (very unofficial) Distorted and Drawn by Ernest Dudley Chase Winchester, Mass.** ("Copyright 1940, Ernest Dudley Chase.")
Pictorial map labels Colorado River, Blythe, Needles, El Centro, Imperial Valley, and "Salton Lake 250 ft. below sea level". "Grand Canyon" is labeled (but not depicted) at the northwestern corner of an Arizona (not labeled) with stylized boundaries.

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 1940 25.2136 **America the Wonderland A Pictorial Map of the United States Designed and Drawn by Ernest Dudley Chase of Winchester, Massachusetts.** ("Published and Copyrighted by Ernest Dudley Chase of Winchester, Mass. 1940.")
Pictorial map with artistic vignettes on map and around border. Includes Grand Canyon and Boulder Dam with vignettes on map; also note vignette at Overton, Nevada, which depicts the Lost City Museum. Also see vignette at upper left corner, "The Grand Canyon of Arizona. One of the Seven Wonders of the Natural World, 220 miles long, 10 to 12 miles wide. A Masterpiece of the Great Architect of Creation."; vignette is stylized after a view of Grand Canyon Lodge, North Rim.

Fergusson, Erna

- 1940 25.817 *Our Southwest.* (Photographs by Ruth Frank and others.) New York and London: Alfred A. Knopf, 376 pp., fold-out **MAPS**.

Ferris, Warren Angus

- 1940 25.818 *Life in the Rocky Mountains : a diary of wanderings on the sources of the rivers Missouri, Columbia, and Colorado from February, 1830, to November, 1835, by W. A. Ferris, then in the employ of the American Fur Company, and supplementary writings by Ferris, with a detailed map of the fur country, drawn by Ferris in 1836. Edited, and with a life of Ferris, and a history of explorations and fur trade, by Paul C. Phillips.* Denver: F. A. Rosenstock, Old West Publishing Co., xcv, 365 pp., **MAP**.
WHEAT II:416 [with illustration facing p. 156]

Preface indicates that diary was first published in *Western Literary Messenger*, July 13, 1842, to May 4, 1844.

See in Appendix: "Supplementary Articles. Number 1. Chanion of the Colorado", pp. 319-320, which transcribes Ferris (1842, **ITEM NO.** 2.11635 in Volume 1/Part B of **THE GRAND CANON**) that generally refers to the canyons below the confluence of the Grand and Green Rivers.

► **MAP: The 1836 manuscript map by Ferris, without title, was first published in this volume.** The map includes a prominent stretch of the "Rio Colorado" embraced by boxes on either side, labeled, "Great Chanion of the Colorado", which is placed below the confluence of "Green River or Soos Ke de" [*i.e.*, "Seeds-ke-dee"] and "Rio Grand" and extends between "Rio St. Michael" and "Rio Dolores". Despite the map's clear portrayal of the landscape of Upper Basin only, some references point to the obvious labeling that is an early and inferred use of the term "Grand Canyon", although it is not in reference to the canyon of Arizona. Wheat (Volume 2, 1958, pp. 155-157, 241-242), provides significant remarks pertaining to this map.

Goldwater, Barry M.

- 1940 25.834 *A journey down the Green and Colorado Rivers : from the diary of Barry M. Goldwater.* Phoenix: H. Walker Publishing Co. [privately published], 106 + xiii [xv] pp., **MAP**. [300 copies.]

Ford describes this as "mimeographed on one side; map; stapled gray paperback" and notes, "All . . . hand numbered and signed by the author."

Haack, W., AND Lautensach, H.

- 1940 25.2440 **Verinigte Staaten, Mittelamerika, Westindien.** ("Gotha: Justus Perthes".) ("Sydow-Wagners method. Schul-Atlas Nr. 56".) ("Bonne'sche Projektion. Radius des 30. Parallelkreises (in Proj. u. MBstb. d. Karte 1:2000000) = 553 mm".) [**In German.**]
In: Sydow-Wagners methodischer Schul-Atlas : 21. Auflage. Gotha: Justus Perthes.

► "Green R." and "Grand R.", with "Colorado" downstream, are delineated as encanyoned. The label "Cañon des Colorado" appears on the reach between the Grand-Green confluence and the confluence of "Kl. Colorado" (Little Colorado River).

Note that the Colorado does not follow the course of the Grand River, which had been renamed two decades earlier. A line crossing the river, with the label "Staudamm", appears at Boulder Canyon (not labeled), thus conveying old data for the location of what was, in 1940, the completed Hoover Dam in Black Canyon. The routes of the Santa Fe and the Southern Pacific railways are delineated.

Lindgren, Jolly [Lindgren, Hjalmer]

- 1940 25.141 **A hysterical map of Grand Canyon National Park : a mile deep and ever so wide : a swell place to throw your old razor blades.** Spokane, Washington: Lindgren Brothers, 1 sheet.
- 1940 25.2360 **A hysterical map of Utah which includes Zion, Bryce Canyon, Cedar Breaks, & Stinking Springs : Utah Center of "Scenic America" Geographical Center of 62 National Parks & Monuments.**
 Wrapper title: **Jig-Saw Puzzle Hysterical Map Souvenir Entertaining Educational Fun For Everyone.**] Spokane, Washington: Lindgren-Turner Co. ("Drawn in Broken English By Jolly Lindgren".)
 Includes northernmost Arizona, where "Grand Canyon National Park" is delineated, with "Bright Angel Point" specifically marked. East of there is noted, "This section is unknown as we have had no good reason for coming over here!"

National Geographic Society

- 1940 25.2212 **The Southwestern United States.** ("Executed in the Cartographic Section of The National Geographic Magazine Gilbert Grosvenor, Editor Washington, D.C.: June, 1940".) ("James M. Darley, Chief Cartographer Culture by Apphia E. Holdstock, Research by Wellman Chamberlin Physiography by John J. Brehm and H. E. Eastwood Designed by Charles E. Riddiford".) Scale 1:2,500,000.
 Very detailed map, with frequent annotations. Numerous routes of exploration and commerce are delineated, 1539-1861. In the Colorado River delta area, rivers are labeled "Colorado (Old Channel)" and "Hardy"; the course of the latter passes through "L. de los Volcanes" in Baja California. Boundaries are shown for Grand Canyon National Park, Grand Canyon National Monument, Pipe Spring National Monument, Boulder Dam National Recreation Area, as also are Indian reservations. National forests are not delineated. An exploratory route to "Supai" is labeled "Cardenas 1540" while an annotation appears beside Grand Canyon, "Discovered by Don Garcia Lopez de Cardenas, one of Coronado's Captain 1541".

1941

Brawley Chamber of Commerce

- 1941 25.1842 **Scenic map of the Imperial Valley desert area.** Brawley, California: Brawley Chamber of Commerce. ("Official Tourist Map of Imperial Valley California Adopted by Board of Supervisors Nov. 17, 1941 W. J. McClelland [*facsimile signature*] County Clerk".)
 Map caption: "Imperial Valley is in the heart of one of the most fascinating recreational areas in the Southwest".
 Map is centered on Brawley.

Calexico (California) Chamber of Commerce

- 1941 25.361 **Official tourist map of Imperial County, California.** Calexico, California: Calexico Chamber of Commerce, 1 sheet. (Text on verso.)
 Display title: **Scenic Maps—Imperial Valley Desert Area.**

For the greater Grand Canyon region, see Sheets 2, 5; for lower Colorado River region, see Sheets 3, 4, 9, 10.

U.S. National Park Service

- 1944 25.136 **National park location map no. 6 : southwestern states.** [No place]: U.S. National Park Service, folded pamphlet. (Drawn by J. J. Black, June 1944. Printed by Cullom and Ghertner Co., Nashville, Tennessee, "50M-7-14-44".)
Map embraces Oklahoma, Texas, Colorado, New Mexico, Utah, and Arizona. Text and illustrations on verso of opened pamphlet. Cover illustration depicts Colorado River and Inner Gorge of Grand Canyon at Bright Angel Creek.

1945

Chase, Ernest Dudley

- 1945 25.2137 **A Pictorial Map of North America designed, drawn and published by Ernest Dudley Chase Winchester, Massachusetts, U.S.A.** ("Copyright 1945, Ernest Dudley Chase, Winchester, Mass.") ("Printed in U.S.A.")
Pictorial map with artistic vignettes on map and around border. Includes Grand Canyon and Boulder Dam with vignettes on map.

Mora, Jo

- 1945 25.996 **California.** Monterey, California: Jo Mora Publications.
Cartoon physiographic map. Lower-right corner depicts Salton Sea region and Colorado River from Needles to Mexico.

U.S. Bureau of Reclamation

- 1945 25.182 **Colorado River basin principal power systems, existing and potential.** U.S. Bureau of Reclamation, map. ("56-D-556".)

1946

Fred Harvey [firm]

- 1946 25.133 **Illustrated map of the great Southwest : including points of interest in New Mexico and Arizona.** Fred Harvey Co. ("F.G." credit.)
Includes one **INSET**, showing "Grand Canyon National Park and Vicinity". Variant of Fred Harvey (no date [ca. 1935]).

Putnam, Claude G., AND Brown, Karl F.

- 1946 25.359 **Historic roads to romance : California's southern empire, tourist paradise.** [No place]: Roads to Romance Association, Inc., 1 sheet.
Pictorial relief map including lower Colorado River. Oblique view from the south, as if looking at earth's curved surface.

Raisz, Erwin

- 1946 24.824 **Map of the landforms of the United States : to accompany Atwood's Physiographic Provinces of North America.** [Cambridge, Massachusetts]: [Harvard University, Institute of Geographical Exploration], 4th revised ed., 1 sheet, scale *ca.* 1:12,000,000. [Sheet, 11 × 17 inche.]

Union Pacific Railroad Company

- 1946 25.2364 **Western Vacationlands.** [No place]: Union Pacific Railroad, folded brochure. (Map with signature, "Willmarth".) ("Printed in U. S. A. 2-1-46 Rand McNally, Chicago".)
Pictorial map displaying Union Pacific rail routes and connecting tour routes, including artistic vignette of "Grand Canyon Nat'l Park" (connecting from Lund, Utah) and artistic vignette of "Boulder Dam" and "Lake Mead" (connecting from Las Vegas, Nevada).

U.S. Army Air Forces

- 1946 25.2419 **U.S. Army Air Forces Aeronautical Planning Chart (9W) United States.** Washington, D.C.: AAF Aeronautical Chart Service. ("First Edition Subject to Correction".) ("Lines of equal magnetic variation for 1945 Aeronautical information August 1946 By AAF Aeronautical Chart Service".) Scale 1:5,000,000.
One of 43 aeronautical planning charts for the world.

1947

Chase, Ernest Dudley

- 1947 25.2138 **Stamps of America Dedicated to Philatelists Everywhere designed, drawn and published by Ernest Dudley Chase Winchester—Massachusetts, U.S.A. Research by Charles Peck Kerr.** ("Copyright 1947, Ernest Dudley Chase, Winchester, Mass.")
Pictorial map reproducing U.S. postage stamps as vignettes at places on map, with more vignettes around borders. Includes 2¢ "Grand Canyon, 1934 Red" and 3¢ "Boulder Dam, 1935. to completion, Purple".

Travel-Aid

- 1947 25.143 **Las Vegas Nevada invites you! See Boulder Dam, Lake Mead.** Las Vegas, Nevada: Travel-Aid, 1 sheet, folded.

1948

U.S. Bureau of Reclamation

- 1948 24.857 **Colorado River Storage Project, Glen Canyon Unit—Arizona & Utah, Geologic Map, Mile 15 Damsite.** Boulder City, Nevada: U.S. Bureau of Reclamation. (557-300-4.)
Dated "11-4-1948", "Supersedes Dwg. No. 557-300-1". Drawn by R.L.W.
Traced by R.S.W.
Geologic map of the Glen Canyon Dam site, Colorado River Mile -15.
This map was also reproduced in 1955 in: *Colorado River Storage Project : hearings before the Subcommittee on Irrigation and Reclamation of the Committee on Interior and Insular Affairs, House of Representatives, Eighty-fourth Congress, First Session, on H. R. 270, H. R. 2836, H. R. 3383, H. R. 3384, and H. R. 4488, to authorize the Secretary of the Interior to construct, operate, and maintain the Colorado River Storage Project and participating projects, and for other purposes : Part 2 : March 11, 14, 16, 17, 18, 19, and 28, 1955 : Serial No. 4.* Washington, D.C.: U.S. Government Printing Office, facing p. 372 (fold-out); accompanying "Question period of J. Neil Murdock, regional geologist, Bureau of Reclamation; Kenneth B. Keener, Chief Designing Engineer, Bureau of Reclamation; Elmer Bennett, legislative counsel, Department of the Interior; and E. O. Larson, Regional Director, Bureau of Reclamation, accompanied by C. B. Jacobson—resumed" (pp. 359-388).

U.S. Geological Survey

- 1948 24.831 **Plan and profile of Little Colorado River from mouth to Tolchaco damsite, Arizona.** U.S. Geological Survey, 3 sheets, scale 1:31,680. (Topography by J. L. Lewis. "Surveyed in 1926.")
Reprint of 1927 ed.

1949

Automobile Club of Southern California

- NO DATE 25.535 **Hoover Dam and vicinity.** Los Angeles: Automobile Club of Southern California, 1 sheet.
[Ca. 1949.]

Brayer, G. M., AND Brayer, H. O.

- 1949 25.20 (COMPILERS) **America's cattle trails.** Denver: American Pioneers Trails Association, scale 1:6,000,000. [1950.]

Eardley, A. J.

- 1949 24.63 **Paleotectonic and paleogeologic maps of central and western North America.** *American Association of Petroleum Geologists, Bulletin*, 33: 655-682.

1950

Bloodgood, Don

- NO DATE 25.514 **Your souvenir pic-tour map of Arizona : where to go . . . what to see.** Phoenix: Bob Petley, 1 sheet; folded brochure for mailing; photos with legends on mailer recto; map on verso. [Ca. 1950.] ("A Mirro-Krome ® Product by H. S. Crocker Co., Inc., San

Francisco".) ("Published and Distributed by Bob Petley, Phoenix, Arizona".)
("Copyright H. S. Crocker Co., Inc.") [Ellipsis is part of title.]

Title on map: **A pic-tour map of Arizona.**

"DB" monogram on map identifies the artist, Don Bloodgood.

"1950" date cited in various catalogs. A copy seen with this notation,
"Distributed by Petley Studio's [sic], Inc., 4051 East Van Buren, Phoenix, Arizona
85008", which by the use of the postal ZIP code dates that copy to 1963 or after.
Earlier versions (not seen) may incorporate the printed date.

Grand Canyon National Park and Grand Canyon National Monument are
depicted.

Boulder Dam Service Bureau

NO DATE 25.162 **Free street guide of Boulder City.** Boulder City, Nevada: Boulder Dam Service Bureau, 1
sheet. [Ca. 1950.]

Eddy, Gerald A.

NO DATE 25.219 **Panorama of Boulder Dam : Grand Canyon : showing routes of scenic "Wonder Air Tours".**
[Los Angeles?]: Gerald A. Eddy, for United Air Lines. [1950s.] [MAP.]

General Drafting Company

1950 25.2433 **A Pictorial Map of the United States of America Showing Principal Regional Resources,
Products, and Natural Features.** Convent Station, New Jersey: General Drafting Co.,
Inc., folded brochure.

Cover title: **Pictorial Map of the United States with Trip-Planning Guide •700
drawings in full color •Color photographs with text •Main highways of the U.S. Know Your
America!**

In the area of interest to this Cartobibliography "Hoover Dam" (with Lake
Mead) and "Grand Canyon National Park" are depicted with artistic vignettes.

1950 25.2434 **アメリカ合衆国の絵図：主要な地域の資源、製品、自然の特徴を示しています。**
[Amerikagasshūkoku no ezu: Shuyōna chiiki no shigen, seihin, shizen no tokuchō o
shimeshite imasu] [A pictorial map of the United States showing the resources,
products, and natural features of its major regions]. Convent Station, New Jersey:
General Drafting Co., Inc., folded brochure. [In Japanese.]

Translation of General Drafting Co. (1950, ITEM NO. 25.2433).

1950 25.2435 **نقشه تصویری ایالات متحده آمریکا: نمایش منابع اصلی منطقه، محصولات و ویژگی های طبیعی.**
[Pictorial map of the United States: showing the region's major resources, products,
and natural features]. Convent Station, New Jersey: General Drafting Co., Inc., folded
brochure. [In Persian.]

Translation of General Drafting Co. (1950, ITEM NO. 25.2433).

México. Oficina del Ingeniero en Jefe

1950 25.2278 **Ferrocarriles Nacioinales de Mexico.** Mexico, D.F.: Oficina del Ingeniero en Jefe, 3rd ed.
("A. Alonso—Dibujó." "H. Padilla—Dibujó." "J. R. Calderon Jefe de Dibujantes."
"S. M. Sánchez G.—Corrigió".) [Railway shown in northwesternmost Sonora crossing
"R. Colorado" into Baja California to connect with joint railway of Mexico and the U.S.
between Yuma and San Diego.] [In Spanish.]

U.S. Bureau of Public Roads

- 1950 25.1574 **Department of Commerce Bureau of Public Roads United States System of Highways adopted for uniform marking by the American Association of State Highway Officials November 11, 1926 with additions and amendments subsequently approved 1950.** ("Corrected to January 1, 1950".) ("Note The roads shown hereon indicate routes designated by the American Association of State Highway Officials for uniform marking to facilitate the movement of interstate traffic. With few exceptions these roads have now been improved with artificial surfacing adequate for the requirements of all-weather travel. The U.S. System of Highways is distinct from, although largely coincident with, the more extensive system of approved Federal-aid highways.")
Only rivers, highways and towns are labeled, with highways designated by their route numbers.

1951**Automobile Club of Southern California**

- NO DATE 25.1937 **Automobile road map of the Indian country embracing portions of Arizona, New Mexico, Utah and Colorado.** Los Angeles: Automobile Club of Southern California, 1 sheet. [1951.]

President's Water Resources Policy Commission, Committee on River Program Analysis

- NO DATE 25.905 **No. 5. The Colorado.** [Washington, D.C.: U.S. Government Printing Office], 108 pp., 3 maps. (Separate from series *Ten Rivers in America's Future. Volume 2, The report of the President's Water Resources Policy Commission.*) [1951.]
Original draft 1950; ed., revised Edward A. Ackerman, John C. Beebe, John M. Carmody, Patricia Howse, Edward N. Munns, Evelyn S. Myers, and Jane G. Perry. Figure 5, fold-out map, dated January 1951. Signatures carry GPO printing code prefix "51".

Storie, R. Earl, AND Weir, Walter W.

- 1951 11.18928 **Generalized soil map of California.** *In:* Storie, R. Earl, and Weir, Walter W. [no date], Generalized soil map of California. *California Agricultural Experiment Station Extension Service, Manual 6* (University of California, College of Agriculture, Agricultural Experiment Station and Extension Service), 52 pp., map in pocket. [Map is dated April 1951.]

TWA [Trans World Airlines]

- 1951 25.2415 **TWA Air Routes in the United States.** [No place]: TWA. ("Litho in U.S.A. 150M 6-50".) ("Copyright 1951, Trans World Airlines, Inc. Litho in U.S.A. 507003".)
See "Map No. 5", "San Francisco-Los Angeles-Albuquerque Fresno, Las Vegas—Boulder City, Phoenix, the Grand Canyon". ("© General Drafting Co., Inc., N. Y.") Descriptive text includes artistic vignettes, one of which is a stylized view of the Grand Canyon with a portion of the Kolb Studio in it (recognized here from color postcards of this view distributed by TWA around this time).

U.S. Geological Survey

- 1951 11.735 **Lake Mead sedimentation survey: Overlays for 43 sheets of Soil Conservation Service maps of 1935, showing sediment surface in 1948-49.** *U.S. Geological Survey, Open-File Report.*

1952

Four Corners Geological Society

- 1952 24.72 **Geologic map; Four Corners area.**
In: Geological symposium of the Four Corners region. [Durango, Colorado]: Four Corners Geological Society, fold-out plate.

Luedke, R. G., AND Shoemaker, E. M.

- 1952 24.122 **Tectonic map of the Colorado Plateau.** *U.S. Geological Survey, Trace Elements Memorandum Report 301.* [Open-file 53-162.]

Raisz, Erwin

- 1952 24.825 **Map of the landforms of the United States : to accompany Atwood's Physiographic Provinces of North America.** [No place]: U.S. Weather Bureau, 1 sheet, scale *ca.* 1:4,500,000. [Sheet, 25 × 40 inches.]

U.S. National Archives and Records Service

- 1952 25.942 **Geographical exploration and topographic mapping by United States government, 1777-1952 : an exhibit catalog.** Washington, D.C.: U.S. National Archives and Records Service, General Services Administration, 52 pp.

1953

All-Year Club of Southern California

- 1953 25.1970 **Official All-Year Club sight-seeing map : Southern California.** Los Angeles: All-Year Club of Southern California, Ltd.

Automobile Club of Southern California

- 1953 25.15 **Hoover Dam and vicinity.** Los Angeles: Automobile Club of Southern California, 1 sheet.

Berton, Francis

- 1953 25.788 *A voyage on the Colorado—1878.* (Charles N. Rudkin, translator, ed.) Los Angeles: Glen Dawson, 103 [104] pp., map. (Early California Travels Series, no. 18.) ("300 copies have been printed at the Cole-Holmquist Press[,] Los Angeles[.] Binding by Earl Gray[.]")
 English translation of Berton (1878, *Un voyage sur le Colorado : par Francis Berton[,], Membre Correspondant de la Société de Géographie de Genève.* San Francisco: [no imprint]). Includes (p. 17) a facsimile illustration of the title-page of the very scarce 1878 ed. (and although not so noted by Rudkin, that volume is Berton's presentation copy to the Société de Géographie de Genève, of which Berton was a member). Some lithographic plates and the fold-out **MAP** in the 1878 ed. were reproduced from Richard J. Hinton's (1878, **ITEM NO.** 2.3421) *The Hand-Book to Arizona*, as so acknowledged by Berton. Rudkin pointed out that many of the scenes reproduced from Hinton by Berton have nothing to do with the region through which Berton had traveled (for example, Berton did not go to the Grand Canyon). The 1953 translated ed. does not reproduce all of the illustrations that appeared in the 1878 ed., and only that portion of Hinton's map that is pertinent to Berton's travels is reproduced. The two lithographs of Grand Canyon are among those *not* included in

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

this 1953 ed. The selected illustrations and portion of **MAP** are thus more faithful to the range of Berton's travels. The translated text, however, is complete and includes the brief references that are made *in passing* to "Big Cañon" and "gorge de marbre".

Eddy, Gerald A.

- 1953 25.1753 **Panoramic perspective of the area adjacent to Las Vegas–Hoover Dam and Lake Mead National Recreation Area. Served by Union Pacific Railroad.**
In: Las Vegas : Hoover Dam, Lake Mead National Recreation Area. [No place]: Union Pacific Railroad, folded brochure. ("Printed by R. M. Rigby Printing Co., Kansas City, Mo., U.S.A. 7-53".)
MAP, artistic oblique view looking northward, appears on verso of unfolded brochure.

National Geographic Society

- 1953 25.70 **Historical map of the United States.** Washington, D.C.: National Geographic Society, scale *ca.* 1:5,000,000.

U.S. Bureau of Indian Affairs

- 1953 25.238 **Kaibab Indian Reservation, Arizona.** Phoenix: U.S. Bureau of Indian Affairs, 1 sheet.

U.S. Department of the Interior, Lower Colorado River Land-Use Committee

- 1953 25.341 **Present and proposed land use, lower Colorado River Valley.** [No imprint], 1 map on 4 sheets, scale *ca.* 1:126,720. (Nos. 57-300-140 to 57-300-143.) (Prepared by Lower Colorado River Land-Use Committee *for* Colorado River-Great Basin Field Committee.)

1954

Manje, Juan Mateo [Mange, Juan Mateo]

- 1954 25.881 **Major Exploration Routes; Cápitan Juan Manje in Company With Eusebio Francisco Kino in Unknown Pimeria Alta 1693-1721"; "Exploration Routes and Indian Trails Drawn from the Field Notes and Maps of Harry Karnes.**
In: Unknown Arizona and Sonora, 1693-1721 : from the Francisco Fernández del Castillo version of Luz de Tierra Incógnita by Captain Juan Mateo Manje : an English translation of Part II by Harry J. Karns and associates. Tucson: Arizona Silhouettes, 303 pp., color map in pocket. ["Limited First Edition of 1,500 numbered copies"; 1-50 in "de luxe cowhide covers", the remainder in cloth.]

1955

Finch, Warren I.

- 1955 24.69 (COMPILER) **Preliminary geologic map showing the distribution of uranium deposits and principle ore-bearing formations of the Colorado Plateau region.** *U.S. Geological Survey, Mineral Investigations Field Studies Map MF-16*, scale 1:500,000.

Schuchert, Charles

- 1955 24.179 **Atlas of paleogeographic maps of North America.** New York: John Wiley and Sons, Inc., 177 pp.

U.S. Coast and Geodetic Survey

- 1955 25.237 **Lake Mead : Iceberg Canyon to Lower Granite Gorge.** Washington, D.C.: U.S. Coast and Geodetic Survey, 1 sheet.
Hydrographic chart. Verso includes "Lake Mead, Temple Bar Area".

U.S. National Park Service

- 1955 25.116 **Visitors' guide to Grand Canyon National Park : North Rim.** U.S. National Park Service, 1 sheet; text on verso. ("April 1955", "NP-CG[sic]-7015".) [Map is an oblique view of a featureless plateau and diagrammatic physiography of the adjacent canyon. North Rim developed area is shown as are roadways and mileages from the Entrance Station to Bright Angel Point, Point Imperial, and Cape Royal; "Head of Kaibab Trail" denoted.]

Vindel, Francisco

- 1955 25.301 **Mapas de América en los libros Españoles de los siglos XVI al XVIII (1503-1798) : con 241 facsimiles.** Madrid: [Talleres Tipograficos de Góngora], 378 pp. [In Spanish.]

Jones, Leslie Allen [Jones, Les] ⁹⁰

- 1962 10.14 **[Les Jones' scroll map of the Colorado River in Grand Canyon.]** Heber City, Utah: Leslie Allen Jones [Western Whitewater Co.], continuous scroll, photostatically reproduced, scale *ca.* 1:33,500. [Later issued by Jones from Midway, Utah.] **[Numerous variants without date change; no complete compendium yet exists.]**

All maps were reproduced on an as-needed basis. Earlier variants blue-line reproduced on roll paper, later variants reproduced in black on more water-resistant and sturdier roll stock such as Mylar.

No title *per se* and often referred to as "Les Jones' Scroll" or "the Les Jones Scroll". Library catalog records generally record catalogers' contrived titles; for example, "Grand Canyon river guide scroll map", "Grand Canyon", "Grand C.", and "Rafting map of Colorado River and Grand Canyon from Lees Ferry, Arizona to Diamond Creek"). Start of scroll notes, "This map is by Leslie A. Jones, 1962". Separate sheet, "Handling Instructions", notes "Copyright 1960". Distributed in plastic bag with instructions on use in bag so as to allow continuous scrolling while on the river. Note that the earlier reproductions on paper were subject to rapid fading in sunlight.]

- Jones' Grand Canyon map is based on the U.S. Geological Survey's 1924 *Plan and profile of Colorado River from Lees Ferry, Ariz., to Black Canyon, Ariz.-Nev., and Virgin River, Nev.* (see Birdseye, 1924, **ITEM NO.** 24.46); the separate Birdseye plans and profiles are reproduced in continuous parallel views. Profusely annotated by Jones with ratings of rapids, notes of river flows during historic trips, miscellaneous historical notes and notes from trips taken by Jones, occasional inset sketch maps of rapids with boat run lines at the times when mapped, and geological notes. Also noted for this citation is a table of data for a kayak run of the river, Lees Ferry to Pearce Ferry, September 1962 (table in two separate sections on scroll). Annotations emended occasionally, sometimes with keyed dates affixed.

Other specifically interesting annotations, added after 1962, include table, "All time record low water run: 1000 cfs very fine rock exposed", October 1963; table

⁹⁰ Jones privately produced numerous sheet and scroll maps for use on various western rivers. All maps were produced on an as-needed basis. Those that relate specifically to the area covered by this bibliography are cited here. Information significantly contributing to these citations and this note was obtained from Richard D. Quartaroli in January/February 2020. Two price lists from Jones, dated March 20, 1982, and July, 1989, indicate products that were available at those times. The known set of maps are (quoted from the price lists and numbered here for convenience, not as record; Grand Canyon products noted in **bold**):

1982 LIST — "Colorado River Basin": [1] "Desolation-Red C." [and] "Lodore-Split Mtn.", [2] Moab-Green R., [3] "Westwater Canyon (Granite C. to Moab)", [4] "Cataract Canon (From Moab)", **[5] "Grand Canyon"**, [6] Yampa River (Maybell-Echo Park), [7] "Dolores River (Dolores to Colo. River)". "Oregon Rivers": [8] "Rogue River", "Mc Kenzie River" [*sic*]. "Idaho-Wyo. Snake River Basin": [9] "Lt. Gr. C. of Snake (Moran to Alpine)", [10] "Hells C. (Snake River)", [11] "Middle Fork of Salmon", [12a] "Main Salmon" (12-inch-wide scroll), [12b] "Main Salmon" (5-inch-wide scroll), [13] "Selway, Lochsa, Clearw.". "British Columbia-Canada": [14] "Columbia River (Golden-Revelstoke)".

1989 LIST — "Colorado R. Basin": [1] "Yampa River, Maybell thru Cross Mtn.", [2] "Blue Mtn. C. to Echo Park"; [3] "Green & Colorado R. Red C., Lodore, Split Mtn."; [4] "End Split Mtn.-Sand Wash", [5] "Desolation & Grey Canyons", [6] "Moab-Green R. City (Canyons)", [7] "Westwater C. (Westw.-Moab)"; [8] "Colorado River, Cataract Canyon.: Moab-Dark C.", **[9] "Grand C.: Lee's Fy.-Diamond Cr.", [10] "Grand C.: Diamond Cr.-Lake Mead"** [this is the "Lower Granite Gorge" map noted herein as **ITEM NO.** 10.115]; [11] "San Juan River, Chinle Cr.-Lake Powell". "Snake River Basin": [12] "Moran to Jackson: Snake R.", [13] "Hoback & Greys Rrs & Little Grand C. of the Snake", [14] "Palisades Res. & Swan Valley", [15] "Hell's C.: Brownley-Lewiston", [16] "Selway: Whitecap Cr.-Lochsa R.", [17] "Lochsa R.: Crook Cr.-Mouth", [18] "Clearwater: Lochsa R.-Mouth". "Salmon R. Basin" [19] "Middle Fk. of Salmon 1990", [20] "Salmon: M. Fk.-Vinegar Cr.". "Oregon Rivers": [21] "Rogue River to the Ocean", [22] "McKenzie River".

appears in two separate sections on scroll. Scroll concludes with graphical data for river flows according to weeks of the year.

Widths of scrolls can vary between ca. 7-10 inches, depending upon the amount of free space on the medium used. Variants include coverage Lees Ferry to Diamond Creek (a 1995 reproduction, a signed copy acquired by Spamer in 1995, measures 6¾ inches × 29 feet, 4 inches). Other measurements noted from library catalog records are: Lees Ferry to Lake Mead, Temple Bar (7 inches × 43 feet, 4½ inches); and Lees Ferry to Lake Mead, Overton Arm (8 inches × 51 feet, 5 inches).

- *Other points* (taken from the 1995 variant noted above) — Scroll head notes: "Western Whitewater Snake, Salmon, Colorado, Green, Madison, Yellowstone, Missouri; ride the wilderness whitewaters in reverence before God—with a prayer his strength will be in you—Leslie Allen Jones, 3451 N. River Rd., Midway, Utah, 84049". "Whitewater exploration and mapping—Colorado Basin". Start of scroll headed "To: (226 mi.) Diamond Cr." The 1995 production seems to have been prepared in order to add notations of photo numbers from the Grand Canyon "Legends" river trip of September 1994 (also known as the "Old Timers Trip"). An asterisk notes on the margin, "The Grand Canyon Continuous Photo Album Set is available at the Historical Libraries: Cline Library, Flagstaff, Az., BYU [Brigham Young University], Utah, Univ. of Utah, and from Leslie A. Jones".

- Richard Quartaroli's partial record (January/February 2020) of Jones scrolls notes for Grand Canyon the following variants (numbered here for convenience and not for record, parenthetical dates indicate dates interpreted from annotations): [1] Lees Ferry to Virgin River, Colorado River miles 0-330, 1962 (1963?), 11¼-inch paper; [2] Lees Ferry to Virgin River, miles 0-330, 1962 (1964), 7¾-inch paper; [3] Lees Ferry to Lake Mead, miles 0-315, 1962 (1963), 7-inch Mylar; [4] Lees Ferry to Lake Mead, miles 0-315, 1962 (1965), 7½-inch Mylar; [5] Lees Ferry to Diamond Creek, 0-226, 1962 (1995), 6½-inch Mylar; [6] Lees Ferry to Diamond Creek, 1962 (1995), 8½-inch Mylar. Quartaroli also reports (July 2020) [7] a poorly reproduced 7-inch Mylar scroll with many splices that had been acquired by a previous user in 2001, with signs of having been used on the river, which *begins* at Spring Canyon, and at the end of which is the labeling and notations, "Lower Granite Gorge: Grand C. M.P. 225.5 → 246.5 11.2'/mi. : L. Mead Silting In Begins Abv. Separation Rapid: M. P. 240" and "Out → Temple Bar".

Arizona Development Board

- NO DATE 25.1918 *Meet Arizona's Indians*. Phoenix: Arizona Development Board, folded brochure. [1963.]

Verso comprises a pictorial map of Arizona, with cartouche title, "Arizona Indians with a border of Ancient Arizona Pottery Types by Don Perceval"; map legend, "Arizona. Rich in Indian Culture and Lore" ("Lithographed by Northland Press, Flagstaff, Arizona"). The map displays principal highways and the locations of Indian reservations, with colored drawings of representative women and men of the various tribes, most of them displaying their craftwork.

Bishop, Charles C.

- 1963 11.5894 (COMPILER) **Geologic map of California, Olaf P. Jenkins edition, Needles sheet**. California Resources Agency, Department of Conservation, Division of Mines and Geology, scale 1:250,000, 1 sheet, text 4 pp. (GAM-010.)

Needles, California-Arizona sheet; geological coloring only in California.

Cornwell and Cooper Enterprises

- 1963 25.986 **Arizona's lost mines and ghost towns : frontier military forts**. (Drawn by Larry Toschik.) [Scottsdale, Arizona]: Cornwell and Cooper Enterprises, 1 sheet.

Also noted in 2020 as an on-demand production from Historic Pictoric.

National U.S. 66 Highway Association

- 1963 25.2403 **Follow U.S. 66 Across Arizona Through the Southwest's Scenic Wonderland**. *In: Drive US 66 : Main Street of America : shortest fastest year round best ... across the scenic West : the Will Rogers Highway : the Grand Canyon route*. Clinton, Oklahoma: National U.S. 66 Highway Association, folder. ("Revised 1963.") [Ellipsis is part of title.]

Promotional item includes references to the "Route 66" television adventure program then being aired on the CBS television network. The Arizona map notes side trips to Grand Canyon and Hoover Dam; includes photographs.

Velasco Hernández, Juan

- 1963 11.5850 **Levantamiento gravimetrico zona geotermica de Mexicali Baja California**. México: Consejo de Recursos Naturales no Renovables, 24 pp. + appendices, figures, plates [54 pp. total] + 11 sheets (3 cross-sections, 7 maps, and logs). [In Spanish.]

Weschow, Karl

- 1963 25.216 **Grand Canyon**. Munich: Karl Weschow GmbH, for Denoyer-Geppert Co., Chicago, anaglyph with viewing glasses.

Wheat, Carl Irving

- 1963 25.925 **Mapping the Transmississippi West, 1540-1861. Volume Five. From the Civil War to the Geological Survey. Part One**. San Francisco: Institute of Historical Cartography, pp. i-xviii, 1-222.

"Although the limiting dates for the whole work are 1540-1861, as set forth on the title page, I have found it desirable . . . to consider a number of maps published after the stated dates. In fact, this volume contains a rather extended discussion of significant maps published all through the 1860's, and a final chapter touches upon various notable maps of the 1870's—and even a few of still later date, down to 1884—which one way or another round out the work." (Part One, p. xi)

For a combined index for all volumes see Seavey, Charles A. (1992).

- 1963 25.926 **Mapping the Transmississippi West, 1540-1861. Volume Five. From the Civil War to the Geological Survey. Part Two.** San Francisco: Institute of Historical Cartography, pp. 223-487.

For a combined index for all volumes see Seavey, Charles A. (1992).

1964

Arizona State Highway Department

- 1964 25.12 **Atlas of Yuma County.** Phoenix: Arizona State Highway Department, 26 pp.

Frémont, John Charles

- 1964 25.828 **Geographical memoir upon Upper California, in illustration of his map of Oregon and California : newly reprinted from the edition of 1848 with introductions.** (Introductions by Allan Nevins and Dale L. Morgan.) San Francisco: Book Club of California, xxxi, 65 pp., folded **MAP** in pocket. (Book Club of California, Publication 116.)

Main text is a reprint of Frémont (1848, Geographical memoir upon Upper California, in illustration of his map of Oregon and California, by John Charles Frémont: addressed to the Senate of the United States. *U.S. 30th Congress, 1st Session, Senate Miscellaneous Document 148*, 67 pp., map). Nevins, pp. ix-xix; Morgan, pp. xxi-xxx. [425 copies.]

Hamilton, Warren B.

- 1964 11.9997 **Geologic map of the Big Maria Mountains NE quadrangle, California.** *U.S. Geological Survey, Geologic Quadrangle Map GQ-350*, scale 1:24,000.

Jones, Leslie Allen [Jones, Les]⁹¹

- 1964 10.114 **Lake Powell : Lee's Ferry to GR Jct.** [Lee's Ferry to Green River junction]. Bountiful, Utah: Leslie A. Jones, blue-line photostatically reproduced sheet, scale 1:31,680. (One map in 20 sections on one sheet, 3 feet × 16 feet, 5½ inches.)

Base map reproduced from the U.S. Geological Survey's 1922 *Plan and profile of Colorado River from Lees Ferry, Ariz[.], to mouth of Green River, Utah . . .* (see Birdseye and Gerdine, 1922, **ITEM NO.** 24.816), with shading for the planned extent of Lake Powell at high, mean, and low operating levels of Glen Canyon Dam.

Cited here for the portion of lower Glen Canyon (below Glen Canyon Dam) that is included within the boundaries defined for this Cartobibliography.

Rusho, W. L., AND Adams, L. W.

- 1964 25.1878 **Lees Ferry historical sites.**

Kenneth Hamblin, Ray Matheny, and Stanley L. Welsh, *Brigham Young University, Geology Studies*, 18(2), Studies for Students, (6), 91 pp., 1971.

Humboldt, Alexander von

- 1969 25.549 **Atlas géographique et physique du Royaume de la Nouvelle-Espagne. Vom Verfasser auch kurz benannt: Mexico-Atlas. Neudruck des 1811 in Paris erschienenen Werkes, vermehrt um die "Introduction géographique" des "Essai politique du Royaume de la Nouvelle-Espagne", die jede Tafel des "Mexico-Atlases" erläutert, sowie um seiben Karten des "Atlas géographique et physique des régions équinoxiales du Nouveau Continent" (Paris 1814 bis 1834) und eine Bildtafel aus den "Vues des Cordillères (Paris 1813), die Mexiko betreffen. Besorgt von Hanno Beck und Wilhelm Bonacker.** Stuttgart: F. A. Brockhaus Komm.-Gesch. GmbH, Abt. Antiquarium, pp. 1-34, i-xcii; Plates Ia-c, 2-28. (Quellen und

Forschung zur Geschichte der Geographie und der Reisen [Hanno Beck, ed.], Volume 6.) [Humboldt in French; accompanying text in German.]
Facsimile reprint of the 1812 ed. (ITEM NO. 25.548).

Konferenz der kantonalen Erziehungsdirektoren

- 1969 25.2420 **Vereinigte Staaten und Mexiko.** [In German.]
In: Schweizerischer MittelschulAtlas : herausgegeben von der Konferenz der kantonalen Erziehungsdirektoren, Fünfzehnte Auflage, 1969. (Bearbeitung und Originalzeichnung, Eduard Imhof; Kartentechnische Erstellung und Druck, Art. Institut Orell Füssli AG, Zürich.) Zürich: Zu beziehen durch den Lehrmittelverlag des kantons Zürich, pp. 114-115. [Schweizerische Konferenz der kantonalen Erziehungsdirectoren (*transl.* 'Swiss Conference of Cantonal Directors of Education').]
Shaded relief map.
► The course of "Colorado" through the Grand Canyon is oddly generalized. The label, "Cañon des Colorado" is positioned between the western Grand Canyon and southeastern Utah. "Ind.-Res." is labeled twice on the area embracing southeast Utah/southwest Colorado and northeastern Arizona/northwestern New Mexico, without boundaries; similarly "Ind.-R" is labeled where the Hualapai Indian Reservation is located, also without boundary, and no other reservation is shown in the area of interest to this Cartobibliography.

King, Philip B.

- 1969 24.109 (COMPILER) **Tectonic map of North America.** U.S. Geological Survey, scale 1:5,000,000.

Shiple, Gerald

- 1969 25.1940 **Arizona Territory 1881.** [No imprint], 1 sheet.
Sharlot Hall Museum Map Collection attributes this to Cooper Graphics. Map on simulated parchment, 21 × 17 inches, intended to complement "Arizona Ghost Town Guides" available from Guidco, Tucson, Arizona.
► Reproduces an unidentified map of 1881. "Grand Canon of the Colorado" is labeled in western Grand Canyon. East of "Kanab Wash" is labeled "Marble Canon", on the north side of which, immediately adjacent to the Colorado River, is labeled "White Bluffs". The reach of the Colorado between "Lees Ferry" and Kanab Creek is fairly generalized. The map is crowded with geographical names.

U.S. Geological Survey

- 1969 24.859 **Glen Canyon National Recreation Area, Utah-Arizona.** U.S. Geological Survey, 1 sheet, scale 1:250,000, contour interval 200 feet with 100-foot supplementary contours. ("Prepared for the Bureau of Reclamation and the National Park Service by the Geological Survey from the Cortez, Escalante, Marble Canyon, Moab, Salina, and Shiprock 1:250,000 scale topographic maps, and from data furnished by the Bureau of Reclamation.")
With **INSETS**, "Page Area", "Wahweap Area", and "Rainbow Bridge National Monument".] [Includes the reach of the Colorado River from Glen Canyon Dam to below Badger Canyon in Grand Canyon National Park.] [Also later printings.]

Wilson, Eldred D.; Moore, R. T.; AND Cooper, J. R.

- 1969 24.209 **Geologic map of Arizona.** Arizona Bureau of Mines, scale 1:500,000.

Spine title: *Northern Mexico*. Includes new introductory material and index.
- 1969 25.953 *Memoir of a tour to northern Mexico, connected with Col. Doniphan's expedition in 1846 and 1847.* (Foreword by Jack D. Rittenhouse.) Albuquerque, New Mexico: Calvin Horn Publisher, 141 pp., **MAPS**.

1970**Bunzō, Maekawa, AND Junzō, Sakai**

- 1970 25.1113 (COMPILERS) *Kaigai ibun : a strange tale from overseas, or a new account of America compiled by Maekawa Bunzō and Sakai Junzō from the narrative of Hatsutarō, a Japanese castaway.* (Richard Zumwinkle, translator; assisted by Tadanobu Kawai.) Los Angeles: Dawson's Book Shop, 143 [145] pp. (Baja California Travels Series, 20.) ("900 copies printed by Grant Dahlstrom at The Castle Press, Pasadena, California" (p. [145]).)

Spine title: 海外異聞 *Kaigai Ibun*.

Translation, with colored plates reproduced in facsimile, of the narrative of Hatsutarō, who in 1841 was with a crew of thirteen on a boat that left Hyogo but was stranded at sea by a storm until a Spanish vessel rescued them four months later, which abandoned them at Cabo San Lucas on the southern tip of Baja California. Hatsutarō and the ship's master eventually returned home in 1844 by way of Canton and Zhapu, China (others followed a year later). His account was taken down in manuscript and after ca. 1853 variants were published in at least two venues (compare Gyosō, 1854, **ITEM NO.** 25.1111, and Tsurumine, 1855, **ITEM NO.** 25.1112) based on Inoue Shun'yō's 1846 manuscript, *Ameriki shinwa*, which was compiled by Moekawa Bunzō and Sakai Junzō with data added from other sources known to them. The story itself has no bearing on any part of this Cartobibliography, but the ► facsimile reproduction of illustrations in this volume includes a double-page **MAP** of the North Pacific, which shows western North America only in outline, not even with any rivers represented.

• This title is cited here for its map, but also because it should not be confused with Wheat's (1959, Volume III, pp. 164, 326) citation (**WHEAT III:786**) of a "5-Volume work, entitled *Meriken Shinshi* (New Account of America), 108 leaves",

published in Edo in 1853; Wheat lists it under "Gyofu", with the map cited as "Complete map of 31 states of the Republican government". The 1853 work cited by Wheat has not been located by Spamer. However, see the 1854 and 1855 works just cited; it is likely that Wheat referred in fact to the 1855 work. Richard Zumwinkle, in his introduction to this translation of the 1854 *Kaigai ibun*, states that the 1854 work is the first printing, issued by Seifuen Juō, but which omits the manuscript's brief preface by Maekawa Bunzō. The first modern reprinting of the full text and all illustrations was published by 荒川秀俊 (Araakawa Hidetoshi), 異国漂流記続集 *Ikoku hyōryūki zokushū* (Tōkyō: 気象研究所 Kishō Kenkyūjo, pp. 149-209).

- It is beyond the purposes of this Cartobibliography (and its compiler) to sort out the bibliographical distinctions between these volumes, inasmuch as only the maps are of pertinence here, which clearly are the additions of the Japanese scholars.

Craig, Lawrence C.

- 1972 24.56 (COMPILER) **Mississippian System.**
In: Mallory, William Wyman (ed.-in-chief), *Geologic atlas of the Rocky Mountain region.* Denver: Rocky Mountain Association of Geologists, pp. 100-110. (Compiled from maps and manuscripts provided by Ross B. Johnson, William W. Mallory, Edwin D. McKee, Albert E. Roberts, and Richard P. Sheldon.)

Currey, J. L.

- 1972 24.57 **Pictorial color map of Grand Canyon : geology, history, points of interest, river and rapids.** Salt Lake City, Utah: Paragon Press, 32 pp.
 Includes generalized colored geologic map. Scale 1:87,000.

Garcia Cubas, Antonio

- 1972 25.1544 **Atlas Pintoresco é Historico de los Estados Unidos Mexicanos.** México: Editorial del Valle de México. [In Spanish.]
 Facsimile reprint of Garcia Cubas (1885, ITEM NO. 25.1543). Atlas of 13 sheets, each featuring an inset map and embellished with marginal illustrations pertinent to the map. Most, but not all, of these sheets will be pertinent to the area of the Colorado River delta that is portrayed at the northwestern corner of each map (all titles are actually printed in capital letters that omit diacritical marks): "I CARTA POLITICA", "II. CARTA ETNOGRAFICA", "III CARTA ECLESIASTICA", "IV VIAS DE COMUNICACION Y MOVIMIENTO MARITIMO", "V. INSTRUCCION PUBLICA", "VI CARTO OROGRAFICA", "VII CARTA HIDROGRAFICA", "VIII CARTA AGRICOLA", "IX. CARTA MINERA", "X. CARTA HISTORICA Y ARQUEOLOGICA", "XI REYNO DE LA NUEVA ESPAÑA A PRINCIPIOS DEL SIGLO XIX." (among numerous portraits is that of "D. Ant. Ma. Bucareli"), "[XII] VALLE DE MEXICO", "XIII MEXICO Y SUS CERCANIAS".

Grose, L. Trowbridge

- 1972 24.75 **Tectonics.**
In: Mallory, William Wyman (ed.-in-chief), *Geologic atlas of the Rocky Mountain region*. Denver: Rocky Mountain Association of Geologists, pp. 35-44.

Howard, Arthur D., AND Williams, John W.

- 1972 24.89 **Physiography.**
In: Mallory, William Wyman (ed.-in-chief), *Geologic atlas of the Rocky Mountain region*. Denver: Rocky Mountain Association of Geologists, pp. 29-31.

Jensen, Fred S.

- 1972 24.97 (COMPILER) **Thickness of Phanerozoic rocks (depth to Precambrian basement).**
From: Kent, Harry C., Review of Phanerozoic history.
In: Mallory, William Wyman (ed.-in-chief), *Geologic atlas of the Rocky Mountain region*. Denver: Rocky Mountain Association of Geologists, p. 56. (Compiled from data provided by James G. Mitchell, James C. MacLachlan, *et al.*)

Kingsley, John; Colvin, Rodney G.; McIntyre, Joseph; Currey, Betty Ann; Menasco, Thomas; AND Currey, Jack L.

- 1972 10.9 **Pictorial color map of Grand Canyon : geology, history, points of interest, river and rapids.**
 Salt Lake City: River Map, 31 pp. (includes colored geologic map), scale 1:87,000. (Geological research and cartography by John Kingsley, Rodney G. Colvin, and Joseph McIntyre; historical research by Betty Ann Currey and Thomas Menasco; photography by Jack L. Currey; graphics by Bailey-Montague, Salt Lake City; printed by Paragon Press, Salt Lake City.)
 River guide, despite generalized title. Includes fold-out leaves; pagination continues across individual folds.

Kleinkopf, M. Dean

- 1972 24.112 (CHAIRMAN, R.M.A.G. RESEARCH COMMITTEE; WITH H. C. Bemis, R. S. Bryson, R. D. Holt, C. J. Lewis, J. C. MacLachlan, and D. E. Wilde; MAPPING COORDINATED BY J. C. MacLachlan) **Configuration of the Precambrian rock surface.**
In: Mallory, William Wyman (ed.-in-chief), *Geologic atlas of the Rocky Mountain region*. Denver: Rocky Mountain Association of Geologists, p. 53.

Lochman-Balk, Christina

- 1972 24.116 **Cambrian System.**
In: Mallory, William Wyman (ed.-in-chief), *Geologic atlas of the Rocky Mountain region*. Denver: Rocky Mountain Association of Geologists, pp. 60-75.

Lutsey, Ira A., AND Nichols, Susan L.

- 1972 11.15168 **Land status map of Nevada : second edition.** *Nevada Bureau of Mines and Geology, Map 40*, 1 sheet, scale 1:500,000.
 For 1st ed. see Wilson (1964, **ITEM NO.** 11.15167).

MacLachlan, Marjorie E.

- 1972 24.125 **Triassic System.**
In: Mallory, William Wyman (ed.-in-chief), *Geologic atlas of the Rocky Mountain region*. Denver: Rocky Mountain Association of Geologists, pp. 166-176.

Mallory, William Wyman

1972 24.126 (ED.-IN-CHIEF) **Geologic atlas of the Rocky Mountain region.** Denver: Rocky Mountain Association of Geologists, 331 pp.

Olmsted, F. H.

1972 11.19269 **Geologic map of the Laguna Dam 7.5-minute quadrangle, Arizona and California.** U.S. Geological Survey, *Geologic Quadrangle Map GQ-1014*, scale 1:24,000, contour intervals 20 and 10 feet.

Raisz, Erwin

1972 24.160 **Physiographic provinces in the Rocky Mountain region and landforms of western United States.**
From: Howard, Arthur D., and Williams, John W., *Physiography*.
In: Mallory, William Wyman (ed.-in-chief), *Geologic atlas of the Rocky Mountain region*. Denver: Rocky Mountain Association of Geologists, p. 30.

Rascoe, Bailey, Jr., AND Baars, Donald L.

1972 24.161 **Permian System.**
In: Mallory, William Wyman (ed.-in-chief), *Geologic atlas of the Rocky Mountain region*. Denver: Rocky Mountain Association of Geologists, pp. 143-165.

Robinson, Peter

1972 24.167 **Tertiary history.**
In: Mallory, William Wyman (ed.-in-chief), *Geologic atlas of the Rocky Mountain region*. Denver: Rocky Mountain Association of Geologists, pp. 233-242.

Simon, Ruth B.

1972 24.180 **Seismicity.**
In: Mallory, William Wyman (ed.-in-chief), *Geologic atlas of the Rocky Mountain region*. Denver: Rocky Mountain Association of Geologists, pp. 48-51.

Steven, T. A.; Smedes, H. W.; Prostka, H. J.; Lipman, P. W.; AND Christiansen, R. L.

1972 24.184 **Upper Cretaceous and Cenozoic igneous rocks.** *In:* Mallory, William Wyman (ed.-in-chief), *Geologic atlas of the Rocky Mountain region*. Denver: Rocky Mountain Association of Geologists, pp. 229-232.

U.S. Geological Survey

1972 11.12921 **Aeromagnetic map of the Gold Butte-Chloride area, Arizona and Nevada.** U.S. Geological Survey, *Geophysical Investigations Map GP-757*, 2 sheets, scale 1:62,500.

1972 24.821 **Grand Canyon National Park and vicinity, Arizona. Shaded relief edition of 1972.** U.S. Geological Survey, 1 sheet, scale 1:62,500, contour interval 80 feet with 40-foot supplementary contours. ("Compiled in 1967 from 1:62,500 scale maps dated 1954 and 1962 and by photogrammetric methods from aerial photographs taken 1951, 1954, 1958, and 1960.")

Date shown with map name in lower right of sheet: 1962. Original park size, prior to Grand Canyon Enlargement Act of 1975.

Wegener, Bruce H.

- 1972 25.124 **Grand Canyon.** Evergreen Park, Illinois: Bruce Wegener, 1 sheet, scale 1:300,000. Shaded topography with principal and backcountry roads; greater Grand Canyon region.

Witkind, Irving J., AND Grose, L. Trowbridge

- 1972 24.211 **Areal geologic map of the Rocky Mountain region and environs.**
From: Mallory, William W., Continental setting of the region.
In: Mallory, William Wyman (ed.-in-chief), *Geologic atlas of the Rocky Mountain region*. Denver: Rocky Mountain Association of Geologists, p. 34.

1973

Brown, David E.

- 1973 25.275 **Natural vegetative communities of Arizona.** Arizona Game and Fish Department, and University of Arizona, scale 1:500,000.

Heiniger, Ernst A.

- 1973 25.859 *Grand Canyon du Colorado : suite pour nature et faune en 157 images.* (Pierre Champendal, translator.) Paris: Elsevier Séquoia, 244 [285] pp. (pagination continues through interleaved unpaginated leaves containing 157 photos); with anaglyphoscope. [In French, translated from German.]
 Translation of Heiniger (1971). Red/green plastic-lensed cardboard anaglyphoscope accompanying the volume has printed on it: "KÜMMERLY & FREY—GRAND CANYON", with image of a thumb printed on right-hand side of the card.
 Regarding the **MAP**, see also remarks with Heiniger (1971, **ITEM NO.** 25.858).

Kister, L. R.

- 1973 24.111 **Quality of ground water in the lower Colorado River region, Arizona, Nevada, New Mexico, and Utah.** *U.S. Geological Survey, Hydrological Investigations Atlas HA-478*, 2 sheets, scale 1:1,000,000.

Rand McNally and Co.

- 1973 25.86 **Grand Canyon Village and vicinity. Fred Harvey services at Grand Canyon National Park, South Rim.** [Chicago]: Rand McNally and Co., 1 sheet.

Russon, Robert S.

- 1973 25.1860 **A trail guide to the Dominguez-Velez de Escalante expedition 1776.** Master's thesis, Utah State University, 79 pp. + 27 **MAPS** (unpaginated leaves).

U.S. Army Corps of Engineers, Map Service

- 1973 25.208 **Grand Canyon.** Washington, D.C.: U.S. Army Map Service, scale 1:1,000,000. ("AMS sheets NJ 12-1 thru NJ 12-12, 1953-55".)

U.S. Army Topographic Command

- 1973 25.228 **Marble Canyon, Arizona, Utah, 1956.** U.S. Geological Survey, 3rd ed., revised (from Western United States 1:250,000 series, sheet NJ 12-11).

U.S. Bureau of Reclamation, Lower Colorado Region

- 1973 25.564 **Map and operational diagram : lower Colorado River : Lees Ferry to Gulf of California.** [No place]: U.S. Bureau of Reclamation, Lower Colorado Region, 1 sheet. (Map 423-300-59.) (June 1973.)

1974**Belknap, Bill, AND Belknap, Buzz [Belknap, William, Jr., AND Belknap, William, III]**

- 1974 10.136 **Westwater, Lake Powell, Canyonlands National Park : Canyonlands river guide.** Boulder City, Nevada: Westwater Books, 63 pp.
Includes the Colorado River in Glen Canyon between Glen Canyon Dam and Lees Ferry.
Waterproof and non-waterproof states. Front wrap for waterproof state adds "Waterproof Edition".

Dowler, Warren Leroy

- 1974 25.227 **Lake Powell fly-in : adjacent airport facilities.** Sierra Madre, California: Dowler, 1 sheet. [Includes maps for Bullfrog Basin, Hall Crossing, Wahweap, Marble Canyon, Cliff Dwellers, Page, and Beacon.]

Hutchens, A. O.; Scott, B. R.; AND Vasey, B. J.

- 1974 25.558 (EDS.) **Water related outdoor recreation areas of Nevada.** (Cartography by L. M. Roach.) *Nevada Division of Water Resources, Map 17*, 1 sheet, scale 1:750,000. ("Prepared as part of the Nevada State Water Plan.")

King, Philip B.; Beikman, Helen M.; AND Edmonston, Gertrude J.

- 1974 24.110 **Geologic map of the United States (exclusive of Alaska and Hawaii).** U.S. Geological Survey, scale 1:2,500,000; 2 sheets + 1-sheet legend. [King and Beikman, compilers; geologic cartography by Edmonston.]

Pacific Southwest Inter-Agency Committee

- 1974 10.22 **River mile index : Colorado River and tributaries (Lees Ferry to headwaters).** Report of the Water Management Subcommittee, 85 pp., map.
NOTE: This index lists river mileages for tributary confluences as well as separate mileages for selected tributary streams. For the Colorado River main stem, mileages are in order upstream from Lees Ferry, Arizona.
- 1974 10.23 **River mile index : Virgin River basin : Arizona, Nevada, and Utah.** Report of the Water Management Subcommittee, 20 pp., 2 maps.
NOTE: This index lists river mileages for tributary confluences as well as separate mileages for selected tributary streams. For the Colorado River main stem, mileages are in order upstream from the Virgin River–Colorado River confluence.

Péwé, Troy L.

- 1974 10.102 **Colorado River guidebook : a geologic and geographic guide from Lees Ferry to Phantom Ranch, Arizona.** Tempe, Arizona: Troy L. Péwé, 3rd ed., [1st printing], 79 pp.

U.S. Bureau of Reclamation

- 1974 25.187 **Colorado River basin.** U.S. Bureau of Reclamation. ("Map no. X-300-819".)
[Numerous other eds.]

1975

Arrow Publishing Company

- 1975 25.13 **Flagstaff, Prescott, and northern Arizona.** Distributed by Northern Arizona News Co., Flagstaff, scale 1:21,500.

Egloffstein, F. W. von [Egloffstein, Friedrich Wilhelm von]

- 1975 25.225 **Rio Colorado of the West.** U.S. Army, Corps of Engineers, 1 sheet.
Facsimile reproduction of "Map No. 2. Rio Colorado of the West", shaded relief (depicting region from head of navigation of Colorado River to Fort Defiance, including Grand Canyon), which was originally published in Joseph C. Ives, *Report upon the Colorado River of the West, explored in 1857 and 1858* (U.S. 30th Congress, 1st Session, House Document 90, Serial 1058), 1861.
See Ives (1861, [ITEM NO. 2.3584](#) in Volume 1/Part B of [THE GRAND CANON](#)) for bibliographical details of the original volume.

Heiniger, Ernst A.

- 1975 25.860 *Grand Canyon.* (Ewald Osers, translator.) Washington, D.C., and New York: Robert C. Luce Co., Inc., 240 pp. (pagination continues through interleaved unpaginated leaves containing 157 photos); with anaglyphoscope. [[In English](#), translated from German.]
Translation of Heiniger (1971). [Red/green plastic-lensed cardboard anaglyphoscope accompanying the volume has printed on it: "KÜMMERLY & FREY—GRAND CANYON", with image of a thumb printed on right-hand side of the card.
Regarding the [MAP](#), see also remarks with Heiniger (1971, [ITEM NO. 25.858](#)).

Kistler Graphics, Inc.

- 1975 25.58 **Grand Canyon National Park.** Denver: Kistler Graphics, Inc., colored relief model, 44 × 44 cm, scale *ca.* 1:506,880, vertical ⅛ in. = 1000 ft. (Based on ERTS [Earth Resources Technology Satellite] photography.)

Pacific Southwest Inter-Agency Committee

- 1975 10.24 **River mile index : Colorado River tributaries in Utah, Paria River to Cisco Wash, and Great Salt Lake Tributaries in Utah, Kennecott Drain to Weber River.** Report of the Water Management Technical Subcommittee, 45 pp.
NOTE: This index lists river mileages for tributary confluences as well as separate mileages for selected tributary streams. For the Colorado River main stem, mileages are in order upstream from Lees Ferry, Arizona.

Triumph Press

- 1975 25.364 **Map of the Colorado River : Davis Dam to Topock.** [Los Angeles]: Triumph Press, 1 sheet. (Kym's Guide No. 12.)

U.S. Forest Service

- 1975 25.108 **Kaibab National Forest : North Kaibab Ranger District.** Scale ½ inch = 1 mile.

U.S. National Park Service

- 1975 25.117 **Sudseite der Nationalpark Grand Canyon, Arizona.** Washington, D.C.: U.S. National Park Service, scale ca. 1:275,000; with text on verso. [Also reprint, 1978.] [In German.]
- 1975 25.118 **El Borde Sur, Parque Nacional de Gran Canon, Arizona.** Washington, D.C.: U.S. National Park Service, scale ca. 1:275,000; with text on verso. [In Spanish.]

1976

Arrow Publishing Company

- 1976 25.14 **Metropolitan Phoenix, including state map of Arizona featuring Grand Canyon.** Distributed by Strong's News Agency, Glendale, Arizona, scale ca. 1:44,500.

Briggs, Walter, AND Hurley, Wilson

- 1976 25.2457 **The Dominguez-Escalante Expedition Route 1776.** Flagstaff: Northland Press, 1 sheet. ("Copyright © 1976 Northland Press, P. O. Box N, Flagstaff, Arizona 86001. \$3.00")
18½ × 22 inches. A promotional item for the book by Don Briggs, *Without Noise of Arms* (Northland Press, 1976), in which it appeared as the frontispiece.

California State Automobile Association, AND Automobile Club of Southern California

- 1976 25.25 **Death Valley and Grand Canyon.** San Francisco: California State Automobile Association, 1 sheet, scale 1:1,100,000.

Huntoon, Peter W.; Billingsley, George H., Jr.; Breed, William J.; Sears, J. W.; Ford, Trevor D.; Clark, Malcolm D.; Babcock, R. S.; Brown, E. H.; et al.

- 1976 24.93 **Geologic map of the Grand Canyon National Park, Arizona.** Grand Canyon Natural History Association, and Museum of Northern Arizona, 1 sheet, scale 1:62,500.
NOTE: Map embraces the limits of the national park prior to the Grand Canyon National Park Enlargement Act (88 Stat. 2089). Later revisions of this map note as "eastern Grand Canyon National Park". This and other eds. is the so-called "Blue Dragon" map.⁹²

⁹² The "blue dragon" map takes that informal name from the colorful appearance of the Grand Canyon's geology as displayed thereon. It is also the "best-selling geologic map in the United States (over 100,000 copies sold in its approximate 30-year existence)" (Wayne Ranney, "Grand Canyon's 'blue dragon' rises again", *The Old Pioneer* (Grand Canyon Historical Society), 35(3) (Summer 2024): 6-7). The original edition (1976) embraced the old boundaries of the Grand Canyon National Park; after the enlargement of the park "Eastern" was added to the title.

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

See also Muir Way (firm) (no date, **ITEM NO.** 24.852), a print-on-demand fine art product with "Digital Elevation Data with shaded relief applied" to create a 3D appearance.

Kemp, Egon

- 1976 25.876 (ED.) *America in maps dating from 1500 to 1856*. (Translated from German by Margaret Stone and Jeffrey C. Stone.) New York and London: Holmes and Meier, 15 pp., 45 maps in 1 volume, in slipcase. [1200 numbered copies.]

Locke, Harry

- 1976 25.878 (COMPILER) **Arizona Good Roads Association illustrated road maps and tour book**. Phoenix: Arizona Department of Transportation, Arizona Highways Magazine Division, 200 pp. Facsimile reprint of 1913 ed.

National Geographic Society

- 1976 25.2248 **Portrait U.S.A. The first color photomosaic of the 48 contiguous United States. Produced by the National Geographic Society with the LANDSAT imagery of the National Aeronautics and Space Administration through the photographic and mosaic facilities of the General Electric Company, Beltsville Photographic Engineering Laboratory.** *National Geographic*, 150(1): 140A (supplement to the July 1976 issue).
On verso is a conventional map, **The United States. Produced by the Cartographic Division, National Geographic Society.** Scales 1:4,560,000.
Folded as published with the issue. Also available on heavy chart paper or plastic, rolled.

Nevada Bureau of Mines and Geology

- 1976 11.14978 **Rockhound's map of Nevada.** *Nevada Bureau of Mines and Geology, Special Publication 1*, 1 sheet, scale 1:1,000,000.
Superseded by *Special Publication 29* (Castor and LaPointe, 2001, **ITEM NO.** 11.14979).
- 1976 11.19102 **Satellite photomap of Nevada.** *Nevada Bureau of Mines and Geology, Map 51*, 1 sheet, scale 1:1,000,000. ("Mosaic prepared by Soil Conservation Service, U. S. Dept. of Agriculture for national Aeronautics and Space Administration, from Earth Resources Technology Satellite-1 (ERTS-1) imagery, Band 5, July 23-Oct. 31, 1972.")
A second printing, 1981, 3000 copies printed by Williams and Heintz Map Corporation, Washington, D.C.

Pacific Southwest Inter-Agency Committee

- 1976 10.25 **River mile index : Lower Colorado River and selected tributaries : Arizona, California, Nevada, and Utah.** Report of the Water Management Technical Subcommittee, 70 pp., 4 maps.
NOTE: This index lists river mileages for tributary confluences as well as separate mileages for selected tributary streams. For the Colorado River main stem, mileages are in order upstream from the southerly U.S.-Mexico boundary.] [See also U.S. Bureau of Reclamation, Lower Colorado Region, Boulder Canyon Operations Office, 2001, **ITEM NO.** 10.141.]

(Volume: Contract No. EG-77-S-02-4362. COO-4362-4.)

National Geographic Society, Cartographic Division

1978 24.357 (IN COLLABORATION WITH Boston Museum of Science) **The heart of the Grand Canyon, Grand Canyon National Park, Arizona.** Washington, D.C.: National Geographic Society, 1 sheet, scale 1:24,000, contour interval 100 ft. ("Produced by the Cartographic Division, National Geographic Society".) ("This map was compiled from 1972 aerial photography and field surveys by Bradford Washburn, assisted by Barbara P. Washburn, Harry R. Feldman and Wendell Mason. Relief by Tibor G. Toth, research and compilation by Thomas L. Gray, contours by Norbert and Walter Vasques, all National Geographic Staff. Cliff hachures by the Topographical Survey of Switzerland. Photogrammetry by Lockwood Mapping, laser assistance by K & E Laser Systems and Electronics. The National Geographic is also grateful to the Grand Canyon National Park, and Professor J. Harvey Butchart, Northern Arizona University, for their generous cooperation and assistance during the preparation of this map.")

This is **Variant A**. 35 × 36 inches, printed on one side on plasticized paper, omitting text and illustrations that appear in the mass produced Variant B [see [ITEM NO. 24.145](#)]. Compared to Variant B this map expands ground coverage on the west by 1.5 miles, to the west of Hermit's Rest, and on the east by ca. 3,000 feet. Includes table of trail distances that is omitted from Variant B. Key and credit notations are placed differently than in Variant B.]

For Variants C and D, see 1990, 1999, [ITEM NOS. 24.827, 24.828](#).

CONSERVATIONAL NOTE: The materials with which Variant A was produced may not be long-lived, depending upon storage conditions. The compiler's copy is severely degraded, becoming fragmented, with noticeable off-gassing after several years' storage contained in a screw-capped plastic tube under conventional room temperatures. — *E.E.S., 2014.*

1978 24.145 (IN COLLABORATION WITH Boston Museum of Science) **The heart of the Grand Canyon, Grand Canyon National Park, Arizona.** Washington, D.C.: National Geographic Society, 1 sheet, scale 1:24,000, contour interval 100 ft.; text and illustrations on verso, "The Grand Canyon of the Colorado". ("Produced by the Cartographic Division, National Geographic Society" [recto and verso notations].) ("Supplement to National Geographic, July 1978, Page 35A, Vol. 154, No. 1—THE HEART OF THE GRAND CANYON" [recto notation].) ("This map was compiled from 1972 aerial photography and field surveys by Bradford Washburn, assisted by Barbara P. Washburn, Harry R. Feldman and Wendell Mason. Relief by Tibor G. Toth, research and compilation by Thomas L. Gray, contours by Norbert and Walter Vasques, all National Geographic Staff. Cliff hachures by the Topographical Survey of Switzerland. Photogrammetry by Lockwood Mapping, laser assistance by K & E Laser Systems and Electronics. The National Geographic is also grateful to the Grand Canyon National Park, and Professor J. Harvey Butchart, Northern Arizona University, for their generous cooperation and assistance during the preparation of this map." [recto notation])

This is **Variant B**. 22 $\frac{5}{8}$ × 35 inches (reduced from Variant A to accommodate presses used for very large National Geographic magazine press run), published for distribution with July 1978 issue of *National Geographic*, accompanying the features by W. E. Garrett ([ITEM NOS. 2.2846, 2.2847](#)); folded, 6 × 9 inches, to be laid in with this issue. "Copies of this map with additional coverage extending westward beyond

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

Hermits Rest, same scale, 35" × 36", printed one side only on plastic, may be purchased from the National Geographic Society, Washington, D.C." (recto notation). For the larger format variant A, with slightly broader geographic coverage, see [ITEM NO. 24.357](#). Key and credit notations are placed differently than in Variant A. Omits the table of trail distances that appears in Variant A.

[For Variant C see 1990, [ITEM NO. 24.827](#). For Variant D see 1999, [ITEM NO. 24.828](#).]

Waldmire, Robert

- 1982 25.2380 **Yuma in the State of Arizona : in historic Southwestern Arizona.** [No imprint.] 1 sheet. ("© 1982-100% Recycled Paper! Additional copies of this poster available from: Robert Waldmire, Dark Age Graphics R.R.2 Rochester, Illinois 62563".)
 ► A graphic map of southwestern Arizona. Exceptionally crowded with finely written historical texts covering the entire sheet, interspersed with small illustrations,

occasional "scroll work" drawing attention to points of particular interest. Inset block graphics also portray adjacent and other parts of the state, including the region between Yuma and the Bill Williams River, and another that offers an oblique pictorial view of most of Arizona and western New Mexico, which delineates pictorially the Grand Canyon but although "Lake Mead", "Lake Powell", and "Humphreys Peak" are labeled the Grand Canyon is not.

Weide, D. L.

1982 11.780 **Surficial geologic map of the Las Vegas 1° x 2° quadrangle, Nevada, Arizona, California, and Utah.** *U.S. Geological Survey, Open-File Report 82-0706*, scale 1:250,000, text 10 pp.

1983 24.119 **Geology and mineral resource potential of the Pigeon Canyon (AZ-010-109), Nevershine Mesa (AZ-010-105A), and Snap Point (AZ-010-105B) Wilderness Study Areas, Mohave County, Arizona.** *U.S. Geological Survey, Open-File Report 83-0888*, 21 pp., map scale 1:50,000.

Menges, Christopher M., AND Pearthree, Philip A.

- 1983 11.17459 **Map of Neotectonic (latest Pliocene-Quaternary) deformation in Arizona.** *Arizona Geological Survey, Open-File Report 83-22*, 15+ pp. [54 pp. total], 4 sheets, scales 1:500,000, 1:133,830, 1:121,000.

Navajo Nation

- 1983 25.73 **Visitors guide, Navajo Nation.** Window Rock, Arizona: Navajo Nation Recreational Resources Department.

Péwé, Troy L.

- 1983 10.103 **Colorado River guidebook : a geologic and geographic guide from Lees Ferry to Phantom Ranch, Arizona.** Phoenix: Troy L. Péwé, "Second printing [of 3rd ed.] with updating", 79 pp.

Raines, Gary L.

- 1983 11.618 **Preliminary map of limonitic hydrothermal alteration for portions of the Needles 1° x 2° quadrangle, Arizona and California.** *U.S. Geological Survey, Open-File Report 83-0421*, 1 sheet, scale 1:250,000, text 7 pp.

Ryder, Robert T.

- 1983 11.15710 **Petroleum potential of Wilderness Lands; Arizona.** (Betty M. Miller, ed.) *U.S. Geological Survey, Miscellaneous Investigations Map I-1537*, 1 sheet, scale 1:1,000,000.
Accompanies: Ryder, Petroleum potential of Wilderness Lands in Arizona. *U.S. Geological Survey, Circular 902-C*, pp. C1-C22.

Scarborough, Robert B.; Menges, Christopher M.; AND Pearthree, Philip A.

- 1983 11.6210 **Map of Basin and Range (post 15 m.y.a.) exposed faults, grabens, and basalt-dominated volcanism in Arizona.** *Arizona Bureau of Geology and Mineral Technology, Open-File Report 83-21*, 2 sheets, scale 1:500,000, text [25] pp.

Stevens, Larry [Stevens, Lawrence E.]

- 1983 10.26 **The Colorado River in Grand Canyon : a comprehensive guide to its natural and human history.** Flagstaff, Arizona: Red Lake Books, 107 pp.
Later accompanied by a single-leaf "Postscript: A river once more", dated July, 1983; and Errata. Also distributed later with single-leaf "Grand Canyon update: 1 November, 1983", regarding spillover water releases from Glen Canyon Dam.

Sutphin, Hoyt B., AND Wenrich, Karen J.

- 1983 24.188 **Structural control of breccia pipes on the southern Marble Plateau, Arizona.** *U.S. Geological Survey, Open-File Report 83-908*, 6 pp., 2 sheets, scale 1:50,000.

Trails Illustrated

- 1983 25.585 **Lake Mead National Recreation Area, Arizona/Nevada.** Evergreen, Colorado: Trails Illustrated, 1 sheet, folded, printed on both sides. (Revised 1987.)
Lake Mead and Lake Mohave areas.

Triumph Press

1983 25.231 **Lake Mojave [sic], Hoover Dam to Davis Dam.** Los Angeles: Triumph Press, revised ed., 1 sheet. (Kym's Guide No. 5.) [Lake Mohave.]

U.S. Geological Survey

1983 11.744 **Aeromagnetic map of the Salton Sea area, California.** *U.S. Geological Survey, Open-File Report 83-0664*, 1 sheet, scale 1:250,000.

Waldmire, Robert

1983 25.1895 **A poster of Arizona.** [No imprint.] 1 sheet, 25 × 19 inches. ("Printed by Frye-Williamson Press, Springfield, Illinois". "© 1983 Dark Age Graphics". "These posters available from: Cardinal Hill Candles and Crafts, R.R. 2, Rochester, Illinois".)
 ► A pictorial map of Arizona on yellow parchment-like sheet with black ink. Exceptionally crowded with finely written historical texts covering the entire sheet, interspersed with small illustrations and occasional "scroll work" drawing attention to points of particular interest (e.g., "The Grand Canyon") and a summary "scroll" by the title and legend, ". . . A Brief History:" (thus) that offers a history of the state.

Wong, George

1983 11.11707 **Preliminary map of the resource areas in the Basin and Range Province of Nevada.** *U.S. Geological Survey, Open-File Report 83-721*, 1 sheet, scale 1:500,000, text 37 pp.

1984

Clark, M. M.

1984 11.5297 **Map showing recently active breaks along the San Andreas fault and associated faults between Salton Sea and Whitewater River-Mission Creek, California.** *U.S. Geological Survey, Miscellaneous Investigations Map I-1483*, 2 sheets, scale 1:24,000.

H. M. Gousha Company

1984 25.45 **The Mountain Bell long distance handbook : your guide to easy calling in Arizona.** San Jose, California: H. M. Gousha Co., 1 sheet, scale 1:1,710,720.

Hamilton, Warren B.

1984 11.9996 **Generalized geologic map of the Big Maria Mountains region, southeastern California.** *U.S. Geological Survey, Open-File Report 84-407*, 1 sheet, 7 pp. text.

Lindemann, Linda Lou

1984 10.15 **Colorado River briefs for a trip through the Grand Canyon.** Tucson: Lundquist Press, 120 pp. [Saddle-stitched, dark-yellow wraps.] [NOTE: All subsequent "printings" contain minor changes.]

Martin, James C., AND Martin, Robert Sidney

1984 25.884 **Maps of Texas and the Southwest, 1513-1900.** Albuquerque, New Mexico: University of New Mexico Press, for Amon Carter Museum, 174 pp.

Sargent, K. A., AND Roggensack, Kurt

- 1984 11.12018 **Map showing outcrops of pre-Quaternary ash-flow tuffs and volcanoclastic rocks, Basin and Range Province, Nevada.** *U.S. Geological Survey, Water-Resources Investigations Report 93-4119-E*, 2 sheets, text 54 pp.

Scarborough, Robert B., AND McGarvin, Thomas

- 1984 24.178 **Update of published geologic maps of Arizona (Nos. 1-43) November 1982-June 1984.** *Arizona Bureau of Geology and Mineral Technology Open-Rile Report 84-5*, 1 sheet.

Shirley, Rodney W.

- 1984 25.369 The mapping of the world; early printed world maps, 1472-1700. London: Holland Press, XLVI, 669 pp. (Holland Press Cartographica, Volume 9.)

Smith, Eugene I.

- 1984 11.5377 **Geologic map of the Boulder Beach quadrangle, Nevada.** *Nevada Bureau of Mines and Geology, Map 81*, 1 sheet, scale 1:24,000.

Stevens, Larry [Stevens, Lawrence E.]

- 1984 10.29 **The Colorado River in Grand Canyon : a comprehensive guide to its natural and human history.** Flagstaff, Arizona: Red Lake Books, 2nd ed., 107 pp.

Thybony, Scott

- 1984 9.371 **A guide to hiking the Inner Canyon.** Grand Canyon Natural History Association, 2nd ed.

Ulrich, George E.; Billingsley, George H.; Hereford, Richard; Wolfe, Edward W.; Nealey, L. David; AND Sutton, Robert L.

- 1984 24.195 **Map showing geology, structure, and uranium deposits of the Flagstaff 1° x 2° quadrangle, Arizona.** *U.S. Geological Survey, Miscellaneous Investigations Map I-1446*, scale 1:250,000, 2 sheets.

U.S. National Park Service

- 1984 25.121 **Grand Canyon National Park, Arizona.** Washington, D.C.: U.S. Government Printing Office; with text on verso.

1985

Avey, George M.

- 1985 25.17 **Arizona highways.** *In*: A sampler of sixty years of Arizona Highways [FEATURE]. *Arizona Highways*, 61(4) (April): 5.
Stylized map of the State; from 1938(?) issue.

Billingsley, George H.; Barnes, Charles W.; AND Ulrich, G. E.

- 1985 24.42 **Geologic map of the Coconino Point and Grandview Point quadrangles, Coconino County, Arizona.** *U.S. Geological Survey, Miscellaneous Investigations Map I-1644*, 1 sheet, scale 1:62,500.

Earth Tracks

1985 25.217 **Bright Angel recreation map.** Phoenix: Earth Tracks. (Revision by Gordon Wahl.)

Good, John

1985 9.137 **Copper—A guide to Grandview Trail and Horseshoe Mesa.** Grand Canyon Natural History Association, [28] pp. [including wraps]. (Grand Canyon Trail Guide series.) [Cover title: **Grandview : Grand Canyon Trail Guide.**]

Map, Inc.

1985 25.65 **Arizona travel adventures and trivia map** [New Mexico map on verso]. Norman, Oklahoma: Map, Inc., 1 sheet.

Scarborough, Robert B.

1985 11.3583 **Geologic cross-sections of western Arizona Basin and Range with accompanying geologic maps and other information.** *Arizona Bureau of Geology and Mineral Technology, Open-File Report 85-2*, [9] pp., 27 sheets.

1985 24.175 **Map of post-15-M.Y. volcanic outcrops in Arizona.** Arizona Bureau of Geology and Mineral Technology, 1 sheet, scale 1:1,000,000.

Stevens, Larry [Stevens, Lawrence E.]

1985 10.83 **The Colorado River in Grand Canyon : a comprehensive guide to its natural and human history.** Flagstaff, Arizona: Red Lake Books, revised 2nd ed., 107 pp.

Thybony, Scott

1985 9.372 **A guide to hiking the Inner Canyon.** Grand Canyon Natural History Association, 3rd ed.

U.S. Bureau of Indian Affairs, Phoenix Area Office, Branch of Roads

1985 25.239 **Kaibab Indian Reservation.** Phoenix: Branch of Roads, Phoenix Area Office, U.S. Bureau of Indian Affairs, 1 sheet.

U.S. Soil Conservation Service

1985 25.191 **Hydrologic unit map of the Colorado River basin, AZ., CA., CO., NV., NM., UT. And WY.** Fort Worth, Texas: U.S. Department of Agriculture, Soil Conservation Service.

Yeats, Kenneth James

1985 11.19259 **Geologic map and structure section of the northern Dome Rock Mountains, La Paz County, Arizona.** *Arizona Geological Survey, Miscellaneous Map MM-85-C*, scale 1:12,000, contour intervals 20 and 40 feet.

Map, here included in the AGS's Miscellaneous Map series, is figure 4 in Yeats (1985), *Geology and structure of the northern Dome Rock Mountains, La Paz County, Arizona*, Master's thesis, University of Arizona. Date of incorporation in the MM series undetermined.

1986

Aquamaps, Inc.

- 1986 10.66 **Colorado River recreation guide : an atlas of the Colorado River from Grand Lake, Colorado to Yuma, Arizona.** Denver, Colorado: Aquamaps, Inc., SEPARATELY PAGINATED SECTIONS. [Sections with separate authors: Max Branyon, Steve Chawkins, Deborah Frizier, Carolyn R. Johnson, *et al.* (including U.S. Bureau of Reclamation). Sections also cited separately herein.]

Billingsley, George H., AND Breed, William J.

- 1986 24.38 **Geologic map of the Bright Angel Trail, Grand Canyon, Arizona.** Tulsa, Oklahoma: American Association of Petroleum Geologists, 1 sheet (2 sides).
Base map is topographic map by Washburn (1981), scale 1:4800, contour interval 25 feet); accompanied by text (Breed *et al.*, 1986, *ITEM NO.* 23.22).

Billingsley, George H.; Antweiler, John C.; Beard, L. Sue; Lucchitta, Ivo; AND Lane, M. E.

- 1986 24.41 **Mineral resource potential map of the Pigeon Canyon, Nevershine Mesa, and Snap Point Wilderness Study Areas, Mohave County, Arizona.** *U.S. Geological Survey, Miscellaneous Field Studies Map MF-1860-A*, 1 sheet with text, scale 1:50,000, and 10-pp. text in pamphlet.

Billingsley, George H.; Wenrich, Karen J.; AND Huntoon, Peter W.

- 1986 24.44 **Breccia pipe and geologic map of the southeastern Hualapai Indian Reservation and vicinity, Arizona.** *U.S. Geological Survey, Open-File Report 86-458-B*, 26 pp., 2 sheets, scale 1:48,000.

Huntoon, Peter W.; Billingsley, George H., Jr.; Breed, William J.; Sears, J. W.; Ford, Trevor D.; Clark, Malcolm D.; Babcock, R. S.; Brown, E. H.; *et al.*

- 1986 24.785 **Geologic map of the eastern part of the Grand Canyon National Park, Arizona.** Grand Canyon Natural History Association, and Museum of Northern Arizona, 1 sheet, scale 1:62,500. [3rd ed. of this map.]
This and other eds. is the so-called "Blue Dragon" map.

Lucchitta, Ivo; Beard, L. Sue; AND Rieck, Hugh J.

- 1986 24.120 **Geologic map of the Pigeon Canyon, Nevershine Mesa, and Snap Point Wilderness Areas, Mohave County, Arizona.** *U.S. Geological Survey Miscellaneous Field Studies Map MF-1860-B*, 1 sheet.

Mariano, John; Helferty, M. G.; AND Gage, T. B.

- 1986 11.5312 **Bouguer and isostatic residual gravity maps of the Colorado River region, including the Kingman, Needles, Salton Sea, and El Centro quadrangles.** *U.S. Geological Survey, Open-File Report 86-347*, 8 maps on 7 sheets.

McGarvin, T. G.

- 1986 24.137 (COMPILER) **Index to published geologic maps of Arizona July 1984-December 1985.** *Arizona Bureau of Geology and Mineral Technology, Open-File Report 86-4*, 1 sheet.

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 1986 24.138 **Index of published geologic maps of Arizona—1986.** *Arizona Bureau of Geology and Mineral Technology, Open-File Report 87-1*, 1 sheet.

North Star Mapping

- 1986 25.74 **Map of Grand Canyon National Park and village : plus Tusayan.** [Flagstaff, Arizona]: North Star Mapping, 1 sheet, 2 sides.

Pratt, Hugo

- 1986 25.2417 **America Septentrionale.** ("Allegato al n. 10 di Corto Maltese 1986".) [In Italian.]
In: Le mappe blu dell'avventura.
Pictorial map of North and Central America; a peculiar mash-up of clip-art. The portfolio comprises six maps that highlight the adventures of the Caro Maltese, a graphic-book sea captain created by Hugo Pratt, which maps were first included in various issues of *Corto Maltese*. Of note here on the map, "America Septentrionale", are an artistic vignette that barely indicates it is a canyon view, a map, "Routes of the Early Explorers", a map positioning the names of some Native American tribes, and an artistic redrawing of a period map of the head of the Gulf of California, "Granata Nova et California" that depicts three rivers arriving at the head of the gulf from different directions.

Reynolds, Stephen J.

- 1988 24.162 **Geologic map of Arizona.** *Arizona Geological Survey, Map 26*, scale 1:1,000,000. (Prepared in cooperation with U.S. Geological Survey as part of Cooperative Geologic Mapping (COGEOMAP) program.
Map also released with *Geology of Arizona*, 2nd ed. (Nations and Stump, 1996).

Reynolds, Stephen J.; Florence, F. P.; Roddy, M. S.; Welty, J. W.; AND Trapp, R. A.

- 1986 24.163 **Map of K-Ar and Ar-Ar age determinations in Arizona.** *Arizona Bureau of Geology and Mineral Technology Map 24*, 1 sheet.
Also included with Arizona Bureau of Geology and Mineral Technology, Bulletin 197 (Reynolds *et al.*, 1986, ITEM NO. 21.7379 in Volume 1/Part B of THE GRAND CANON).
- 1986 24.164 **Map of fission-track, Rb-Sr, and U-Pb age determinations in Arizona.** *Arizona Bureau of Geology and Mineral Technology Map 25*, 1 sheet.
Also included with Arizona Bureau of Geology and Mineral Technology, Bulletin 197 (Reynolds *et al.*, 1986, ITEM NO. 21.7379 in Volume 1/Part B of THE GRAND CANON).

Reynolds, Stephen J.; Roddy, Michael S.; AND Welty, John W.

- 1986 24.166 **Map of Paleozoic rocks and conodont color alteration indices in Arizona.** *Arizona Bureau of Geology and Mineral Technology, Open-File Report 86-1*, 1 sheet, base map scale 1:1,000,000.

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

Saleeby, J. B.

- 1986 24.170 [Corridor] **C-2 central California offshore to Colorado Plateau** (R. C. Speed, coordinator). *Geological Society of America, Centennial Continent/Ocean Transect #10*, 2 sheets, Explanatory text, by J. B. Saleeby, 63 pp. [With contributions by R. C. Speed, M. C. Blake, R. W. Allmendinger, P. B. Gans, R. W. Kistler, D. C. Ross, D. A. Stauber, M. L. Zoback, A. Griscom, D. S. McCulloch, A. H. Lachenbruch, R. B. Smith, and D. P. Hill.] California-Nevada-Utah.

Scarborough, Robert B.

- 1986 24.176 **Map of mid-Tertiary (40-15 M.Y.) volcanic, plutonic, and sedimentary rock outcrops in Arizona.** *Arizona Bureau of Geology and Mineral Technology, Map 20*, 1 sheet, scale 1:1,000,000.

Spencer, Jon E., AND Reynolds, Stephen J.

- 1986 11.19264 **Geologic map of the Lincoln Ranch Basin, eastern Buckskin Mountains, western Arizona.** *Arizona Geological Survey, Open-File Report 86-2*, text 8 pp., scale 1:24,000.

Spencer, Jon E., AND Shenk, Jonathan D.

- 1986 24.182 **Map showing areas in Arizona with elevated concentrations of uranium.** *Arizona Bureau of Geology and Mineral Technology, Open-File Report 86-11*, scale 1:1,000,000, 1 sheet. Superseded by Open-File Report 90-5 (Spencer *et al.*, 1990, [ITEM NO. 24.183](#)).

Stevens, Larry [Stevens, Lawrence E.]

- 1986 10.30 **The Colorado River in Grand Canyon : a comprehensive guide to its natural and human history.** Flagstaff, Arizona: Red Lake Books, revised 2nd ed., 107 pp. [2nd printing?]

Wenrich, Karen J.; Billingsley, George H.; AND Huntoon, Peter W.

- 1986 24.205 **Breccia pipe and geologic map of the northeastern Hualapai Indian Reservation and vicinity, Arizona.** *U.S. Geological Survey, Open-File Report 86-458A*, 29 pp., 2 plates, scale 1:48,000.

Artistic, colored LANDSAT thematic mapper scene from EOSAT, Lanham, Maryland; base map U.S. Geological Survey 15-minute scale Bright Angel quadrangle, 1962, contour interval 400 ft.

Mariano, John, AND Grauch, V. J. S.

1988 11.1335 **Aeromagnetic maps of the Colorado River region including the Kingman, Needles, Salton Sea, and El Centro 1° × 2° quadrangles, California, Arizona, and Nevada.** *U.S. Geological Survey, Miscellaneous Field Studies Map MF-2023*, 6 maps on 3 sheets.

S.A.R. System

1988 24.168 **Grand Canyon, Arizona. Synthetic Aperture Radar imagery X Band, near range, east look.** Produced for U.S. Geological Survey by Aero Service Division, Western Atlas International, Inc., scale 1:250,000.

Sherrod, David R.

1988 11.19271 **Preliminary geologic map of the Monkeys Head quadrangle, Mohave and La Paz Counties, Arizona.** *U.S. Geological Survey, Open-File Report 88-597*, scale 1:24,000.

Sutphin, Hoyt B., AND Wenrich, Karen J.

1988 24.189 **Map showing structural control of breccia pipes on the southern Marble Plateau, north-central Arizona.** *U.S. Geological Survey, Miscellaneous Investigations Map I-1778*, 2 sheets; Sheet 1, Northern part, scale 1:50,000; Sheet 2, Southern part, scale 1:250,000.

Van Dam [firm]

NO DATE 25.122 **Grand Canyon unfolds.** Van Dam, in cooperation with Grand Canyon Natural History Association and Babbitt Brothers, 2 pop-up maps and text in booklet format. [1988 or before.]

Youngs, Leslie G.

1988 11.3831 (COMPILER) **Aeromagnetic map of the Salton Sea 1° × 2° quadrangle, California.** *California Department of Conservation, Division of Mines and Geology, Open-File Report 88-15.*

1989

Arizona Department of Transportation, Photogrammetry and Mapping Services

1989 25.6 **Arizona Highways road atlas.** Phoenix: Arizona Highways, 56 pp.

Belknap, Buzz, AND Evans, Loie Belknap

1989 10.6 **Belknap's waterproof Grand Canyon river guide : all new color edition.** Evergreen, Colorado: Westwater Books, 95 [96] pp.

New ed. of Belknap (1969); beginning with 2nd printing noted as "revised edition" on title-page verso. Eighteen printings (2nd, 1991; 3rd, 1992; 4th, 1993; 5th, 1994; 6th, 1995; 7th, 1996; 8th, 1997; 9th, 1998; 10th and 11th, 2000; 12th, 2001; 13th, 2003; 14th and 15th, 2004; 16th and 17th, 2005; 18th, 2006.

With minor updates, inasmuch as the 1992 printing is the first to include a note relating to the drop of Lava Falls Rapid.

Blank, H. R., AND Kucks, R. P.

1989 24.901 **Preliminary aeromagnetic, gravity, and generalized geologic maps of the USGS Basin and Range-Colorado Plateau transition zone study area in southwestern Utah, southeastern Nevada, and northwestern Arizona.** *U.S. Geological Survey, Open-File Report 89-432*, 16 pp., maps 1:250,000.

Preliminary. BARCO study project. Bounding meridians are 112°, 115° W; 36°30', 38° N.

Earthwalk Press

1989 25.38 **Hiking map and guide, Grand Canyon National Park.** (Text on verso by Helen H. Larson, 1986.) Eureka, California: Earthwalk Press, 1 sheet, 2 sides, scale 1:48,000, revised.

Jones, Stan

1989 25.366 **Everything you want to know about Lake Havasu country and the Colorado River, Parker Dam to Davis Dam : Stan Jones' boating and exploring map.** Lake Havasu City, Arizona: Lake Havasu Area Chamber of Commerce, 1 sheet.

Kistler Graphics, Inc.

1989 25.59 **Satellite photo map of Arizona.** Denver: Kistler Graphics, Inc.
Vinyl raised-relief map.

Sutphin, Hoyt B., AND Wenrich, Karen J.

1989 24.190 **Map of locations of collapse-breccia pipes in the Grand Canyon region of Arizona.** *U.S. Geological Survey, Open-File Report 89-550*, 1 sheet, scale 1:250,000.

Thybonny, Scott

1989 9.373 **A guide to Havasu Canyon.** Grand Canyon Natural History Association, [36] pp. [including wraps]. (Grand Canyon Trail Guide series.) [Cover title: **Havasu : Grand Canyon trail guide.**]

1989 9.374 **A guide to the Hermit Trail.** Grand Canyon Natural History Association, [32] pp. [including wraps]. (Grand Canyon Trail Guide series.) [Cover title: **Hermit : Grand Canyon trail guide.**]

Trails Illustrated

- 1989 25.587 **Grand Canyon National Park, Arizona.** Evergreen, Colorado: Ponderosa Publishing Co., 1 sheet, folded, printed on both sides. (Revised 1989.)
Trail map; base is U.S. Geological Survey's Grand Canyon National Park topographic map; scale ca. 1:73,530.

U.S. Bureau of Land Management, Arizona Strip District; AND U.S. Forest Service, Intermountain Region

- 1989 25.201 **Arizona Strip District : visitor map : 1989.** Ogden, Utah: U.S. Forest Service, Intermountain Region, *in cooperation with* U.S. Bureau of Land Management, Arizona Strip District, St. George, Utah.
East and west half on two sides of one sheet.

U.S. Federal Aviation Administration

- 1989 25.107 **Grand Canyon National Park Airport, Grand Canyon, Arizona; digitized from OC 5381, surveyed April 1989, 5th edition.** *U.S. National Ocean Service, Obstruction Data Sheet ODS 5381.*

1990**Billingsley, George H.**

- 1990 24.7 **Geologic map of the Jumpup Canyon and Big Springs quadrangles, Mohave and Coconino Counties, Arizona.** *U.S. Geological Survey, Open-File Report 90-258*, 16 pp., 1 sheet, scale 1:62,500.
- 1990 24.8 **Geologic map of the Purgatory Canyon quadrangle, northern Mohave County, Arizona.** *U.S. Geological Survey, Open-File Report 90-540*, 1 sheet, scale 1:24,000.
- 1990 24.9 **Geologic map of the Wolf Hole Mountain West quadrangle, northern Mohave County, Arizona.** *U.S. Geological Survey, Open-File Report 90-541*, 1 sheet, scale 1:24,000.
- 1990 24.10 **Geologic map of the Lizard Point quadrangle, northern Mohave County, Arizona.** *U.S. Geological Survey, Open-File Report 90-643*, 1 sheet, scale 1:24,000.
- 1990 24.11 **Geologic map of the Wolf Hole Mountain East quadrangle, northern Mohave County, Arizona.** *U.S. Geological Survey, Open-File Report 90-644*, 1 sheet, scale 1:24,000.

Billingsley, George H.; Wenrich, Karen J.; Huntoon, Peter W.; AND Young, Richard A.

- 1990 24.45 **Breccia pipe and geologic map of the southwestern Hualapai Indian Reservation and vicinity, Arizona.** *U.S. Geological Survey, Open-File Report 86-458-D*, 33 pp., 2 sheets, scale 1:48,000.

Brown, Chip

- 1990 25.792 **A sublime encounter.** *Condé Nast Traveler*, (June): 8, 104-115, 167-169; and fold-out panoramic **MAP** with pagination 183-189.

Edwards, Kathleen, AND Batson, R. M.

- 1990 24.64 **Experimental digital shaded-relief maps of Arizona.** *U.S. Geological Survey, Miscellaneous Investigations Map I-1821*, 2 sheets, scale 1:1,000,000.
- 1990 24.65 **Experimental digital shaded-relief maps of southwestern United States.** *U.S. Geological Survey, Miscellaneous Investigations Map I-1850*, 2 sheets, scale 1:2,000,000.

Fish-n-Map Company

- NO DATE 25.233 **Lake Mohave.** Arvada, Colorado: Fish-n-Map Co., 1 sheet (2 sides). [1990s.]

Harris, Tim

- 1990 25.49 **Arizona: the Grand Canyon State.** Hutchinson, Kansas: Puzzles 'n Such, Inc. Jigsaw puzzle **MAP**, ca. 100 pieces.

Lindemann, Linda Lou

- 1990 10.16 **Colorado River briefs for a trip through the Grand Canyon.** (Illustrated by Dan K. Lindemann.) Tucson: Lundquist Press, 2nd printing, 152 pp. [Spiral-bound, light-blue covers.]

National Geographic Society, Cartographic Division

- 1990 24.827 (IN COLLABORATION WITH Boston Museum of Science) **The heart of the Grand Canyon, Grand Canyon National Park, Arizona.** Washington, D.C.: National Geographic Society, 1 sheet, scale 1:24,000, contour interval 100 ft. ("Produced by the Cartographic Division, National Geographic Society".) ("Limited Revision 1990".) ("This map was compiled from 1972 aerial photography and field surveys by Bradford Washburn, assisted by Barbara P. Washburn, Harry R. Feldman and Wendell Mason. Relief by Tibor G. Toth, research and compilation by Thomas L. Gray, contours by Norbert and Walter Vasques, all National Geographic Staff. Cliff hachures by the Topographical Survey of Switzerland. Photogrammetry by Lockwood Mapping, laser assistance by K & E Laser Systems and Electronics. The National Geographic is also grateful to the Grand Canyon National Park, and Professor J. Harvey Butchart, Northern Arizona University, for their generous cooperation and assistance during the preparation of this map.")

This is **Variant C**. 35 × 36 inches, printed on one side on plasticized paper, omitting text and illustrations that appear in Variant B [see 1978, [ITEM NO. 24.145](#)]; National Geographical Society promotional note in lower-left corner; copyright notice in lower-right corner. Compared to Variant B this map expands ground coverage on the west by 1.5 miles, to the west of Hermit's Rest, and on the east by ca. 3,000 feet. Includes table of trail distances that is omitted from Variant B. Key and credit notations are placed differently than in Variant B.

For Variants A and B see 1978 ([ITEM NOS. 24.357, 24.145](#), respectively; for Variant D see 1999, [ITEM NO. 24.828](#)).

Nihon Kōkū Bunka Jigyō Sentā [日本航空文化事業センター] [Japan Airlines Business Center]

- 1990 25.651 **ロサンゼルス・ラスベガス・グランドキャニオン** Los Angeles [Rosanzerusu rasubegasu gurandokyanion : Los Angeles] [[Los Angeles](#), [Las Vegas](#), [Grand Canyon : Los Angeles](#)]. - 1993 25.47 **Topographic recreational map of Arizona.** Canon City, Colorado: GTR Mapping, 1 sheet. Scale 1 inch = 12.5 miles.
Verso includes information.

Hereford, Richard

- 1993 24.81 **Map showing surficial geology and geomorphology of the Palisades Creek archeologic area, Grand Canyon National Park, Arizona.** *U.S. Geological Survey, Open-File Report 93-553*, 20 pp., 1 plate (scale 1:2,000).

Knapp, James H.

- 1993 11.15405 **Geologic map of Mesquite Mtn., Colorado River Indian Reservation, La Paz Co., Arizona.** *Arizona Geological Survey, Contributed Map 93-D*, 1 sheet, [scale 1:24,000].

Lindemann, Linda Lou

- 1993 10.17 **Colorado River briefs for a trip through the Grand Canyon.** (Updated edition, illustrated by Dan K. Lindemann.) Tucson: Lundquist Press, 3rd printing, 152 pp. [Spiral-bound, rust-red covers.]

Luedke, R. G.

- 1993 24.123 **Maps showing distribution, composition, and age of early and middle Cenozoic volcanic centers in Arizona, New Mexico, and West Texas.** *U.S. Geological Survey, Miscellaneous Investigations Map I-2291-A*, 2 sheets, scale 1:1,000,000, text 16 pp.

Neumann, Terry R., AND Leszykowski, Andrew M.

- 1993 11.5404 **Identified mineral resources of the Needles 1° x 2° map quadrangle, California.** *U.S. Bureau of Mines, Mineral Land Assessment Open-File Report 93-14*, SEPARATELY PAGINATED SECTIONS, 2 sheets.

Shirley, Rodney W.

- 1993 25.371 **The mapping of the world; early printed world maps, 1472-1700.** London: New Holland (Publishers) Ltd., [i-xxiv], IX-XLVI [XLVII], 669 pp. [3rd, revised ed.]

Unique Media

- 1993 25.95 **Las Vegas, Grand Canyon, Arizona, Lake Mead country.** Don Mills, Ontario: Unique Media, Inc., 1 sheet.

U.S. Bureau of Reclamation, Lower Colorado Region

- 1993 25.565 **Map and operational diagram : lower Colorado River : Lees Ferry to Gulf of California.** [No place]: U.S. Bureau of Reclamation, Lower Colorado Region, 1 sheet. (Revised April 1993.)

1994

American AdMaps Company

- 1994 25.3 **Arizona Parks and Recreation Association map and facilities guide : Region 4.** Colorado Springs, Colorado: American AdMaps Co., 1 sheet.

Arizona Highways

- 1994 25.9 **A travel guide and map : Indian ruins of the Southwest.** Phoenix: Arizona Highways, 1 sheet, text on verso.
This map also accompanies Cheek (1994, *A.D. 1250* [photographs by Arizona Highways contributors]), Phoenix: Arizona Highways).

Billingsley, George H.

- 1994 24.28 **Geologic map of the Formaster Well quadrangle, northern Mohave County, Arizona.** *U.S. Geological Survey, Open-File Report 94-243*, 1 sheet, scale 1:24,000, text 10 pp.
- 1994 24.29 **Geologic map of the White Pockets quadrangle, northern Mohave County, Arizona.** *U.S. Geological Survey, Open-File Report 94-244*, 1 sheet, scale 1:24,000, text 11 pp.
- 1994 24.30 **Geologic map of the Little Clayhole Valley quadrangle, northern Mohave County, Arizona.** *U.S. Geological Survey, Open-File Report 94-290*, 1 sheet, scale 1:24,000, text 11 pp.
- 1994 24.31 **Geologic map of the Antelope Knoll quadrangle, northern Mohave County, Arizona.** *U.S. Geological Survey, Open-File Report 94-449*, 1 sheet, scale 1:24,000, text 18 pp.
- 1994 24.32 **Geologic map of the Hat Knoll quadrangle, northern Mohave County, Arizona.** *U.S. Geological Survey, Open-File Report 94-554*, 1 sheet, scale 1:24,000, text 14 pp.
- 1994 24.33 **Geologic map of the Moriah Knoll quadrangle, northern Mohave County, Arizona.** *U.S. Geological Survey, Open-File Report 94-634*, 1 sheet, scale 1:24,000, text 15 pp.

Cook, John Wayne, AND Krause, Brian

- 1994 25.29 (ART WORK) **The American Southwest.** Salt Lake City: Directions Unlimited, Inc., Re-Discovery America Regional Map Series, no. 1, 1 sheet, text on verso.

Goter, Susan K.; Oppenheimer, David H.; Mori, James J.; Savage, Martha K.; AND Masse, Robert P.

- 1994 11.19106 **Earthquakes in California and Nevada.** *U.S. Geological Survey, Open-File Report 94-647*, 1 sheet, scale 1:1,000,000. ("Map prepared by Allan Cartography of Medford, Oregon using materials from the United States Geological Survey's 1:500,000 scale state map series. Base maps © 1987 Raven Maps & Images. Used by permission.")
All epicenters plotted, with special symbols for "Known Magnitude ≥ 6.5 Earthquakes Since 1836".

Hereford, Richard, AND Thompson, Kathryn S.

- 1994 24.84 **Topographic map of the Granite Park area, Grand Canyon, Arizona.** *U.S. Geological Survey, Open-File Report 94-563*, 1 sheet, scale 1:2,000, contour interval 1 m.
- 1994 24.85 **Topographic map of the Nankoweap Rapids area, Marble Canyon, Arizona.** *U.S. Geological Survey, Open-File Report 94-564*, 1 sheet, scale 1:2,000, contour interval 1 m.

Hometown Map and Guide Publication and Graphics Co.

- 1994 25.1831 **Bullhead City's and Laughlin's free Hometown map and guide.** Tempe, Arizona: Hometown Map and Guide Publication and Graphics Co., 2nd ed.
Bullhead City, Arizona; Laughlin, Nevada.

Jennings, Charles W.

- 1994 11.18155 **Fault activity map of California and adjacent areas.** *California Division of Mines and Geology, Geologic Map 6*, scale 1:750,000.
- 1994 11.19101 (COMPILATION AND INTERPRETATION BY) **Selected faults in northern Baja California, offshore, and the adjacent southern California area.** *California Division of Mines and Geology, California Geologic Data Map Series*, 1 sheet, scale 1:750,000.
See "Fault Activity Map of California—Plate 1" [refers to Jennings (1994, [ITEM NO. 11.18155](#))].

Lucchitta, Ivo

- 1994 24.117 **Topographic map of the Lees Ferry area, Arizona.** *U.S. Geological Survey, Open-File Report 94-411*, 1 sheet, scale 1:5000, contour interval 5 m (2.5-m supplemental contours).

Lucchitta, Ivo, AND Suneson, Neil H.

- 1994 11.19272 **Geologic map of the Casteneda Hills quadrangle, Mohave County, Arizona.** *U.S. Geological Survey, Geologic Quadrangle Map GQ-1720*, scale 1:24,000.
- 1994 11.19273 **Geologic map of the Casteneda Hills SW quadrangle, Mohave and La Paz Counties, Arizona.** *U.S. Geological Survey, Geologic Quadrangle Map GQ-1719*, scale 1:24,000.
- 1994 11.19274 **Geologic map of the Centennial Wash quadrangle, Mohave and La Paz Counties, Arizona.** *U.S. Geological Survey, Geologic Quadrangle Map GQ-1718*, scale 1:24,000.

Mills, James Gordon, Jr.

- 1994 11.898 **Geologic map of the Hoover Dam quadrangle, Arizona and Nevada.** *Nevada Bureau of Mines and Geology, Map 102*, 1 sheet; text, 4 pp.

Moore, David W., AND Sable, Edward G.

- 1994 24.809 **Interim geologic map of the Smithsonian Butte quadrangle, Washington County, Utah.** *Utah Geological Survey, Open-File Report 305*, 38, 40 pp., 2 plates.
For later map see Moore and Sable (2001, [ITEM NO. 24.810](#)).

Schruben, Paul G.; Arndt, Raymond E.; AND Bawiec, Walter J.

- 1994 24.875 **Geology of the Conterminous United States at 1:2,500,000 Scale—A Digital Representation of the 1974 P. B. King and H. M. Beikman Map.** *U.S. Geological Survey, Digital Data Series 11, Release 2*.
For King map see King *et al.* (1974, [ITEM NO. 24.110](#)).

Sterzinger, L.

- 1994 25.92 **Map of counties served by Colorado River water.** Sterzinger Cartography.

Thybonny, Scott

- 1994 9.375 **Official guide to hiking the Grand Canyon.** Grand Canyon, Arizona: Grand Canyon Natural History Association, 68 pp.

Trails Illustrated

- 1994 25.93 **Grand Canyon National Park, Arizona.** Evergreen, Colorado: Trails Illustrated, revised, 1 sheet.

1995**Arizona State Parks**

- 1995 9.34 **Arizona state trails guide. One of four guides highlighting the trails of the Arizona State Trails System.** Phoenix: State Trails Program, Partnerships Division, Arizona State Parks, and Arizona State Committee on Trails (ASCOT), 3rd ed., loose-leaf, individually paginated by section. (Cover leaf title: *Trails of northern Arizona (canyons, mesas, central highlands)*. *Arizona State Trails System, Guide no. 2 of 4, third edition.*)

Benson, Guy Meriwether

- 1995 25.783 (WITH William R. Irwin and Heather Moore) **Exploring the West from Monticello: A perspective in maps from Columbus to Lewis and Clark. The catalog of an exhibition of maps and navigational instruments, on view in the Tracy W. McGregor Room, Alderman Library, University of Virginia, 10 July to 26 September 1995.** Charlottesville, Virginia: Department of Special Collections, University of Virginia Library, 81 [83] pp.
Also accompanied by: *Supplement to the catalog for the exhibition Exploring the West from Monticello: A perspective in maps from Columbus to Lewis and Clark. Diagrams prepared by Robert N. Bergantino, hydrogeologist, showing the use in navigational instruments in determining latitude, longitude, and magnetic variation : to be used with the final section in the catalog, Observations of latitude and longitude at all remarkable points, [no date, no imprint], 5 leaves.*

Billingsley, George H., AND Bohannon, R. G.

- 1995 24.37 **Geologic map of the Elbow Canyon quadrangle, northern Mohave County, Arizona.** U.S. Geological Survey, *Open-File Report 95-560*, 1 sheet, text 17 pp.

Dinosaur Nature Association

- 1995 25.180 **The rivers of the Colorado River basin [AND] The plumbing of the Colorado River basin.** Vernal, Utah: Dinosaur Nature Association, 2 maps on 1 sheet.

Faulds, James E.

- 1995 11.12015 **Geologic map of the Mount Davis quadrangle, Nevada and Arizona.** Nevada Bureau of Mines and Geology, *Map 105*, 1 sheet, scale 1:24,000.

Finch, Warren I.; Molina, P.; Naumov, S. S.; Ruzicka, V.; Barthel, F.; Thoste, V.; Müller-Kahle, E.; AND Tauchid, M.

- 1995 24.71 **World distribution of uranium deposits : first edition.** Vienna, Austria: International Atomic Energy Agency STI/PUB/995, scale 1:30,000,000.

Frémont, John Charles

- 1995 25.829 *Geographical memoir upon Upper California, in illustration of his map of Oregon and California : addressed to the Senate of the United States.* Fairfield, Washington: Ye Galleon Press, 77 pp., **MAP**.
 Reprint of Frémont (1848, *Geographical memoir upon Upper California, in illustration of his map of Oregon and California, by John Charles Frémont: addressed to the Senate of the United States. U.S. 30th Congress, 1st Session, Senate Miscellaneous Document 148*, 67 pp., map).

Higgins, Janice M., AND Willis, Grant C.

- 1995 24.792 **Interim geologic map of the St. George quadrangle, Washington County, Utah.** *Utah Geological Survey, Open-File Report 323*, 1 sheet (scale 1:24,000), text 45 pp.
 For updated map see Hayden and Willis (2011, **ITEM NO.** 24.803).

Homberger, Eric

- 1995 25.867 *The Penguin historical atlas of North America.* New York: Penguin Books (published simultaneously by Viking), 144 pp.
 See pp. 39, 88.
NOTE: MAP on p. 39, showing Spanish explorations in the Southwest, shows "Coronado's route with Tovar" passing south of Grand Canyon and extending to the Colorado River near the Toroweap area. Grand Canyon mentioned in passing, p. 88, on which page is a Holmes illustration at Point Sublime, taken from Dutton's (1882) atlas, but without noting it shows the Grand Canyon; it is labeled only, "A lithograph dated c. 1860 [*sic*]" (credits, p. 144, simply acknowledge U.S. Geological Survey).

Howard, Keith A.; John, Barbara E.; AND Nielson, Julia E.

- 1995 11.11147 **Preliminary geologic map of the Topock 7.5-minute quadrangle, Arizona and California.** *U.S. Geological Survey, Open-File Report 95-534*, 23 pp., 1 sheet, scale 1:24,000.

Karto+Grafik

- 1995 25.639 **Hildebrand's travel map : United States : the southern Rockies and Grand Canyon Country.** Frankfurt am Main: Karto+Grafik Verlagsgesellschaft, 1 sheet, 2 sides. Scale 1:700,000; general map of the Southwest, 1:3,500,000.

Lindemann, Linda Lou

- 1995 10.18 **Colorado River briefs for a trip through the Grand Canyon.** (Updated edition, illustrated by Dan K. Lindemann.) Tucson: Lundquist Press, 4th printing, 152 pp. [Spiral-bound, red covers.]

Lucchitta, Ivo

- 1995 24.372 **Topographic map of the Nankoweap-Kwagunt area, Grand Canyon, Arizona.** *U.S. Geological Survey, Open-File Report 95-529*, 1 sheet, scale 1:5000, contour interval 5 m (2.5-m supplemental contours).

Lucchitta, Ivo; Basdekas, P. G.; Bohannon, R. G.; Reick, H. J.; AND Dehler, C. M.

- 1995 24.118 **Geologic map of the Cane Springs quadrangle, northern Mohave County, Arizona.** *U.S. Geological Survey, Open-File Report 95-86*, scale 1:24,000.

Lucchitta, Ivo; Dehler, Carol M.; AND Basdekas, Peggy G.

- 1995 24.121 **Geologic map of the Cane Springs Southeast quadrangle, northern Mohave County, AZ.** *U.S. Geological Survey, Open-File Report 95-48*, scale 1:24,000.

Lucchitta, Ivo; Dehler, Carol M.; Davis, Marie E.; Burke, Kelly J.; AND Basdekas, Peggy O.

- 1995 24.273 **Quaternary geologic map of the Palisades Creek-Comanche Creek area, eastern Grand Canyon, Arizona.** *U.S. Geological Survey, Open-File Report 95-832*, 2 sheets, text 39 pp. (Glen Canyon Environmental Studies, Quaternary Geology-Geomorphology Program, Report 3.)

North Star Mapping

- 1995 25.75 **Recreation map of Lake Mead, Lake Mohave and Lake Havasu.** [Flagstaff, Arizona]: North Star Mapping, 1 sheet.
- 1995 25.523 **Street map of Lake Havasu City : plus Colorado River recreation : including Desert Hills, Parker, Moovalya Lake, and the Parker Strip area.** Flagstaff, Arizona: North Star Mapping, 1 sheet, 2 sides (laminated).

Reineck and Reineck [firm]

- 1995 25.88 **Grand Canyon : map and guide to the South Rim.** San Francisco: Rufus Graphics, in cooperation with Grand Canyon Natural History Association, 1 sheet.
- 1995 25.89 **Grand Canyon : Karte und Führer zum Südrand.** San Francisco: Rufus Graphics, in cooperation with Grand Canyon Natural History Association, 1 sheet.

RV-Verlag

- 1995 25.90 **Grand Canyon : Monument Valley. 1: 800 000 RV World Cart. World-Länderkarte.** München: RV-Verlag. [In German.]

Sable, Edward G.

- 1995 24.811 **Geologic map of the Hildale quadrangle, Washington and Kane Counties, Utah[,] and Mohave County, Arizona.** *Utah Geological Survey, Map 167*, 2 sheets (scale 1:24,000).

Stevens, Larry [Stevens, Lawrence E.]

- 1995 10.32 **The Colorado River in Grand Canyon : a comprehensive guide to its natural and human history.** Flagstaff, Arizona: Red Lake Books, 4th ed., 115 pp.

Taylor, Karen

- 1995 9.367 **Grand Canyon map and guide to the South Rim.** Grand Canyon, Arizona: Grand Canyon Natural History Association, 18 pp., fold-out.

Trapp, Richard A., AND Reynolds, Stephen J.

- 1995 24.192 **Map showing names and outlines of physiographic areas in Arizona used by the Arizona Geological Survey with comprehensive base map.** *Arizona Geological Survey, Open-File Report OFR 95-2a*, 1 sheet.

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 1995 24.193 **Map showing names and outlines of physiographic areas in Arizona used by the Arizona Geological Survey with base map showing township and range only.** *Arizona Geological Survey, Open-File Report OFR 95-2b*, 1 sheet.

U.S. Forest Service, Southwestern Region

- 1995 25.111 **Arizona : Grand Canyon State : recreation and historic sites map : campgrounds and facilities on state, federal and tribal lands.** U.S. Forest Service, Southwestern Region, scale ca. 1:1,425,000.

Wheat, Carl Irving

- NO DATE 25.920 **Mapping the Transmississippi West, 1540-1861.** Storrs-Mansfield, Connecticut: Maurizio Martino, and Parsippany, New Jersey: About Books, 5 volumes in 6. [1995?]
Reprint of the volumes originally published 1957-1963 by Institute of Historical Cartography. "This reprint is strictly limited to 350 copies" (title-page verso).

1996

Belknap, Bill; Belknap, Buzz; AND Evans, Loie Belknap

- 1996 10.138 **Belknap's revised waterproof Canyonlands river guide : Horsethief & Ruby, Westwater, Labyrinth & Stillwater, Cataract Canyon, Lake Powell.** Evergreen, Colorado: Westwater Books, 79 [80] pp.
Includes the Colorado River in Glen Canyon between Glen Canyon Dam and Lees Ferry.

Benchmark Maps

- 1996 25.18 **Arizona road and recreation atlas.** Berkeley, California: Benchmark Maps, 112 pp.

DeLorme Mapping

- 1996 25.34 **Arizona atlas and gazetteer.** Freeport, Maine: DeLorme Mapping, 2nd ed., 76 pp.
1996 25.35 **Nevada atlas and gazetteer.** Freeport, Maine: DeLorme Mapping, 72 pp.

Faulds, James E.

- 1996 11.13943 **Geologic map of the Fire Mountain quadrangle, Nevada and Arizona.** *Nevada Bureau of Mines and Geology, Map 106*, 1 sheet, scale 1:24,000; text ("Stratigraphic and Structural Framework of the Fire Mountain Quadrangle, Arizona and Nevada"), 6 pp.

Hereford, Richard

- 1996 24.82 **Map showing surficial geology and geomorphology of the Palisades Creek area, Grand Canyon National Park, Arizona.** *U.S. Geological Survey, Miscellaneous Investigations Map I-2449*, scale 1:2,000, contour interval 1 m, 1 sheet (scale 1:2,000), text 12 pp.

Hereford, Richard; Burke, Kelly J.; AND Thompson, Kathryn S.

- 1996 24.86 **Map showing Quaternary geology and geomorphology of the Nankoweap Rapids area, Marble Canyon, Arizona.** *U.S. Geological Survey, Open-File Report 96-502*, 29 pp., 1 sheet, scale 1:2,000, contour interval 1 m.

Hodgson, Godfrey

- 1996 25.865 *Handbooks to the modern world. The United States. Volume 1.* New York and Oxford: Facts on File, 575 pp.
See Arizona, pp. 23-32.] [*Of note: MAP* on p. 24 shows Grand Canyon Village near Elves Chasm.

Huntoon, Peter W.; Billingsley, George H.; Sears, James W.; Ilg, Bradley R.; Karlstrom, Karl E.; Williams, Michael L.; Hawkins, David; Breed, William J.; Ford, Trevor D.; Clark, Malcome D. [sic, Clark, Malcolm D.]; Babcock, R. Scott; AND Brown, Edwin H.

- 1996 24.94 **Geologic map of the eastern part of the Grand Canyon National Park, Arizona.** Grand Canyon, Arizona: Grand Canyon Association, 1 sheet, scale 1:62,500. [4th ed. of this map.]
This and other eds. is the so-called "Blue Dragon" map.

Lindemann, Linda Lou

- 1996 10.19 **Colorado River briefs for a trip through the Grand Canyon.** (Updated edition, illustrated by Dan K. Lindemann.) Catalina, Arizona: Lundquist Press, 5th printing, 152 pp. [Spiral-bound, light-green covers.]

Thompson, Kathryn S.; Burke, Kelly J.; AND Hereford, Richard

- 1996 24.191 **Topographic map showing drainage basins associated with pre-dam terraces in the Granite Park area, Grand Canyon, Arizona.** *U.S. Geological Survey, Open-File Report 96-298*, 1 sheet, scale 1:2,000.

Thybony, Scott

- 1996 9.525 **Official guide to hiking the Grand Canyon.** Grand Canyon, Arizona: Grand Canyon Natural History Association, Updated Edition.

Wenrich, Karen J.; Billingsley, George H.; AND Huntoon, Peter W.

- 1996 24.207 **Breccia-pipe and geologic map of the northwestern part of the Hualapai Indian Reservation and vicinity, Arizona.** *U.S. Geological Survey, Miscellaneous Investigations Map I-2522*, 2 sheets, scale 1:48,000, text 16 pp.

Workman, Jeremiah B.

- 1996 11.1463 **Evaluation of shorelines along Lake Mohave, Lake Mead National Recreation Area, Nevada and Arizona.** *U.S. Geological Survey, Open-File Report 96-651*, 1 sheet, text 4 pp.
- 1996 11.10546 **Evaluation of shorelines along Lake Mead, Lake Mead National Recreation Area, Nevada and Arizona.** *U.S. Geological Survey, Open-File Report 96-38*, 1 sheet, text 4 pp.

1997**Automobile Club of Southern California**

- 1997 10.74 **Guide to Colorado River, Lake Mead to Yuma : includes Lake Havasu, Lake Mojave, Laughlin, and Hoover Dam, plus attractions, campgrounds and recreation.** Automobile Club of Southern California, folded-map format.

Berndtson und Berndtson GmbH

- 1997 25.654 **American Southwest : road map : Grand Canyon, Gr. Los Angeles, Greater Phoenix, Gr. San Francisco.** Fürstenfeldbruck, Germany: Berndtson und Berndtson GmbH, scale 1:3,000,000. [In German.]

Billingsley, George H.

- 1997 24.34 **Geologic map of the Mount Logan quadrangle, northern Mohave County, Arizona.** U.S. Geological Survey, Open-File Report 97-426, 1 sheet, text 21 pp.
- 1997 24.35 **Geologic map of the Mount Trumbull NW quadrangle, northern Mohave County, Arizona.** U.S. Geological Survey, Open-File Report 97-488, 1 sheet, text 19 pp.
- 1997 24.36 **Geologic map of the Poverty Spring quadrangle, northern Mohave County, Arizona.** U.S. Geological Survey, Open-File Report 97-493, 1 sheet, text 13 pp.

Buchheit, Kim, AND Pollock, Gayle L.

- 1997 25.22 **Mapping the land: What is the Colorado Plateau?** *Plateau Journal*, [1(1)] (Summer): inside front cover [repeated inside back cover]; text, p. 64.
Map also repeated in subsequent issues.

Capps, Richard Crissman

- 1997 11.5376 **Geologic map of the Castle Mountains, San Bernardino County, California, and Clark County, Nevada.** Nevada Bureau of Mines and Geology, Map 108, 1 sheet, scale 1:24,000.

Eureka Cartography

- 1997 25.520 **Nevada SealMap : with detailed maps of Las Vegas, the Strip, Reno, Carson City, Lake Mead, Lake Tahoe.** Berkeley, California: Eureka Cartography, 1 sheet, scale 1 inch = ca. 29.2 miles. (SealMaps.)

Hereford, Richard

- 1997 24.83 **Topographic map of the Nine Mile Draw area, Colorado River, Glen Canyon National Recreation Area, Arizona.** U.S. Geological Survey, Open-File Report 97-253, 1 sheet, scale 1:1,000.

Higgins, Janice M.

- 1997 24.790 **Interim geologic map of the White Hills quadrangle, Washington County, Utah.** *Utah Geological Survey, Open-File Report 352*, 2 sheets (scale 1:24,000), text 94 pp.
For updated map see Hayden (2011, ITEM NO. 24.800).

Rand McNally

- 1997 25.83 **Grand Canyon National Park EasyFinder.** Skokie, Illinois: Rand McNally, 1 sheet cut in small squares, laminated, and folded.

Steinke, Theodore R.

- 1997 11.15408 **Geologic map of the eastern Plomosa Pass area, northern Plomosa Mountains, La Paz County, Arizona.** *Arizona Geological Survey, Contributed Map 97-A*, 1 sheet, scale 1:3,570.

Stevens, Larry [Stevens, Lawrence E.]

- 1997 10.33 **The Colorado River in Grand Canyon : a comprehensive guide to its natural and human history.** Flagstaff, Arizona: Red Lake Books, 5th ed., 115 pp. [1st printing erroneously marked on title-page verso "Fifth edition, 5th printing, 1997". 2nd printing, 1998.]

Valin, Zenon; Hampton, Haydee; AND Buchheit, Kim

- 1997 25.1850 **[Two maps.]**
In: Billingsley, George H., Spamer, Earle E., and Menkes, Dove, *Quest for the pillar of gold : the mines and miners of the Grand Canyon*. Grand Canyon Association, Monograph 10.
Map 1—Physiographic Map (fold-out, inside back cover)
Map 2—Mining Districts (inside back cover)
 Map 1 depicts the boundaries of physiographic regions of the greater Grand Canyon, with a key to 132 point places. Map 2 depicts the (informal) boundaries of historic mining districts of the greater Grand Canyon, with a key to 54 specifically located mines and claims. Map 2 is the only map of its kind.

Wenrich, Karen J.; Billingsley, George H.; AND Huntoon, Peter W.

- 1997 24.208 **Breccia-pipe and geologic map of the northeastern part of the Hualapai Indian Reservation and vicinity, Arizona.** *U.S. Geological Survey, Miscellaneous Investigations Map I-2440*, 2 sheets, scale 1:48,000, text 19 pp.

Williams, Van S.; Bohannon, Robert G.; AND Hoover, D. L.

- 1997 11.5393 **Geologic map of the Riverside quadrangle, Clark County, Nevada.** *U.S. Geological Survey, Geologic Quadrangle Map GQ-1770*, 1 sheet, scale 1:24,000.

1998**Arizona Department of Transportation, Photogrammetry and Mapping Section**

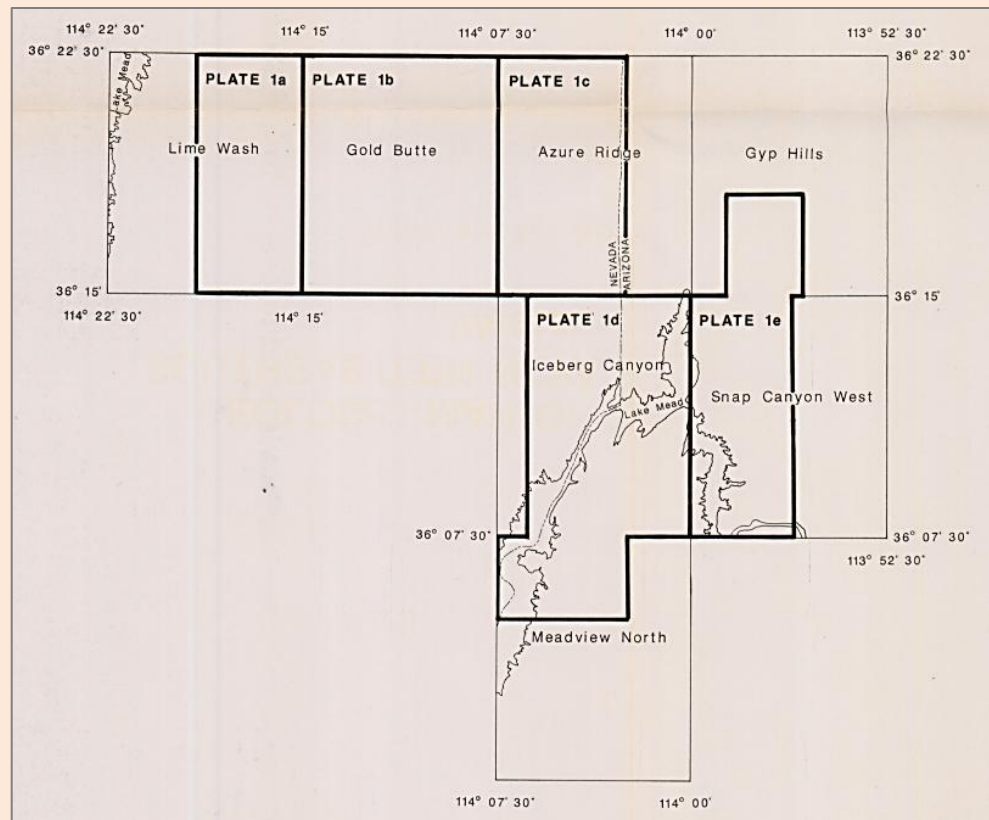

- NO DATE 25.7 **Arizona Landkarte.** [No imprint], 1 sheet. (Text on verso: "Arizona. Land der Abenteuer und Naturwunder".) *[In German.]*
 Credit is given to 1998/1999 data from Arizona Office of Tourism.] *[Map purchased new in 1998.]*

Arizona Geological Survey

- 1998 24.3 **3-D stereo topographical map of Arizona.** *Arizona Geological Survey, Map 32*, 1 sheet, scale 1:750,000, contour interval 100 feet. (Stereo contours produced by American Stereo Map Co., Salt Lake City.) *[To be used with red/blue glasses.]*

Brady, Robert J.

- 1998 11.18642 *The geology of the Gold Butte breakaway zone and the mechanical evolution of normal fault systems.* Doctoral dissertation, California Institute of Technology, SEPARATELY PAGINATED SECTIONS [200 pp. total] + Plates 1a-e, 2-11.
 All accessible online at <https://thesis.library.caltech.edu/11380/> (accessed June 5, 2021).
 Plates reproduce **MANUSCRIPT MAPS** created at scales 1:12,000 (**see key below**) based on U.S. Geological Survey quadrangles, and supporting data (all reproduced as PDF documents):
Plate 1a, Geologic Map of the South Virgin Mountains, Southeastern Nevada and Northwestern Arizona: Western Lime Ridge Sheet

U.S. Geological Survey, Grand Canyon Monitoring and Research Center

- 2002 10.48 **A guide to the Colorado River in the Grand Canyon (from Glen Canyon Dam to Pierce Ferry). March 2000 contours and river-mile systems.** Flagstaff, Arizona: U.S. Geological Survey, Grand Canyon Monitoring and Research Center, Flagstaff Field Center.
Glen Canyon Dam to Pearce Ferry. 590 maps in one-half mile segments. Sheets headed "River Mile -15" to "River Mile 279.5"; mileages begin with Mile 0 of Birdseye (1924, [ITEM NO. 10.119](#)). Maps plot mileage points for GCMRC study, Birdseye, and the markers from the Grand Canyon river guides of Belknap and of Stevens; the GCMRC plots are refined to 0.1 mile points. Actual coverage of GCMRC points go upstream not quite to Mile -15.3 and does not actually go to the dam.
Hardcopies can be generated at various scales from computer-data files; e.g., 1:4,000 (4 inches = ¼ mile); contour intervals 2 m on land, 1 m on river surface.

U.S. National Oceanic and Atmospheric Administration, National Ocean Service, Coast Survey

- 2002 25.342 **Lake Mead, Arizona-Nevada.** *U.S. National Oceanic and Atmospheric Administration, National Ocean Service, Coast Survey, Nautical Chart 18687*, 13th ed., November 2002, 1 sheet (2 sides), scale 1:48,000.
"Soundings refer to a normal lake level elevation which is 1160 feet above Mean Sea Level". "Correct through NM Nov. 16/02" (i.e., *Notice to Mariners*, November 16, 2002).
This edition cited here as an example; other eds., not cited.
Also, 13th ed. noted with updates through 25 July 2020 (<https://charts.noaa.gov/PDFs/18687.pdf>.)]

Thybony, Scott

- 2004 9.645 **Grand Canyon Bright Angel Trail guide.** Grand Canyon, Arizona: Grand Canyon Association, revised and updated ed., 32 pp. [including wraps]. (Official Grand Canyon Trail Guides Series.) [For earlier eds. see Berkowitz.]

⁹⁴ Points relating to production, editions, and printings of the RiverMaps series were provided by Duwain Whitis (February 2021). The date given in square brackets as a note within a citation is Whitis's record of the date of delivery from the printer, thus the date of availability. These dates with months do not appear in the publications themselves.

Time Traveler Maps

- 2004 25.174 **The Colorado Plateau : map and guide to public lands on the Colorado Plateau and its borderlands.** Mancos, Colorado: Time Traveler Maps, 2nd ed., foldout, 2 sides, scale 1:1,250,000.

Tobin, Bret D., AND Weary, David J.

- 2004 24.354 **Digital engineering aspects of karst map: A GIS version of Davies, W. E., Simpson, J. H., Ohlmacher, G. C., Kirk, W. S., and Newton, E. G., 1984, Engineering aspects of karst: U.S. Geological Survey, National Atlas of the United States of America, scale 1:7,500,000.** *U.S. Geological Survey, Open-File Report 2004-1352*, 1 sheet. [Geographic Information System.]

Wheat, Carl Irving

- 2004 25.962 **Mapping the Transmississippi West, 1540-1861. Volume One, 1540-1804, and Volume Two, 1805-1845.** Mansfield Centre, Connecticut: Martino Publishing. [Spine title cited.]
State 1: 2 volumes in 1.
Facsimile reproduction of Wheat (1957, 1958) reduced to quarto. Includes title-page for Martino followed by original title-page for Institute of Historical Cartography.
- 2004 25.963 **Mapping the Transmississippi West, 1540-1861. Volume Three, 1846-1854, and Volume Four, 1855-1860.** Mansfield Centre, Connecticut: Martino Publishing. [Spine title cited.]
State 1: 2 volumes in 1.
Facsimile reproduction of Wheat (1959, 1960) reduced to quarto. Includes title-page for Martino followed by original title-page for Institute of Historical Cartography.
- 2004 25.964 **Mapping the Transmississippi West, 1540-1861. Volume Five, Civil War to the Geological Survey.** Mansfield Centre, Connecticut: Martino Publishing. [Spine title cited.]
State 1: 2 volumes in 1.
Facsimile reproduction of Wheat (1963) reduced to quarto. Includes title-page for Martino followed by original title-page for Institute of Historical Cartography.
- NO DATE 25.927 **Mapping the Transmississippi West, 1540-1861. Volume I (1540-1804), Volume II (1804-1845), Volume III (1846-1854).** Mansfield Centre, Connecticut: Martino Publishing. [Cover title cited. There is no separate title-page for the bound set.] [An on-demand publication.]
State 2 of 2004 ed., "Copyright 2004", "Two-Volume Reprint Edition" (Martino title-page verso): 3 volumes in 1. [After 2004.]
Facsimile reproduction of Wheat (1957, 1958, 1959) reduced to quarto, but omits the folding plates, which are in Volume I between pp. 188/189 (WHEAT 157), in Volume II between pp. 56/57 (WHEAT 316) and 128/129 (WHEAT 398), and in Volume III between pp. 118/119 (WHEAT 764). Includes title-page for Martino followed by original title-page for Institute of Historical Cartography.
- NO DATE 25.928 **Mapping the Transmississippi West, 1540-1861. Volume IV (1855-1860), Volume V: Part One (The Civil War to the Geological Survey), Volume V: Part Two (The Civil War to the Geological Survey).** Mansfield Centre, Connecticut: Martino Publishing. [Cover title cited. There is no separate title-page for the bound set.] [An on-demand publication.]
State 2 of 2004 ed., "Copyright 2004", "Two-Volume Reprint Edition" (Martino title-page verso): 3 volumes in 1. [After 2004.]
Facsimile reproduction of Wheat (1960, 1963) reduced to quarto. Includes title-page for Martino followed by original title-page for Institute of Historical

Cartography. (There are no folding plates in the original Volumes IV, V, thus the remark given Volume III does not apply.)

Also available only as downloads from U.S. Geological Survey publications website are geologic maps of the thirty-two 7.5' quadrangles (scales 1:24,000) within the Valle 30' × 60' quadrangle, all of which can be accessed directly from this webpage: <https://pubs.usgs.gov/sim/2006/2895/24k/images/> (accessed 10 July 2024). Quadrangles are as follows:

- 2006 24.239 **National Tank quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895*. [7.5' quadrangle, scale 1:24,000.]
- 2006 24.240 **Supai Camp quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895*. [7.5' quadrangle, scale 1:24,000.]

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 2006 24.241 **Hualapai Tank quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.242 **Baldy Basin quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.243 **Box K Ranch quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.244 **Metzger Tank quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.245 **Tusayan West quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.246 **Tusayan East quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.247 **Dike Tank quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.248 **Supai Camp SE quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.249 **Hazen Hole Tank quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.250 **Rosebud Tank quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.251 **Little Harpo Canyon quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.252 **Howard Hill quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.253 **Red Butte SW quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.254 **Red Butte quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 2006 24.255 **Rose Well Camp West quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.256 **Rose Well Camp East quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.257 **Black Tank quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.258 **Tin House quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.259 **Markham Dam quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.260 **Miller Tank quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.261 **Valle Tank quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.262 **Molly Ann Draw quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.263 **Rhodes Canyon quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.264 **Big Bud Tank quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.265 **Bishop Lake quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.266 **Howard Spring quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.267 **Red Hill Ranch quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]
- 2006 24.268 **Mixon Tank quadrangle.** [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2895.* [7.5' quadrangle, scale 1:24,000.]

|------|--------|--|
| 2006 | 24.269 | Howard Lake quadrangle. [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. <i>U.S. Geological Survey, Scientific Investigations Map 2895.</i> [7.5' quadrangle, scale 1:24,000.] |
| 2006 | 24.270 | Hobble Tank quadrangle. [As part of 1:100,000 scale] Geologic map of the Valle 30' × 60' quadrangle, Coconino County, northern Arizona. <i>U.S. Geological Survey, Scientific Investigations Map 2895.</i> [7.5' quadrangle, scale 1:24,000.] |

Faulds, James E.; Ramelli, Alan R.; AND Lledo, H.

- | | | |
|------|----------|--|
| 2006 | 11.13947 | Preliminary geologic map of the north half of the Searchlight quadrangle, Clark County, Nevada. <i>Nevada Bureau of Mines and Geology, Open-File Report 06-15</i> , 1 sheet, scale 1:24,000; text ("North Half of Searchlight Quadrangle Rock Descriptions", by Faulds and Ramelli), 11 pp. Superseded by <i>Open-File Report 10-13</i> (Faulds et al., 2010, <i>ITEM NO.</i> 11.13949). |
|------|----------|--|

GeoGraphic Publishers

- | | | |
|------|--------|---|
| 2006 | 25.212 | Insight : Phoenix. [Munich, Germany]: GeoGraphic Publishers (distributed by American Map Corp., Maspeth, New York). Verso includes Grand Canyon map, scale 1:270,000. |
|------|--------|---|

Hayden, Janice M.

- | | | |
|------|--------|--|
| 2006 | 24.795 | Interim geologic map of the Kanab quadrangle, Kane County, Utah, and Mohave and Coconino Counties, Arizona. <i>Utah Geological Survey, Open-File Report 487</i> , 1 sheet (scale 1:24,000), text 8, [4] pp. For updated map see Hayden (2011, <i>ITEM NO.</i> 24.375). |
|------|--------|--|

Murphy, Shane, AND Staveley, Gaylord

- | | | |
|------|-------|--|
| 2006 | 10.63 | Ammo can interp : talking points for a Grand Canyon river trip. Flagstaff, Arizona: Canyoneers, 1st ed., 223 pp. ("Beta version, subject to revision".) ("Designed, written, and illustrated by Shane Murphy with Gaylord Staveley. Indexed by Shane Murphy with C. V. Abyssus [<i>pseudonym of</i> Richard D. Quartaroli] and Suzy Flint. Edited in whole or part by C. V. Abyssus, Brad Dimock, Brad Ilg, Christa Sadler, Larry Stevens and Roy Webb.") [Limited distribution.] Two states, both 2006; both indicate 1st ed., 1st printing; <i>1st state</i> cover in color, <i>2nd state</i> black-and-white, about one month later, with no textual changes. Formats: <i>1st state</i> , paper, 9.5 × 6.5 in. (height × width), coil binding (single, clear) adds 0.5 in. to width, compresses when ammo can lid is closed; <i>2nd state</i> , paper, 9 × 6 in., coil binding (double, black), which fits better in ammo can. <i>NOTE:</i> Points for this title, 1st-3rd eds., compiled by Richard Quartaroli. |
| 2006 | 10.82 | Ammo can interp : talking points for a Grand Canyon river trip (edited in whole or part by C. V. Abyssus [<i>pseudonym of</i> Richard D. Quartaroli]). Flagstaff, Arizona: Canyoneers, 2nd ed. ("3" [<i>i.e.</i> 3rd printing in sequence]), 220 pp. ("Designed, written and illustrated by Shane Murphy with Gaylord Staveley".) [Color. 9 × 6 inches.] [Limited distribution.] Cline Library, Northern Arizona University, catalog record cites as (square brackets and ellipsis thus): ["Designed, written, and illustrated by Shane Murphy and Gaylord Staveley; edited in whole or part by C. V. Abyssus, . . . [et al.]". 2nd ed. does not denote printings. <i>NOTE:</i> Points for this title, 1st-3rd eds., compiled by Richard Quartaroli. |

Ross, Jim, AND McClanahan, Jerry

- 2006 25.273 **Here it is! Route 66. The map series. Chicago to L.A. A complete set of eight fold-out maps : IL-MO-KS-OK-TX-NM-AZ-CA.** Arcadia, Oklahoma: Ghost Town Press, 8 folded maps with loose title and back leaves.
See "Arizona" (panel title), banner title "Aim for Arizona on Route 66"; and see "California" (panel title), banner title "Cruisin' California on Route Sixty-Six". Banner titles vary by map.

Starr Map Co.

- 2006 25.169 **Discovery map : Flagstaff and vicinity, Arizona : souvenir map and guide.** Anacortes, Washington: Starr Map Co., 6th ed.

U.S. Bureau of Land Management, National Science and Technology Center

- 2006 25.173 **Arizona Strip visitor map, Arizona.** U.S. Bureau of Land Management, National Science and Technology Center.

2007

American Automobile Association

- 2007 25.288 **Colorado River guide map : boating and watersports, casinos and points of interest, Lake Mead, Yuma, lodging and camping, Bullhead City, Hoover Dam, Lake Havasu, Lake Mohave, Laughlin, Needles, Parker.** Automobile Club of Southern California, folded map. (AAA Explore Series.)

Beard, L. Sue; Anderson, R. E.; Block, D. L.; Bohannon, R. G.; Brady, R. J.; Castor, S. B.; Duebendorfer, E. M.; Faulds, J. E.; Felger, T. J.; Howard, K. A.; Kuntz, M. A.; AND Williams, V. S.

- 2007 11.9455 **Preliminary geologic map of the Lake Mead 30' × 60' quadrangle, Clark County, Nevada, and Mohave County, Arizona.** *U.S. Geological Survey, Open-File Report 2007-1010*, scale 1:100,000, contour interval 50 m; text 84+ pp. (Digital database by Debra Block, Tracey Felger, Melissa Aldrich, Michelle Harr, Anita Kaye, and Sue Priest.)

Belknap, Buzz, AND Evans, Loie Belknap

- 2007 10.60 **Belknap's waterproof Grand Canyon river guide : all new edition.** Evergreen, Colorado: Westwater Books, 111 [112] pp.
This is the last printing of the Belknap Grand Canyon guides that employs for river mileages just the system based on the 1924 U.S. Geological Survey Plan and Profile (see Birdseye, 1924, *ITEM NO.* 10.119).

Billingsley, George H.; Priest, Susan S.; AND Felger, Tracey J.

- 2007 24.274 **Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona.** *U.S. Geological Survey, Scientific Investigations Map 2977*, scale 1:100,000, 1 sheet, 33 pp.

Also available only as downloads from U.S. Geological Survey publications website are geologic maps of the thirty-two 7.5' quadrangles (scales 1:24,000) within the Cameron 30' × 60' quadrangle, all of which can be accessed directly from this webpage: <https://pubs.usgs.gov/sim/2007/2977/24k/images/> (accessed 10 July 2024). Quadrangles are as follows:

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 2007 24.275 **Grandview Point quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.276 **Grandview Point NE quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.277 **Hellhole Bend quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.278 **Coconino Point quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.279 **Cameron North quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.280 **Cameron NE quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.281 **Goldtooth Point quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.282 **Appoloosa Ridge quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.283 **Harbison Tank quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.284 **Peterson Flat quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.285 **Willows Camp quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.286 **Coconino Point SE quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.287 **Cameron South quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.288 **Cameron SE quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]

SECTION 3. CHRONOLOGICAL CARTOBIBLIOGRAPHY OF ALL ITEMS IN SECTIONS 1 & 2

- 2007 24.289 **The Landmark quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.290 **Gold Spring quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.291 **Dog Knobs quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.292 **Lockwood Canyon quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.293 **Campbell Francis Wash quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.294 **Gray Mountain.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.295 **Wupatki NE quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.296 **Badger Spring quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.297 **Rock Head quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.298 **Ebert Mountain quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.299 **Chapel Mountain quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.300 **SP Mountain quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.301 **East of SP Mountain quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]
- 2007 24.302 **Wupatki SW quadrangle.** [As part of 1:100,000 scale] Geologic map of the Cameron 30' × 60' quadrangle, Coconino County, northern Arizona. *U.S. Geological Survey, Scientific Investigations Map 2977.* [7.5' quadrangle, scale 1:24,000.]

Hayes, Derek

- 2009 25.853 **Historical atlas of the American west : with original maps.** Berkeley, California: University of California Press, 288 pp.
See: Colorado River, pp. 18, 22, 27, 33, 40, 42, 43, 66, 74, 131, 167, 177, 178, 185, 187, 195, 241, 251-253; Grand Canyon, pp. 16, 40, 177, 178, 222; John Wesley Powell, pp. 8, 160, 177, 178; Glen Canyon Dam, pp. 43, 178; Hoover Dam, pp. 162, 198, 224, 238-239, 259; Lake Mead, pp. 162, 238, 259; Lake Havasu, pp. 241, 253, 257.

Hinz, Nicholas H.; Green, Heather L.; AND Faulds, James E.

- 2009 11.13945 **Preliminary geologic map of the west half of the Ireteba Peaks quadrangle, Clark County, Nevada.** *Nevada Bureau of Mines and Geology, Open-File Report 09-04, 1 sheet, scale 1:24,000.*
Superseded by *Open-File Report 2012-09* (Hinz *et al.*, 2012, **ITEM NO.** 11.13946).

House, P. Kyle, AND Faulds, James E.

- 2009 11.2100 **Preliminary geologic map of the Spirit Mountain NW quadrangle, Clark County, Nevada.** Nevada Bureau of Mines and Geology, *Open-File Report 09-6*, 1 sheet, scale 1:24,000.

Levias, Matthew, AND Jake, Vivienne

- 2009 25.540 **Salt Song Trail map of Nuwuvi (Southern Paiute) sacred landscapes, culture areas and bands.** San Francisco: The Cultural Conservancy, The Salt Song Trail Project and the Chemehuevi Cultural Center. [Poster.]

Lindemann, Linda Lou

- 2009 10.69 **Colorado River briefs for a trip through the Grand Canyon.** (Updated edition, illustrated by Dan K. Lindemann.) Santa Clara, California: DeHarts Printing Services, 11th printing, 154 pp. [Spiral-bound, pictorial topographic map covers.]

Malmon, Daniel V.; Howard, Keith A.; AND Priest, Susan S.

- 2009 11.1848 **Geologic map of the Needles 7.5' quadrangle, California and Arizona.** *U.S. Geological Survey, Scientific Investigations Map 3062*, 1 sheet, scale 1:24,000; text, 31 pp.

Moseley, Christopher

- 2009 25.539 (ED.-IN-CHIEF) **UNESCO map of the world's languages in danger.** [No place]: United Nations Education, Scientific and Cultural Organization, *with the support of* Norwegian Ministry of Foreign Affairs, 1 sheet. [Numerous tribal languages in various stages of endangered longevity are plotted in the Grand Canyon and lower Colorado River regions.]

National Geographic Maps

- 2009 25.311 **Grand Canyon : Bright Angel Canyon, North and South Rims : National Park, Arizona, USA : outdoor recreation map : revised regularly, waterproof, tear-resistant.** Evergreen, Colorado: National Geographic Maps, 1 sheet, 2 sides. (Trails Illustrated Map™, no. 261.) ("Expanded coverage, 1:35,000 scale, Grand Canyon Village, Bright Angel and North and South Rim Trails, backcountry regulations and permit information.") ("GPS compatible. Full UTM grid.") [Scale *ca.* 1:35,000, contour interval 50 feet.] [Global Positioning System.]
- 2009 25.312 **Grand Canyon east : Grand Canyon National Park, Arizona, USA : outdoor recreation map : revised regularly, waterproof, tear-resistant.** Evergreen, Colorado: National Geographic Maps, 1 sheet, 2 sides. (Trails Illustrated Map™, no. 262.) ("Marble Canyon and Horsehoe [*sic*] Mesa, Kaibab Plateau, Vermillion [*sic*] Cliffs National Monument, backcountry regulations and permit information.") ("GPS compatible. Full UTM grid.") [Scale *ca.* 1:90,000, contour interval 100 feet.] [Vermillion Cliffs National Monument.] [Global Positioning System.]
- 2009 25.313 **Grand Canyon west : Grand Canyon National Park, Arizona, USA : outdoor recreation map : revised regularly, waterproof, tear-resistant.** Evergreen, Colorado: National Geographic Maps, 1 sheet, 2 sides. (Trails Illustrated Map™, no. 263.) ("Grand Wash Cliffs and Thunder River, Toroweap Cliffs, Grand Canyon-Parashant National Monument, backcountry regulations and permit information.") ("GPS compatible. Full UTM grid.") [Scale *ca.* 1:90,000, contour interval 100 feet.] [Global Positioning System.]

Pearthree, Philip A.; Ferguson, Charles A.; Johnson, Bradford J.; AND Guynn, Jerome

- 2009 11.1605 **Geologic map and report for the proposed State Route 95 realignment corridor, Mohave County, Arizona; parts of the Franconia, Topock, Warm Springs SE, Warm Springs SW, Needles, Needles NE, Boundary Cone, Davis Dam SE, Oatman, Davis Dam, and Union Pass 7 1/2' quadrangles; a report to the Arizona Department of Transportation; SR 95 realignment study: I-40 to SR-68, Project No. 95 MO 200 H6801 01L, Federal No. STP-095-D(AMS).** *Arizona Geological Survey, Digital Geologic Map DGM-65, version 1.0*, 5 sheets, scale 1:24,000, text 44 pp.

Phoenix, David A.

- 2009 24.892 **Geologic map of part of the Lees Ferry area, Glen Canyon National Recreation Area, Coconino County, Arizona.** *Utah Geological Survey, Miscellaneous Publication 09-2DM*, scale 1:24,000 (contour intervals 40 and 20 feet, structural contour interval 100 feet).
 "Geologic Map of part of the Lees Ferry Area, digitized from U.S. Geological Survey Bulletin 1137 (1963)", which refers to D. A. Phoenix, "Geology of the Lees Ferry area, Coconino County, Arizona".
 Miscellaneous Publication 09-2DM originally produced on CD-ROM, which included digital data sets as well as the digital map.

Thybonny, Scott

- 2009 9.788 **Grand Canyon : Grandview Trail guide.** Grand Canyon, Arizona: Grand Canyon Association, 32 pp. [including wraps]. (Official Grand Canyon Trail Guides Series.)
- 2009 9.789 **Grand Canyon : South and North Bass Trail guide.** Grand Canyon, Arizona: Grand Canyon Association, 40 pp. [including wraps]. (Official Grand Canyon Trail Guides Series.) [For earlier ed. see Babbitt and Thybonny (1991).]

U.S. National Park Service, Geologic Resources Inventory

- 2009 24.850 **Geologic map of Pipe Spring National Monument.** [No place]: U.S. National Park Service, Geologic Resources Inventory, digital format (PDF). ("Digital geologic data and cross sections for Pipe Spring National Monument, and all other digital geologic data prepared as part of the Geologic Resources Inventory, are available online at the NPS Data Store: <http://science.nature.nps.gov/nrddata/>".) [Source map is Billingsley *et al.* (2004, ITEM NO. 24.360).]

Wilderness Adventures Press

- 2009 25.2100 **Lee's Ferry Glen Canyon Dam to Lee's Ferry.** Belgrade, Montana: Wilderness Adventures Press. [Scale 1³/₈ inches = 1 mile.]
 For fishing enthusiasts. Three-panel sketch map, heavy stock, two sides, folded. "Front Photograph: © 2009 J.R. Guinn Map, hatch chart, photos, and layout © 2008 Wilderness Adventures Press, Inc.™ unless otherwise noted." Map labels point bars along the river but does not incorporate mileages. Includes area roadways. Textual material includes a chart of monthly insect hatches and recommendations for flies.

2010

Arizona State Land Department

- 2010 25.299 **Arizona surface management responsibility.** Phoenix: Arizona State Land Department, scale 1:800,000.

Belknap, Buzz, AND Evans, Loie Belknap

- 2010 10.126 **Belknap's waterproof Grand Canyon river guide : all new edition : updated with campsites and new USGS mileage points.** Evergreen, Colorado: Westwater Books, 113 pp. ("Fourth printing of ALL NEW EDITION: 2010 (Revised 1/31/10)").
Beginning with this printing, the Belknap Grand Canyon guides employ for river mileages only the system from the 2002 U.S. Geological Survey, Grand Canyon Monitoring and Research Center survey (ITEM NO. 10.48).

Belknap, Bill; Belknap, Buzz; AND Evans, Loie Belknap

- 2010 10.140 **Belknap's waterproof Canyonlands river guide : all new edition : Horsethief & Ruby, Westwater, Labyrinth & Stillwater, Cataract Canyon, Lake Powell, Glen Canyon.** Evergreen, Colorado: Westwater Books, 77 [80] pp.
Includes the Colorado River in Glen Canyon between Glen Canyon Dam and Lees Ferry. "Glen Canyon" added to front cover for the first time.

Biek, Robert F.; Rowley, Peter D.; Hayden, Janice M.; Hacker, David B.; Willis, Grant C.; Hintze, Lehi F.; Anderson, R. Ernest; AND Brown, Kent D.

- 2010 24.369 **Geologic map of the St. George and east part of the Clover Mountains 30' x 60' quadrangles, Washington and Iron Counties, Utah.** *Utah Geological Survey, Map 242DM*, 1 sheet (scale 1:100,000), text 101 pp.

Billingsley, George H., AND Priest, Susan S.

- 2010 24.350 **Geologic map of the House Rock Valley area, Coconino County, northern Arizona.** *U.S. Geological Survey, Scientific Investigations Map 3108*, 1 sheet, scale 1:50,000; pamphlet, 23 pp.

Blair, J. Luke; Hanks, Thomas C.; AND Young, Richard A.

- 2010 24.356 **Maps for the workshop** [ABSTRACT].
In: CR_Evolution_2: Origin and Evolution of the Colorado River System II Workshop: May 24-26, 2010, Flagstaff, Arizona, 1 p.
Shaded-relief and color-coded digital topographic maps. The maps were presented as posters at the workshop and were posted online at <https://sites.google.com/site/crevolution2/home/files> (accessed 8 January 2011; reaccessed 4 February 2021; not accessible, 10 July 2024).

Brown, Kristin M., AND Billingsley, George H.

- 2010 24.351 **Map showing geologic structure, cultural and geographic features, and geologic cross sections of northwestern Arizona.**
In: Alpine, Andrea E. (ed.), Hydrological, geological, and biological site characterization of breccia pipe uranium deposits in northern Arizona. U.S. Geological Survey, Scientific Investigations Report 2010-5025, Plate 1 (in pocket), scale 1:375,000.

DeLorme Mapping

- 2010 25.327 **Arizona atlas and gazetteer.** Yarmouth, Maine: DeLorme, 8th ed., 68 pp.
- 2010 25.328 **California atlas and gazetteer.** Freeport, Maine: DeLorme Mapping, 2nd ed., 160 pp.

Earthwalk Press

- 2010 25.259 **Grand Canyon National Park hiking map and guide : 2 topographic maps in 1 : Bright Angel Trail, Hermit Trail to Grandview Trail.** (Text copyright Helen H. Larson.) La Jolla, California: Earthwalk Press. ("1st Edition".)

- 2010 11.13949 **Preliminary geologic map of the Searchlight quadrangle, Clark County, Nevada.** *Nevada Bureau of Mines and Geology, Open-File Report 06-15*, 1 sheet, scale 1:24,000. Supersedes *Open-File Report 06-15* (Faulds *et al.*, 2010, **ITEM NO.** 11.13947).

Felger, Tracey J., AND Beard, L. Sue

- 2010 11.1878 **Geologic map of Lake Mead and surrounding regions, southern Nevada, southwestern Utah, and northwestern Arizona.**
In: Umhoefer, Paul J., Beard, L. Sue, and Lamb, Melissa A. (eds.), Miocene tectonics of the Lake Mead region, central Basin and Range. *Geological Society of America, Special Paper 463*, pp. 29-38.

Great Pacific Recreation and Travel Maps

- NO DATE 25.315 **Grand Circle road and recreation : Arches, Bryce Canyon, Canyonlands, Grand Canyon, Zion national parks of southern Utah and northern Arizona. 1st edition. Large scale, fully indexed, scenic byways.** Bellevue, Washington: Great Pacific Recreation and Travel Maps, 1 sheet, 2 sides. [2010?]
 Maps credited to California State Automobile Association, San Francisco.

Griffin, Dori

- 2010 25.838 *Reading maps, writing landscapes: Cartographic illustration in Arizona, 1912-1962.* Doctoral dissertation, Arizona State University, 358 pp.

Gutierrez, Carlos; Bryant, William; Saucedo, George; AND Wills, Chris [AND Jennings, Charles W.]

- 2010 11.5891 (UPDATERS) **California Geological Survey 150th anniversary geologic map of California.** *California Geological Survey, Geologic Data Map 2*, scale 1:750,000, 1 sheet, and text, 13 pp. (Original compilation by Charles W. Jennings, 1977. Digital preparation by Milind Patel, Jim Thompson, Barbara Wanish, and Milton Fonseca.)

House, P. Kyle; Green, Heather; Grimmer, Abbey; and the Nevada Digital Dirt Mapping Team

- 2010 11.19283 **Preliminary surficial geologic map of Clark County, Nevada.** *Nevada Bureau of Mines and Geology, Open-File Report 10-7*, scale 1:150,000. (Nevada Digital Dirt Mapping Team credited as: Rohit Patil, Allan Ramelli, Larry Garside, Joanna Redwine, Rachel Wearne, Ronna Bowers, Jason Man, Molly Hunsacker, Michelle Rose, Dan Kozar, Luis Rodriguez, Justin Skord, Pat Cashman, Jim Trexler, Jill Heaton.)

Jennings, Charles W., AND Bryant, William A.

- 2010 11.5896 (COMPILERS, INTERPRETERS; WITH George Saucedo) **California Geological Survey 150th anniversary fault activity map of California.** *California Geological Survey, Geologic Data Map 6*, scale 1:750,000, 1 sheet, and text, 94 pp. (Digital preparation by Milind Patel, Ellen Sander, Jim Thompson, Barbra Wanish, and Milton Fonesca.)

Macomb, J. N. [Macomb, John N.]

- 2010 25.271 (WITH Dimmock, C. H.) **Map of Explorations and Surveys in New Mexico and Utah made under the direction of the Secretary of War by Capt. J. N. Macomb Top^l. Eng^{rs}. assisted by D. H. Dimmock, C. Eng^f. 1860.** (Lettering by John L. Hazzard. Ruling by Samuel Sartain.)
In: Madsen, Steven K., *Exploring desert stone : John N. Macomb's 1859 expedition to the canyonlands of the Colorado.* Logan, Utah: Utah State University Press, 1 sheet.
 Map reprinted in facsimile from Macomb (1876, ITEM NO. 25.568), loose in rear pocket of volume.
 ► The region explored is extralimital to this Cartobibliography, but the map does include the region of the easternmost Grand Canyon and Marble Canyon, which also depicts the "Supposed junction of the Rio Colorado & Flax River" (Little Colorado River). See remarks on the map in the chapter, "The Bones and the Map" (pp. 108-116).

Moosetrak Maps

- 2010 9.902 **Grand Canyon hiking mapbook : rim to rim and day hikes. Edition 1 (Spring 2010):** [*sic*]. Lawrence, Kansas: Moosetrak Maps, 32 pp. (Copyright Downs Geomatrix, LLC.) [An on-demand publication.]
 Copy seen has title-page thus, but title-page verso indicates "Edition 2 (Fall 2010): " [*sic*]; pagination title-page, title-page verso, i-v, 1-32.
 Cover title: *Grand Canyon hiking mapbook : rim to rim and day hikes.*

National Geographic Society

- 2010 25.245 **Colorado River basin : lifeline for an arid land.** Washington, D.C.: National Geographic Society, 1 sheet, side [1]. ("Text by Jonathan Waterman, author; Cheryl Hargrove, editor. Illustration by Samuel Velasco. Design by Robert E. Pratt.")
 Fold-out map accompanies Waterman, Jonathan, *Running dry : a journey from source to sea down the Colorado River* (Washington, D.C.: National Geographic, 2010). Side [2] is "Colorado River Basin; balancing a limited supply with an increasing demand".
- 2010 25.1751 **Bureau of Land Management : National Landscape Conservation System : America's national conservation lands.** [Washington, D.C.]: National Geographic Society, scale 1:3,571,000. (Joel K. Bourne, ed. Texts by Joel Connolley. Design by Robert E. Pratt.)

Nevada Department of Wildlife

- _____ 25.258 **Lake Mead boating access map : boating, fishing, watersports.** Nevada Department of Wildlife, folded pamphlet. [*Ca.* 2010.]

Pearthree, Philip A.; Ferguson, Charles A.; AND Spencer, Jon E.

- 2010 11.6226 **Geologic map of the Dolan Springs 7½' quadrangle, Mohave County, Arizona.** *Arizona Geological Survey, Digital Geologic Map DGM-81, version 1.0*, scale 1:24,000.

Penfield, Robin; Shevenell, Lisa; Garside, Larry; AND Zehner, Richard

2010 11.6247 **Nevada geothermal resources.** *Nevada Bureau of Mines and Geology, Map 161*, scale 1:750,000.

Rand McNally [firm]

2010 25.1863 **Rand McNally city map book : Arizona cities : including Bullhead City, Casa Grande, Flagstaff, Kingman, Lake Havasu City, Payson, Prescott, Prescott Valley, Sedona, Show Low, Sierra Vista, Yuma.** Chicago: Rand McNally, 64 pp. [Booklet format.]

Trinklein, Michael J.

2010 25.937 *Lost states : true stories of Texlahoma, Transylvania, and other states that never made it.* Philadelphia: Quirk Books, 160 pp.
 Dust jacket notes: "Cover Unfolds Into Giant Map!" (dust jacket contains expanded view of the **MAP** depicted on recto, with enumerated guide to the "lost states" there shown.
NOTE: Additional sites are included in the book that do not appear on the map.

Waterman, Jonathan [Waterman, Jon]

2010 25.945 *Running dry : a journey from source to sea down the Colorado River.* Washington, D.C.: National Geographic, 305 pp., separate fold-out **MAP**.

2011

Anonymous

2011 9.1689 **YumaSun 2011-2012 Imperial Sand Dunes recreation map : your complimentary guide to enjoy the Imperial Sand Dunes.** [Yuma, Arizona]: Yuma Sun, [4] pp.

Alex the Card Weaver [pseudonym]

2011 25.754 No more deaths; no más muertes; humanitarian aid is never a crime. *Dumpster Union Dispatch* (Hungry Knife Artist Collective, Arizona City, Arizona), (1) (Fall): [unpaginated]. [Serial is of the Zine genre.]
 Illegal-immigrant deaths on the U.S.-Mexico border. Includes "The Border Shakedown Action Map".

Arizona Exposure

2011 25.310 **Free map! Northern Arizona Exposure 2011. What's inside?** Flagstaff, Arizona: Arizona Exposure, 1 sheet, 2 sides.
 Promotional advertising brochure with illustrated regional map on verso.

Belknap, Buzz, AND Evans, Loie Belknap

2011 10.127 **Belknap's waterproof Grand Canyon river guide : all new edition : updated with campsites and new USGS mileage points.** Evergreen, Colorado: Westwater Books, 119 [120] pp. ("Fifth printing of ALL NEW EDITION: 2011 (Revised 1/31/11)".)

Brady, Robert J.; Fryxell, Joan E.; AND Wernicke, Brian P.

- 2011 11.7711 **Geologic map of the Iceberg Canyon quadrangle, Clark County, Nevada and Mohave County, Arizona.** *Nevada Bureau of Mines and Geology, Map 166*, 1 sheet, scale 1:24,000; with text, "Overview of the Stratigraphy and Structure of the Iceberg Canyon Quadrangle, Clark County, Nevada and Mohave County, Arizona", 16 pp.

Dragon Creek Publishing

- 2011 25.317 **Grand Canyon map and guide : geology, history, facts, photos, diagrams : an all-in-one resource for: hikers, visitors, rafters, backpackers : waterproof, tearproof, 2nd edition, revised, updated.** Flagstaff, Arizona: Dragon Creek Publishing, 1 sheet, 2 sides.

Enote, Jim, AND McLerran, Jennifer

- 2011 25.1686 (EDS.) **A:shiwí A:wán ulohanne / The Zuni world.** [Zuni, New Mexico]: A:shiwí A:wán Museum and Heritage Center; and [Flagstaff, Arizona]: Museum of Northern Arizona, 88 pp. [Bilingual title, in Zuni and English.]
 Art exhibition volume. Zuni cultural mapping, including Grand Canyon.
 The volume effectively comprises an **ATLAS** of Zuni artists' memory map portrayals of Zuni lands and history. Most items embrace aspects of the Grand Canyon and its peoples, created from a cultural connections trip on the Colorado River through Grand Canyon conducted by Zuni tribal members. The volume accompanies an exhibition of the artwork at the Museum of Northern Arizona.

Hayden, Janice M.

- 2011 24.797 **Geologic map of the Thompson Point quadrangle, Kane County, Utah, and Coconino County, Arizona.** *Utah Geological Survey, Map 249DM*, 2 sheets (scale 1:24,000).
- 2011 24.375 **Geologic map of the Kanab 7.5' quadrangle, Kane County, Utah[,] and Coconino and Mohave Counties, Arizona.** *Utah Geological Survey, Map 248DM*, 2 sheets (scale 1:24,000).
- 2011 24.798 **Interim geologic map of the Johnson Lakes quadrangle, Kane County, Utah, and Coconino County, Arizona.** *Utah Geological Survey, Open-File Report 584*, 1 sheet (scale 1:24,000), text 10 [13] pp.
 For updated map see Hayden (2013, **ITEM NO.** 24.799).
- 2011 24.800 **Geologic map of the White Hills quadrangle, Washington County, Utah.** *Utah Geological Survey, Map 250DM*, 2 sheets (scale 1:24,000), text 11 pp.

Hayden, Janice M., AND Willis, Grant C.

- 2011 24.803 **Geologic map of the St. George 7.5' quadrangle, Washington County, Utah.** *Utah Geological Survey, Map 251DM*, 2 sheets (scale 1:24,000), text 20 pp.

Joyce, Lan

- 2011 25.335 (ED.-IN-CHIEF) **Route 66 : the Mother Road : scale 1:1,840,000 : travel atlas.** Richmond, British Columbia, Canada: ITMB Publishing, Ltd., 64 pp. [Detail maps at other scales.]

Lee, Audrey

- 2011 10.72 **Take a ride on the river : a tour guide trip from Glen Canyon Dam to Lee's Ferry.** Lexington, Kentucky: Profundities, 41 pp. [An on-demand publication.]

Murphy, Shane, AND Staveley, Gaylord

- 2011 10.80 **Ammo can interp : talking points for a Grand Canyon river trip.** Flagstaff, Arizona: Canyoners, 3rd ed., revised ed. ("4" [*i.e.* 4th printing in sequence]), 222 pp. [Color. 9 × 6 inches.] ("Original edition designed, written, and illustrated by Shane Murphy with Gaylord Staveley. Indexed by Shane Murphy with C. V. Abyssus [*pseudonym of* Richard D. Quartaroli] and Suzy Flint. Edited in whole or part by C. V. Abyssus, Brad Dimock, Brad Ilg, Christa Sadler, Larry Stevens and Roy Webb. Third Edition revisions by Gaylord Staveley and Wayne Ranney. Third edition layout by Theresa Stacy-Ryan, tmsr Design Delivery.") [Limited distribution.]

Two states: February 2011, 3rd ed., revised ed., "4"; and 3rd ed., "4".

A stated 4th printing is not a 4th ed. but "an exact reprint [of the 3rd ed.] with the exception of a thicker back cover before the plastic back cover, one that Aspen Press left off the 3rd." (*vide* R. D. Quartaroli, 27 June 2014).

Subsequently (*ca.* 2014) made more readily available by sale through Canyoners website. A copy was obtained in 2014 which still was the 3rd, revised ed.

NOTE: Points for this title, 1st-3rd eds., compiled by Richard Quartaroli.]

North Star Mapping

- 2011 25.319 **Guide map to Lake Powell and Glen Canyon National Recreation Area. Includes: Wahweap, Bullfrog, Halls Crossing, and Stateline Marinas, plus Page and Lee's Ferry.** Scottsdale, Arizona: North Star Mapping, 1 sheet, 2 sides.

Taylor, S. S. [Taylor, Sarah Stewart]

- 2012 25.934 *The Expeditioners and the treasure of Drowned Man's Canyon.* (Illustrations by Katherine Roy.) Dexter, Michigan: McSweeney's McMullens, 375 pp.
Young-reader fiction. Story line follows young Expeditioners in search of a lost treasure of gold taken by Spanish soldiers in 1567. Plot takes place mostly in "Northern Arizona", where near Flagstaff is "Drowned Man's Canyon" and "Azure Canyon".
A **MAP** is somewhat reminiscent of the area of Grand Canyon between Deer Creek and Havasu Canyon, with the canyon of the Colorado River seemingly represented by Azure Canyon, and Havasu Canyon seemingly represented by Drowned Man's Canyon. —E.E.S.

Timmons, J. Michael, AND Karlstrom, Karl

- 2012 24.363 **Geologic map of eastern Grand Canyon, Arizona** (with field data supplemented by Joel Pederson and Matt Anders). 2 sheets, scale 1:24,000.
Accompanies: Timmons, J. Michael, and Karlstrom, Karl (eds.), Grand Canyon geology: Two billion years of earth's history. *Geological Society of America, Special Paper 489*, 156 pp.
This map *after* Timmons and Karlstrom (2007, **ITEM NO.** 24.307), "Geologic map of the Butte fault/East Kaibab monocline area, eastern Grand Canyon, Arizona". Published in cooperation with Geological Society of America, University of New Mexico, New Mexico Bureau of Geology and Mineral Resources, Grand Canyon Association, U.S. National Science Foundation, U.S. National Park Service.

U.S. Bureau of Land Management; AND U.S. National Park Service

- 2012 25.939 **Old Spanish Trail : official map and guide. Old Spanish Trail Historic Trail, New Mexico, Arizona, Colorado, Utah, Nevada, California.** [No place]: U.S. Bureau of Land Management, and U.S. National Park Service, [10] pp., half-folded.

U.S. General Land Office

- 2012 25.269 **Arizona 1912. Arizona Highways**, 88(2) (February): 96-inside rear cover.
Reduced-size printing of U.S. General Land Office (1912), "State of Arizona. Compiled from the official records of the General Land Office and other sources under the direction of I. P. Berthrong, Chief of Drafting Division, G.L.O."

U.S. National Park Service

Belknap, Buzz, AND Evans, Loie Belknap

2014 10.130 **Belknap's waterproof Grand Canyon river guide : all new edition : updated with campsites and new USGS mileage points.** Evergreen, Colorado: Westwater Books, 119 [120] pp. ("Eighth printing of ALL NEW EDITION: 2014 (Revised 1/15/14)".)

Black, Bronze

- 2014 10.85 (COMPILER, DESIGNER) **The Colorado River through Grand Canyon : Canyon Explorations/Expeditions guide interpretive manual.** Flagstaff, Arizona: Canyon Explorations/Expeditions, 200 pp. [pagination includes covers].
 Cover title: **Canyon Explorations/Expeditions guide interpretive manual : the Colorado River through Grand Canyon.**
 Proprietary spiral-bound 8½ × 11-inch wide publication for the use of Canyon Explorations/Expeditions employees. "Text by: Justin Salamon, Bronze Black, Givney Siemion, Kelsey Wogan, Marieke Taney, Josh MacNaughton, Laura Chamberlin, Susan Hamilton, and Deanna Sanderson. Editing by Joel Russell, Kelsey Wogan, and Bronze Black. Photography was provided by many talented and generous photographers Book design, illustrations, cover photography, and compilation by Bronze Black." "Printed and bound by: Ram Offset, Portland, Oregon". Quotations from title-page verso (p. [4]). Number of copies produced not determined.
- 2014 10.86 **Regions of Grand Canyon and mile by mile maps.**
In: Black, Bronze (compiler, designer), *Canyon Explorations/Expeditions guide interpretive manual : the Colorado River through Grand Canyon.* Flagstaff, Arizona: Canyon Explorations/Expeditions, pp. 180-197.
 Proprietary publication for the use of Canyon Explorations/Expeditions employees. See Black (2014) *ITEM NO.* 10.85).

Bright Angel Bicycles

- NO DATE 9.1114 **Bike routes. [AND] Points of interest.** [Grand Canyon, Arizona]: [Bright Angel Bicycles], folded brochure.
 Bicycle rental concessioner. Brochure includes bicycle routes for South Rim between Yaki Point and Hermit's Rest. [2014?]

Grand Canyon Chamber and Visitor's Bureau

- 2014 25.358 **Grand Canyon : official map : Grand Canyon National Park South Rim, "The Heart of the Grand Canyon".** Grand Canyon, Arizona: Grand Canyon Chamber and Visitor's Bureau, 1 sheet, 2 sides. ("314".)
 Stylized oblique-view maps without scale, with promotional information for local businesses.
NOTE: Not to be confused with "The Heart of the Grand Canyon", variants cited under [National Geographic Society, Cartographic Division](#) (1978, 1990, 1999).

Kino, Eusebio Francisco

- 2014 25.2465 **Land Passage to California.**
In: Brotton, Jerry, *Great maps.* New York : DK Publishing (Penguin Random House), pp. 160-161.
 Based on Kino 1710, which text unfortunately implies that this is the first date for the publication of California as a peninsula (*refer to* [Kino](#) in Section 1).

Plewe, Brandon S.; Brown, S. Kent; Cannon, Donald Q.; AND Jackson, Richard H.

- 2014 25.902 (ED.-IN-CHIEF and ASSOCIATE EDS.) **Mapping Mormonism : an atlas of Latter-day Saint history.** Provo, Utah: Brigham Young University Press, 2nd ed., 272 pp.

Singleton, John S.; Bird, Emily; AND Hatfield, Marques

- 2014 11.19263 **Geologic map of the southern Lincoln Ranch basin, Buckskin Mountains, west-central Arizona.** *Arizona Geological Survey, Contributed Map CM-14-B*, 1 sheet, scale 1:10,000.

Stevens, Larry [Stevens, Lawrence E.]

- 2014 10.81 **The Colorado River in Grand Canyon : a river runner's map and guide to its natural and human history : 2014 edition.** Flagstaff, Arizona: Grand Canyon Wildlands Council, Inc., 144 [148] pp.
- Cover title: **The Colorado River in Grand Canyon : river map and guide.**
- "Copyright transferred to Grand Canyon Wildlands Council, Inc. for the 2013 edition, 1st printing, 2013." Printed by Ram Offset Lithographers, White City, Oregon. Spiral-bound; in sequence, the 8th ed.
- Title-page specifies "2014 Edition", title-page verso indicates "2nd Printing 2014" (*i.e.*, 2nd printing of 2013 ed.). This ed. contains corrections to typographical errors but text remains otherwise unchanged; blank pages [145-148] added for notes; and improved color and contrast in photographs.
- NOTE:** The river guide also includes generalized strip maps for Tanner Trail, South Kaibab Trail, Bright Angel Trail, Hermit Trail, South Bass Trail, and Havasu Canyon Trail (pp. 139-141).

Sumira, Sylvia

- 2014 25.345 **Globes : 400 years of exploration, navigation and power.** Chicago and London: University of Chicago Press, 224 pp.
- Heavily illustrated volume. Terrestrial globes, whose illustrations as published by Sumira show in some fashion the portion of the earth wherein lies the lower Colorado River region, are listed as follows. In turn, these illustrate the improvements, or the continuing ambiguity, of the cartographic portrayal of southwestern portion of North America, as seen on globes. See: "Terrestrial Globe Gores, 1507; Martin Waldseemüller" (pp. 44-45); "Terrestrial and Celestial Globe Gores, c. 1560; François Demongenet" (pp. 62-63); "Terrestrial Globe, 1606/21; Willem Jansz Blaeu" (pp. 74-75); "Pocket Globe, c. 1679; Joseph Moxon" (pp. 88-89); "Terrestrial Globe, 1728; Johann Gabriel Doppelmayr" (pp. 110-111); "Pocket Globe, c. 1730; John Senex" (pp. 118-119); "Pocket Globe, 1731; Richard Cushee" (pp. 120-121); "Terrestrial Globe, 1730; Richard Cushee", pp. 122-124; "Terrestrial Globe, c. 1766; George Adams" (pp. 144-145); "Pocket Globe, 1779; Nicolas Lane" (pp. 154-155); "Pocket Globe, 1819; Thomas Lane" (pp. 182-183); "Terrestrial Globe, 1831; Newton & Berry" (pp. 188-189); "Terrestrial Globes; Abraham Nathan Myers, Dissected globe, c. 1866 . . . Cardboard cut-out globe, c. 1875" (pp. 206-209); "Terrestrial Globe, after 1884; W. & A. K. Johnston" (pp. 214-215).

**U.S. Forest Service; AND U.S. National Park Service**

- 2014 25.346 **Grand Canyon NP and Kaibab NF : flight hazard and retardant avoidance map.** [No place]: U.S. Forest Service, and U.S. National Park Service, 1 sheet.
- "Grand Canyon Fire & Aviation 04/11/2014". "Aeronautic Sectional on this map is dated 03/06/2014 Aviation Hazards from August, 2012". Scale in nautical miles.
- Retardant avoidance pertains to areas designated in fire management as places where the dropping of fire retardants should be avoided.

U.S. National Park Service, Grand Canyon National Park

- 2014 25.1890 **Grand Canyon Fitness Routes (South Rim Village).** U.S. National Park Service, Grand Canyon National Park. 1 sheet. ("Produced by GRCA SRM GIS". "Feb 2014".)

Scale bar shown. Color- and style-coded routes on existing pathways and roads; 1-, 2-, 3-, and 6-mile "training distances" delineated.

Seen as produced on 11 × 17-inch paper where scale is 1 inch ≈ 0.3 mile.

 Glen Canyon Dam to Pearce Ferry.
 "These data represent the centerline and measured increments at hundredths, tenths and whole miles, along the centerline of the Colorado River beginning at Glen Canyon Dam near Page, Arizona and terminating near the inflows of Lake Mead in the Grand Canyon region of Arizona, USA. The centerline was digitized using Color Infra-Red (CIR) orthophotography collected in March 2000 as source information and a LiDAR-derived river shoreline representing 8,000 cubic feet per second (CFS) as the defined extent of the river. Every effort was made to follow the main flow of the river while keeping the line approximately equidistant from both shorelines. The centerline feature class has been created to more accurately map locations along the Colorado River downstream of the Glen Canyon Dam. River miles and river kilometers were developed from measurements along this line. The incremental point feature classes were derived from the centerline of the Colorado River datasets. Specifically, the points were generated from nodes extracted from the centerline endpoints of the tenth mile line feature class. The Grand Canyon Monitoring and Research Center (GCMRC) river mileage was cross-checked with commercially available river guides and always fell within one mile of the guides, usually corresponding within a half mile. Additionally, these data were subjected to internal review by GCMRC scientists and commercial boatmen with decades of river travel experience on the Colorado River. River Mile 0 was measured from the USGS concrete gage and cableway at Lees Ferry, Arizona—as per the Colorado River Compact of 1922—with negative river mile numbers used in Glen Canyon and positive river mile numbers downstream in Marble and Grand Canyons. These data were updated in March 2015 using newer orthorectified imagery collected in May of 2009 and 2013, both at approximately 8,000 CFS. Due to extended drought conditions that have persisted in the U.S. Southwest, lake levels have dropped dramatically, especially at Lake Mead. A stretch of the Colorado River corridor that was part of Lake Mead in year 2000 has returned to a flowing river once again, and with a different channel that has not previously existed. All changes to the original centerline are downstream of River Mile 260 which is just upstream of Quartermaster Canyon in western Grand Canyon. New river miles and river kilometers were developed from this updated centerline."

International Travel Maps/ITMB Publishing Ltd.

- 2019 25.2513 **International Travel Maps Grand Canyon & Arizona / Arizona & Grand Canyon / Scale 1:90,000/1:1,000,000 Grand Canyon Village, Skywalk Area, Flagstaff.** Richmond, British Columbia: International Travel Maps/ITMB Publishing, Ltd., 1st ed., 1 sheet, 2 sides, water-resistant paper. (Ujimaya, Yusuke; Ramsay, Mark; Krämer, Levin; Cuong, Tran Dinh (eds.); Joyce, Lan (ed.-in-chief).)
 ► *Recto*: "Grand Canyon", scale 1:90,000, depicting Colorado River course from about Nautiloid Canyon to about Havasu Creek; contours not enumerated but variously shaded by elevation with vertical scale in feet/meters; inset maps for "Grand Canyon Village" (scale 1:20,000) and "Grand Canyon Skywalk" (scale 1:90,000).

Verso: "Arizona", scale 1:1,000,000; inset map for "Flagstaff" (scale 1:50,000).

"First printing, April 2021" (p. 1). Spiral-bound. Page 1 is title-page verso. Water-resistant pages as with previous eds., but covers of less substantial stock, laminated.

The Northern Miner

- 2021 24.877 **U.S. Four Corners Mining and Exploration Activity : featuring Arizona, Colorado, New Mexico, and Utah.** [Toronto, Ontario]: The Northern Miner, 1 sheet.
In the Grand Canyon region plots the following mines and prospects: EZ1 & EZ2 (uranium), Pinyon Plain (uranium), Wate Breccia Pipe and Wate (uranium), Hackberry (silver). In the adjacent upper portion of the lower Colorado River region plots Gold Basin (gold), Gold Chain (gold), Philadelphia (gold), Secret Pass (gold), Moss (gold, silver), Gold Road (gold, silver). All others extralimital to this Cartobibliography.

Smith, Stephanie

- NO DATE 25.1907 **The Grand Canyon Protection Act. A permanent ban on new uranium mines on 1 million acres of public lands for the proeject of the Grand Canyon and all who depend upon it.** [Flagstaff, Arizona]: Grand Canyon Trust. [2021.]
▶ [Delimits mineral withdrawal boundary and 2020 mining claim concentration, and showing locations of active and other existing and prospsed uranium mines.](#)
Digital format (PDF) accessible through Grand Canyon Trust website, <https://grandcanyontrust.org/resources>.

Stevens, Larry [Stevens, Lawrence E.]

- 2021 10.145 **The Colorado River in Grand Canyon : a river runner's map and guide to its natural and human history.** Flagstaff, Arizona: Grand Canyon Wildlands Council, Inc., 148 pp.
Cover title: **The Colorado River in Grand Canyon : river map and guide.**
"Copyright transferred to Grand Canyon Wildlands Council, Inc. for the 2013 edition, 1st printing, 2013." Printed by Ram Offset Lithographers, White City, Oregon. Spiral-bound; in sequence, the 12th ed.
Title-page verso indicates "6th Printing 2021" (i.e., 6th printing of 2013 ed.). This ed. contains corrections to typographical errors but text remains otherwise unchanged; blank pages 145-148, previously added for notes, now enumerated.
NOTE: The river guide also includes generalized strip maps for Tanner Trail, South Kaibab Trail, Bright Angel Trail, Hermit Trail, South Bass Trail, and Havasu Canyon Trail (pp. 139-141).

U.S. Bureau of Land Management, Arizona Strip District Office

- 2021 25.1752 **St. George Basin Travel Management Area : Arizona Strip Field Office.** [St. George, Utah]: U.S. Bureau of Land Management, Arizona Strip District Office, scale 1:65,000.
Principally the area north of Grand Canyon-Parashant National Monument and south of St. George, Utah.

U.S. Forest Service, Southwestern Region, Kaibab National Forest

- 2021 25.2515 **Kaibab National Forest atlas : 7½' quadrangle topographic maps : 88 map sheets covering the Kaibab National Forest at 1:63,360 scale (1" = 1 mile). Maps include: roads and trails, camping/recreation facilities, wilderness areas, UTM coordindates, contours and elevations, shaded relief.** [No place]: U.S. Forest Service, Southwestern Region, Kaibab National Forest, 90 leaves, spiral-bound. (RG-R3-07-12.) (Atlas produced by U.S. Forest Service Region 3, Albuquerque, New Mexico.) [Topographic sheets reduced to 8½ × 11-inch format. Alphabetical index to quadrangle names. Texts on insides of front and rear covers and first leaf; legend on leaf 2 and leaf 3 recto; maps enumerated 01-88 beginning on leaf 3 verso.] [North Kaibab, Tusayan, and Williams Ranger Districts.]

2022**Anonymous**

- NO DATE 25.1892 **Grand Canyon National Park Map : Illustrated Trails.** [No imprint], booklet format, [38] pp. with laminated wraps. [An on-demand publication.] [Copy acquired as new, 2022.]
Portions of shaded-relief topographic maps overprinted with trail and other symbols. Text interleaved, comprising travel advice. No credits.
Note: The cover displays a photograph of Horseshoe Bend, in Glen Canyon.

Belknap, Buzz, AND Evans, Loie Belknap

- 2022 10.147 **Belknap's waterproof Grand Canyon river guide : over 50 years in print : expanded edition—updated yearly : read-as-you-run format.** Evergreen, Colorado: Westwater Books, 127 [128] pp. ("OVER 50 YEARS IN PRINT: 2022".)
Inside front cover mistakenly printed upsidedown, but replaced with a correctly oriented paste-in.

Drake, Eric B.

- 2022 25.2473 **Arizona 1857 to 1930's Showing Historic Ranches, Railroads & Mining, Stagecoach & Wagon Routes. Act of Congress of May 20, 1862 "To Secure Homesteads to Actual Settlers on the Public Domaine".** ("Drawn by Eric Drake @ Eric Drake Designs With assistance from Roger Coor, grandson of Toles Dewitt Cosper of the 'Blue', Greenlee Co.") [No imprint], 1 sheet.

Fuis, Gary S., AND Blair, J. Luke

- 2022 11.18985 **Preliminary geologic map of Early Miocene felsic eruptive centers in the Aquarius Mountains, west-central Arizona.** *U.S. Geological Survey, Open-File Report 2022-1016*, 1 sheet, scale 1:15,000.
"The first author, Gary S. Fuis, conducted this mapping in the summer of 1967 in partial fulfillment of the entry requirements into the Ph.D. program of the Division of Geological and Planetary Sciences of the California Institute of Technology,

Pasadena, Calif. The area mapped lies wholly within the Fort Rock Ranch, a private ranch spanning ~50 square miles in Mohave and Yavapai Counties, Arizona. Access to the ranch is limited, and it is uncertain whether a detailed geologic map of the Aquarius Mountains can be recreated today. Therefore, we are making this map available to the public in this Open-File Report.”

Johnson, Bradford J.; Pearthree, Philip A.; Richardson, Carson A.; AND Ferguson, Charles A.

2022 11.19288 **Geologic map of the Stockton Hill 7½' quadrangle, Mohave County, Arizona.** *Arizona Geological Survey, Digital Geologic Map DGM-152*, 2 sheets, scale 1:24,000; text 11 pp.

Moon [firm]

2022 25.1891 **Best of Grand Canyon. Make the most of one to three days in the park.**
In: Hull, Tim, *Best of Grand Canyon*. Berkeley, California: Avalon Travel (Hachette Book Group), [map] 1 sheet, loose in rear pocket. [Cover of volume adds: *Make the most of one to three days in the park. Top sights, top hikes, top scenic drives.*]
 No date on map. (“© moon.com”). With folded-panel title as cited.
 Recto, “The Grand Canyon”, maps all of Grand Canyon National Park, with five insets, “Bright Angel Trail”, “North Kaibab Trail”, “Rim Trail”, “Widforss Trail”, and “River Trail”.
 Verso, “North and South Rims”, is a physiographical map of eastern Grand Canyon with two insets, “Grand Canyon Village” and “Cape Royal Drive”, with Rim Trail, Bright Angel Trail, and North Kaibab Trail highlighted in red.

National Geographic Maps

2022 25.2480 **United States Southwest : adventure travel map : revised regularly, waterproof, tear-resistant.** Evergreen, Colorado: National Geographic Maps, 1 sheet, 2 sides. (Adventure Map no. 3121.) (Scale 1:300,000.)

Anonymous

- NO DATE 25.1403 **世界萬國日本ヨリ海上里數国印王城人物圖** [Sekai bankoku Nihon yori kaijō risū kunijirushi ōjō jinbutsuzu]. [All the countries in the world . . .] [Japan]: [no imprint]. [Mid-19th century?] [In Japanese.]
Library of Congress also offers another title in transliteration, "Sekaizu ichiran". LOC illustrates this map online (<https://www.loc.gov/item/88691685/>) and catalogs it with a date of "18--?", though if the name of the river as translated here is correct it may indicate a mid-19th century date since the name "Colorado River of the West" was in use.
Woodblock print displaying a map of the world with illustrations of costumes, and marginal texts.
▶ The Americas are barely recognizable with North America, interestingly, showing but one major river that flows broadly and sinuously from the central portion of where would be the United States to the southwest at the Gulf of California. The peninsula there is labeled "カリホルニヤ" (California, which is close to the modern Japanese spelling, カリフォルニア) and the mouth of the gulf is labeled "東紅海" (East Red Sea, perhaps implying a variant of Vermilion Sea). The gulf and the inland river are effectively indistinguishable, becoming increasingly wider toward the open sea. A label along its course appears to be "西砂川" (possibly West Sand River, or Sand River of the West).

- NO DATE 11.11116 (COMPILER) **Total dissolved solids content of aquifers of the Basin and Range and the C-aquifer.** *Arizona Hydrologic Map Series, Report 2*, Plate 1, 1 sheet.

Dates Undetermined

The Davis Garage

- NO DATE 25.137 **The National Old Trail—Grand Canyon route : the shortest and best all-year highway to California and the Pacific coast.** Raton, New Mexico: The Davis Garage, folded sheet.

El Centro (California) Chamber of Commerce

- NO DATE 25.368 **Points of interest in Imperial Valley, land of sunshine and romance.** (Sketched by Ethel Pique.) El Centro, California: El Centro Chamber of Commerce, 1 sheet.

Fish-n-Map Company

- NO DATE 25.41 **L. Pleasant. Lee's Ferry (Colo. River below L Powell).** [No place]: Fish-n-Map Co., 1 sheet (2 sides). ("Lee's Ferry to Glen Canyon Dam" on one side.) [Copy acquired new, 1995.]
- NO DATE 25.289 **Lake Pleasant. Lee's Ferry (Colo. River below Lake Powell).** *With GPS!* [No place]: Fish-n-Map Co., 1 sheet (2 sides). ("Lee's Ferry to Glen Canyon Dam" on one side.) [Global Positioning System coordinates.] [Copy acquired new, 2013.]
- NO DATE 25.318 **Lake Powell South. With GPS!** [No place]: Fish-n-Map Co., 1 sheet, 2 sides. [Global Positioning System coordinates.] [Copy acquired new in 2013.]
- NO DATE 25.2106 **Lower Colorado River (Parker Dam to Yuma).** [No place]: Fish-n-Map Co., 1 sheet, 2 sides. [2019?]
 Front panel includes: "Waterproof Plastic! With Fish Habitat! Improved! Waterproof & Tearproof! With GPS! Photo Enhanced! Featuring: —Colorado River from L. Havasu to Imperial Dam Including Martinez L., Imperial L., Ferguson Lake, Senator Wash Res., Squaw L., Taylor Lake and Others. —Boat Ramps, Roads, Campgrounds and Facilities Identified. —Fish Habitat Identified: Submerged Weedbeds & Brush. —Numerous GPS Coordinates Identified. Latitude/Longitude Grids Included. —Fishing Strategy Included!" (The notation, "Photo Enhanced!" seems to pertain to the maps themselves, as there are no photographs.)
- NO DATE 25.521 **Lower Colorado River (Parker Dam to Yuma).** [No place]: Fish-n-Map Co., 1 sheet, 2 sides.

Fishing Hot Spots, Inc.

- NO DATE 25.333 **Lake Mead, Arizona/Nevada : detailed lake map : depth contours, structure, boat ramps, fishing info, GPS points : waterproof.** [No place]: Fishing Hot Spots, Inc. (Map L901.) [Global Positioning System.]

Fred Harvey [firm]

- NO DATE 25.149 **Magic circle map of the Grand Canyon region.** [No place]: Fred Harvey.
 Fred Harvey, no. 4075. Regional map centered on the Watchtower at Desert View.

Dates Undetermined**Frederiksen [A/S Søren Frederiksen] [firm]**

- NO DATE 25.2514 **“Grand Canyon” / relativ datering.** Ølgod, Denmark: A/S Søren Frederiksen. [Illustrated in *Geologimodeller—beskrivelse (transl. ‘Geology models—description’)*, p. 5.] [In Danish.]
Stylized relief model with colored strata to depict the relative dating of geological strata. Despite the name “Grand Canyon”, the example strata are labeled “Prækambrium”, “Kambrium”, “Ordovicium”, and “Silur”, the last two of which of course are time-stratigraphic units that do not occur in the Grand Canyon. The portrayal of topographic relief on this model could be anywhere.] [Seen online in 2024.]

Grand Canyon Natural History Association

- NO DATE 9.464 **A guide to inner canyon hiking : Grand Canyon National Park.** Grand Canyon Natural History Association, 32 pp. [Variant states: Pictorial wraps with full-color picture of inner Deer Creek narrows; Pictorial wraps with Ribbon Falls in sepia tone on cover.]

Hansen, Russell H.

- NO DATE 10.47 **Colorado River map of the Grand Canyon.** Orem, Utah: Tour West (distributor), [49] pp.

Hearne Brothers

- NO DATE 25.281 **Flagstaff and Coconino County.** Scottsdale, Arizona: Hearne Brothers, cloth-mounted map on heavy-duty spring roller.
- NO DATE 25.282 **Indians of Arizona.** Scottsdale, Arizona: Hearne Brothers, cloth-mounted map on heavy-duty spring roller. (SIM206.)

Hubbard Scientific Company

- NO DATE 25.214 **Grand Canyon, Arizona.** Northbrook, Illinois: Hubbard Scientific Company, plastic raised-relief map.
Base map “Prepared by the U.S. Army Topographic Command (FSGE), Washington, D.C., from Western United States 1:250,000, Series V502, Edition 3-AMS, Sheet NJ 12-10, 1970”; contour interval 200 ft with 100-ft supplementary contours.
- NO DATE 25.2483 **Grand Canyon National Park : an Adventureland Map : park map based on ERTS satellite imagery.** Chippewa Falls, Wisconsin: Hubbard Scientific, plastic raised-relief map, 21 × 21 × 1 inches. [Copy acquired new in 2018 (sold with or without frames; frames thin plastic in black or gold, and in oak).] [Earth Resources Technology Satellite.]
Displays eastern Grand Canyon in raised-relief vinyl, including two separate 3-raised-relief inserts. “Grand Canyon National Park” displayed with pre-enlargement boundary; Colorado River on map from Navajo Bridge nearly to Kanab Creek; horizontal scale 1 inch = ca. 8 miles, vertical scale 1/8 inch = 1000 feet.
INSETS: “South Rim Trails”, linear expanse of Inner Gorge about from Hance Creek west to Monument Creek; “North Rim Trails” (including North Kaibab Trail and Old Bright Angel Trail); insets horizontal scale 1 inch = ca. 1.2 miles, vertical scale 1/8 inch = 1000 feet.

Dates Undetermined**Jones, Leslie Allen [Jones, Les]**¹⁰⁰

- _____ 10.115 **Lower Granite Gorge: Grand C.** Midway, Utah, Leslie Allen Jones [Western Whitewater Co.], continuous scroll, photostatically reproduced. [Date undetermined.]
Diamond Creek to Temple Bar, Lake Mead, with title (thus) at Temple Bar and (as rolled) Diamond Creek at the end. Scroll perhaps originally produced for the use of upstream power boaters. This scroll also seems to have been appended later to variants of the main Grand Canyon scroll (see Jones, 1962, *ITEM NO.* 10.14) so as to extend its Grand Canyon coverage from Diamond Creek to Lake Mead. Copy seen produced on Mylar.

Kanab/Kane County Office of Tourism and Film Commission

- NO DATE 25.325 **Southern Utah area map : Kanab/Kane County : "The Heart of the Parks".** Kanab, Utah: Kanab/Kane County Office of Tourism and Film Commission, 1 leaf (2 sides).
Recto map contains generalized map, including northern Arizona.
Verso contains map of Kanab, Utah.

Langren, Arnoldus F. ab [Langren, Arnold Florisz. van]

SHIRLEY 186

- NO DATE 25.421 **Typvs orbis terrarvm.** [Amsterdam.] *[In Latin.]*
Shirley notes that this map is after Oretelius' then-current, third, world map.
▶ The Gulf of California is prominent, with the peninsula labeled "California", and the gulf notably widens at its head and into which several tributary rivers flow. "Totontec" and "Ceuola" are labels noted in the region of interest to this Cartobibliography.

Lawrence, E.

- NO DATE 25.1672 [COMPILER] **Vintage prints : vintage maps : Grand Canyon.** [No imprint], [22] leaves. *[Copy acquired new, November 2020.]* [An on-demand publication.]
A compilation of 20 good-quality, single-page reproductions of Grand Canyon maps, without credit, but seemingly from Library of Congress online postings. The statement (leaf [1] verso), "Images found in this book may have been retouched", seems to be a standard disclaimer used in similarly produced booklets. Three of the maps in this production are shown as white on black, apparently for artistic effect.

México. Comisión Nacional de Áreas Naturales Protegidas, Instituto Nacional de Estadística, Geografía e Informática.

SECTION 4

GUIDES TO QUADRANGLES USED FOR TOPOGRAPHIC, GEOLOGIC, AND OTHER REFERENCE MAPS OF THE UNITED STATES AND MEXICO

IN THE PDF DOCUMENT THE LINES BELOW ARE HYPERLINKS

NOTES FOR SECTION 4

SECTION 4A — Guides to Quadrangles for Topographic and Geologic Maps in the **GREATER GRAND CANYON REGION** Produced By the U.S. Geological Survey

SECTION 4B — Guides to Quadrangles Used for Topographic and Geologic Maps of the **LOWER COLORADO RIVER REGION** Produced by the U.S. Geological Survey and by Mexico's Instituto Nacional de Estadística y Geografía and as Also Used By the Servicio Geológico Mexicano

SECTION 4C — Guides to Quadrangles Used for U.S. Census Bureau Governmental Unit Reference Maps

NOTES FOR SECTION 4

THE United States Geological Survey and Mexico's Instituto Nacional de Estadística y Geografía employ nation-wide systems of topographic maps that adhere to standardized grids of quadrangles, bounded by lines of global latitude and longitude. Various sized quadrangles depend upon the scale of the maps. The USGS is also charged with creating geological maps that use the same system of named quadrangles. In Mexico, the Servicio Geológico Mexicano uses the maps produced by the Instituto Nacional de Estadística y Geografía. Maps are updated as needed, thus there is no concise schedule of editions. Variations may be created over time; for example, alternating between English units of measurement and metric. So-called "provisional" maps were made available for some quadrangles; for example, a newly produced 7.5-minute quadrangle with certain handwritten labels that was made available before a definitive quadrangle map was produced either on paper or through the digital US Topo program (see below). Various forms of updates, other than a wholesale revision of a mapped quadrangle, are "photorevised" and "photoinspected" maps, so indicated for their updates solely from aerial photography.

Since the 19th century the U.S. Geological Survey has produced topographic maps for the nation, which also are used as base maps for geological mapping. The digital resources that are available today are provided through the ongoing "**US Topo**" program (<http://nationalmap.gov/ustopo/>). These maps are different from the legacy paper maps; they are digitally interactive quadrangles, providing user-selected layers for numerous end uses and printing. As the Survey describes:

"US Topo maps are the current generation of USGS topographic maps. The first of these maps were published in 2009. They are modeled on the legacy 7.5-minute series of the mid-20th century, but unlike traditional topographic maps they are mass produced from GIS databases, and are published as PDF documents instead of as paper maps. US Topo maps include base data from The National Map and other sources, including roads, hydrography, contours, boundaries, woodland cover, structures, geographic names, an aerial photo image, Federal land boundaries, and shaded relief." (<https://nationalmap.gov/ustopo/quickstart.pdf>)

"Created in the familiar 7.5-minute quadrangle format like the legacy paper maps, US Topo maps support frequent updating, wide and fast public distribution, and basic, on-screen geographic analysis. US Topo maps are available for free Web download from the [USGS Store](#). Each map is delivered in PDF format with geospatial extensions (GeoPDF®) and is made from key layers of geographic data—orthoimagery, transportation, geographic names, topographic contours, boundaries, hydrography, structures, and woodlands—found in [The National Map](#). *The National Map* is a nationwide repository of integrated data from local, State, Federal, and other sources. Recent US Topo maps also include the [Public Land Survey System](#) and the [United States National Grid](#)."

The state index sheets for the “**legacy paper maps**” have not been digitized, but they have been still available on paper through the U.S. Geological Survey.¹⁰³

As noted, the US Topo series is noticeably different in appearance due to the digitally assembled data that is presented as stackable/removable layers on these maps; and of course printed copies of any customized version may be created, while the digital framework can be used for further purposes. Many users (for a while, at least) will prefer the seemingly more precise presentation of the legacy paper series. In any case, the boundaries and names of the quadrangles are the same, thus any edition of the maps listed can be found without ambiguity.

In the Survey’s online versions, *map names will not appear in quadrangles until the landscape is zoomed-in to a certain level*. However, one may not view large fields of contiguous quadrangles with names as one can with the paper index sheets.

More recently, the National Map has included a new data delivery homepage, an advanced viewer, and the facility for Lidar visualization (<https://www.usgs.gov/core-science-systems/ngp/tnm-delivery>).

The quadrangle lists that appear in Section 4 provide only quadrangle names and map scales. *No effort has been made to identify various revisions*. Specialized maps that are based on topographic mapping—for example, the maps of Grand Canyon National Park produced by the U.S. Geological Survey—will be found in Section 2 of the Cartobibliography.

[Section 4C](#) is an informational listing of index maps produced by the U.S. Census Bureau. These are not topographic maps *per se*, but delineate census boundaries and other pertinent data.

¹⁰³ *Fide* Ken Dixon, U.S. Geological Survey, Office of Communications and Publishing, Science Information Services, Anchorage, Alaska (12 November 2013).

Historically, prior to the widespread production of 15- and 7.5-minute quadrangles in the Southwest, quadrangle production was restricted to a more peculiar distribution dependent upon needs and uses, with occasional maps in sizes out of the ordinary. Based principally upon legacy surveys at 1:250,000 and 1:125,000 scales, even these by the 1920s were incomplete for the region.

On the following pages are samples of the index maps for the transitional period between widespread small- and larger-scale mapping.

Figure 45. Detail from the *Index for Topographic Maps and Geologic Folios for California and Nevada, October 1926* (digitized from paper)

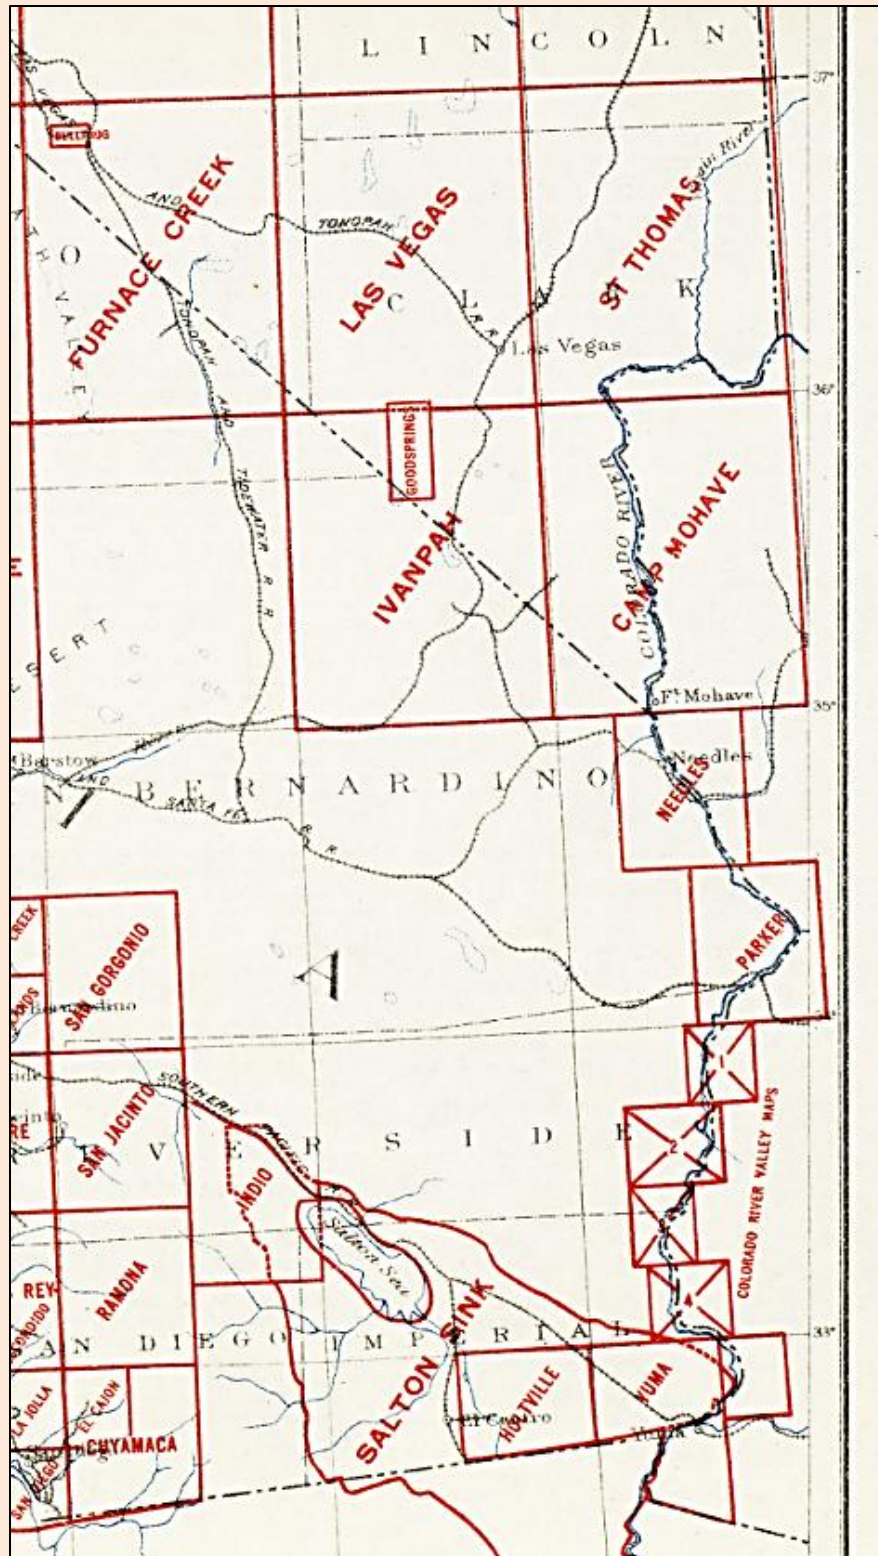

Figure 47. Some of the small-scale legacy maps displayed composite data for different parts of the quadrangle, from different surveys, for example as indicated here on a map in the greater Grand Canyon region, the 1:250,000-scale Diamond Creek Sheet (Arizona):

and the Echo Cliffs Sheet (Arizona):

and similarly as indicated here on a map in the lower Colorado River region, the 1:250,000-scale Camp Mohave Sheet (Arizona-Nevada-California):

These maps were marked, "Reconnaissance Map", for which later editions updated only political boundaries, including boundaries for newly designated federally administrated areas (such as Grand Canyon National Park, and the Hualapai Indian Reservation). Topography and place names were not updated in the later editions.

SECTION 4A

Guides to Quadrangles Used for Topographic and Geologic Maps in the Greater Grand Canyon Region Produced by the U.S. Geological Survey

SECTION 4A provides graphical and itemized guides to the topographic maps of Greater Grand Canyon region, produced by the U.S. Geological Survey. Both legacy paper map guides and current online guides are referred to. Graphical guides illustrate the geographical arrangement of named topographical quadrangles. Itemized guides list, either alphabetically or by special geographical order, the quadrangle names within the region. These lists provide the names of quadrangles by which researchers may refer to either in physical map collections or in the U.S. Geological Survey's very comprehensive collections of digitized historic and current maps. ([Table of contents for Section 4A follows below.](#))

The alphabetical lists are provided so that users who wish to acquire complete sets may locate the maps easily by name. **ITEM NOS.** are added here to the complete alphabetical lists, in order to uniquely identify each map as a discrete publication.

[Indices for the lower Colorado River region are in [Section 4B.](#)]

(continued)

TABLE OF CONTENTS FOR SECTION 4A

IN THE PDF DOCUMENT THE LINES BELOW ARE HYPERLINKS

7.5' (1:24,000-scale) topographic quadrangles in Arizona for the greater Grand Canyon region

ALPHABETICAL LIST

7.5' (1:24,000) quadrangles depicted on the previous chart

STREAM-ORDER LIST OF COLORADO RIVER QUADRANGLES ONLY

7.5' (1:24,000) quadrangles through which the Colorado River flows in lower Glen, Marble, and Grand Canyons (in order, from Glen Canyon Dam to Grand Wash Cliffs)

7.5' (1:24,000-scale) topographic quadrangles in Arizona for the **western Grand Canyon area**

7.5' (1:24,000-scale) topographic quadrangles in Arizona for the **eastern Grand Canyon area**

1:48,000-scale topographic quadrangles in Arizona (greater Grand Canyon region)

15' (1:62,500-scale) topographic quadrangles in Arizona (greater Grand Canyon region)

ALPHABETICAL LIST

15' (1:62,500-scale) quadrangles in Arizona

30' × 60' (1:100,000-scale) topographic quadrangles in Arizona (greater Grand Canyon region)

1:250,000-scale historic topographic quadrangles in Arizona (greater Grand Canyon region); *various composite survey dates and later editions, 1886–1937*

1° × 2° (1:250,000-scale) topographic quadrangles in Arizona (greater Grand Canyon region)

Addendum. Landsat information

Number of Topographic Quadrangle Maps Cited in Section 4A

(guides begin on the following page)

ALPHABETICAL LIST**7.5' (1:24,000) quadrangles depicted on the previous chart**

Neither the chart nor the list identify geographical bounds of the “Lower Colorado River region” as recorded by this Cartobibliography (see the map in this volume’s [Frontispiece](#)). The chart, though, is a quadrangle drawn to encompass this region, and thus, to preserve continuity with the chart, all names displayed on them are included in the list below. Inasmuch as the “bibliographical” boundary defined in [THE GRAND CANON](#) (and thus this Cartobibliography) is not precisely defined, no arbitrary boundary is delimited on the map here. Refer to the U.S. Geological Survey’s digitized topographic maps website or additional coverage that may be required for a user’s needs (<http://ngmdb.usgs.gov/maps/topoview/viewer>).

Some quadrangles that lie toward the outer areas of the geographical bounds of [THE GRAND CANON](#) may not truly be within the intended bounds of the bibliography. Since these bounds are not defined anyway, but are somewhat conjectural, these outlier quadrangles (especially those in the southeastern part of the larger, overlaid quadrangle mentioned above)—even though they are selected by their occurrence within the larger quadrangle drawn around the region—may as well be within [THE GRAND CANON](#)’s area of attention. To attempt to draw an awkward boundary zig-zagging along a more definite boundary of [THE GRAND CANON](#)’s coverage would be useless and would imply a truly “definite” boundary, which is not the intention of [THE GRAND CANON](#) (see introductory comments to this volume).

For continuity with the remainder of this Cartobibliography and in order to identify unique publications, each map is assigned an **ITEM NO.** corresponding to Part 24 of [THE GRAND CANON](#). By convention these maps are usually identified by their names as listed here.

Names in *italics* identify quadrangles that are wholly or partly in the “Arizona Strip”, that portion of Arizona lying between the Colorado River and the Utah and Nevada boundaries on the north and west.

Nevada–Utah–Arizona [upper left corner of chart]

24.389 *Terry Benches*

Nevada–Arizona [upper left portion of chart]

24.390 *Azure Ridge*
 24.391 *Hem Springs*
 24.392 *Iceberg Canyon*
 24.393 Meadview North
 24.394 *Mesquite*
 24.395 *Mesquite NE*
 24.396 *St. Thomas Gap*
 24.397 *Virgin Peak*

SECTION 4A. QUADRANGLES IN THE GREATER GRAND CANYON REGION

Utah–Arizona [top line of chart; the Arizona portion on each map varies but is generally just a matter of yards due to the surveyed boundary not precisely following the 37th parallel (the southern boundary of the quadrangles listed here)]

ADDENDUM TO SECTION 4A**Landsat Information**

Landsat, the multi-generation series of earth-observing satellites placed in orbit by the United States, have since 1972 provided a wealth of imagery, in visible and multispectral wavelengths, for most of the world. The Landsat collections have been made available through the U.S. Geological Survey in a robust variety of data. Basic information is available in U.S. Geological Survey Fact Sheet 2018-3049, "Landsat Collections", <https://pubs.er.usgs.gov/publication/fs20183049>. A grid system for the United States has been established, an overview of which is described in Fact Sheet 2018-3053, <https://pubs.er.usgs.gov/publication/fs20183053>. More information on the Analysis Ready Data (ARD) is accessible at <https://landsat.usgs.gov/ard#Tile%20Grid>. The essential part of the grid for the western U.S. (in which is the area embraced by this Cartobibliography) is shown on the *next page*. Data for individual quadrangles of this grid may be retrieved online by entering the Landsat main page, <https://landsat.usgs.gov/> or from the EarthExplorer main page, <https://earthexplorer.usgs.gov/>.

Approximate area that pertains to the region covered in Section 4A of this Cartobibliography.

END OF SECTION 4A

SECTION 4B

Guides to Quadrangles Used for Topographic and Geologic Maps of the Lower Colorado River Region Produced by the U.S. Geological Survey and by Mexico's Instituto Nacional de Estadística y Geografía and as Also Used by the Servicio Geológico Mexicano — and Other Agencies

SECTION 4B provides graphical and itemized guides to the topographic maps of the lower Colorado River region, produced by agencies of the United States and Mexico. Both legacy paper map guides and current online guides are referred to. Graphical guides illustrate the geographical arrangement of named topographical quadrangles. Itemized guides list, either alphabetically or by special geographical order, the quadrangle names within the region. These lists provide the names of quadrangles by which researchers may refer to either in physical map collections or in the U.S. Geological Survey's very comprehensive collections of digitized historic and current maps. ([Table of contents for Section 4B follows below.](#))

The alphabetical lists are provided so that users who wish to acquire complete sets may locate the maps easily by name. **ITEM NOS.** are added to the complete alphabetical lists, in order to uniquely identify each map as a discrete publication.

1. Guides to Quadrangles for for Topographic and Geologic Maps of the Lower Colorado River Region Produced by the U.S. Geological Survey

Since the 19th century the U.S. Geological Survey has produced topographic maps for the nation, which also are used as base maps for geological mapping. The digital resources that are available today in the ongoing "US Topo" program (<http://nationalmap.gov/ustopo/>) provide user-selected layered interactive quadrangles for numerous uses and printing. As the Survey describes:

"US Topo maps are the current generation of USGS topographic maps. The first of these maps were published in 2009. They are modeled on the legacy 7.5-minute series of the mid-20th century, but unlike traditional topographic maps they are mass produced from GIS databases, and are published as PDF documents instead of as paper maps. US Topo maps include base data from The National Map and other sources, including roads, hydrography, contours, boundaries, woodland cover, structures, geographic names, an aerial photo image, Federal land boundaries, and shaded relief." (<https://nationalmap.gov/ustopo/quickstart.pdf>)

"Created in the familiar 7.5-minute quadrangle format like the legacy paper maps, US Topo maps support frequent updating, wide and fast public distribution, and basic, on-screen geographic analysis. US Topo maps are available for free Web download from the [USGS Store](#). Each map is delivered in PDF format with geospatial extensions (GeoPDF®) and is made from key layers of geographic data—orthoimagery, transportation, geographic names, topographic contours, boundaries, hydrography, structures, and woodlands—found in [The National Map](#). *The National Map* is a nationwide repository of integrated data from local, State, Federal, and other sources. Recent US Topo maps also include the [Public Land Survey System](#) and the [United States National Grid](#)."

The state index sheets for the "legacy paper maps" have not been digitized, but they have been still available on paper through the U.S. Geological Survey.¹⁰⁵

It is noted here that the US Topo series is noticeably different in appearance due to the digitally assembled data that is presented as stackable/removable layers on these maps; and of course printed copies of any customized version may be created, while the digital framework can be used for further purposes. Many users (for a while, at least) will prefer the seemingly more precise presentation of the original paper series. In any case, the boundaries and names of the quadrangles are the same, thus any edition of the maps listed can be found without ambiguity.

¹⁰⁵ *Fide* Ken Dixon, U.S. Geological Survey, Office of Communications and Publishing, Science Information Services, Anchorage, Alaska (12 November 2013).

SECTION 4B. QUADRANGLES FOR THE LOWER COLORADO RIVER REGION

To use the Survey's online versions, go to The National Map website's interactive page, <http://viewer.nationalmap.gov/advanced-viewer/>, then zoom in to the area of interest. In the left-hand frame click on "Map Indices". *On screen, map names will not appear in quadrangles until the landscape is zoomed-in to a certain level.* However, one may not view large fields of contiguous quadrangles with names as one can with the paper index sheets.

More recently, the National Map has included a new data delivery homepage, an advanced viewer, and the facility for Lidar visualization (<https://www.usgs.gov/core-science-systems/ngp/tnm-delivery>).

The following pages include digitized reproductions of Arizona and California paper state index sheets for different scales of quadrangles that lie within the greater region of the lower Colorado River, including the Salton Sea area. Other index sheets, including Arizona, Nevada, and California are noticeably different, reproduced from a newer online viewer accessed that was accessed in 2015:

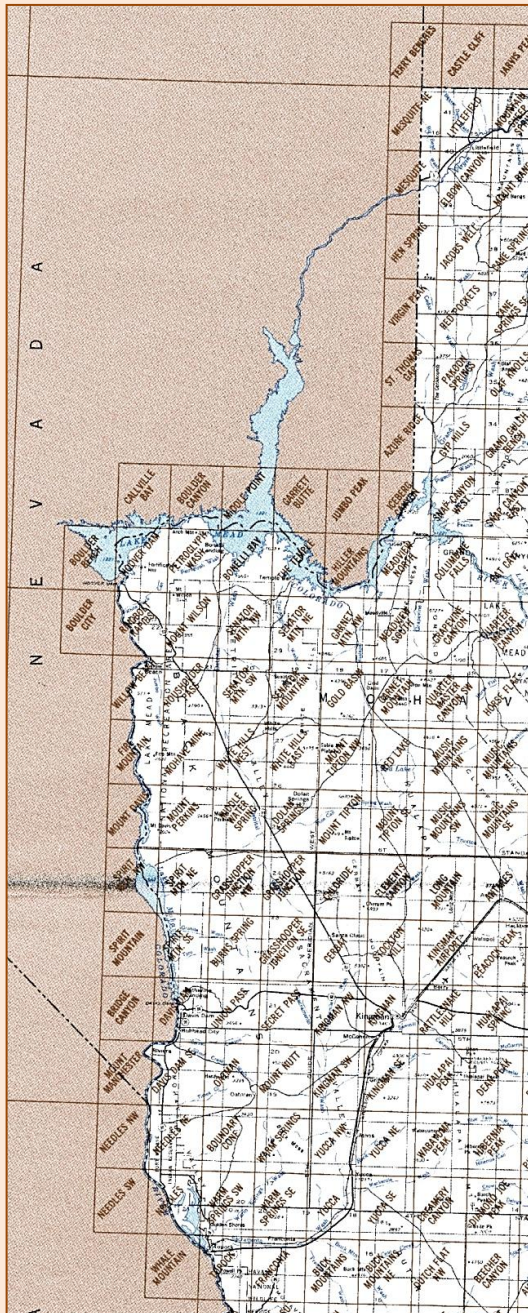

<http://ngmdb.usgs.gov/maps/topoview/viewer> (in October 2020 this link was redirected to <https://ngmdb.usgs.gov/topoview/viewer/#4/40.01/-100.02>).

The accompanying alphabetical lists of quadrangle names omit dates for these maps because this is a guide to the quadrangles only. Individual maps have varying dates of creation, and most have gone through various revisions thereafter, up to and most notably the US Topo series mentioned above.

SECTION 4B. QUADRANGLES FOR THE LOWER COLORADO RIVER REGION

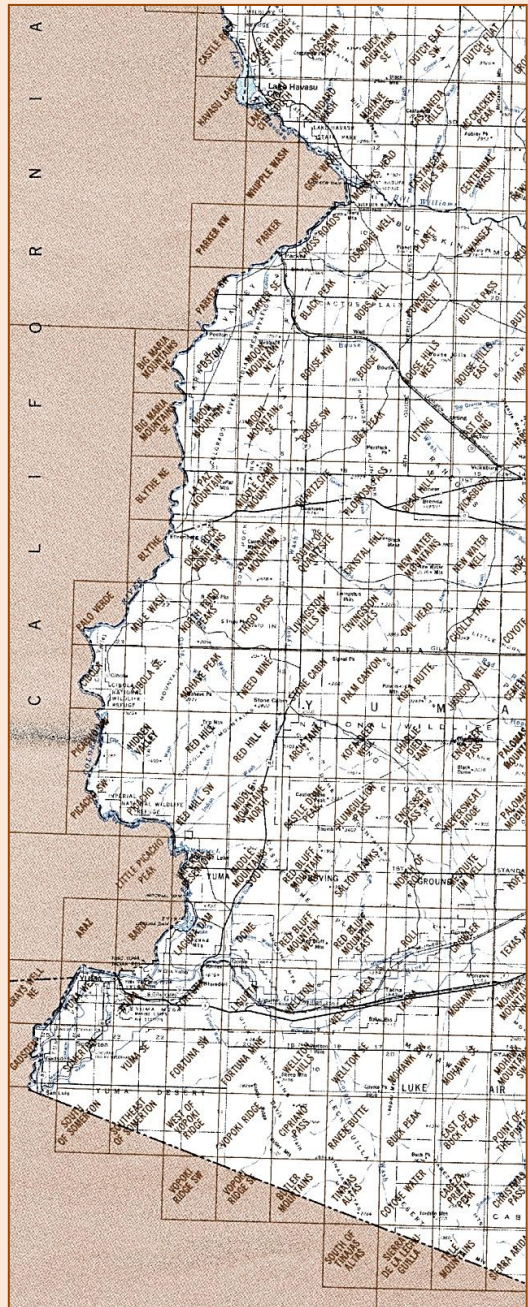

**7.5' (1:24,000-scale) topographic quadrangles in Arizona
(greater lower Colorado River region)**

Enlarge the PDF to read names clearly. Shaded area depicts quadrangles in Utah (top), Nevada and California (left), and areas in Mexico (bottom). Refer to the map in this volume's [FRONTISPIECE](#) to see the approximate area covered by THE GRAND CANON.

▼ continued at right

▼ continued from left

Digitized from paper. See note on previous page.

SECTION 4B. QUADRANGLES FOR THE LOWER COLORADO RIVER REGION

Charts on previous page: These charts were reproduced from legacy paper maps. The index screens of the U.S. Geological Survey's newer series of digitized topographic maps, accessible online (<http://ngmdb.usgs.gov/maps/topoview/viewer>), display the quadrangle names only when "zoomed in" to a certain resolution; they do not display at the regional resolution as shown above.

The charts do not identify the geographical bounds of the "Lower Colorado River region" as recorded by this Cartobibliography (see the map in this volume's [Frontispiece](#)). The charts, though, are quadrangles drawn to encompass this region. Refer to the U.S. Geological Survey's digitized topographic maps website (<http://ngmdb.usgs.gov/maps/topoview/viewer>) for additional coverage that may be required for a user's needs.

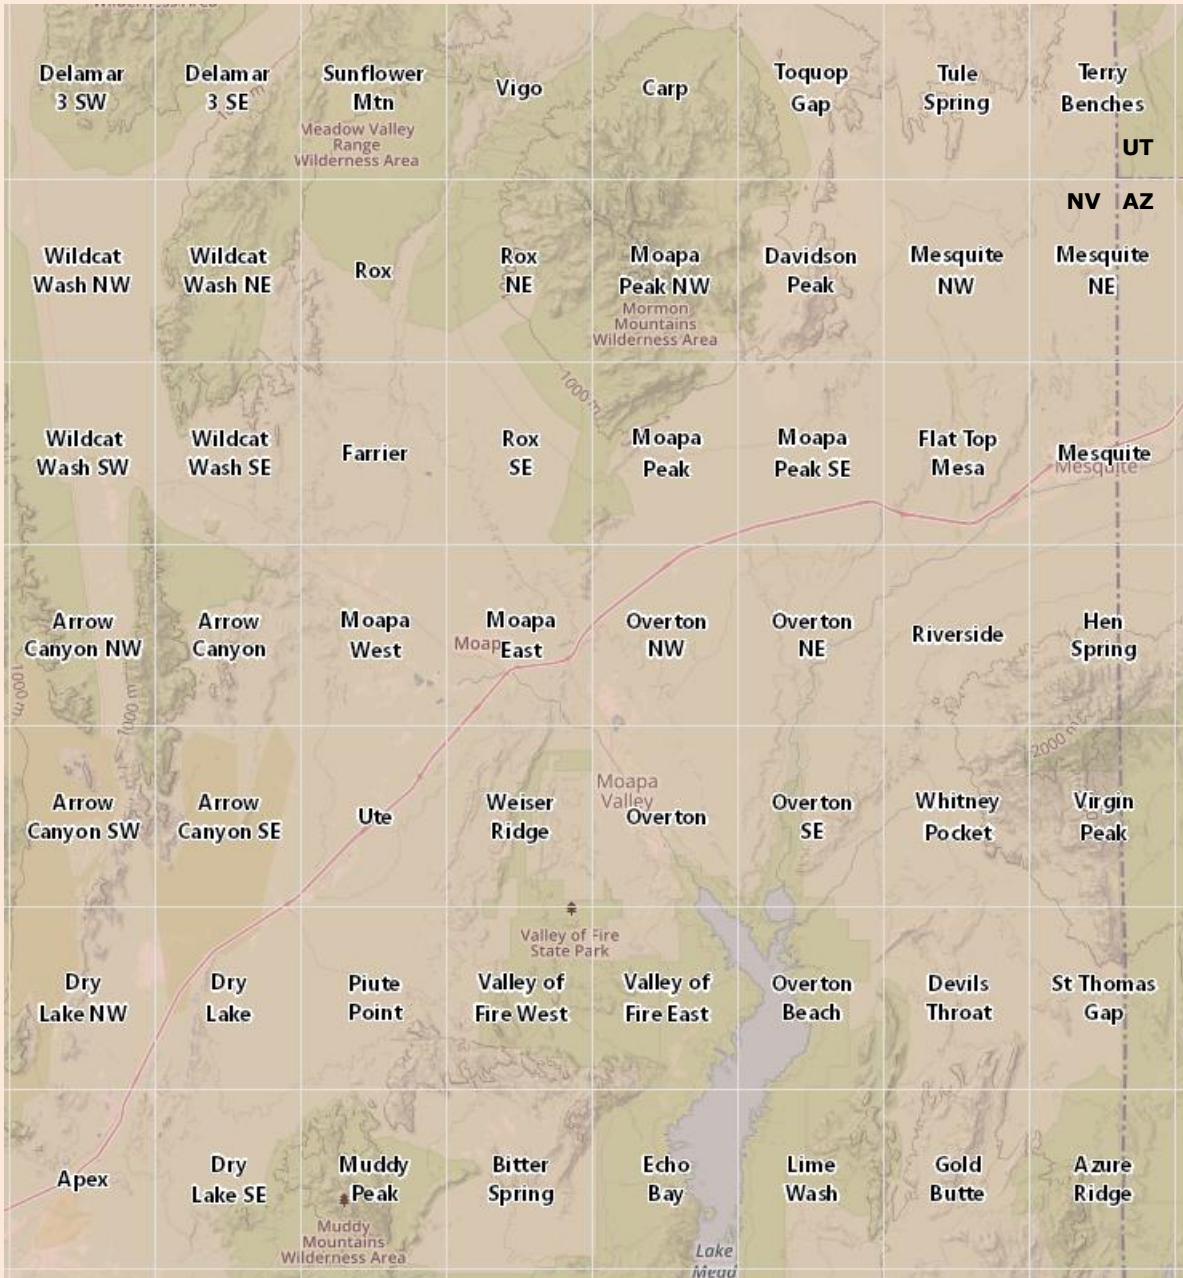

Some quadrangles that lie toward the outer areas of the geographical bounds of [THE GRAND CANON](#) (and thus this Cartobibliography) may not truly be within the intended bounds of the bibliography. Since these bounds are not defined anyway, but are somewhat conjectural, these outlier quadrangles (especially those in the far eastern and southeastern corner of the larger, overlaid quadrangle mentioned above)—even though they are selected by their occurrence within the larger quadrangle drawn around the region—may as well be within [THE GRAND CANON](#)'s area of attention. To attempt to draw an awkward boundary zig-zagging along a more definite boundary of [THE GRAND CANON](#)'s coverage would be useless and would imply a truly "definite" boundary, which is not the intention of [THE GRAND CANON](#) (see introductory comments to this volume).

See the following pages for more detailed views of quadrangles in the immediate Colorado River corridor in Nevada and California. Also see farther below in this guide for a summary of quadrangles in the Lake Mead region.

ALPHABETICAL LIST**U.S. Geological Survey 7.5' (1:24,000) quadrangles depicted on the previous charts of Arizona, Nevada, and California**

Neither the charts nor the list identify geographical bounds of the "Lower Colorado River region" as recorded by this Cartobibliography (see the map in the volume's [Frontispiece](#)). The charts, though, are quadrangles drawn to encompass this region, and thus, to preserve continuity with the charts, all names displayed on them are included in the list below. Refer to the U.S. Geological Survey's digitized topographic maps website (<http://ngmdb.usgs.gov/maps/topoview/viewer>) for additional coverage that may be required for a user's needs. For continuity with the remainder of this Cartobibliography and in order to identify unique publications, each map is assigned an **ITEM NO.** corresponding to Part 11 of [THE GRAND CANON](#). By convention these maps are usually identified by their names as listed here.

**ALPHABETICAL LISTS FOR IMPOUNDMENTS
IN THE LOWER COLORADO RIVER**

LAKE MEAD

U.S. Geological Survey 7.5' (1:24,000) quadrangles on which the impoundment behind Hoover Dam is mapped (*Separation Canyon, Grand Canyon, to Hoover Dam*)

Grand Canyon (Colorado River inundated by Lake Mead at high lake level)

Bat Cave, AZ
Columbine Falls, AZ
Devils Slide Rapids, AZ
Quartermaster Canyon, AZ
Separation Canyon, AZ
Snap Canyon West, AZ
Spencer Canyon, AZ

Lake Mead (west of Grand Canyon)

Azure Ridge, NV-AZ
Bonelli Bay, AZ
Boulder Beach, NV-AZ
Boulder Canyon, NV-AZ
Callville Bay, NV-AZ
Echo Bay, NV
Garrett Butte, NV-AZ
Government Wash, NV
Gyp Hills, AZ
Hiller Mountains, NV-AZ
Hoover Dam, NV-AZ
Iceberg Canyon, NV-AZ
Lime Wash, NV
Meadview North, AZ-NV
Middle Point, NV-AZ
Overton Beach, NV
Overton SE, NV
Overton, NV
Petroglyph Wash, AZ
The Temple, NV-AZ
Valley of Fire East, NV

LAKE MOHAVE

U.S. Geological Survey 7.5' (1:24,000) quadrangles on which the Lake Mohave impoundment behind Davis Dam is mapped

Davis Dam, AZ-NV
Fire Mountain, AZ-NV
Hoover Dam, NV-AZ
Mount Davis, NV-AZ
Ringbolt Rapids, AZ-NV
Spirit Mountain NE, AZ-NV
Spirit Mountain NW, NV-AZ
Spirit Mountain SE, AZ-NV
Willow Beach, AZ-NV

LAKE HAVASU

U.S. Geological Survey 7.5' (1:24,000) quadrangles on which the Lake Havasu impoundment behind Parker Dam is mapped

Castle Rock, CA-AZ
Gene Wash, CA-AZ
Havasu Lake, CA-AZ
Lake Havasu City South, AZ-CA
Monkeys Head, AZ
Needles, CA-AZ
Standard Wash, AZ-CA
Topock, AZ-CA
Warm Springs SW, AZ
Whale Mountain, CA-AZ

IMPERIAL RESERVOIR

**U.S. Geological Survey 7.5' (1:24,000) quadrangles on which the
impoundment behind Imperial Dam is mapped**

LOWER COLORADO RIVER–SALTON SEA–IMPERIAL VALLEY REGION

7.5' (1:24,000-scale) topographic quadrangles in southeastern California encompassing the lower Colorado River and Salton Sea regions

Enlarge the PDF to read names clearly. Shaded area depicts quadrangles in Arizona (*right*) and areas in Mexico (*bottom*). Refer to the map in this volume's [FRONTISPIECE](#) to see the approximate area covered by THE GRAND CANON.

see next page for
detail view of the
Salton Sea–
Imperial Valley
region

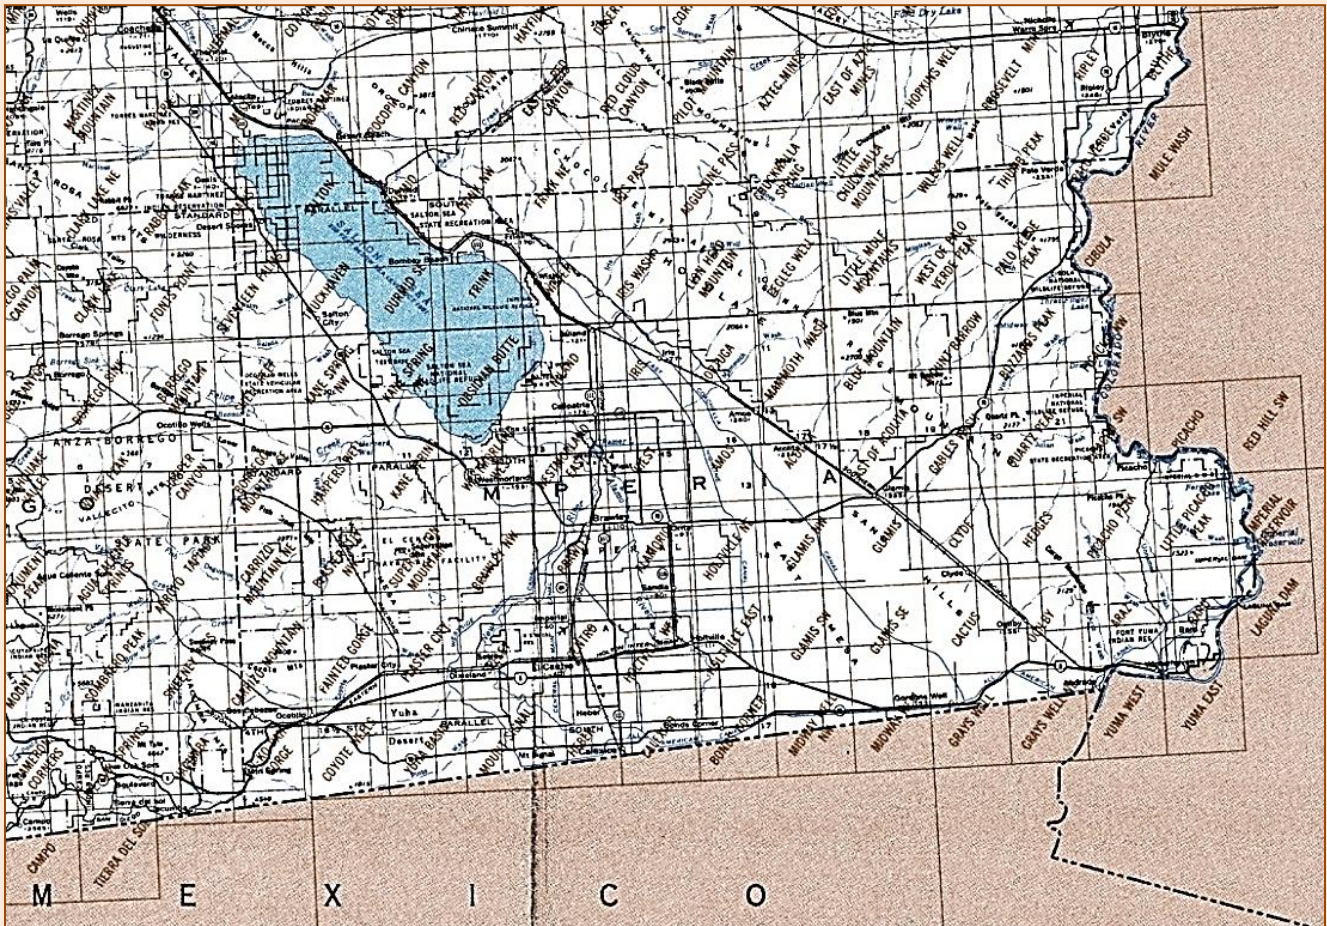

Digitized from paper¹⁰⁶

¹⁰⁶The index screens of the U.S. Geological Survey's newer series of digitized topographic maps, accessible online (<http://ngmdb.usgs.gov/maps/topoview/viewer>), display the quadrangle names only when "zoomed in" to a certain resolution; they do not display at the regional resolution as shown above.

Detail of previous chart

7.5' (1:24,000-scale) topographic quadrangles in southeastern California encompassing the Salton Sea and Imperial Valley area and east to the Colorado River

Enlarge the PDF to read names clearly. Shaded area depicts quadrangles in Arizona (right) and areas in Mexico (bottom). Refer to the map in this volume's [FRONTISPIECE](#) to see the approximate area covered by THE GRAND CANON.

Digitized from paper. See also note on previous page.

ALPHABETICAL LIST**7.5' (1:24,000) quadrangles in the Salton Sea–Imperial Valley region
and east to the Colorado River**

Quadrangles are listed for the area adjacent to the Salton Sea (including a one- or two-quadrangle buffer surrounding the lake), the Imperial Valley area, and the area eastward from the Salton Sea and Imperial Valley to Yuma and the Colorado River. (Refer to the previous chart.)

Neither the charts nor the list identify geographical bounds of the “Lower Colorado River region” as recorded by this Cartobibliography (see the map in this volume’s [Frontispiece](#)). The charts, though, are quadrangles drawn to encompass this region, and thus, to preserve continuity with the charts, all names displayed on them are included in the list below. Refer to the U.S. Geological Survey’s digitized topographic maps website (<http://ngmdb.usgs.gov/maps/topoview/viewer>) for additional coverage that may be required for a user’s needs.

For continuity with the remainder of this Cartobibliography and in order to identify unique publications, each map is assigned an **ITEM NO.** corresponding to its original placement in an appendix to Part 11 of [THE GRAND CANON](#). By convention these maps are usually identified by their names as listed here.

All quadrangles are exclusively in California except where otherwise noted; the bi-state quadrangles are along the Colorado River. Names in *italics* indicate quadrangles immediately adjacent to the Salton Sea. Names in **SMALL CAPITALS** are on the U.S.–Mexico boundary.

(continued)

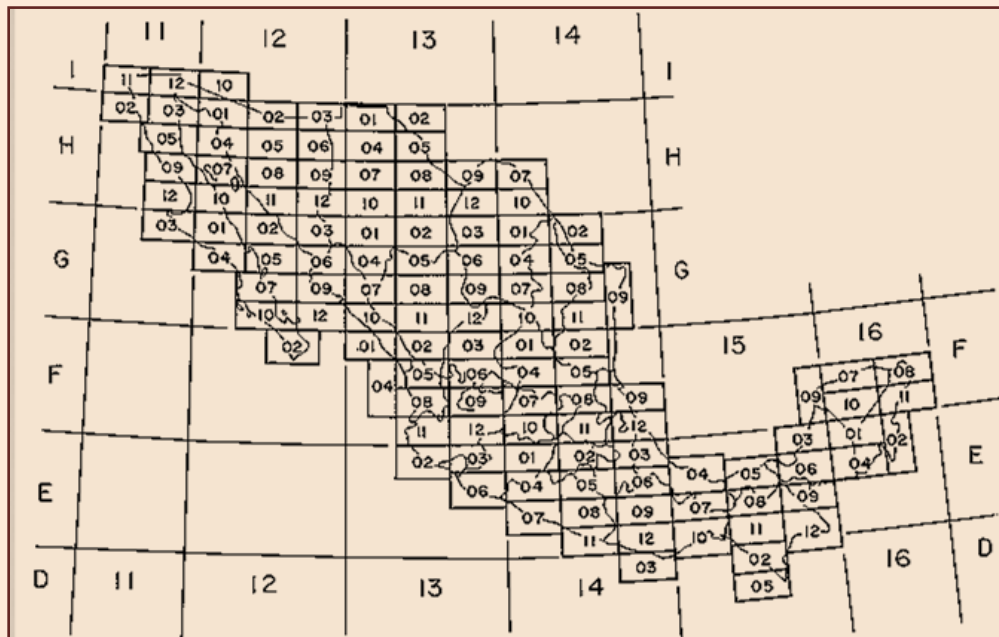

2. Guides to Quadrangles Used for Topographic Maps of the Lower Colorado River Region in Mexico Produced by the Instituto Nacional de Estadística y Geografía

The quadrangle grid system for Mexico is described differently than that of the United States. While quadrangle maps are named, all are located according to a hierarchical, alphanumeric grid system. **[Maps are in Spanish]**

Topographic and geological maps may be obtained commercially in the U.S. through Omnimap; for details see

<http://www.omnimap.com/catalog/int/mexico/mex-topo.htm> (current as of 2018).

1:250,000-scale topographic quadrangles in Mexico

For the area covered by [THE GRAND CANON](#) (and thus this Cartobibliography) in Baja California and Sonora, the large-scale grid coordinates **I11**, **I12** and **H11**, **H12** relate. Within these large-scale coordinate quadrangles, map areas are demarcated by enumeration, usually 1–12, beginning at the northwest corner of the larger quadrangle (*as shown here*). In turn, next-smaller map areas within the 1–12 quadrangles have alphanumeric designations (*see example on the next page*).

1:50,000-scale topographic quadrangles in Mexico in the region of the Río Colorado and Alto Golfo de California

For the region included in this Cartobibliography, individual 1:50,000-scale quadrangles are designated alphanumerically (e.g., D-76) within the larger-scale (1:250,000) grid system with coordinates H, I and 11, 12 (refer to previous page).

On the maps themselves, identifiers are printed in this format (for example): I11-D65. Each has a geographical name as well, although these names are not included in the graphical indices.

ALPHABETICAL LIST**Instituto Nacional de Estadística, Geografía e Informática 1:50,000 quadrangles
in the Valle de Mexicali and Río Colorado areas of Baja California and Sonora**

Quadrangles that lie wholly or partly within the area covered by this Cartobibliography are listed. Names in *italics* indicate quadrangles through which flows the Río Colorado [see also Stream-Order List below]. For continuity with the remainder of this Cartobibliography and in order to identify unique publications, each map was assigned an **ITEM NO.** within the appendix to Part 11 of **THE GRAND CANON**. By convention these maps are usually identified by their names and grid coordinates as listed here. Alternate names are also given, as noted from the grids shown farther below.

(continued)

**1:1,000,000-scale topographic quadrangles in Mexico in the region of the
Río Colorado and Alto Golfo de California**

- 11.14582 Hermosillo
11.14583 Mexicali

For continuity with the remainder of this bibliography and in order to identify unique publications, each map is assigned an **ITEM NO.** corresponding to Part 11 of **THE GRAND CANON**. By convention these maps are usually identified by their names as listed here.

More map information pertaining to Mexico is available through the Instituto Nacional de Estadística y Geografía (www.inegi.org.mx; and topographic map information at <http://www.inegi.org.mx/geo/contenidos/topografia/default.aspx>).

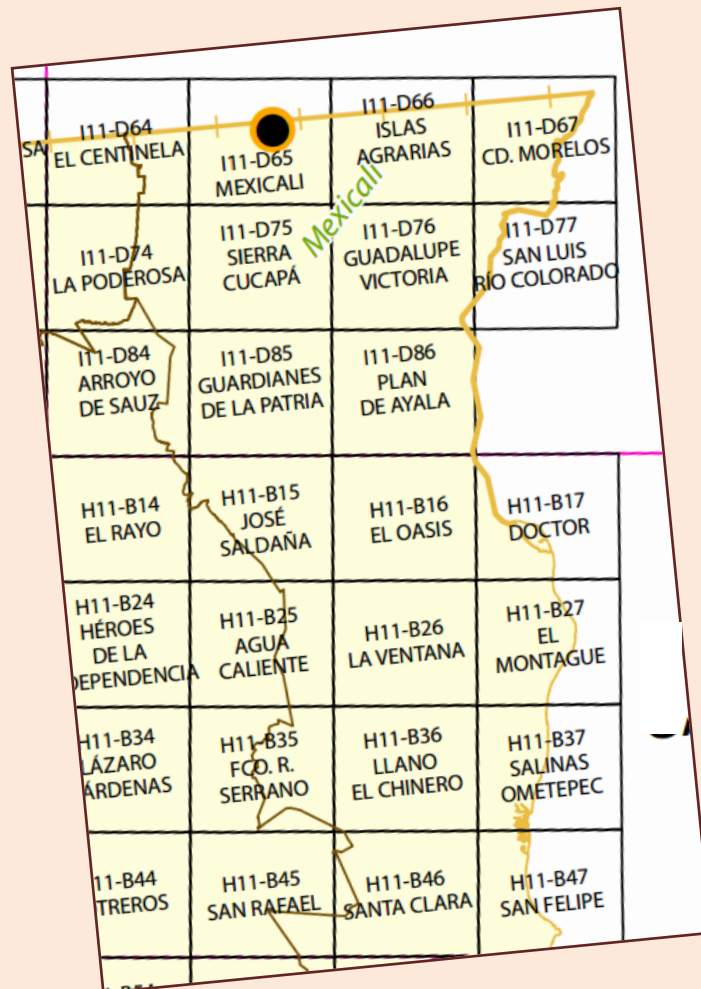

(See next two pages for information on Mexican geological maps and examples that show quadrangle names on the graphical index sheet.)

SECTION 4B. QUADRANGLES FOR THE LOWER COLORADO RIVER REGION

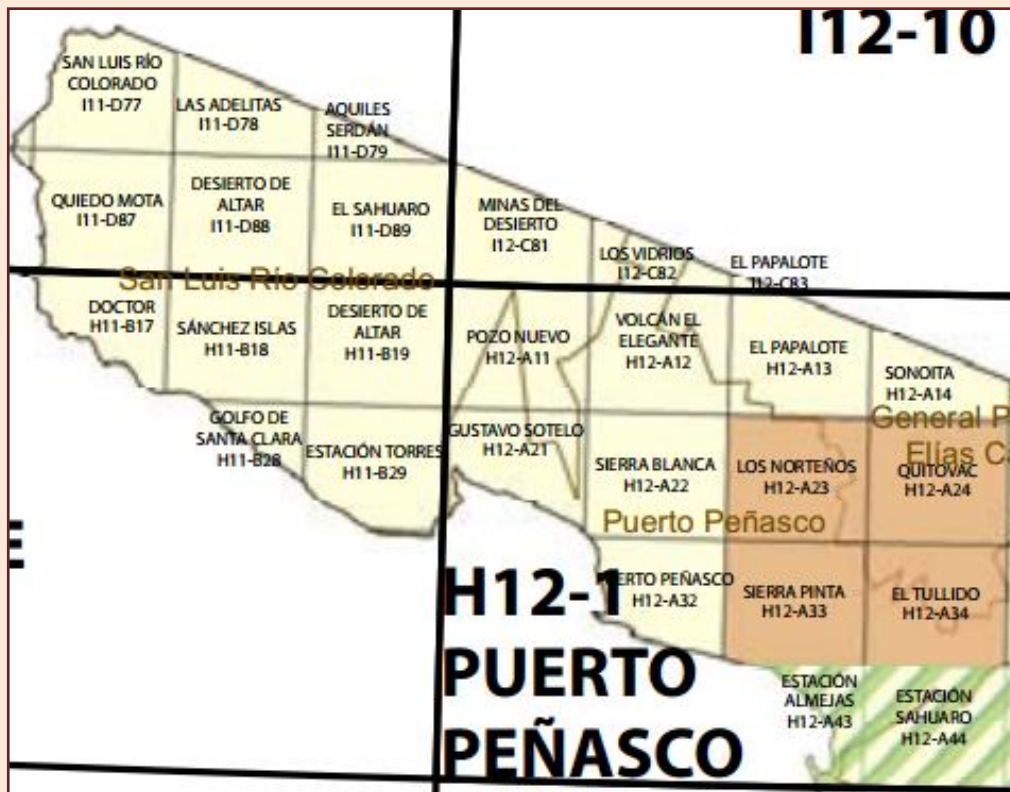

The geological maps produced by Servicio Geológico Mexicano (www.sgm.gob.mx) follow the same ordinal system described above.

The quadrangles shown *below* and on the *following page* indicate both the alphanumerical grid coordinates as well as names for the quadrangles that lie within the area covered by THE GRAND CANON in Baja California and Sonora. The example index shown here is from the Servicio Geológico Mexicano. (The large spot in the map below denotes Mexicali as the capital of Baja California.)

Baja California

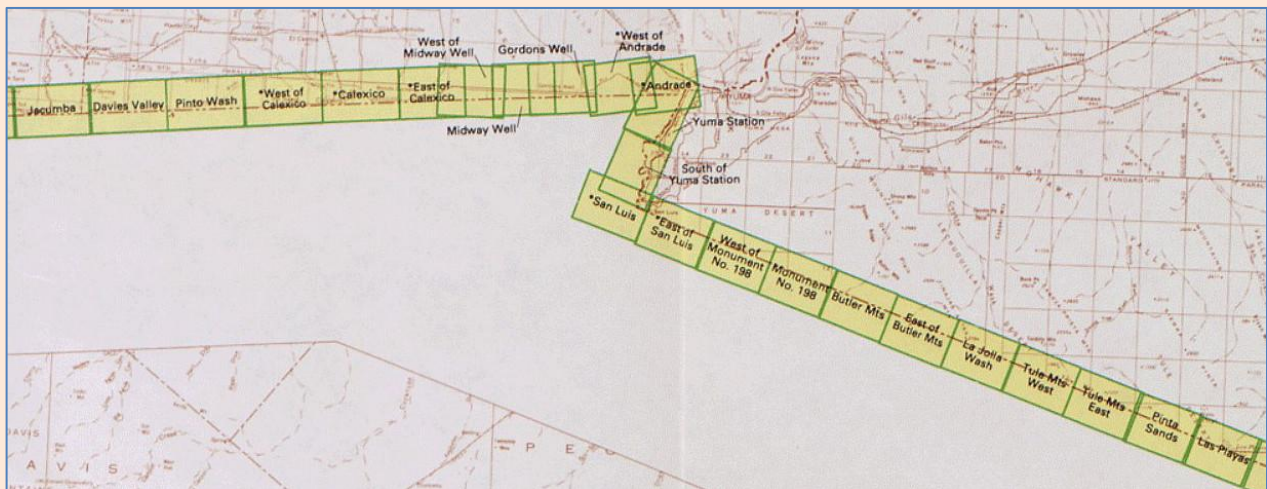

Sonora

3. Guide to U.S.–Mexico Boundary Color Image Maps Produced by the U.S. Geological Survey and U.S. Customs Service

In 1979, 1982, and 1983 the U.S. Geological Survey (Department of the Interior), in cooperation with the U.S. Customs Service (Department of the Treasury), produced a series of 203 1:25,000-scale simulated natural color aerial photographic maps of the entire U.S.–Mexico boundary, from the Pacific Ocean to the Gulf of Mexico. “These image maps were produced from 1:80,000-scale color infrared photography The high altitude photography was flown by the Dirección General de Geografía of Mexico. In addition to the imagery, major cultural and physical features are named. The International Boundary and the U.S. State and County boundaries are depicted and named.” The “photoimagery was rectified by optical scanning from color infrared aerial photograph[s] . . . by the Dirección General de Geografía del Territorio Nacional (DGGTN), México D. F., México”.

Sheets 7–30 of this Color Image Map series (see map below), photographed in 1979, comprise that part of the international boundary that passes through the region covered in this Cartobibliography. These quadrangles are itemized on the following page. For continuity with the remainder of this Cartobibliography and in order to identify unique publications, each map was originally assigned an ITEM NO. within Part 11 of THE GRAND CANON.

Quadrangles are aligned parallel to the international boundary; north direction on sheets will vary. Elevations are in meters. Relief is shown by spot heights.

The maps were available in both the U.S. and Mexico. Each map includes the note, “For sale by U. S. Geological Survey, Denver, Colorado 80225 or Reston, Virginia 22092 and by Centro de Asesoría y Venta de Información Estadística y Cartográfica[,] Balderas #71, Mezzanine, Mexico 1, D. F.”

SECTION 4B. QUADRANGLES FOR THE LOWER COLORADO RIVER REGION

Digital images of these maps can be accessed at the Library of Congress:

<https://www.loc.gov/item/87691867/> (accessed 11 March 2020). The Library of Congress catalogs these maps as (including square brackets) "Color image map : [ports of entry, United States-Mexican border]".

Sheets 7–12 (sheet numbers are in **bold** below) were produced from aerial photographs taken December 12, 1979; Sheets 13–30 on December 14, 1979. Each sheet displays the date 1979, although individual sheets were produced in 1982 and 1983, as noted by the USGS printer's imprints. They are listed here in sheet-number order, from West to East (compare to map on previous page). An asterisk (*), as shown with map titles on the index sheet, indicates a port of entry.

**4. Guide to U.S.–Mexico Boundary
Color Image Maps Produced by the
International Boundary and Water Commission
United States and Mexico /
Comisión Internacional de Límites y Aguas entre México y
los Estados Unidos**

In 2012, the IBWC/CILA produced a series of **1:25,000-scale** color image photomaps of the U.S.–Mexico International Land Boundary (Línea Divisoria Internacional Terrestre). They were prepared from aerial photographs taken in 2008-2009 by NGA; binational toponymic base by USGS-INEGI, cartographic editing by INEGI. The quadrangles are the same as those given in Section 3 (*above*), with identical numeration, though here with binational names.

Sheets 11-30 are itemized below, with names as given on the maps.

- | | | |
|----------|-----------|---|
| 11.19315 | 7 | Jacumba / Ejido Jacum |
| 11.19316 | 8 | Davies Valley / La Rumorosa |
| 11.19317 | 9 | Pinto Wash / Cerro El Centinela |
| 11.19318 | 10 | West of Calexico Port of Entry / Santa Isabel |
| 11.19319 | 11 | Calexico Port of Entry / Mexicali |
| 11.19320 | 12 | East of Calexico Port of Entry / La Herradura |
| 11.19321 | 13 | West of Midway Well / Mesa Andrade |
| 11.19322 | 14 | Midway Well / Mesa Andrade Este |
| 11.19323 | 15 | Gordons Well / Merida |
| 11.19324 | 16 | West of Andrade Port of Entry / Rancho Grande |
| 11.19325 | 17 | Andrade Port of Entry / Algodones |
| 11.19326 | 18 | Yuma Station / Presa de Derevación Morales |

| 11.19328 | 20 | San Luis Port of Entry / San Luis Río Colorado |
| 11.19329 | 21 | East of San Luis Port of Entry / Ejido Las Adelitas |
| 11.19330 | 22 | West of Monument No. 198 / Ejido Cucurpe |
| 11.19331 | 23 | Monument No. 198 / Ejido La Reforma |
| 11.19332 | 24 | Butler Mts. / Ejido Aquiles Serdan |
| 11.19333 | 25 | East of Butler Mts. / Ignacio Zaragoza |
| 11.19334 | 26 | La Jolla Wash / El Sahuaro |
| 11.19335 | 27 | Tule Mts. West / Arroyo Puente Cuates |
| 11.19336 | 28 | Tule Mts. East / Mina del Desierto |
| 11.19337 | 29 | Pinta Sands / Volcan La Silla |
| 11.19338 | 30 | Las Playas / Los Vidrios |

ADDENDUM TO SECTION 4B**Landsat Information**

Landsat, the multi-generation series of earth-observing satellites placed in orbit by the United States, have since 1972 provided a wealth of imagery, in visible and multispectral wavelengths, for most of the world. The Landsat collections have been made available through the U.S. Geological Survey in a robust variety of data. Basic information is available in U.S. Geological Survey Fact Sheet 2018-3049, "Landsat Collections", <https://pubs.er.usgs.gov/publication/fs20183049>. A grid system for the United States has been established, an overview of which is described in Fact Sheet 2018-3053, <https://pubs.er.usgs.gov/publication/fs20183053>. More information on the Analysis Ready Data (ARD) is accessible at <https://landsat.usgs.gov/ard#Tile%20Grid>. The essential part of the grid for the western U.S. (in which is the area embraced by this Cartobibliography) is shown on the *next page*. Data for individual quadrangles of this grid may be retrieved online by entering the Landsat main page, <https://landsat.usgs.gov/> or from the EarthExplorer main page, <https://earthexplorer.usgs.gov/>.

SECTION 4B. QUADRANGLES FOR THE LOWER COLORADO RIVER REGION

Approximate area that pertains to the region covered by Section 4B of this Cartobibliography.

END OF SECTION 4B

SECTION 4C

Indexes to Quadrangles Used for U.S. Census Bureau Governmental Unit Reference Maps

SECTION 4C displays **index maps** to the detailed Governmental Unit Reference Maps produced by the U.S. Census Bureau. The index sheets here are for the 2015 series (accessed October 2021). Quadrangles are not counted for the statistical table that appears in this *Cartobibliography* because the quadrangles, while they approximate the geographical boundaries of some U.S. Geological Survey topographical maps, the selection or omission of census quadrangles near the indefinite external boundaries of the area covered by [THE GRAND CANON](#) would be too arbitrary.

State listings may be acquired through

<https://www2.census.gov/geo/pvs/bas/bas16maps/> (with subfolders that list maps by county [cou/] or by incorporated place [incplace/]).

Separate listings for Native American tribes may be acquired through

<https://www2.census.gov/geo/pvs/bas/bas16maps/aia/>

(These URLs were no longer valid in December 2024. Instead refer to the research portal at <https://www.census.gov/data.html>.)

Each index sheet displays ENUMERATED QUADRANGLES. To retrieve individual maps, go to the pertinent state/county or AIA listing and look for the appropriately enumerated map. Maps with the enumeration “_000” are the index maps. (NOTE: On the web pages cited above, and on the index maps reproduced here, the grids and numbers may appear to be in conventional “[hyperlink blue](#)”; however, they are *not* embedded URL hyperlinks that might redirect to each pertinent map. Users must access the individual state, county, or American Indian listings—above—in order to locate and open the desired maps.)

Only those regions or entities that fall within the region covered by [THE GRAND CANON](#) are listed. Images are cropped to show only the maps; refer to the original images for legends and other data. Original map scales vary. If necessary, enlarge the PDFs to read numbers more clearly.

The following notice appears on maps: “All legal boundaries and names are as reported through the 2015 Boundary and Annexation Survey (BAS). The boundaries shown on this map are for Census Bureau statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights of ownership or entitlement.”

TABLE OF CONTENTS FOR SECTION 4C

IN THE PDF DOCUMENT THE LINES BELOW ARE HYPERLINKS

Counties

Arizona

Coconino County
La Paz County
Mohave County
Yuma County

California

Imperial County
Riverside County
San Bernardino County

Nevada

Clark County

American Indian Tribal Lands

(listed in the predominantly occupied state if the reservation lands span more than one state)

Arizona

Colorado River Indian Reservation [*Chemehuevi, Hopi, Mohave, and Navajo*]
Fort Mojave Reservation and Off-Reservation Trust Land
Havasupai Reservation
Hualapai Reservation
Kaibab Indian Reservation [*Kaibab Band of Paiute Indians*]
Navajo Nation

California

Cabazon Reservation [*Cabazon Band of Mission Indians*]
Chemehuevi Reservation
Cocopah Reservation
Fort Yuma Indian Reservation [*Quechan Indian Tribe*]
Torres Martinez Indian Reservation [*Torres Martinez Desert Cahuilla Indians*]

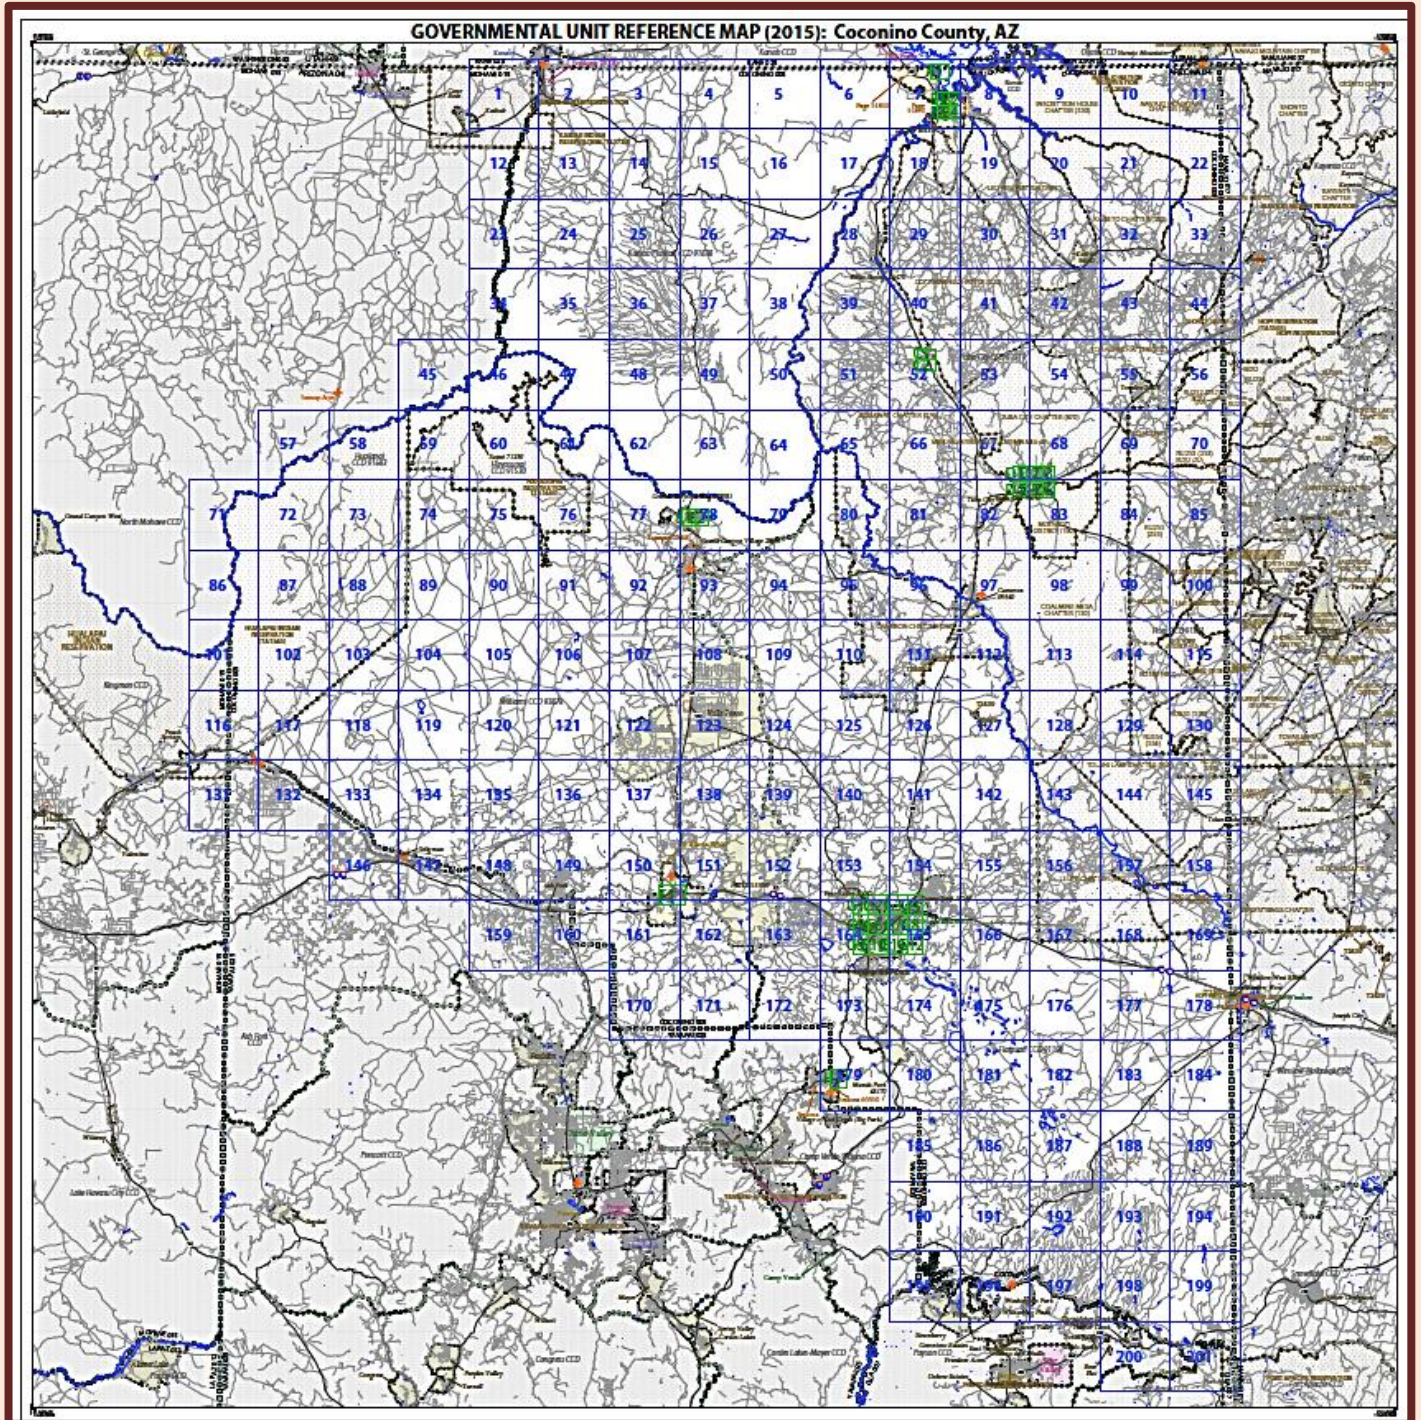

Nevada

Moapa River Indian Reservation [*Moapa Band of Paiute Indians*]

SECTION 4C. INDEXES TO QUADRANGLES USED FOR U.S. CENSUS BUREAU GOVERNMENTAL UNIT REFERENCE MAPS

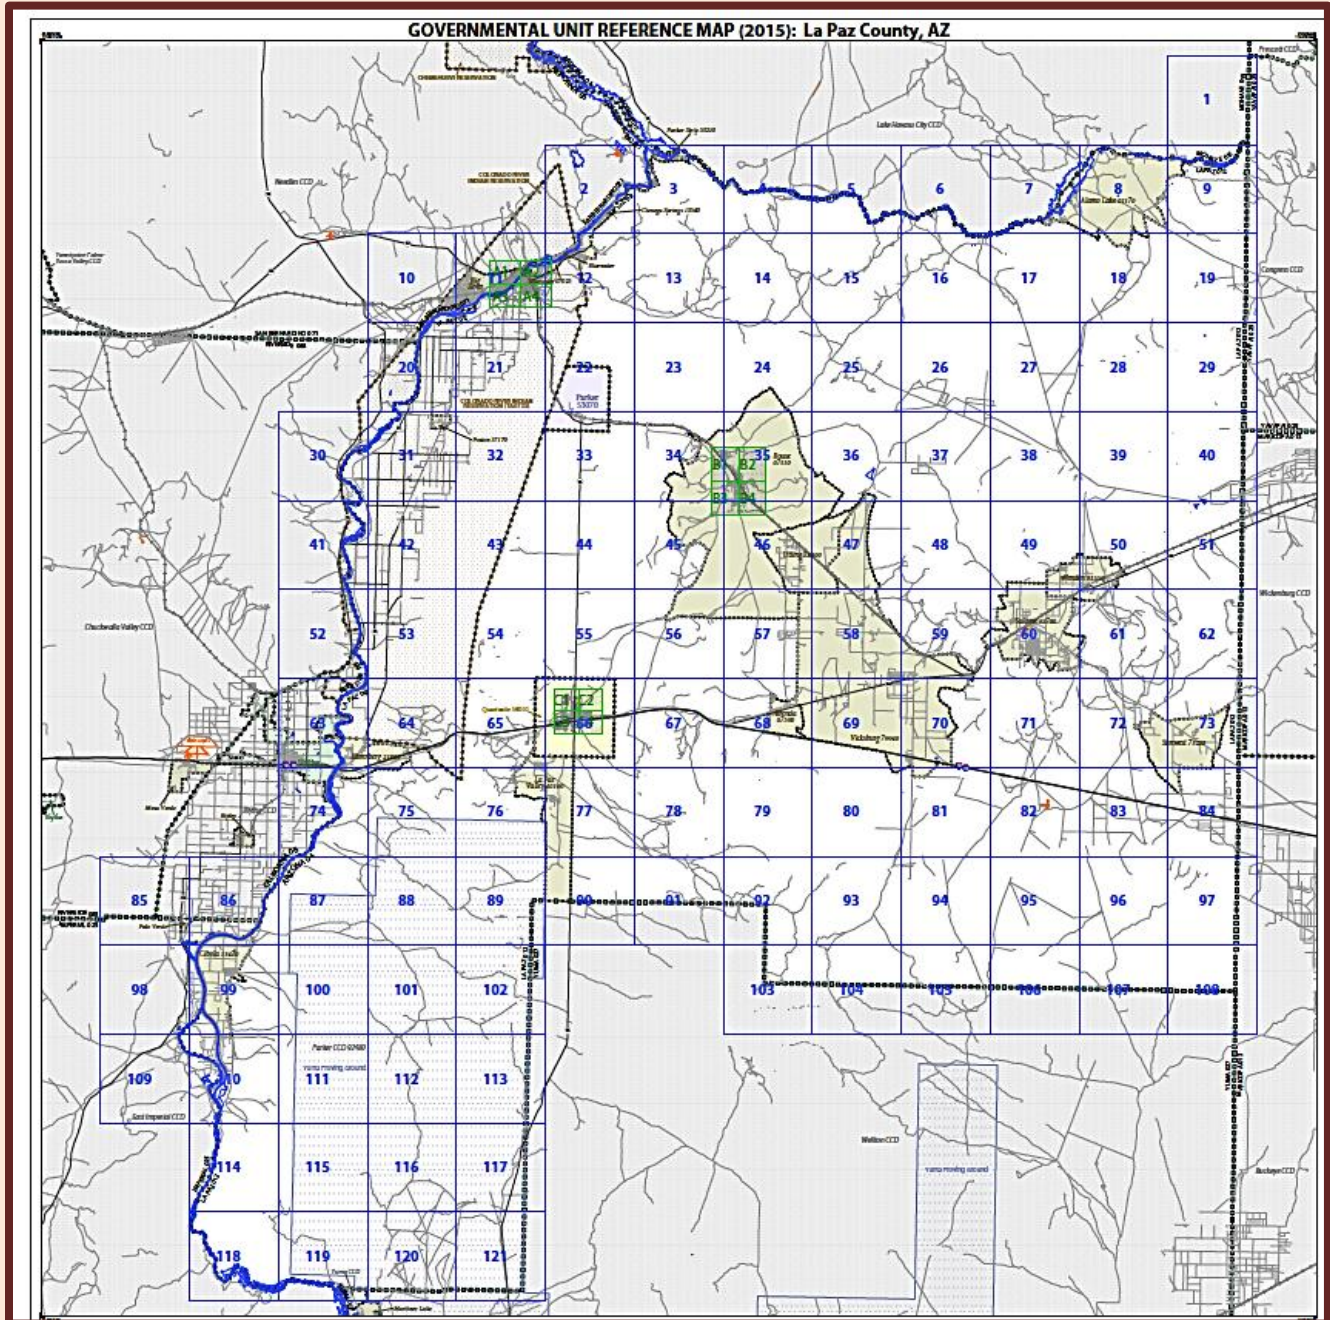

ARIZONA

Coconino County

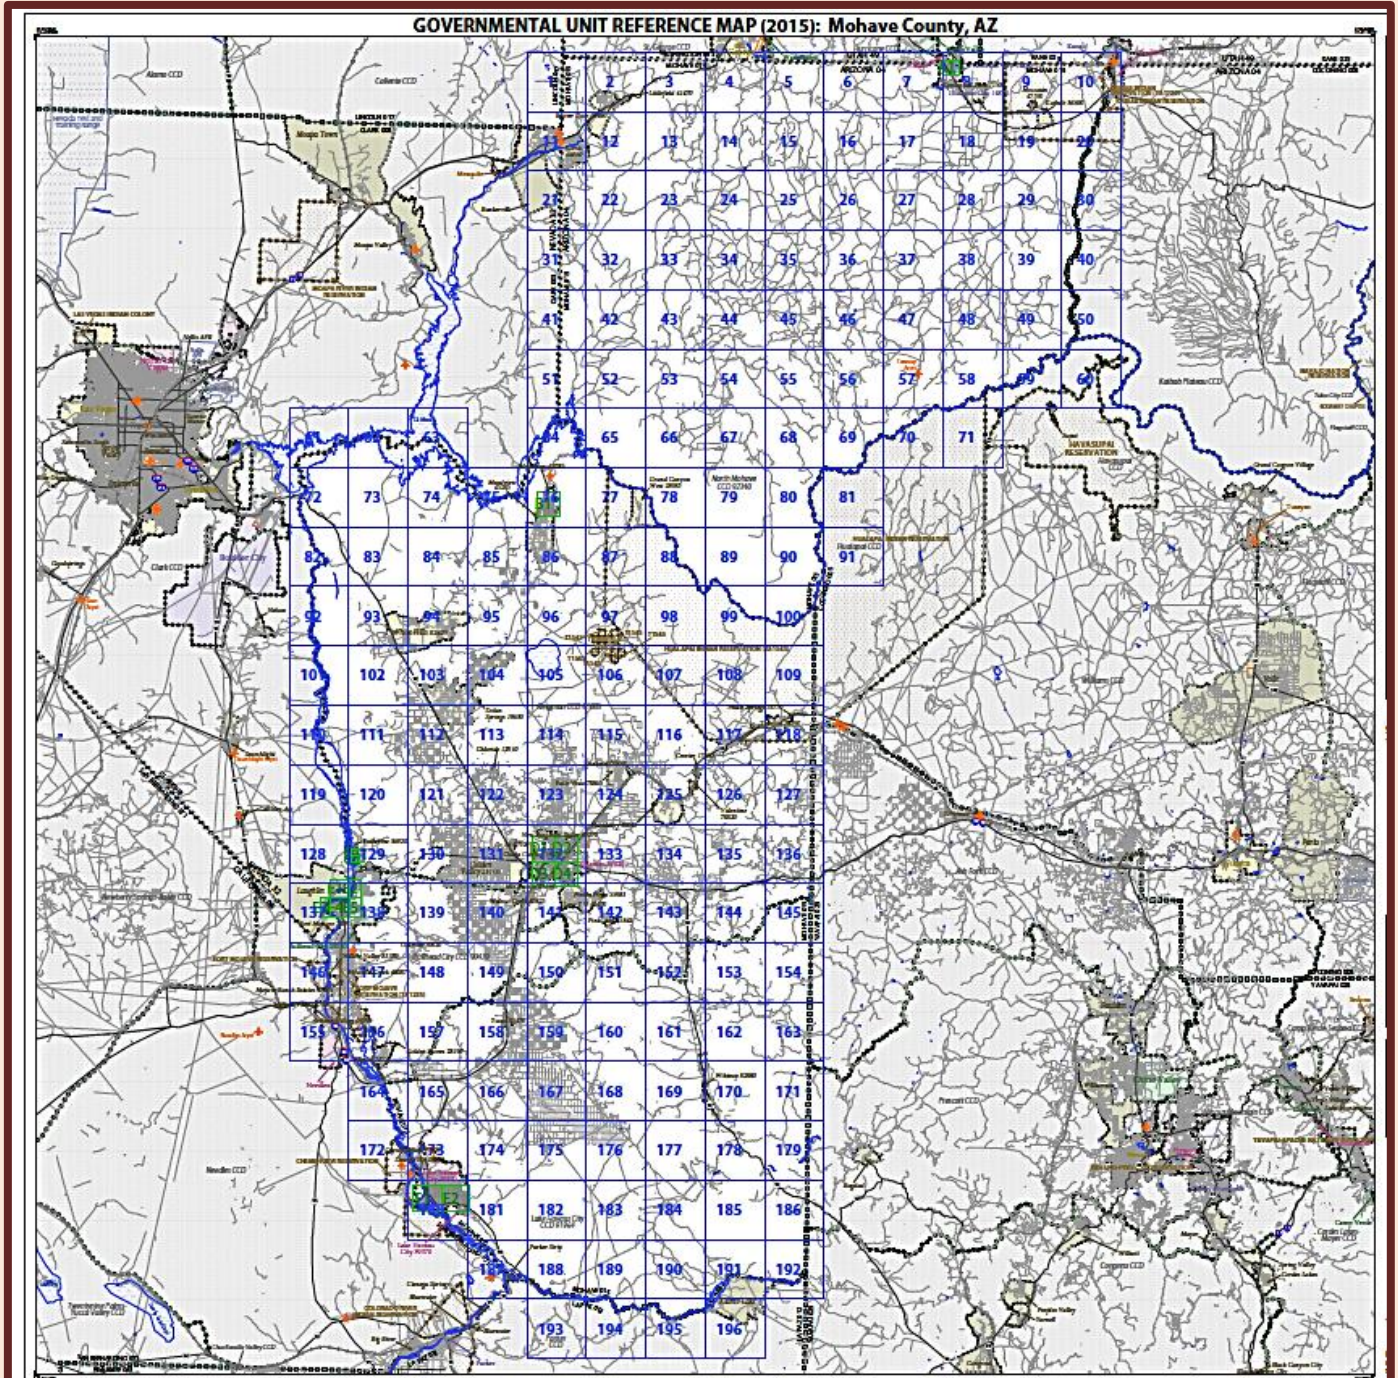

SECTION 4C. INDEXES TO QUADRANGLES USED FOR U.S. CENSUS BUREAU GOVERNMENTAL UNIT REFERENCE MAPS

La Paz County

SECTION 4C. INDEXES TO QUADRANGLES USED FOR U.S. CENSUS BUREAU GOVERNMENTAL UNIT REFERENCE MAPS

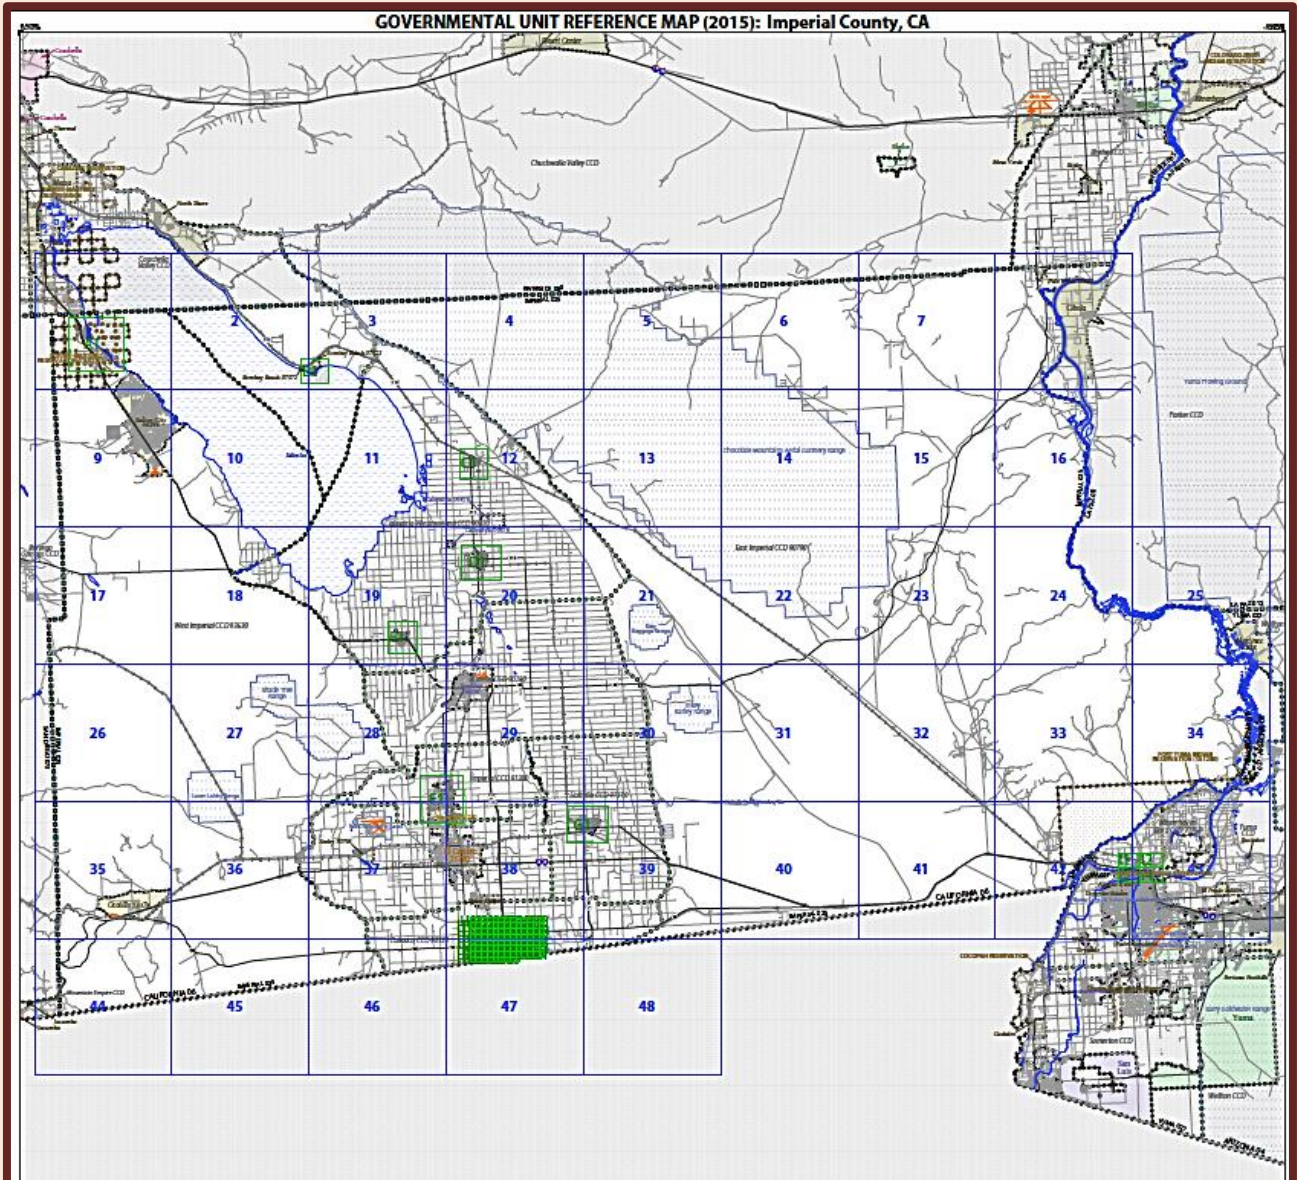

Mohave County

SECTION 4C. INDEXES TO QUADRANGLES USED FOR U.S. CENSUS BUREAU GOVERNMENTAL UNIT REFERENCE MAPS

CALIFORNIA

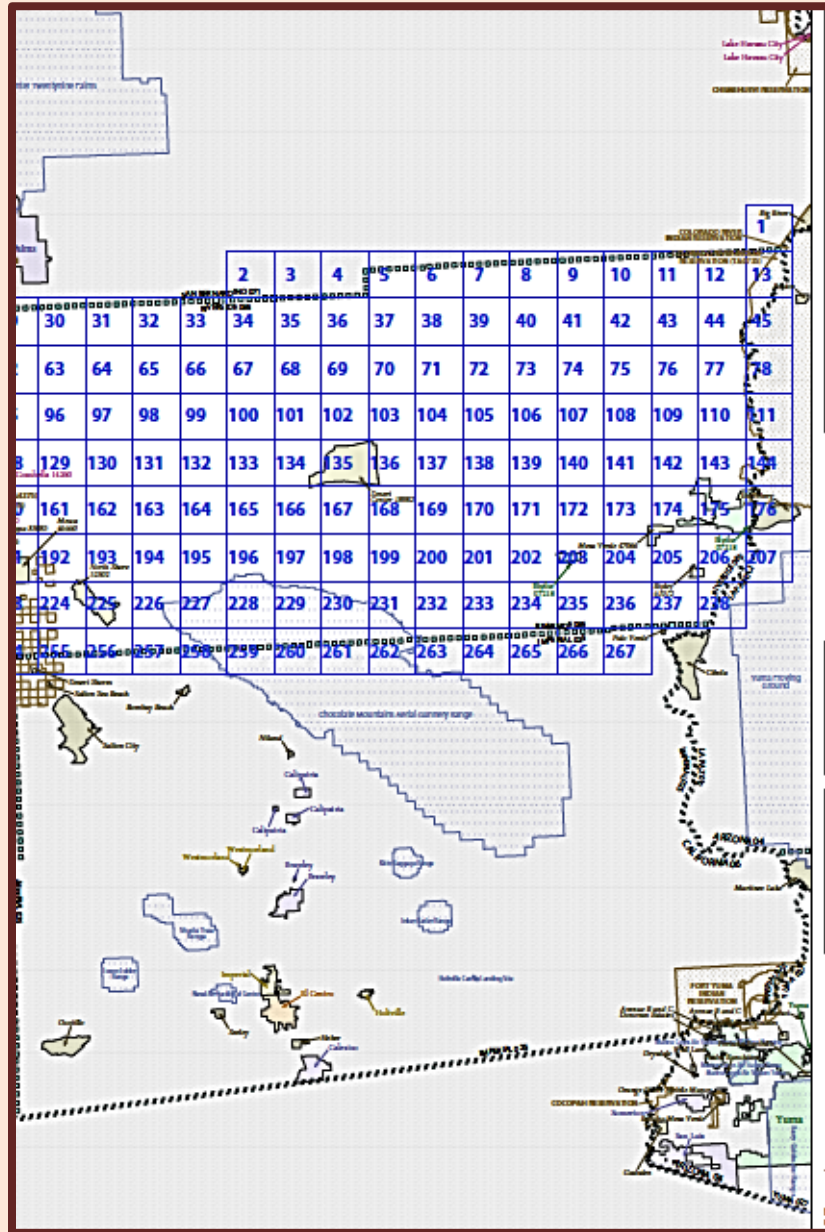

Imperial County

SECTION 4C. INDEXES TO QUADRANGLES USED FOR U.S. CENSUS BUREAU GOVERNMENTAL UNIT REFERENCE MAPS

Riverside County

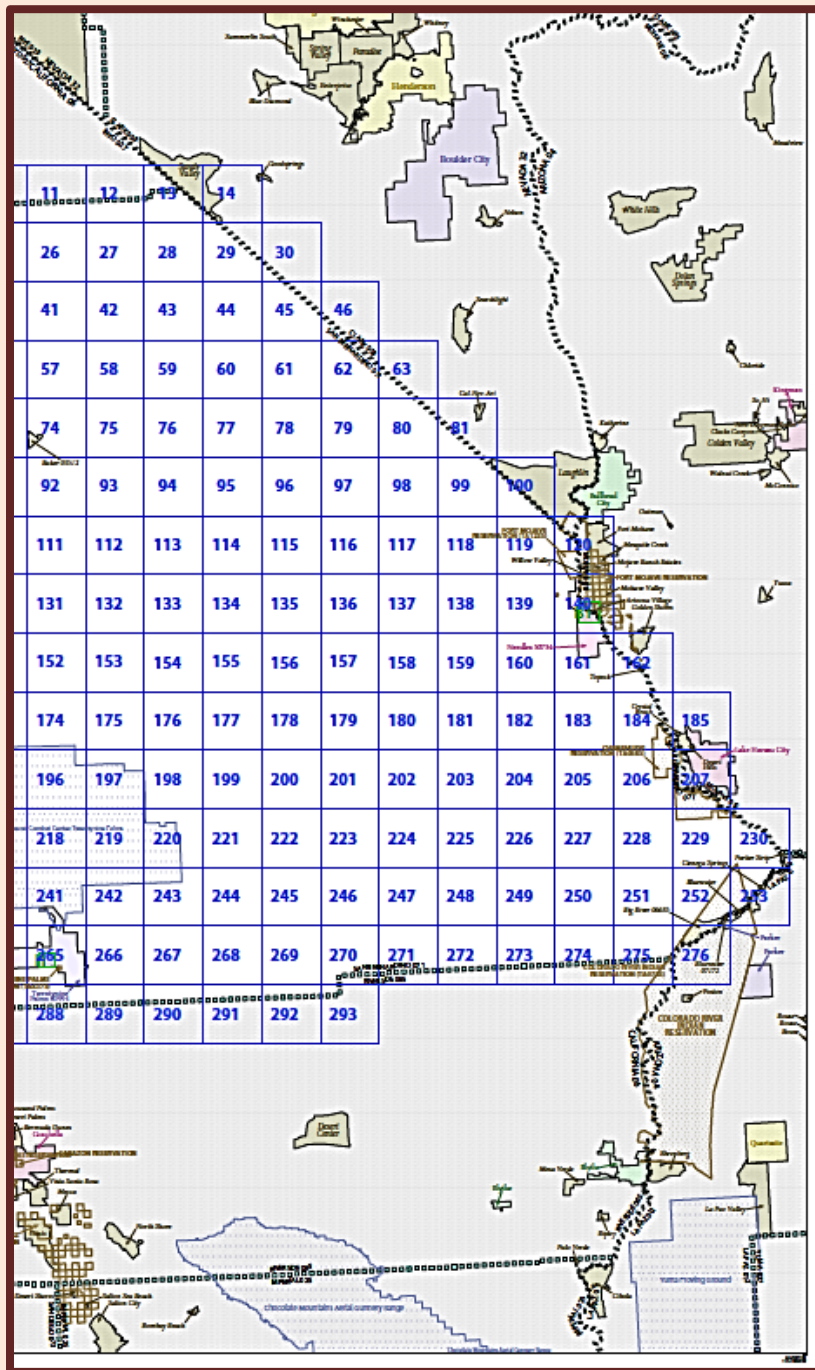

Riverside County spans the state; only the easternmost portion is displayed here

SECTION 4C. INDEXES TO QUADRANGLES USED FOR U.S. CENSUS BUREAU GOVERNMENTAL UNIT REFERENCE MAPS

San Bernardino County

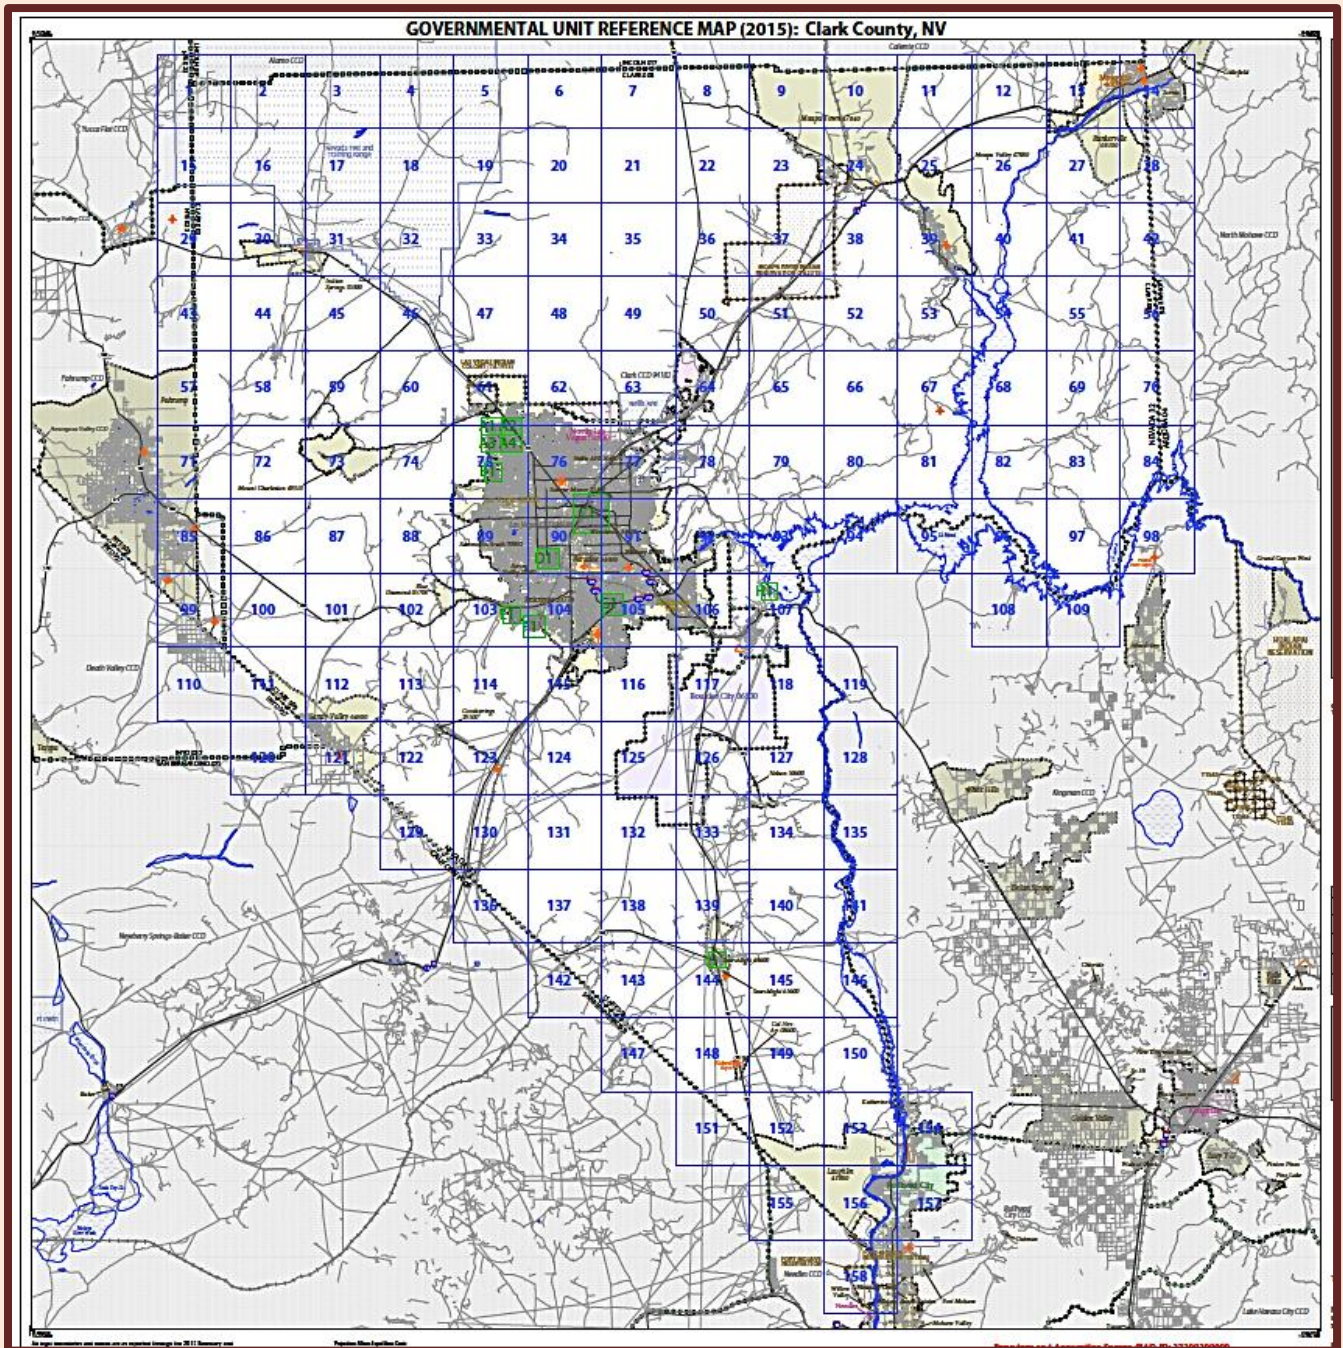

Only the easternmost section of San Bernardino County is pertinent to the area of interest here, and the map is cropped accordingly

SECTION 4C. INDEXES TO QUADRANGLES USED FOR U.S. CENSUS BUREAU GOVERNMENTAL UNIT REFERENCE MAPS

NEVADA

Clark County

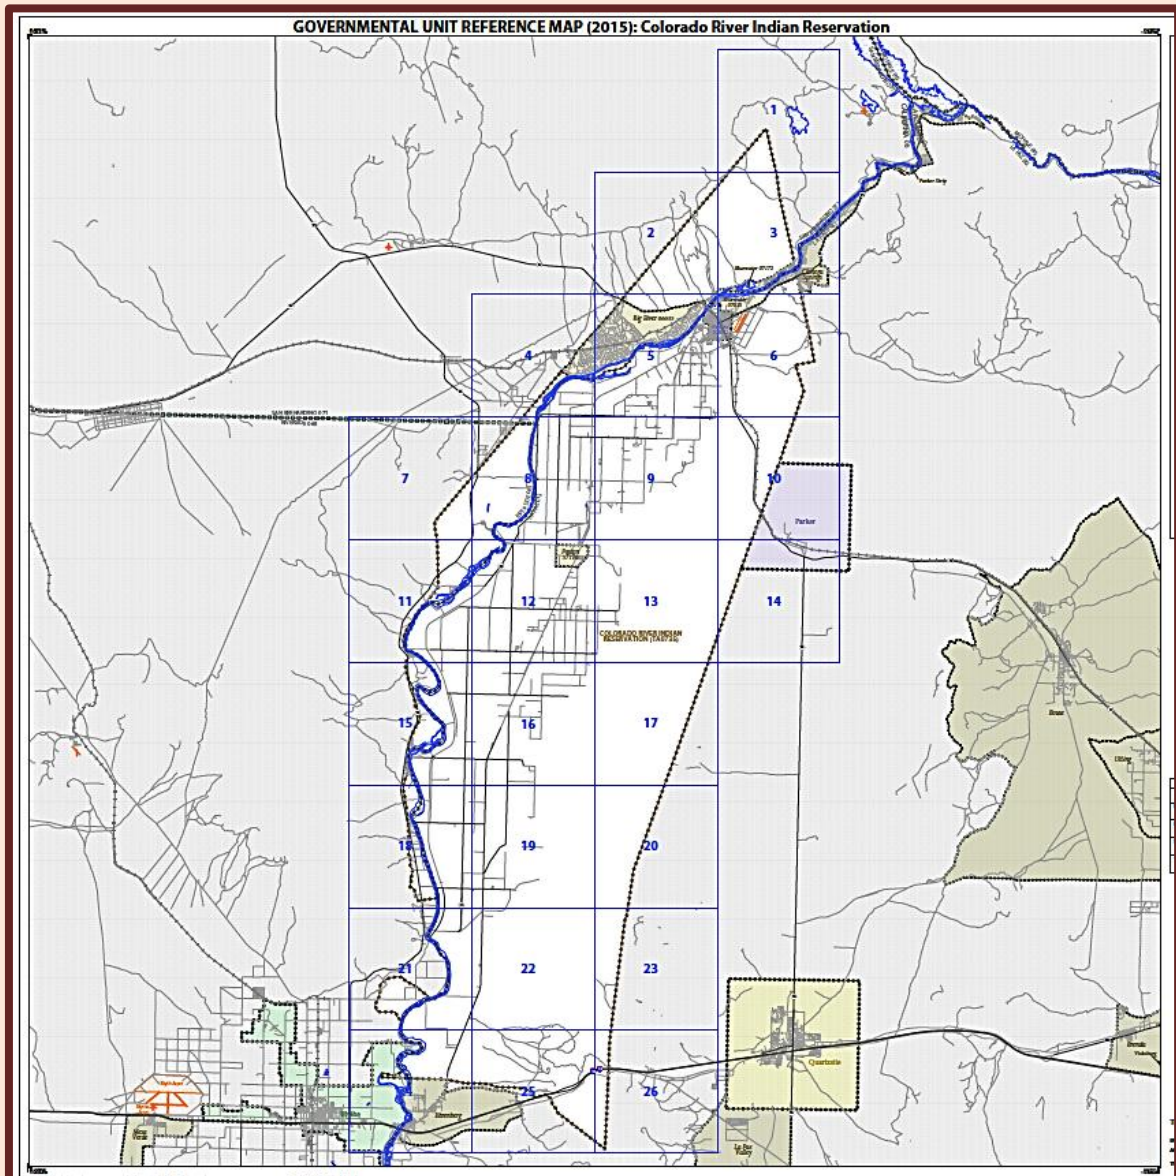

AMERICAN INDIAN TRIBAL LANDS

(listed in the predominantly occupied state if the reservation lands span more than one state)

ARIZONA

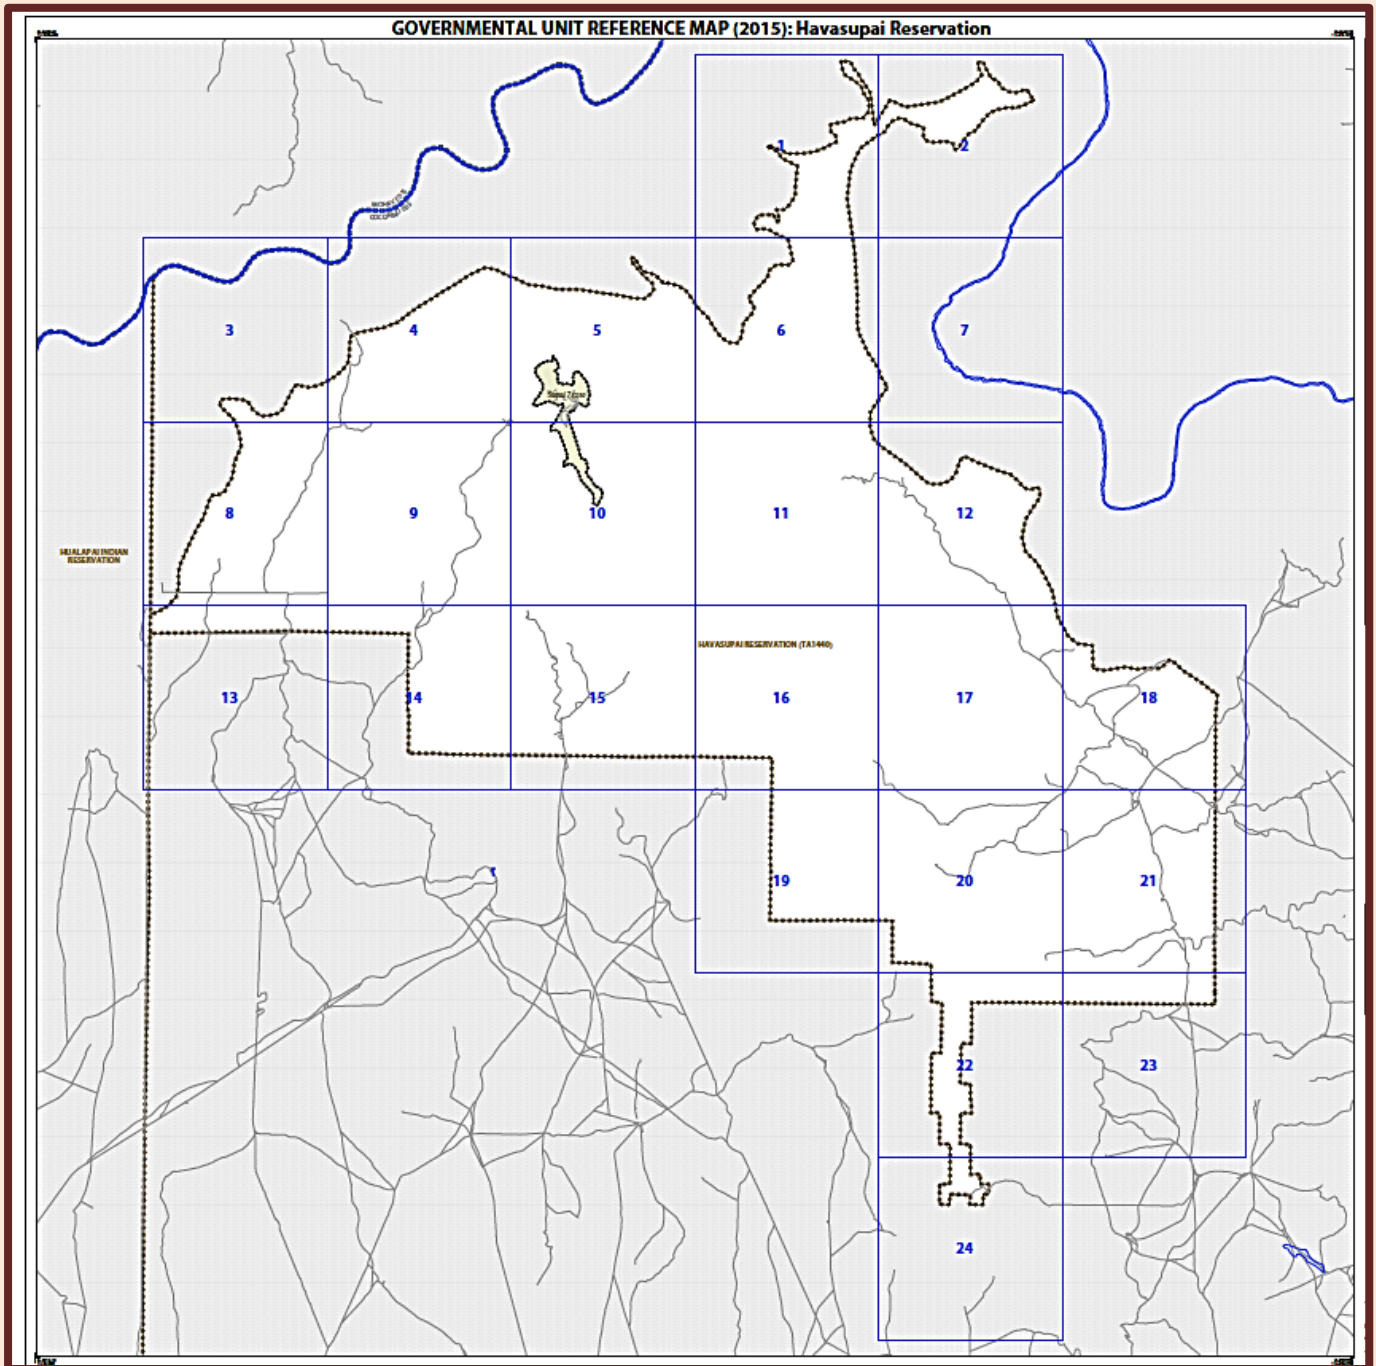

Colorado River Indian Reservation [Chemehuevi, Hopi, Mohave, and Navajo]

Fort Mojave Reservation and Off-Reservation Trust Land

Havasupai Reservation

Hualapai Reservation and Off-Reservation Trust Land

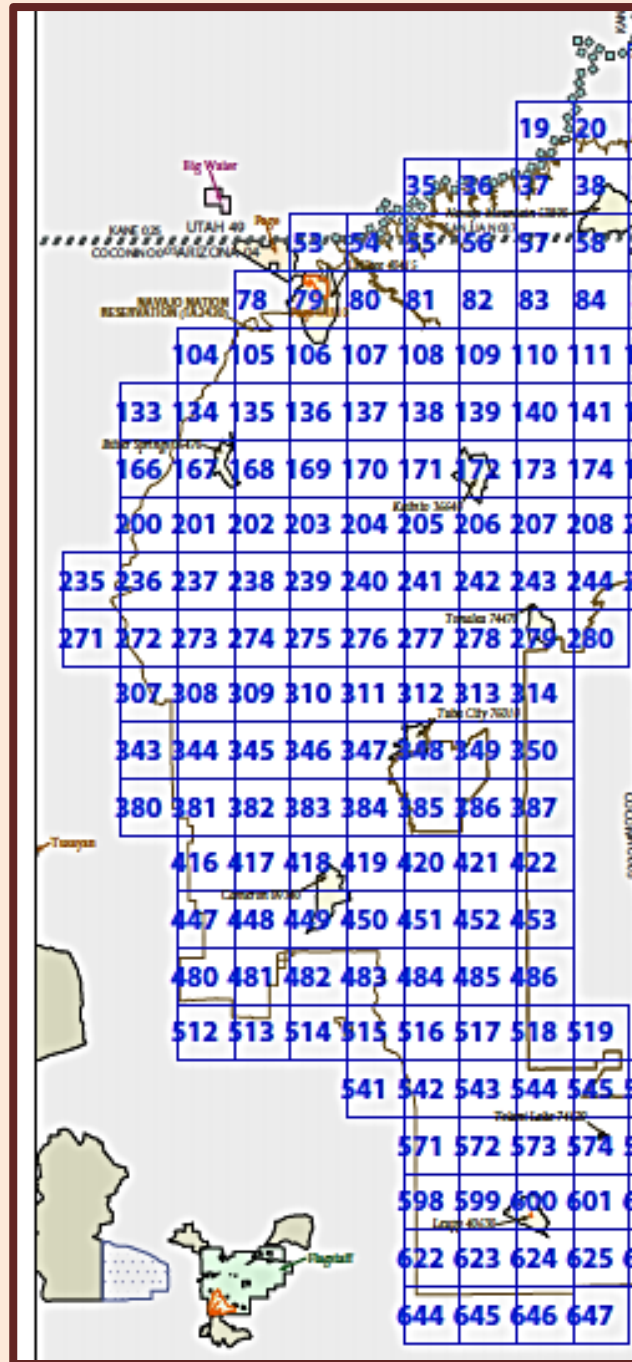

Kaibab Indian Reservation
[Kaibab Band of Paiute Indians]

SECTION 4C. INDEXES TO QUADRANGLES USED FOR U.S. CENSUS BUREAU GOVERNMENTAL UNIT REFERENCE MAPS

Navajo Nation

Only the westernmost section of the Navajo Nation is pertinent to the area of interest here, and the map is cropped accordingly

CALIFORNIA

Cabazon Reservation
[Cabazon Band of Mission Indians]

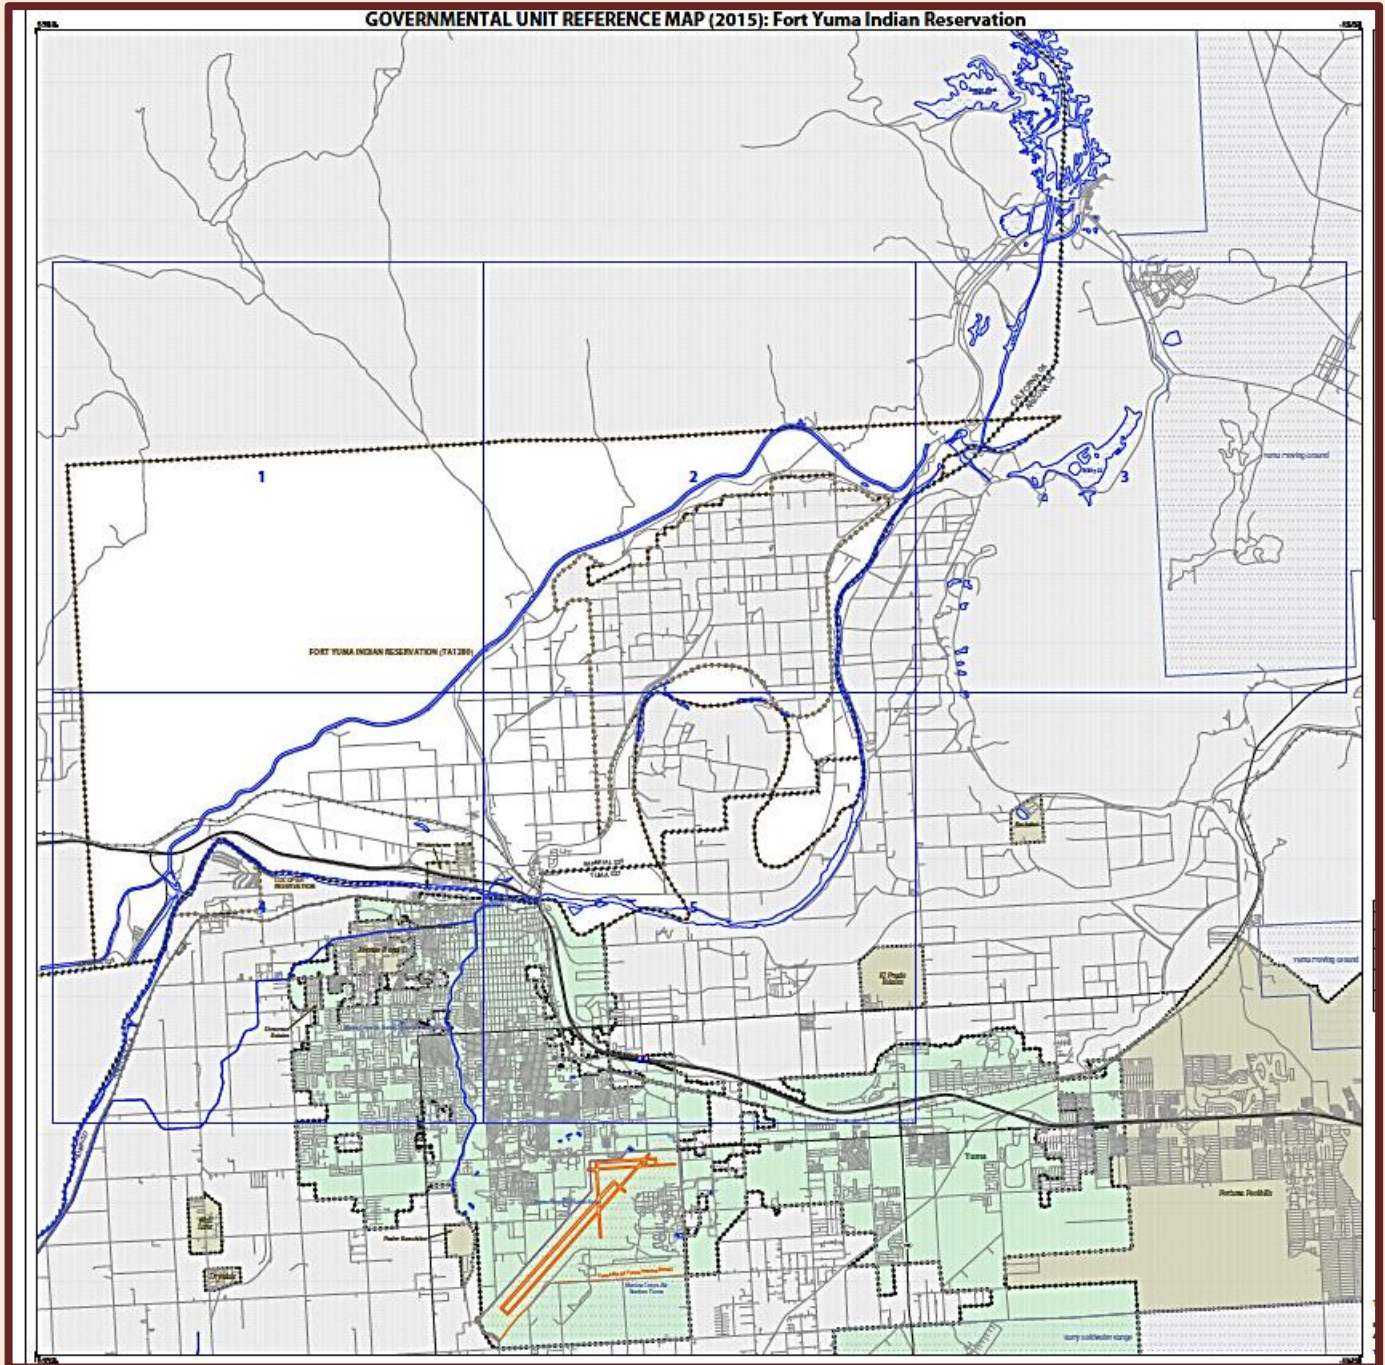

Chemehuevi Reservation

Cocopah Reservation

Fort Yuma Indian Reservation [Quechan Indian Tribe]

NEVADA

Moapa River Indian Reservation
[Moapa Band of Paiute Indians]

CAMP—COLORADO PLATEAU

The RAVEN'S PERCH MEDIA colophon recalls this bird's habit of gathering and caching objects. Derived from original artwork by Balduin Möllhausen, it is a fine detail from the lithograph delineated by J. J. Young that is "General Report Plate VII" in Joseph C. Ives' *Report Upon the Colorado River of the West, Explored in 1857 and 1858* (Washington, 1861), which depicts a wintry camp just south of the Grand Canyon. The scene was sketched and described by Möllhausen on April 10, 1858, while he was perched in a nearby tree. He noted (in translation here), "a couple of ravens [*paar Raben*] croaked morosely on the bare branches of a dried-up fir tree as they waited impatiently for our departure, so that they could scout around the abandoned campsite for fat morsels." (Möllhausen, *Reisen in die Felsengebirge Nord-Amerikas bis zum Hoch-Plateau von Neu-Mexico, unternommen als Mitglied der im Auftrage der Regierung der Vereinigten Staaten ausgesandten Colorado-Expedition*. Hermann Costenoble, Leipzig, 1861, Vol. 2, p. 83.) Möllhausen's original watercolor painting is now in the Amon Carter Museum of American Art (Fort Worth, Texas; <https://www.cartermuseum.org/collection/character-high-table-lands-1988146>).

Raven's Perch Media was created in 2018, but Möllhausen's remarks on this very scene were not discovered until the translation was made for *Möllhausen's Grand Canyon*, another Raven's Perch Media production (2022).

About the Author

My first field of study was geology at Rutgers University in the 1970s. For several years afterward I was in commercial publishing, writing about computer technology — before personal computers. In the early '80s I began an established period of employment in natural history study collections, first at the New Jersey State Museum, then in the Academy of Natural Sciences of Philadelphia. My 18 years in the Academy's employ began in 1986; before that I had been for 12 years a student research assistant and volunteer there. While on staff I was at various times a collection manager in several departments and collections— invertebrate paleontology, paleobotany, mineralogy, malacology, general modern invertebrates (a collection of organisms other than mollusks, insects and arachnids), diatoms, and modern botany; and continued to volunteer in vertebrate paleontology. My publications have embraced each of these fields — as well as historical and bibliographical topics about the Grand Canyon and Colorado River regions. Concurrently, for seven years I was editor and managing editor of the Scientific Publications branch of the Academy, which publishes peer-reviewed articles and monographs from authors around the globe in America's oldest uninterrupted line of serials on natural history, from 1817. My last five years at the Academy was as its Archivist, for which I had studied in the graduate program of Temple University's Department of History. On leaving the Academy in 2005 I continued my affiliation as an elected Research Associate. For the next 14 years I was Reference Archivist in the research library of the American Philosophical Society, a polymathic institution in Philadelphia founded in 1743 by Benjamin Franklin, whose staff supports the society's membership, visiting researchers from around the world, and graduate level researchers on society fellowships. Since November 2018 I am enjoying an active retirement continuing all of these interests.

Following two visits to the Grand Canyon in 1974 that included my first canyon hikes, I began work on a bibliography of the canyon and the lower Colorado River country. In 1981, the Grand Canyon Natural History Association (now the Grand Canyon Conservancy) published the first edition as a part of its new Monograph series of scholarly publications. A second edition appeared in 1990, with a supplement in 1993. In January 2000, a completely revised bibliography was placed on the Association's website, with its own URL, as a searchable database. Frequently updated, it was discontinued in 2021. In 2012, I privately published the first edition of *THE GRAND CANON*, a much-embellished resurrection of the print monograph, in digital format (PDF) that can be viewed in book layout on-screen or printed to paper. The fifth edition (2025), significantly revised, embraces the 16th to 21st centuries and now cites 111,000 items in 115 languages. (The separate *Cartobibliography* includes citations for maps of this period, with extensive chorographical notations.)

In 1989, the 28th International Geological Congress convened in Washington, D.C., which also offered an ambitious series of field trips across the United States, two of them on the Colorado River through Grand Canyon. My first river trip was with an IGC group. In 1990, I began working as a geology interpreter on yearly summer trips in Grand Canyon with a Colorado River outfitter, continuing this until 2001. I participated in two scientific study trips through the canyon under the Glen Canyon Environmental Studies program administered by the U.S. Bureau of Reclamation, on one of which I prospected for living mollusks, the first such investigation ever to have been made along this canyon river. In 1994, I had attended a Penrose Conference sponsored by the Geological Society of America, "From the Inside and the Outside: Interdisciplinary Perspectives on the History of Earth Science." This conference for the first time brought earth scientists and historians together to discuss how each group approaches research in these complementary fields; from it I developed new perspectives in my research activities, which extended into revisions of the Grand Canyon–Lower Colorado River bibliography. In 2000, I attended a geology symposium at Grand Canyon on "The Colorado River: Origin and Evolution," the proceedings of which were edited by Richard A. Young and me. In 2012 I was honored with the annual Pioneer Award from the Grand Canyon Historical Society. Among many affiliations I hold life memberships with the Grand Canyon Conservancy, the Grand Canyon River Guides, and the Arizona–Nevada Academy of Science.
